

2009-2010 Course Catalog

The University Of Montana

Department of Applied Arts and Sciences

Cathy Corr, Chair

The Department of Applied Arts and Sciences provides instruction in five disciplines: communication, mathematics, psychology, science, and writing. The courses from these disciplines are general education core classes for the Associate of Arts Degree (AA) as well as compose the general education core of Associate of Applied Science Degrees (AAS).

Associate of Arts-A.A. Degree

The Department of Applied Arts and Sciences oversees the Associate of Arts Degree. The Associate of Arts Degree is a general education transfer degree and does not officially include a major or minor course of study. To receive an Associate of Arts degree all students must successfully complete all the general education requirements as described by Montana Board of Regents policy 301.10, Appendix 1. Students preparing for specific baccalaureate degree majors may decide to choose specific general education courses that meet the requirements for a major. Students seeking the AA are not required to sit for the upper-division writing proficiency assessment (WPA). The minimum grade average for the 60 credits required for graduation is 2.00 in all courses taken on the traditional letter grade (A-F) basis. Courses in required general education areas must have a C- minimum.

Students may enter in the autumn or spring semester. Following is a suggested first year course of study. Courses numbered below 100 or with a "D" designation and courses with a "T" suffix on the course number do not count toward the 60 credit requirement or general education course requirements, but do count as financial aid credits.

Areas of Emphasis within an Associate of Arts Degree

Although the AA does not officially include a major or minor course of study, students may elect to choose classes in a specific area of interest. Advisors within the departments guide this process.
