

University of Montana Catalog 2015 - 2016

The University of Montana capitalizes on its unique strengths to create knowledge, provide an active learning environment for students, and offer programs and services responsive to the needs of Montanans. The University delivers education and training on its four campuses and through telecommunications to sites inside and outside of Montana. With public expectations on the rise, the University asks its students, faculty, and staff to do and accomplish even more than they have in the past. The University has a commitment to education defined in the broadest sense as personal development and citizen preparation, workforce development and training, graduate education and research, service learning, and community building on and off the campuses. The University enhances its programs through continuous quality review for improvement and remains fully accountable to the citizenry through annual audits and performance evaluations.

The Montana University System - Mission

The following Strategic Plan was adopted by the Board of Regents in July 2006, and updated in January 2010.

More information is available on the [Office of the Provost website](#).

Mission

The Mission of the Montana University System is to serve students through the delivery of high quality, accessible postsecondary educational opportunities, while actively participating in the preservation and advancement of Montana's economy and society.

Vision

We will prepare students for success by creating an environment of ideas and excellence that nurtures intellectual, social, economic, and cultural development. We will hold academic quality to be the prime attribute of our institutions, allocating human, physical, and financial resources appropriate to our educational mission. We will encourage scientific development and technology transfer, interactive information systems, economic development and lifelong learning. We will protect academic freedom, practice collegiality, encourage diversity, foster economic prosperity, and be accountable, responsive, and accessible to the people of Montana.

Introduction

The Montana University System Strategic Plan is the primary planning document of the Board of Regents. The Plan sets forth an agenda for higher education in Montana by delineating the strategic directions, goals, and objectives that guide the Montana University System (MUS).

History

In July 2006, after several years of study, public dialogue, and internal deliberations, the Board of Regents approved the Strategic Plan. Since then, updates have occurred annually, including revisions to strategic initiatives as well as a refreshing of the data within each goal. The development of the Strategic Plan began with two primary initiatives.

The first was to work more closely with the interim legislature to develop a set of mutually agreed upon accountability measures that would guide the MUS and evaluate progress. Working with the Postsecondary Education Policy and Budget (PEPB) subcommittee of the 57th Legislature, the Board of Regents did develop this set of accountability measures in July 2002. Subsequently, the PEPB subcommittee has updated the accountability measures. This latest set of agreed-upon measures evolved into "shared policy goals" and work to form one base for this strategic plan.

The second initiative was to work with the PEPB Subcommittee to explore new ways for the MUS take a more direct leadership role in the state's economic development. This overall effort, called "Shared Leadership for a Stronger Montana Economy", engaged a broad range of Montanans to prioritize specific initiatives that would help establish a new role for the MUS in strengthening the state's economy. The Governor's Office and several legislative interim committees were included in the effort.

In July 2004, the Board of Regents and the PEPB subcommittee met jointly and agreed on three priority initiatives for immediate implementation:

- Develop stronger business-university system partnerships for workforce training;
- Remove barriers to access for postsecondary education; and
- Expand distance learning programs and training.

Goals

The Strategic Plan is comprised of three primary goals that contain a series of sub-goal statements and objectives within each area.

Goal 1: Access & Affordability

Increase the overall educational attainment of Montanans through increased participation, retention and completion rates in the Montana University System.

Goal 2: Workforce & Economic Development

Assist in the expansion and improvement of the state's economy through the development of high value jobs and the diversification of the economic base.

Goal 3: Efficiency & Effectiveness

Improve institutional and system efficiency and effectiveness Maintaining the high quality of our institutions and the education provided to our students is not listed as an explicit goal. This is because it is THE MOST IMPORTANT consideration for every goal and initiative of the Montana University System and is considered to be an integral part of every component of this strategic plan.

University of Montana - Mission

Mission

The University of Montana capitalizes on its unique strengths to create knowledge, provide an active learning environment for students, and offer programs and services responsive to the needs of Montanans. The University delivers education and training on its four campuses and through telecommunications to sites inside and outside of Montana. With public expectations on the rise, the University asks its students, faculty, and staff to do and accomplish even more than they have in the past. The University has a commitment to education defined in the broadest sense as personal development and citizen preparation, workforce development and training, graduate education and research, service learning, and community building on and off the campuses. The University enhances its programs through continuous quality review for improvement and remains fully accountable to the citizenry through annual audits and performance evaluations.

University of Montana Missoula - Mission

Mission

University of Montana-Missoula pursues academic excellence as demonstrated by the quality of curriculum and instruction, student performance, and faculty professional accomplishments. The University accomplishes this mission, in part, by providing unique educational experiences through the integration of the liberal arts, graduate study, and professional training with international and interdisciplinary emphases. The University also educates competent and humane professionals and informed, ethical, and engaged citizens of local and global communities; and provides basic and applied research, technology transfer, cultural outreach, and service benefiting the local community, region, State, nation and the world.

Vision Statements

In pursuit of its mission, University of Montana-Missoula will:

1. Educate students to become ethical persons of character and values, engaged citizens, competent professionals, and informed members of a global and technological society.
2. Increase the diversity of the students, faculty, and staff for an enriched campus culture.
3. Attain the Carnegie Commission status of Doctoral Research–Extensive University (50 or more doctorates in at least 15 fields annually) and increase funded research to \$100,000,000 annually by 2011.

4. Pursue more partnerships—especially with local communities, businesses and industries, public schools, community and tribal colleges, state and local governments and universities abroad—and expand the training and technology transfer programs to promote community and economic development.
5. Develop the capability and infrastructure for use of information technology to increase the efficiency and productivity of the campus and the state; and
6. Involve and engage the faculty, staff, students, alumni, partners, and friends of the University in institutional governance.

Equal Opportunity

University of Montana is committed to a program of equal opportunity for education, employment and participation in University activities without regard to race, color, gender, age, religion, creed, political ideas, marital or family status, physical or mental disability, national origin or ancestry, gender identity, or sexual orientation.

University of Montana - Missoula Strategic Goals

The planning context for the University of Montana is framed by the Montana Board of Regents Strategic Plan. The UM Strategic Plan is also known as Core Themes. It is updated annually and its progress is continuously monitored through the compilation and analysis of key outcomes data.

The following five strategic issues form the foundation of the new UM Strategic Plan. The degree to which the University of Montana attends and adheres to these goals will ultimately determine its continued success and value.

PARTNERING FOR STUDENT SUCCESS

The University will help its students succeed academically and personally so they graduate well-prepared for their careers or further education. The Partnering for Student Success plan identifies six key objectives critical to student success and sets forth actions to promote a successful first year for entering freshmen and to address the needs of returning students. UM seeks to improve students' success by addressing their preparedness for college-level work, improving their transition to college, providing an integrated early curriculum, increasing student engagement and support, and emphasizing faculty and staff development. As part of the plan, UM created the Office for Student Success, which is charged with developing, implementing, and coordinating initiatives to increase students' persistence toward graduation.

EDUCATION FOR THE GLOBAL CENTURY

UM will offer an educational experience at all degree levels that provides graduates the foundation to make positive impacts on a world that is increasingly interconnected. The University's Academic Strategic Plan, endorsed by the Faculty Senate in 2009, identified the need to create a gateway-to-discovery experience focused on the challenges

of the global century for all incoming students at each level of postsecondary education. At the same time, the University recognizes the need to support and strengthen foundational academic programs. For all students, curricula will focus on producing workers and leaders who make a difference in the cultural and economic fabric of Montana and the world.

DISCOVERY AND CREATIVITY TO SERVE MONTANA AND THE WORLD

The University will transform discovery and creativity into knowledge, applications and experiences in ways that benefit the state, region, nation and world. Scholarship, research, and creative work are central to the lives of faculty, students, and staff, and to academic programming at the University of Montana. Therefore, UM supports research, scholarship, and creative work across the natural and physical sciences, social and behavioral sciences, arts, and humanities, and works to enhance opportunities for interdisciplinary connections. By fostering an entrepreneurial spirit in the community of research and technology, UM transforms discovery into application.

DYNAMIC LEARNING ENVIRONMENT

UM will enhance its character as a place where people are passionate about learning, discovery and growth. The University of Montana is consistently recognized as one of the most attractive and enticing campuses in the nation. Community and campus engagement literally means that the lives of the students, faculty, staff, alumni, and friends of the University are centered on the campus. Examples range from sold-out athletic events that feature perennial championship teams, to galleries, campus theaters, and arenas filled to capacity for performances featuring local and world famous artists. UM builds a vibrant and dynamic learning environment, where the natural surroundings are integrated into the curriculum.

PLANNING-ASSESSMENT CONTINUUM

The University will model transparency, systematic communication and sound decision-making to ensure that resources are marshaled to achieve UM's mission. The Planning-Assessment Continuum characterizes a cultural orientation of the University of Montana designed to facilitate desired outcomes, clarify the University's vision and mission, and communicate and demonstrate to internal and external stakeholders that the University is making the best use of its resources. Executive leadership provides communication of mission and vision, clear and consistent processes, overarching mission-driven goals, equitably applied parameters, and rules enforcement, while faculty, staff, and students provide ideas, process improvements, work, action, and other vital contributions to the direction of the University.

Accreditation

The University of Montana-Missoula is accredited by the Northwest Commission on Colleges and Universities (NWCCU).

Accreditation of an institution of higher education by the Northwest Commission on Colleges and Universities indicates that it meets or exceeds criteria for the assessment of institutional quality evaluated through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future.

Institutional integrity is also addressed through accreditation. Accreditation by the Northwest Commission on Colleges and Universities is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding an institution's accredited status by the Northwest Commission on Colleges and Universities should be directed to the administrative staff of the institution.

Individuals may also contact:
 Northwest Commission on Colleges and Universities
 8060 165th Avenue N.E., Suite 100
 Redmond, WA 98052
 (425) 558-4224
www.nwccu.org

Accreditation documents may be reviewed in the Provost's Office, located in University Hall Room 126.

Many of the professional schools and departments have special accreditation as well.

The following table provides detailed information on these special accreditations:

College or School	Department	Degrees	Accrediting Institution
College of Humanities and Sciences	Chemistry	BS, MS, PhD	American Chemical Society (ACS)
College of Humanities and Sciences	Computer Science	BS	Computing Accreditation Commission of ABET
College of Humanities and Sciences	Psychology, Clinical	PhD	American Psychological Association

College or School	Department	Degrees	Accrediting Institution
College of Humanities and Sciences	School Psychology	EdS, PhD	National Association of School Psychologists and American Psychological Association
School of Business Administration	Accounting	BS, MAcct	Association to Advance Collegiate Schools of Business (AACSB-International)
School of Business Administration	Business	BS, MBA	Association to Advance Collegiate Schools of Business (AACSB-International)
Missoula College	Food Service Management	AAS	American Culinary Federation Educational Institute (ACFEI)
Missoula College	Nursing	AS	Accreditation Commission for Education in Nursing (ACEN)
Missoula College	Paralegal Studies	AAS	American Bar Association (ABA)
Missoula College	Pharmacy Technology	Certificate	American Society of Health System Pharmacists (ASHSP)
Missoula College	Respiratory Care	AAS	Committee for Accreditation of Respiratory Care (CoARC w/CAAHEP)
Missoula College	Surgical Technology	AAS	Commission on Accreditation of Allied Health Education Programs (CAAHEP)
Phyllis J. Washington College of Education and Human Sciences	Athletic Training	BS	Commission on Accreditation of Allied Health Education (CAATE)

College or School	Department	Degrees	Accrediting Institution
Phyllis J. Washington College of Education and Human Sciences	Counselor Education	MA, Mental Health Counseling; and School Counseling	Council for Accreditation of Counseling and Related Educational Programs (CACREP)
Phyllis J. Washington College of Education and Human Sciences	Communication Science and Disorders	MS in Speech- Language Pathology	American Speech Language Association-Council on Academic Accreditation (ASHA)
Phyllis J. Washington College of Education and Human Sciences	Education	BA, MEd, EdS,	National Council for Accreditation of Teacher Education (NCATE); Montana Board of Public Education
Phyllis J. Washington College of Education and Human Sciences	Co-Teach Preschool, Institute for Educational Research and Service	n/a	National Association for the Education of Young Children (NAEYC)
College of Visual and Performing Arts	Art & Media Arts	BA, BFA, MA, MFA	National Association of Schools of Art and Design (NASAD)
College of Visual and Performing Arts	Theater & Dance	BA, BFA, MA, MFA	National Association of Schools of Theater (NAST)
College of Visual and Performing Arts	Music	BA, BM, BME, MM	National Association of Schools of Music (NASM)
College of Forestry and Conservation	Forest Resources Management	BS	Society of American Foresters (SAF)
College of Forestry and Conservation	Recreation Management	BS	National Recreation and Park Association/American Association for Leisure and Recreation (NRPA/AALR)

College or School	Department	Degrees	Accrediting Institution
School of Journalism	Journalism	BA	Accrediting Council on Education in Journalism and Mass Communications (ACEJMC)
School of Law	Law	JD	American Bar Association (ABA) American Association of Law Schools (AALS)
College of Health Professions and Biomedical Sciences	Pharmacy	PharmD	Accreditation Council for Pharmacy Education (ACPE)
College of Health Professions and Biomedical Sciences	Public Health	MPH	Council on Education for Public Health (CEPH)
College of Health Professions and Biomedical Sciences	Physical Therapy	DPT	Commission on Accreditation in Physical Therapy Education (CAPTE)
College of Health Professions and Biomedical Sciences	Social Work	BA	Council on Social Work Education (CSWE)
College of Health Professions and Biomedical Sciences	Social Work	MSW	Council on Social Work Education (CSWE)
The University of Montana	Department of Laboratory Animal Resources	n/a	Association for the Assessment and Accreditation of Laboratory Animal Care International (AAALAC)

University Officers

2015-2016 Academic Year

Montana Board of Regents of Higher Education

- Fran Albrecht (Vice Chair) - Missoula
- Asa Hohman (Student Regent) - Missoula
- William Johnstone - Great Falls
- Robert A. Nystuen - Kalispell
- Martha Sheehy - Billings
- Paul Tuss (Chair) - Havre
- Clayton Christian, Commissioner of Higher Education (ex-officio)
- Denise Juneau, Superintendent of Public Instruction (ex-officio)
- Steve Bullock, Governor (ex-officio)

President's Cabinet

- Royce C. Engstrom, Ph.D. – President
- Perry J. Brown, Ph.D. – Provost and Vice President for Academic Affairs
- Teresa Branch, Ph.D. – Vice President for Student Affairs
- Lucy France, J.D. – Legal Counsel
- Shane Giese, M.B.A. – President/CEO, University of Montana Foundation
- Kent Haslam, M.Ed. – Athletic Director
- William Johnston, M.P.A. – President/CEO, University of Montana Alumni Association
- Peggy Kuhr, M.A. – Vice President for Integrated Communication
- Michael Reid, M.B.A. – Vice President for Administration and Finance
- Matt Riley, M.B.A. – Chief Information Officer
- Jessica Weltman, J.D. – Director, Equal Opportunity and Affirmative Action Office
- Scott Wittenburg, Ph.D. – Vice President for Research and Creative Scholarship

Academic Officers

- Larry Abramson, M.A. - Dean, School of Journalism
- Christopher Comer, Ph.D. - Dean, College of Humanities and Sciences
- Roberta Evans, Ph.D. - Dean, Phyllis J. Washington College of Education and Human Sciences
- Wayne Freimund, Ph.D. - Interim Dean, College of Forestry and Conservation
- Larry Gianchetta, Ph.D. - Dean, School of Business Administration
- Reed Humphrey, Ph.D. - Dean, College of Health Professions and Biomedical Sciences
- Joseph Hickman, M.A. - Registrar

- Paul Kirgis, J.D. - Dean, School of Law
- Nathan Lindsay, Ph.D. - Associate Provost for Dynamic Learning
- Stephen Kalm, D.M.A. - Dean, College of Visual and Performing Arts
- Roger Maclean, Ed.D. - Dean, School of Extended and Lifelong Learning
- Shannon O'Brien, Ph.D. - Dean, Missoula College
- Sharon O'Hare, M.A. - Associate Vice President for Enrollment and Student Success
- J. B. Alexander Ross, Ph.D. - Dean, Graduate School
- Brock Tessman, Ph.D. - Dean, Davidson Honors College
- Shali Zhang, Ph.D. - Dean, Mansfield Library

Reserved Rights

The right is reserved to change any of the rules and regulations of the University at any time including those relating to admission, instruction and graduation. The right to withdraw curricula and specific courses, alter course content, change the calendar, and to impose or increase fees similarly is reserved. All such changes are effective at such times as the proper authorities determine and may apply not only to prospective students but also to those who already are enrolled in the University.

The 2015-2016 Calendar

The 2015-2016 Academic Calendar (as well as previous and future calendars) may be viewed on the [Provost Office web page](#).

A Listing of Important Dates and Deadlines may be viewed on the [Registrar's Office Calendar web page](#).

Bachelor Degree Admission – Entering Freshmen

Academic Eligibility

The University continues to raise the academic standards required for full admission to Baccalaureate programs, and the process will continue in future years. For the current academic year both in-state and out-of-state high school graduates will be offered full admission if they meet the requirements below.

Some departments reserve the right to set higher admission standards for their undergraduate programs. Applicants to these programs will be admitted to the appropriate pre-major program by Enrollment Services-Admissions. Application to the undergraduate degree program is an additional, separate process administered by the department and arranged for by the student seeking acceptance.

1. Graduation from a state accredited high school.
2. Successful completion of the following College Preparatory program:
 - Four years of English.
 - Three years of math, including Algebra I, Geometry and Algebra II (or the sequential content equivalent of these courses). Students are encouraged to take a math course in their senior year.

- Three years of social studies, including one year global studies (i.e., world history or world geography), one year American history and one year of additional course work (i.e., government, psychology, economics).
 - Two years of laboratory science. One year must be earth science, biology, chemistry, or physics; the other year can be one of those sciences or another approved college prep laboratory science.
 - Two years chosen from the following: foreign language (preferably two years), computer science, visual and performing arts, or vocational education units.
3. Students must meet one of the following admissions requirements:
- ACT composite of 22, or
 - SAT combined score of 1540, or
 - a 2.50 cumulative grade point average, or
 - class rank in the upper half of the graduating class.
 - Students whose tests or GPA are significantly below this level may be admitted on a conditional basis.
4. Students must meet a minimum Math Proficiency score of:
- 22 on the ACT Math section or
 - 520 on the SAT Math section or
 - A score of 3 or above on the AP Calculus AB or BC Subject Exams. In lieu of the above requirement, students can complete a Rigorous High School Core that includes four years of math with grades of C or higher and three years of lab science or
 - 4 on the International Baccalaureate Calculus Exam.
5. Students must meet a minimum Writing Proficiency score of:
- 18 on the Combined English/Writing section of the Optional Writing Test or a 7 on the Writing Subscore of the ACT; or
 - 440 on the Writing Section of the SAT or a 7 on the Essay the SAT; or
 - 3.5 on the Montana University System Writing Assessment; or
 - 3 on the AP English Language or English Literature Examination; or
 - 4 on the International Baccalaureate Language A1 Exam or
 - 50 on the CLEP Subject Exam in Composition.

Home-Schooled Students

Information on admission requirements for home-schooled students or students who graduate from a non-accredited high school can be found at the [UM admissions home school web page](#).

Traditional-Age Freshmen with GED

In future years, the academic criteria for full admission to Baccalaureate programs at The University will continue to rise. Students who fail to meet these stricter admission standards may be admitted on a conditional basis (see above).

How to Apply

Applications for admission are available from Enrollment Services-Admissions by request or are available on the [University Admissions website](#). An application for admission is complete when Enrollment Services-Admissions receives the credentials described below.

1. Application form. Applications must be complete and signed.
2. Application Fee. The fee is \$30. This non-refundable fee is payable once at the undergraduate level provided payment is followed by enrollment. Record of payment will remain on file for one year for students who do not enroll. Applications are not processed prior to payment of this fee. The University of Montana-Missoula waives the application fee for students who have attended an affiliate campus: Montana Tech or Highlands College (former College of Technology) in Butte, Helena College (formerly Helena College of Technology), and University of Montana-Western in Dillon.
3. Test scores. Official ACT or SAT results should be sent directly from the testing company or may be posted on the high school transcript.
4. Final high school transcripts. Transcripts should be submitted after graduation and must include a graduation date and final GPA. Eligibility for admission and scholarships will be verified from this transcript.
5. Immunization Form. All students are required to submit a completed Medical Requirement Form to the Curry Health Center prior to registration. It is important that the immunization record be complete, accurate and validated by a health official.

When to Apply

Applications and all required documents submitted by the following dates will receive priority consideration:

- March 1 - Fall semester
- November 15 - Spring semester

Applications received after the priority dates are considered on a space-available basis.

Transfer Students

Academic Eligibility

Undergraduate degree applicants who have graduated from high school or have earned a HiSET or GED and have attempted twelve or more college level credits must meet the academic eligibility requirements described here. Any

undergraduate degree transfer applicant who has attempted fewer than twelve college level credits must meet the academic eligibility requirements for freshman mentioned in the freshman admission section.

Applicants must present a 2.00 (C) cumulative grade average (on a 0-4 scale) for all college level work attempted to be eligible for admission.

How to Apply

Applications for admission are available from Enrollment Services-Admissions by request or are available on the [University Admissions Transfer web page](#).

Receipt of the following credentials in Enrollment Services-Admissions constitutes a complete application for admission:

1. Application Form. Applications must be complete and signed.
2. Application Fee. The fee is \$30.00. This non-refundable fee is payable once at the undergraduate level provided payment is followed by enrollment. Record of payment will remain on file for one year for students who do not enroll. An application cannot be considered prior to payment of this fee. The University of Montana-Missoula waives the application fee for students who have attended an affiliate campus: Montana Tech, Montana Tech College of Technology, Helena College of Technology, and University of Montana Western.
3. Official College/University Transcripts. The student must supply a complete official transcript from each regionally accredited college or university attended, and from each college or university attended holding candidate status for regional accreditation. Applications from students who are enrolled at the transfer school while applying to UM will be considered for admission based on current official transcripts showing all academic work completed and posted to date. The final official transcript must be on file before the second registration at UM. Academic eligibility will be reviewed upon receipt of the complete transcript.
4. Immunization Form. All students are required to submit a completed Medical Requirement Form to the Curry Health Center two weeks prior to registration. It is important that the immunization record be complete and accurate and validated by a health official. Students born after December 31, 1956 must submit proof of immunization or titer against Rubella and measles (Rubeola). Students will not be allowed to register until the Curry Health Center has received proof of immunization.

When to Apply

Applications and all required documents submitted by the following dates will receive priority consideration:

- March 1 - Autumn semester
- November 15 - Spring semester

Applications received after the priority dates are considered on a space-available basis.

General Education for Transfer Students

Students transferring credits from other institutions must meet all requirements by transfer, by examination, or by completing courses at the University of Montana-Missoula.

According to Board of Regents policy, students who can demonstrate that they have completed an approved lower-division general education requirement at an approved Montana institution of higher education will be deemed to have completed general education requirements except for the advanced writing requirements in their majors.

Montana University System transfer students who have completed the lower-division course work in an approved general education program prior to admission should request that the Registrar of the other school certify completion of these requirements to the Admissions Office.

Students who have earned 20 or more credits equivalent to the approved Montana University System Transfer Core (see [MUS Transfer core website](#)) as a degree-seeking student at another institution prior to their initial registration at UM-Missoula may choose to complete the MUS Transferable General Education Curriculum to satisfy all UM lower division General Education requirements. Students will still have to complete UM's advanced writing requirement.

In order to determine if transfer course work satisfies General Education requirements, the credits for each course are rounded. For example, if a student transfers in two N-courses each worth 2.66 credits, each course counts as 3 N-credits towards the Group XI requirement. On the other hand, an L-course worth 2.49 credits does not satisfy the Group V requirement of 3 L-credits.

Students who have completed a bachelor degree at the University or elsewhere will be presumed to have completed the General Education Requirement.

Admissions & New Student Services will evaluate all transfer credits for General Education credit. Students who wish to appeal that evaluation may petition the Graduation Appeals Subcommittee of the Academic Standards and Curriculum Review Committee, but such petitions must be initiated during the first semester of the student's attendance following that evaluation.

Writing Course Requirement Regarding Transfer Students

The Admissions Office (406-243-6266) evaluates transcripts for course equivalencies with the exception of UM's approved writing courses. If transfer students believe a transfer course meets the approved writing course requirement defined in the [Faculty Senate Writing Committee guidelines](#) they may petition for an exemption through the Writing Committee. These students must provide the following information to the Writing Committee. Appeal information should be submitted to the Faculty Senate Office, UH 221, camie.foos@mso.umt.edu, 243-5553.

1. A cover letter outlining the basis for the request. Include pertinent information such as contact information, student ID number, and how you fulfilled this requirement in a course at your previous institution.
2. A syllabus and course description. The course must include at least 16 pages of writing for assessment and at least 50% of the course grade should be based on your performance on writing assignments.
3. Three papers from any college class with original instructor comments. Original instructor comments are those grading and feedback markings on papers that are returned to the student for revision or at the end of the term. Papers without these comments will not be considered. At least one of these papers must be at least six pages long and include a bibliography or works cited. Your papers should demonstrate your ability to:
 - Use writing to learn and synthesize new concepts
 - formulate and express written ideas that are developed, logical, and organized
 - Compose written texts that are appropriate for a given audience, purpose, and context
 - Revise written work based on comments from the instructor
 - Find, evaluate, and use information effectively and ethically
 - Begin to use discipline-specific writing conventions
 - Demonstrate appropriate English language usage.

Incomplete packets will not be evaluated.

This information pertains only to the intermediate writing course, not the advanced writing requirement. Students should speak to their major department regarding any issues relating to the advanced writing requirement.

Bachelor of Applied Science Admission

Academic Eligibility

Applicants must hold an Associate of Applied Science degree from an accredited institution with a minimum cumulative grade average of 2.5.

How to Apply

UM baccalaureate applications are available from Enrollment Services-Admissions or the Missoula College by request or are available on the [Missoula College website](#). Applicants should contact the Bachelor of Applied Science advisor at Missoula College, 406-243-7801. The applicant and advisor meet to discuss application procedures as well as degree plan identification and required approval.

Receipt of the following constitutes a complete application toward completing a B.A.S. degree:

1. Application Form. Applications must be complete and signed.
2. Official college/university transcripts. The student must supply a complete official transcript from each regionally accredited college or university attended.

3. Application Fee. The fee is \$30 (if the applicant is new to The University of Montana system).
4. Immunization Form. All students are required to submit a completed Medical Requirement Form to the Curry Health Center two weeks prior to registration if the applicant is new or has been absent for more than 24 months from the University of Montana system.

When to Apply

Applications from students who hold an A.A.S. degree with a GPA of 2.5 are accepted on a continuing basis. Applicants in the process of completing the A.A.S. degree are encouraged to begin the application process during their final semester. Students are not, however, admitted until after the A.A.S. degree has been awarded.

General Admission Information

Advanced Placement (AP) Program/College Level Examination Program (CLEP)

College credit may be granted based on achievement in college level high school courses, provided the University has received satisfactory scores from the College Level Entrance Examination Program (CLEP) or the Advanced Placement Program (AP) examinations.

It should not be assumed that credit granted by other colleges/universities would be allowed by UM. Specific questions regarding the Advanced Placement Program should be directed to Enrollment Services-Admissions.

The University policy for awarding credit on the basis of AP/CLEP is available on the [Admissions Advanced-Credit web page](#).

International Baccalaureate

The University of Montana recognizes IB achievement and grants college credit provided the University has received satisfactory scores from the International Baccalaureate Program. University policy on awarding IB credit is available on the [Admissions Advanced-Credit web page](#).

Foreign Language Placement

Transfer credit is not granted for high school foreign languages. Placement testing is done by the Department of Modern and Classical Languages and Literatures to determine appropriate class placement for entering students.

Immunization Requirements

Montana state law requires postsecondary students to provide proof of immunization. Students must complete the Medical Requirement Form and return the form to the Curry Health Center prior to orientation and registration.

Registration cannot be completed without this documentation. A Medical Requirement Form is sent with the admission acceptance letter. For additional information visit the [Curry Health Center website](#).

High School Pilot Program

Area high school juniors and seniors of outstanding ability can enroll in University classes under the High School Pilot Program. Students must have approval from their high school counselor/principal and parent/guardian if under age 18. High school students earn college credit, receive an early introduction to University opportunities and are able to develop skills and knowledge beyond the high school level. For more information, contact the Coordinator of the High School Pilot Program, Enrollment Services-Admissions, Lommasson Center 101, The University of Montana-Missoula, Missoula, MT 59812 or phone (406) 243-6266. For opportunities in the Missoula College, phone (406) 243-7828.

Dual Credit Program

The Dual Credit Program enables high school juniors and seniors of outstanding ability to earn college credit in certain high school courses. Students must have approval from their high school counselor/principal and parent/guardian if under age 18. For information, contact the Missoula College at (406) 243-7828.

International Student Exchange Program (ISEP)

The University of Montana is a member of the International Student Exchange Program (ISEP), which allows University of Montana students to spend a semester, a year, or a summer abroad at one of ISEP's 141 member institutions in 42 foreign countries. ISEP offers reciprocal exchanges (students pay their home tuition, room and board, and create a space for an incoming international student) and ISEP-Direct programs (students pay a program fee covering tuition, room and board through the University of Montana to ISEP). Other expenses for which the student is responsible include: books and supplies, local transportation, round-trip airfare, or personal expenses.

For information on ISEP, please contact International Programs, International Center, The University of Montana-Missoula, Missoula, MT 59812 or phone (406) 243 2288.

National Student Exchange (NSE)

The University of Montana-Missoula participates in the National Student Exchange (NSE) program with 190 other state colleges and universities. This program offers students the opportunity to become better acquainted with different social and educational patterns in other areas of the United States. NSE encourages students to experience new life and learning styles, appreciate differing cultural perspectives, learn more about themselves and others and broaden their educational backgrounds through specialized courses or unique programs which may not be available on the home campus. Qualified students may participate in the exchange program for up to one academic year. For more information, contact the Coordinator of the National Student Exchange Program,

Enrollment Services-Admissions, Lommasson Center 101, The University of Montana-Missoula, Missoula, MT 59812 or phone (406) 243-6266. Find more information on the [National Student Exchange website](#).

Special Admission Committee

A special admission committee reviews applications from students who do not meet the regular admission standards.

Enrollment Limitation

The University of Montana-Missoula may deny or condition admission, readmission, or continuing enrollment of any individual who, in the judgment of the University, presents an unreasonable risk to the safety and welfare of the campus and persons thereon. In making such judgment, the University may, among other things, take into account the individual's history and experience relative to (a) violence and destructive tendencies, (b) behavior on other college campuses, and (c) any rehabilitative therapy the individual may have undergone.

The University of Montana-Missoula adopts the following Admission Review Procedures:

The Assistant Vice President for Enrollment, the Dean of the Graduate School or the Chair of the Admissions Committees of the various professional schools at The University of Montana-Missoula shall be responsible for the administration of the Admissions Review procedures established to implement Board of Regents policy. When the responsible admissions officer has reason to believe an applicant may present an unreasonable risk to the safety and welfare of the campus and persons thereon, additional information regarding the applicant's background and experiences shall be requested. No applicant's admission may be barred automatically, solely by reason of a criminal conviction, if state supervision has terminated, or solely by reason of a youth court adjudication. The responsible admissions officer may request additional information in the following instances: (1) When an applicant has been convicted of a felony; (2) When an applicant has been adjudicated as a danger to others or to self; (3) When an applicant has been suspended or expelled for disciplinary reasons from other educational institutions, either before or after the applicant has been accepted at The University of Montana-Missoula; (4) When, on the basis of other facts, the Assistant Vice President for Enrollment or other responsible officer has reason to believe an applicant may present an unreasonable risk to the safety and welfare of the campus and persons thereon.

After obtaining additional information, the responsible admissions officer may admit the applicant or refer the application to the Admissions Review Committee for review and recommendation.

Evaluation of Transfer Credits

Evaluation of transfer credits is determined by Enrollment Services-Admissions at the time of admission. The evaluation is included in the acceptance packet and in the advising materials distributed during orientation. All college-level credits from regionally accredited colleges and universities will be accepted for transfer. Credits from

colleges or universities that are candidates for regional accreditation will be accepted only after the student has successfully completed twenty semester credits at UM. Course work from unaccredited schools is not accepted or evaluated unless an individual exception is requested by the student and approved by a committee composed of the Academic Vice President, Assistant Vice President for Enrollment and the Registrar.

Enrollment Services-Admissions determines whether or not courses are college-level, the appropriate grading and credit conversion and the applicability of the transfer courses to UM's general education requirements. Transfer courses graded C- or above will count toward general education and major, minor, option or certificate requirements. Transfer courses with grades of D or D- transfer as elective credit. The student's major department may further evaluate the applicability of transfer courses to the student's selected program of study. College-level courses which do not have an equivalent at UM will be accepted as elective credits.

Up to 15 credits of vocational-technical course work from regionally accredited schools are accepted as free electives in transfer toward an AA, AS, or baccalaureate program. Up to 20 credits may transfer for students completing an AAS degree. Missoula College technical courses are designated by a course number suffix of "T."

Elective credit may be given for military courses according to the recommendations in the American Council (ACE) Service Guide. Elective credit may also be given for training programs recommended by the ACE Guide.

The University of Montana database of courses transferable from colleges and universities is available on the [Admissions transfer credit web page](#).

Students who wish to appeal a decision regarding acceptance of transfer credit should contact Enrollment Services-Admissions to receive information on the appeal process.

Evaluation of Transfer Credit-Missoula College

Missoula College students must submit official transcripts for evaluation. If a student feels that a course taken at another institution may substitute for a specific Missoula College course, the evaluation will be done by the associate dean and the chair of the department of the equivalent course. Transfer courses graded C- or above will count toward general education requirements. Transfer courses with grades of D or D- transfer as elective credit. The student's major department may require a grade above C- to meet specific major requirements.

Western Interstate Commission for Higher Education

The Western Interstate Commission for Higher Education's Professional Student Exchange Program enables students in thirteen western states to enroll in out of state professional programs when those programs are not available in their home states. Exchange students receive preference in admission. They pay reduced levels of tuition: for most students, resident tuition in public institutions or reduced standard tuition at private schools. The home state pays a support fee to the admitting schools to help cover the cost of students' education.

The following professional programs are not available in Montana but are supported by the Montana WICHE program. They are dentistry, medicine, occupational therapy, optometry, osteopathic medicine, podiatry, public health and veterinary medicine.

The Certifying Officer for the State of Montana can be contacted for specific details about the program. WICHE Student Exchange Program, Montana University System, 2500 Broadway, Helena, MT 59620. (406)444-6570 or Fax: (406) 444-1469.

Western Undergraduate Exchange Program (WUE)

The Western Undergraduate Exchange (WUE) Scholarship program at The University of Montana-Missoula is a highly competitive academic merit based scholarship which is strictly monitored. Awards are decided upon a comprehensive review of a student's cumulative G.P.A. and test scores. When undergraduate students apply and are admitted from a WUE state they are automatically considered for the WUE, if not eligible for the WUE they are reviewed for other awards. The WUE states are limited to students who are legal residents of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming. Please note: Only first time incoming freshman and new transfer students are eligible for the WUE scholarship. *Currently enrolled students not originally awarded WUE, post-baccalaureate students and returning students are not eligible for WUE.*

The amount of the WUE scholarship will always represent the 150% of the cost of Montana resident tuition and fees. The WUE scholarship will automatically be renewed each semester providing students follow all conditions of the WUE Scholarship.

The conditions of the WUE Scholarship are:

- The award is in effect for four years or until completion of a bachelor's degree (120 credits) whichever comes first.
- You must maintain a 3.0 grade point average and register for at least 15 credits each consecutive term of enrollment. Please note that completion of 15 credits per semester leads to graduation within four years.
- Tuition and fees at UM between 12 – 21 credits costs the same. The best way to maximize your tuition dollars is by taking advantage of this cost savings during your scholarship eligibility.
- You may not earn Montana residency for fee purposes at any unit of the Montana University System.
- If you change your status to Distance Only or if you transfer your enrollment to the Missoula College your Western Undergraduate Exchange Scholarship will no longer apply.

To be eligible for the WUE scholarship first time incoming freshman and transfer students must apply for admission and be admitted to The University of Montana. Awarding of the WUE will occur on a space available rolling basis with priority given to those who apply before December 31st. Further details are available from the [Enrollment Services-Admissions Office website](#).

Student Conduct Code

The Student Conduct Code, embodying the ideals of academic honesty, integrity, human rights and responsible citizenship, governs all student conduct at The University of Montana-Missoula. Student enrollment presupposes a commitment to the principles and policies embodied in this Code. The Student Conduct Code sets forth University jurisdiction, student rights, standards of academic and general student conduct, disciplinary sanctions for breach of the standards of student conduct and procedures to be followed in adjudicating charges of both academic and general misconduct. The Vice President for Student Affairs is responsible for procedural administration of the Student Conduct Code for all general conduct. The Provost and Vice President for Academic Affairs is responsible for all academic conduct. Copies of the Student Conduct Code can be obtained from the offices of the Vice President for Student Affairs, the Provost and Vice President for Academic Affairs, Residence Life, and Associated Students of The University of Montana-Missoula (ASUM). The Student Conduct Code also can be accessed from the [Vice President for Student Affairs Student Conduct Code web page](#).

Service Members Opportunity College

The University is a member of Service members Opportunity Colleges, a consortium of over 1300 institutions pledged to be reasonable in working with service members and veterans trying to earn degrees.

Associate of Applied Science, Associate of Arts and Certificate Admission

The Associate of Applied Science and Certificate of Applied Science programs in the Missoula College are designed to lead an individual directly to employment in a specific career path. In some instances, particularly in allied health, the degree is a prerequisite for taking a licensing examination. Students may pursue a baccalaureate degree at the University of Montana after completing an AAS degree through a Bachelor of Applied Science degree plan. The Associate of Arts degree is a University of Montana transfer degree which offers students the opportunity to complete a 60 credit transfer degree toward completing a baccalaureate degree at the University of Montana or other accredited institutions of higher education.

Academic Eligibility

To be eligible for admission, students must have graduated from an accredited high school or passed the HiSET or GED. Students interested in becoming University of Montana (Mountain Campus) students must meet the admission requirements of the University of Montana.

How to Apply

Applications are available from Enrollment Services-Admissions or the Missoula College by request or are available on the [Missoula College website](#).

An application for admission is complete when the Missoula College receives the credentials described below.

1. Application form. Applications must be completed and signed.
2. Application fee. The fee is \$30. This non-refundable application fee is payable once at the undergraduate level provided payment is followed by enrollment. Record of payment will remain on file for one year for students who do not enroll. The University of Montana-Missoula waives the application fee for students who have attended an affiliate campus: Montana Tech and the Missoula College, UM Helena College of Technology, and University of Montana-Western.
3. Proof of high school graduation/HiSET/GED. An official high school transcript with graduation date or GED score report must be sent to the Missoula College.
4. All students are required to submit a completed Medical Requirement Form to the Curry Health Center two weeks prior to registration. It is important that the immunization record be complete and accurate and validated by a health official. Students born after December 31, 1956 must submit proof of immunization or titer against Rubella and measles (Rubeola). Students will not be allowed to register until the Curry Health Center has received proof of immunization.

Critical Information Required Prior to Advising and Completion of Registration:

All students are required to take either the ACT, SAT or Compass-E-Write test and submit scores (associated with writing) to the Admissions Office. Montana students may submit the Montana University System Writing Assessment Score (MUSWA) in lieu of these tests.

In addition to providing the required placement scores for writing courses, the academic departments of the Missoula College require course placement information for math courses. Students must provide ALEKS placement score information or transfer course approval. This information is critical to the advising process and the student registration process; neither of which will be completed without the information being supplied prior to the process.

When to Apply

Applications are considered on a first come, first-served basis. The Missoula College will notify applicants of their status once their application has been processed.

International Student Admission

The University of Montana-Missoula International Programs-International Admissions Office will issue the Immigration Form I-20 (necessary for obtaining an F 1 student visa) to international applicants who are academically eligible for the undergraduate degree status (see above) and who supply complete credentials as described below. In certain situations an international applicant may not need an I- 20; in these cases, International Programs-International Admissions should be contacted for individual advice regarding admission status, academic eligibility, and admission requirements. International students are encouraged to submit ACT or SAT scores if available, but ACT or SAT scores are not required for admission.

How to Apply

Receipt of the following credentials constitutes a complete international application for admission:

1. International application form. This form can be obtained by contacting International Programs-International Admissions. The form must be complete and signed. Applications are also available on the [UM Admissions International web page](#).
2. \$30.00 paper application fee. This non refundable fee is payable once at the undergraduate level when payment is followed by enrollment. In all other cases record of payment will remain on file for one year. Payment of this fee is expected prior to consideration of the application. The University of Montana-Missoula waives the application fee for students who have attended an affiliate campus: Montana Tech and the Division of Technology, Helena College of Technology, and Western Montana College.
3. Academic Credentials:
 1. Official or certified copies of non-U.S. academic credentials beginning with secondary school and continuing through the highest level of achievement. The transcripts must be in the original language accompanied by an English translation. The applicant may make the translation themselves. Photocopied, scanned, or emailed copies will not be accepted.
 2. U.S. transcripts. Complete official transcripts showing all U.S. high school and college/university attendance.
4. Statement of Financial Support. The applicant must submit a certified statement from a bank or sponsor verifying that adequate financial resources are available to pay for the student's estimated expenses for the first year (tuition, fees, room, board, miscellaneous expenses, student health insurance, expenses of dependents, etc.). This estimated amount is adjusted annually and is available by contacting International Programs-International Admissions.
5. English Language Proficiency. An official score report showing one of the following:
 - 70 IBT (or 500 PBT) on the Test of English as a Second Language (TOEFL).
 - 6.0 on the International English Language Testing System (IELTS).
 - 74 on the Michigan English Language Assessment Battery (MELAB).

- SAT Writing Score of 440/ACT score of 18 on the Combined English/Writing section.
- 525 PBT or recommendation from UM's English language Institute.
- Grade Pre-1 on the STEP EIKEN test.
- Successful completion of level 112 at an ELS Language Center.
- Successful completion of Higher Intermediate Level at a Kaplan International Center.
- Successful Completion of level 11 at the Vancouver English Centre.

Students who are citizens of the following countries need not submit proof of English language proficiency unless English is not the student's native language. These countries include: Australia, Canada, Ireland, New Zealand, the United Kingdom, and South Africa.

Students who have test scores below the minimum requirement may be eligible for conditional admission.

Any questions concerning the evidence of proficiency in English should be directed to International Programs-International Admissions. When the student arranges to take one of the proficiency tests, he or she should request that examination results be sent directly to International Programs-International Admissions, The University of Montana-Missoula, Missoula, Montana 59812. (Code N. 4489 00)

Conditional Admission

International students who have not met the required test score and who meet all other admission requirements will be offered conditional admission. Conditionally admitted students study in an intensive program at the University of Montana-Missoula English Language Institute (ELI) on campus until the minimum English language proficiency is met or the student is recommended by ELI. After English proficiency is achieved, enrollment in regular university courses begins.

All students are required to submit a completed Medical History Record Immunization Form to the Curry Health Center two weeks prior to registration. It is required that the immunization record (for measles, rubella, diphtheria, tetanus and polio) be complete, accurate, and validated by a physician. Skin testing for tuberculosis will be required upon arrival through the Curry Health Center.

SEVIS Transfer Form. F 1 students transferring from another college or university in the U.S. must have this form completed by their international student advisor of the transfer school and returned to the International Programs-International Admissions Office. A new I-20 will be issued by UM once a transfer release date is entered in SEVIS (Student & Exchange Visitor Information System) by the current school.

When to Apply

Applications and all required documents must be received by the following dates:

- Autumn Semester Deadline – May 15

- Spring Semester Deadline – October 15

Applications received after the deadline will be considered for admission for the next term.

Undergraduate Nondegree Status

An applicant who wishes to pursue studies for his or her personal growth and who does not wish to work toward a formal degree at the University of Montana-Missoula may apply as an undergraduate nondegree student. This option is not available to freshmen unless they are applying to the Missoula College. Each applicant should understand that acceptance to this category does not constitute acceptance into a degree granting program. Applicants admitted as undergraduate nondegree students are not eligible for financial aid.

Academic Eligibility

Each applicant must certify on the application form that he or she has graduated from a high school that is fully accredited by its state department of education, or has passed the HiSET or General Educational Development (GED) test. To be considered for nondegree status, a student must have attempted 12 or more college level credits. This category is not open to students currently on academic suspension from The University of Montana.

If a person is admitted as an undergraduate non-degree student and later wishes to change to a degree program, he or she will be required to file an application for readmission, furnish the required supporting credentials and meet the regular admissions standards for the intended program. Readmission applications are available from Enrollment Services-Admissions, the Missoula College, or the Registrar's Office.

How to Apply

Applications for admission are available from Enrollment Services-Admissions by request or are available on the [UM Admissions website](#).

Receipt of the following credentials in Enrollment Services-Admissions or the Missoula College constitutes a complete application for admission to the undergraduate nondegree status:

1. Application form. Applications must complete and signed.
2. Application fee. The fee is \$30.00. This non-refundable fee is payable once at the undergraduate level provided payment is followed by enrollment. Record of payment will remain on file for one year for students who do not enroll. An application cannot be considered prior to payment of this fee. The University of Montana-Missoula waives the application fee for students who have attended an affiliate campus: Montana Tech and the Division of Technology, Helena College of Technology, and University of Montana-Western.
3. Immunization Form. All applicants are required to submit a completed Medical Requirement Form to the Curry Health Center two weeks prior to registration. The form must be complete, accurate and validated by a health official.

When to Apply

Applications and all required documents submitted by the following dates will receive priority consideration:

- March 1 - Autumn semester
- November 15 - Spring semester

Applications received after the priority dates are considered on a space-available basis.

Graduate Nondegree Status

Graduate nondegree status allows students who have not been formally admitted to a graduate degree program to receive graduate credit for courses.

Up to nine semester nondegree graduate credits (or the credits earned during a single semester, whichever is greater) may be applied toward a subsequent graduate degree program, with the approval of the student's program chair and the graduate dean. Acceptance as a graduate nondegree student does not imply future admission to a degree program.

Graduate nondegree students may take U/G courses for either graduate or undergraduate credit, as defined by the university catalog. Graduate credits will be assigned automatically unless a request for undergraduate credit is submitted to the Graduate School by the fifth week of the semester. Undergraduate credits taken as a graduate nondegree student cannot be applied to a subsequent graduate degree.

Applicants admitted as graduate nondegree students are NOT ELIGIBLE for federal financial aid. Graduate nondegree students are assessed the graduate level tuition and fees at the master's level rate for all credits taken.

Applicants must have earned a baccalaureate degree (or higher degree) from a regionally accredited college or university prior to enrollment in the graduate nondegree status.

Applicants seeking graduate nondegree status must apply online at the [UM Graduate School website](#) and pay a \$60 non-refundable application fee. Deadline for submitting a graduate nondegree application is prior to the fifteenth day of classes each semester.

Graduate Nondegree Readmission

Students who previously attended The University of Montana in a graduate nondegree status and have not been enrolled for 24 months or more may use the graduate nondegree readmission form to reapply for the same status.

Graduate nondegree readmission forms can be downloaded from the Forms section of the Graduate School homepage: www.umt.edu/grad Fromer graduate nondegree students applying for readmission pay a \$20 non-refundable application fee.

Graduate Degree

Graduate degree admission is for candidates seeking to complete a Master's, Specialist, or Doctoral program at UM. Program information and deadlines are listed at: www.umt.edu/grad/Programs. Each academic department conducts the initial evaluation of completed application packets and submits the packets, with recommendations for admission or denial, to the Graduate School for final decisions.

Applicants seeking graduate status must apply online at the [UM Graduate School website](#) and pay a \$60 non-refundable fee.

Distance Education

The University of Montana provides the opportunity to apply as a Distance Education only student. Students who are interested in applying for this status must meet the University's general admission requirements for freshman and transfer students. This admission status is designed for students who are registering for online courses only and do not plan to take any courses on campus. When applying for this status, students are not required to provide proof of immunization or complete a Medical Requirement Form. Since Distance Education only students have some of the mandatory fees waived, they are not eligible for health insurance, services provided by the Curry Health Center, athletic event discounts or the Campus Recreation facilities.

Currently enrolled students or former University of Montana students must change their status by completing a [Distance Learning Change of Status Form](#).

HiSET or GED (General Education Development)

A person who is not a graduate from an accredited high school may be eligible for admission by earning passing scores on the HiSET or GED test. HiSET or GED students who have been out of high school for less than three years or are under the age of 21 must also submit ACT or SAT scores. For additional information and test center locations in Montana, contact the Office of Public Instruction, Helena, MT 59601.

Former University of Montana-Missoula Students - Readmission

Readmission to the University After 24 Months of Non-attendance

If former students are planning to attend a summer session or an academic year semester but were not in attendance during the immediately preceding 24 months, then they must apply for readmission before being eligible

to register for courses. Students should reapply by July 1 for autumn semester attendance, and by November 1 for spring semester attendance. See the Admissions section of this catalog.

Missoula College (formerly College of Technology) students must reapply for readmission at the Missoula College Registrar's Office (909 South Avenue) or online at the [UM Admissions Missoula College web page](#).

Mountain Campus students (seeking baccalaureate or higher degrees) must apply for readmission via the Enrollment Services Office in the Emma Lommasson Center or online at the [UM Admissions web page](#).

Some specific programs at the Missoula College require students who do not enroll for a semester or more (excluding summer) to apply for readmission into that program.

All students who are both in good standing and (i) currently enrolled or (ii) readmitted to the University may pre-register for the subsequent semester, unless a registration hold exists on the student's record.

Students previously enrolled at The University of Montana-Missoula who have interrupted their enrollment for more than 24 months or more must submit an application for readmission. Applications for readmission may be obtained from the Registrar's Office, the Griz Central Registration Counter, Enrollment Services-Admissions, all located in the Emma B. Lommasson Center (EL), or the Missoula College Registrar's Office.

Former undergraduate degree students who do not plan to change their status and who have attended another college/university since attending The University of Montana-Missoula, even if their absence from UM has been less than two years in duration, must submit college transcripts.

Former students who are applying for readmission must comply with Immunization Requirements as listed in this catalog.

Former undergraduate students are not required to pay the undergraduate application fee unless they are changing from an undergraduate status to a graduate status or vice versa. The application fee is paid only once at the undergraduate level. For additional information, contact the Registrar's Office at 406-243-2939 or visit us on the [Registrar's readmissions web page](#).

Advising

Academic advising is critical to student success at University of Montana. All undergraduate students are required to meet with their advisor at least once each semester to review educational progress, discuss future plans and secure schedule approval prior to registration. Additional meetings are recommended for information and guidance on dropping and/or adding courses, changing/declaring majors, exploring available resources and ensuring that graduation requirements are met.

Faculty and professional advisors, as well as peer advising assistants facilitate positive academic advising experiences by:

- helping students to develop mentoring relationships with faculty and professional staff
- encouraging students to fulfill their obligation to plan in advance for advising sessions
- educating students to understand and accept their responsibilities in the advising process and for advising decisions, and
- promoting frank and productive dialogue about the student's academic goals.

Students improve their academic planning and success by fully using the advising services and by learning about the academic requirements of their major fields, and the University policies for registration and graduation. The UM catalog is the official source of information on these matters. Although advisors are available to assist students, it is important for students to realize that the ultimate responsibility for meeting all graduation requirements is their own.

Mountain Campus Students

When students indicate a major on their application form, it becomes their initial declared major.

Advisor information and assignment is done through the student's major department. If the student is undeclared, pre-Communication Studies, pre-Psychology or Freshman Business, he/she is assigned to a professional advisor at the [Undergraduate Advising Center \(www.umt.edu/uac\)](http://www.umt.edu/uac).

To change a major, a student must submit an official Change of Major form to the Registration Desk at Griz Central. Once the new major is formally declared, the student should seek advising from the department.

Students with academic advising questions or concerns may contact the Undergraduate Advising Center, Lommasson Suite 269, The University of Montana, Missoula, MT 59812, www.umt.edu/uac, or by phone at (406)243-2835.

Missoula College Students

Students are assigned an academic advisor in their major (program) upon acceptance to the Missoula College.

Academic programs are identified by the major the student declared on his/her Admissions application, or by an official change of major form filed by the student.

For questions regarding assigned advisors, or to change advisors, students can contact Student Services at 243-7882 or in the Missoula College Administration building.

For other questions or concerns about advising, students may contact their Department offices, Student Services (243-7882) or the Retention Coordinator (243-7878).

Academic Support Services

Many programs at The University of Montana-Missoula offer services to help students who are experiencing academic difficulty. Faculty academic advisors assist in academic planning and make appropriate referrals to other services as necessary. Students with declared majors are assigned a faculty advisor by the relevant Department Chair. Students who are Undeclared, pre-Nursing, or a pre-major in Psychology, Communication Studies, or Business are assigned a professional advisor in the Undergraduate Advising Center located in the Lommasson Center.

Coursework is available to help students in specific areas. Developmental math and writing courses are delivered by the College of Technology, and include M 65 prealgebra, M 90 Introductory Algebra, M 95 Intermediate Algebra, and WRIT 95 Developmental Writing. Curriculum and Instruction 160 and AASC 101 focus on study skills, and Freshman Seminar UNC 101 and AASC 100 (Introduction to University Experience) provide an overview of university systems and processes. The Financial Aid Office, the Counseling Center, the Curry Health Center, the Career Services, and the Clinical Psychology Center provide one-to-one counseling to help with financial issues, personal concerns, and career and major choices.

Several tutoring programs are available to all students through the [Office for Student Success](#). STUDY JAM provides early evening group study tables in the UC Commons for selected courses (e.g., Chemistry, Biology, Physics, Spanish, Economics, and Statistics). [The Writing Center](#) supports students in becoming more effective writers and provides tutoring at several locations across campus; 406-243-2266). The Math Learning Centers provide tutoring at all levels of math coursework in two drop-in math tutoring centers. Math PiLOT oversees the ALEKS online placement testing for math and advises students who may be struggling in a math course. Missoula College students may receive tutoring in math, writing and a variety of other subjects through the Academic Support Center. The Counseling Center offers workshops on a variety of topics designed to enhance student academic performance.

For students who qualify, TRiO Student Support Services is a federally funded program offering academic support services, including one-on-one academic advising, career search and counseling (using a national career database), mentoring for Native American students, a two-credit study skills class, and tutoring at no cost. To qualify, a student must meet one of the following criteria: first-generation (neither parent has completed a four-year college degree), financial need based on family income (usually met if receiving a Pell grant), or a documented disability. For more information, visit TRiO at Lommasson Center 154, call 406-243-5032, or the [TRiO website](#).

The Academic Support Center (ASC) on the Missoula College campus offers a variety of services to support and enhance students' academic success. Students can receive tutoring in math, writing and numerous other areas.

Skills assessments, accommodated test services and make-up testing are also offered at the ASC. Working with the Retention Coordinator students can develop study skills, participate in academic coaching and other student support activities, as well as complete the reinstatement process activities if necessary. For information related to these services, contact the ASC at 243-7826 or the Retention Coordinator at 243-7878.

Degree/Certificate Requirements for Graduation

Catalog Governing Graduation

Students may graduate fulfilling University and departmental major requirements in any single University of Montana-Missoula catalog under which the student has been enrolled during the six years prior to graduation. (For example, the 2013-2014 catalog can be used through summer 2020). The student MUST meet major requirements under the same catalog under which the student is meeting University requirements (general education requirements); minor requirements may be satisfied under a different catalog within the six year period. University or departmental requirements may change to comply with accreditation requirements, professional certification and licensing requirements, etc.

Students transferring to the University of Montana-Missoula may choose to graduate fulfilling requirements under the UM catalog in effect when they were enrolled at their original institution, provided the chosen catalog is not more than six years old at the time of graduation. Eligible students who choose an earlier catalog must notify the Admissions Office at the time of admission so their transfer work can be evaluated accordingly

Applying for Certificate and Degree Candidacy

To become a candidate for a degree, the student must file formal application at the Registration Counter in Griz Central the beginning of the semester preceding the semester in which he or she expects to graduate. Deadline dates are specified in the Class Schedule. In the Missoula College, candidates for certificates and degrees must file a formal application with the Registrar's Office in the College at the beginning of the semester in which they expect to graduate

Credits Required for a Certificate of Completion

See individual College or School catalog sections for certificate course and credit requirements. Course and credit requirements vary by program.

Credits Required for a Degree

Associate of Applied Science

To receive an Associate of Applied Science (A.A.S.) Degree from the Missoula College, a student must fulfill the following criteria:

1. Complete a minimum of 60 credits, of which 51% must be from UM. Possess a minimum grade average of 2.00 in all work attempted at the University of Montana-Missoula and a minimum grade of C- in all classes that count toward program requirements.
2. Courses numbered below 100 do not count toward the 60 credit requirement, but do fulfill financial aid credit load requirements.
3. Complete the specialized program degree requirements including the following related subject area of core collegiate-level courses:
 1. **Communication:** the ability to formulate and adapt messages to a variety of audiences through written, verbal, and nonverbal processes.
 2. **Computation:** the ability to complete basic algebraic manipulations and achieve mathematical literacy.
 3. **Human Relations:** the ability to analyze social problems and structure, ethical norms of professions and society, human behavior, or human values systems.
 4. **Computer Literacy:** the ability to utilize a modern computing system including web applications and an office productivity suite to research, develop and produce information in a 21st century society.
 5. **Professional Competency:** To ensure all graduates the opportunity to apply specialized skills in a professional environment, it is recommended student complete a program-related internship, field experience, clinical experience, capstone project, or professional certification activity.

Associate of Arts

A total of 60 credits is required for graduation with an Associate of Arts (A.A.) degree. The minimum grade average for graduation is 2.00 in courses taken on the traditional letter grade (A F) basis. To receive an Associate of Arts degree all students must complete successfully all the general education requirements for a baccalaureate degree.

Bachelor Degrees

A total of 120 credits is required for graduation with a bachelor degree; except a greater number is required in teacher education programs, pharmacy, physical therapy and the Bachelor of Applied Science. See the College of Health Professions and Biomedical Sciences section of this catalog.

Students may elect to earn two or more bachelor degrees. Those deciding to earn two or more degrees must complete all the requirements of the majors for each degree. In addition, students must earn for each degree a minimum of 30 credits beyond the number required for the first degree. The degrees may be earned concurrently or at different times.

Upper-Division Requirement

All students must complete a minimum of 39 credits in courses numbered 300 and above to meet graduation requirements for the first baccalaureate degree. Upper division credits transferred from other four year institutions will count toward the 39 credit requirement.

Residency Requirements for Degrees/Certificates

University of Montana credit is the credit earned in any course which has been approved to be listed in the University of Montana-Missoula catalog and which has been approved for offering by the department chair and dean of the school or college in which the course is taught. University of Montana-Missoula credit may be offered at any location.

Requirements for Missoula College Certificate of Completion and Associate of Applied Science Degree

A minimum of 51% of the required number of credits must be earned from the University of Montana-Missoula

Requirements for the Associate of Arts Degree

A minimum of 30 credits of the required number must be earned from the University of Montana-Missoula.

Requirements for the First Bachelor Degree

A first bachelor degree is defined as any bachelor degree earned by a student who has not previously earned a bachelor degree from the University of Montana-Missoula. Thus, the requirements below also apply to any student who previously earned a bachelor degree at another institution and now is seeking a bachelor degree from the University of Montana-Missoula.

- a) A minimum of 30 credits of the required number must be earned from the University of Montana-Missoula.
- b) A minimum of 30 credits of the required number must be earned in study on the University of Montana-Missoula campus.
- c) Of the last 45 credits required for the degree, at least 30 of these must be earned from the University of Montana-Missoula. Students attending elsewhere on a University approved exchange may be exempt from this requirement with the prior written approval of their major department chair or dean.

Requirements for the Second Bachelor Degree

In regard to residency requirements, a second bachelor degree is defined as any bachelor degree earned by a student who previously had earned a bachelor degree from the University of Montana-Missoula.

A minimum of 20 credits of the required 30 credits must be earned in study on the University of Montana-Missoula campus.

Credit Maximums

The amount of credit which may be counted toward the minimum credit requirements for the bachelor (B.A./B.S.), associate of science (A.S.), and associate of arts (A.A.) degrees is limited in certain areas follows:

Category	For Bachelor Degree	For AA or AS Degree
Technical courses (course number suffix of 'T') - up to 15 technical course credits can be applied toward the minimum credit requirement for all students, except up to 20 technical course credits can be applied to the minimum course credits for students with an earned A.A.S. degree.	15-20	15-20
Career skills	0	0
Study skills courses (e.g. AASC 101, C&I 160)	2	2
Physical education activity/skills courses (e.g. DANC 325, ACT 101-287, ACTV, MSL 106 and 203)	4	4
Military Science Leadership Courses (contracted students may present 24 credits)	12	12
Music performance (MUSI 102A, 123, 135A, 136A, 235, 236, 218)	6	6
Ensemble music (MUSI 112A, 114A, 110A, 131A and 122A)	8	8
Credit/No Credit credits	18	18
Internship credits in 198/298/398/498	6	6

Credits attempted in these areas which are beyond the maximum applicable will remain on the students' permanent record but cannot be used toward graduation.

Grade Average Requirement

A minimum grade average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation.

Graduation with Honors or High Honors

Students will be awarded their certificates, associate of applied science, and bachelor degrees with honors if they receive the recommendation of their major department or school and the faculty of the University of Montana-Missoula. At the time of graduation they must have a 3.40 or higher grade average in the following four areas:

1. All work attempted at the University of Montana- Missoula.
2. The combination of all work attempted at the University of Montana-Missoula and all other work, including failing grades, transferred to this University.
3. All work attempted in the major field at the University of Montana-Missoula.
4. The combination of all work attempted in the major field at the University of Montana-Missoula and all other work in the major field, including failing grades, transferred to this University.

Students will be awarded their certificates, associate of applied science, and bachelor degrees with high honors if they have the recommendations mentioned above and, at the time of graduation, have a 3.70 or higher grade average in the four areas listed.

In the School of Law, the grade average for honors is computed on law credits only.

General Education

Preamble

The University of Montana-Missoula's General Education Program provides a broad academic base that supports both undergraduate learning at the University of Montana-Missoula and continued learning following graduation. While the General Education Program offers students considerable flexibility in selecting courses, it has a set of common educational objectives for all students.

In accordance with the mission of the University of Montana- Missoula, these objectives are to develop competent and humane individuals who are informed, ethical, literate, and engaged citizens of local and global communities. Students should become acquainted with issues facing contemporary society, participate in the creative arts, develop an understanding of science and technology, cultivate an appreciation of the humanities, and examine the history of different American and global cultures. Upon completion of the general education requirements students should be able to articulate ideas orally and in writing, understand and critically evaluate tangible and abstract concepts, and employ mathematical and other related skills appropriate to a technologically focused society.

In summary, the General Education Program is designed to provide a high quality intellectual foundation that accommodates all UM students whether in liberal arts or professional programs. This foundation will be reinforced, expanded, and refined as students continue through their course of study. Students are encouraged to prepare for productive roles in their chosen fields by cultivating civic awareness vital to the greater community and a democratic society. The acquired skills will allow students to examine critically the human experience and achieve genuine

confidence in their knowledge and abilities. For the General Education Program to accomplish its goals, students must assume primary responsibility for their growth and education.

General Education Requirements

Overview

General Education Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the following General Education Requirements. Students who have completed an approved lower-division general education program at an approved Montana institution of higher education should refer to the catalog section on General Education for Transfer Students.

All General Education courses must be at least 3 credits, must be introductory and foundational, and have no more than one pre-requisite. The General Education Committee may allow exceptions for upper-division courses, courses fewer than three credits, and for courses with more than one pre-requisite, if the proposing unit can justify such an exception.

Some courses may satisfy both the "Writing Course" requirement (1.2) and one of the Groups IV through XI.

Some courses may satisfy both Group II and Group III Symbolic Systems.

Some courses may satisfy both Group IX and one of the Groups IV through VIII.

Some courses may satisfy both Group X and one of the Groups IV through VIII. No course may satisfy both Group IX and Group X.

NOTE! *All courses taken to satisfy General Education Requirements must be taken for a traditional letter grade and must be passed with a grade of C- or better***.**

Students are cautioned that approved courses may change from year to year. To be used for General Education credit, a course must be listed as approved in the Class Schedule for the semester a student registers for it.

Group Letter and Description	Credits
Group I: English Writing Skills	3
1. Composition course WRIT 101 or 201(ENEX 101, WTS 101, ENEX 200) or an equivalent	1-3
2. One designated Writing Course	3
3. Upper-Division Writing Requirement (as specified by major department)	

Group II: Mathematics	3
Group III: Modern and Classical Languages or Symbolic Systems A two semester language sequence is the default option (test out provisions apply). Students may substitute a symbolic system sequence required by their major and approved by the General Education Committee. The list of programs granted exceptions and their alternative options are found in the listing of those majors.	0-10 or 3-6
Group IV: Expressive Arts	3
Group V: Literary and Artistic Studies	3
Group VI: Historical and Cultural Studies	3
Group VII: Social Sciences	3
Group VIII: Ethics and Human Values	3
Group IX: American and European Perspectives	3
Group X: Indigenous and Global Perspectives	3
Group XI: Natural Sciences One Natural Science course must include a laboratory experience.	6
Total	*28-49

*Some courses satisfy more than one group (see list at the end of this section).

Group I: Writing

Requirements:

Students must satisfy the following three requirements in order:

1. Introductory College Writing;
2. Intermediate College Writing;
3. Advanced College Writing

Introductory College Writing

Students must complete WRIT 101, WRIT 201, or an equivalent composition course with a grade of C-minus or better. Students with Language and Composition AP scores of 4 or better are exempted from this requirement.

Entering students who are placed into WRIT 095, based on their standardized test scores, must successfully complete WRIT 095 prior to enrolling in WRIT 101 or WRIT 201. Such students may challenge their placement with specific scores from the University Writing Assessment. Entering student who place into WRIT 201 may choose to take WRIT 101 instead.

Intermediate College Writing

Students must pass one Intermediate College Writing course with a grade of C-minus or better. The courses satisfying this requirement are listed in the catalog. Students are exempted from this requirement by transferring more than 27 semester credits at the time of their initial registration at the University. Transfer students transferring fewer than 27 credits need to petition the Writing Committee to have writing courses from other institutions accepted for this requirement. View details regarding this process on the transfer student admission page of the catalog.

Advanced College Writing

All students must complete one Advanced College Writing course with a grade of C-minus or better. The courses satisfying this requirement differ according to the student's major. Students should consult the University catalog and their major advisor for the specific courses that fulfill this requirement.

Students may not sue the same writing course to meet both the Intermediate College Writing and the Advanced College Writing requirement.

Intermediate Writing Courses

The following courses are designated as Intermediate Writing Courses for 2015-2016. Students are cautioned that courses may change from year to year. To be used for General Education, a course must be listed as Intermediate Writing in the catalog and in the Class Schedule for the semester a student registers for it.

Course #	Title
----------	-------

AAS 347/HSTA 347	African American Religious Experience
AAS 372	African American Identity
ANTY 310	Human Variation
ANTY 336	Myth, Ritual and Religions

PHL 499	Senior Seminar
PHSX 330	Methods of Communicating Physics
PSCI 400	Advanced Writing in Political Sciences
PSYX 320	Research Methods III
PSYX 400	History and Systems of Psychology
PTRM 451	Tourism and Sustainability

PTRM 482	Wilderness and Protected Area Management
RUSS 494	Seminar in Russian Studies
SOCI 438	Seminar in Crime and Deviance
SOCI 441	Capstone: Inequality and Social Justice
SOCI 460	Capstone in Rural & Environmental Change
SOCI 488	Writing for Sociology
SW 300	Human Behavior in the Social Environment
SW 310	Social Welfare Policies and Services
THTR 331Y	Theatre History II
WGSS 363	Feminist Theory and Methods
WILD 408	Advanced Fisheries Science
WILD 470	Conservation of Wildlife Populations

Group II Mathematics

Mathematical literacy implies an appreciation of the beauty of mathematics, an ability to apply mathematical reasoning, and an understanding of how mathematics and statistics are used in many arenas. Mathematical literacy may be attained through the study of the properties of numbers, mathematical modeling, geometry, data analysis and probability, with the overarching goal of learning mathematical reasoning and problem solving.

Mathematical literacy cannot be achieved in a single course. However, for the purposes of general education, the mathematical literacy requirement can be met by any one of the following:

1. achieving a grade of C-or better in one of the following courses which address different aspects of mathematical literacy: M 104, 105, 115, 118, 121, 122, 132, 135, 151, 162 and STAT 216; or a mathematics course of 3 or more credits for which one of these is a prerequisite.
2. achieving a score of 50 or better on the CLEP College Algebra Test, the CLEP College Precalculus Test, or the CLEP College Mathematics Test.
3. passing the Mathematical Literacy Examination administered by the Department of Mathematical Sciences. To qualify to take the Mathematical Literacy Examination, a student must have achieved a score of 630 or better on the SAT Math exam or a score of 28 or better on the ACT Math exam. A student may take the Mathematical Literacy Examination only once. Further details are available from the Department of Mathematical Sciences.

Students must complete the mathematical literacy requirement by the time they have earned 30 credits; if not, they must register for a mathematical sciences course every semester until they have completed the requirement. Because many other courses at the university assume some mathematical literacy, it is strongly recommended that all students complete their mathematical literacy requirement as soon as possible.

Upon completion of the mathematical literacy requirement, a student will be able to effectively apply mathematical or statistical reasoning to a variety of applied or theoretical problems.

Group III: Modern and Classical Language

The language requirement can be met in any of the following ways:

1. by achieving a C- or better in a second-semester language course offered at the University of Montana;*
2. by achieving a grade of C- or above in a language course numbered 201 or above at The University of Montana;
3. by presenting a transcript record of completion with a grade of C- or better of a second-semester (or more advanced) language course at an accredited college or university;
4. by achieving an appropriate score on a placement exam administered by the offering department;
5. by receiving verification of an appropriate level of proficiency in any other natural language in collaboration with the department of Modern and Classical Languages and Literatures. Note that the student's native language, if it is not English, can be used to fulfill this requirement.

* Three 3-credit courses of Irish are required to fulfill the general education requirement.

Upon completion of the Modern and Classical Languages requirement, the student will have a basic functional knowledge of a second natural language sufficient to:

read and write if the language is classical, such as Latin or classical Greek;

read and write if the language is classical, such as Latin or classical Greek;

speak and aurally comprehend, if the language does not have a written tradition, such as Salish;

perform all four skills (speaking, aural comprehension, reading, and writing) if the language is modern and has a written tradition, such as Japanese or French;

demonstrate both receptive (visual comprehension) and expressive (manual production) proficiency if the language is American Sign Language.

Course #	Title
ARAB 101	Elementary Modern Arabic I (Elementary Standard Arabic)
ARAB 102	Elementary Modern Arabic II (Elementary Modern Standard Arabic)
CHIN 101	Elementary Chinese I
CHIN 102	Elementary Chinese II
CSD 131	American Sign Language I
CSD 132	American Sign Language II
FRCH 101	Elementary French I
FRCH 102	Elementary French II
GRMN 101	Elementary German
GRMN 102	Elementary German
GRK 101	Elementary Greek I
GRK 102	Elementary Greek II

ITLN 101	Elementary Italian I
ITLN 102	Elementary Italian II
JPNS 101	Elementary Japanese I
JPNS 102	Elementary Japanese II
LATN 101	Elementary Latin
LATN 102	Elementary Latin
LSH 191	Elementary Hindi I
LSH 191	Elementary Hindi II
NASX 141	Blackfoot I
NASX 142	Blackfoot II
RUSS 101	Elementary Russian I
RUSS 102	Elementary Russian II
SPNS 101	Elementary Spanish
SPNS 102	Elementary Spanish
*IRSH 101	Elementary Irish One
*IRSH 102	Elementary Irish Two

*IRSH 103	Elementary Irish Three
-----------	------------------------

- * Three 3 credit courses of Irish are required to fulfill the general education requirement
- Students may satisfy the requirement by demonstrating equivalent skill in any of these or other languages in testing administered by the Department of Modern and Classical Languages and Literatures.
- International students from non English speaking countries may satisfy this requirement by presenting a TOEFL score of 580 or greater, or by successful completion of ESL/LING 250 or 450, or by presenting a department approved application for degree.

Group III: Exceptions to the Modern and Classical Language requirement - Symbolic Systems

The majors listed below have been granted exceptions to the Modern and Classical Language requirement. Students graduating in any one of these majors may substitute the symbolic system course or courses designated by the major.

Each of these courses presents the foundations of a symbolic system, defined as a relationship that maps real-world objects, principles and doctrines with abstractions of the real-world.

Symbolic systems facilitate communication in specialized ways but do not comprise a spoken or written language by which members of a culture typically communicate with each other.

Upon completion of a symbolic systems course or courses, students will be able to:

1. demonstrate an understanding of the symbols and the transformations of the system;
2. relay and interpret information in terms of the given symbolic system;
3. apply creative thinking using the symbolic system in order to solve problems and communicate ideas;

Major	Symbolic Systems Course(S)
Accounting & Finance	STAT 216
Biology	M 162 or M 171 or M 181
Chemistry	M 162 or M 171 or M 181 (or any course for which one of them is a prerequisite)

Computer Science	CSCI 131 and CSCI 136
Curriculum & Instruction	M 133 and 234
Ecological Restoration	FORS 201 or STAT 216
Forestry	FORS 201 or STAT 216
Geoscience	M 162 or M 171 or M 181
Health and Human Performance Options: Exercise Science, Pre-Professional Exercise Science, Pre-Athletic Training	M 121 or 151 and STAT 216, PSYX 222. SOCI 202 or EDU 421
Health and Human Performance Options: Health Enhancement, Community Health	M 115 and STAT 216, PSYX 222. SOCI 202 or EDU 421
Management Information Systems	STAT 216, SOCI 202, FORS 201, or PSYX 222
Management & Marketing	STAT 216, SOCI 202, FORS 201, or PSYX 222
Mathematics or combined Mathematics /Computer Science or Computer Science/Mathematics	M 171 or M 181 (or any course for which one of them is a prerequisite)
Media Arts	MART 340 and 341
Medical Technology	M 162 or M 171 or M 181
Microbiology	M 162 or M 171 or M 181
Music and Music Education	MUSI 105, 106, 140 & 141

Neuroscience	M 162 and STAT 216 or PSYX 222
Pharmacy	M 162 and STAT 216 or PSYX 222 or SOCI 202
Parks, Tourism and Recreation Management	FORS 201, STAT 216, WILD 240 or SOCI 202
Resource Conservation	FORS 201, STAT 216, WILD 240 or SOCI 202
Theatre - Bachelor of Fine Arts (Acting Emphasis)	THTR 210, 211 & 310
Theatre - Bachelor of Fine Arts (Design/Technology Emphasis)	THTR 255 & THTR 345 or 355
Wildlife Biology	M 162 or higher and WILD 240

Students are advised that most courses meeting the symbolic systems exception have prerequisites, as indicated in the chart below:

Course	Title	Pre-requisite(s)
CSCI 135	Fundamentals of Computer Science I	Computer programming experience in a language such as BASIC, Pascal, C, etc.; coreq., M 095 D or consent of instr. CSCI 104 highly recommended as prereq. or coreq
CSCI 136	Fundamentals of Computer Science II	CSCI 135 ; coreq., M 151 or consent of instr
EDU 421	Statistical Procedures in Education	M 115 or equiv. or consent of instr
FORS 201	Forest Biometrics	M 115 or M 151 or equivalent

M 133	Geometry and Measurement for Elementary Teachers	M 132
M 162	Applied Calculus	Appropriate placement score or one of M 121, 122, or 151
M 171	Calculus I	M 122 or 151 or appropriate placement score
M 181	Honors Calculus I	Consent of Instructor
M 234	Higher Mathematics for Elementary School Teachers	M 132
MUSI 105	Music Theory I	Coreq., MUSI 140
MUSI 106	Music Theory II	MUSI 105 and Coreq., MUSI 141
MUSI 139	Language of Music II	MUSI 138
MUSI 140	Aural Perception I	Coreq., MUSI 105
MUSI 141	Aural Perception II	MUSI 140 and Coreq., MUSI 106
PSYX 222	Psychological Statistics	PSYX 100S, 120: M 115, 162, or 171
SOCI 202	Social Statistics	M 115 or consent of instructor
STAT 216	Statistics	M 115 (preferred), or one of M 121, 135, 151, 162 or 171, or ALEKS placement ≥ 4
STAT 451	Statistical Methods	One year of college mathematics including M 115 or equiv. course in probability or consent of instr.

THTR 211	Voice and Speech II	THTR 210
THTR 310	Voice and Speech III	THTR 211
THTR 345	Flat Pattern Design and Drafting	THTR 255
THTR 355	Computer-Aided Drafting and Computer Applications for the Theatre	THTR 255
WILD 240	Introduction to Biostatistics	M 162

Group IV: Expressive Arts (A)

Expressive Arts courses are activity-based and emphasize the value of learning by doing in an artistic context. Upon completion of an Expressive Arts course, students will be able to express themselves in the making of an original work or creative performance; understand the genres and/or forms that have shaped the medium; and critique the quality of their own work and that of others.

Group V: Literary and Artistic Studies (L)

In these courses, students develop familiarity with significant works of artistic representation, including literature, music, visual art, and/or performing arts. Through this experience, students enhance their analytical skills and explore the historical, aesthetic, philosophical, and cultural features of these works.

Upon completion of a Literary and Artistic Studies course, students will be able to:

1. analyze works of art with respect to structure and significance within literary and artistic traditions, including emergent movements and forms; and
2. develop coherent arguments that critique these works from a variety of approaches, such as historical, aesthetic, cultural, psychological, political, and philosophical.

Group VI: Historical and Cultural Studies (H)

These courses present the historical or cultural contexts of ideas and institutions, and examine cultural development or differentiation in the human past. They are foundational in that they are wide-ranging in chronological, geographical, or topical focus, or in that they introduce students to methods of inquiry specific to a particular discipline.

Upon completion of a Historical and Cultural Studies course, students will be able to:

1. synthesize ideas and information with a view to understanding the causes and consequences of historical developments and events;
2. evaluate texts or artifacts within their historical and/or cultural contexts;
3. analyze human behavior, ideas, and institutions within their respective historical and/or cultural contexts.

Group VII: Social Sciences (S)

Social science courses describe and analyze human social organization and interaction, employing social data at a broad scale with statistical relevance, experimental data on individuals or groups, or qualitative data based on observation and discourse.

Upon completion of a Social Sciences course, students will be able to:

1. Describe the nature, structure, and historical development of human behavior, organizations, social phenomena, and/or relationships;
2. use theory in explaining these individual, group, or social phenomena; and/or
3. understand, assess, and evaluate how conclusions and generalizations are justified based on data

SOCI 275S	Gender and Society
WGSS 263S	Women, Men, and Sexuality

Group VIII: Ethics and Human Values (E)

Ethics and Human Values courses familiarize students with one or more traditions of ethical thought. These courses rigorously present the basic concepts and forms of reasoning that define and distinguish each tradition. The focus of these courses may be on one or more of these traditions, or on a concept such as justice or the good life as conceptualized within one or more of these traditions, or on a professional practice within a particular tradition.

Upon completion of an Ethics and Human Values course, students will be able to:

1. correctly apply the basic concepts and forms of reasoning from the tradition or professional practice they studied to ethical issues that arise within those traditions or practices;
2. analyze and critically evaluate the basic concepts and forms of reasoning from the tradition or professional practice they studied.

Group IX: American and European Perspectives (Y)

These courses present a critical introduction to the antecedents, principles, institutions, cultures, traditions and legacies of the United States and Europe.

Upon completion of an American and European Perspective course, students will be able to:

1. Demonstrate informed and reasoned understanding of American and/or European historical and contemporary behavior, ideas, institutions, and culture; and
2. Analyze and evaluate what is distinctive and significant about the American and/or European experience and legacy.

THTR 331Y	Theatre History II

Group X: Indigenous and Global Perspectives (X)

This perspective instills knowledge of diverse cultures in comparative and thematic frameworks. Students are encouraged to cultivate ways of thinking that foster an understanding of the complexities of indigenous cultures and global issues, past and present. Students will learn how geographically and culturally separate parts of the world are linked by various, multiple interactions.

Indigenous studies focus upon "first peoples" and their descendants who derive their cultural communal identities from their long-standing and/or historical habitation of particular places. These courses foster an appreciation for indigenous peoples, their histories and cultures, and their struggles both to maintain their ways of life and gain equal positions in world spheres of power and change.

Global studies investigate how societies and nations interact through human endeavor and /or natural processes. These courses encourage students to relate their knowledge of particular parts of the world,

with their individual identities, and to larger trends and issues that affect multiple societies and environments. These include regional, national, and even transnational cultural flows, as well as a multiplicity of environmental processes and economic relationships.

Upon completion of an Indigenous and Global Perspective course, students will be able to:

1. place human behavior and cultural ideas into a wider (global/indigenous) framework, and enhance their understanding of the complex interdependence of nations and societies and their physical environments;
2. demonstrate an awareness of the diverse ways humans structure their social, political, and cultural lives; and
3. analyze and compare the rights and responsibilities of citizenship in the 21st century including those of their own societies and cultures.

Group XI: Natural Science

These courses present scientific conclusions about the structure and function of the natural world, and demonstrate or exemplify scientific questioning and validation of findings.

Upon completion of a Natural Science course, a student will be able to:

1. understand the general principles associated with the discipline(s) studied;
2. understand the methodology and activities scientists use to gather, validate and interpret data related to natural processes;
3. detect patterns, draw conclusions, develop conjectures and hypotheses, and test them by appropriate means and experiments;

4. understand how scientific laws and theories are verified by quantitative measurement, scientific observation, and logical/critical reasoning;
5. and understand the means by which analytic uncertainty is quantified and expressed in the natural sciences

Policies and Procedures

Academic Calendar

The Academic Calendar for the current academic year, as well as past and future years, may be found on the [Academic Calendar web page](#).

Registration and Course Information

Registration for Courses

Students who have no prior attendance at the University must apply for admission and be admitted before being eligible to register for courses. See the Admissions section of this catalog or the [admissions website](#).

Detailed instructions regarding registration and course offerings are available on the Registrar web pages for [registration information](#) and [course schedule information](#).

Students must complete course registration during the scheduled registration period or be subject to payment of a late registration fee, if allowed to register. Registration is not complete nor is any academic credit awarded until all course tuition and fees for the semester have been paid.

Adding, Dropping and Other Course Changes

Adding, Dropping and Other Course Changes – Summary Tables

Students who request to add, drop or change the grading option must have all registration holds cleared in order for the request to be honored. The following information does NOT apply to the School of Law. Law school students should see the School of Law website for information.

Special Sessions

Special Session courses, offered during any term, will vary from the sessions listed above. For example, a course taught over a period of five weeks is considered a “special session” course if its start and end dates are different than the published regular term dates. Please check with the Registrar’s Office for specific dates related to changing registration in a special session course.

Adding, Dropping and Other Course Changes – Detailed Information

All guidelines and timelines that follow refer to the traditional autumn and spring semesters, which are generally 74-75 days in length. The timelines that apply to Summer Sessions and Winter Session are detailed in the tables above. Important Dates are listed on the Registrar's Office calendar web page. Please see the Business Services/Student Accounts website for information regarding how fees are impacted by dropping/adding courses, as well as the refund schedule for a complete withdrawal from the University of Montana.

Adding, Dropping or Other Course Changes – First Through Seventh (1 – 7) Instructional Day of the Semester

During this timeframe, students may use CyberBear to add courses, drop courses, change grading options, and/or change variable credits. Access to CyberBear for adding courses or changing sections ends at 5:00 p.m. Mountain Time on the seventh day of classes.

Adding, Dropping or Other Course Changes – Eighth Through Fifteenth (8 – 15) Instructional Day of the Semester

During this timeframe, with consent of the course instructor, students may add courses or change sections with a signed paper-Registration Override Form or an instructor-approved electronic override (via CyberBear). Fees are reassessed each night during this time period. Added courses and credits may result in additional fees.

Students may drop courses, change grading option (including audit), and/or change variable credits via CyberBear until 5:00 p.m. Mountain Time on the fifteenth day.

Adding, Dropping or Other Course Changes – Sixteenth Through Forty fifth (16 – 45) Instructional Day of the Semester

During this timeframe, students must complete a paper Course Drop Form or Course Add/Change Form as well as obtain the signature of both the course instructor and student's advisor to (i) drop/add a course and/or (ii) make changes of section, grading option, or credit. The ability to change to or from audit is no longer available at this time. Completed forms must be returned to the GrizCentral Registration Counter (or the Registrar's Office at the Missoula College Campus) no later than close of business on the forty-fifth instructional day of a semester. If students have submitted Course Drop Forms but have not cleared all holds by this deadline, then they are required to also collect a signature from the Dean of the student's major no later than the Last Regular Class Day. A \$10.00 processing fee is charged for each drop or add. Added courses and credits may result in additional fees. There are no refunds or reductions of fees for courses dropped after the 15th day (or equivalent), and a grade of W (withdrawn) is recorded for each dropped course.

Adding, Dropping, or Other Course Changes – Forty sixth Instructional Day of the Semester Through the Last Regular Class Day/Friday before Finals Week

During this timeframe, a Course Add/Change Form must be completed by the student and signed by the course instructor and the student's advisor to add a course, change the grade option, or change variable credits. Changing to or from audit is not permitted during this time. Not all requests for adds, changing grade options, or changing variable credits are approved. Advisors have the right to indicate they do not recommend approval of the request. However, it is the course instructor's decision to approve or deny the request to add/change a course.

Completed forms must be returned to the GrizCentral Registration Counter (or the Registrar's Office at the Missoula College Campus) no later than close of business on the Last Day of Regular Classes. Students who request a change in grading option must also have cleared all holds by this deadline or the request

cannot be honored. A \$10.00 processing fee is charged for each add. Added courses and credits may result in additional fees.

During this timeframe, students may drop courses only by petition. Note that not all petitions are approved, and that documented justification is required. Some examples of documented circumstances that may merit approval are: accident or illness, family emergency, or other circumstances beyond the student's control. Instructors and advisors have the right to indicate they do not recommend the drop. However, it is the decision of the Dean of the student's major to approve or deny the request to drop courses.

To petition to drop a course, a Course Drop Form must be completed, with the signature of the student's advisor, the course instructor, and the Dean of the student's major. Completed forms must be returned to the GrizCentral Registration Counter (or the Registrar's Office at the Missoula College Campus) no later than close of business on the Last Regular Class Day/Friday before Finals Week. If students submit Course Drop Forms or request a change in grading option, then they must also have cleared all holds by this deadline; otherwise, the request cannot be honored. A \$10.00 processing fee is charged for each drop. There are no refunds or reductions of fees for courses dropped, and the instructor assigns a grade of WP (withdrawn/passing) if a student's course work has been passing or WF (withdrawn/failing) if failing. These grades do not affect grade averages but they are recorded on a student's transcript.

The opportunity to drop a course for the current term ends on the last day of instruction before scheduled final exams. Dropping a course taken in a previous term or altering grading option or audit status for such a course is not allowed. The only exceptions are for students who have received a grade of NF (never attended/fail).

Law School Students - See the School of Law section of this catalog for links to the School of Law website, which will list the add and drop deadlines for law courses.

Cancellation of Courses

The University reserves the right to cancel any course.

Common Course Numbering - Montana University System

All universities, 4-year and 2-year colleges that are part of the Montana University System are now required to use the same course numbering for undergraduate courses. With common course numbering, transfer students can be reassured that they will receive credit for undergraduate courses taken at another Montana institution, as long as the admitting institution offers that same course. This transparency will make it easier for students to continue their higher education at any state-supported campus.

Effective Autumn Semester 2009, all units of the Montana University System (MUS) began to offer classes using new subject abbreviations and new numbers that are common across all MUS units. Subject areas and numbers continue to be renumbered as of the publication of this catalog. Information

regarding Common Course Numbering at the University of Montana is available at the [Common Course Numbering web page](#).

Withdrawal from the University

Students who withdraw from the University (withdrawing from ALL classes) while a semester is in progress must complete withdrawal forms which are obtained from the Registration Counter in Griz Central (Lommasson Center) or the Registrar's Office in the College of Technology. Drop/add forms cannot be used to withdraw from school and students are not allowed to drop all their courses on the Internet. International students must first contact the Foreign Student Advisor before withdrawing as visa status will be affected. Medical withdrawals are granted only for a student's significant health problems and must be documented by a healthcare provider.

See the Expenses section of this catalog for fee information relating to withdrawal from The University.

If a student receiving financial aid withdraws they may have to repay aid received in the current semester and it may affect eligibility in the future semesters. If a student stops attending classes without formally withdrawing they too may have to repay aid received in the current semester and may be ineligible for aid in future terms. Students who reside in a University residence hall or in family housing must notify the Residence Life Office or the Family Housing Office of the withdrawal.

Students who purchase health insurance with registration will receive a refund and lose coverage if withdrawn during the first fifteen instructional days unless a student is granted a medical withdrawal. Withdrawal after the fifteenth day will not result in a refund but coverage will continue through the remainder of the semester.

When withdrawal forms are completed in Griz Central or the Registrar's Office in the College of Technology before the last two weeks of the semester, grades of W (withdrawal) are assigned. Beginning two weeks from the end of the term, students may not withdraw from the University except for very unusual circumstances. Such late withdrawals are to be approved by the student's academic dean before the end of the semester. However, in exceptional cases, a student's academic dean may approve retroactive withdrawal for the last semester in attendance, provided the request is approved before the end of the student's next semester of enrollment.

Prerequisites and Co-requisites

"Prerequisite" indicates that the course(s) or requirement(s) described must have been met/satisfactorily completed (grade of C- or better, unless otherwise specified in the course description in the catalog) before the student may take the course that requires the listed pre-requisite. Failure to complete satisfactorily the pre-requisite will result in the student being dropped from the course which requires the pre-requisite. If credit for a pre-requisite was earned via the Advanced Placement (AP) Examination Program, the AP score is recorded on a student's academic record with a grade of "CR*" (prior to Autumn Semester 2012), or a score of AP3, AP4, or AP5 (Autumn Semester 2012 and thereafter). "Co-requisite"

indicates the course or courses must be taken concurrently (in the same academic term) with the course described. In some cases a co-requisite may be completed prior to the semester in which the course that requires the co-requisite is taken.

Course Numbering System

- 001-099 Courses below college level. Credit not allowed toward a degree.
- 100-199 Primarily for freshmen.
- 200-299 Primarily for sophomores.
- 300-399 Primarily for juniors.
- 400-499 Primarily for seniors.
- 500-699 Primarily for graduate students.
- Senior (5th year) courses in Pharmacy are numbered 500 to 599.
- 800 cross-listed courses, used for secondary or other listing.

Undergraduates in Graduate Courses

Post-baccalaureates and seniors holding a 3.0 (or greater) grade point average may, with consent of instructor, enroll in 500-level courses for undergraduate credit. Variance from these requirements cannot be petitioned.

Cross-listed and Equivalent Courses

Some courses are offered jointly by two or more departments. In such cases, the course description will provide information for registration. As of Autumn Semester 2013, a select group of cross-listed courses were being offered as part of a continuing pilot study authorized by the Office of The Commissioner of Higher Education and the faculty of the university.

In certain cases, a course description indicates credit is not allowed for a particular course and for another course offered by a different department. These courses are very similar in content, although offered separately, and credit is not allowed toward a degree for both courses.

Technical Courses

A few courses at the Missoula College are shown with a course number suffix of "T" and are primarily technical in nature. The courses will be required in a specific Certificate of Applied Science program or a specific Associate of Applied Science program or professional industry certificate offered by the College. Up to 15 credits of vocational-technical course work from regionally accredited schools are accepted as free elective in transfer toward an AA, AS, or baccalaureate program. Up to 20 credits may transfer for students completing an AAS degree. Refer to vocational technical credits in the Admissions section or Credit Maximums section.

Full-Time Student Defined

Undergraduate Students

Full Time:	12 or more enrolled credits
1/2 Time:	6 -11 enrolled credits
<1/2 Time:	5 or fewer enrolled credits
Not Enrolled:	0 enrolled credits (withdrawn/graduated, etc.)

Graduate Students

*Full Time:	9 or more enrolled credits
1/2 Time:	6 – 8 enrolled credits
<1/2 Time:	5 or fewer enrolled credits.
Not enrolled:	0 enrolled credits (withdrawn/graduated, etc.)

* One credit of PSYX 638 Clinical Psychology Internship per semester is equivalent to full-time enrollment for students in the Clinical Psychology Ph.D. Program.

In most baccalaureate programs a student must earn at least 15 credits per semester to graduate in a four year period. One and two year programs usually require enrollment in between 15 and 19 credits per semester.

Maximum Credit Load

Generally, an undergraduate student should register for no more than 21 credits during a semester. The credit load would include physical education activity courses, and also remedial courses (those numbered below 100), credits from which do not count toward a certificate or degree.

Permission to enroll for more than the maximum credit load given above may be approved by the student's faculty advisor.

Final Examinations

Final examinations for the semester are scheduled in two-hour segments, one for each course. The segments should be considered as class meetings to be treated by the instructor as he or she thinks educationally appropriate. The time scheduled for final examinations is the only time period during which final examinations are to be given. If an instructor elects not to give a final examination during the designated week, under no circumstances are final examinations to be given during the week preceding the scheduled final examination days.

Students may seek relief from writing more than two examinations during the same day. Students who are scheduled for more than two examinations may contact the appropriate faculty to arrange an alternate testing time during the scheduled final examination period. If satisfactory arrangements cannot be made, the student should seek the assistance of his or her dean.

University Employee Registration

University employees who have applied and have been accepted for admission to the University may register with the approval of the employee's supervisor. Waivers of some fees are granted to some faculty and staff members who are at least three quarter time salaried employees on the date of registration. Additional information and the necessary forms are available in the Office of Human Resource Services in the Lommasson Center.

Grading and Academic Standing Information

Grading System

The University uses two types of grading: traditional letter grades and credit/ no credit grades. At the option of the instructors some courses are offered only on the traditional letter grade basis or only on the credit/no credit basis. Other courses are open to either type of grading, at the option of the student. Courses offered on the A -F basis only or CR/NCR only will be indicated in the Class Schedule or via CyberBear. Grades preceded by an R indicate remedial courses. Grades preceded by an E indicate academic forgiveness was granted.

The instructor has the first fifteen (15) class days of the semester to change the grading option for their course. If a change does occur from the original published grading option, the students in the class and the Registrar's office must be notified of the change not later than the fifteenth (15) class day.

Traditional Letter Grading (A-F)

Traditional Letter Grades represent an assessment of the overall quality of work performed in a given course. A-Excellent; B-Good; C-Satisfactory; D-Poor, F-Failure. When assigning traditional letter grades, instructors may, at their discretion, utilize the symbols + or -. Use of the + or - will be limited to A-, B+, B-, C+, C-, D+, and D-. Other grade symbols used are: I-Incomplete; N-work on the course may be continued in later semesters (when work is completed, the final grade assigned applies to all semesters of the course); NF-no record of academic performance; W-withdrawal from a course or course dropped after the fifteenth instructional day; WP-course dropped after the forty-fifth instructional day with passing work; WF-course dropped after the forty-fifth instructional day with failing work; AUD-auditor registration. (AUD is recorded for all students who register in courses as auditors, intending to listen to the courses without earning credit or being graded. The same fees are assessed as when registering for credit. Any attendance or participation expectations are established by the instructor of the course. If attendance expectations are not met, the instructor may request a notation be placed on the student's academic record indicating attendance was not satisfactory.) Remedial courses do not count in credits earned, nor in grade point averages, nor do they count toward graduation.

Credit/No Credit Grading (CR/NCR)

Student Option: To encourage students to venture into courses where they might otherwise hesitate because of uncertainty regarding their aptitude or preparation, they may enroll in some courses on a credit/no credit basis. Freshmen and sophomores are discouraged from taking more than one course a semester on a credit/no credit basis.

No more than 18 CR credits may be counted toward graduation requirements at the baccalaureate level. Courses taken to satisfy General Education Requirements must be taken for traditional letter grade. Courses required for the student's major or minor must be taken for traditional letter grade.

A grade of CR is assigned for work deserving credit (A through D-) and a grade of NCR is assigned for work of failing quality (F). CR and NCR grades do not affect grade point averages. The grades of CR and NCR are not defined in terms of their relationship to traditional grades for graduate course work.

Election of the credit/no credit option must be indicated at registration time or within the first 15 class days on CyberBear. Between the 16th day and the last day of instruction before finals week, a student may request a change from credit/no credit enrollment to an enrollment under the A-F grade system, or the reverse, by means of a Course Add/Change Form; note that not all such requests are approved. See instructions above.

The University cautions students that many graduate and professional schools and some employers do not recognize non-traditional grades (i.e., those other than A through F) or may discriminate against students who use the credit/no credit option for many courses. Moreover, students are cautioned that some degree programs may have different requirements regarding CR/NCR credits, as stipulated in the catalog.

No Credit Grading in Composition (CN)

Students enrolled in WRIT 095 and WRIT 101 are graded by the traditional letter grades of A through F or are given NC for no credit. The NC grade is awarded when exceptional progress has occurred but the student needs to repeat the course. The NC grade does not affect grade point average.

Incomplete Grade Policy

It is assumed that students have the responsibility for completing the requirements of the courses in which they are enrolled within the time framework of the semester

A grade of Incomplete (I) may be given when, in the opinion of the instructor, there is a reasonable probability that students can complete the course without retaking it.

The incomplete is not an option to be exercised at the discretion of a student. In all cases it is given at the discretion of the instructor within the following guidelines:

1. A mark of incomplete may be assigned students when:
 - The student has been in attendance and doing passing work up to three weeks before the end of the semester, and
 - For reasons beyond the student's control and which are acceptable to the instructor, the student has been unable to complete the requirements of the course on time. Negligence and indifference are not acceptable reasons.
2. The instructor sets the conditions for the completion of the course work, and communicates them to the departmental office.

3. When a student has met the conditions for making up the incomplete, the instructor will assign a grade based upon an evaluation of the total work done by the student in the course.
4. An incomplete which is not made up within one calendar year automatically will revert to the alternate grade which was assigned by the instructor at the time the incomplete was submitted.
5. An incomplete remains on the permanent record and is accompanied by the final grade, for example, IA, IB, IC, etc.

Faculty Option

- * A faculty member may elect to grade an entire class using the traditional letter grading option (A-F).
- * A faculty member may elect to grade an entire class using the credit/no credit option (CR/NCR). This method of grading is used in courses where more precise grading is inappropriate.
- * A faculty member may elect to grade an entire class with the open grade mode option which allows students to choose between traditional letter grading and credit/no credit grading. When a course is offered with the open grade mode option, then the default grading at the time of registration defaults to traditional letter grading. It is the student's responsibility to make the change to credit/no credit grading if this is their preference.
- * Faculty members must choose the grade mode option for their courses at the time when courses are being proposed for a particular semester or within the first 15 instructional days of the semester.
- * Courses graded credit/no credit only and courses graded A-F only will be identified in the Class Schedule or via CyberBear.

Credit Definition

Credit is defined in terms of semester hours. In general, 1 semester hour credit is allowed for 1 hour of lecture each week of the semester, or an average of 2 hours of laboratory each week of the semester.

In determining semester hour recommendations, evaluators use the following guidelines:

1. One semester credit hour for each 15 hours of classroom contact plus 30 hours of outside preparation or the equivalent; or
2. One semester credit hour for each 30 hours of laboratory work plus necessary outside preparation or its equivalent, normally expected to be 15 hours; or
3. One semester credit hour for not less than 45 hours of shop instruction (contact hours) or the equivalent.

Computation of Cumulative Grade Point Average

Quality points are assigned as follows: 4 quality points for each credit of A; 3.7 quality points for each credit of A-; 3.3 quality points for each credit of B+; 3 quality points for each credit of B; 2.7 quality points for each credit of B-; 2.3 quality points for each credit of C+; 2 quality points for each credit of C; 1.7 quality points for each credit of C-; 1.3 quality points for each credit of D+; 1 quality point for each credit of D; and 0.7 quality points for each credit of D-.

The cumulative grade average is computed by dividing the total quality points earned by the total number of credits attempted, excluding courses assigned W, WF, WP, CR, NC, NCR, I, AUD, or N grades and courses numbered under 100 (grade is preceded by an R). For repeated courses, excluding courses assigned W, WF, WP, CR, NC, NCR, I, AUD, or N grades, only the last grade earned will count toward the cumulative grade average. Grades for courses transferred from other colleges and universities are not included in the calculation of the grade average for graduation.

Repeating a Course

Repeat Fee Structure:

- 1st repeat - \$25.00
- 2nd repeat - \$35.00
- 3rd repeat - \$50.00

The fee is assessed when a single course is repeated. The repeat fee is assessed for all students who repeat courses, not just those wanting to replace a grade for a course they took previously. Exemptions from the fee will be allowed for individuals with disabilities or financial hardship based upon recommendations from the Office of Disability Services or the Financial Aid Office.

Initial grades will be marked as repeated and remain on the transcript, but they will not be used to in the GPA calculation. Grades of AUD, I, N, NC, NCR, NP, NF, W, WP, or WF may not be used to replace grades. An F grade will be used to replace grades. If the last grade received is an F, no credit is given for previous passing grades. All courses repeated remain on the permanent record but only the last grade received is used to determine credits earned. Only the last grade received is used in calculating the grade point average.

If students receiving federal financial aid repeat a course previously passed they can only receive financial aid to do so a second time. On a third attempt the course will not be counted in the enrollment status for determining aid eligibility.

If enrollment in a course is closed, a student who is repeating or auditing the course may be required by the instructor to drop the course. This rule grants enrollment preference to those students attempting to register for the course for the first time for credit. It is the responsibility of the student who is not allowed to remain in the course to formally drop the course to avoid a failing grade for that course.

Repeating a course in the School of Law is governed by a different policy. See the School of Law section of this catalog.

Credit By Examination

Under certain circumstances, a currently registered student may receive credit by examination for a course in which he or she has not been regularly enrolled. The student must have a minimum cumulative grade average of 2.00 and an entering freshman must present a high school scholastic record equivalent to a 2.00 grade average to be eligible to earn credit by examination in any course.

Each school or department may determine those courses, if any, for which credit may be earned by examination. The dean of the school or the chair of the department must approve any arrangements prior to testing for such credit. On the successful completion of an examination, the department notifies the Registrar's Office. There are no fees for this type of credit by examination and grading may be credit/no credit or traditional letter grade.

Undergraduate Academic Performance

The cumulative grade average is calculated by dividing the total quality points earned by the total number of credits attempted, excluding courses assigned W, WF, WP, CR, NC, NCR, I, AUD, or N grades and courses numbered under 100 (grade is preceded by an R). Grades for courses transferred from other colleges and universities are not included in the calculation of the grade average for graduation. However, for determination of graduation honors/high honors, grades for all work transferred to this University, including failing grades are factored into the calculation.

Dean's List (Honor Roll)

To qualify for the Dean's List, students must be undergraduates, must earn a semester grade average of 3.50 or higher, and receive grades of A or B in at least 9 credits. No grades of C+, C, C-, D+, D, D-, F, NC or NCR are allowed.

Undergraduate Academic Probation

An undergraduate student will be placed on academic probation if at the end of any semester his/her cumulative grade average drops below 2.00. The effect of the academic probation is to serve notice to the student that the quality of his/her work is below an acceptable level and that continuation of unsatisfactory work during their next semester of enrollment will result in academic suspension. Academic probation status is recorded on the student's academic transcript and semester grades. Students placed on probation should contact their academic advisor immediately to seek assistance and direction.

Undergraduate Academic Suspension

An undergraduate student will be placed on academic suspension at the end of any semester if the student was on academic probation during his/her prior semester of attendance and the student's cumulative grade average remains below 2.00. Exceptions are made if the student earns at least a 2.00 grade average for the current semester without raising the cumulative grade average to the required minimum. In such cases, students remain on academic probation. A student placed on academic suspension may not re enroll at the University unless the student has been reinstated. Reinstatement will require, at minimum, one full semester of non-enrollment at any campus of the Montana university system. Academic suspensions are noted on final grades and academic transcripts. Additional information can be found on the Office for Student Success Academic Standing web page.

Reinstatement from Academic Suspension

As noted above, an undergraduate student will be academically suspended at the end of a semester if placed on academic probation during the previous semester of attendance and the student's cumulative graduate point average (CGPA) remains below the 2.00 CGPA required for good academic standing.

Students who have been suspended for academic reasons and seek reinstatement must receive the approval of the academic dean of the school or college in which they intend to enroll. [If seeking reinstatement in the Missoula College, contact the Retention and Advising Coordinator at MC.] Typically, retroactive grade changes, dropped courses or withdrawals do not reverse the academic suspension status that is recorded on the transcript, unless there was an error or grading mistake.

Academic reinstatement is not automatic. The student must provide the reasons for previous poor academic performance along with a carefully prepared plan for improvement that is completed with the help of an academic advisor. A student denied reinstatement may appeal the denial in writing to the President of the University within ten days of receiving the notice of denial. The decision to deny reinstatement normally will not be reversed unless there is evidence the decision was made arbitrarily.

If a suspended and reinstated student has not attended UM for more than two years, the student must also complete an application for readmission through the Registrar's Office. The readmission form re-activates the student's record and, along with the reinstatement form, allows the student to register for courses.

Academic Forgiveness

- A University of Montana – Missoula undergraduate, seeking their first undergraduate degree, who returns to the university after a minimum absence of three years and completes 30 credits of academic study with a minimum cumulative GPA of 2.5 is eligible for Academic Forgiveness.
- Academic Forgiveness allows a student who has met the requirements in statement #1 to select a prior semester or semesters he/she wishes to have excluded from calculation in the cumulative GPA. The semester(s) chosen must have occurred prior to his/her return to the university.

- Receiving Academic Forgiveness for a semester or semesters results in all credits and grades earned in the semester to be excluded from the student's GPA calculation. A student will not be allowed to select specific grades and credits to retain while excluding others earned within the same semester. The excluded courses and grades will remain on the transcript; however, they may not be used to fulfill any university requirements.
- Only University of Montana – Missoula grades and credits will be excluded.
- All excluded courses are still counted as attempted courses in determining if a student is meeting the Pace standard of the financial aid satisfactory academic progress (SAP) policy. If the terms being forgiven include courses a student previously passed the result could be that the student would now be out of compliance with the SAP policy and would have to do a financial aid appeal to have aid eligibility reinstated
- A student will be granted Academic Forgiveness only one time.
- Students who receive Academic Forgiveness will be bound by the University Catalog in effect at the time of their return to The University or any subsequent catalog in accordance with University policy.
- Students wishing to apply for Academic Forgiveness will contact the Registrar's Office for the appropriate form. The Registrar's Office will be responsible for verifying eligibility and notifying the student of approval.
- Other options exist for students who have not left the university, such as course repeat, withdrawals, and other mechanisms listed under academic policies in this catalog.

Students wishing to apply for Academic Forgiveness may obtain the form at the GrizCentral registration counter, or on the Registrar's Academic Forgiveness web page.

Transcript of Academic Record

A transcript of a student's academic record may be obtained from the Registrar's Office in the Lommasson Center or the Registrar's Office at the College of Technology upon the written and signed request of the student. In compliance with federal and state laws designed to protect student privacy, transcripts are not released without the student's authorizing signature.

Transcripts are usually available within two to five working days after receipt of the signed request. There is a charge of \$3.00 for each official transcript. Payment must be received before transcripts are released. Transcripts and other services are withheld if the student owes a debt to the University. Special handling requests require extra fees. Students may order an academic transcript on-line for a small additional fee. Additional information regarding ordering options and fees may be viewed via the [Registrar's Website](#).

A student who enrolled after summer semester 1991 may view his or her academic record in [CyberBear](#).

Student Rights and Responsibilities

Privacy and Release of Student Education Records (FERPA)

What is FERPA?

FERPA (Family Educational Rights and Privacy Act) was enacted in 1974. It is a set of regulations that applies to those institutions, such as the University of Montana, that receive funding from the Department of Education.

FERPA was written specifically for students and guarantees them the right to inspect and review their education records, the right to seek to amend education records, and the right to have some control over the disclosure of information from those education records.

Resources for Students

Notification Regarding Release of Student Directory Information

The Family Educational Rights and Privacy Act (FERPA) of 1974 (20 U.S.C. § 1232g; 34 CFR Part 99) is a federal law that protects the privacy of student education records. "Education records" are "those records, files documents, and other materials which 1) contain information directly related to a student; and 2) are maintained by an educational institution. (20 U.S.C. § 1232g(a)(4)(A); 34 CFR § 99.3). FERPA applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

Generally speaking, FERPA allows the University to disclose education records or personally identifiable information from education records in the following circumstances: with the written consent of the student, if the disclosure meets one of the statutory exemptions, or if the disclosure is directory information and the student has not placed a hold on release of directory information.

The University defines the following information as public (directory) information:

- Student's name
- Street address
- Email address
- Telephone number
- Date of birth
- Dates of attendance
- Degrees and awards received
- Major and minor field(s) of studies
- Class
- Participation in officially recognized activities and sports
- Most recent previous educational agency or institution attended by the student
- Weight and height, if student is a member of an intercollegiate athletic team

FERPA allows the University to release a student's directory information to anyone unless the student informs the University Office of the Registrar that he or she does not wish directory information to be released.

NO to Release of Directory Information

If you do not wish to authorize the release of directory information and do not want your directory information to appear in the University Student Directory, you must inform the Office of the Registrar of

this by completing a *UM Confidentiality Request Form* which can be obtained from the [Registrar's Office Website](#). You should allow at least three business days for processing.

You should be aware ...

You should be aware that restricting the release of your directory information has other consequences. For instance, a FERPA restriction makes it difficult or impossible for potential employers to verify your enrollment, or to verify the fact that you have earned a degree from the University. The University cannot notify your home town paper about awards and honors you receive (e.g., Dean's list). For this reason alone, many students choose to remove their FERPA restriction.

Change from NO to YES

At any time after restricting the release of your directory information, you may change your mind and choose to authorize the University to release directory information and for it to appear in the University Student Directory. You can grant such authorization at any time by going to the Registrar's Office at 201 Lommasson with a valid photo identification.

Notification of Students' Rights Under FERPA

FERPA also affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.

To inspect and review his or her education records, a student should submit to the university official(s) or office(s) having custody of the particular record(s), a written request that identifies the record(s) the student wishes to inspect.

1. The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. (*This process cannot be used to challenge a grade.*)

A student who wishes to ask the University to amend a record should write the appropriate University dean or director responsible for custody of the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the University discloses personally identifiable information from the student's education records, except that the University will disclose the following information without a student's consent:
 1. Disclosure to school officials with legitimate educational interests. A **school official** is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including, but not limited to University Police Department personnel, and Curry Health staff); a contractor, consultant, or other outside service provider retained to provide various

institutional services and functions under contract or by statute instead of using University employees or officials (including, but not limited to an attorney, auditor, collection agent, information systems specialist, teaching affiliate, and clinical mentor); a person serving on the Board of Regents, staff in the Office of the Commission of Higher Education, the Institutional Review Board, and any other University board, committee or council; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a **legitimate educational interest** if the official needs to review an education record in order to fulfill his or her professional responsibilities for the University.

1. Compliance with a lawfully issued subpoena or judicial order.
2. Requests in connection with a student's application for financial aid.
3. Information submitted to accrediting organizations.
4. To other agencies or institutions that have requested the records and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.
5. Requests by federal and state authorities and authorized third parties designated by federal and state authorities to evaluate a federal or state supported education program; to researchers performing certain types of studies; in connection with statewide longitudinal data systems studies and tracking.
6. In the case of emergencies, the University may release information to appropriate persons in connection with an emergency, if the knowledge of such information is necessary to protect the health or safety of a student or other persons.
7. To the extent otherwise permitted by law, the results of a disciplinary proceeding or investigation conducted by the University to an alleged victim of a crime.
8. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

Student Rights

Public Safety Report and Alcohol and Drug Guidelines

The health and safety of students, faculty, staff, and visitors are of paramount concern to The University of Montana. Each year the University publishes an annual report outlining on-campus security and safety information and crime statistics. The report provides important information for security awareness and crime prevention programs, emergency procedures and reporting crimes, plus law enforcement and safety services on campus.

Additionally, the booklet contains the University's policy on sexual assault and information about support services for victims of sexual assault. The booklet also includes information about the University's drug and alcohol policy, programs and support services for substance abuse, and risk management guidelines for University-related events.

The booklet is available by writing or calling the Office of Public Safety (406) 342-6131 or the Office of the Vice President for Student Affairs (406) 243-5225, The University of Montana, Missoula, Missoula, MT 59812. The information can also be accessed on the University of Montana [Student Affairs website](#) and the [University of Montana Public Safety website](#).

Student Complaint Procedures

Under the terms of the Collective Bargaining Agreement between The University of Montana University Faculty Association and The Montana University System, there is a formal procedure for students who have a complaint against a faculty member or an administrator. Information about this procedure is available at the [Vice President for Student Affairs website](#). The ASUM Student Resolution Officer is available to answer questions about procedures and to assist with the process. Time restrictions are important, so students should review procedures immediately if they feel they may have complaints. The Resolution Officer receives voice mail at 243-5431 or email at asum.resolutionoff@mso.umt.edu.

Notice to Students with Disabilities

Students with disabilities may obtain assistance with the registration process and the relocation of classes (if needed) through Disability Services in Lommasson Center 154 (406) 243 2243 VOICE/TDD.

Adding and Dropping Courses or Changing Sections, Grading or Credit Status

When selecting and registering for their courses, students are expected to make informed choices and regard those choices as semester-long commitments and obligations.

Adding, Dropping and Other Course Changes – Summary Tables

Students who request to add, drop or change the grading option must have all registration holds cleared in order for the request to be honored. The following information does NOT apply to the School of Law. Law school students should see the School of Law website for information.

Student Conduct Code

The Student Conduct Code, embodying the ideals of academic honesty, integrity, human rights and responsible citizenship, governs all student conduct at The University of Montana-Missoula. Student enrollment presupposes a commitment to the principles and policies embodied in this Code. The Student Conduct Code sets forth University jurisdiction, student rights, standards of academic and general student conduct, disciplinary sanctions for breach of the standards of student conduct and procedures to be followed in adjudicating charges of both academic and general misconduct. The Vice President for Student Affairs is responsible for procedural administration of the Student Conduct Code for all general conduct. The Provost and Vice President for Academic Affairs is responsible for all academic conduct. Copies of the Student Conduct Code can be obtained from the offices of the Vice President for Student Affairs, the Provost and Vice President for Academic Affairs, Residence Life, and Associated Students of University of Montana-Missoula (ASUM). The Student Conduct Code also can be accessed on the [Vice President for Student Affairs Conduce Code web page](#).

Plagiarism Warning

Plagiarism is the representing of another's work as one's own. It is a particularly intolerable offense in the academic community and is strictly forbidden. Students who plagiarize may fail the course and may be remanded to Academic Court for possible suspension or expulsion. (See Student Conduct Code that follows in this section of the catalog.)

Students must always be very careful to acknowledge any kind of borrowing that is included in their work. This means not only borrowed wording but also ideas. Acknowledgment of whatever is not one's own original work is the proper and honest use of sources. Failure to acknowledge whatever is not one's own original work is plagiarism.

Class Attendance/Absence Policy

Students who are registered for a course but do not attend the first two class meetings may be required by the instructor to drop the course. This rule allows for early identification of class vacancies to permit other students to add classes. Students not allowed to remain must complete a drop form or drop the course through [CyberBear](#) to avoid receiving a failing grade. Students who know they will be absent should contact the instructor in advance.

Students are expected to attend all class meetings and complete all assignments for courses in which they are enrolled. Instructors may excuse brief and occasional absences for reasons of illness, injury, family emergency, religious observance or participation in a University sponsored activity. (University sponsored activities include for example, field trips, ASUM service, music or drama performances, and intercollegiate athletics.) Instructors shall excuse absences for reasons of military service or mandatory public service.

Instructors may establish absence policies to conform to the educational goals and requirements of their courses. Such policies will ordinarily be set out in the course syllabus. Customarily, course syllabi will describe the procedures for giving timely notice of absences, explain how work missed because of an excused absence may be made up, and stipulate any penalty to be assessed for absences.

The UM Faculty Senate encourages the faculty to accommodate students incurring an excused absence by allowing them to make up missed work when this can be done in a manner consistent with the educational goals of their courses. Students expecting to incur excused absences should consult with their instructors early in the term to be sure that they understand the absence policies for each of their courses.

Major and Minor Requirement Information

Declaring a Major and Changing a Major

Students indicate on the application for admission the major or majors in which they are interested. Students undecided as to a field of interest may elect to be Undeclared while making program and career decisions. Students must declare a major in a degree granting program prior to completion of 45 credits or after three semesters, whichever occurs first.

Students must complete a major in order to earn a degree or certificate.

Students may change their majors or minors by obtaining the proper approval on a change of major or minor form available from the Registration Counter in Griz Central in the Lommasson Center. Because of enrollment limitations, students must request a change to a program in the Missoula College by completing an application for admission and submitting it to the College. Students whose initial admission was to the Missoula College may change to a major outside the College by submitting an application for admission to Enrollment Services-Admissions & New Student Services in the Lommasson Center.

Credits Required for a Major

Students in a bachelor degree program must complete a minimum of 30 credits in their major. Most majors require more.

Students may elect to earn a single degree with more than one major. Students may complete a double major (two majors) or any number of majors. All requirements for the majors must be completed even though students will receive a single degree such as a Bachelor of Arts with majors in Psychology and Sociology. It is only necessary to complete the total credit requirement for a single bachelor degree.

Courses completed to satisfy the requirements of a major also may be applied toward the General Education Requirement if they appear on the list of approved courses at the time they are taken.

Students in programs in the Missoula College complete requirements as listed in the Missoula College section of this catalog.

Credit Limitations in a Major

A maximum of 60 credits in the student's major may be counted toward the baccalaureate degree, except some options in Health and Human Performance and Education, majors in Computer Science, and majors in the Schools of Business Administration, College of Visual and Performing Arts, Journalism, Law, The College of Health Professions and Biomedical Sciences and the College of Forestry and Conservation are allowed more. Students with combined majors, as opposed to two majors, are allowed to apply 75 credits in the major.

Grade Requirement

Courses taken to satisfy the requirements of the major must be completed with a grade of C- or better.

A minimum grade average of 2.00 in all work attempted in the major at the University of Montana-Missoula is required for graduation.

Major Concentration

Groups of courses have been identified which lead to a specialization within one major or between two or more majors. These specializations are called concentrations. The names of approved concentrations will be recorded on the permanent records of those students who have satisfactorily completed the requirements as given in the catalog governing their graduation. A student desiring a particular concentration must satisfy the requirements of the major offering it. If one concentration is offered within two or more majors, the student must satisfy the requirements of only one.

Only courses listed within the supporting major count toward the 60 credit limitation in the major. Courses in other fields do not count toward the maximum of 60 credits in the major even though they may be required or elected for the concentration.

If one major has two or more concentrations, a student may satisfy the requirements for more than one concentration so long as the maximum credit limitations are observed.

Minor Requirements

Baccalaureate students may elect to complete one or more minors in fields outside their majors. Minors may be in fields unrelated to students' majors or they may be complementary or supportive of majors. A student may not take a minor in the same field of study as his or her major.

A student will not be required to satisfy the requirements of a minor in order to graduate unless that minor is required by the student's major department or school.

Courses completed to satisfy the requirements of a minor also may be applied toward the General Education Requirement if they appear on the list of approved courses at the time they are taken.

Credits Required for a Minor

To complete a minor, students must earn at least 18 credits in an approved minor listed in this catalog and complete a baccalaureate degree.

Students possessing a baccalaureate degree from an accredited college or university may earn a minor if they have been accepted by the University as an undergraduate degree student. In addition to meeting minor requirements, students must earn from the University of Montana-Missoula a minimum of 9 credits in the minor field and 15 credits overall.

Grade Requirement

Courses taken to satisfy the requirements of the major and the minor must be completed with a grade of C- or better. Some majors require a C or higher grade for some of the required courses. Specific information regarding the major requirements can be found in the majors individual section of the catalog.

A minimum grade average of 2.00 in all work attempted in the minor at the University of Montana-Missoula is required for graduation with the minor.

Teaching Minors

Teaching minors are separate entities from degree minors as described in this section. Teaching minors are identified and requirements listed in the College of Education section of this catalog.

Office for Student Success

Office for Student Success

The mission of the Office for Student Success (OSS) is to help students successfully transition to college, progress academically and ultimately become graduates of the University of Montana. OSS initiates and leads collaboration with academic departments, state and local organizations and administrative units across campus to define, implement and assess programs that support students academically, financially and socially.

OSS delivers direct support services to students in the form of academic advising, math and writing tutoring, and freshman/sophomore programming. The Undergraduate Advising Center and the Writing Center are administered by the OSS.

Undergraduate Advising Center

The Undergraduate Advising Center is a university service staffed by professional advisors and peer advising assistants committed to helping undergraduate students achieve a successful college experience. The UAC

programs guide students as they transition to college, assisting them in clarifying academic goals and exploring majors.

Advisors in the UAC work with both faculty and full-time advisors in each of the Colleges to assist students in making decisions about major areas of study and to ensure smooth transitions to and from majors. Working collaboratively, the full-time advisors of the Center consult with academic departments to provide new and creative opportunities for students to explore majors and careers that align with their abilities, interests, and strengths.

UAC advisors are the advisor of record for first year students who plan to major in Business, Pre-Nursing, Psychology, or Communication Studies and all students who have not yet declared a major.

The Writing Center

The Writing Center administers programs to help undergraduate and graduate students in all disciplines become more independent, versatile, and effective writers, readers, and thinkers. Writing Center tutors engage students in structured discussions about writing, challenging them to develop as writers and thinkers who contribute to local and global conversations. Focused on the development of the writer, tutors help students to recognize their strengths and weaknesses as communicators and to practice strategies appropriate to various writing contexts.

The Writing Center also collaborates with faculty to positively impact student performance. These collaborations include delivery of discipline-specific writing workshops across the curriculum and professional development opportunities such as workshops on how to design writing assignments and how to provide students with effective feedback on their writing. In an effort to support all writers at the University of Montana, the Writing Center also supports faculty and staff writers by providing one-to-one consultations on their professional writing projects.

Four Bear Four-Year Graduation Plan

The Four Bear Four Year Graduation program is designed for students committed to completing their degree at the University of Montana within four years. Four Bear participants are provided with registration priority after signing the Four Bear contract in the first year. The program pays tuition and mandatory fees past the planned graduation time provided the student has met all of the requirements for continued participation. Pharmacy is an exception to the four-year plan; students are given five or six years to complete this degree.

Most department sections in the catalog include a suggested four-year course of study to complete a major. Four-Bear students must meet with their advisors in order to customize a plan to fit individual circumstances and academic.

School of Extended and Life Long Learning

Roger Maclean, Dean

The School of Extended & Lifelong Learning (SELL) is the outreach arm of the University of Montana. SELL partners with external organizations and academic units to provide innovative and flexible education experiences and personal growth opportunities for a variety of audiences. SELL's mission is realized through service, innovation and collaboration. By creating relationships based on integrity and professionalism, SELL advances quality lifelong learning opportunities that transform lives.

SELL is located in the James E. Todd building, east of the University Center. The building includes meeting space, available to rent by both on and off-campus entities, including state-of-the-art technology in every room and video conferencing capabilities. In addition, SELL provides conference and event planning, including equipment rental, technical support and logistical assistance.

We provide educational opportunities for community members

SELL is responsive to community needs, and seeks partnerships that help enrich the lives of community members. We design training programs tailored to help local companies meet their goals, and provide meeting space or planning services for educational conferences.

Individuals aged +50, enjoy **MOLLI** short courses in the fine arts, humanities, current and political affairs and natural and social sciences. These lifetime learners enjoy courses without the added pressure of grades, tests, or homework.

Community members who are looking to enhance their career potential need not look any further than our **Professional Development program**.

Working through a major life challenge? Consider taking a **Life Transitions workshop** in the areas of movement, creative expression, or resilience.

Interested in **Beekeeping**? We even have something for you. SELL offers an online certificate program for serious beekeepers that is taught by one of the nation's premier bee research teams. Beekeeping is just one example of the creative educational programming that is incubated at SELL.

We Support UM

SELL supports the entire campus community by offering a range of administrative, design and technical services associated with **Summer Semester**, **Wintersession**, and **UMOnline**. SELL's Innovation Studio helps faculty members bring their subject matter to life with instructional design, content creation, and accessibility support.

We accommodate all your conference planning and meeting needs

If you need help planning a conference, symposium, or large educational event, SELL has a **Conference Planning Services** team that can help make your event a success.

Need meeting space? The **Continuing Education Conference Center** at SELL can accommodate your needs with meeting rooms that can seat anywhere from 2-300 people.

These are just a sampling of the ways SELL meets educational needs and provides diverse learning opportunities. We strive to broaden educational access by meeting our audiences where they are, thinking outside the box, and providing excellent customer service.

Colleges, Schools and Programs

The offerings listed below are for undergraduate and professional programs. For detailed information about The Graduate School and graduate programs offered at the University of Montana visit the Graduate School Programs webpage. Terri L. Herron, Associate Dean

[Homepage: http://www.business.umt.edu/](http://www.business.umt.edu/)

The School of Business Administration, founded in 1918, is the largest professional school at the University. All programs are accredited by AACSB International—The Association to Advance Collegiate Schools of Business, and accounting programs also hold separate AACSB accreditation.

Mission

The University of Montana's School of Business Administration enhances lives and benefits society by providing a world-class business education in a supportive, collegial environment. We accomplish this mission by acting on our shared core values of creating significant experiences, building relationships, teaching and researching relevant topics, behaving ethically, and inspiring individuals to thrive.

The goal of the School of Business Administration's programs is to provide a broad foundation in business practice and theory, supplemented by deep expertise within one or more specific business disciplines through majors and certificates. The complexity of contemporary society has increased the need for responsible, ethical leadership in organizations with local and global reach. A professional business education combined with solid grounding in the liberal arts and sciences prepares men and women to meet difficult challenges and to contribute to society in meaningful ways. School of Business Administration graduates work in business, nonprofit, and government sectors all over the world.

Students may pursue programs of study leading to the B.S. in Business Administration with a major in any of the following areas: accounting, finance, international business, management, management information systems, and marketing. Students pursuing other undergraduate degrees can complete a minor in Business Administration or various certificates.

High School Preparation:

High school students who are planning to major or minor in business administration at the University of Montana-Missoula should take their school's college preparatory curriculum. Additional courses to improve quantitative, writing, verbal communication, analytical, and computer skills will be beneficial. Students should take as much mathematics as possible, including two years of algebra.

Credit/No Credit Option:

Most business administration courses are offered for traditional letter grade only.

All courses required for the major, the minor, certificates, and all general education courses must be taken for a traditional letter grade. Business courses taken as electives may be taken on a credit/no credit basis only if not identified as traditional letter grade only in the registration system and if approved by the instructor and the department chair. For additional information see the Academic Policies and Procedures section of the catalog.

Graduate Programs

Opportunity for further study at the graduate level is offered through programs leading to the degrees of Master of Accountancy (M-Acct.), Master of Business Administration (M.B.A.), joint J.D./M.B.A., joint M.B.A./D.P.T. and joint M.B.A./Pharm.D. The M.B.A. and M-Acct. programs are suited to all students regardless of undergraduate training. Further details may be obtained from the Graduate School or by specific inquiries directed to: Director of M.B.A. Program, School of Business Administration or Director of M-Acct. Program, School of Business Administration.

Foundation Program for Graduate Work in Business

The M.B.A. and M-Acct. programs are open to graduates of non-business undergraduate programs (prerequisites strictly enforced). Students in the arts and sciences or other professional schools are encouraged to consider the M.B.A. and M-Acct programs. Completion of all of the foundation courses listed below (or equivalents) prior to starting the program will reduce the time required for the M.B.A. or M-Acct. at the University of Montana-Missoula by one year; however, many of the courses listed below have prerequisites that are strictly enforced (including, without limitation, a general prerequisite that all upper-division business courses require the completion of each lower-core business course with a grade of C or better).

- ACTG 201 Principles of Financial Accounting
- ACTG 202 Principles of Managerial Accounting
- BGEN 361 Principles of Business Law
- BFIN 322 Business Finance
- BMIS 270 MIS Foundations for Business
- BMGT 322 Operations Management
- BMGT 340 Management and Organizational Behavior
- BMKT 325 Principles of Marketing
- ECNS 201S Principles of Microeconomics
- STAT 216 Introduction to Statistics

Nine of the 10 courses in the Foundation Program are included in the undergraduate Minor in Business Administration, which is open to any undergraduate student. The School of Business Administration also offers a

series of five graduate-level courses that can substitute for the above undergraduate courses. These courses are only open to students who have already earned an undergraduate degree. For more information, please visit the University of Montana [School of Business Administration Graduate School](http://www.business.umt.edu/DegreesPrograms/graduatePrograms/deansWelcome.aspx) website at <http://www.business.umt.edu/DegreesPrograms/graduatePrograms/deansWelcome.aspx>

Accounting and Finance Department

Bruce A. Costa Ph.D., Chair

The Department of Accounting and Finance prepares ethically aware decision-makers with effective analytical and qualitative business knowledge and skills to become professionals in their respective fields in the region and beyond. We commit to high quality teaching and applying scholarship to professional practice, pedagogy, and theory to enhance the professional accounting and finance fields. The department offers the Master of Accountancy degree and two undergraduate majors within the Bachelor of Science in Business Administration degree: accounting and finance. The department also offers a Certificate in Accounting Information Systems.

School of Business Admin Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: Major Subject: **Accounting**

Total Credits: 77 Cumulative GPA Required: 2.0

The undergraduate accounting program is committed to preparing students to apply accounting and business knowledge in organizations. Students develop competence in a broad range of accounting practices. The curriculum strives to foster critical thinking and problem-solving skills. Students are prepared to enter professional positions in accounting with business, nonprofit, or government organizations. Accounting programs in the School of Business Administration hold separate AACSB International accreditation. See the School of Business Administration section of the catalog for additional credit restrictions and residency requirements.

Commentary: See individual course descriptions in the catalog for additional grade and prerequisite requirements.

Commentary: Degree Commentary

All students pursuing an AIS Certificate must also complete the degree requirements for one of the business majors. The 3.0 GPA requirement pertains specifically to the 25 credits listed below, not a student's cumulative GPA.

Please meet with an AIS Certificate Advisor for assistance (see SoBA Advising for list of advisors by major).

School of Business Admin Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: Major Subject: **Finance**

Total Credits: 77 Cumulative GPA Required: 2.0

The finance curriculum is designed to equip students with a comprehensive foundation in financial management, financial markets and investments. Students will gain competence in making effective decisions, performing complex analyses, providing expert financial advice and utilizing current technology tools and data sources.

Basic Requirements for Finance Major

All students must complete a faculty-approved plan of study during the first semester of their junior year. The plan of study is available from a finance faculty advisor and must be completed and signed by the faculty advisor. Failure to implement and adhere to a program of study may delay graduation. Some courses have grade requirements in the prerequisite course (see the catalog course descriptions). Many of these courses may be taught once a year, so students should see their advisor for the schedule each academic year.

Lower Division Core

Category Name: SoBA - Primary Lower Core Courses Rule: All courses are required

Criterion: C Number of Credits 21

Commentary: Only 3 credits of BMGT 493 - International Experience can count towards the 6 required elective credits for the SBSC. BMGT 493 must be approved through SBSC advisor as having a focus on sustainability issues.

Commentary: Degree Commentary

In addition to the above requirements, students are required to complete the following:

- Meet with a SBSC certificate advisor;
- After completion of the two required courses, complete one "hands-on" experience to learn to apply and to demonstrate proficiency with sustainable business strategies and tools, as approved by the SBSC advisor (either an internship/service learning experience or case writing/submission; and
- Attend and complete an assignment on two speaker presentations on topics relating to Sustainability & Business as approved by the SBSC advisor. Please meet with an SBSC advisor for assistance (see SoBA Advising for list of advisors by major).

Management Information Systems Department

Lee Tangedahl, Chair

The Department of Management Information Systems offers a major in Management Information Systems within the Bachelor of Science in Business Administration.

Management Information Systems Major

The management information systems curriculum prepares students to manage an organization's information resources. The major focuses on:

- 1) analyzing and managing the flows of information within and across the organization's business processes;
- 2) effectively managing the acquisition and utilization of information technology; and
- 3) using both information and information technology to enhance the organization's strategic advantage.

The knowledge and skills developed in the curriculum lead to careers in consulting, application development, systems analysis and design, database administration, electronic commerce, telecommunications, network security management, big data analytics and project management.

Certificate in Big Data Analytics

The Big Data Analytics (BDA) certificate is designed to provide students with the tools necessary to compete in the Big Data space. Students will use big data tools that are currently available to capture, analyze, and present big data. They will explore a variety of applications with which Big Data tools can be applied, and they will complete a Big Data project. This certificate is currently aimed at students majoring in business, computer science, or mathematics.

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., junior standing in Business or consent of instr.

Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BMGT 492 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., junior standing in Business and consent of instr.

BMGT 493 - International Experience

Credits: 1 TO 6. (R-6) offered intermittently. Prereq., junior standing in business. Field-based, experiential courses that focus on international business topics, incl. the culture and business environment of important U.S. trading partners, such as China, Germany, or Italy.

BMGT 494 - Seminar/Workshop

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., junior standing in Business and consent of instr.

BMGT 498 - Internship

Credits: 1 TO 6. Offered every term. Prereq., junior standing in Business and consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation.

Course Attributes: Internships/Practicums, Internship graduation limit 6

BMGT 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

Course Attributes: Internships/Practicums

BMGT 604 - Competitive Strategy

Credits: 1. Offered autumn. Prereq., admission to the M.B.A. or M.Acct. program. An introduction to strategic management with a focus on the analysis of the firm and its environment as the basis for strategic decision making. Level: Graduate

BMGT 640 - Organizational Behavior

Credits: 2. Offered autumn. Prereq., admission to the M.B.A. or M-Acct. programs. Professionally oriented strategic overview of intrapersonal, interpersonal, and leadership skills for employees, management, and organizational designers. Topics include diversity, communication, motivation, groups/teams, culture and structure. Level: Graduate

BMGT 650 - Business Ethics

Credits: 1. BMGT 650-01 and BMGT 650-60 Business Ethics. 1 credit. Offered in the last five weeks of the fall semester. Prerequisites: admission in MBA program. Business Ethics is a course designed to acquaint students with the ethical implications of business decisions, policy, strategy and operations. The students will learn how to (1) develop a system of ethics that will form the foundation for future ethical practices in business;

(2) analyze specific contemporary issues in business for their ethical implications and content; and (3) challenge conventional thinking about ethics by introducing broad-based ethical principles and systems to enlighten and inform ethical thinking. Level: Graduate

BMGT 665 - Strategic Mgmt Seminar

Credits: 1 TO 12. Offered spring. Prereq., admission to the M.B.A. or M-Acct. program and ACTG 605, BFIN 681, BMIS 574, BMGT 604, and BMGT 640; coreq., MBA 603. Analysis of the firm within its industry and the structure of the industry; competitive positioning and competitor analysis; decision-making under conditions of uncertainty; developing a competitive advantage in international markets. Level: Graduate

BMGT 685 - International Business

Credits: 2. Offered spring. Prereq., admission to the M.B.A. or M-Acct. programs. Review and analysis of international trade theories and institutions, the role of the multinational enterprise (MNE) in global trade and how the MNEs operate in a global setting. Level: Graduate

Business: Management Info Sys

BMIS 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BMIS 192 - Independent Study

Credits: 1 TO 3. (R-3) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

BMIS 270 - MIS Foundations for Business

Credits: 3. Offered every term. Prereq., WRIT 101 with a C or better. Introduces the development, use, and management of computer-based information systems.

BMIS 292 - Independent Study

Credits: 1 TO 3. (R-3) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

BMIS 298 - Internship

Credits: 1 TO 3. (R-3) Offered every term. Extended classroom experience which provides practical application of classroom learning during placements within the business community. The student must complete a learning agreement with a faculty member, relating the placement opportunity to his or her field of study. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation.

Course Attributes: Internship graduation limit 6

BMIS 326 - Introduction to Data Analytics

Credits: 3. Prereq., College-level statistics. This course introduces the terminology and application of big data and data analytics. Students will complete cases in a variety of disciplines as they become acquainted with some of the software, tools, and techniques of data analytics.

BMIS 365 - Business App Development

Credits: 3. Offered autumn and spring. Prereq., junior standing in Business. Provides an understanding of algorithm development, programming, computer concepts and the design and application of data and file structures.

BMIS 370 - Managing Information and Data

Credits: 3. Offered autumn and spring. Prereq., junior standing in Business and BMIS 365. Managing and exploiting organizational data and information. Designing data and information models.

BMIS 372 - Information Infrastructures

Credits: 3. Offered spring. Prereq., junior standing in Business. Explores the evolution of technological infrastructures with an emphasis on strategic implications. Students develop an enterprise infrastructure and then examine innovations that allow for the design and development of products and services in a global business environment.

BMIS 373 - Business System Analy & Design

Credits: 3. Offered autumn. Prereq., junior standing in Business. Provides an understanding of the systems development and modification process, including requirements determination, logical design, physical design, test planning, implementation planning and performance evaluation.

BMIS 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., junior standing in Business or consent of instr.

Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BMIS 392 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., junior standing in Business and consent of instr.

BMIS 394 - Undergraduate Seminar

Credits: 1 TO 3. (R-3) Offered intermittently. Prereq., junior standing in Business and consent of instr.

BMIS 465 - Introduction to Real-time Data Analytics

Credits: 3. Offered intermittently. Prereq., STAT 216, BMIS 365 or equivalents. Focuses on analyzing big data in motion using commercially available software.

BMIS 471 - Fund of Network Management

Credits: 3. Offered intermittently. Prereq., junior standing in Business. Current topics will focus on the design, installation, configuration, and operation of local area networks. Includes a hands-on lab to demonstrate the concepts.

BMIS 472 - Advanced Network Management

Credits: 3. Offered intermittently. Prereq., junior standing in Business, BMIS 372, and BMIS 471. Focuses on network security, directory services, and network infrastructure. Includes a hands-on lab to demonstrate the concepts.

BMIS 476 - Integrated Project Mgmt for IS

Credits: 3. Offered every term Prereq., junior standing in Business and BMIS 365, 370, and 373. Emphasis on project planning, team selection models, and project management techniques. A software package is used to demonstrate how projects are planned, managed, monitored, and controlled.

BMIS 478 - E Commerce a Managerl Prspctv

Credits: 3. Offered intermittently. Prereq., junior standing in Business. Focuses on the capabilities of the Internet to support and enable commerce. Provides a managerial perspective on topics including effective web site design, emerging technologies, business models, infrastructure architectures, and security.

BMIS 479 - Introduction to Consulting

Credits: 3. Offered intermittently. Prereq., junior standing in Business. Managerial approach to consulting engagements. Includes scoping and writing proposals, presenting to clients, documenting consulting work, and interpersonal skills necessary for successful consulting. Course does not require a technical background.

BMIS 482 - Big Data Project

Credits: 3. Offered spring. Prereq., BMIS 326 and any 2 electives listed in part 4 of the Big Data Analytics Certificate, or consent of instructor. Students will work in cross-disciplinary teams to complete big data projects from different disciplines. There will be emphasis on agile project management.

BMIS 491 - Special Topics

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., junior standing in Business or consent of instr.

Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BMIS 492 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., junior standing in Business and consent of instr.

BMIS 494 - Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., junior standing in Business and consent of instr.

BMIS 495 - Practicum: Information Systems

Credits: 3. Offered every term. Prereq., junior standing in Business and consent of instr. Practical hands-on experience with area organizations. Provides application of classroom learning.

Course Attributes: Internships/Practicums

BMIS 498 - Internship

Credits: 1 TO 6. (R-6) Offered every term. Prereq., junior standing in Business and consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

BMIS 541 - Systems & Operations

Credits: 3. Online course. Offered spring. Prereq., admission to M.B.A. or M-Acct. program or graduate standing with consent of graduate business program director; grade of B or better in BMKT 560. Design and use of information systems to meet the tactical and strategic needs of an enterprise, particularly within the operations function. Topics include systems analysis, data and process modeling, database designs, manufacturing planning and control, forecasting, and quality management. Level: Graduate

BMIS 571 - Enterprise Modeling

Credits: 2. Offered intermittently. Prereq., graduate standing. Explores knowledge management systems, data warehouses, data mining, ERP, SANS, and data distribution. Focuses on management; does not require a technical background. Level: Graduate

BMIS 572 - IT Strategy and Leadership

Credits: 2. Offered intermittently. Prereq., graduate standing. Explores how alignment of IT infrastructure and capabilities can achieve competitive advantage with an industry. Includes the role of IT management in leading change, managing decisions and integrating information systems across the organization. Focuses on management; does not require a technical background. Level: Graduate

BMIS 573 - Business Processes & Security

Credits: 2. Offered intermittently. Prereq., graduate standing. Analyzes business processes and the security challenges created from the emergence of new technology. Includes the effect of legal, regulatory and security technology on policy development. Focuses on management; does not require a technical background. Level: Graduate

BMIS 575 - Fundamentals of Consulting

Credits: 2. Offered spring. Prereq., graduate standing. The technical, interpersonal, and consulting skills necessary to effectively work with clients. Focuses on management; does not require a technical background. Level: Graduate

BMIS 650 - Quantitative Analysis

Credits: 2. Offered spring. Prereq., admission to the M.B.A. or M-Acct. programs. Quantitative methods supporting managerial decision-making. Theory and logic underlying such methods as linear programming and simulation. Solution of complex problems and practice of interpersonal skills in team projects. Level: Graduate

BMIS 674 - Mgmt of Information Systems

Credits: 2. Offered autumn. Prereq., admission to the M.B.A. or M-Acct. program. The tactical/operational responsibilities and roles of the CIO. Includes governance issues, supporting the learning organization, managing the technologies, and managing the development of systems. Focuses on management; does not require a technical background. Level: Graduate

Business: Marketing

BMKT 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BMKT 192 - Independent Study

Credits: 1 TO 3. (R-3) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

BMKT 291 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BMKT 292 - Independent Study

Credits: 1 TO 3. (R-3) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

BMKT 298 - Internship

Credits: 1 TO 3. (R-3) Offered every term. Extended classroom experience which provides practical application of classroom learning during placements within the business community. The student must complete a learning agreement with a faculty member, relating the placement opportunity to his or her field of study. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes:

Internships/Practicums, Internship graduation limit 6

BMKT 325 - Principles of Marketing

Credits: 3. Offered autumn and spring. Prereq., junior standing in Business. The marketing environment, product, price, distribution, and promotion strategies including government regulation and marketing ethics.

BMKT 337 - Consumer Behavior

Credits: 3. Offered autumn and spring. Prereq., junior standing in Business and BMKT 325; PSYX 100S and 230S recommended. A behavioral analysis of consumer decision making and of the factors influencing consumer decisions, i.e., those decisions directly involved with the obtaining of economic goods and services.

BMKT 342 - Marketing Research

Credits: 3. Offered autumn and spring. Prereq., junior standing in Business, BMKT 325. Emphasis on data acquisition and analysis for improved decision making in marketing. Topics include problem definition; secondary data; primary data via observation, interrogation and experimentation; data analysis; written and oral reports. May include field project.

BMKT 343 - Integrated Marketing Comm

Credits: 3. Offered autumn and spring. Prereq., junior standing in Business, BMKT 325. An integrated course in promotion strategy. Topics include advertising message design, media selection, promotions, public relations, personal selling, and other selected topics.

BMKT 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., junior standing in Business or consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BMKT 392 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., junior standing in Business and consent of instr.

BMKT 411 - Service/Relationship Marketing

Credits: 3. Offered intermittently. Prereq., junior standing in Business and BMKT 325. Service marketing integrates marketing concepts and techniques for organizations whose core product is service; topics include quality service delivery, customer attraction and retention, and relationship marketing. Focus is on service fields such as financial, healthcare, and communication services.

BMKT 412 - Non Profit Marketing

Credits: 3. Offered intermittently. Prereq., junior standing in Business and BMKT 325. Integration of core concepts of marketing into philanthropic and other nonprofit organizations. Includes strategies for large-scale enterprises such as unions, educational and religious institutions to small organizations that provide local support such as cultural services, human and environmental services. Student work with nonprofit organizations creating marketing communications plans in an experiential learning environment.

BMKT 413 - Sports Marketing

Credits: 3. Offered intermittently. prereq., junior standing in Business, BMKT 325. Examines the marketing of sports products and non-sports products using sports as a platform. Topics include the use of traditional marketing strategies as well as the use of sponsorship strategies including endorsements, venue naming rights, and licensing.

BMKT 420 - Integrated Online Marketing

Credits: 3. Offered intermittently. Prereq., junior standing in business, BMKT 325. Exploration and application of marketing communications principles to the internet environment. Students develop individual WordPress websites/blogs, learn about online marketing techniques, and complete online marketing and social media projects.

BMKT 440 - Marketing Analytics

Credits: 3. Offered autumn or spring. Prereq., BMKT 325; junior standing in Business or consent of instr. The purpose of this course is to learn about the importance and value of using new measurement tools in marketing and using related research and data to create compelling content. Students in this course are also challenged to bring actual ideas to life.

BMKT 450 - Marketing Connections

Credits: 3. Offered intermittently, prerequisites: Marketing major, BMKT 325 and 343 and consent of instructor. This is an experiential course offering designed to allow students to apply marketing concepts and strategy to their career/job aspirations. Principles addressed in previous courses are integrated in this class. The concept of marketing strategy will be applied to real-world career development. Students also spend several days meeting business professionals in the region. Upon successful completion of this course each student will have an immediate, actionable plan that will help achieve career aspirations.

BMKT 460 - Mktg Hi-Tech Prod & Innov

Credits: 3. Offered autumn. Prereq., BMKT 325; junior standing in Business or consent of instr. Exploration of concepts and practices related to marketing in fast-paced environment; draws from a range and diversity of industries and contexts including the Internet.

BMKT 480 - Marketing Management

Credits: 3. Offered autumn and spring. Prereq., senior standing in Business; BMKT 325, 337, 342, 343. Case analysis in marketing management.

BMKT 490 - Undergraduate Research

Credits: 3. (R-6) Offered intermittently. Prereq., junior standing in Business, BMKT 325. An experiential course in the strategy, research, and execution of an integrated marketing communications plan. Students' work culminates in the American Association of Advertising's National Student Advertising Competition.

Course Attributes: Research & Creative Schlrshp

BMKT 491 - Special Topics

Credits: 1 TO 6. (R-9) Offered intermittently. Prereq., junior standing in Business or consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BMKT 492 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., junior standing in Business and consent of instr.

BMKT 493 - International Experience

Credits: 1 TO 6. (R-6) offered intermittently. Prereq., junior standing in business. Field-based, experiential courses that focus on international business topics, incl. the culture and business environment of important U.S. trading partners, such as China, Germany, or Italy.

BMKT 494 - Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., junior standing in Business and consent of instr.

BMKT 498 - Internship

Credits: 1 TO 6. Offered every term. Prereq., junior standing and consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation.

Course Attributes: Internships/Practicums, Internship graduation limit 6

BMKT 560 - Marketing & Stats

Credits: 3. Online course. Offered autumn. Prereq., admission to the M.B.A. or M-Acct. programs or graduate standing with consent of graduate business program director. Introduction to marketing principles to create long-term competitive advantage for an organization. Topics include environmental analysis, marketing planning, segmentation analysis, target marketing, and planning for product, price, promotion and distribution. Business statistics covered including t-tests, analysis of variance, regression and correlation analysis; statistics applications in context of marketing research and marketing problems. Credits: 1. Offered intermittently through School of Extended and Lifelong Learning (formerly Continuing Education). Introduction to the principles of casualty insurance as well as the casualty insurance industry's legal and regulatory environment.

MIS 266 - Personal Lines Insurance

Credits: 1. Offered intermittently through School of Extended and Lifelong Learning (formerly Continuing Education). Introduction to the principles of personal lines insurance as well as the personal lines insurance industry's legal and regulatory environment.

Marketing

MKTG 394 - Undergraduate Seminar

Davidson Honors College

Brock Tessman, Dean

The Davidson Honors College is a campus-wide association of faculty and students united by a common concern for academic and personal excellence. Its mission is to foster intellectual and civic values, and to support the best possible teaching and learning circumstances for participating faculty and students.

The College offers an academic and social home to talented and motivated students as they pursue their undergraduate education. Students from all major areas in the College of Humanities and Sciences and the professional schools are welcome, as well as students who are undecided about a major. Honors is not a major in itself, but an enhancement to General Education in the liberal arts and sciences as well as to virtually all undergraduate majors on campus.

The Honors College building, at the center of the campus, provides a large student lounge, study rooms, classrooms and a computer center for student use. The Honors Student Association plans and conducts a variety of social and academic activities as well as community service projects throughout the year. Special Honors residence hall floors and living units are available.

The Davidson Honors College also sponsors the University of Montana Office for Civic Engagement, an office that coordinates student service activities in the community and beyond, and supports the integration of community service experience into the academic curriculum.

Curriculum

In accordance with our mission, the DHC is committed to offering students the additional resources, challenges, and encouragement to be active and collaborative learners. DHC students are expected to:

- be intellectually curious;
- develop skills in critical thinking, analytic reasoning, and problem solving;
- increase their abilities to write and speak effectively;
- acquire skills and habits of community and public service;
- develop research and life-long learning skills and habits.

Honors students are expected to pursue these student learning outcomes inside the classroom and out, in their work and their recreation, volunteer service, membership in clubs and organizations, participation in campus and civic governance, independent study, pursuit of their hobbies and interests, and formal course work.

Honors courses are limited in enrollment to 20 students and usually are conducted in a discussion or seminar format. They emphasize critical thinking, the development of written and oral communication skills, direct contact with the faculty, and use of original texts or "hands-on," participatory experience. These courses are taught by outstanding faculty selected according to their department's standards of excellence. Course offerings vary somewhat and represent many academic departments and subject areas. Honors courses often fulfill General Education and many common major requirements.

At the junior and senior level students are offered a selection of Honors seminars. These seminars are open to students from all disciplines. The aim of these seminars is to assist students in applying different methods of inquiry and research, in using the insights of various disciplines, in integrating the students' knowledge, and in developing well-informed personal stances toward the material and issues studied.

In their senior year, students complete an Honors thesis or research project, assuming responsibility, together with a faculty mentor, for an original scholarly research or creative project. This project may coincide with a departmental requirement, and is intended to prepare students to fulfill roles of intellectual, moral, and cultural leadership as they realize their places in society.

Assessment of Personal and Academic Goals

A college education invites students to formulate goals and reflect on their progress toward attaining them. Davidson Honors College students are responsible for evaluating their aims and attainments from year to year in collaboration with an advisor. Entering students are asked to assess their abilities and resources and begin to formulate interests and aims in light of the student learning outcomes mentioned previously.

Requirements

Davidson Honors College students are required to complete a minimum of seven Honors courses, including HONR 121L and a senior Honors research project (which may be counted as one Honors course). An Honors section of Introduction to Humanities, LSH 151L or LSH 152L, may be counted as equivalent to HONR 121L. HONR 120, Introduction to Honors, also is required of all first-year students. As this is a one-credit course, it does not count toward the seven Honors courses required to graduate. Details are available in the Davidson Honors College office or on the DHC web site at www.dhc.umt.edu.

It also is recommended that all students include in their curriculum at least one course or independent study project that includes an experience of volunteer community service or study abroad.

To maintain good standing in the Davidson Honors College, students must take at least one Honors course per year and maintain an overall cumulative grade point average of 3.0 or above. Academic progress is reviewed each semester. Students whose grades are below the 3.0 standard are given an academic warning. A student whose cumulative grade point average falls below 3.0 is placed on academic probation and remains in this status until the cumulative grade point average rises to 3.0 or higher. Suspension from the Honors College occurs when the term grade point average of a student on probation is below 3.0. A suspended student may be reinstated when the cumulative grade point average rises to 3.0 or higher.

Graduation through the Davidson Honors College requires a cumulative grade point average of 3.0 or higher, and 3.4 in the major field. Upon successful completion of the requirements, students will receive their bachelor degrees as "University Scholars" in their respective majors and have this distinction noted on their diplomas. Graduation through the Davidson Honors College is not connected with the distinctions "with honors" and "with high honors" bestowed on the recommendation of major departments according to certain grade point averages and/or on the basis of exams or other means of assessment in the senior year.

Scholarships

The Davidson Honors College administers the Presidential Leadership Scholarships for incoming freshmen, and several other scholarship programs for currently enrolled students. For further information about these scholarship programs, contact the Honors College. Honors students and those transferring from other institutions are eligible for the general scholarship program. For further information, contact the Financial Aid Office.

Admission to the DHC

Students applying to the Davidson Honors College should show evidence of academic talent and motivation. Generally, a minimum high school GPA of 3.5 is expected, as well as an ACT score of 27 or higher, or SAT combined score of 1800. These criteria are not absolute, and highly motivated students are encouraged to apply.

Applications are particularly welcomed from older or non-traditional students and students from varied racial and ethnic backgrounds. College transfer students with a record of strong academic performance (GPA of 3.5 or higher) also are welcome to apply. The Davidson Honors College Application for Admission must be postmarked or submitted online . Note that all applicants to the Davidson Honors College also must complete a separate application for admission to the University of Montana-Missoula.

Presidential Leadership Scholarships

The Presidential Leadership Scholarships are the University of Montana's premier academic scholarships, recognizing outstanding talent, academic performance, leadership, and contribution to the community. These awards are renewable for four years, subject to satisfactory performance by the student. Each scholarship includes a full or partial tuition waiver, the value of which varies according to the amount of tuition each year.

Eligible candidates for the Presidential Leadership Scholarship must be recent high school graduates who have not previously enrolled as a regular college or university student. Recent finalists for the Presidential Leadership Scholarship posted an average of 3.98 GPA, SAT combined score of 2100, and ACT composite score of 32.

All Davidson Honors College applications for admission received by of each year will be considered for the Presidential Leadership Scholarship.

Department Faculty

Professors

Brock Tessman, Dean, Davidson Honors College

Course Descriptions

HONR 120 - Introduction to Honors

Credits: 1. Offered autumn. Interdisciplinary offerings by various faculty. Orientation to practical and theoretical issues facing students entering college. Course Attributes: Honors Course

HONR 121L - Ways of Knowing

Credits: 3. Offered autumn and spring. A critical assessment of contrasting epistemological stances expressed in various views of the divine, nature, society and the self. Course Attributes: Honors Course Literary & Artistic Stds Crse Writing Course-Intermediate

HONR 122E - Ways of Knowing II

Credits: 3. Offered spring. Prereq., HONR 121L or LSH 151L or LSH 152L. This course traces the major Western ethical traditions, examines the influence of those traditions in normative political theory, and provides dramatic illustrations of the moral life. Course Attributes: Ethical & Human Values Course Honors Course American and European

HONR 191 - Special Topics

Credits: 1 TO 6. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics. Course Attributes: Honors Course

HONR 192 - Independent Study

Credits: 1 TO 6. (R-6) Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Honors Course

HONR 194 - Seminar

Credits: 1 TO 6. (R-6) A review and discussion of current research. Topics vary. Course Attributes: Honors Course

HONR 198 - Internship

Credits: 1 TO 6. Prereq., consent of instr. Practical application of classroom learning during placements off campus. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Honors Course Internship graduation limit 6

HONR 270 - Service Learning Seminar

Credits: 2. Offered Wintersession. This service learning course provides students with an in-depth, week-long community service experience in the West. Students participate in a seminar class prior to service and learn through active reflection and discussion. Students will explore aspects of citizenship and civic responsibility for addressing and solving social problems. Students explore aspects of citizenship and civic responsibility to address and solve social problems. Course Attributes: Honors Course

HONR 272 - Intro to Civic Leadership

Credits: 3. Offered spring. This service-learning course provides students with a broad overview of leadership development through engagement with campus and community organizations. Students will examine a variety of leadership models, analyze their own capacity for ethical leadership, and develop a personal leadership philosophy. Course Attributes: Honors Course

HONR 274 - Advocate Leadership Seminar

Credits: 2. Offered spring. Prereq., Consent of instr. Members of the university's Advocates are given responsibilities and opportunities generally reserved for paid professionals. This course teaches requisite leadership competencies, skills and articulation. Advocates develop situational decision-making and will be assessed through traditional letter grade and interactive skill evaluation. Course Attributes: Honors Course

HONR 291 - Special Topics

Credits: 1 TO 6. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics. Course Attributes: Honors Course

HONR 298 - Internship

Credits: 1 TO 6. (R-6) Prereq., consent of instr. Practical application of classroom learning during placements off campus. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Honors Course Internship graduation limit 6

HONR 320E - Research Portfolio Seminar

Credits: 3. Offered autumn and spring. Designed to assist undergraduate students with their independent research projects, this seminar enables students conducting research in separate disciplines to apply the intellectual strategies and to explore the ethical concerns common to research in most disciplines. Course Attributes: Ethical & Human Values Course Honors Course

HONR 370 - Pre-Law Seminar

Credits: 1. Offered spring or autumn. This course gives students specific information about the law school application process, the life of a law student, and various careers in the law. Students will have unique opportunities to interact with legal professionals and law school admission officers to explore their futures in law school and the legal profession.

HONR 372 - Global Health Issues

Credits: 2. Offered spring. This course examines the social, cultural, and political aspects of global health issues. Stressing principles of intercultural communication, we will examine the key determinants of public health in developing nations. We will enhance our understanding of the global dimensions of health and disease, the relative effectiveness of various health care initiatives, and the short- and long-term outcomes of diseases and health care interventions.

HONR 391 - Special Topics

Credits: 1 TO 6. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Honors Course

HONR 392 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Honors Course

HONR 398 - Internship

Credits: 1 TO 6. Prereq., consent of instr. Practical application of classroom learning during placements off campus. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Honors Course Internship graduation limit 6

HONR 491 - Special Topics

Credits: 1 TO 6. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics. Course Attributes: Honors Course

HONR 492 - Independent Study

Credits: 1 TO 6. (R-6) Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Honors Course

HONR 494 - Senior Seminar

Credits: 1 TO 6. (R-6) A review and discussion of current research. Topics vary.

HONR 495 - Practicum

Credits: 1 TO 6. (R-6) Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

HONR 498 - Internship

Credits: 1 TO 6. (R-6) Prereq., consent of instr. Practical application of classroom learning during placements off campus. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Honors Course Internship graduation limit 6

HONR 499 - Honors Thesis/Project

Credits: 1 TO 9. (R-9) Prereq., consent of thesis/project director and dean of Honors College. Preparation of a thesis or manuscript based on research for presentation and/or publication. Course Attributes: Honors Course

College of Education and Human Sciences

Roberta D. Evans, Dean
Susan Harper-Whalen, Associate Dean

The Phyllis J. Washington College of Education and Human Sciences is comprised of five academic departments—Communicative Sciences and Disorders, Counselor Education, Curriculum and Instruction, Educational Leadership, and Health and Human Performance. It is also the home for the Institute for Educational Research and Service (IERS).

Mission: The College of Education and Human Sciences shapes professional practices that contribute to the development of human potential. We are individuals in a community of lifelong learners, guided by respect for knowledge, human dignity, and ethical behavior. We work together producing and disseminating knowledge to advance the physical, emotional, and intellectual health of a diverse society.

The College of Education and Human Sciences coordinates the University of Montana Professional Education Unit, a unit comprised of initial teacher preparation at the elementary and secondary levels, and the advanced preparation of teachers, certified speech-language pathologists, educational leaders, school counselors, and school psychologists. The Department of Communicative Sciences and Disorders prepares professionals at the master's level in speech-language pathology. The Departments of Curriculum and Instruction, Educational Leadership and Counseling Education prepare professionals for careers in education with bachelor, master's, Education Specialist and Doctor of Education programs while the School Psychology Program, housed in the Psychology Department in the College of Humanities and Sciences, prepares students for careers in education with its master's, education specialist, and doctoral degrees. These programs are organized to foster the development of learning communities and incorporate three basic themes: integration of knowledge and experience; cooperation among participants; and inclusiveness, caring, and respect for others. The Professional Education Unit at the University of Montana is accredited by the National Council for Accreditation of Teacher Education (NCATE), <http://www.ncate.org>.

The Communicative Sciences and Disorders, Counselor Education, and Health and Human Performance Departments all prepare professionals for careers in human service professions. Via its bachelor's degree in Communicative Disorders, the Communicative Sciences and Disorders Department prepares graduates qualified to work as clinical aides in speech-language pathology or audiology. Through its master's program in Speech-Language Pathology, the department produces professional students qualified to work as speech-language pathologists in schools and clinical settings. Students pursuing the Master of Arts in Counselor Education are prepared to work in a variety of community/agency settings. Upon completion of the program, graduates are prepared to sit for the Licensed Practical Counselor or Licensed Practical Clinical Counselor examination. Via its Bachelor and Master of Science degrees, the Department of Health and Human Performance prepares students in the areas of community health, athletic training, exercise science, and health enhancement. The Athletic Training Program is accredited by the Commission on Accreditation of Athletic Training Education.

Central to its research and outreach efforts with P/K-12 schools, the College of Education and Human Sciences' Institute for Educational Research and Service (IERS) designs, evaluates, and disseminates programs that support the well-being of students and communities. Since 1957, IERS has collaborated with numerous local, state, national, and federal organizations to provide effective, data-driven research models that enhance the social development and academic achievement of all learners. Externally sponsored teaching, research, and service activities are central to IERS. In addition, the College of Education and Human Sciences supports a Preschool Laboratories, Preschool Program, Health and Human Performance Laboratory and Technology Resource Center. These programs offer enhanced opportunities for student involvement and learning.

Specific program options within the College of Education and Human Sciences are described below and in the various departmental sections of this catalog. The web address for the college is <http://www.coehs.umd.edu>

Communicative Science and Disorders Department

Amy Glaspey, Chair

The Bachelor of Arts Degree in Communicative Sciences and Disorders prepares students for graduate study in speech-language pathology, audiology, various education specialties, business, and health care as well as such fields as developmental and cognitive psychology. The Master of Science degree in Speech Language Pathology provides students with the foundational knowledge and clinical skills in the field of speech language pathology to work in medical and educational settings with clients across the life span.

Course Listing

Commentary: Student must take a sequence (2 semesters) of a modern or classical language.

Counselor Education Department

John Sommers-Flanagan and Kirsten Murray, Co-Chair

The Counselor Education program educates students for employment in school (K-12 and higher education) and community mental health and human service settings. Counselors are practitioners, consultants, and coordinators who assist in problem solving, decision-making skills, personal growth and development, and individual, family school, and/or career issues. Counselors receive training in the eight core areas identified by the American Counseling Association Council for Accreditation of Counseling and Related Educational Programs: human growth and development, social and cultural foundations, the helping relationship, group theories and methods, career and lifestyle development, client assessment and evaluation, research and program evaluation, and professional orientation. We offer a School Counseling M.A., a Mental Health Counseling M.A., and an Interdisciplinary M.A. Each option requires additional specialty courses and comprehensive written and oral examinations focused on the

student's career track. The more advanced graduate degrees (Ed.S. and Ed.D.) develop depth, supervisory, and leadership skills in these areas.

The Department of Counselor Education is also the academic home for an interdisciplinary masters degree in Global Youth Development. Students in this program are prepared for humanitarian and advocacy work, focusing specifically on youth and family development across cultures. Requirements include one year of campus-based course work and an approved internship of at least two semesters duration working with youth and family concerns. GYD is a Peace Corps Master's International program, and the expectation therefore is that students will complete the Internship requirement by serving as U.S. Peace Corps Volunteers abroad. For further information and course listings, see: <http://coehs.umt.edu/departments/counseld/IYFD/default.php>

Graduate Programs: The M.A., Ed.S., and Ed.D. are offered in Counselor Education. An interdisciplinary M.A. is offered in Global Youth Development. Information regarding specific requirements and program options is available from the Phyllis J. Washington College of Education and Human Sciences. For more information, please refer to the University of Montana Graduate Programs and Admissions Catalog. Graduate programs are accredited by NCATE and CACREP.

Admission to Counseling: Applicants for this program should contact the Department for more specific admissions information. Requirements include official transcripts from all undergraduate and graduate institutions attended; three current letters of recommendation; and a letter of application stating academic and professional background, purpose in obtaining the degree, and thoughts about eventual employment and career direction. Applicants have the option to include GRE scores. Priority deadline is February 15th with complete applications reviewed after this date on a space available basis. Admission is competitive.

Certification Requirements: The Counselor Education, M.A., School Counseling option, leads to licensure at the Class IV level.

Curriculum and Instruction Department

Georgia Cobbs, Chair

The Department of Curriculum and Instruction offers the Bachelor of Arts degree in elementary education and teaching licensure in elementary education. The department also offers teaching licensure at both the secondary and K-12 levels for students who are earning or have already completed the baccalaureate degree (teaching major or teaching minor) in one of the following state-approved content areas: Art, Biology, Business Education, Chemistry, Earth Science, Economics, English, English as a Second Language, French, General Science Broadfield Major, Geography, German, Government, Health and Human Performance, History, Latin, Library Media, Mathematics, Music, Physics, Psychology, Reading, Russian, Social Studies Broadfield, Sociology, Spanish, Special Education, and Theatre. (See specific requirements for each in the following pages.) At the graduate level,

the department offers master and doctoral degrees in Curriculum and Instruction. Programs across all degree levels are organized to foster the development of learning communities and incorporate three essential themes: integration of ideas; cooperative endeavors; and respect for diversity and individual worth. The web address for the Department of Curriculum and Instruction is <http://coehs.umt.edu/departments/currinst/default.php>.

Graduate Programs

The department offers the Master of Education (M.Ed.) in curriculum and instruction. Students select from one of the following options: curriculum studies, early childhood education, library media services, literacy education, and special education. Students may earn the master's degree in combination with requirements for initial teacher licensure at the elementary and secondary levels. This option is further explained below. The department also offers the Doctor of Education (Ed.D.) in curriculum and instruction. Information about these graduate programs is available from the department office, UM Graduate Programs and Admissions Catalog, and online: <http://coehs.umt.edu/departments/currinst/masterofed/default.php>.

Teacher Preparation

Elementary Education

Individuals preparing to teach in elementary schools (license for grades K-8) complete a major in elementary education. Prior to their admission to the Teacher Education Program, usually at the end of the sophomore year, students are pre-education majors in the College of Education and Human Sciences. All pre-education and elementary education majors are advised by full-time advisors within the Department of Curriculum and Instruction.

Secondary licensure

Students preparing to teach at the middle or high school levels (license for grades 5-12) will declare a major in the subject area(s) they wish to teach, e.g., English, mathematics, or any other of the state-approved major content endorsement areas listed previously. They are advised within their major department(s) and, upon admission to the Teacher Education Program, they also are advised within the Department of Curriculum and Instruction regarding the requirements necessary to earn secondary licensure. All secondary licensure students seek admission to the Teacher Education Program, usually at the end of the sophomore year, and complete course work required for licensure in Curriculum and Instruction and in their major content area(s).

Applicants for Montana teaching licensure must: (1) satisfy all degree and licensure requirements as outlined below; and (2) be at least 18 years of age. Information about the Teacher Education Program is available in the department office and online at: <http://www.coehs.umt.edu/>

Master's Degree and Initial Licensure

Individuals who have completed a degree may elect to apply to the department's Graduate Program and combine the master's degree in curriculum and instruction (curriculum studies option) with licensure to teach. At the secondary licensure level, the combined program may be completed in a summer-autumn-spring-summer sequence provided the student previously has completed most of the content courses listed on the following pages by subject area. At the elementary licensure level, the program typically takes two academic years.

Assessment at Admission to the Undergraduate Teacher Education Program

Individuals seeking licensure to teach must apply for admission to the professional Teacher Education Program. Admission is limited to approximately 125 elementary and 125 secondary candidates per year. Deadlines for application are September 15 and February 15. Individuals are eligible for consideration for admission if they have:

- been admitted to the University of Montana;
- completed at least 30 semester credits;
- earned a minimum cumulative GPA (including all transfer credits) of 2.75;
- completed an English composition course (WRIT 101) with a grade of C- or better in each;
- demonstrated evidence of writing ability as in an application essay;
- documented appropriate experience in working with children or youth;
- secured supportive recommendations from two faculty members;
- presented results of a national fingerprint-based background check; and
- demonstrated appropriate professional behaviors and dispositions associated with success in the profession in a small group interview process.

The Teacher Education Program Admission Application packet includes a policy and procedures handbook and can be downloaded from the website: <http://coehs.umt.edu/departments/currinst/forms.php>.

Once admitted, licensure candidates must maintain a minimum GPA of 2.75 each semester to continue in the program. Candidates who interrupt their studies for more than two years are placed on inactive status and must apply for readmission to both the University and the Teacher Education Program.

Candidates seeking a K-12 endorsement in library media, literacy, or special education must have full admission to the Teacher Education Program or be a licensed teacher before applying to one of these specialized programs.

Degree-holding individuals are invited to submit transcripts for review to determine how previous course work applies. They may earn a second baccalaureate degree and/or a teaching license or they may combine elementary or secondary licensure with a master's degree. They should enroll with the Admissions Office as "post-baccalaureate" unless pursuing a graduate degree.

Admission Policy for Minority Students and Students with Disabilities

The Teacher Education Program is committed to providing opportunities for teacher preparation for members of groups that have been historically disadvantaged and subject to discrimination. The criteria for admission are the same for students with disabilities and for members of racial, ethnic and other minorities, as for other students; however, students who do not meet one or more of the criteria for admission are encouraged to describe in their applications any special circumstances, experiences, skills and/or special talents that may compensate for unmet criteria. The physical, social, economic, and cultural circumstances that may have influenced a student's ability to achieve minimum eligibility for admission will be considered. A special effort will be made to determine the student's abilities and potential to overcome disadvantage or discrimination and become a successful beginning teacher. Upon entry to the program, the candidate will be assigned to a faculty mentor. The candidate and mentor will design a course of study appropriate for the candidate's progression toward the degree and/or licensure.

Assessment at Application for Student Teaching

Candidates begin planning for student teaching two semesters prior to placement. Candidates are eligible to student teach if they have:

- full admission into the Teacher Education Program;
- a grade of C- or better in all required licensure courses;
- a minimum cumulative GPA of 2.75 (and 2.75 in each field of licensure);
- results of a current national fingerprint-based background check (candidates with misdemeanors or felonies may be subject to further review by the Field Experience Committee);
- a completed application to student teach and the consent of the Director of Field Experiences;
- for elementary education majors, student should be enrolled in the Professional Methods Block, and have completed all coursework in all previous levels.
- for secondary licensure candidates, all methods courses, two thirds of content course work, and approval by departments in the major/minor content area.

Consult the Teacher Education Policy Handbook for application deadlines and procedures. The Student Teaching Application is available on the [Field Experiences website](#).

Internships and practica in library media, reading, and special education do not substitute for the student teaching semester required for licensure in a subject field.

Assessment at Program Completion:

As active participants in this learning community, candidates are expected to assume roles as both learners and teachers in course work and clinical performance. Through personal disposition, classroom performance, and professional action, candidates who complete the Teacher Education Program at the University of Montana will be able to:

- demonstrate knowledge of the disciplines and subject matter related to curriculum;
- design interdisciplinary and discrete subject area instruction to achieve curriculum goals;
- use appropriate technologies and resources to enhance instruction and student performance;
- select and design appropriate, authentic means of assessing student learning and progress;
- implement instructional and behavioral management strategies to promote a safe and positive learning environment;
- engage students in learning activities that promote critical and creative thinking;
- design and organize learning environments to accommodate learners;
- communicate clearly, accurately and professionally with students and their families, colleagues, and community members;
- reflect on professional practices and demonstrate commitment to fairness and the ability of all to learn.

Indian Education for All

It is Montana's constitutional intent that the state's education system will recognize the distinct and unique cultural heritage of American Indians and will be committed in its education goals to the preservation of their cultural heritage. The intent of the legislature as expressed in MCA20-1-501, Indian Education for All, is that every Montanan, whether Indian or non-Indian, be encouraged to learn about the distinct and unique heritage of American Indians in a culturally responsive manner. It is also intended that educational personnel provide means by which school personnel will gain an understanding for the American Indian people.

Candidates preparing for teaching licensure in all endorsement areas are required to complete a minimum of one course in Native American Studies. Candidates also may choose ANTY 323X (ANTH 323X), Indians of Montana, to meet this requirement. Throughout their programs of study candidates must demonstrate a) ability to integrate into their content areas knowledge of the history, cultural heritage, and contemporary status of American Indians and tribes in Montana; b) knowledge of how students within different populations, including Montana American Indians, differ in their approaches to learning; and c) ability to create instructional opportunities that are adapted to diverse learners, including situations where concentrated generational poverty has affected student academic achievement.

EDU 481 Content Area Literacy 3 F,S

Commentary: Math and Business majors are not required to complete EDU 370. They meet the technology requirement through departmental requirements. Music majors do not complete EDU 370 nor EDU 481. They meet the technology and literacy requirements through departmental requirements. English majors do not complete EDU 481. They meet the literacy requirement through departmental requirements. All students must complete major and/or minor teaching methods courses specific to their content areas. These methods course requirements are listed within the requirements for each program of study.

Commentary: Upper Division Core

Category Name: Education Field Experiences

Rule: Admission to the Teacher Education Program is required to enroll in the following courses.

Criterion: Pass Number of Credits 2

Course Listing

EDU 202 Early Field Experience 1 F,S

EDU 395 Clinical Experience 1 F,S

Commentary: EDU 202 is a prerequisite to EDU 395. EDU 395 is taken concurrently with the content-specific methods course.

Commentary: Capstone

Category Name: Student Teaching Field Experience

Rule: All content, methods, and education courses must be completed prior to enrolling in the student teaching semester.

Criterion: C- Number of Credits 15

Course Listing

EDU 494 Seminar:Refl Pract & App Rsrch 1 To 9 F,S

EDU 495 Student Teaching 1 To 14 F,S

Commentary: An application is required to determine student teaching eligibility. See Teacher Education Services or the Office of Field Experiences for deadlines. The EDU 494 course is completed for 1 credit and the EDU 495 course is completed for 14 credits.

Degree Commentary: Teacher Education Program coursework is completed in addition to a teaching major and leads to secondary (5-12) or K-12 teaching licensure in that content area. Individuals must be admitted to the Teacher Education Program to enroll in any EDU courses. See the Curriculum and Instruction website for additional information regarding admission.

Educational Leadership Department

John Matt, Chairman, Educational Leadership

The **Educational Leadership** knowledge base emphasizes the realities of the workplace, blending practical tasks with the conceptual models of effective leadership. The model uses leadership assessment and problem-based learning throughout nine curricular strands: change/future, leadership, research community, communication, assessment/program evaluation, management, diversity, curriculum, and professionalism/socialization. Students at both degree levels experience integrated coursework, performance-based assessment, and exit interviews on completion of the degree programs.

Programs: The M.Ed., Ed.S., Administrative Licensure, and Ed.D. are offered in education administration and supervision. Information regarding specific requirements and program options is available from the Phyllis J. Washington College of Education and Human Sciences. For more information, please refer to the University of Montana Graduate Programs and Admissions Catalog. Graduate programs are accredited by The National Council for Accreditation of Teacher Education (NCATE) and The Montana Board of Public Education (BPE).

Admission to Educational Leadership: The Program Admissions Committee has established policies and standards for admission which include the GRE (verbal and quantitative); three letters of recommendation (one from an immediate supervisor); official transcripts for all undergraduate and graduate coursework; qualifying examination; and interviews (doctoral). Contact the Department for details.

Certification Requirements: Education Leadership degree and administrative licensure programs lead to Montana Class 3 Administrative Licensure with either a K-12 Principal or Superintendent endorsement. Please note that in addition to the coursework and degree requirements, the State of Montana also requires licensed teaching, school counseling, or administrative experience for the Class 3 license.

Courses (Check master schedule for availability of all courses)

R- before the course description indicates the course may be repeated for credit to the maximum indicated after the R. Credits beyond this maximum do not count toward a degree.

Health and Human Performance Department

Scott Richter, Chair

Vision

*Health and Human Performance Professionals
Creating a Healthy, Progressive Global Community*

Mission

In pursuit of our vision, the Department of Health and Human Performance (HHP) prepares quality graduates to be ethical and competent entry level professionals in health and human performance related occupations or candidates for advanced study in related disciplines. Within the liberal arts tradition of the University of Montana and the mission of the College of Education and Human Sciences, the Department of Health and Human Performance engages in professional education, scholarly activity, and meaningful public service. The department emphasizes mental, social, spiritual, and physical dimensions of health to promote healthy lifestyle choices and enhanced quality of life.

The Health and Human Performance Department has established the following goals in support of our vision and mission:

- **Promote** an understanding and appreciation for the scope of the profession
- **Enhance** student awareness of the departmental mission and goals
- **Coordinate** student development of the basic skills germane to effective practice as health and human performance professionals or successful pursuit of advanced studies
- **Cultivate** higher-order thinking skills that increase students' involvement and interest in their own learning, promoting a lifelong quest for knowledge
- **Nurture** cognition of the multiple dimensions of health (physical, intellectual, emotional, spiritual, social and environmental)
- **Advocate** respect for the uniqueness and dignity of others.

Undergraduate students major in Health & Human Performance (HHP). HHP majors choose from one of the following five options: Community Health and Prevention Sciences, Exercise Science Applied, Exercise Pre-Athletic Training, Exercise Science Pre-Professional, or Health Enhancement.

The **Community Health and Prevention Sciences option** prepares students with knowledge and skills related to assessing individual and community needs prior to planning, implementing, and evaluating programs designed to encourage healthy lifestyles and environments. Individuals who will be most successful in the community health option are those who are deeply interested in the interrelationship among all aspects of health (social, emotional, mental, spiritual and physical) and in the life and behavioral sciences. In addition, success in this field requires imagination and creativity in applying scientific knowledge to strategies for individual and community change through a wide range of educational, environmental and political approaches. Graduates of this program will be prepared to take the National Certification Exam for Health Education Specialists.

There are three options **Exercise Science**: Pre-Professional, Applied, and Pre-Athletic Training. The **Pre-Professional option** is for students planning to continue on in higher education and is designed to provide students with an in-depth science background and prepares students for post-baccalaureate study in exercise physiology and related health sciences such as medical school, physical therapy, physician's assistant, athletic training, occupational therapy or other medical programs. There are adequate elective in this program for most students to complete the required pre-requisite courses for graduate health science degrees. Successful graduates of this option should possess the knowledge and skills to qualify for the American College of Sports Medicine Certified Clinical Exercise Physiologist certification (requires additional clinical hours). The **Applied option** is designed to prepare students for jobs as strength and conditioning coaches, athletic coaches, personal trainers, elderly services providers, corporate wellness personnel and directors, fitness center directors and other fitness related jobs. Successful graduates of this track should possess the knowledge and skills to qualify for the American College of Sport Medicine-Certified Exercise Physiologist certification and/or National Strength and Conditioning Association Certified Strength and Conditioning Specialist. The **Pre-Athletic Training option** is designed for students interested in applying for the Master's in Athletic Training Program (see information below).

The **Health Enhancement option** prepares students to use a variety of educational strategies designed to facilitate the adoption of healthy behaviors in K-12 students. Upon acceptance into the College of Education and Human Sciences, and successful completion of the course requirements, students will be eligible for a Montana K-12 teaching license. See Admission Policies below.

The **Master's in Athletic Training** Program prepares competent entry-level athletic trainers for employment in educational and clinical settings or post-graduate study. The Athletic Training curriculum is designed to help students develop competency in evidence based medicine, prevention and health promotion, clinical examination and diagnosis, acute care of injury and illness, therapeutic interventions, psychosocial strategies and referral, healthcare administration and professional development and responsibility. Successful graduates should possess the knowledge and skills to qualify for the Board of Certification Examination.

The graduate curriculum in Health and Human Performance at the University of Montana prepares post-graduates to become effective health and human performance professionals or competitive candidates for advanced study in related disciplines through a comprehensive program of study and guided research. Development of the following is considered essential in achieving a graduate degree:

1. Oral and written communication skills,
2. An understanding of current research literature in one's chosen specialization and the independent pursuit of learning beyond the confines of curricular requirements,
3. Appropriate technological skills,
4. Ability to design, conduct, and report research in a scholarly fashion,
5. Personal characteristics, sense of responsibility, and professional behavior requisite for effective functioning as an advanced health and human performance professional.

Graduate options include Exercise Science, Community Health and Prevention Sciences, Athletic Training and a generalist degree in Health and Human Performance. For more information regarding the department's graduate program refer to either:

The University of Montana [Graduate Programs and Admissions catalog](http://www.umt.edu/grad/): <http://www.umt.edu/grad/>

The [College of Education and Human Sciences Graduate website](http://coehs.umt.edu/departments/hhp/graduate_programs/default.php): http://coehs.umt.edu/departments/hhp/graduate_programs/default.php

Activity Classes

The HHP department also provides a large activity program (ACT classes numbered 100-287 and HHP 172-174) which includes instruction in a wide variety of individual, team, recreational, and fitness activities. Goals of this program include helping students:

1. Develop and maintain long-term health-related fitness,
2. Develop motor performance skills that facilitate regular and continuous participation in physical activity, and
3. Develop the adult "inner athlete" who continually strives to reach optimal potential through involvement in challenging endeavors.

Any University of Montana student may elect to apply up to four credits toward a baccalaureate degree. For descriptions of the activity classes offered, refer to the website at http://coehs.umt.edu/departments/hhp/activity_classes/default.php.

Special Degree Requirements

Refer to graduation requirements listed previously in the catalog. See index.

Students must fulfill the requirements listed below. All HHP majors must earn a minimum grade of a C- in all required courses, including prerequisites, except for special cases of higher requirements in Athletic Training and Health Enhancement noted below. In-department and out-of-department courses specifically listed in this catalog as requirements for Health and Human Performance majors must be taken for a traditional letter grade.

The University of Montana symbolic systems requirement is met by completing one of the following statistics courses and any pre-requisite courses: STAT 216 Introduction to Statistics, or PSYX 222 Psychological Statistics, or SOCI 202 Social Statistics, or WILD 240 Introduction to Biostatistics, or EDU 421 Statistical Procedures in Education. All options must meet this requirement.

Admission Policies for Health Enhancement Option

The Health Enhancement option is designed for individuals who wish to teach in K-12 school systems. Application for admission to the College of Education must be made (refer to <http://coehs.umt.edu/departments/hhp/default.php>). Applications are accepted twice a year; however, the number of students admitted into the program is limited. Application is made no sooner than after the completion of 30 hours of course work. A cumulative GPA of 2.75 is necessary for application.

To successfully complete the program in Health Enhancement, a student must receive a grade of C (2.00) or above in every course in the following areas: teaching major, professional education courses, a drug abuse course, PSYX 100S, WRIT 101, and EDU 481. These courses must be taken as a traditional letter grade.

Admission Policies for the Masters in Athletic Training Degree Program

Athletic Training Program (ATP)

The University of Montana-Missoula offers an accelerated entry level Master's in Athletic Training program housed within the Health and Human Performance Department. The program meets the standards established by the Commission on Accreditation of Athletic Training Education (CAATE). The Master's in AT Program was granted CAATE accreditation in 2015. The ATP is a demanding curriculum which requires dedication and commitment. Upon completion there are a variety of professional career opportunities.

The University of Montana offers an accelerated Master's in Athletic Training Program. This program allows students to take three years of pre-requisite courses and general education requirements, followed by 2 years full time in a Master's in Athletic Training program, including summers. There are two ways in which a student may attain a Master's Degree in Athletic Training:

Option 1: A five-year program in which students earn a Bachelor of Science Degree in Health and Human Performance and a Master's Degree in Athletic Training.

Option 2: A two-year master's program designed for students who already have a baccalaureate degree. Upon completion of the Master's in Athletic Training Program, students will be eligible to sit for the Board of Certification (BOC) Exam.

*Both the Bachelor's degree and Master's degree will be officially awarded at the time of graduation.

Following are the requirements for application, admission, and retention of the Athletic Training Program (ATP). Academic advisors are available to assist students with this interesting and challenging professional program.

Admission. Students who desire admission into the Master's in Athletic Training Program must submit a formal application. This application must be submitted by the deadline (February 1st) prior to your proposed admission into

the professional program. If the application deadline falls on a weekend, applications may be submitted the next business day by 5pm. Applications received after the deadline will be considered on a rolling admissions basis if available slots exist.

A review board consisting of the Athletic Training Program Director, Clinical Director, Preceptors, professional students and possibly other professionals, will evaluate each student applying for admission to the professional program. Formal notification of admission to the Master's program will be made in writing.

Candidates who are NOT admitted to the program will also receive written notification of this decision. Students may be selected as alternates and if a vacancy should become available prior to summer semester, these students will be informed. Not all qualified candidates may be admitted to the Master's program due to limited enrollment in clinical experiences.

For more information on applying to the professional program, please go to <http://coehs.umt.edu/umat/applications.php>.

ADMISSION REQUIREMENTS FOR PROFESSIONAL ATHLETIC TRAINING PROGRAM (ATP)

1. Students must apply and be accepted to the University of Montana's Graduate School <http://www.umt.edu/grad/Apply/Graduate%20Degree%20Admission.php>
2. Students must have a minimum GPA of 3.0 for all college coursework (a GPA below 3.0 may be considered)
3. Completed pre-requisite courses (students may be enrolled in pre-requisite courses at time of application)
4. Official transcript(s) of all college coursework

Professional-ATP

As a student in the Athletic Training Program at the University of Montana, students must meet the following retention standards:

- Enroll as a full-time student (unless approved by Program Director)
 - Maintain a cumulative grade point average of 3.0 or higher
 - Achieve no more than 2 "C" grades in graduate courses
 - Achieve satisfactory evaluations in each Clinical Phase before progressing
 - Successfully complete coursework in the sequence indicated by the program of study unless approved by Athletic Training Program Director
 - Abide by the Code of Ethics of the University and those established by the National Athletic Trainers' Association
- Students are expected to complete at least 20 hours every two weeks and a maximum of 60 hours in two weeks and that many of those hours may be during evenings and weekends. Students who fail to meet the retention criteria will be placed on probation in the Athletic Training Program for a maximum of two semesters. This may limit progress of course sequencing and clinical phases. If standards are not met by the end of the probationary period, the student will be dismissed from the Athletic Training Program. Students who are placed on probation may require remediation as deemed appropriate by the Program Director.

For further information on clinical education requirements, please visit the athletic training website.

Additional Costs Associated with ATP Program

There will be additional costs (above tuition and fees) for the clinical rotations. Program fee: There is an additional fee of \$925/semester in addition to regular tuition of fees. This fee will help cover the cost of lab equipment, accreditation costs, adjunct teaching, and software. Other costs may include, but are not limited to: Criminal Background Check (\$55), Initial NATA Membership Fee (\$60 approximately), Polo Shirts (\$30), and Medical Pack/Kit (\$30).

Transportation is needed for all off-campus clinical sites. Each student will have a minimum of one off-campus site.

General HHP Program Requirements

First Aid and CPR Exit Certifications

All Health and Human Performance students are required to have the appropriate certification in first aid/emergency care and CPR at graduation. The following certifications will meet this competency:

Any one of the following current first aid/emergency care certifications:

- American Academy of Orthopedic Surgeons (AAOS) - Emergency Medical Responder
- National Safety Council Level - First Responder
- Wilderness First Responder
- American Heart Association - First Responder

Plus one of the following CPR certifications:

- American Heart Association (Health Care Provider)
- American Red Cross (Professional Rescuer)

Or Certification as an Emergency Medical Technician

Health and Human Performance students may use available elective credits to take ECP 120/121, First Responder and CPR, to meet this competency, or they may elect to fulfill the competency through one of the department approved agencies. Academic credit for ECP 120/121 will not be awarded for certifications earned at off-campus approved agencies other than the Health and Human Performance Department at the University of Montana.

Upper-division Writing Expectation

The HHP Department offers three upper-division writing courses to fulfill the General Education writing requirements; KIN 447, AHAT 342 and HEE 301. Exercise Science and Community Health and Prevention Sciences students are required to complete KIN 447 (Analytical and Communication Techniques) or AHAT 342 (Therapeutic Interventions), and Health Enhancement students are required to complete HEE 301 (Instructional Strategies in Secondary Physical Education).

Undergraduate students must complete requirements for a minimum of one of the options listed below. The typical student may take more than four years to complete these requirements, especially in the Health Enhancement option.

College of ED & Human Sciences Catalog Year: 2015-2016

BIOH 365	Human AP I for Health Profsns	4	F
BIOH 370	Human AP II for Health Profsns	4	S

Commentary: It is strongly recommended that students take either BIOH 112 OR BIOH 113 OR BIOB 160 prior to taking Anatomy and Physiology.

Students may substitute BIOH 201/202 and BIOH 211/212 for their Anatomy and Physiology Requirements. BIOH 112 OR BIOH 113 OR BIOB 160 AND CHMY 121 are prerequisites for the 300 level Anatomy and Physiology Series.

Commentary:

Upper Division Electives

Category Name: Elective Courses Rule: Must be approved by adviser

Criterion: C- Number of Credits 12

Course Listing

Commentary: Electives require adviser pre-approval.

It is strongly recommended that students take either BIOH 112 OR BIOH 113 OR BIOB 160 in this category prior to taking either Anatomy and Physiology.

Students can use any pre-approved Math and Science Elective courses in this category. 6 must be Upper Division Credits. Special care should be taken if BIOH 201/202 and BIOH 211/212 were used for Anatomy and Physiology requirements, as more Upper Division Credits may need to be used in this category.

Degree Commentary: This minor can only be completed by individuals seeking K-8 elementary licensure or currently licensed elementary education teachers.

Global Youth Development Department

Lindsey Nichols, Assistant Professor of Counselor Education, Director

Housed in the Department of Counselor Education, this interdisciplinary master's degree program is designed for students who wish to engage in culturally-relevant volunteer work or paid employment in the realm of child and family assistance. It is affiliated with the United States Peace Corps as a partner school for their master's international program. Requirements include one year of full-time instruction at UM, a significant period of time engaging in internship work in an applied intercultural setting, and a final professional paper or thesis. Internships will typically be 1-2 years and will involve work in a culture other than one's own. Students participating in this program are expected to gain the following background and competencies:

- important interculturally-informed helping skills for working with youth, women, families and communities in culture other than their own

- a solid background in issues, concerns, and critiques regarding assistance and interventions across culture, both historically and currently
- the opportunity to pursue and participate in a significant field experience, working with an established helping agency in another culture or country

Commentary:

Commentary: The list of electives is categorized to assist the student wishing to focus on one of these areas. Students may plan curricula which do not correspond to these categories, but should choose among courses from this list. Occasionally "special topics" courses are offered. Students may use these as electives with the consent of their advisors.

Check with departments regarding variable-credit 395 and 495-Special Topics listings.

Degree Commentary

To earn a minor the student must complete 24 credits, with 11 at the 300 level or above. All students are required to take a 12-credit core curriculum and, with the help of a faculty advisor, to develop a written statement of goals and interests along with a planned curriculum that includes 12 additional credits of electives consistent with the stated goals and interests. At least 6 credits of electives must be outside of the student's major.

Course Descriptions

Activities

ACT 103 - Jump Rope Fitness and Skill

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 105 - Aerobic Fitness

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 106 - Beg Conditioning and Fitness

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 107 - Beginning Aerobic Dance

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 109 - Beginning Racquetball

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 110 - Beginning Weight Training

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in activity courses (ACT 100-287) in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 113 - Beginning Softball

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 114 - Beginning Rock Climbing

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 115 - Soccer

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 118 - Hockey

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 119 - Beginning Nordic Skiing

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 136 - Fundamentals of Juggling

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website.

ACT 140 - Beginning Basketball

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 143 - Beginning Table Tennis

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

Course Attributes: PE Activity Skills Course

ACT 186 - Firefighter Conditioning

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website.

ACT 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ACT 207 - WC Aerobics

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 215 - AMGA Climbing Wall Instructor

Credits: 1. This course will address the technical skills necessary to manage an instructional program at an indoor climbing wall facility and will address the following general topic areas: instructor roles, responsibilities and professionalism, client orientation and instruction, risk management, lesson planning, teaching basic climbing skills, including movement, teaching lead climbing skills, teaching top-rope and lead belaying techniques, use of available equipment and facility, basic rescue and emergency procedures.

ACT 218 - Ultimate Disc

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 219 - Folf

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 222 - Ski Camp

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 225 - Snow Bowl Ski Area

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 228 - Ski Instructor's Preparation

Credits: 2. Offered spring. Prereq., consent of instr. Open to all students with advanced to expert skiing skills. Techniques of teaching skiing including: skill concepts and contemporary skiing movements; teaching cycle; movement analysis; personal skiing improvement. Prepares student for certification with (PSIA) Professional Ski Instructors of America.

ACT 229 - Snowboard Instructor Prep

Credits: 2. Offered spring. Prereq., consent of instr. Open to students with advanced to expert riding skills. Techniques of teaching snowboarding including: skill concepts and contemporary snowboarding movements; teaching cycle; movement analysis; personal riding improvement. Prepares student for certification with (ASSI) American Association of Snowboard Instructors.

ACT 231 - Pilates - Yoga Fusion

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 232 - Alpine Core Studio

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 233 - Freestone Climbing

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 234 - Jazz for Fun & Fitness

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 235 - Belly Dancing

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on

participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 237 - Trampoline Aerial Acrobatics

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 250 - Pilates

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 257 - Martial Arts and Self Defense

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 258 - CFM Mixed Martial Arts

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website.

ACT 259 - AAK American Kenpo

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 271 - Swimming for Fitness

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 274 - Scuba Diving

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website.

ACT 286 - Fencing

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 287 - Strength & Flexibility

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

ACT 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Offerings of visiting professors, new courses, or current topics.

ACT 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of advisor and instr. Course material appropriate to the needs and objectives of the individual student.

ACT 337 - Aquatic Certifications

Credits: 1 TO 2. (R-4) Offered spring. Prereq., HHP 238 or equivalent certifications. Offered on a rotating basis. Training for Water Safety Instructor, Lifeguard Training Instructor, or Adapted Aquatics Instructor. Red Cross Instructor's Certificate awarded upon successful completion of requirements.

ACT 391 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ACT 490 - Undergraduate Research

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Directed individual research and study appropriate to the background and objectives of the student. Course Attributes: Research & Creative Schlrshp

ACT 491 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ACT 492 - Independent Study

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

ACT 494 - Workshop

Credits: 1 TO 6. (R-6) Offered intermittently. Special courses experimental in nature dealing with a relatively narrow, specialized topic of particular current interest. Credit not allowed toward a graduate degree.

ACT 498 - Internship

Credits: 2 TO 6. (R-6) Offered every term. Prereq. all HHP options minimum junior standing and ECP 120/121 (or equivalent). Prereqs per option. Exercise Science Applied: KIN 320/321. If internship is coaching or strength & conditioning must also have completed KIN 410 and COA 405. Exercise Science Pre-Professional: KIN 320/321. If internship is cardiac rehab must also have completed KIN 460/483/484. Community Health: CHTH 335. Supervised field experiences with private businesses, public agencies, or institutions. 45 hours of internship site

work = 1 credit. A maximum of 6 credits of Internship 498 may count toward graduation. Students should not be registered for more than 14 credits their internship semester. Course Attributes: Internships/Practicums Internship graduation limit 6

ACT 499 - Capstone

Credits: 1 TO 3. (R 6) Offered every term. Prereq., consent of instr. Independent work under the University omnibus option. See index. Course Attributes: Omnibus Course

Activities - Varsity

ACTV 189 - Varsity Athletics

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

Allied Hlth: Athletic Training

AHAT 210 - Prevention and Care Athletic Injuries

Credits: 2. Offered autumn and Spring (winter session). Coreq., AHAT 213. Development of knowledge of prevention, assessment, treatment, rehabilitation, emergency care of athletic injuries.

AHAT 213 - Prevention and Care Athletic Injuries Lab

Credits: 1. Coreq., AHAT 210. Development of practical skills in prevention, assessment, treatment, rehabilitation, and emergency care of athletic injuries.

AHAT 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of advisor and instr. Course material appropriate to the needs and objectives of the individual student.

AHAT 305 - Techniques Athletic Training

Credits: 1 TO 3. (R-3) Integration into athletic training practice emphasizing risk management, emergency procedures, acute care and athlete care in the preseason.

AHAT 322 - Assessment of LEXT

Credits: 2. Offered autumn. The study and practice of techniques used when assessing athletic injuries to the lower extremities and lumbar spine.

AHAT 323 - Assessment of LEXT Lab

Credits: 1. Offered autumn. The practice of techniques used when assessing athletic injuries to the lower extremities and lumbar spine.

AHAT 324 - Assessment of the Extremities

Credits: 2. Coreq., AHAT 325. The study and practice of techniques used when assessing athletic injuries to the upper and lower extremities, including the spine.

AHAT 325 - Assessment of the Extremities Lab

Credits: 1. Coreq., AHAT 324. The study and practice of techniques used when assessing athletic injuries to upper and lower extremities including the spine.

AHAT 336 - Therapeutic Modalities

Credits: 2. Offered autumn. Physiology, indications, contraindications, and the application of therapeutic modalities for athletic injuries.

AHAT 337 - Therapeutic Modalities Lab

Credits: 1. Offered autumn. Physiology, indications, contraindications, and the application of therapeutic modalities for athletic injuries.

AHAT 340 - Practicum in AT I

Credits: 3. Offered autumn. Introduction to basic clinical experience working in a variety of health care settings.

AHAT 341 - Practicum in AT II

Credits: 3. Offered spring. Basic clinical experience working in a variety of health care settings.

AHAT 342 - Therapeutic Interventions

Credits: 2. Offered spring. Prereq., WRIT 121 or 201. Theories and application methods of interventions such as therapeutic modalities and exercise for athletic injuries. Substantial reading and writing component. Course

Attributes: Writing Course-Advanced

AHAT 343 - Therapeutic Interventions Lab

Credits: 1. Offered spring. Coreq., AHAT 342. Laboratory sessions examining theories and application methods of interventions such as therapeutic modalities and exercise for athletic injuries.

AHAT 411 - Practicum: Adv Pract Ath Tr I

Credits: 3. Offered autumn. Advanced clinical experience in health care settings. Each student manages injuries of a specific sport and performs administrative duties.

AHAT 412 - Adv Pract Athl Trng II

Credits: 3. Offered spring. Advanced clinical experience in health care setting. Each student manages injuries of a specific sport and performs administrative duties.

AHAT 421 - Assmt of Thor and Med in Ath

Credits: 2. Offered autumn. Coreq., AHAT 422. Recognition and assessment techniques of thorax, abdomen and general medical conditions in sports.

AHAT 422 - Assmt Thor and Med in Ath lab

Credits: 1. Offered autumn. Coreq., AHAT 421. Laboratory sessions to develop recognition and assessment techniques of thorax, abdomen and general medical conditions in sports.

AHAT 468 - Athl Training Org and Admin

Credits: 2. Offered spring online. Exploration of the aspects of athletic training organization and administration.

Topics include program management, personnel management, insurance, risk management, ethics, organization of pre-participation physical examinations, leadership styles, budget planning, equipment/inventory management and athletic training facility design.

AHAT 479 - Topics in Sports Medicine

Credits: 3. Offered spring. Prereq., Junior standing or higher. The etiology and management of sports related injuries/illnesses. Includes: therapeutic use of drugs, pre-participation screening techniques, ergogenic aids, the aging athlete, the sports medicine team concept and current medical treatment of sports injuries.

AHAT 490 - Undergraduate Research

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student.

AHAT 492 - Independent Study

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

AHAT 498 - Internship

Credits: 2 TO 6. (R-6) Offered every term. Prereq. all HHP options minimum junior standing and ECP 120/121 (or equivalent). Prereqs per option. Exercise Science Applied: KIN 320/321. If internship is coaching or strength & conditioning must also have completed KIN 410 and COA 405. Exercise Science Pre-Professional: KIN 320/321. If internship is cardiac rehab must also have completed KIN 460/483/484. Community Health: CHTH 335. Supervised field experiences with private businesses, public agencies, or institutions. 45 hours of internship site work = 1 credit. A maximum of 6 credits of Internship 498 may count toward graduation. Students should not be registered for more than 14 credits their internship semester. Course Attributes: Internship graduation limit 6

Athletic Training

ATEP 534 - Athletic Training Techniques I

Credits: 3. Prereq., Athletic Training Student. Serves as an introduction to athletic training practice. Emphasis on the prevention, care, and management of acute injuries and illnesses, as well as risk management, environmental concerns, and protective taping and equipment. Level: Graduate

ATEP 535 - Athletic Training Techniques II

Credits: 3. Provides an investigation into the study of evidence based medicine, epidemiology and injury surveillance, cultural competency, and mental health issues. Level: Graduate

ATEP 540 - Practicum in Athletic Training I

Credits: 3. Prereq., Athletic Training Student. Builds on skills previously acquired and introduces new skills related to current coursework. Students will be assigned to a clinical education rotation under the direct supervision of a clinical preceptor. First in the series of four practicum courses. Level: Graduate

ATEP 541 - Practicum in Athletic Training II

Credits: 3. Prereq., Athletic Training Student. Expands on skills previously acquired and introduces new skills related to current coursework. Students will be assigned to a clinical education rotation under the direct supervision of a clinical preceptor. Second in the series of four practicum courses. Level: Graduate

ATEP 542 - Lower Extremity Assessment

Credits: 3. Prereq., Athletic Training Student. Provides a study of anatomy and physiology, assessment, evaluation techniques, treatment, and management of conditions affecting the lower extremities and lumbar spine. Level: Graduate

ATEP 544 - Upper Extremity Assessment

Credits: 3. Prereq., Athletic Training Student. Provides a study of anatomy and physiology, assessment, evaluation techniques, treatment, and management of conditions affecting the upper extremities, head, and thoracic and cervical spine. Level: Graduate

ATEP 546 - General Medical Assessment

Credits: 3. Prereq., Athletic Training Student. Examines the recognition, assessment, and management of general medical conditions and illnesses. Level: Graduate

ATEP 550 - Practicum in Athletic Training III

Credits: 3. Prereq., Athletic Training Student. Broadens skills previously acquired and introduces new skills related to current coursework. Students will be assigned to a clinical education rotation under the direct supervision of a clinical preceptor. Third in the series of four practicum courses. Level: Graduate

ATEP 551 - Practicum in Athletic Training IV

Credits: 3. Prereq., Athletic Training Student. Reviews and refines skills previously acquired and evaluated in previous coursework. Students will be assigned to a clinical education rotation under the direct supervision of a clinical preceptor. Fourth in the series of four practicum courses. Level: Graduate

ATEP 566 - Therapeutic Modalities

Credits: 3. Offered spring. Prereq., ATEP 550. Physiology, indications, contraindications, and the application of therapeutic modalities for athletic injuries. Level: Graduate

ATEP 569 - Clinical Anatomy Laboratory

Credits: 1. Offered Fall. Prereq., Athletic Training Student. Clinical applications of anatomy in Athletic Training. Laboratory time for practical applications including prosected cadavers, surface anatomy, osteology, radiology, functional analysis of movement, applied clinical anatomy and sports application. Level: Graduate

ATEP 572 - Therapeutic Exercise

Credits: 3. Offered spring. Prereq., ATEP 566. Theories and application methods of comprehensive therapeutic exercise programs for athletic injuries. Level: Graduate

ATEP 574 - Manual Therapy Techniques

Credits: 3. Offered summer. Prereq., ATEP 572. Theories and application methods of comprehensive manual therapy for athletic injuries. Level: Graduate

ATEP 578 - Organization & Administration in Athletic Training

Credits: 3. Prereq., Athletic Training Student. Explores leadership, organization, administration, and legal issues in athletic training. Topics include leadership; insurance; ethics; professional development; the planning, organization, operations, and assessment of athletic training programming and facilities. Fiscal and risk management will also be examined. Level: Graduate

ATEP 580 - Pharmacology for Sports Medicine

Credits: 3. Prereq., graduate level student. Explores the pharmaceutical and chemical processes of therapeutic interventions and therapies. This course examines the constraints placed on patients in the performance environment as well management, protocols, and legal issues. Level: Graduate

Biology-Human

BIOH 330 - Anat & Phys Speech Mech

Credits: 3. Offered autumn. Introduction to anatomy and physiology of the speech and hearing mechanisms including the anatomical orientation and embryological development, the breathing mechanism, structures of phonation, articulators, audition and the nervous system.

Curriculum and Instruction

C&I 160 - Lrng Strat Higher Ed

Credits: 1 TO 2. Offered autumn and spring. Instruction and application of college study skills including lecture note taking, time management, reading textbooks, test taking, and critical thinking. Elective credit only. Course Attributes: Study Skills Course

C&I 195 - Special Topics

Credits: 1 TO 5. (R-15) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

C&I 287 - Business Communications

Credits: 3. Offered autumn and spring. Prereq., WRIT 101 College Writing I. Emphasis on consistent and logical approaches to solving communication problems and creating successful communication products. Course Attributes: Writing Course-Intermediate

C&I 295 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Offerings of visiting professors, new courses, or current topics.

C&I 296 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of advisor and instr.

C&I 298 - Internship

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of advisor, instructor, and director of field experiences. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internship graduation limit 6

C&I 341 - Information Management & Design

Credits: 3. Offered spring. Prereq., CSCI 172. Emphasis on the development and maintenance of a file management system, application of effective design concepts in the creation of professional print and digital images and documents, and the creation of digital videos for use in education and/or business.

C&I 394 - Seminar

Credits: 1 TO 9. (R-9) Offered intermittently. Group analysis of problems in specific areas of education.

C&I 395 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

C&I 498 - Internship

Credits: 1 TO 6. Offered intermittently. Prereq., consent of chair. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internship graduation limit 6

C&I 501 - Curriculum Design

Credits: 3. Underlying principles of design, factors affecting implementation, and evaluation and assessment of K-12 curricula at the student and program levels. Level: Graduate

C&I 502 - Philosophy of Education

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Same as EDLD 502. Major philosophical schools of thought and leading proponents of each. Concepts of society, the educative process, and the role of education. Level: Graduate

C&I 504 - Hist of American Education

Credits: 3. Same as EDLD 504. Exploration of the ideas, individuals, and events that have influenced the curriculum, pedagogy, and operation of the American public school, from colonial America to the present time. Level: Graduate

C&I 506 - Comparative Education

Credits: 3. How the American educational system compares with those in selected other countries. Level: Graduate

C&I 508 - Sociology of Education

Credits: 3. Modern public education as it affects and is affected by religious, economic, and political systems and other social institutions. Level: Graduate

C&I 510 - Adv Educational Psychology

Credits: 3. The exploration of theoretical and empirical issues in psychology (e.g., learning theory and intelligence). Level: Graduate

C&I 514 - Education Across Cultures

Credits: 3. Educational foundations of the study of diversity in American schools. Level: Graduate

C&I 515 - Computer/Tchnlgcl Appl in Educ

Credits: 3. Prereq., a basic computer course or demonstrated computer literacy. Computer systems and other hardware utilizing various software applications by administrators, counselors, librarians, teachers, and students. Level: Graduate

C&I 518 - Inclusion and Collaboration

Credits: 3. Offered autumn even-numbered years; offered summer. Legal and ethical issues involved in the responsible inclusion of all individuals with disabilities through multi-disciplinary and collaborative efforts. Level: Graduate

C&I 519 - Authentic Assessment

Credits: 3. Focus on assessment practices in K-12 classrooms including a wide variety of assessments that meet curricular objectives as well as nationally required standardized exams to meet NCLB mandates. Level: Graduate

C&I 520 - Educational Research

Credits: 3. Offered every term. Same as EDLD 520. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. An understanding of basic quantitative and qualitative research methodology and terminology, particularly as they are used in studies presented in the professional literature.

Level: Graduate

C&I 521 - Found Environmental Educ

Credits: 3. Offered autumn. Prereq., graduate standing in environmental studies. Same as ENST 521. Problem-solving approach to environmental education; problem identification, research and design and implementation of an educational approach to selected environmental issues. Level: Graduate

C&I 523 - Early Childhood Spec. Ed.

Credits: 3. Focuses on the relationship between assessment and individualized educational planning young children who qualify for Special Education services. A variety of assessments and assessment techniques will be taught, with a strong emphasis on the use of ecologically valid assessment tools. Emphasis on instructional techniques for young children will be covered with particular attention to the DEC recommended practices. A field experience is required. Level: Graduate

C&I 524 - Family and Diversity Issues

Credits: 3. An overview of different approaches, current issues, and problems involved in working with and supporting families including families from diverse backgrounds. Emphasis is placed on how a child with disabilities affects and is affected by parents, siblings, the extended family, and the community. Strategies for effective communication for the purpose of information sharing and collaborative planning with families are provided. Level: Graduate

C&I 525 - Tchg Environmen Science

Credits: 1 TO 3. (R-6) Offered spring even-numbered years. Prereq., consent of instr. Same as ENST 525. Identification and examination of potential solutions to environmental problems and their impact on society. Major emphasis on teaching methods as they apply to environmental science. Level: Graduate

C&I 526 - Transition & Comm Support

Credits: 3. Focus on issues and strategies for preparing adolescents and young adults with disabilities for the transition from school to future careers. These issues are discussed within the context of more global efforts to create school-to-career programs in school settings for all students. Level: Graduate

C&I 527 - Discip Literacy Strat

Credits: 3. Offered autumn. Prereq., teaching experience. Advanced theories, models, instructional approaches for using reading/writing for learning in content fields. Emphasis on research, instructional practice, classroom assessment. Level: Graduate

C&I 530 - Trends & Rsch in Read and Writ

Credits: 3. Offered summer odd-numbered years. Survey of current research related to literacy practices in schools/communities. Theories, models, politics of literacy in K-12/Adult education. Level: Graduate

C&I 533 - Asmt & Inst for Div Lit Lrnrs

Credits: 3. Offered summer odd-numbered years. Reading specialist candidates will explore a range of research and current issues related to assessment; develop a framework for assessing students with diverse strengths

and learning needs; and practice leveraging information gained from assessments in the design of meaningful learning experiences. Level: Graduate

C&I 540 - Lang Arts Ped and Prac

Credits: 3. Offered summer even-numbered years. Prereq., teaching experience. Advanced theories and instructional approaches for teaching and assessing literacy. Level: Graduate

C&I 541 - Genre Studies

Credits: 3. Offered even summers. The purpose of this course is to explore, in depth, several literary genres and to move from a survey approach to an intense focus on the variety of books and poems written for children and young adults. Particular attention will be given to research, authors, and awards in each of the following genres: science fiction, historical fiction, contemporary fiction, modern fantasy, non-fiction, graphic novels and poetry

Level: Graduate

C&I 542 - Superv/Tchg Math

Credits: 3. Offered spring even-numbered years and summer odd-numbered years. Curriculum trends, instructional materials, research and supervisory techniques relevant to a modern school mathematics program.

Level: Graduate

C&I 545 - Social Studies Education

Credits: 3. Historical trends and curriculum issues related to social studies instruction. Emphasis on current research concerning social studies curriculum design, instructional practices, and use of resources. Level:

Graduate

C&I 548 - Super Tchg Envir Ed

Credits: 3. Offered spring. Prereq., ENST 521 or C&I 521. Design, selection, and evaluation of materials for the teaching of environmental education. Level: Graduate

C&I 552 - Models of PD Math/Sci

Credits: 3. Offered spring even years on-line. Exploration of various models of professional development and the development of implementation plans for workshops and in-service professional development in science and mathematics. Level: Graduate

C&I 555 - Workshop

Credits: 1 TO 6. (R-6) Offered intermittently. Special courses experimental in nature dealing with a relatively narrow, specialized topic of particular current interest. Credit not allowed toward a graduate degree. Level:

Graduate

C&I 556 - Methods Low Incidence Disabil

Credits: 3. Offered spring and odd summers. Focus on research-based methods of instruction for students with low incidence disabilities in basic communication, mobility, sensory, and social skills, as well as academic skills (especially literacy and general education curricular access). An introduction to augmentative and alternative communication and life quality today and in the future. An introduction to augmentative and alternative communication (AAC) and assistive technology (AT) is also addressed. A field experience is required. Level:

Graduate

C&I 557 - Graduate Literacy Practicum

Credits: 6. Offered intermittently in summer. Prereq., C&I 433 or 533. Based on readers' literacy strengths and needs, practitioners diagnose, devise, and implement instructional strategies for students in grades K-12. Level: Graduate

C&I 560 - Response to Intervention

Credits: 3. Prereq., C&I 458. Review of evidence-based assessment and instruction techniques in all basic academic areas. Advanced application of general outcome and curriculum-based measures and alignment of these assessments to interventions. Preparation in service as a leader for the implementation of school-wide prevention models. A practicum is required. Level: Graduate

C&I 570 - Instructional Technology Found

Credits: 3. Same as EDLD 570. General introduction to the field, theory, and profession of instructional technology. Definition of instructional technology; history of the field. Level: Graduate

C&I 571 - Educ Tech Media

Credits: 3. Same as EDLD 571. Principles and practices of instructional design for integration of educational technology. Emphasis on role of technology in contemporary teaching/learning/assessing theory and practice, including learning styles and multiple intelligences. Level: Graduate

C&I 580 - Dist Lrng Theory & Implem

Credits: 3. Same as EDLD 580. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Introduction to distance learning models and exploration of satellite and computer-mediated course development, implementation, and evaluation. Level: Graduate

C&I 581 - Plng & Mgt for Tech in Edu

Credits: 3. Same as EDLD 581. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Creating, implementing, maintaining, and evaluating technology plans for educational institutions, including budgets, facilities, and hardware planning. Level: Graduate

C&I 582 - Ed Tech Trends & Issues

Credits: 3. Same as EDLD 582. Exploration of trends and issues in the use of educational technology in a variety of settings. Level: Graduate

C&I 584 - Authentic App Inst Design

Credits: 3. Same as EDLD 584. Development of practical competencies in such components of instructional technology as development, production, materials evaluation, and project management and implementation. Level: Graduate

C&I 585 - Unit Crs in BITE

Credits: 1 TO 6. (R-6) Each unit course will carry a special title designating topic covered that is related to improvement of instruction. Level: Graduate

C&I 588 - Action Research in Classroom

Credits: 3. Readings in research in teaching/learning. Strategies to implement all components of an action research project in a classroom including planning/research design, action, reflection, and sharing. Level: Graduate

C&I 589 - Professional Project

Credits: 3. Culminating course in online master's program. Students demonstrate connections across content areas through a mini-thesis, research-based product that is shared with other professionals through a publication and/or presentation at a conference or workshop. Level: Graduate

C&I 590 - Supervised Internship

Credits: 1 TO 3. (R-9) Offered autumn and spring. Extended classroom experience which provides practical application of classroom learning during placements off campus. Level: Graduate

C&I 594 - Seminar: Prof Portfolio

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. A review and discussion of current research. Topics vary. Level: Graduate

C&I 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

C&I 596 - Independent Study

Credits: 1 TO 6. (R-18) Offered autumn and spring. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate

C&I 597 - Research

Credits: 1 TO 9. (R-9) Offered every term. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

C&I 598 - Internship

Credits: 1 TO 9. (R-9) Offered every term. Prereq., consent of instr. Supervised field experience. Level: Graduate

C&I 618 - Educational Statistics

Credits: 3. Offered spring. Prereq., EDU 421 or equiv., or consent of instr. Same as EDLD 583. Same as EDLD 618. Advanced statistical methods and use of the mainframe computer and microcomputer for data analysis. Use of a recognized statistical package (e.g., SPSS-X) for research applications. Level: Graduate

C&I 620 - Qualitative Research

Credits: 3. Offered autumn. Prereq., C&I 520 or 618, or equiv. Same as EDLD 620. Same as EDLD 583. In-depth review of descriptive, experimental, historiographic, ethnographic, and other qualitative research methods, designs, and approaches. Includes the development of a research proposal. Level: Graduate

C&I 625 - Quantitative Research

Credits: 3. Offered spring. Prereq., C&I 520 and 486 or equiv. and coreq., C&I 618. Same as EDLD 583. Same as EDLD 625. Principles and techniques of quantitative research in educational settings. Students prepare a draft of a research proposal and experience an abbreviated dissertation proposal defense. Level: Graduate

C&I 630 - Spec Topics in Literacy

Credits: 1 TO 3. (R-3) Offered every term. Prereq., consent of instr. Should be taken in conjunction with or immediately prior to comprehensive examinations. In-depth coverage of selected topics in reading and writing related to current literacy issues and practices. Level: Graduate

C&I 652 - Issues Curr & Instr

Credits: 3. Offered autumn odd-numbered years. Prereq., C&I 501 or consent of instr. Curricular and instructional decision making and process, innovation and change, trends and reforms. Controversial issues in education and society related to K-12 curriculum and motivation. Level: Graduate

C&I 694 - Adv Sem Curr & Instr

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. A review and discussion of current research. Topics vary. Level: Graduate

C&I 697 - Adv Rsrch Curr & Instr

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

C&I 699 - Thesis/Dissertation

Credits: 1 TO 10. (R-10) Offered every term. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

Community Health

CHTH 355 - Theory Practicum Community Health Education

Credits: 3. Offered autumn. Prereq., KIN 205. History, philosophy, and theory related to community health education and health promotion. Includes the application of program development principles and health promotion strategies to community health programs.

CHTH 435 - Human Response To Stress

Credits: 3. Offered autumn and spring. Prereq., junior status. The study of psychosomatic and somatopsychic techniques for relaxation and self-enhancing strategies.

CHTH 445 - Program Plannig in Community Health

Credits: 3. Offered spring. Prereq., CHTH 355. Overview of the issues, approaches, and techniques community health educators and professionals utilize in planning and implementing programs to assist communities in improving health status and reducing risky behaviors and their determinants. This course co-convenes with HHP 541. Course Attributes: Co-Convened Course

CHTH 485 - Theories of Health Behaviors and Counseling

Credits: 3. Offered spring. Exploration of the helping role as it relates to health behavior, health assessment, problem-solving and referral skills. Application of theories to facilitation of healthy behavior changes.

CHTH 490 - Undergraduate Research

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student.

CHTH 492 - Independent Study

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

CHTH 498 - Internship

Credits: 2 TO 6. (R-6) Offered every term. Prereq. all HHP options minimum junior standing and ECP 120/121 (or equivalent). Prereqs per option. Exercise Science Applied: KIN 320/321. If internship is coaching or strength &

conditioning must also have completed KIN 410 and COA 405. Exercise Science Pre-Professional: KIN 320/321. If internship is cardiac rehab must also have completed KIN 460/483/484. Community Health: CHTH 355. Supervised field experiences with private businesses, public agencies, or institutions. 45 hours of internship site work = 1 credit. A maximum of 6 credits of Internship 498 may count toward graduation. Students should not be registered for more than 14 credits their internship semester. Course Attributes: Internship graduation limit 6

Coaching

COA 205 - Introduction to Coaching

Credits: 1 TO 2. (R-4) Offered intermittently. Covers a variety of activities to include coaching theories, competitive coaching strategies, training methods and techniques. Covers requirements for the bronze level of the American Sport Education Program (ASEP). Course Attributes: Coaching Course

COA 405 - Advanced Concepts in Coaching

Credits: 3. Offered spring. Prereq., junior or senior undergraduate status or graduate status. This class will introduce students to a solid foundation in coaching to include: coaching theories, competitive coaching strategies, training methods and techniques. This course will cover the requirements for the bronze level of the American Sport Education Program (ASEP). Course graded credit/no credit or for a letter grade. The class is appropriate for coaches at all levels but will focus on basic skills of coaching for youth through high school.

COA 494 - Workshop

Credits: 1 TO 6. (R-6) Offered intermittently. Special courses experimental in nature dealing with a relatively narrow, specialized topic of particular current interest. Credit not allowed toward a graduate degree.

Counselor Education

COUN 242S - Intimate Relationships

Credits: 3. Offered autumn and spring semester. This course covers the fascinating, multi-faceted world of intimate relationships and explores the topic from empirical and theoretical perspectives. The examination of intimate relationships in this course will look at the subject through cultural, biological, social and developmental lenses and will explore specific topics such as attraction, communication, friendship, sexuality, love, conflict, power and violence, loss, social cognition, and repairing relationships. Course Attributes: Social Sciences Course

COUN 395 - Special Topics

Credits: 1 TO 9. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

COUN 475 - Forgiveness & Reconciliation

Credits: 3. Offered spring. Survey of the theory and practice of healing fractured relationships at the individual and community levels, treating historical and personal issues from philosophical, psychological and religious perspectives drawn from several diverse cultures.

COUN 485 - Counseling Theories

Credits: 3. Offered autumn. Prereq., PSYX 100S. Same as PSYX 442 and SW 485. Introduction to the primary theories that constitute the intellectual foundation for common counseling and psychotherapy techniques, with a special focus on gender, interpersonal influence strategies, and diversity issues.

COUN 495 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

COUN 510 - Intro to Counseling

Credits: 1. Course is designed to prepare school and mental health counselors-in-training gain an understanding of the counseling field and begin developing professional identity. Much of the material introduced in this course will be developed in greater detail in later courses. This course is an overview that prepares the student for his or her professional identity and activities. Level: Graduate

COUN 511 - Theories & Tech of Counseling

Credits: 3. Offered autumn. Examination of historic and current theories of counseling. Overview of techniques associated with each theory. Basic introduction to ethical concerns with each theory. Level: Graduate

COUN 512 - Counseling Fundamentals

Credits: 3. Offered autumn. Prereq., COUN 511. Overview of approaches to counseling, including common factors. Includes meta-theoretical considerations and guided dyadic practice. Level: Graduate

COUN 520 - Group Coun & Guidance

Credits: 3. Offered spring. Prereq., COUN 511. Theories, approaches, and methods for group counseling and guidance. Level: Graduate

COUN 530 - Applied Counseling Skills

Credits: 3. Offered autumn and spring. Prereq., COUN 511, 512 and consent of instr. Review and application of counseling theories and techniques to client issues. Intensive supervision including ethics, professional practice and diagnostic considerations. Lecture and class presentation with a focus on professional counseling development. Level: Graduate

COUN 540 - Individual Appraisal

Credits: 3. Offered spring. Prereq., C&I 517 or consent of instr. Overview of appraisal techniques utilized in counseling, including interviewing, observation, and psychological/educational testing. The processes of selection, administration, scoring, interpretation, and reporting information from appraisal techniques are examined in relation to practical, legal, and ethical considerations. Level: Graduate

COUN 550 - Intro Family Counseling

Credits: 3. Offered summer only. Prereq., admission to Counselor Education program or consent of instr. An introduction to the major theories, techniques, and diagnostic tools of family counseling. Course includes a family systems emphasis. Level: Graduate

COUN 560 - Lifespan Developmentl Coun

Credits: 3. Offered spring. Overview of counseling from the framework of lifespan developmental theory. Normal and abnormal development in the environmental context of family, school, society and culture emphasized. Level: Graduate

COUN 565 - Coun, Prog Dev, & Superv

Credits: 3. Offered spring. Prereq., graduate standing or consent of instr. Examination of counseling techniques and approaches relevant to prevention and remediation of behavioral, social, emotional and academic problems for students P-12. Overview of school counseling program development and administration. Level: Graduate
COUN 566 - Coun Child & Adol

Credits: 3. Offered every spring. Prereq., COUN 511, 512, 565 or consent of instr. Review and application of counseling concerns and approaches with children and adolescents in school and related educational settings, including classroom and psychoeducational strategies. Level: Graduate
COUN 570 - Career Coun Theory & Tech

Credits: 3. Offered summer only. Examination of theories of career choice and development; information sources for career counseling; techniques and approaches of career counseling with clients at different stages of career and life development and from diverse populations. Level: Graduate
COUN 575 - Multicultural Coun

Credits: 3. Offered spring. Prereq., graduate standing or consent of instr. An introduction to the field of multicultural counseling. Issues and practical considerations in counseling five population groups; definition of terms and concepts. Level: Graduate
COUN 580 - Addictions Counseling

Credits: 3. Offered summer. Pre-req., admission to the Counselor Education program or consent of instr. Understanding of addictions with a focus on chemical dependency and its treatment including community and school-based prevention. Course includes Motivational Interviewing approach. Level: Graduate
COUN 585 - Coun Meth: School & Agency

Credits: 1 TO 9. Offered every term. Prereq., COUN 511, 512. Supervised counseling methods and theories as applied in mental health agencies and schools. Review of the principles of counseling as these apply to various settings and client issues. Level: Graduate
COUN 589 - Comprehensive Project

Credits: 1. Offered autumn and spring. Integration of professional experience and academic research in a comprehensive paper or applied project. Students may elect to have an oral examination covering the eight CACREP core areas of counseling. Level: Graduate
COUN 594 - Seminar

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Group analysis of problems in specific areas of professional counseling. Level: Graduate
COUN 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate
COUN 596 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate
COUN 597 - Research

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Directed individual research and study appropriate to the background and objectives of the student. Level: Graduate

COUN 610 - Profess Ethics/Orient

Credits: 3. Offered spring. Prereq., COUN 530 or consent of instr. The public and institutional roles and responsibilities of counseling professionals including ethical and legal responsibilities. Level: Graduate

COUN 615 - Diag/Treat Plan in Coun

Credits: 3. Offered spring. Prereq., COUN 512. Overview of diagnosis, treatment planning and case documentation in counseling. Level: Graduate

COUN 625 - Intro Mental Health Systems

Credits: 3. Prereq., acceptance into Counselor Education program mental health track. Essential knowledge for professional identity, understanding of public policy, and community assessment procedures. Includes brief lectures, guest speakers, discussion, and student presentations. Level: Graduate

COUN 685 - Advanced Counseling Method

Credits: 1 TO 9. (R-9) Offered every term. Prereq., COUN 585. Supervised advanced counseling methods and approaches as applied to mental health agencies and schools. Level: Graduate

COUN 699 - Thesis/Profess Paper

Credits: 2 TO 10. (R-10) Offered intermittently. Prereq., EDLD 620 or 625. Preparation of a thesis, professional paper, or manuscript based on research for presentation and/or publication. Level: Graduate

Communicative Sci & Disorders

CSD 110 - The Field of CSD

Credits: 3. Offered autumn. Introduction to the scientific study of human communication and its disorders and to the professions of Speech-Language Pathology and Audiology. Overview of biological systems of speech, language, and hearing and the nature and treatment of communication disorders.

CSD 131 - American Sign Language I

Credits: 3. Offered autumn. Introduces the fundamentals of American Sign Language (ASL) used by the Deaf Community, including basic vocabulary, syntax, fingerspelling, and grammatical non-manual signals. Focuses on basic expressive and receptive competence. In addition, the course provides a survey of various issues raised by examining ASL and the Deaf community. Course Attributes: Foreign Language Requirement

CSD 132 - American Sign Language II

Credits: 3. Offered spring. Prereq., CSD 131. ASL II emphasizes further development of receptive and expressive skills; use of signing space; further use of non-manual components of ASL grammar including facial expression and body postures, and introduction to conversational regulators. Discussion of regional and ethnic sign variations, and social, political and educational institutions of the Deaf community. Interaction with members of the Deaf community in both directed and non-directed activities will be featured. Course Attributes: Foreign Language Requirement

CSD 210 - Speech & Lang Devel

Credits: 3. Offered autumn. Sophomore standing or greater. Topics include typical speech and language development, phonology, semantic, morphological, syntax, and pragmatics, along with individual differences, second language acquisition and literacy.

CSD 221N - Fundamentals of Acoustics

Credits: 3. Offered spring. Provides students with a basic and working knowledge of acoustics and the physics of sound. Provides the basis for measurement and description of speech stimuli. Direct application to Speech Hearing and Language intervention as well as application into communicative sciences. Course Attributes: Natural Science Course

CSD 222 - Intro to Audiology

Credits: 3. Offered autumn. Introduction to principles of acoustics as a basis for understanding hearing assessment. Development of ability to interpret audiograms as well as the results from a hearing evaluation. Includes pure tone and speech audiometry, acoustic immittance and reflex testing. Hearing screening procedures are also included.

CSD 320 - Phono Devel & Phonetics

Credits: 3. Offered autumn. Prereq., CSD 210. Exploration of the sounds and sound structure of American English and some of its dialects. Introduction to the theory and practice of phonetic and phonological analysis and trained in the transcription of speech into the International Phonetic Alphabet.

CSD 345 - Developmental Speech & Language Disorders

Credits: 3. Offered spring. Prereq., CSD 210, CSD 320. Nature of developmental speech and language disorders and basic understanding of principles underlying assessment and treatment of these disorders.

CSD 365 - Acquired Speech and Language Disorders

Credits: 3. Offered spring. Prereq., CSD 210, CSD 320. Identification, assessment, and intervention for a variety of acquired speech and language disorders. Other topics include secondary conditions, potential psychosocial and educational concerns, multicultural considerations, and family roles.

CSD 392 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

CSD 405 - The Clinical Process

Credits: 3. Offered spring. Prereq., CSD 210, CSD 222, CSD 320, CSD 340, CSD 360. The underlying principles of clinical methods and practice including: the observation of human behavior and clinical processes, assessment of communication differences, clinical management of these differences, delays and disorders, behavior, interviewing/counseling, lesson planning, and writing skills.

CSD 411 - Neuroanatomy & Physiology

Credits: 3. Offered spring. Prereq., BIOH 330. Focused study on the anatomy of the nervous system and how the nervous system supports behaviors inherent to communication. Students will be introduced to anatomical terms, structures, and functions. Clinical implications will be discussed as well.

CSD 420 - Speech Science

Credits: 3. Offered spring. Prereq., CSD 222, CSD 320, BIOH 330. Physiologic, neurologic, and acoustic aspects of human communication, theoretical framework for speech science, and principles of acoustics applied to speech pathology.

CSD 430 - Senior Capstone

Credits: 3. Offered autumn. Prereq., senior status. Part one of a two course sequence where the student completes an independent project. Students will prepare a literature review, and ethics application, and a proposal in preparation for a major research project of their design. Course Attributes: Writing Course-Advanced
CSD 450 - Intro to Aural Rehabilitation

Credits: 3. Offered spring. Prereq., CSD 210, CSD 222, CSD 340, & CSD 360 or graduate standing.

Fundamental skills in speech reading, various types of hearing aids, and the tools necessary to assess and implement auditory training. Management of the client with hearing impairment including psycho-social development and educational intervention. Both children and adults are included.

CSD 470 - Clinical Observation

Credits: 2. Offered spring. Prereq., CSD 320, CSD 330, CSD 340, CSD 360. Complete clinical observation guides to fulfill ASHA Standard IV-C by viewing live and recorded treatment and diagnostic sessions under the guidance of speech-language pathologist who holds the certificate of clinical competence.

CSD 480 - Multicultural Issues

Credits: 3. Offered autumn. Prereq., CSD 210, CSD 222, CSD 320, CSD 340, CSD 360. Topics include: dynamics of community and culture; strategies to communicate with people from a variety of backgrounds; learning English as a second language; phonological and linguistic analysis of differences between Standard English speakers and culturally diverse populations and international differences in service delivery.

CSD 490 - Undergrad Clin Practicum

Credits: 1 TO 3. 1-3 cr. (per semester). Prereq., lower division CSD courses and consent of CSD Clinical Director. A maximum of 5 credits of clinical practicum may count toward graduation. Allows the advanced student an opportunity to pursue independent or small group clinical practicum. Students will be directly supervised by a certified speech and language pathologist or audiologist. Course Attributes: Internships/Practicums

CSD 491 - Special Topics

Credits: 1 TO 3. (R-6) Offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CSD 498 - Independent Research

Credits: 1 TO 3. (R-6) Offered Autumn, Spring. Prereq., consent of the instructor. Participation in independent or instructor associated research activities. Course Attributes: Internships/Practicums

CSD 520 - Artic & Phono Disorders

Credits: 3. Offered Autumn. Prereq., Graduate standing and CSD 320, CSD 330, CSD 340 or equivalent course work. Theoretical perspectives on phonological and articulation disorders with emphasis on application to clinical management including evaluation, assessment techniques, and intervention strategies. Level: Graduate

CSD 525 - Prof. Iss. in Speech-Lang Path

Credits: 3. Offered Spring. Prereq., Graduate standing, CSD 520, CSD 550, CSD 565. Discussion of contemporary issues in the field of speech-language pathology including assessment, intervention, prevention, and service delivery models. Level: Graduate

CSD 526 - Autism

Credits: 3. Offered intermittently. Prereq. Graduate standing. Introduction to the disorder of autism through the lifespan as it impacts the scope and practice of speech and language pathologists. Course topics include:

characteristics of ASD, screening and diagnostics tools and procedures, program planning/service delivery models, transition and advocacy, and recent research in speech-language pathology. Level: Graduate

CSD 530 - Voice & Motor Speech Disorders

Credits: 4. Prereq., Graduate standing, CSD 330, 340, and 411, or equivalent course work. Study of anatomy, physiology, and pathology of voice. Diagnosis and management of voice and resonance disorders. Neural bases of normal and disordered speech motor control. Assessment and treatment of motor speech disorders. Level: Graduate

CSD 540 - Fluency Disorders

Credits: 3. Offered Autumn. Prerequisites: Graduate standing and CSD 340 or equivalent course work.

Theoretical, etiological, and developmental perspectives of fluency disorders. Principles of assessment and intervention, including integration of fluency shaping and stuttering modification techniques. Level: Graduate

CSD 545 - Augmentative & Alt. Comm.

Credits: 3. Offered variable terms. Prereqs., graduate standing. Topics include: AAC terminology, design and use of multiple AAC devices (high and light tech), and implementation of treatment programs for individuals and communication partners. Level: Graduate

CSD 550 - Lang/Learn Dis.Yng Chld SERV

Credits: 3. Offered autumn. Prereq., Graduate standing and CSD 210 and CSD 360 or equivalent course work.

Theoretical perspectives, research, and clinical issues concerning disorders of language in infants, toddlers and preschoolers considering contributing factors, special populations and basic assessment and intervention principles. Level: Graduate Course Attributes: Service Learning

CSD 560 - Lang/Learn Dis.Schl Age SERV

Credits: 3. Offered spring. Prereq., graduate standing and CSD 210 and CSD 360 or equivalent course work.

Theoretical perspectives, research, and clinical issues concerning disorders of language, literacy, and learning in the school-age population (elementary through high school) considering contributing factors, special populations and basic assessment and intervention principles. Level: Graduate Course Attributes: Service Learning

CSD 563 - Schools

Credits: 3. Offered intermittently. Prereq., Graduate standing. Historical and current trends for speech-language services in the schools for clients birth to 21 years of age including: state and federal laws, the therapeutic needs of special populations, and the pre-referral, referral, assessment, and service delivery process. Level: Graduate

CSD 565 - Aphasia & Acquired Apraxia of Speech

Credits: 3. Offered autumn. Prereq., CSD 210, CSD 330, CSD 360, and CSD 411 or equivalent course work and graduate standing. Neural bases and medical etiologies of acquired apraxia of speech and acquired cognitive-linguistic disorders in adults. Evaluation and treatment of aphasia and apraxia of speech in persons with acquired neurologic disorders across successive stages of recovery. Incorporates models of rehabilitation across prevention, assessment, and treatment, with a focus on the WHO ICF and aspects of disability across diverse populations. Level: Graduate

CSD 566 - Acquired Cog-Com Disorders

Credits: 3. Offered intermittently. Prereq., Graduate standing, CSD 565 or equivalent course work. Assessment, treatment, and prevention of acquired cognitive-communication disorders including pediatric and adult traumatic

brain injury (TBI) and mild traumatic brain injury (MTBI), right hemisphere syndrome (RHS), and dementia. Emphasis on neurobiological principles of rehabilitations, differential diagnosis and theories, and evidence-based research pertaining to clinical management. Level: Graduate

CSD 570 - Clinical Procedures I

Credits: 1. Offered autumn, summer; on campus only. Prereq., graduate standing, permission of clinical director. Co-convened with CSD 571. Study of professional and clinical issues with application to clinical practicum. Discussions, demonstrations, and student presentations. Mandatory weekly meeting. Level: Graduate Course
Attributes: Co-Convened Course

CSD 571 - Applied Clinic I

Credits: 1. Offered autumn, summer; on campus only. Prereq., graduate standing, permission of clinical director. Co-convened with CSD 570. Application of professional skills in the UM RiteCare Clinic. Assignment of cases and area of specialization will vary with the clients needs and availability. Level: Graduate Course
Attributes: Co-Convened Course

CSD 575 - Clinical Procedures II

Credits: 1. (R-9) Offered autumn, spring, summer. Prereq., CSD 570. Co-convened with CSD 576. Advanced study of professional and clinical issues with application to clinical practicum. Discussions, demonstrations, and student presentations. Mandatory synchronous weekly class meeting. Out of state placement by approval of clinical director. Level: Graduate Course
Attributes: Co-Convened Course

CSD 576 - Applied Clinic II

Credits: 2. (R-9) Offered autumn, spring, summer. Prereq., CSD 570. Co-convened with CSD 575. Advanced application of professional skills in the UM RiteCare Clinic or off-campus. Assignment of cases and area of specialization will vary with the clients needs and availability. Out of state placement by approval of clinical director. Level: Graduate. Course
Attributes: Co-Convened Course

CSD 580 - Diagnostics

Credits: 2. Offered every term. Prereq., Graduate Standing and CSD 570. Students will accrue clinical clock hours with pediatric and adult populations while developing the following skills: using case history information to form a diagnostic plan; administering various standardized and non-standardized diagnostic tools; interpreting assessment results; writing diagnostic reports; and sharing diagnostic results with clients, caregivers and other professionals. Mandatory weekly class meetings. Level: Graduate

CSD 594 - Graduate Seminar

Credits: 1 TO 12. (R-3) Offered intermittently. Prereq., consent of instr. A review and discussion of current research. Topics vary. Level: Graduate

CSD 595 - Special Topics

Credits: 1 TO 12. Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offering of current topics. Level: Graduate

CSD 600 - Research Methods

Credits: 3. Offered spring. Prereq., graduate standing. Research methodologies appropriate for quantitative and qualitative studies in communication sciences and disorders. Focuses on critical reading of research papers, design, and implementation of experiments. Level: Graduate

CSD 610 - Counseling

Credits: 3. Offered intermittently. Prereq., CSD 520, CSD 540, CSD 550, CSD 560, CSD 565. Introduction to counseling clients and caregivers regarding speech and hearing disorders across the lifespan. Topics include adjustment to injury, the grief process, specific counseling approaches, advocacy and identifying community resources. Level: Graduate

CSD 640 - Swallowing Disorders

Credits: 3. Prereq, Graduate standing and CSD 330, CSD 340, and CSD 411, or equivalent course work. Study of anatomy, physiology, and pathology of swallowing. Diagnosis and treatment of swallowing disorders. Level: Graduate

CSD 675 - Clinical Externship

Credits: 6. Offered every term. Prereq., permissions of Clinic Director and completion of at least 4 credits of CSD 575 clinical course work. The course is an externship typically completed during a student's final semester of graduate school. The externship requires a commitment of 30-40 hours a week in a school, clinic, or medical site across Montana or out of state that is approved by The University of Montana. Online case study is also required to fulfill requirements. Level: Graduate

CSD 688 - CSD Master of Science Capstone

Credits: 3. Offered spring and autumn. Prereq., CSD 600, Graduate standing and consent of instructor. In depth literature review of a particular field of study related to speech-language pathology. Level: Graduate

CSD 696 - Independent Study

Credits: 1 TO 5. Prereq. Consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate

CSD 699 - Thesis

Credits: 1 TO 6. (R-9) Offered autumn, spring, summer. Prereq., CSD 600, Graduate standing and consent of instructor. The primary purpose of the thesis is to allow a student to conduct a research project in a particular field of study related to speech and language pathology. Level: Graduate

Emergency Care Provider

ECP 100 - First Aid and CPR

Credits: 1. Offered spring. Instruction will cover CPR, use of an automated external defibrillator (AED) and relief of foreign-body airway obstruction (FBAO). The First Aid component will cover general principles as well as medical, injury and environmental emergencies. Students will receive AHA Heartsaver CPR and First Aid certification. This class does not meet First Aid requirements for HHP majors.

ECP 101 - Pediatric First Aid and CPR

Credits: 1. Offered intermittently. Within the guidelines of the American Heart Association, this course is designed to provide students with the basic knowledge and certification in: CPR for victims of all ages, use of an automated external defibrillator (AED) relief of foreign body airway obstruction (FBAO) and basic first aid procedures (medical, trauma and environmental emergencies) with a focus on the pediatric patient. Upon

successful completion of this course students will receive American Heart Association Heartsaver Pediatric First Aid/CPR certification.

ECP 102 - Wilderness First Aid

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ECP 120 - Emergency Medical Responder Lecture

Credits: 2. Offered every term. Coreq., ECP 121. Development of knowledge of emergency care and CPR/AED techniques. In conjunction with HHP 289 provides certifications by the American Academy of Orthopedic Surgeons and the American Heart Association upon successful completion.

ECP 121 - Emergency Medical Responder Lab

Credits: 1. Offered every term. Coreq., ECP 120. Development of knowledge of emergency care and CPR/AED techniques. In conjunction with HHP 288 provides certification by the American Academy of Orthopedic Surgeons and the American Heart Association upon successful completion.

ECP 122 - Wilderness First Responder

Credits: 2. Offered intermittently. Instruction in the prevention, recognition, and treatment of backcountry illness and injury. Successful students receive an Aerie Wilderness First Responder certification and an American Heart Association Heartsaver CPR certification. This course meets HHP department First Aid requirement but does not meet the CPR requirement.

ECP 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ECP 331 - Wilderness EMT

Credits: 3. Offered intermittently. EMT-Basic curriculum with significantly more detail concerning care for patients in remote settings. Students must be 18 year old and never been convicted of a felony to qualify for certification. This course meets HHP department First Aid and CPR graduation requirements.

ECP 332 - EMT and Incident Management

Credits: 5. This course follows the DOT's National Registry of EMTs (NREMT) curriculum and is approved by the NREMT and the State of Montana Board of Medical Examiners. Incident management training includes mass-casualty incidents, extended rescue and evacuation scenarios. Clinical experience includes a two day health clinic in Costa Rica, ambulance and hospital emergency department clinical observations in Montana. Co-requisite courses PTRM 391 Wilderness Rescue and Survival Skills; PTRM 391 Wilderness Medicine and Risk Management.

Early Childhood Education

EDEC 408 - Early Childhood Principles and Practices

Credits: 3. Offered spring odd numbered years. This course is an overview of principles and practices in early childhood education (ages birth through eight). The main topics to be covered will include: the sociological, professional, and theoretical perspectives of early childhood education with a focus on developmentally

appropriate practice (DAP); the skills and dispositions needed in planning and implementing early care and education programs for all children; and education models in early childhood. Students must plan for a minimum of 45 hours in an early childhood setting to meet requirements for the application of course content. Co-convened course with EDEC 508. Course Attributes: Co-Convened Course

EDEC 410 - Families, Communities, Culture

Credits: 3. Offered Spring even numbered years. This on-line course explores the dynamics of working together with families of young children (birth - 8) in early childhood programs using a family-centered approach that places the child in the context of family and community. Students will explore developmental relationship building, communication, needs-based assessment and cultural diversity through readings, online discussion groups, an independent service-learning project and field-work. Co-convened with EDEC 510. Course Attributes: Co-Convened Course

EDEC 420 - Meeting Standards Through Play-Based Environments

Credits: 3. Offered fall odd numbered years. This course features an in-depth examination of how early learning standards in all content areas (math, science, literacy, technology, physical education, and the arts) can be met through the design and facilitated use of play-based environments. Also examined will be the role of the teacher as environmental designer and facilitator of learning. Students must plan for a minimum of 45 hours in an early childhood setting to meet requirements for the application of course content. This course is co-convened with EDEC 520. Course Attributes: Co-Convened Course

EDEC 430 - SocEmot Dvlpmnt in Yng Child

Credits: 3. Offered autumn even numbered years. This on-line course examines the development, components, and influences of social competence in the early childhood years (birth – 8). Positive guidance techniques that enhance children's self-esteem and pro-social skills will be taught. Students will examine developmental theories, current literature, researched-based teaching strategies and assessment tools. Students must plan for a minimum of 45 hours in an early childhood setting to meet requirements for the application of course content. Co-convened with EDEC 530. Course Attributes: Co-Convened Course

EDEC 495 - EC Fieldwork/Practicum

Credits: 3. Offered every semester. This course provides students the opportunity to participate in planning and facilitating learning activities in a multi-age early childhood program while also participating in an on-line seminar. Students will observe and facilitate learning in a model early childhood setting and participate in on-going written and verbal reflection to explore key teaching and learning issues. The course will focus on promoting student knowledge, skills, and dispositions in the areas of child observation and assessment, curriculum planning, child guidance, and integration of curriculum using a broad repertoire of teaching strategies. Students are required to be based in an approved licensed and/or accredited early childhood program for a minimum of 8 hours/week. Co-convened with EDEC 595. Course Attributes: Co-Convened Course

EDEC 508 - Early Childhood Principles and Practices

Credits: 3. Offered spring odd numbered years. This on-line course presents the foundation principles and practices of early childhood education (ages birth through eight). The main topics to be covered will include: the sociological, professional, and theoretical perspectives of early childhood education with a focus on developmentally appropriate practice (DAP); the skills and dispositions needed in planning and implementing

early care and education programs for all children; and education models in early childhood. Students will assume a leadership role in this co-convened course (EDEC 408) to include class presentations of research papers. Level: Graduate Course Attributes: Co-Convened Course

EDEC 510 - Families, Communities, Culture

Credits: 3. Offered Spring even numbered years. This on-line course explores the dynamics of working together with families of young children (birth - 8) in early childhood programs using a family-centered approach that places the child in the context of family and community. Through readings, online discussion groups, an independent service-learning project, field-work, and creation of a term paper of publishable quality, students will explore developmental relationship building, communication, needs-based assessment and cultural diversity. Co-convened with EDEC 410. Level: Graduate Course Attributes: Co-Convened Course

EDEC 515 - Early Childhood Professional Working with Families Experiencing Adversity

Credits: 3. Offered spring even numbered years. In this course, students will become familiar with the major theories and research regarding family crisis, resiliency, protective factors, and coping skills with an emphasis on the risk factors of poverty, addiction, violence, and disabilities. These will be examined through an early childhood lens and will include the impact of family adversity on early development and learning, the role of early childhood programs in supporting families facing adversity, and an in-depth examination of how the NAEYC Code of Ethics provides guidance in meeting the needs of children and families facing adversity. Students will select and implement an evidence-based family strengthening intervention and evaluate the effectiveness. Level: Graduate

EDEC 520 - Meeting Standards Through Play-Based Environments

Credits: 3. This course features an in-depth examination of how early learning standards in all content areas (math, science, literacy, technology, physical education, and the arts) can be met through the design and facilitated use of play-based environments. Also examined will be the role of the teacher as environmental designer and facilitator of learning. This course is co-convened with EDEC 420. In addition to advanced outcomes and assessment, students enrolled in EDEC 520 will develop and present information at an early childhood conference. Level: Graduate Course Attributes: Co-Convened Course

EDEC 530 - Social and Emotional Development in Young Children

Credits: 3. Offered fall even numbered years. This on-line course examines the development, components, and influences of social competence in the early childhood years (birth – 8). Positive guidance techniques that enhance children's self-esteem and pro-social skills will be taught. Students will examine and critique developmental theories, current literature, researched-based teaching strategies and assessment tools. Activities will focus on providing students opportunity to discuss, debate, analyze, and practice key foundations and skills. Students must plan for a minimum of 45 hours in an early childhood setting as well as planning and presenting a training session for parents/families. Co-convened with EDEC 430. Level: Graduate Course Attributes: Co-Convened Course

EDEC 540 - Neuroscience and Its Impact on Child Development

Credits: 3. Offered spring odd years. This course is an overview of research and methods in developmental cognitive neuroscience, including examination of typical and atypical brain development in the early childhood years. The role of experience, the range of plasticity, and influences such as early intervention will be some of the topics explored specific to early childhood teachers and professionals. Also examined will be neuroscientific

claims and whether research supports, contradicts, or does not provide enough evidence to determine the accuracy of the claim. Level: Graduate

EDEC 550 - EC Curriculum Analysis, Design, and Assessment

Credits: 3. Offered fall even years. Prereq., C&I 514, C&I 518. This course will examine the underlying principles of curriculum design, implementation, and assessment. Students will complete an in-depth critique of a published early childhood curriculum, determining if the curriculum is evidence based, developmentally and culturally appropriate, comprehensive, aligned with appropriate early learning standards, and if the curriculum can easily be modified to meet the needs of all learners including those who may have special needs. Additionally, students will use a backward design model to create, implement, and assess a curriculum for young children including those who are culturally, linguistically, and ability diverse. Level: Graduate

EDEC 560 - Public Policy, Advocacy, and Leadership in ECE

Credits: 3. Offered fall semester odd numbered years. Participants in this course will critically examine key policy issues facing early childhood and determine ways to engage in and lead others in informed, effective advocacy. The theories, research, and approaches to early care and education advocacy, leadership, and change will be studied and applied through the implementation of an advocacy project. Level: Graduate

EDEC 595 - Early Childhood Fieldwork/Practicum

Credits: 3. Offered every semester. This course provides students the opportunity to participate in planning, facilitating, and evaluating learning activities in an early childhood setting. Through the fieldwork and on-line seminar, course activities will focus on promoting student inquiry and analysis in the areas of child observation and assessment, curriculum planning, child guidance, and integration of curriculum using a broad repertoire of teaching strategies. Students are required to be based in an approved, accredited early childhood program for a minimum of 8 hours/week where they will video and present a teaching presentation in class. Co-convened with EDEC 495. Level: Graduate Course Attributes: Co-Convened Course

Educational Leadership

EDLD 295 - Special Topics in Ed Amin

Credits: 1 TO 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

EDLD 495 - Special Topics

Credits: 1 TO 9. (R-9) Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

EDLD 502 - Philosophy of Education

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Same as C&I 502. Major philosophical schools of thought and leading proponents of each. Concepts of society, the educative process, and the role of education. Level: Graduate

EDLD 512 - Educational Futures

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Predicting and projecting the near and more distant future of education. The changing place and nature of education and leadership in tomorrow's society. Level: Graduate

EDLD 519 - Analysis of Ed Data

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Explanation and practice in measurement and statistical analysis of educational data. Preparation in measurement and statistical analysis for educational research. Level: Graduate

EDLD 520 - Educational Research

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Same as C&I and HHP 520. An understanding of basic quantitative and qualitative research methodology and terminology, particularly as they are used in studies presented in the professional literature. Level: Graduate

EDLD 540 - Higher Education Finance

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Overview of how colleges and universities make financial and budgetary decisions; current trends in state and federal policy related to finance; contemporary problems in finance of education. Level: Graduate

EDLD 542 - The College Student

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Survey of today's college student including discussion of demographics, student development theories, learning theories, and contemporary issues on college campuses related to college students. Level: Graduate

EDLD 544 - The College Curriculum

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Historical and contemporary development of college and university curriculum. Includes overview of pedagogical strategies, assessment, evaluation, and curricular change. Level: Graduate

EDLD 546 - Fed & State Higher Ed Pol

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Overview of policies at the local, state, and national levels that affect the conduct of higher education; current trends in higher education policy; changes in educational policy; how policies affect different institutional types. Level: Graduate

EDLD 550 - Found Educational Leadersh

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Basic functions of K-12 administration and supervision and how contemporary views have evolved; models of leadership style and practice compared; responsibilities and relationships of school boards and chief school officers. Level: Graduate

EDLD 551 - Found Curric Leadership

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. The history and theoretical bases of current K-12 curriculum and instructional leadership. Level: Graduate

EDLD 552 - Sup Eval Pub Sch Educators

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Conflicting views and models of supervision; supervision in relation to administration and evaluation. Development of instruments for the formative and summative evaluation of teaching and their use in simulated cases. Level: Graduate

EDLD 554 - School Law

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Key Montana and national legislation regarding public education. Landmark cases of the U.S. Supreme Court and other federal, regional, and state courts as they affect the operation of public schools and the rights of school board members, administrators, teachers, students, and parents. Level: Graduate

EDLD 556 - Finance of Publ Education

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Revenue sources for K-12 public schools; proper expenditures; Montana's foundation program and related legislation; major court cases and how they have affected ways of funding schools; developing effective school and district budgets. Level: Graduate

EDLD 559 - School Pub Rel-Prins

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Investigation of the appropriate leadership and management roles of the modern school principal as they relate to public relations. Understanding of political theory as it relates to developing and maintaining relationships with internal and external publics. Level: Graduate

EDLD 567 - K-12 Leadership

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Examination of the roles responsibilities, and relationships of educators relative to management and leadership considerations at all levels of the educational organization (elementary, middle, secondary, and central office). Level: Graduate

EDLD 568 - K-12 Curriculum

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Major aspects of curriculum related to the duties and responsibilities of school administrators. Issues related to the development, review and evaluation o curriculum. Exploration of issues related to selected instructional models and practices; school improvement. Level: Graduate

EDLD 581 - PIng & Mgmt For Tech In Edu

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Same as C&I 581. Creating, implementing, maintaining, and evaluating technology plans for educational institutions, including budgets, facilities, and hardware planning. Level: Graduate

EDLD 583 - Strategic PIng For Tech

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Same as C&I 583. Leadership and strategic planning processes for technology integration within schools. Level: Graduate

EDLD 585 - Fieldwork Ed Admin & Super

Credits: 2 TO 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Fieldwork at the school level (when the student is not completing an internship), with the cooperation of the principal and under the guidance of a University of Montana professor. Level: Graduate
EDLD 594 - Seminar

Credits: 1 TO 9. (R-9) Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Group analysis of problems in specific areas of education. Level: Graduate
EDLD 595 - Special Topics

Credits: 1 TO 9. (R-9) Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

EDLD 596 - Independent Study

Credits: 1 TO 6. (R-9) Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Consent of instructor. Course material appropriate to the needs and objectives of the individual student. Level: Graduate

EDLD 597 - Research

Credits: 1 TO 9. (R-10) Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Consent of instructor. Directed individual research and study appropriate to the background and objectives of the student. Level: Graduate

EDLD 598 - Internship

Credits: 1 TO 12. (R-10) Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Consent of instructor. Extended classroom experience which provides practical application of classroom learning during placements off campus. Level: Graduate

EDLD 599 - Professional Paper

Credits: 1 TO 9. (R-9) Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Consent of instructor. Preparation of a professional paper appropriate to the needs and objectives of the individual student. Level: Graduate

EDLD 618 - Educational Statistics

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Same as C&I 618. Advanced statistical methods and use of the mainframe computer and microcomputer for data analysis. Use of a recognized statistical package for research applications. Level: Graduate

EDLD 620 - Qualitative Research

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Same as C&I 620. In-depth review of qualitative research methods, designs, and approaches. The development of a research proposal. Level: Graduate

EDLD 625 - Quantitative Research

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Same as C&I 625. Principles and technique of quantitative research in educational settings. Students prepare a draft of a research proposal and experience an abbreviated dissertation proposal defense. Level: Graduate

EDLD 653 - School Personnel Admin

Credits: 3. Prereq., consent of instructor required. Administration of classified and certificated school employees; personnel-related laws, functions, and decisions; unions, bargaining contracts, grievances, etc.

Level: Graduate

EDLD 656 - The Economics of Education

Credits: 3. Prereq., consent of instructor required. School finance from a national perspective; alternative budgeting and school-revenue models; equity considerations. Level: Graduate

EDLD 657 - Facil Plng/Schl Bus Func

Credits: 3. Prereq., consent of instructor required. Working with architects, school personnel, and others on educationally and financially sound plans for new and remodeled facilities; the school business official's responsibilities regarding buildings and grounds, maintenance and custodial services, transportation, food services, and the administration of classified personnel. Level: Graduate

EDLD 658 - School Pub Rel-Supts

Credits: 3. Prereq., consent of instructor required. Enhancing site- and district-level internal and external relations; conducting needs assessments, inservice workshops, and funding campaigns; improving administrators' writing, listening, and speaking skills; composing press releases and newsletters; working with the media. Level: Graduate

EDLD 660 - Adult Continuing Education

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Adult learning theory and the special needs and motivations of adult learners in postsecondary institutions; principles and practices of administering postsecondary continuing education programs. Level: Graduate

EDLD 662 - History of Higher Educ

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Survey of the historical roots of higher education from world and comparative perspectives; examination of the historic and contemporary missions, organizational structures, governance, and administration of various types of postsecondary and higher education institutions in America and abroad. Level: Graduate

EDLD 664 - The Community College

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. The organization and administration of American postsecondary education in two-year collegiate institutions; current trends in governance, finance, curriculum, faculty and students. Level: Graduate

EDLD 667 - American College Professor

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Investigation of the prevailing curriculum and instruction in American undergraduate and graduate education and consideration of reform reports. Level: Graduate

EDLD 668 - College & University Admin

Credits: 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Administration of college and university programs, departments, and schools; the roles of program

director or coordinator, department chairperson, dean, vice president, provost, president, chancellor, and commissioner. Level: Graduate

EDLD 670 - Best Practices in IPL

Credits: 3. Students explore the field of International Programs at the college or university level and seek current best practices. This course is designed to give students an understanding of the leadership and management activities required of leaders in the field of international programs. Level: Graduate

EDLD 672 - Intl Prog Dev

Credits: 3. This course prepares professionals with the knowledge and practical skills needed to develop programs, seek external funding, and write proposals to support student and professional exchanges, study abroad, ESL and intensive language programs, internships, student services, partnership agreements, and other education and training activities in the international field. Level: Graduate

EDLD 673 - Lead./Cultures

Credits: 3. The course introduces a methodology to support the emerging field of international and comparative educational leadership and management and is instrumental for students of educational leadership and management. Level: Graduate

EDLD 674 - Internship in College Tchg

Credits: 1 TO 3. Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Provides an opportunity for guided and supervised teaching at the college level and assistance to the aspiring college teacher in meeting the needs of a diverse student population; assistance provided in methods of teaching at the college level, theories of learning, use of technology, and evaluation and assessment techniques. Level: Graduate

EDLD 676 - Internship Higher Ed Admin

Credits: 1 TO 3. (R-6) Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Supervised and guided work in an administrative unit/department at the college/university level. Level: Graduate

EDLD 677 - Globalization in Education

Credits: 3. Course explores globalization of education from the perspective of International Programs at the post-secondary level. This course is designed to prepare students for leadership positions in the field of International Programs and other related fields. Level: Graduate

EDLD 678 - Cultural Proficiency

Credits: 3. Course explores the area of cultural proficiency through a variety of lenses. Students use interviews and self-reflection to develop a framework for understanding cultural issues and ethical approaches cultural issues. Level: Graduate

EDLD 679 - Linguistic Diversity

Credits: 3. Course explores policy issues related to linguistic diversity. This course is designed to help students develop a framework of global issues as they relate to, and are impacted by, linguistic diversity. Level: Graduate

EDLD 680 - Pol./Int.l Ed.

Credits: 3. Course explores political issues related to International Programs. This course is designed to prepare students for the dynamic nature of political arena surrounding the development and implementation of postsecondary International Programs. Level: Graduate

EDLD 681 - Comp. Int.I Ed.

Credits: 3. Course explores the field of international programs at the college or university level through a study of comparative education. This course is designed to familiarize students with the similarities and differences between educational systems across the globe. Level: Graduate

EDLD 682 - Cross-Cultural Competence

Credits: 3. Blending both the practical and theoretical, this course offers you the requisite knowledge, the appropriate motivations, and the relevant skills to function competently with culturally-different others. Level: Graduate

EDLD 683 - Int.I Persp.

Credits: 3. This course primarily focuses on international students sharing their perspectives (including international academics and experienced practitioners). Topics include adaptation challenges, and the role that international students and faculty play in broader internationalization and diversity agendas within US higher education. Level: Graduate

EDLD 694 - Adv Sem: Ed Admin/Superv

Credits: 1 TO 9. (R-9) Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. A review and discussion of current research. Topics vary. Level: Graduate

EDLD 697 - Adv Research Ed Ad Super

Credits: 1 TO 9. (R-9) Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

EDLD 699 - Prof Sem/Dissertation

Credits: 1 TO 12. (R-12) Open to graduate level students in Education Leadership, Counseling or Curriculum and Instruction majors. A review and discussion of current research. Topics vary. Level: Graduate

Education K-12: Special Education

EDSP 401 - Intro Early Intervention

Credits: 3. Offered autumn odd-numbered years. Restricted to Curriculum & Instruction and Certification majors. This course covers issues relevant to serving very young children and their families. Topics include: ecological systems theory, typical and atypical development, family and child advocacy, naturalist environments, policies and procedures, models of intervention, transdisciplinary service delivery, Individual family service plans, and transition to preschool services. This course requires a 45-hour practicum.

EDSP 403 - Curric/Mthds Early Spec Educ

Credits: 3. Offered autumn even-numbered years. Principles in selecting and adapting early childhood curriculum materials for young children with disabilities; development, implementation and evaluation of individualized

education programs; and appropriate teaching strategies for the early childhood special education classroom. Includes a practicum.

EDSP 405 - Assess of Students with Excep

Credits: 3. Focus on a variety of assessment procedures for students who qualify for Special Education services. A variety of assessments and assessment techniques will be taught, with a strong emphasis on the use of ecologically valid assessment tools. Specific measurement skills will be taught including observation skills. Field experience is required.

EDSP 426 - Intro Transition & Community

Credits: 3. Introduction to issues and strategies for preparing adolescents and young adults with disabilities for the transition from school to future careers, post-secondary education, and other post-school environments. These issues are discussed within the context of more global efforts to create school-to-career programs in school settings for all students. A field experience is required.

EDSP 454 - Adv Academic Interventions

Credits: 3. Evidence-based assessment and instruction techniques in all basic academic areas. Particular focus on general outcome and curriculum-based measures and the alignment of these and other assessments to interventions. A field experience is required.

EDSP 456 - Intro Mthds Low Incidence Dis

Credits: 3. Offered spring and odd summers. Introduction to research-based methods of instruction for students with low incidence disabilities in basic communication, mobility, sensory, and social skills, as well as academic skills (especially literacy and general education curricular access). An introduction to augmentative and alternative communication (AAC) and assistive technology (AT) is also addressed. A field experience is required.

EDSP 461 - Positive Behavior Supports

Credits: 3. Offered spring and odd-numbered summers. In-depth study of the principles and procedures for managing problem behaviors with an emphasis on prevention and classroom management. A field experience is required.

EDSP 462 - Spec Ed Law, Policy, Practice

Credits: 3. Offered autumn and even-numbered summers. Historic and current perspectives on laws, policies and practices of the special education and related fields. Coverage of all aspects of the special education process including collaborative practices.

EDSP 495 - Student Teaching: Special Educ

Credits: 1 TO 10. Offered autumn and spring. Prereq., completion of all courses in the special education minor with a grade of B or higher and consent of advisor and Director of Field Experiences. Supervised field experience in special education.

Education-K-12

EDU 162 - NCAA Student-Athlete Exp.

Credits: 1. This course is designed to assist students in the development of necessary skills to be a successful college student-athlete. Topics will include a wide variety of areas including study skills, an introduction to

campus resources, and personal and career development. Students will identify and discuss specific issues that pertain to them as student-athletes.

EDU 163 - Student-Athlete Success

Credits: 1. This seminar is designed to assist student-athletes in developing necessary life skills that will help them in their remaining years at the University of Montana. Topics will include a wide variety of areas such as: financial management, nutrition, career development and planning, healthy relationship skills, social responsibility, social etiquette, conflict resolution, and leadership.

EDU 202 - Early Field Experience

Credits: 1. Offered autumn and spring. Prereq., admission to Teacher Education Program. Guided introductory field experience for students committed to teaching as a profession. Connects field experience to content of co-requisite theory classes. Seminars include professional development portfolio, developmental level of students, diversity, learning/teaching strategies, motivation, classroom management, and assessment of learning.

EDU 210 - New Student Athlete Seminar

Credits: 2. Offered autumn. This course is designed to assist students in the development of necessary skills to be a successful college student-athlete. Topics will include a wide variety of areas including study skills, an introduction to campus resources, and personal and career development. Students will identify and discuss specific issues that pertain to them as student-athletes.

EDU 221 - Ed Psych & Measurement

Credits: 3. Offered autumn and spring. Prereq., admission to Teacher Education program; recommended prereq. or coreq., EDU 202. Analysis of fundamental psychological concepts underlying classroom teaching and management, learning and evaluation including educational measurement. Emphasis on cognition, developmental, and motivational aspects of learning.

EDU 222 - Educational Psych Child Dev

Credits: 3. Offered autumn and spring. Prereq., Admission to the Teacher Education Program. This course must be taken concurrently with Level 1 courses. This course will examine the classroom practices that impact elementary aged children's learning, motivation and development. The content is closely aligned with co-requisite courses and initial field experience, allowing opportunities for observation and practice of principles covered in class.

EDU 331 - Lit & Literacy for Children

Credits: 3. Offered autumn and spring. Prereq., WRIT 101; open to majors in elementary education, secondary education or pre-education. Genre survey, including cross-cultural literature, that focuses on responding to children's literature through reading, writing, listening, speaking, and activities that emphasize selecting literature, teaching critical thinking, and integrating literature into the elementary curriculum.

EDU 338 - Academic Interventions

Credits: 3. Offered autumn and spring. Prereq., Admission to the Teacher Education Program. This course must be taken concurrently with Level 1 courses. This course prepares pre-service teachers to work with all students including those who are struggling learners and high achievers. The course is focused on school-wide assessment and instruction methods with particular focus on working with individual children and small groups in core academic areas.

EDU 339 - Tchg Assess PK-8 Lang Arts

Credits: 3. Offered autumn and spring. Prereq., admission to the Teacher Education Program. This class must be taken concurrently with Level 2 courses and is restricted to students who have been admitted to the Elementary Education program. Language development and primary and secondary language acquisition, theory and application of teaching and assessing listening, speaking, writing, and viewing in a PK-8 setting. Course Attributes: Writing Course-Advanced

EDU 340 - Classroom Management

Credits: 3. Offered autumn and spring. Prereq., Admission to the Teacher Education Program. This course must be taken concurrently with Level 3 courses and is restricted to students who have completed coursework in Level 1 and 2. This course is designed to prepare pre-service teachers to set up a classroom, establish classroom policies and procedures and routines, establish and maintain cooperative relationships with parents, effectively provide feedback to students, motivate desired student behavior, and research professional literature to seek best classroom management practices to hone the craft of effective instruction.

EDU 345 - Excptnlty & Clsrm Mgmt

Credits: 3. Offered autumn and spring. Prereq., Admission to the Teacher Education Program. Recommended pre- or co-requisite of EDU 202. Focus on classroom management and the characteristics and instructional adaptations for exceptional students in the regular classroom. Addresses the Individuals with Disabilities Education Act and subsequent reauthorizations, presents practices for working with students who are at-risk and students with disabilities in inclusive settings, and includes technological considerations.

EDU 346 - Exceptionalities

Credits: 3. Offered autumn and spring. Prereq., Admission to the Teacher Education Program. This course must be taken concurrently with Level 2 courses and is restricted to students who have completed coursework in Level 1. This course will focus on characteristics and strategies for optimizing learning for children with exceptionalities in the regular education classroom. Addresses the Individuals with Disabilities Education Act and subsequent reauthorizations, presents practices for working with students who are at-risk and students with disabilities in inclusive settings, and includes technological considerations.

EDU 370 - IntegTech into Educ

Credits: 3. Offered autumn and spring. Prereq., Admission to the Teacher Education Program and general computer literacy skills. Recommended pre- or co-req., EDU 202. Integration and use of computer and other technologies in education.

EDU 392 - Independent Study

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

EDU 395 - Clinical Experience

Credits: 1. (R-4) Offered autumn and spring. Prereq., admission to the Teacher Education Program. Arranged field experience and seminar focusing on applying content from the co-requisite courses. This course number is used for multiple clinical experiences. Check the class schedule or with your advisor regarding the appropriate section. Elementary Education Majors: EDU 395 Clinical Experience Level 1 must be taken concurrently with Level 1 courses. EDU 395 Clinical Experience Level 2 must be taken concurrently with Level 2 courses.

Secondary and K-12 Licensure Students: EDU 395 Clinical Experience K-8 and EDU 395 Clinical Experience 9-12 have a prerequisite of an initial field experience and should be taken concurrently with a secondary or K-12 methods course. Course Attributes: Internships/Practicums

EDU 397 - Methods: Teaching & Assessing

Credits: 3. (R-15) Offered autumn and spring. Prereq., admission to the Teacher Education Program. This course number is used for multiple methods courses. Check the class schedule or with your advisor regarding appropriate sections. PK-4 Early Numeracy: Offered autumn and spring. This class must be taken concurrently with Level 1 courses and is restricted to students who have been admitted to the Elementary Education program. Students will learn mathematics concepts, methods of instruction, and the use of instructional materials appropriate for grades K-4 including the use of state and national standards for mathematics, appropriate technology, and manipulatives. Additionally, students will learn techniques for assessing the effectiveness of the counting and cardinality, operations and algebraic thinking, numbers and operations, measurement and data, and geometry. PK-3 Early Literacy: Offered autumn and spring. This class must be taken concurrently with Level 1 courses and is restricted to students who have been admitted to the Elementary Education program. The purpose of this course is to develop an understanding of emergent literacy and beginning reading and to examine developmentally appropriate methods of teaching and assessing reading to children in grades K-3. Course Attributes: Writing Course-Advanced

EDU 407E - Ethics & Policy Issues

Credits: 3. Offered every term. Prereq., admission to Teacher Education Program and EDU 202 or EDU 395. Practical application of ethical principles of the teaching profession. Analysis of the American public school and major policy issues from historical, legal, political, social as well as ethical perspectives. Course Attributes: Ethical & Human Values Course

EDU 411 - Impl IEFA K-12 Classroom

Credits: 3. Offered intermittently. This course is designed to equip educators with the essential skills, knowledge, and cultural awareness to implement Indian Education for All (IEFA) in the k-12 classroom and to assume a leadership role in IEFA programming.

EDU 421 - Statistical Procedures in Educ

Credits: 3. Prereq., M 115 or equiv. or consent of instr. Same as HHP 486. Concepts and procedures characterizing both descriptive and inferential statistics. Awareness of common statistical errors.

EDU 432 - Lit & Literacy for Yng Adlts

Credits: 3. Offered spring. Genre surveys; extensive reading, and analyzing of literature, authors and media addressed to students ages 12-18. Emphasizes effective teaching strategies for using high quality literature with middle school and secondary students. Not a substitute for EDU 331.

EDU 438 - Ltrcy Asmnt, Diagnosis & Instr

Credits: 3. Offered spring. Prereq., EDU 397 or 481 for education students. Based on the analytic process, emphasis on assessing, identifying, and devising instructional strategies to meet students' reading/writing strengths and needs.

EDU 441 - Leadership and Advocacy

Credits: 3. Offered autumn. Prereq., EDU 397 or EDU 481. Emphasis on teaching writing across the curriculum and supervising the school-wide writing program. Planning, implementing, and assessing writing, and connecting reading and writing will be addressed.

EDU 451 - Clinical Exp:L3 Pedagogy Cntnt

Credits: 1. (R-2) Offered autumn and spring. Prereq., Admission to the Teacher Education Program. This class must be taken concurrently with Level 3 courses and is restricted to students who have completed coursework in Levels 1 & 2. Arranged field experience in an elementary or middle school classroom completed with Elementary Professional Methods Block.

EDU 456 - Applctn of Literacy Modls K12

Credits: 6. Offered summer. Prereq., EDU 438 or C&I 533. Provides classroom teaching experience under direct supervision. Candidates teach reading and writing and apply knowledge of assessing and correcting reading and writing difficulties in grades K-12.

EDU 472 - Dev Digital Rich Workplace

Credits: 3. Offered spring. Prereq., CSCI 172. Project-based course to gain understanding and the ability to use web development tools to create a functional, well-designed web project. Additional topics/projects include: Web 2.0+ tapping the potential of digital tool; social media—educational and business uses; gamification in education and business, and introductory electronic game development for the classroom and the boardroom.

EDU 481 - Content Area Literacy

Credits: 3. Offered autumn and spring. Prereq., Admission to the Teacher Education Program. Theories, models, instructional approaches for using literacy for learning in content fields. Emphasis on research, instructional practice, classroom assessment, multicultural and discipline integration.

EDU 491 - Special Topics/Exp Courses

Credits: 1 TO 6. (R-6) Offered intermittently. Special courses experimental in nature dealing with a relatively narrow, specialized topic of particular current interest. Credit not allowed toward a graduate degree.

EDU 492 - Independent Study

Credits: 1 TO 6. (R-6) Offered every semester. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

EDU 494 - Seminar:Refl Pract & App Rsrch

Credits: 1 TO 9. (R-9). Required seminar during student teaching. Focuses on learning to conduct research on P-12 student performance to determine teaching effectiveness. Includes on-campus and/or on-line planning, conducting, and analyzing classroom practice.

EDU 495 - Student Teaching

Credits: 1 TO 14. (R-14) Offered autumn and spring. Arranged capstone clinical experience required for all professional licensure students. Prereq., admission to the Teacher Education Program, completion of all required field experiences and methods courses, an application to student teach, and the consent of the Director of Field Experiences. In addition, elementary education majors must complete all coursework in all previous levels. Secondary and K-12 licensure students must complete at least two-thirds of content coursework and receive approval by departments in their major and minor content areas. Course Attributes: Internships/Practicums

EDU 497 - Teaching and Assessing

Credits: 0 TO 4. (R-15) Offered autumn and/or spring. Prerequisite: Admission to the Teacher Education Program. This course number is used for multiple elementary and secondary methods courses. Check the class schedule or with your advisor regarding appropriate sections. 5-8 Mathematics: 3 cr. Offered autumn and spring. This class must be taken concurrently with Level 3 courses and is restricted to students who have completed coursework in Levels 1 & 2. Methods of teaching, assessing, and evaluating mathematics in the 5-8 middle grades including number and operations, rational numbers, ratio and proportion, measurement, algebra, expressions and equations, geometry, probability, statistics, and functions. K-8 Social Studies: 3 cr. Offered autumn and spring. This class must be taken concurrently with Level 3 courses and is restricted to students who have completed coursework in Levels 1 & 2. Emphasis on developing teaching and assessing social studies teaching/learning opportunities that incorporate literature, primary sources and other developmentally appropriate activities. Overarching themes address diversity, integration across the curriculum and understanding state and national curriculum standards. K-8 Science: 3 cr. Offered autumn and spring. This class must be taken concurrently with Level 3 courses and is restricted to students who have completed coursework in Levels 1 & 2. Emphasis on developing, teaching, and assessing science teaching/learning opportunities that are inquiry-based, developmentally appropriate, integrated across the curriculum, and aligned with state and national curriculum standards. 4-8 Reading: 3 cr. Offered autumn and spring. This class must be taken concurrently with Level 3 courses and is restricted to students who have completed coursework in Levels 1 & 2. Preparation for teaching reading in a 4-8 setting so that all students are successful. Emphasis on reading to learn. Focus on using assessment to guide instruction, learning from trade books, textbooks, and electronic texts, activating prior knowledge, studying texts, and developing student enthusiasm for reading. 5-12 Science: 3 cr. Offered autumn. Methods of teaching science in the middle and secondary school. This course emphasizes the use of inquiry, problem-solving, appropriate use of technology, and assessment techniques that align with state and national curriculum standards. 5-12 Social Studies: 3 cr. Offered autumn. Foundations and purpose of the middle and secondary social studies curriculum. Elements of curricular design, including instructional methods, materials and assessment. 5-12 Mathematics: 4 cr. Offered autumn. Methods for teaching mathematics in grades 5-12 focusing on presentation of mathematics concepts and procedures through models, problem solving, and technology. Development of instructional strategies and classroom organizational models, discourse in the classroom, and multiple means for assessing student progress. 5-12 Business Subjects: 4 cr. Offered autumn. Methods for teaching business subjects in grades 5-12 focusing on content-specific topics in business, marketing, and information technology to include: instructional planning; effective teaching strategies (F2F & online); multiple means for assessing student progress; classroom management; and the relationship of the content area to standards-based curricula.

Global Youth Development

GYD 495 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

GYD 501 - Intercultural Dev't -I

Credits: 3. Offered autumn. Explorations of child rearing practices, parenting beliefs, and cultural variations in infancy and early child development. Level: Graduate

GYD 502 - Intercultural Dev't -II

Credits: 3. Offered spring. Explorations of cultural variations in later childhood, adolescence and adulthood, with particular focus on issues such as multicultural adoption, identity, and the role of poverty. Level: Graduate

GYD 510 - Intercultural Skills

Credits: 3. Offered autumn. Focus on applied skills in two areas: crosscultural negotiation and conflict management; program development and grant writing. Level: Graduate

GYD 520 - Critical Issues

Credits: 3. Exploration of psychological, political, spiritual, ethical, and practical dimensions of offering assistance cross-culturally. This course includes discussion of ethical and personal issues related to intercultural work, gender and development, trauma, program evaluation, etc. Level: Graduate

GYD 595 - Special Topics

Credits: 2 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

GYD 596 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Directed readings and other individualized study topics guided by faculty. Level: Graduate

GYD 598 - Internship

Credits: 1 TO 6. (R-6) Offered every term. Introduction to service learning in applied settings, usually local. Level: Graduate

GYD 599 - Professional Projects

Credits: 1 TO 2. (R-2) Offered every term. Final Master's project related to internship; may be presented as a grant proposal, policy analysis, or portfolio. Level: Graduate

GYD 695 - Special Topics

Credits: 1 TO 4. (R-4) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

GYD 698 - Intercultural Internship

Credits: 1 TO 4. (R-4) Offered every term. Supervised intercultural experience through Peace Corps, VISTA, or other organization approved by program faculty. Level: Graduate

GYD 699 - Thesis

Credits: 1 TO 2. (R-2) Offered every term. Final master's thesis based on research related to internship placement. Level: Graduate

Education K-12: Library Media

Health Enhancement

HEE 203 - Professional Activities I

Credits: 2. Offered Autumn. The instruction of basic skills for tennis, basketball, and bouldering. Techniques, drills, and strategies will be taught. Demonstration and instruction skills developed. Active participation required.

HEE 204 - Professional Activities II

Credits: 2. Offered Spring. The instruction of basic skills for soccer, volleyball, and softball. Techniques, drills, and strategies will be taught. Demonstration and instruction skills developed. Active participation required.

HEE 233 - Health Issues Child/Adolescents

Credits: 3. Offered every term. Overview of current health issues affecting children and adolescents. Focus is on educational and preventive measures that can be implemented by teachers and schools through comprehensive school health education programs.

HEE 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of advisor and instr. Course material appropriate to the needs and objectives of the individual student.

HEE 301 - Meth of Secondary HE

Credits: 3. Offered spring. Application of educational theory in planning, analyzing, and presenting learning experiences to typical and atypical populations in secondary school physical education for students in grades 7-12. Active participation required. Course Attributes: Writing Course-Advanced

HEE 302 - Methods of Instructional Strategies in Elementary PE

Credits: 3. Offered every term. Prereq. admission into Teacher Education Program in the College of Education and HEE 233. Application of educational theory in planning, analyzing, and presenting learning experiences to typical and atypical populations in elementary school physical education for children in grades K-6. Active participation required.

HEE 340 - Methods of Health Education

Credits: 3. Offered autumn even-numbered years. Prereq., admission to the teacher education program. Focus on developing and implementing strategies to teach K-12 health education.

HEE 490 - Undergraduate Research

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student.

HEE 492 - Independent Study

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

HEE 498 - Internship

Credits: 2 TO 6. (R-6) Offered every term. Prereq. all HHP options minimum junior standing and ECP 120/121 (or equivalent). Prereqs per option. Exercise Science Applied: KIN 320/321. If internship is coaching or strength & conditioning must also have completed KIN 410 and COA 405. Exercise Science Pre-Professional: KIN 320/321. If internship is cardiac rehab must also have completed KIN 460/483/484. Community Health: CHTH 335.

Supervised field experiences with private businesses, public agencies, or institutions. 45 hours of internship site work = 1 credit. A maximum of 6 credits of Internship 498 may count toward graduation. Students should not be registered for more than 14 credits their internship semester. Course Attributes: Internship graduation limit 6

Health and Human Performance

HHP 170 - Peak Court Sports

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

HHP 172 - CFM Crossfit

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

HHP 173 - YMCA Classes

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

HHP 174 - FVB Bowling

Credits: 1. Offered every term. Students may include up to but not more than 4 credits earned in HHP 100-179 activity courses in the total number of credits required for graduation. Students graded Credit/No Credit based on participation and a strict attendance policy. For a complete list of all classes offered go to the HHP Activity Program website. Course Attributes: PE Activity Skills Course

HHP 238 - Lifeguarding - New Method

Credits: 2. Offered autumn and spring. Prereq., HHP 149 or equiv. skills. Skill development needed for the safe participation in various aquatic activities including the ability of self-recovered rescue of others. Provides the necessary knowledge and skills to serve as a pool lifeguard.

HHP 440 - Instructor's FA/CPR

Credits: 1. Offered summer. Prereq., HHP 288, 289 or equiv. Provides knowledge and certification to teach the skills of CPR for victims of all ages, use of automated external defibrillator (AED), relief of foreign body airway obstruction (FBAO) and first aid procedures. Upon successful completion of this course students will receive certifications to teach American Heart Association and American Academy of Orthopedic Surgeons and CPR courses at all levels.

HHP 520 - Educational Research

Credits: 3. Offered every term. Same as C&I and EDLD 520. An understanding of basic quantitative and qualitative research methodology and terminology, particularly as they are used in studies presented in the professional literature. Level: Graduate

HHP 522 - Cog/Beh Interventions Performance Psychology

Credits: 3. Offered intermittently. Prereq., HHP 470 or equiv. Focus is on cognitive-behavioral interventions specific to enhancing human performance in a variety of individual and group settings. Strategies introduced

based on research from health psychology, sport psychology, exercise psychology, clinical and counseling psychology Level: Graduate

HHP 523 - Case Studies in Performance Psychology

Credits: 3. Offered intermittently. Prereq., consent of instr. Through the usage of both real and hypothetical case studies, the course will examine the field of sport/performance psychology and its role in the broader field of sports medicine. Level: Graduate

HHP 524 - Ethics & Human Performance

Credits: 3. Offered spring, even numbered years. A critical examination of the ethical issues dominating the field of health and human performance and beyond with special emphasis on developing the conceptual frameworks needed to articulate our concerns and engage in meaningful dialogue with others. Level: Graduate

HHP 525 - Advanced Biomechanics

Credits: 3. This course is focused on developing laboratory skills and an advanced understanding of the quantitative and qualitative basis for human motion. Particular emphasis will be placed on the Newtonian mechanics governing biological motion and the roles of the musculo-skeletal, nervous and cardio-vascular systems during human activity. This integrative approach will be used to quantify and understand motion by, and within, the human body; examples will be drawn from the sub-disciplines of clinical gait analysis, gerontology, sports medicine, biological engineering and performance physiology. The lecture portion of this course is co-convened with KIN425 Biomechanics. Level: Graduate

HHP 528 - Advanced Exercise Prescription

Credits: 3. Offered spring even years. Prereqs., Graduate status or consent of the instructor. This class presents the principles and practices of advanced athletic performance training in a thorough and useful sequence. Testing and improving power, strength, speed, quickness, coordination, agility, flexibility, local muscular endurance, and cardiovascular aerobic capacity and endurance are covered based on the scientific record. Students will learn how to tailor sport specific training exercises and drills and periodize the training program precisely for peak performance at critical points in the competitive season. Level: Graduate

HHP 529 - Advanced Exercise Physiology I

Credits: 3. Offered autumn. Prereq., HHP 377, 378 or equiv. Advanced study of the effect of work, activity and exercise on human biochemistry, metabolism, endocrinology and muscle function. Level: Graduate

HHP 530 - Advanced Exercise Physiology II

Credits: 3. Offered spring odd years. Prereq., HHP 529 or equiv. Advanced study of system physiology (circulatory, respiratory and renal function) and environmental factors applied to physical work, activity and exercise Level: Graduate

HHP 531 - Lab Procedures In Exercise Science

Credits: 3. Offered autumn. Introduction to common laboratory tools associated with clinical and health assessment techniques, research measures, and data collection. Level: Graduate

HHP 540 - Community Health Promotion Strategies

Credits: 3. Offered autumn even-numbered years. Exploration of the role of the health professional in the development and implementation of educational, organizational, economic, and/or environmental strategies that promote individual and community health. Level: Graduate

HHP 541 - Program Planning in Community Health

Credits: 3. Prereq. HHP 540. Overview of the issues, approaches, and techniques community health educators and professionals utilize in planning and implementing programs to assist communities in improving health status and reducing risky behaviors and their determinants. Application of program planning research methods including needs analyses, data collection, theory application, strategy development, and evaluation. This course co-convenes with CHTH 445. Level: Graduate Course Attributes: Co-Convened Course

HHP 542 - Advanced Study Mind/Body/Spirit

Credits: 3. This course is a comprehensive exploration of the body, mind and spirit relationship. An in-depth examination of the concepts, theoretical application, and research of the mind/body/spirit relationship will be applied to health, prevention of disease, and healing used in contemporary society. Conventional thinking will be stretched & challenged as diverse M/B/S ideas, constructs and paradigms will be considered & discussed. Level: Graduate

HHP 544 - Community-Based Participatory Research Methods for Health

Credits: 3. Offered autumn even years. Instruction will present the principles and practice of community-based participatory research methods (CBPR) and mixed-methods approaches that offers strategies for studying and addressing health and social problems. Level: Graduate

HHP 545 - Advanced Nutrition Chronic Disease

Credits: 2. Offered intermittently. Instruction will investigate the relationship between nutrition and selected chronic diseases with special emphasis on understanding the research methodology and dissemination of study outcomes reported in the literature for nutrient-disease interactions. Level: Graduate

HHP 594 - Seminar

Credits: 1 TO 3. (R-6) Offered spring. Prereq., consent of instr. A review and discussion of current research. Topics vary. Level: Graduate

HHP 595 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

HHP 596 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate

HHP 597 - Research

Credits: 1 TO 6. (R-6) Offered every term. Prereq., HHP 486, 520. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

HHP 598 - Internship

Credits: 1 TO 4. (R-4) Offered every term. Prereq., current First Aid and CPR certification. Consent of advisor and instructor. Community Health prereq HHP 540, HHP 544. Supervised field work in public and private agencies and institutions. 45 hours of internship site work = 1 credit. Level: Graduate

HHP 599 - Professional Paper

Credits: 1 TO 3. (R-3) Offered every term. Prereq., HHP 486, 520. Preparation of a professional paper appropriate to the needs and objectives of the individual student. Level: Graduate

HHP 699 - Thesis

Credits: 1 TO 6. (R-6) Offered every term. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

Health

HTH 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of advisor and instr. Course material appropriate to the needs and objectives of the individual student.

HTH 370 - Peer Health Education

Credits: 3. Offered spring. Introduction to peer health education strategies and techniques. Instruction in the areas of wellness, drug and alcohol abuse prevention, and sexual assault prevention. Students develop and implement a peer health program focused on prevention of major health problems among college students.

HTH 395 - Peer Health Practicum

Credits: 1 TO 3. (R-6) Offered autumn and spring. Prereq., HTH 370. Practical experience in planning, coordinating, and implementing health education activities for the campus community. Students address topics related to wellness, drug and alcohol prevention, or sexual assault awareness. Course Attributes:

Internships/Practicums

HTH 430 - Health and Mind/Body/Spirit

Credits: 3. Offered autumn. Prereq., junior standing. Overview of how the mind/body/spirit relationship affects health. Examination of current research exploring how thoughts, emotions, attitudes, and beliefs influence and mediate health outcome. Exploration of the theoretical applications of mind/body/spirit in health and healing used in contemporary society.

HTH 465 - Leading Health and, Human Perform Orgs

Credits: 3. Offered every term. Prereq., KIN 205 and junior standing. Leadership, management, organizational structure assertiveness, conflict management, public relations, decision-making, budget management, and a broad overview of human resource management, all as they relate to health and human performance settings.

HTH 475E - Legal and Ethical Issues Health and Exercise Professions

Credits: 3. Prereq., upper-division or graduate status. Legal bases for litigation in the health and exercise professions, with emphasis on negligence, liability, and risk identification and risk management. Utilizing the Western ethical traditions, the ethics component examines moral/ethical development through the lifespan via analysis of specific human behaviors. Course Attributes: Ethical & Human Values Course

HTH 481 - Teaching HHP

Credits: 1 TO 3. (R-4) Offered every term. Prereq., consent of instructor. Students assist in the preparation and grading of demonstrations and laboratory assignments, and laboratory instruction of undergraduate students enrolled in HHP laboratory courses. Students are given advanced instruction in principles of the HHP course.

HTH 492 - Independent Study

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

HTH 498 - Internship

Credits: 2 TO 6. (R-6) Offered every term. Prereq. all HHP options minimum junior standing and ECP 120/121(or equivalent). Prereqs per option. Exercise Science Applied: KIN 320/321. If internship is coaching or strength & conditioning must also have completed KIN 410 and COA 405. Exercise Science Pre-Professional: KIN 320/321. If internship is cardiac rehab must also have completed KIN 460/483/484. Community Health: CHTH 335. Supervised field experiences with private businesses, public agencies, or institutions. 45 hours of internship site work = 1 credit. A maximum of 6 credits of Internship 498 may count toward graduation. Students should not be registered for more than 14 credits their internship semester. Course Attributes: Internship graduation limit 6

Kinesiology

KIN 201 - Basic Exercise Prescription

Credits: 3. Offered every term. Theory, principles, and practice of exercise prescription for aerobic and resistance exercise programs for health, fitness and performance. Students must register for the lecture and a linked lab.

KIN 205 - Foundations of HHP

Credits: 3. Offered autumn and spring. An overview of the foundational principles comprising the field of HHP with special emphasis on the historical and philosophical foundations, and the evolution of the unity of mind/body concept. Includes an overview of program options, analysis of future directions, and career choices.

KIN 248 - Principles Optimal Performance for Athletes

Credits: 2. Offered autumn and spring. Introduction to an optimal performance model, with focus upon specific physical, psychological, and environmental factors that contribute to human performance.

KIN 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of advisor and instr. Course material appropriate to the needs and objectives of the individual student.

KIN 310 - Strength Training & Cond

Credits: 2. This course is designed to introduce students to the fundamentals of aerobic exercise and resistance training related to health, fitness and performance. Subject matter will include, but is not limited to maximizing student involvement in the understanding of physical training and the designing of exercise programs for health (both physical and mental), fitness and performance. This course will lay a basic practical foundation for students to design training programs, understand and design programs for athletic performance and to develop the fundamental theories of training for future coaches.

KIN 320 - Exercise Physiology

Credits: 3. Offered every term. Prereq., BIOH 370 or BIOH 211N, KIN 201; coreq., KIN 321. Investigation of the physiological changes and the significance of these changes as they occur during physical work, activity and exercise. Focus on basic energy, musculoskeletal, nervous, cardiovascular and respiratory systems as they relate to aerobic and anaerobic exercise. Emphasis will be placed on the response of these systems to both acute exercise, and the adaptations to chronic exercise. Credit not allowed toward graduate degree in the exercise science option in Health and Human Performance.

KIN 321 - Exercise Physiology Lab

Credits: 1. Offered autumn and spring. Prereq., BIOH 370 or BIOH 211N; coreq., KIN 320. Laboratory session examining the physiological effect of the physical work, activity and exercise on the functions of the human body. Credit not allowed toward graduate degree in the exercise science option in Health and Human Performance.

KIN 322 - Kinesiology

Credits: 3. Offered autumn. Prereq., BIOH 211N or 212N or BIOH 370; coreq., KIN 323. Anatomy and kinesiology of the neuromusculoskeletal system and body cavities in relation to movement and function.

KIN 323 - Anatomical Kinesiology Lab

Credits: 1. Offered autumn. Prereq., BIOH 211N or 212N or BIOH 370; coreq., KIN 322. Anatomy and kinesiology of the neuromusculoskeletal system and body cavities in relation to movement and function.

KIN 330 - Motor Learning and Control

Credits: 3. Offered autumn and spring. Prereq., BIOH 201N or BIOH 365. Focused on developing an understanding of the anatomy and physiology within the nervous system necessary for movement. Establishes an understanding of the basic science involved in the control of motor tasks, and uses this foundation to evaluate case studies that will focus on sport performance, clinical deficits, age-related alterations, learning of motor tasks following injury, and other motor-related tasks.

KIN 410 - Advanced Strength Training & Cond

Credits: 3. Offered spring. Prereq., KIN 320, senior or graduate student status. Advanced resistance and aerobic exercise testing and prescription for both healthy and clinical populations.

KIN 425 - Biomechanics

Credits: 3. Offered spring. Prereq., KIN 320 (HHP 377) & M 115 (MATH 117) or higher and major in health and human performance or athletic training. Description and analysis of the fundamental principles of human movement. Includes quantitative study of the Newtonian mechanics governing biological motion and the roles of the musculo-skeletal, nervous and cardio-vascular systems during human activity.

KIN 440 - Sport Psychology

Credits: 3. Offered autumn. Prereq., upper-division or graduate status. Course content is focused on the historical development of sport psychology, with emphasis upon the major principles and tactics of the discipline, including motivation, confidence, imagery, leadership, and team building.

KIN 447 - Analytical & Communicative Techniques

Credits: 3. Offered every term. Prereq., WRIT 101, WRIT 121 or WRIT 201. Analysis and communicative critique of literature, cinema, and other forms of popular media that contain allegorical life themes. Substantial reading, speaking and writing component. Emphasis on improving and maintaining communication skills. Course

Attributes: Writing Course-Advanced

KIN 460 - ECG Assessment

Credits: 2. Offered autumn. Prereq., junior, senior, or graduate status. Laboratory sessions combined with class sessions to understand electrocardiography and the assessment of electrocardiograms, both at rest and during exercise.

KIN 480 - Teaching Anatomy, Physiology

Credits: 4. (R-4) Offered every term. Prereq., student must have received at least a "B" in Human Anatomy and Physiology and consent of instructor. Students assist in preparation and grading of demonstrations and

laboratory assignments, and provide laboratory instruction of undergraduate students enrolled in BIOH 201N/202N-211N/212N. Students are given advanced instruction in principles of human anatomy and physiology.

KIN 483 - Exercise Disease & Aging

Credits: 3. Offered spring. Prereq., KIN 320,321, 460; coreq. KIN 484. Focus on guidelines for exercise testing and prescription for individuals with chronic disease including heart disease, diabetes, hypertension, arthritis, osteoporosis, elderly and pulmonary disease. Class requires 25 assigned hours of service learning. Covers material necessary for ACSM clinical certification exam when combined with KIN 201, 320, 321, 460, and 484.

KIN 484 - Exercise Disease & Aging Lab

Credits: 1. Offered spring. Prereq., KIN 320, 321; coreq., KIN 483. Laboratory sessions focus on practical exercise testing and prescription for individuals with chronic disease including coronary heart disease, diabetes, hypertension, arthritis, osteoporosis, elderly and pulmonary disease; basic ECG testing and analysis. Covers material necessary for ACSM clinical certification exam when combined with KIN 201, 320, 321, 460, and 483.

KIN 490 - Undergraduate Research

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student.

KIN 492 - Independent Study

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

KIN 498 - Internship

Credits: 2 TO 6. (R-6) Offered every term. Prereq. all HHP options minimum junior standing and ECP 120/121 (or equivalent). Prereqs per option. Exercise Science Applied: KIN 320/321. If internship is coaching or strength & conditioning must also have completed KIN 410 and COA 405. Exercise Science Pre-Professional: KIN 320/321. If internship is cardiac rehab must also have completed KIN 460/483/484. Community Health: CHTH 335.

Supervised field experiences with private businesses, public agencies, or institutions. 45 hours of internship site work = 1 credit. A maximum of 6 credits of Internship 498 may count toward graduation. Students should not be registered for more than 14 credits their internship semester. Course Attributes: Internship graduation limit 6

KIN 499 - Capstone

Credits: 1 TO 3. (R 6) Offered autumn. Prereq., consent of instr. Independent work under the University omnibus option. See index.

Nutrition

NUTR 221N - Basic Human Nutrition

Credits: 3. Offered autumn and spring. The principles of science as applied to current concepts and controversies in the field of human nutrition. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt Natural Science Course

NUTR 411 - Nutrition For Sports & Exercise

Credits: 3. Offered autumn and spring. Prereq., KIN 320 and junior standing. Nutritional parameters of athletic performance including intervention planning, energy production, the energy nutrients, vitamins and minerals,

principles of balanced diets, timing and composition of intakes, hydration, weight management strategies, and nutritional needs for special situations.

Education K-12: Library Media

LIBM 463 - Library Collection Dev

Credits: 3. Offered autumn. Focus on building and maintaining a foundation print and non-print media collection; devising a selection policy; demonstrating media use in support of the curriculum; and compiling annotated bibliographies.

LIBM 464 - Reference Resources

Credits: 3. Offered intermittently. Evaluation, selection, and use of basic reference resources. Teaching of media skills, information negotiation, search strategies, database use, and information services.

LIBM 465 - Lib Media Tech Proc

Credits: 3. Coreq., C&I 488. Focus on the technical processing and organization of print and non-print materials utilizing descriptive cataloging, application of AACR2 and the Dewey Decimal System, Library of Congress subject headings, and MARC21 records.

LIBM 466 - Libraries & Technology

Credits: 3. Offered Summer. Uses of digital technologies in all aspects of library operations, including cataloging and circulation, collection development, reference services, and administration. Level: Undergraduate, Graduate.

LIBM 468 - Admin & Assess of Lib Med

Credits: 3. Administrative and management procedures; assessment in terms of state, regional, and national guidelines for library media programs and services.

LIBM 491 - Special Topics

Credits: 1 TO 6. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Undergraduate, Graduate.

LIBM 492 - Independent Study

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

LIBM 495 - Practicum

Credits: 3. Offered spring and summer. Prereq., 19 credits in library Media and consent of instr. Supervised field experience in selected phases of library media center operations, including assessment. Course Attributes: Internships/Practicums

Department Faculty

College of Forestry and Conservation

Wayne Freimund, Interim Dean

Mike Patterson, Associate Dean

The undergraduate curricular programs at the College of Forestry and Conservation (CFC) provide the knowledge and skills for students to become effective natural resource professionals. They offer a sequence of learning experiences that build the necessary confidence and critical thinking capabilities to help solve some of humanity's most pressing problems in the stewardship of our shared natural heritage.

Undergraduate programs at the College of Forestry and Conservation have evolved into a unique action-oriented, interdisciplinary experience where students integrate real-world issues into their coursework. Students will utilize the latest technologies in the assessment and analysis of natural resource challenges, and they will simultaneously apply this learning in multiple field settings across the unparalleled natural settings of Montana.

The five undergraduate majors in the College are science degrees, leading to a Baccalaureate of Science (B.S.) degree. These majors are: Forestry; Parks, Tourism, and Recreation Management; Wildlife Biology; Resource

Conservation; and Ecological Restoration. These majors provide a strong foundation in knowledge about natural systems, science, analytical skills, and policy, but each is tailored to the specialized needs of a particular career track or research discipline in the natural resources management professions. Students have an opportunity to emphasize the disciplinary concentration of their choosing, but all students will receive a balance of ecological, physical, and social sciences.

Students uncertain about which specific major best meets their interests and needs will find that the ability to move between majors early in their student career is facilitated by a common foundational core of coursework. Each major's curricular program is designed to fulfill the broad educational goals for all graduates of the University of Montana, as well as the specific disciplinary requirements of civil service and professional accrediting organizations.

Preparation to Enter the College of Forestry and Conservation

Students planning to enter the College of Forestry and Conservation should attain a sound background in English, social studies, mathematics, biology, and other sciences. Entering freshmen and non-resident transfer students will be admitted in accordance with general university admission requirements listed previously in this catalogue. Resident transfer students or current UM students wanting to change their major to the College of Forestry and Conservation must have a grade point average of 2.0 or higher to be admitted.

Educational Framework at the College of Forestry and Conservation

Students at the College of Forestry and Conservation are expected to demonstrate a range of capabilities before graduation so they can better address the multiple demands facing modern natural resource managers. The College fosters learning through a combination of innovative teaching and scholarship with a focus on state of the art knowledge in the major fields and emerging natural resource challenges. Each major's curriculum follows a similar seven part structure that encourages the sequenced development of foundational knowledge, applied skills, and creative problem-solving. The following description illustrates how the curricula are organized to present the most efficient and engaging pathway to the full development of student capabilities:

Foundations of Science

Students will be required to have a solid understanding of the primary physical, chemical, and biological drivers of natural systems. Required for all students are an introductory course in inorganic chemistry and a basic biological science course (there are several introductory biology classes that will apply, depending on a student's major). Students in the Wildland Restoration major and the Forest Operations option within the Forest Management major will also take an introductory course in physics. Parks, Tourism, and Recreation Management majors will take introductory coursework in psychology or sociology to understand social drivers in relation to natural

systems. Additionally, all students are encouraged to take one of the four introductory courses offered by the College that draw together multiple disciplines to demonstrate the historical and cultural dimensions of conservation: The Nature of Montana (NRSM 121S); Careers in Natural Resources (NRSM 180); Wildlife and People (WILD 105N); or International Forestry (NRSM 170). In the sophomore year most students will take an introductory course in soils to become familiar with the cycling of energy and nutrients in terrestrial ecosystems while students in the Wildlife Biology major will take coursework in molecular biology and genetics. In their junior year all students take an upper division ecology class. The University's general education requirements and specific College majors ensure all students take additional natural and social science classes to provide the foundations necessary to understand and manage the natural and social systems underlying human uses of natural resources.

Quantitative and Analytical Skills

All students at the College will attain the quantitative analytical and measurement foundations needed for their professional or research career path. The freshmen level quantitative requirement rests on a proficiency in mathematics that is obtained through one of two routes depending on major: a college algebra/linear math/probability track or an introductory calculus track. All sophomore students take a statistics class which many fulfill through a special course in the analysis of multiple forms of measurement of natural resource characteristics, called Biometrics. Although not required for all majors, most students decide to take a special course in mapping that combines the common applications of geographic information systems (GIS) and the basic attributes of spatial analysis.

Applied Field Skills

A tremendous advantage of an education at the College of Forestry and Conservation is the proximity of an unlimited field laboratory in both the managed and untrammelled landscapes of Montana. All undergraduates will have multiple opportunities to learn in field settings as a part of lab sections associated with many of CFC's courses. Some specific academic opportunities, such as the College's Wilderness and Civilization Program, will take students on extended backcountry trips to gain first-hand knowledge of wild settings. Exceptional hands-on learning experiences are provided at the College's Lubrecht Experimental Forest located less than 30 miles from campus on the Blackfoot River. Since students must demonstrate competency and confidence in outdoor field work to be a successful natural resource professional, students are required to select a sophomore-level field measurements course within their major. Although advanced transfer students (>59 transfer credits) to the College; Parks, Tourism, and Recreation Students; and Wildlife Biology students may apply other relevant experiences to their field training requirement, completion of a field measurements course is expected before students may enroll in upper division courses, as the needed skills to succeed in subsequent, more advanced field labs depend on a solid core of field capabilities.

Communication

Effectiveness in addressing our shared problems in natural resource management depends on a person's ability to communicate. College of Forestry and Conservation students will graduate with considerable training in written communication with both lower-division requirements at the 200-level and a series of upper division courses where writing constitutes the major part of course expectations. Each major in the College provides a "distributed writing" menu for students entering into upper-division courses, such that each student will take at least three classes where writing skills are evaluated. All students take a public speaking class. Students wishing to gain more experience in public speaking and communication can also take a special class Natural Resources Interpretation (PTRM 310 (RECM 310)).

Professional Specialization

Each academic major in the College contains a sequence of courses and learning experiences tailored to the student's specific professional aspirations. Clusters of courses within a major prepare students to obtain the necessary knowledge and professional competencies to perform the tasks of a modern resource manager or research scientist. Course work combines biophysical and social science training to allow students to recognize and navigate the complexities and context of conservation sciences and natural resources management. Thus, each major has courses representing both ecological and policy development processes, as well as a progression of classes covering the knowledge areas and topics of major natural resources disciplines. Students will take a core of required courses (described in the sections below) as well as a balanced selection of "professional electives" to acquire sufficient balance and depth in their chosen field to emerge with an identified professional specialty.

Work Experience and Service Learning

Students at the College of Forestry and Conservation will apply what they have learned in real-world settings prior to graduation. This work experience can be obtained in many ways, via internships, summer employment, study abroad opportunities, or specially designed "service learning" courses. Service experiences will allow students to obtain credit, learn new material, and offer critical work to established organizations to advance conservation goals. In general, requirements for work experience or internships will be counted based on the number of hours worked over the course of a student's entire undergraduate career, with 400 hours or more of work necessary for graduation.

Capstone Experience

Each academic major in the College offers an opportunity for students to synthesize previous learning in a real-world project via either an undergraduate research project or the completion of a special, integrative "capstone" course. Undergraduate research projects are designed through close supervision of a student's academic advisor, while the capstone courses bring together a team of faculty who facilitate student oriented problem solving through a focus on an applied management problem or real world case studies that offer vital experience in the preparation of students for their professional careers.

Other University-wide Requirements for Academic Achievement

The University of Montana has established standards for graduation of all students that include demonstrated proficiencies in oral and written communication and symbolic systems as well as a selection of diverse learning experiences identified as "general education courses." The College's expectations for writing and quantitative skills more than fulfill university-wide requirements for communication and symbolic systems, and many of the courses offered by CFC also fulfill the categories within general education requirements. All CFC majors also offer sufficient opportunity for students to choose among the full range of UM courses as "free electives," such that each person might be able to explore new areas of learning at their own discretion.

Student Advising

All College of Forestry and Conservation students will have a full-time faculty advisor as well as the extensive advising support provided by the College's Office of Student Services. Students are paired with a faculty advisor who matches their academic and professional interests and serves as a mentor and advocate for students as they progress through individual academic achievements. Students may change their advisor at any time as their specific interests develop or change. New students needing an advisor and current students who wish to change advisors should contact the College's Office of Student Services. Students are required to consult with their advisors before each registration period but remain responsible for ensuring they fulfill the published requirements for graduation.

Graduation Auditing

All students will complete a graduation audit in the semester prior to their graduation to make sure that they have a sure pathway for successful completion of their chosen major.

Ecological Restoration

Bachelor of Science in Ecological Restoration

Ecological restoration – the process of assisting in the repair of damaged ecosystems— is one of the fastest growing areas of natural resource management. With increasing interest, there is a corresponding need for trained professionals who understand not only the science of restoration ecology but also the management practices and social factors that lead to successful project implementation. The College of Forestry and Conservation offers a Bachelor of Science and a minor in Wildland Restoration (for more information see: <http://www.cfc.umt.edu/wildland/>).

Degree Options

Bachelor of Science in Ecological Restoration (Aquatic and Terrestrial Options)

The major in Ecological Restoration prepares students to tackle the complex challenges associated with repairing degraded ecosystems. Students select one of two options: the *Terrestrial Option*, which focuses on restoration of forests, grasslands, and other terrestrial ecosystems; or the *Aquatic Option* which focuses on stream, wetland, and groundwater restoration. Both options provide in-depth training in the science of restoration ecology and the management activities and human dimensions of restoration practice. Students engage in field-based learning, contribute to cutting-edge restoration projects, and are challenged to apply ecological theory to restoration practice. The major requires completion of a nine-credit restoration capstone, during which students gain hands-on real-world experience planning and implementing restoration projects in partnership with natural resource management agencies and organizations in western Montana.

A degree in Ecological Restoration prepares students for careers as restoration practitioners with non-profit, private, or governmental agencies and for graduate school in ecology or natural resource management. Students who graduate with this major may qualify for the following federal civil service jobs: biological technician (Series 0404), ecologist (Series GS-408), forester (Series G-0460), hydrologist (Series GS-1315), range technician (Series GS-0455), and soil conservationist (Series GS-0457). More information on federal civil service requirements can be found at: <http://www.opm.gov/qualifications/standards/indexes/alph-ndx.asp>.

Minor in Ecological Restoration

In addition to the major, the Ecological Restoration program also offers a minor for students who wish to gain basic competency in restoration while pursuing another UM major.

College of Forestry & Conserv Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: Major Subject: **Ecological Restoration** Option: **Aquatic Total**

Credits: 89 Cumulative GPA Required: 2.0

Forestry

In addition to special degree requirements listed previously, students selecting the BS Forestry degree must complete the following required courses or their equivalent, if transferred from another college or university.

Transference and equivalency will be determined by the University, College of Forestry and Conservation, and Forestry program. Electives may be taken at any time, keeping in mind these requirements as well as the University's General Education requirements for graduation.

Parks, Tourism, and Recreation Management

The B.S. in Parks, Tourism & Recreation Management degree is designed to prepare students for professional positions developing and managing nature-based recreation experiences and park resources for public land management agencies, nonprofit organizations, and the nature-based tourism industry. Students pursuing this degree must choose between an option in Recreation Resources Management or Nature-Based Tourism. The Recreation Resources Management option provides the educational background necessary for evaluating and managing wild lands to protect their recreational, heritage, and ecological values. The Nature-Based Tourism option is designed to combine an understanding of social, cultural, political, environmental, and economic contexts surrounding tourism in a natural resource setting. All students learn the processes and conceptual skills needed to determine alternative management strategies, make management decisions, and carry out management programs. Included are courses leading to an understanding of the basic ecological characteristics of recreational lands. Students also take courses dealing with human behavior and management. Emphasis is placed on presenting problems that would be encountered while managing national parks and forests, state and regional parks, wilderness areas, and other recreation resources of international and national significance.

College of Forestry & Conserv Catalog Year: 2015-2016

Criterion: C- Number of Credits

Course Listing

Commentary: In addition to the above requirements, Resource Conservation students are also required to take at least 10 additional credits in their area of emphasis. Students can choose courses from the following prefixes: BIOO, BIOE, CHMY, ENSC, FORS, GEOS, M, NRSM, PHSX, and WILD. Alternatively, students can take two semesters of a foreign language (or otherwise demonstrate foreign language proficiency).

All students must take at least 49 approved credits in the major.

Students double majoring with Resource Conservation and Ecological Restoration, Forestry, Wildlife Biology, and Parks, Tourism and Recreation Management must take an additional 9.0 credits in FORS, NRSM, PTRM, and WILD in addition to courses required by either of their majors. These additional 9.0 credits will be relevant to the student's track/emphasis with the major.

Criterion: C- Number of Credits 6

Course Listing

CHMY 121N Intro to General Chemistry 3 F,S

NRSM 210N Soils, Water and Climate 3 F

Wildlife Biology

Chad Bishop, Wildlife Biology; Director

The Wildlife Biology Program combines the best features of a liberal arts curriculum with scientific preparation in wildlife conservation. The Program provides students with an extensive knowledge in ecology, population biology, conservation biology, and critical thinking and quantitative skills. Our students receive a strong academic and scientific background with an emphasis on hands-on, experiential learning. The educational requirements for certification by The Wildlife Society can be met within the framework of the undergraduate program.

While some employment opportunities exist in wildlife conservation for students with the baccalaureate degree, we encourage students to continue their education through the master's degree to qualify for most state, federal, and private positions.

Three optional curricula are offered in the Wildlife Biology Program: terrestrial, aquatic, and honors. All three options follow the same schedule of courses for the freshman and most of the sophomore year and then pursue different curricula for the last two years. Each leads to a B.S. in Wildlife Biology. The University is well-suited for instruction in wildlife biology because of the excellent opportunities for field instruction and research at Lubrecht Experimental Forest, Flathead Lake Biological Station, and the Theodore Roosevelt Memorial and Bandy ranches. The Montana Forest and Conservation Experiment Station, the Division of Biological Sciences, and the Montana Cooperative Wildlife Research Unit facilitate research.

The honors curriculum is designed particularly for students with strong academic records who intend to do graduate work. Entrance into this emphasis is open only to students who, at the beginning of the junior year of the wildlife biology program, have a grade-point average of 3.5 or above and who petition the faculty for entrance.

High School Preparation: In addition to general University admission requirements, the student should elect four years of mathematics and three years of science, including biology, chemistry and physics.

Honors students must complete either WILD 370, 470 and 494 (terrestrial option) or BIOO 340, BIOE 428 and WILD 494 (aquatic option). Honors students are encouraged to enroll also in WILD 499 Senior Thesis. The balance of the coursework for the junior and senior years will be developed in consultation with the honors student's faculty advisor and committee.

All students in the honors emphasis are required to meet with their faculty advisor prior to autumn semester registration of their junior and senior years to work out their course schedules.

College of Forestry & Conserv Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: Major Subject: **Wildlife Biology** Option: **Terrestrial**

Climate Change Studies

Steven Running, Director

Climate Change Studies is an inter-disciplinary program open to all majors. The program educates students in three areas of the climate change issue: science, society, and solutions. Coursework in the minor provides a foundation that enables students to engage the scientific, societal, and political dimensions of global climate change. Further, the focus on solutions with its orientation toward applied learning will help students develop critical thinking and problem solving skills. Participating students will enhance their major field of study. They will be better prepared to enter a broad range of professions and graduate programs where they can meet the emerging challenges and opportunities arising from climate change. Climate Change Studies is a joint program between the College of Forestry and Conservation, College of Arts and Sciences, and Missoula College's Energy Technology program.

Wilderness Studies

Wayne Freimund (Professor) Director of Wilderness Institute

Students who successfully complete the requirements of the Wilderness and Civilization Program are eligible for the Wilderness Studies minor. Wilderness and Civilization is an interdisciplinary campus and field-based program. Each year, 25 students investigate wildland conservation and the human-nature relationship through the lenses of policy, ecology, art, Native American Studies, and literature. Wilderness and Civilization combines the strengths of classroom and field learning, interactive classes, innovative faculty, and applied learning through internships. Field trips include extended backcountry trips as well as shorter field trips examining ecology, environmental issues, land use, and natural history. Wilderness and Civilization offers students the opportunity to explore contemporary conservation debates, make connections between disciplines, and learn how to work for positive change.

Wilderness and Civilization is an undergraduate, immersion program geared toward sophomore-, junior-, and senior-level students in any major. Students take 17.0 credits of campus and field-based courses during the fall, and then continue in the spring with an art course, an internship, a 1.0 credit field course, and a 1.0 credit lecture series. The Wilderness and Civilization program is administered by the Wilderness Institute of the College of Forestry and Conservation. The program is offered in collaboration with the College of Arts and Sciences, the College of Visual and Performing Arts, and the Davidson Honors College.

Students must apply for admission to the Wilderness and Civilization program, which is limited to 25 students each year. Applicants must have a cumulative GPA of 3.0 or higher for all college and university work. Applications are due by April 1 and are available at the Wilderness Institute, University Hall 303.

Commentary: MUSI 304A is offered during Wintersession - if not offered then take ART 394A Env. Drawing

Degree Commentary

This minor can be completed during a fall semester plus one wintersession course and four credits in the spring;

Experiential learning credit for Honors will be completed with this minor.

College of Forestry & Conserv Catalog Year: 2015-2016

Degree Type: Minor Level: Minor Subject: **Wildlife Biology**

Total Credits: 21 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Required courses Rule: must take the following courses

Criterion: C- Number of Credits 15

Course Listing

BIOO 101N	Survey MT Wldlife & Habitats	3	F	
NRSM 180	Careers in Natural Resources	2	F,S	
WILD 105N	Wildlife & People	3	F	
WILD 275	Wildlife Conservation	2	S	

Commentary: Upper Division Core

Category Name: Required courses Rule: must take the following courses

Criterion: C- Number of Credits 6

Course Listing

BIOO 335	Rocky Mountain Flora	3	S,SU	
FORS 330	Forest Ecology	3	F,S	

Commentary: Can take NRSM 360 Rangeland Mgmt in place of FORS 330

Course Descriptions

Forestry

FORS 130 - Intro Forestry Field Skills

Credits: 2. Offered autumn. Prereq., Forestry major or consent of instructor. This course is focused on developing introductory forestry field skills through experiential learning at the College's Lubrecht Experimental Forest. Classroom lecture and experiences that introduce students to orienteering, map reading, GPS, tree measurements, fire and fuels management, recreation, human dimensions, hydrology, wood products, and the careers possible with a Forestry degree.

FORS 140 - Urban Forestry

Credits: 2. Offered spring. An introduction to urban forestry principles and practices. Benefits of the urban forest. Topics covered include plant species selection, site design, site assessment, planting, watering, fertilization, insects and diseases, pruning and tree care, inventory of property values, and community forestry development.

FORS 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

FORS 192 - Independent Study

Credits: 1 TO 3. (R-3) Offered every term. Prereq., consent of instr. Problems course designed to allow individual research at the undergraduate level.

FORS 200 - Forest Res Measurements Camp

Credits: 2. Offered summer. Intensive two-week resident camp at the Lubrecht Experimental Forest. Introduction to the common measurements and skills used in identifying, quantifying, and understanding natural resources.

FORS 201 - Forest Biometrics

Credits: 3. Offered autumn. Prereq., M 115 or M 121 or M 122 or M 151 or M 162 or M 171 or M 172. Introduction to probability and statistical methods for forestry and environmental sciences covering natural resource applications of common probability distributions, data analysis, hypothesis testing, and regression.

FORS 202 - Forest Mensuration

Credits: 3. Offered spring. Prereq., FORS 201 or STAT 216 or SOCI 202 or WILD 240; and M 121 and M 122 or M 151 or M 162 or M 171 or M 172. The theory and practice of timber inventory and growth projection, including field measurements, sampling procedures, statistical methods, inventory compilation, and stand growth simulation under specified management prescriptions. Stand growth under specified management prescriptions.

FORS 230 - Forest Fire Management

Credits: 2. Offered spring. Fire as an ecological factor in Western forests is presented. Fire weather, the measurement of fire weather, and the factors of fuel, weather and topography that influence fire behavior, and fire management decisions are included. NFDRS, state and national fire policy evolutions are discussed. Basic fire suppression tactics are also presented.

FORS 232 - Forest Insects & Diseases

Credits: 2. Offered spring. Identification, significance of and remedies for insect infestations and infectious and non-infectious diseases of forests and forest products.

FORS 235 - Prob Solving for Forest Oper

Credits: 4. Offered intermittently. Prereq., M 115 or M 121 or M 151 or M 162 or M 171 or M 172. Introduction to problem solving including the fundamentals of statics and mechanics of materials presented in the context of forest operations.

FORS 240 - Tree Biology

Credits: 2. Offered autumn and spring. Suggested coreq., FORS 241N. The physical and biological requirements for the growth and development of trees. Discussions of: identification, classification, range, and economic importance of the major tree species of North America.

FORS 241N - Dendrology

Credits: 3. Offered autumn and spring. Suggested coreq., FORS 240. Methods and techniques for identifying the major families of North American trees, based on gross morphological and anatomical features. Building and use of identification keys. Course Attributes: Natural Science Lab Course Natural Science Course

FORS 250 - Intro to GIS for Forest Mgt

Credits: 3. Offered every term. Open to sophomores or juniors or with consent of instructor. This course is designed as a practical introduction to the use of Geographic Information Systems (GIS) for storing, retrieving, analyzing and displaying spatial data. It will also cover the history of cartography and the conventions of the modern map-making process.

FORS 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors; new courses or one-time offerings of current topics.

FORS 292 - Independent Study

Credits: 1 TO 3. (R-3) Offered every term. Prereq., consent of instr. Individual research at the undergraduate level.

FORS 308 - Fire Ecology Field Studies

Credits: 3. This course introduces students to all aspects of forest demography and forest community ecology in the field. Particular attention is given to the agents of woody plant mortality, including beetle gallery identification, pathogenic fungi, density-dependent mortality, fire, and the effects of landscape position. Students learn how data are collected to maximize information used to answer scientific questions, including the relationships between accuracy, precision, uncertainty, and cost (in time and money). Students learn how to measure fuel loading at landscape scales according to federal standards. In addition to specific measurements in ponderosa pine and larch/mixed-conifer forest types, students visit and compare Engelmann spruce/subalpine forests and riparian cottonwood forests. Students will also study forest-river interactions and the modification thereof by fire.

FORS 310 - Field Methods in Forest Ecology

Credits: 3. This course introduces students to all aspects of forest demography and forest community ecology in the field. Particular attention is given to the agents of woody plant mortality, including beetle gallery identification, pathogenic fungi, spatially explicit density-dependent mortality, fire, and the effects of landscape position. Students learn how data are collected to maximize information used to answer scientific questions, including the relationships between accuracy, precision, uncertainty, and cost (in time and money). Students then collect tree demography data within the Yosemite Forest Dynamics Plot. Students learn how to measure fuel loading at landscape scales according to federal standards. In addition to specific measurements in one forest type (white fir/sugar pine), students visit and compare the other principal forest types of the Sierra Nevada and White Mountains (ponderosa pine, red fir, Jeffrey pine, lodgepole pine, whitebark pine, pinyon/juniper, and bristlecone pine).

FORS 320 - Forest Environmental Economics

Credits: 3. Offered autumn. Prereq., ECNS 201S; and M 121 and M 122 or M 151 or M 162 or M 171 or M 172. Economic techniques to support decision making about the allocation of scarce resources, and management of forests for timber and other ecosystem services.

FORS 330 - Forest Ecology

Credits: 3. Offered autumn and spring. Prereq., FORS 210 or ENSC 245N or NRSM 210N; and BIOO 105N or BIOB 170N or BIOE 172 or BIOB 160N or FORS 240; and FORS 201 or STAT 216 or SOCI 202 or WILD 240 or PSYX 222. Examination of physical and biological factors affecting forest structure, composition, and function, including biodiversity, disturbance, and nutrient cycling. Field labs throughout Northern Rockies including developing skills in field observation, data interpretation and problem solving.

FORS 331 - Wildland Fuel Management

Credits: 3. Offered autumn. Prereq., FORS 230 or consent of instr. The fire ecology of some western vegetation types is discussed. Elements of the principles of wildland fuel management are presented. Prescribed fire use and mechanical manipulation are matched to historic ecosystem processes. Smoke management considerations and health issues are also presented.

FORS 333 - Basic&Applied Fire Ecology

Credits: 3. Offered spring. Prereq., FORS 230. A detailed, analysis of fire ecology in terrestrial ecosystems with a focus on the Rocky Mountains, including fire history, fire effects, landscape pattern, land use legacies, and management implications.

FORS 340 - Forest Product Manufacturing

Credits: 2. Offered autumn. Survey of the manufacture of wood-based products generated from timber harvest. Laboratory field trips to several local manufacturing facilities.

FORS 341 - Timber Harvesting & Roads

Credits: 3. Offered spring. Prereq., NRSM 200 or WRIT 222. An overview of harvesting system capabilities and selection for multiple resource objectives. Fundamentals of forest road management. Best management practices as they apply to forest operations in Montana and the western United States.

FORS 342 - Wood Anatomy, Properties, & ID

Credits: 3. Offered spring. Prereq., BIOO 105N or FORS 240 or FORS 241N. Lecture and laboratory investigation of the structure, identification and physical and mechanical properties of the commercial tree species of North America.

FORS 347 - Multiple Resource Silviculture

Credits: 3. Offered spring. Prereq., FORS 330 or BIOE 370. Credit not allowed for both FORS 347 and 349. An introduction to the concepts and application of silvicultural techniques to forest ecosystems to meet multiple resource objectives.

FORS 349 - Practice of Silviculture

Credits: 3. Offered fall. Prereq., FORS 202 or FORS 302 and FORS 241. Coreq., FORS 330. Practice of Silviculture is designed primarily for Forestry majors (open to others with appropriate prerequisites), and will consider the conceptual foundations behind various silvicultural practices and techniques, as well as and their application in forest ecosystems to meet multiple resource objectives. The course will cover natural stand dynamics, stand assessment and site classification schemes, even- and uneven-aged silvicultural systems, thinning/stand density

concepts, regeneration practices, stand diagnosis and prescription development, vegetative management strategies for diverse objectives, along with quantitative assessment and modeling of alternative prescriptions.

FORS 350 - Forestry Apps of GIS

Credits: 3. Offered spring. Prereq., FORS 250 or FORS 284 or GPHY 284. Introduction to the basic concepts and techniques of computerized spatial data management and analysis systems and application to natural resource management.

FORS 351 - Env Remote Sensing

Credits: 3. Offered spring. The theory and application of photo- and electro-optical remote sensing for mapping resources and developing information systems.

FORS 391 - Special Topics

Credits: 0 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

FORS 392 - Independent Study

Credits: 1 TO 3. (R-10) Offered every term. Prereq., consent of instr. Individual study or research problems.

FORS 398 - Internship

Credits: 1 TO 6. Offered every term. Prereq., consent of department. Extended classroom experience that provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

FORS 434 - Advanced Forest Roads

Credits: 3. Offered autumn. Prereq., FORS 341. The purpose of this course is to help students understand the principles and skills of forest road design and the concepts of forest transportation planning. The course will cover the basic topics of road location, design, construction, and maintenance and provide students with techniques to identify the combination of roads, facilities and transport systems which minimize costs and negative environmental impacts.

FORS 435 - Advanced Timber Harvesting

Credits: 3. Offered autumn. Prereqs., FORS 341. This course covers the fundamentals of logging feasibility and cost analyses of various timber harvesting systems including the characteristics and performance of ground vehicles, cable and aerial systems; cost factors and cost analysis procedures; safety issues; and environmental impacts of harvesting systems .

FORS 436 - Project Appraisal

Credits: 3. Offered autumn. Prereq., FORS 320 or consent of instructor. A suite of techniques, collectively referred to as project appraisal methods, facilitate evaluation of alternative projects. In this applied, computer laboratory-based course, students will become familiar with the use of discounted cash flow analysis and mathematical programming to evaluate proposed courses of action and recommend the economically efficient alternative. Skills will be developed applying these techniques to problems faced by natural resource managers and policy-makers.

FORS 440 - Forest Stand Management

Credits: 3. Offered autumn. Prereq., FORS 202 or 302; FORS 341; FORS 347 or 349. The management and manipulation of forest stands to reach multiple objectives, with a focus on the planning of forest operations for a community partner.

FORS 444 - Applied Methods in Forest Restoration and Utilization

Credits: 1 TO 3. (R-9) Meeting all day on Saturdays, and some Sundays, this course involves training students to safely and efficiently identify forest stands to be restored through appropriately-planned management activities including both live and dead timber felling operations, manufacture of sawlogs and pulpwood, proper management of slash and residuals, grapple skidding and the production of lumber using both circular sawmill and bandsaw mill.

FORS 447 - Advanced Silviculture

Credits: 3. Offered intermittently. Prereq., FORS 347 or FORS 349 or consent of instr. Examination of silvicultural topics such as regeneration practices, thinning/stand density concepts, and silvicultural systems at an advanced level.

FORS 481 - Forest Planning

Credits: 3. Offered spring. Prereq., FORS 320; FORS 347 or FORS 349 or consent of instr. Integrated multiple use planning at the forest-wide level: defining multi-resource management goals, generating management alternatives, projecting outcomes, assessing environmental impacts, and implementing preferred option.

FORS 491 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

FORS 492 - Independent Study

Credits: 1 TO 3. (R-10) Offered every term. Prereq., consent of instr. Individual study or research problems.

FORS 495 - Wildland RxFire Practicum

Credits: 3. Offered wintersession. Co-convened with FORS 544. Prereq. Fire experience and Consent of Instructor. An intensive field course providing students with technical training, practical applications, and theoretical foundations in ecological burning for restoration purposes. Class is typically held in southeastern United States.

Course Attributes: Co-Convened Course

FORS 498 - Internship

Credits: 1 TO 6. Offered every term. Prereq., consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off-campus. Prior approval must be obtained from faculty advisor and Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

FORS 499 - Senior Thesis

Credits: 1 TO 3. Offered autumn and spring. Prereq., senior standing and consent of instr. Preparation of a major paper based on study or research in a field selected according to the needs and objectives of the student.

FORS 505 - Sampling Methods

Credits: 3. Offered spring. Prereq., consent of instr. Fundamentals of statistical sampling emphasizing natural and environmental resource applications. Principles of inferences and alternative estimators are studied in the context of simple random, systematic, unequal probability, stratified, and 3P/Poisson designs. Variable radius plot

sampling, line intersect sampling, and other probability proportional to size designs used in forest and ecological inventories are also covered. Level: Graduate

FORS 521 - Heur. Opt. for For. Plan.

Credits: 3. Offered spring even-numbered years. Prereq. FORS 481 or equiv. and consent of instr. Modern heuristic optimization techniques and their applications to solving spatially explicit forest planning problems. Level: Graduate

FORS 533 - Use Fire Wldland Mgmt

Credits: 3. Offered autumn. Prereq., consent of instr. Evolution of federal fire policy is discussed. Western fire ecology and the planned use of fire for wildlife, range, and forest applications of prescribed fire are presented. Fire behavior and a fire science vocabulary are introduced. Students review literature, present seminars, and lead discussions. Level: Graduate

FORS 535 - Applied Forest Ecology

Credits: 3. Prereq., graduate status or consent of instructor. This course covers the use of ecological theory and data in the design of silvicultural treatments to achieve multiple management objectives, with particular emphasis on forest restoration and climate change adaptation. We examine methods of silvicultural design, including use of historical and contemporary reference conditions, and climate adaptation strategies. Analysis exercises use the open source statistical program and language R for data analysis, visualization, and modeling, especially of spatial point pattern data. Introduction to monitoring and adaptive management of silvicultural treatments. Level: Graduate

FORS 538 - Ecological Statistics

Credits: 3. Offered in the Fall. Prerequisites: STAT451/452 or equivalent. This is an applied course covering advanced statistical modeling techniques using examples from forestry, ecology, and the environmental sciences. Covers data management, visualization, and scripting with R, an open source data analysis and statistics platform. Explores various parametric and semi-parametric modeling strategies that allow for non-linear response functions and/or non-Gaussian response distributions. Estimation and inference in the context of generalized linear models, generalized additive models, and classification and regression trees are discussed using examples from the scientific literature. Lays the foundation for subsequent graduate-level analytic coursework. Level: Graduate

FORS 540 - Disturbance Ecology

Credits: 3. Prereq., graduate status or consent of instructor. This course covers foundational disturbance ecological concepts; examines important and influential disturbance ecology theories; and introduces important disturbance agents and processes operating in temperate and boreal forest ecosystems. Level: Graduate

FORS 544 - Adv. Wildland RXFire Practicum

Credits: 3. Offered wintersession. Co-convened with FORS 495. Prereq. Consent of Instructor. An intensive field course providing students with technical training, practical applications, and theoretical foundations in ecological burning for restoration purposes. Students will practice leadership skills by supervising and training fire personnel in application of prescribed fire. Class typically held in southeastern United States. Credit is not allowed for both FORS495 Wildland Prescribed Fire Practicum and FORS544 Prescribed Fire Practicum. Level: Graduate Course
Attributes: Co-Convened Course

FORS 545 - Silviculture Research

Credits: 1. (R-6) Offered intermittently. Prereq., consent of instr.; prereq. or coreq., FOR 347 or equiv. Reading and discussion of scientific literature related to silvicultural practice and science. Different topic each semester. Students

become familiar with silviculture literature, develop skills for scrutinizing scientific literature, and examine silvicultural topics in detail. Level: Graduate

FORS 551 - Digital Image Processing

Credits: 4. Offered intermittently. Prereq., FORS 351 or consent of instr. Fundamentals of electro-optical digital remote sensors, data compilation, preprocessing, and pattern recognition. Level: Graduate

FORS 594 - Graduate Seminar

Credits: 1. (R-12). Offered Spring. Prereq. graduate standing. Presentations by students, faculty, and professionals on issues and topics in their field. Level: Graduate

FORS 595 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

FORS 596 - Independent Study

Credits: 1 TO 3. (R-10) Offered every term. Prereq., consent of instr. Individual study or research problems. Level: Graduate Course Attributes: Service Learning/Volunteer

FORS 598 - Internship

Credits: 1 TO 15. (R-15) Offered every term. Prereq., consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. Level: Graduate Course Attributes: Internships/Practicums

FORS 599 - Professional Paper

Credits: 1 TO 15. (R-15) Offered autumn and spring. Preparation of Master of Ecosystem Management professional paper. Level: Graduate

FORS 697 - Graduate Research

Credits: 1 TO 15. (R-15) Offered every term. Independent graduate research in forest management, wood science, soils, wildlife management, silviculture, recreation and other topic areas. Level: Graduate

FORS 699 - Thesis

Credits: 1 TO 15. (R-15) Offered every term. Preparation of thesis/dissertation. Level: Graduate

Natural Resource Science & Management

NRSM 121S - Nature of Montana

Credits: 3. Offered autumn. An exploration of the major natural resource management issues facing the people of Montana and the social processes to manage environmental conflicts. Provides an introduction to the function of ecological systems and the impacts of human uses on the environment and looks at strategies for addressing global climate change, ex-urban population growth, and protecting environmental quality. Course Attributes: Social Sciences Course

NRSM 170 - International Envir. Change

Credits: 3. Offered spring. An introduction to natural and anthropogenic environmental change from ancient to contemporary times. Exploration of the historical role and importance of ecological disturbance on the development

and maintenance of terrestrial ecosystems around the world. Introduction to fields of study available in the College of Forestry and Conservation.

NRSM 180 - Careers in Natural Resources

Credits: 2. Offered autumn and spring. Subject matter and fields of study within natural resources management.

Topics include forestry, wildlife biology, range, water, recreation management, forest products production, and other opportunities for careers in natural resources.

NRSM 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

NRSM 200 - Nat.Resource Professional Wrtg

Credits: 3. Offered fall and spring to College of Forestry and Conservation majors. Prereq., WRIT 101. Students synthesize scientific literature and, using appropriate evidence and APA style, write natural-resources-based documents appropriate for distribution to scientists, managers, and the public. Course Attributes: Writing Course-Intermediate

NRSM 210N - Soils, Water and Climate

Credits: 3. Prereq., M 115 or M 121 or M 122 or M 151 or M 162 or M 171 or M 172. The factors affecting earth's terrestrial ecosystems are rapidly changing, and understanding their impact on ecosystem services to humanity is becoming increasingly important and yet complex. In this course, students will explore how climate, water and soils interact to shape Earth's biosphere. We will introduce students to a number of fundamental concepts in climate, hydrology, and soil science to gain a comprehensive view of the factors that shape and affect all terrestrial ecosystems. Through a series of lectures and field-based laboratories, students will be introduced to the fundamental principles of climate and hydrology that influence soil development, how they vary across small spatial scales, and how these physical, chemical, and biological processes interact to affect soil development. Ultimately, this class will introduce students to intimate relationship between climate, water, and soils, and how they interact to affect patterns of vegetation we see across the biosphere. Course Attributes: Natural Science Lab Course

NRSM 215 - Field Studies in Conservation

Credits: 1. Offered spring. Open to Resource Conservation Majors. Field study focusing on flora and fauna, history of land use and ecological change, contemporary forest management, conservation and community development in western Montana.

NRSM 265 - Elements of Ecological Restora

Credits: 3. Offered autumn. Prereq., one course in the ecological or biological sciences: BIOO 105N, BIOB 160N, BIOB 170N, BIOB 172, BIOE 370, BIOE 428, BIOE 447 or BIOE 448; or FORS 330; or NRSM 271N or NRSM 462 or consent of instructor. Overview of the natural and social science elements of ecological restoration, including the ecological foundations of restoration, practices used to restore terrestrial and aquatic habitats, philosophical and ethical challenges involved, and current initiatives in Montana and the United States. Includes Saturday field trips.

NRSM 271N - Conservation Ecology

Credits: 3. Offered autumn. An overview of ecological concepts and how ecology is applied to further our understanding of ecosystems and conservation. Topics include: ecosystems functions and values, biomes, natural

selection and speciation, biodiversity, succession, climate change, fragmentation, protected areas, impacts of exotic species and other human influences on ecosystem functions. Course Attributes: Natural Science Course

NRSM 273 - Wilderness/Civ Field Stds

Credits: 1 TO 3. (R-6) Offered autumn and spring. Field studies in ecology and conservation. Includes natural history, field journaling, ecological monitoring, protected area management, and community conservation. One-day trips as well as extended backcountry trips. Part of the Wilderness and Civilization program.

NRSM 281 - Science of Climate Change

Credits: 3. This course provides an introduction to Earth's climate system and the scientific evidence of climate change. This course explores how past climate has shaped Earth's ecosystem and how humans are currently altering Earth's climate system, as well as potential future climate scenarios. Through this course students will gain a better understanding of Earth's energy budget, the global carbon cycle, and potential impacts of climate change. This class is open to all undergraduates, both science and non-science majors, and counts toward the Climate Change Studies minor.

NRSM 291 - Special Topics

Credits: 1 TO 12. (R 12) Offered intermittently. Experimental offerings of visiting professors; new courses or one time offerings of current topics.

NRSM 311 - Field Stds ecol/Human Commun

Credits: 2 TO 3. (R-12) Offered every term. Prereq., consent of instr. Via extended backcountry travel, experiential examination of the structure and function of the ecosystems occurring within the course area. Also investigates the relationship of those ecosystems with the people that manage, live, and work in the area. Offered by the Wild Rockies Field Institute.

NRSM 321 - Field Stds Energy Syst Montana

Credits: 2 TO 3. Offered Summer. Via an extended bicycle tour of Montana, students examine a variety of energy developments and their environmental, social, and economic implications.

NRSM 335 - Environmental Entomology

Credits: 3. Offered autumn odd years. An introduction to the importance of insects in ecosystem function and process, and their use in ecological monitoring as indicators of ecological change, degradation, and the efficacy of ecological restoration efforts. This course also covers the effects of climate change and biological invasions in the context of both pest and beneficial insect species.

NRSM 344 - Ecological Restoration Capstone

Credits: 5. Offered spring. Prereq., junior or senior standing in Ecological Restoration and successful completion of NRSM 265 and one advanced ecology course: BIOE 370, BIOE 428, BIOE 447, BIOE 448, FORS 330, or NRSM 462.; and completion or concurrent enrollment in NRSM 465. This service-learning course teaches students about planning and designing and implementing restoration and monitoring projects. The course includes lectures, labs, and hands-on experience working with ecologists and restoration practitioners from local government agencies, NGOs, or other organizations.

NRSM 345 - Watershed Dynamics

Credits: 3. Coreq. ENST 291, 391 392, NRSM 346. Offered each autumn by Northwest Connections. Via hands on application in rural Montana, students investigate watershed function; introductory stream hydrology and

morphology; and fish, amphibian and aquatic furbearer habitat characteristics. The course also explores impacts of road building, timber harvest, and watershed fragmentation on watershed and stream function, fish habitat, and fish populations.

NRSM 352 - Himalayan Environment and Dev

Credits: 3. Offered summer only. Coreq., PTRM 353. This course covers the contentious issues surrounding environment and development in the Himalaya using the Garhwal region of India as the example.

NRSM 360 - Rangeland Mgt (equiv 260)

Credits: 3. Offered autumn. Prereq., junior standing or consent of instr. An introduction to rangelands and their management, grazing influences, class of animal, grazing capacity, control of livestock distribution, improvements, competition and interrelationships with wildlife. Laboratory exercises to gain on-site experience on topics and concepts presented in lectures.

NRSM 370S - Wildland Conserv Pol/Govrnance

Credits: 3. Offered autumn and spring. Examination of the historical, philosophical, and legislative background for development and management of our national system of wilderness areas, wild and scenic rivers, trails, and national parks; their place in our social structure. Part of the Wilderness and Civilization program. Course Attributes: Social Sciences Course

NRSM 373 - Wilderness and Civilization

Credits: 3. (R-6) Offered autumn and spring. Social and cultural perspectives on the wilderness idea and wildland practices. Course topics include history of wilderness and the wilderness movement, various philosophical viewpoints on wilderness, protected area management issues, and how wilderness fits into larger landscapes and societies. Part of the Wilderness and Civilization program.

NRSM 374 - Yellowstone Studies

Credits: 1. Offered spring. Ecological and sociopolitical perspectives on the greater Yellowstone ecosystem. Topics include winter ecology, biodiversity conservation, national park planning and management, winter recreation, fire, and wildlife. Field course in the Yellowstone area. Part of the Wilderness and Civilization Program.

NRSM 379 - Collab in Nat Res Decisions

Credits: 3. Offered autumn. Political and social processes affecting natural resource decisions. Examination of cases of multi-party collaboration in forestry, range, and watershed management issues.

NRSM 385 - Watershed Hydrology

Credits: 3. Offered autumn and spring. Prereq., M 115 or M 121 or M 122 or M 151 or M 162 or M 171 or M 172. An introduction to physical and biological controls over water movement and storage in the environment, and how those controls are affected by land management practices.

NRSM 386 - Watershed Hydrology Lab

Credits: 1. Offered autumn and spring. Coreq., NRSM 385 or consent of instr. An introduction to basic watershed measurement and analysis techniques. Lab exercises designed around the use of spreadsheets and computer graphics.

NRSM 391 - Special Topics

Credits: 0 TO 12. (R 12) Offered intermittently. Experimental offerings of visiting professors; new courses or one time offerings of current topics.

NRSM 395 - Community-Based Approaches to Wildlife Conservation

Credits: 1 TO 6. Offered each summer by Northwest Connections. Via field-based study in western Montana, students learn emerging strategies for reducing human-wildlife conflicts while considering ecological, economical, and societal impacts. Coreq., ENST 395 Wildlife Policy & Rural Communities and Field Ecology of Threatened & Endangered Species in the Northern Rockies. The course emphasizes the multiple perspectives of stakeholders and the importance of striving for collaborative solutions to conflicts over wildlife management and controversial species.

NRSM 398 - Internship

Credits: 1 TO 6. Offered every term. Prereq., consent of department. Extended classroom experience that provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

NRSM 404 - Wilderness in American Context

Credits: 4. An expansive treatment of the history of the wilderness preservation movement in the United States. Introduction to the successive influences of philosophy, science, art and politics on society's relationship with wilderness. Discussion of the Wilderness Act of 1964.

NRSM 405 - Mgt of Wilderness Resource

Credits: 4. An ecology-based treatment of wilderness management. Brief overview of fundamental ecological principles followed by an examination of their specific and often unique applications to wilderness ecosystems. Presentation of basic wilderness management principles and guidelines. Discussion of nonconforming wilderness uses.

NRSM 406 - Wilderness Mgt Planning

Credits: 3. Exploration of basic planning theory, concepts, effective plan writing, and the characteristics of successful planning and implementation. In-depth treatment of the Limits of Acceptable Change planning framework. Comparison and evaluation of the different planning approaches used by the four wilderness managing agencies.

NRSM 408 - Global Cycles and Climate

Credits: 3. Offered spring even-numbered years. Same as CCS 408. An analysis of the earth's major global biogeochemical cycles with a focus on the ways and extent to which each of them influences and interacts with the global climate system.

NRSM 415 - Environmental Soil Science

Credits: 3. Offered spring odd-numbered years Prereq., ENSC 245N or NRSM 210N or consent of instr. A detailed analysis of the physical, chemical and biological properties of soils and how they function, with a focus on soil processes and how they affect, and are affected by human activities. Specific topics include element cycling, water quality, the effects of environmental change soil biogeochemistry, plant-soil interactions, and the consequences of large-scale disturbances on soil processes.

NRSM 418 - Ecosystem Climatology

Credits: 3. Interactions between the biosphere and atmosphere to advanced undergraduate students and graduate students. This course will explore the interactions between Earth's biosphere and atmosphere and how they affect

climate over a range of scales. We will focus on the exchange of energy, mass, and important elements between the biosphere and atmosphere and how this exchange can lead to fascinating feedbacks in Earth's climate system. Basic physics and math is not required but it is recommended.

NRSM 422 - Nat Res Policy/Administration

Credits: 3. Offered autumn and spring. Policy formation in the United States and a survey of the major resource policies interpreted in their historical and political contexts.

NRSM 424 - Community Forestry & Conservtn

Credits: 3. Offered spring. Co-convened with NRSM 524. In-depth examination of the history, theory and management issues faced in community-driven forestry and conservation in the United States and abroad. Cannot get credit for both NRSM 424 and NRSM 524. Course Attributes: Co-Convened Course

NRSM 425 - Nat Res & Envir Economics

Credits: 3. Offered alternate spring. Prereq., ENSC 201S or FORS 320; and M 115, M 121, M 122, M 151, M 162, M 171, or 172. Introduction to analytical approaches for economic analysis of management of non-renewable resources, fisheries, forests, threatened and endangered species, and the atmosphere.

NRSM 426 - Climate and Society

Credits: 3. Offered spring. Co-convened with NRSM 526. This course examines the social and political aspects of climate change, with a focus on international and domestic processes and cases. Cannot get credit for both NRSM 426 and NRSM 526. Course Attributes: Co-Convened Course

NRSM 449E - Climate Change Ethics/Policy

Credits: 3. Offered autumn. Same as CCS 449E. This course focuses on the ethical dimensions of climate change policy. It will cover the following major topics: (1) climate change, personal and collective responsibilities, (2) ethics, climate change and scientific uncertainty, (3) distributive justice and international climate change negotiations, (4) intergenerational justice and climate change policy. Course Attributes: Ethical & Human Values Course

NRSM 455 - Riparian Ecology & Management

Credits: 3. Offered intermittently. Prereqs., successful completion or concurrent enrollment in NRSM 385 and completion of one of the following introductory ecology courses: BIOE 172, BIOE 370, BIOE 428, BIOE 447, BIOE 448, FORS 330, or NRSM 462. Importance of riparian/wetland areas and the complexities associated with their management for short and long term benefits.

NRSM 462 - Rangeland Ecology

Credits: 3. Offered spring. We will discuss the ecological principles and processes that drive the structure and function of rangeland ecosystems. We will focus on the intersections of plant, animal, ecosystem, and landscape ecology. We will weave in discussions of management to understand how rangeland dynamics contribute and respond to differing management paradigms.

NRSM 465 - Foundations of Restoration Ecology

Credits: 3. Offered spring. Prereq., graduate or junior or senior standing and NRSM 265 and one 300-400 level ecology courses: BIOE 370, BIOE 428, BIOE 447, BIOE 448, FORS 330, or NRSM 462; or consent of instructor. This course covers the primary ecological theories that inform the practice of ecological restoration. Topics include the dynamic nature of ecological systems, community assembly, biodiversity and ecosystem functioning, food web dynamics, ecological engineering, macroecology, and statistical issues and study design.

NRSM 475 - Environment & Development

Credits: 3. Offered spring. Co-convened with NRSM 575. Examines key social forces that influence how individuals, groups and nation-states understand and live within their bio-physical environments, especially policies and processes relating to development, corporate capitalism, globalization, culture, class and other forms of power and social relations. Pays close attention to ways both indigenous and introduced resource use and management practices (including conservation) variably impact people of different races, classes, genders, cultures and livelihood practices. Cannot get credit for both NRSM 475 and NRSM 575. Course Attributes: Co-Convened Course

NRSM 489E - Ethics Forestry & Conservation

Credits: 3. Offered autumn. Prereq., lower division course in Perspective 5 or consent of instr.; senior standing. Theoretical and practical ethical issues affecting the management of natural resources in national forests and on other public lands. Course Attributes: Ethical & Human Values Course

NRSM 491 - Special Topics

Credits: 1 TO 9. (R 9) Offered intermittently. Experimental offerings of visiting professors; new courses or one time offerings of current topics.

NRSM 494 - Seminar in Ecol Restoration

Credits: 1. Offered spring. Prereq., senior standing and successful completion or concurrent enrollment in NRSM 495; and consent of instr. This seminar provides a forum for students to share the results of practicum projects conducted in NRSM 495. Each student will lead at least one seminar during the semester.

NRSM 495 - Ecological Restor Practicum

Credits: 1 TO 6. (R-6) Offered every semester. Prereq., senior standing in the WLR major and successful completion of NRSM 344, a faculty-approved practicum proposal; and consent of instructor. The goal of this service-learning practicum is for students to gain real-world experience in the practice of ecological restoration. Students will implement aspects of a restoration or monitoring plan for a local management agency, organization or other sponsor. Course Attributes: Internships/Practicums

NRSM 498 - Internship

Credits: 1 TO 6. Offered every term. Prereq., consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off-campus. Prior approval must be obtained from faculty advisor and Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internship graduation limit 6

NRSM 499 - Senior Thesis

Credits: 1 TO 3. (R-3) Offered autumn and spring. Prereq., senior standing and consent of instr. Preparation of a major paper based on study or research in a field selected according to the needs and objectives of the student.

NRSM 501 - Research Methods

Credits: 3. Offered autumn. Prereq., a course in statistics or consent of instr. The nature of scientific research, planning research projects, organization and presentation of research results. Emphasis on the development of study plans for specific research projects. Level: Graduate

NRSM 513 - Nat Res Conflict Resolution

Credits: 3. Offered autumn. Same as ENST 513 and LAW 613. Examines the basic framework for preventing and resolving natural resource and environmental conflicts in America. Reviews the history of alternative approaches,

emphasizes the theory and practice of collaboration, and considers future trends. This highly interactive course uses lectures, guest speakers, case studies, and simulations. Level: Graduate

NRSM 515 - Enviro Negotiation Mediation

Credits: 3. Same as COMM 515 and ENST 515. This course prepares students to effectively engage in multiparty negotiation on natural resource and environmental issues. It is grounded in theory and provides an opportunity to develop practical skills in both negotiation and facilitation/mediation. Guest speakers, case studies, and simulations allow students to develop, test, and refine best practices. The course is face-paced, highly interactive, and serves as the second of three required courses in the Natural Resources Conflict Resolution Program. Level: Graduate

NRSM 520 - Forest Resource Economics

Credits: 3. Offered intermittently. Prereq., FORS 320 or equiv., an upper-division or graduate level course in microeconomics, and consent of instr. The demand for, and supply of, commodity products from the forest, including characteristics of demand for stumpage, logs and processed products, forest management and harvesting decisions, and the supply of stumpage, intermediate and processed products. Level: Graduate

NRSM 524 - Community Forestry & Conservtn

Credits: 3. Offered spring. Co-convened with NRSM 424. In-depth examination of agroforestry, community forestry, and opportunities and constraints to the use of trees in rural development and protected areas management. Level: Graduate
Course Attributes: Co-Convened Course

NRSM 526 - Climate and Society

Credits: 3. Offered spring. Co-convened with NRSM 426. This course applies relevant social and political theory to the problem of climate change and examines the social science of climate change. Cannot get credit for both NRSM 426 and NRSM 526. Level: Graduate
Course Attributes: Co-Convened Course

NRSM 532 - Forest Ecosystem Analysis

Credits: 3. Offered spring. Graduate standing only. Logical strategies for transforming ecosystem complexity into simplified simulation models with emphasis on space/time scaling and environmental policy relevance. Level: Graduate

NRSM 560 - Am Wilderness Phil & Policy

Credits: 4. History of the American Wilderness idea and associated policies, including the Wilderness Act and implementing regulations. Current management challenges also covered. Level: Graduate

NRSM 561 - Manag Wilderness Ecosystems

Credits: 4. Ecosystem science and policies and management practices related to managing specific resources, such as air, wildlife, and water, within wilderness. Management of non-conforming uses is also covered. Level: Graduate

NRSM 563 - Wilderness Planning

Credits: 4. Planning theory and effective plan development, including principles and practices of public involvement. Includes examination of primary planning frameworks. Level: Graduate

NRSM 570 - Political Ecology

Credits: 3. Graduate seminar on key theories, issues and literature in the subfield of Political Ecology, an interdisciplinary environmental social science approach which integrates how political, economic, cultural and ecological processes interact and shape society nature relations. Case examples are drawn from both the North and South. Level: Graduate

NRSM 571 - Int'l Conserv & Develop

Credits: 3. Offered spring. Prereq., graduate standing. Critical review of selected international natural resource development, conservation and management approaches and experiences. Level: Graduate

NRSM 575 - Environment & Development

Credits: 3. Offered spring. Co-convened with NRSM 475. Examines key social forces that influence how individuals, groups and nation-states understand and live within their bio-physical environments, especially policies and processes relating to development, corporate capitalism, globalization, culture, class and other forms of power and social relations. Pays close attention to ways both indigenous and introduced resource use and management practices (including conservation) variably impact people of different races, classes, genders, cultures and livelihood practices. Level: Graduate

NRSM 579 - Collaborative Conservation

Credits: 3. (R-4) Offered every semester. Same as ENST 579 and LAW 679. Prerequisite, ENST 513 or consent of instructor. Designed as the capstone experience of the Natural Resources Conflict Resolution Program. Provides practical experience in multi-party collaboration and conflict resolution. Students may design their own project in consultation with the director of the NRCR Program, or participate in a project organized and convened by faculty. Projects may be conducted year-round. Level: Graduate

NRSM 582 - Trop Ecos & Mgmt

Credits: 3. Offered spring. Prereq., graduate standing or consent of instr. Introduction to tropical forests and agroecosystems, and a critical examination of their management and conservation within the context of ecological, socioeconomic and political change. Level: Graduate

NRSM 586 - Snow Hydrology

Credits: 3. Offered intermittently. Prereq., graduate standing or consent of instr. The physics of snow formation, distribution and ablation. Snow and forest management in the subalpine zone. Level: Graduate

NRSM 594 - Seminar

Credits: 1 TO 4. (R-12). Offered intermittently. Prereq. graduate standing. Presentations by student, faculty, and associates on issues and topics in their field. Level: Graduate

NRSM 595 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

NRSM 596 - Independent Study

Credits: 1 TO 12. (R-12) Offered every term. Prereq., consent of instr. Individual study or research problems. Level: Graduate Course Attributes: Service Learning/Volunteer

NRSM 597 - Graduate Research

Credits: 1 TO 15. (R-15) Offered every term. Independent graduate research in forest management, wood science, soils, wildlife management, silviculture, recreation and other topic areas. Level: Graduate

NRSM 598 - Internship

Credits: 1 TO 2. (R-12) Offered every term. Practical application of academic learning in an off-campus placement. Prior approval must be obtained from faculty supervisor. Level: Graduate

NRSM 599 - Professional Paper

Credits: 1 TO 15. (R-15) Offered every term. Professional paper preparation. Level: Graduate

NRSM 622 - Advanced Problems in Env Policy

Credits: 3. Offered spring even-numbered years. Examines environmental policy problems and contemporary issues in environmental policy, law, and administration. Policy tools, concepts and research resources introduced. Numerous problems, themes, and issues in environmental policy analyzed. Readings-based seminar; students lead most reviews and discussions. Level: Graduate

NRSM 695 - Special Topics

Credits: 1 TO 12. (R-12) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

NRSM 697 - Graduate Research

Credits: 1 TO 15. (R-15) Offered every term. Independent graduate research in forest management, wood science, soils, wildlife management, silviculture, recreation and other topic areas. Level: Graduate

NRSM 699 - Thesis

Credits: 1 TO 15. (R-15) Offered every term. Thesis/dissertation preparation. Level: Graduate

Parks, Tourism & Recreation Management

PTRM 150 - Current Issues in PTRM

Credits: 1. Offered autumn. This course will explore issues related to recreation and tourism in western Montana. This is a field based course designed to get students outside the classroom. Students will have a chance to visit outdoor recreation areas and meet recreation and tourism managers.

PTRM 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PTRM 210 - Nature Tourism & Comm Rec

Credits: 3. Offered autumn. Introduction to the tourism and commercial recreation industries. Provides initial link between the natural environment and business operations. Combination of introductory business philosophies, economics, and natural resource management into a framework for future reference and course work.

PTRM 210S - Nature Tourism & Comm Rec

Credits: 3. Offered autumn. Introduction to the tourism and commercial recreation industries. Provides initial link between the natural environment and business operations. Combination of introductory business philosophies, economics, and natural resource management into a framework for future reference and course work. Course

Attributes: Social Sciences Course

PTRM 217S - Parks & Outdoor Rec. Mgmt.

Credits: 3. Offered autumn and spring. The management of land as an environment for outdoor recreation. Understanding the relationship between the visitor, resource base and management policies. Recreation planning on multiple use forest lands, parks, wilderness areas and private lands.

PTRM 230 - Programming in Recreation

Credits: 3. Offered intermittently. Principles of program planning for organized offerings in recreation. Selection, adaptation and evaluation of activities.

PTRM 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PTRM 300 - Recreation Behavior

Credits: 3. Offered spring. Prereq., PTRM 217S. This course provides an understanding of recreation behavior in wildland and nature-based tourism oriented settings. Students will learn about theories/conceptual frameworks from social and environmental psychology and their application to visitor management issues in the wildland recreation and nature-based tourism fields.

PTRM 310 - Nat Res Interp and Comm

Credits: 3. Offered autumn. Prereq., COMX 111A or THTR 120A, junior or senior standing in PTRM or RECM. Principles, concepts, techniques essential to providing high quality interpretive programs in natural or cultural history. Course Attributes: Writing Course-Upper-Division

PTRM 345X - Sustaining Human Soc & Nat Env

Credits: 3 TO 6. Offered Winter and Summer. These field-based, experiential classes focus on the environmental and conservation concerns, as well as the modern and traditional cultures, of Australia, New Zealand, or Fiji. Course Attributes: Indigenous and Global

PTRM 353 - Tourism & Sustainability Himalaya

Credits: 3. Offered summer only. Coreq. NRSM 352. In this course we will explore the opportunities and challenges of development with particular reference to nature-based tourism and sustainability in an isolated but rapidly globalizing region of the Himalaya. Students will learn through extensive readings, class discussions, direct field experience (including living in a remote mountain village), meetings with development officials, sustainability activists and stakeholders in the region.

PTRM 355 - Wild. Med. And Risk Mgmt.

Credits: 5. This course will train students in injury and illness prevention in a backcountry setting while emphasizing risk management principles. The course also trains students in the treatment and long-term management of medical emergencies in the backcountry, including improvised litters and splints. Instructors cover decision making involved in dislocation reduction, medication administration, and evacuation protocols. Risk management topics include participant screening, emergency response plans, risk matrices, and incident reporting. Co-requisites include HHP 332, Emergency Medical Technician and Incident Management; and PTRM 356, Wilderness Rescue and Survival Skills.

PTRM 356 - Wild. Rescue and Survival

Credits: 5. This course is ideal for outdoor leaders involved in extended backcountry trips and those individuals seeking employment with search and rescue units, ski patrols and wilderness trip leading organizations. Students will be prepared to handle emergencies in high-elevation, winter conditions as well as in tropical and swiftwater environments. They will also be prepared for extended care of patients and rescuers in remote and challenging environments. Students will study navigation including landform interpretation of maps and use of map rulers to determine lat/long and UTM coordinates, as well as practical use of maps, compass and GPS. The course includes

3 days of Swiftwater Rescue training, as well as 3 days of Level I Avalanche training. An overnight, winter rescue scenario typically in conjunction with Missoula County Sheriff's Search and Rescue team, as well as training in rescue helicopter operations with St. Patrick Hospital's LifeFlight medics, complete the suite of practical experiences. Co-Requisites include HHP 332, Emergency Medical Technician and Incident Management; and PTRM 355, Wilderness Medicine and Risk Management.

PTRM 380 - Rec Admin & Leadership

Credits: 3. Offered spring. The theories, principles and practices that shape the administration of recreation opportunities offered through public, nonprofit and private agencies and organizations. Course content includes leadership roles of recreation managers, organizational structure, management, legality, risk management, staffing, communication and public relations.

PTRM 391 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, new courses, or one-time offerings of current topics.

PTRM 392 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Course material appropriate to the needs and objectives of the individual student.

PTRM 394 - Seminar

Credits: 1 TO 4. (R-4) Offered intermittently. Variable topics by visiting scholars.

PTRM 398 - Internship

Credits: 1 TO 6. Offered every term. Prereq., consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

PTRM 407 - Mnging Rec Res in Wilderness

Credits: 3. Examination of strategies to management recreation in a wilderness setting. Addresses management of visitor use and experiences, measuring and monitoring biophysical and social impacts, effective education and interpretation, and law enforcement.

PTRM 418 - Winter Wilderness Field Studies

Credits: 3. Examination of wilderness values, management issues and strategies, winter ecology and snow science, risk management and group leadership, and traditional skills. Winter field course in the Swan Valley and Mission Mountains Wilderness. Offered wintersession.

PTRM 450 - Pre-Practicum Prof Prep

Credits: 1. Offered spring. A pre-practicum class to provide orientation for the practicum, PTRM 495 (RECM 460).

PTRM 451 - Tourism & Sustainability

Credits: 3. Offered spring. Prereq., PTRM 210, or consent of instructor. Theories and conceptual models are applied to analyzing relationships between the integration of planning theories to sustainability concepts. Course Attributes: Writing Course-Advanced

PTRM 482 - Wilderness & Protctd Area Mgt

Credits: 3. Offered spring. Prereq., PTRM 217S, or consent of instructor. Examination of the origin, evolution, and application of the park concept on state, federal, and international levels. Evaluation of legislation, philosophy, and policy leading to consideration of goals, objectives, and strategies for wilderness and protected area management.

Course Attributes: Writing Course-Advanced

PTRM 484 - PTRM Field Measurement Tech

Credits: 3. Offered autumn. Co-req. with either PTRM 485 or PTRM 451. Field measurement and management techniques critical in park, tourism & recreation management. Includes measurement of impacts on biophysical and social attributes of park, tourism & recreation settings.

PTRM 485 - Recreation Planning

Credits: 4. Offered spring. Prereq., PTRM 217S and PTRM 300. Offered autumn. Needs of recreation opportunities and response to those needs through planning, demand assessment and resource analysis.

PTRM 491 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, new courses or one-time offerings of current topics.

PTRM 492 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Individual study of research problems.

PTRM 494 - Seminar

Credits: 1 TO 4. Offered autumn and spring. Prereq., senior standing in wildlife biology or consent of instr. Analysis and discussion led by students of current topics in wildlife biology.

PTRM 495 - Practicum in PTRM

Credits: 1 TO 6. (R-15) Offered every term. Prereq., PTRM 380, PTRM 450, senior standing, and consent of instr. Supervised pre-professional practice in approved parks, tourism & recreation management agencies. Course

Attributes: Internships/Practicums

PTRM 498 - Internship

Credits: 1 TO 6. Offered autumn and spring. Prereq., consent of instr. Extended classroom learning during placements off campus. Prior approval must be obtained from faculty advisor and Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes:

Internships/Practicums

PTRM 499 - Senior Thesis

Credits: 1 TO 3. (R-6) Offered autumn and spring. Prereq., consent of instr.; senior standing. Preparation of major paper based on study or research of a topic selected with an advisor according to needs and objectives of student.

PTRM 500 - Conserv Social Sci Methods

Credits: 3. Offered autumn. Prereq., a course in statistics or consent of instr. The nature of scientific research, planning research projects, organization and presentation of research results. Level: Graduate

PTRM 517 - Advanced Visitor Mgmt

Credits: 3. Managing visitors in protected areas is an increasingly important. The U.S. National Park Service, for example, receives about 275 million visits per year. These visits impact both the parks and society on numerous levels. Many of the most perplexing issues associated with Protected Area Management are also visitor experience or access related. Visitors are managed to fulfill mandates, build constituencies for protected areas, generate

income and improve the human condition. In the past four decades several visitor management strategies and tactics have been developed and evaluated. Examples of these strategies include changing physical places or facilities to accommodate use, changing the character of uses and visitors, emphasizing education or law enforcement, developing concessions etc. Within those broad strategies are also numerous tactics that have been tried in numerous contexts. Charging user fees, rationing use, using passive vs. active interventions into the visitor experience are tactical examples. In our globalizing profession these strategies and tactics are being challenged to perform within the context of a variety of governance and institutional arrangements. While most approaches were developed for public land settings, they are now being used on private lands, in communal settings, or in areas of international importance. The central challenge of this course is to analyze the effectiveness and appropriateness of visitor management strategies for a variety of issues and in a variety of institutional contexts. To be sure our efforts connect both theoretical and applied perspectives, we will use a single case for the organization of the course. That case is developing a visitor management plan for the Going to the Sun Road Corridor in Glacier National Park. This is a real process that the professor is cooperatively involved with. We will meet one or two times per week depending on the needs of the group. Level: Graduate

PTRM 554 - Geographies of Tourism

Credits: 3. Consent of Instructor. This graduate level course will focus on geographic concepts such as place, space, and scale and their applications in tourism research. We will also cover spatial analysis techniques and their uses in tourism studies. The course will begin with an introduction to geography and its importance in tourism studies. Next, background on concepts and theories developed within the field of geography will be provided. From there we will begin to discuss ideas of space, place, landscapes and scale. In our discussion of scale we will focus on the politics of scale and ideas of globalization and the global-local nexus. This will lead into a discussion of networks and flows as they apply to tourism. We will also explore political geographies and gendered landscapes as they apply to tourism. Finally, we will explore some spatial analysis techniques used by geographers studying tourism. The course materials will be structured to give students information on how each topic is conceptualized by geographers, current theoretical debates relating to the topic and its applications in tourism research. The course will rely heavily on current literature, mainly from peer-reviewed journals and book chapters. Students will be expected to engage with these concepts through the literature in writing and discussion. Level: Graduate

PTRM 562 - Manage Rec Res Wilderness

Credits: 3. Same as FORS 562. Current research, theory, and management approaches to recreation management in wilderness, including monitoring and management of visitor impacts and experiences. Level: Graduate

PTRM 574 - Perspectives in Human Dimen

Credits: 3. Consent of instructor. This course will provide graduate students with an understanding of multiple perspectives in human dimensions of natural resources. The course is intended to be broad in nature in order to provide students with a comprehensive understanding of the topics. Students will read and discuss foundational pieces by Orr and Leopold (among others) and explore newer readings on current research. The course will cover social psychological and sociological perspectives and discuss key issues such as scale, multidisciplinary research, sustainability and social diversity in natural resources. Students will be challenged to approach natural resources issues from multiple perspectives, not just the perspective they are most familiar with. Students will be able to communicate effectively among social scientists and be able to integrate diverse perspectives. Level: Graduate

PTRM 582 - Concept of Wilderness & PA

Credits: 3. (R-3). Offered autumn. Theoretical and philosophical imperatives for the establishment of different forms of parks, wilderness and protected areas. In-depth discussion of the objectives and purposes for management of these areas, and of the current criticisms and attacks on their intellectual foundation. Level: Graduate

PTRM 583 - Research & Dev. Tourism & Rec.

Credits: 3. This course will use Montana as a case study to understand tourism and recreation research and the tourism and recreation industry. From an applied research prospective, students will learn the intricacies of how to design a research program to support a tourism and recreation industry where the data and decision making tools for marketing professionals, land managers, planners, and political entities are generated. How do you build your relationships, work with advisory councils, pick your issues to study, design your methodologies, collect and analyze data, and tell the story so it is applicable to the industry yet objective and science driven? Level: Graduate

PTRM 594 - Conservation Soc Sci Seminar

Credits: 1 TO 2. (R-3) Offered Spring. Same as NRSM 594. Prereq. graduate standing. Presentations by students, faculty, and associates on issues and topics in their field. Level: Graduate

PTRM 595 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

PTRM 596 - Independent Study

Credits: 1 TO 10. (R-10) Offered every term. Prereq., consent of instr. Individual study or research problems. Level: Graduate Course Attributes: Service Learning/Volunteer

PTRM 597 - Research

Credits: 1 TO 12. (R-12) Offered every term. Prereq., graduate standing. Independent graduate research in parks, tourism, and recreation management. Level: Graduate

PTRM 598 - Internship

Credits: 1 TO 12. (R-12) Offered every term. Prereq., consent of instr. Extended classroom experience that provides practical application of classroom learning during placements off campus. Prior approval must be obtained from faculty advisor and Internship Services office. Level: Graduate Course Attributes: Internships/Practicums

PTRM 599 - Professional Paper

Credits: 1 TO 15. (R-15) Offered every term. Preparation of professional paper. Level: Graduate

PTRM 695 - Special Topics

Credits: 1 TO 6. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

PTRM 697 - Research

Credits: 1 TO 15. (R-15) Offered every term. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

PTRM 699 - Thesis

Credits: 1 TO 15. (R-15) Offered every term. Prereq., graduate standing. Preparation of thesis/dissertation. Level: Graduate

Recreation Management

RECM 405 - Manage Wilderness Res

Credits: 4. An ecology-based treatment of wilderness management. Brief overview of fundamental ecological principles followed by an examination of their specific and often unique application to wilderness ecosystems. Presentation of basic wilderness management principles and guidelines. Discussion of nonconforming wilderness uses.

Fish, Wildlife Science & Management

WILD 105N - Wildlife & People

Credits: 3. Offered autumn. Intended for non-wildlife biology majors. Interactions of wildlife and people in today's society. Course Attributes: Natural Science Course

WILD 170 - Fish & Wildlife Interest Group

Credits: 1. Offered autumn. Discussion section for incoming students.

WILD 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

WILD 240 - Intro to Biostatistics

Credits: 3. Offered autumn. Prereq., calculus and consent of instr. Introduction to statistical ecology: distributions, hypothesis testing, and fitting models to data with emphasis on problems in ecological sampling. Course Attributes: Honors Course

WILD 275 - Wildlife Conservation

Credits: 2. Offered spring. Prereq., sophomore standing or consent of instr. Principles of animal ecology and framework of wildlife administration as a basis for the conservation of wild birds and animals, and biodiversity. Intended for non-wildlife biology majors.

WILD 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

WILD 346 - Wildlife Physiological Ecology

Credits: 3. Offered autumn. Prereq., BIOB 272. How physiological and biochemical processes in animals influence behavior and ecology. Application of physiological approaches to wildlife conservation such as assessment of animal health, nutritional condition, and physiological performance.

WILD 370 - Wildlife Habitat Cons & Mgmt

Credits: 3. Offered autumn and spring. Prereq., junior/senior standing in wildlife biology, BIOE 370, or consent of instr. Application of principles of wildlife biology to conservation and management of wild bird and mammal habitats including field applications.

WILD 374 - Hunter Check Station

Credits: 1. (R-2) Offered autumn. Students learn techniques for determining species, age and sex of game animals, then work 3-5 days as volunteers at hunter check stations operated by management agencies.

WILD 391 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

WILD 392 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Course material appropriate to the needs and objectives of the individual student.

WILD 398 - Internship

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of department. Extended classroom experience that provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

WILD 408 - Advanced Fisheries

Credits: 3. Offered spring. Prereq., BIOO 340. Quantitative analysis and interpretation of fish populations and community data for use in management. Selection, application and evaluation of management techniques. Course Attributes: Writing Course-Advanced

WILD 410 - Wildlife Policy & Biopolitics

Credits: 3. Offered autumn. Prereq., junior standing. Overview of the laws affecting wildlife and how those laws are initiated, implemented, and enforced; impact of politics, interest groups, and agency jurisdictions.

WILD 460 - Internat Wildlife Cons Issues

Credits: 2. Offered spring. Prereq., a course in wildlife biology and/or conservation biology. Review of major international wildlife conservation issues with emphasis on the social context of the issues and applied solutions.

WILD 470 - Conserv of Wildlife Populatns

Credits: 3. Offered autumn and spring. Prereq., BIOE 370, M 162 or M 171, and senior standing in Biology, Forestry, Resource Conservation, Recreation Management or Wildlife Biology. Application of population ecology principles and theory to the conservation and management of wildlife populations. Course Attributes: Writing Course-Advanced

WILD 472 - Wildlife Hand & Chem Immobiliz

Credits: 2. Offered spring. Principles of wildlife chemical immobilization for researchers and managers. Ethical and legal issues, field organization, animal care and handling, immobilizing drugs, drug delivery systems, animal monitoring and veterinary emergencies. No labs.

WILD 480 - The Upshot--Appld Wildlife Mgt

Credits: 3. Offered spring. Prereq/Coreq., WILD 370 or WILD 470. Designed for students to apply their knowledge in the development of wildlife management planning.

WILD 485 - Aquatic Invertebrate Ecology

Credits: 3. Offered autumn. Prereq., one 300-400 level ecology course: BIOE 370, BIOE 428, BIOE 447, BIOE 448, FORS 330, or NRSM 462. This course is designed to provide students an understanding of the life histories, ecology and importance of macroinvertebrates in freshwater aquatic systems. The primary focus will be on insects,

although an introduction to other invertebrates will also be included. The lab portion will involve identification of major groups of aquatic macroinvertebrates and participation in an environmental assessment using invertebrates as indicators of stream condition and restoration efficacy.

WILD 491 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, new courses, or one-time offerings of current topics.

WILD 492 - Independent Study

Credits: 1 TO 10. (R-10) Offered every term. Prereq., consent of instr. Original investigations or problems not related to student's thesis.

WILD 494 - Senior Wildlife Seminar

Credits: 1. Offered autumn and spring. Prereq., senior standing in wildlife biology or consent of instr. Analysis and discussion led by students of current topics in wildlife biology.

WILD 498 - Internship

Credits: 1 TO 6. Offered every term. Prereq., consent of department. Extended classroom experience that provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

WILD 499 - Thesis

Credits: 1 TO 3. (R-6) Offered autumn and spring. Prereq., consent of instr.; senior standing. Preparation of major paper based on study or research of a topic selected with an advisor according to needs and objectives of student.

WILD 540 - Research Design

Credits: 3. Offered autumn. Prereq., introductory statistics course or consent of instr. Examination of study designs for experiments, quasiexperiments, observational studies, and sampling surveys with an emphasis on application.

Level: Graduate

WILD 542 - Statistical Applications in Wildlife Biology

Credits: 1 TO 2. (R-5) Offered autumn odd-numbered years. Explores statistical problems encountered by wildlife biology and ecology graduate students. Students will bring statistical problems of interest to class where, as a group, we will explore analysis options, assumptions, pitfalls, and alternative solutions. Level: Graduate

WILD 545 - Strong Inference Science

Credits: 1. (R-7) Offered every fall. Graduate level, or consent of instructor for advanced undergraduates. Teach principles and philosophy of conducting strong inference science. Practical application to student's own thesis research. Level: Graduate

WILD 560 - Landscape Conservation

Credits: 3. Offered spring. Examination of how various spatial and temporal scales influence wildlife and their habitats. Level: Graduate

WILD 562 - Wildlife Habitat Modeling

Credits: 4. Offered spring, odd years. Prereq., consent of instr. A survey of theory and applications in the study of resource selection by animals. Level: Graduate

WILD 563 - Topics in Habitat Ecology

Credits: 1. (R-15) Offered every term. Prereq., consent of instr. Discussion of recent scientific papers on advances in ecology, conservation, and population dynamics as related to habitat ecology and conservation. WBIO 562 or equivalent strongly recommended. Level: Graduate

WILD 564 - Scientific Writing

Credits: 3. Offered spring, even years. Exploration of the major components and process of scientific writing within the field of Wildlife Biology, primarily focusing on research proposals and peer-review publications. Level: Graduate

WILD 568 - Topics in Aquatic Ecology

Credits: 1. (R-15) Offered every term. Prereq., consent of instr. Review and synthesis of the scientific literature current issues and analyses in aquatic ecology. We assume a general understanding of fish biology, aquatic ecology, as well as a background in population, community and ecosystem ecological concepts. Level: Graduate

WILD 570 - Applied Population Ecology

Credits: 3. Offered spring even-numbered years. Prereq., courses in ecology, statistics, and calculus. Application of advanced population ecology tools and concepts to the evaluation of human perturbations on wildlife populations. Topics include methods to detect declining trends, the interacting components of population viability analysis, and identification of strategies to reverse declines. Level: Graduate

WILD 580 - Populations Dynamics

Credits: 1. (R-15) Offered autumn and spring. Prereq., consent of instr. Discussion of recent papers on interface of population dynamics, ecological interactions, and wildlife management. Level: Graduate

WILD 594 - Grad Sem Wldlf Biol

Credits: 1. (R-15) Offered autumn and spring. Prereq., graduate standing in wildlife biology or Fish Wildlife Biology or consent of instr. Analysis of selected problems in wildlife biology and conservation. Level: Graduate

WILD 595 - Special Topics

Credits: 1 TO 12. (R 20) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

WILD 596 - Independent Study

Credits: 1 TO 15. (R-15) Offered every term. Prereq., graduate standing and consent of instr. Original investigations or problems not related to student's thesis. Level: Graduate Course Attributes: Service Learning/Volunteer

WILD 597 - Research

Credits: 1 TO 15. (R 15) Offered every term. Prereq., graduate standing in wildlife biology or consent of instr. Graded pass/not pass only. Level: Graduate

WILD 599 - Professional Paper

Credits: 1 TO 15. (R-15) Offered every term. Prereq., graduate standing in wildlife biology and consent of instr. Professional paper written in the area of the student's major interest based on either primary or secondary research. Subject matter must be approved by graduate committee. Graded pass/not pass only. Level: Graduate

WILD 697 - Research

Credits: 1 TO 20. (R-20) Offered every term. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

WILD 699 - Thesis

Credits: 1 TO 20. (R-20) Offered every term. Prereq., graduate standing in wildlife biology. Preparation of thesis.
Level: Graduate

Writing

WRIT 222 - Technical Approach to Writing

Credits: 2. Offered every term. Restricted to majors in Forestry, Resource Management, Park and Recreation, Wilderness Studies, and Wildlife Biology. Emphasis on strategy, style and tone in effective technical prose. Traditions of technical writing and how to adopt a wide range of tones and styles in writing various technical documents to diverse audiences. Focus on more effective technical sentences, paragraphs and larger writing components. Assignments include analyses, summaries, employment documents, research reports, case studies and editing/revision exercises. Course Attributes: Writing Course-Intermediate

WRIT 325 - Science Writing

Credits: 3. Offered spring. Prereq., WRIT 101 or equiv. and sophomore standing. Discussion of different types of science writing and focus on methods to achieve more fluent prose. Includes material on logic, inference, and developing arguments that rely on data. Course Attributes: Writing Course-Intermediate

Department Faculty

Professor

- Anna Klene, Associate Professor
- Ashley Ballantyne, Assistant Professor of Bioclimatology
- Bill Borrie, Professor of Park and Recreation Management
- Chad Bishop, Director, Wildlife Biology Program
- Dave Naugle, Professor Large Scale Wildlife Ecology
- David L. Moore, Professor
- Diana Six, Professor of Forest Entomology/Pathology; Chair, Department of Ecosystems & Conservation Sciences
- Edwin Burke, Professor of Wood Science & Technology; Chair, Department of Forest Management
- Erick Greene, Professor
- F. Richard Hauer, UM Director-Institute on Ecosystems
- Jill M. Belsky, Professor of Rural & Environmental Sociology; Chair, Department of Society & Conservation
- Joel Berger, John J. Craighead Chair
- Johnnie N. Moore, Ph.D., University of California (Los Angeles), 1976
- Len Broberg, Professor
- LLoyd Paul Queen, Professor of Remote Sensing; Director, National Center for Landscape Fire Analysis
- Martin Nie, Professor, Natural Resource Policy; Director, Bolle Center for People & Forests
- Maryann Bonjorni, Professor
- Norma Nickerson, Research Professor; Director of ITRR
- Patrick Burke, Adjunct Instructor of Philosophy

- Paul Krausman, Boone and Crockett Professor of Wildlife Conservation
- Ragan Callaway, Professor
- Richmond Clow, Professor
- Stephen F. Siebert, Professor of Tropical Forest Conservation & Management; Undergraduate Program Director, Resource Conservation
- Steve Running, Regents Professor of Ecology; Director, Numerical Terradynamics Simulation Group
- Wayne Freimund, Interim Dean; Professor, Protected Area Management
- Zachary Cheviron, Assistant Professor

Associate Professor

- Anna Klene, Associate Professor
- Beth Dodson, Associate Professor of Integrated Natural Resource; Undergraduate Program Director, Forestry
- Cara Nelson, Associate Professor of Restoration Ecology
- Carl Seielstad, Associate Research Professor; Fire/Fuels Program Manager, National Center for Landscape Fire Analysis
- Christopher R. Keyes, Research Professor of Silviculture
- Cory Cleveland, Associate Professor of Terrestrial Ecosystem Ecology
- Creagh Breuner, Professor
- Dan Spencer, Associate Professor
- Dane Scott, Associate Professor of Ethics; Director of the Center for Ethics
- David Affleck, Associate Professor of Biometrics; Director of the Inland Northwest Growth & Yield Cooperative
- Derek Kellenberg, Associate Professor
- Joel T. Harper, Ph.D, University of Wyoming, 1998
- John Goodburn, Associate Professor of Silviculture
- Keith Bosak, Associate Professor of Nature Based Tourism and Recreation
- Laurie Yung, Associate Professor of Natural Resource Social Science
- Lisa Eby, Associate Professor of Aquatic Vertebrate Ecology; Undergraduate Program Director, Ecological Science & Restoration
- Louise Economides, Associate Professor
- Mark Hebblewhite, Associate Professor of Ungulate Habitat Ecology
- Nancy Cook, Professor
- Peter Koehn, Comparative Government & Politics & Public Administration
- Peter Kolb, Associate Professor of Forest Ecology & Management
- Philip Higuera, Associate Professor of Fire Ecology
- Robin Saha, Associate Professor
- Solomon Dobrowski, Associate Professor of Forest Landscape Ecology
- Steve Schwarze, Professor & Department Chair
- Ulrich Kamp, Professor
- Winsor Lowe, Associate Professor

Assistant Professor

- Alexander L. Metcalf, Research Assistant Professor
- Andrew Larson, Associate Professor of Forest Ecology

- Angela Luis, Assistant Professor of Population & Disease Ecology
- Ashley Ballantyne, Assistant Professor of Bioclimatology
- Ben Colman, Assistant professor of aquatic ecosystem ecology
- Bradley Layton, Energy Technology Program Director/Associate Professor
- Brady Allred, Assistant Professor of Rangeland Ecology
- Brian Chaffin, Assistant Professor of Water Policy
- Elizabeth Covelli Metcalf, Assistant Professor of Recreation Management & Human Dimensions of Natural Resources; Undergraduate Program Director, PTRM
- James Riddering, Adjunct Research Assistant Professor; Remote Sensing Program Manager, National Center for Landscape Fire Analysis
- Jeffrey Good, Assistant Professor
- Jennifer Thomsen, Assistant Professor of Park, Recreation, and Tourism Management
- Kelsey Jencso, Assistant Professor, Watershed Hydrologist
- Natalie Dawson, Director of the Wilderness Institute
- Paul M. Lukacs, Associate Professor of Quantitative Wildlife Ecology
- Victoria Dreitz, Assistant Professor, Wildlife Biology Program; Director, Avian Science Center

Adjunct

- James Riddering, Adjunct Research Assistant Professor; Remote Sensing Program Manager, National Center for Landscape Fire Analysis
- Kevin McManigal, Lecturer & GIST Certificate Coordinator
- Mike Mitchell, Unit Leader, Montana Cooperative Wildlife Research Unit; Research Professor
- Nicky Phear, Climate Change Studies Instructor and Program Coordinator
- Thomas E Martin, DBS Associated Faculty

Affiliates

- Michael Schwartz, Adjunct Reseach Assistant Professor of Wildlife Biology

Emeritus

- Daniel Pletscher, Professor of Wildlife Biology, Emeritus
- Kerry Foresman, Professor Emeritus
- Paul Alaback, Professor Emeritus of Forest Ecology
- Richard Hutto, Professor Emeritus
- Steve McCool, Professor Emeritus of Wildland Recreation Management

Graduate School

J.B. Alexander Ross, Ph.D. - Dean of the Graduate School

Graduate education explores and advances knowledge boundaries and re-defines the state-of-the-art in every discipline. A master's degree will improve a person's expertise in their given field while a doctoral degree will promote original research that advances the current knowledge in the field.

The mission of the Graduate School is to improve and advance graduate education at the University of Montana. Our graduate programs train the next generation of scholars and enable the generation of new knowledge that will contribute to the scientific, economic and cultural needs of the state, the nation and the global community in the 21st century. The Graduate School carries out its mission through student advocacy, promotion of diversity and inclusivity, promotion of research, and development of dynamic, synergistic paths for education.

The Graduate School administers admission to masters and doctoral graduate programs at the University of Montana. Questions about specific programs should be directed to the appropriate college or school. There are currently 83 different graduate programs at the University of Montana that provide curricula for Master's, Educational Specialist, and Doctoral degrees. A complete list of programs is found in the [Graduate School webpage](#) and on the [Degree and Majors webpage](#). The [Skaggs School of Pharmacy](#), the [School of Physical Therapy and Rehabilitation Science](#), and the [School of Law](#) administer the Professional Doctorates in Pharmacy, Physical Therapy, and Juris Doctor, respectively.

Applicants complete an online application, providing the information required by the graduate program of interest. Official test scores are sent to the Graduate School, while transcripts are sent to the program. Many, but not all, graduate programs have a specific application deadline. Each program has an admissions committee that evaluates the application, and the committee's final decision is forwarded as a recommendation to the Graduate School. The applicant then receives an electronic decision letter from the Graduate School.

Please refer to the [graduate school website](#) for degree programs offered. For further questions, please call us at 406-243-2572 or via email at grad.school@umontana.edu.

College of Health Professions and Biomedical Sciences

Reed Humphrey, Dean

Howard D. Beall, Associate Dean for Pharmacy

The College of Health Professions and Biomedical Sciences offers the Bachelor of Arts in Social Work, the Doctor of Pharmacy (Pharm.D.) degree; Master of Science degrees in Neuroscience, Pharmaceutical Sciences, Toxicology, and Medicinal Chemistry; the Master of Public Health degree; the Master of Social Work degree; the Doctor of Physical Therapy degree; and the Doctor of Philosophy (Ph.D.) degrees in Biomedical Sciences, Neuroscience, Toxicology, and Medicinal Chemistry.

The focus of these programs is to provide a composite of educational experiences that will produce a well-educated person and a highly trained, professional social worker, health care practitioner or scientist.

Health Sciences

Health science courses are concerned with fundamental issues in human health and disease and are, therefore, interdisciplinary in both scope and content. They have been designed not only for students anticipating careers in medicine, dentistry, nursing, public health, pharmacy, social work, medical technology, physical therapy, cytotechnology, and numerous other health care professions and services, but for all students interested in individual and community health, the clinical and paramedical arts, and the biomedical sciences. Health sciences courses are listed under two designations: 1) Allied Health: Health Sciences; 2) other disciplines.

Health Sciences Courses

Allied Health: Health Sciences

- AHHS 191 Special Topics
- AHHS 201 Living Well: Health and Disability
- AHHS 291 Special Topics
- AHHS 320 American Indian Health Issues
- AHHS 325 Introduction to Gerontology
- AHHS 327 Montana Gerontology Society Meeting
- AHHS 389 Recent Advances in Clinical Medicine
- AHHS 390 Research
- AHHS 391 Special Topics
- AHHS 394 Medical Preparation and Overview
- AHHS 395 Geriatric Practicum
- AHHS 420 Geriatric Health Issues
- AHHS 430 Health Aspects of Aging
- AHHS 440 Psychosocial Aspects of Illness and Disability in Older Persons
- AHHS 490 Research
- AHHS 491 Special Topics

Anthropology

- ANTY 211 Anthropological Genetics
- ANTY 227 Human Sexuality
- ANTY 333 Culture and Population
- ANTY 426 Culture, Health and Healing

Economics

- ECNS 310 Health Economics

Health and Human Performance

- HEE 110 Personal Health and Wellness
- NUTR 221N Nutrition

Microbiology

- BIOM 250N Elementary Microbiology
- BIOM 251 Elementary Microbiology Laboratory
- BIOM 400 Medical Microbiology

Native American Studies

- NASX 388 Native American Health and Healing

Social Work

- SW 423 Addiction Studies
- SW 455 Social Gerontology

Pharmacy

- PHAR 110N Use and Abuse of Drugs
- PHAR 145N Intro to Cancer Biology
- PHAR 320 American Indian Health Issues

Philosophy

- PHL 321E Philosophy and Biomedical Ethics

School of Physical Therapy and Rehabilitation Science

Anita Santasier, Chair

The professional program in physical therapy grants the Doctor of Physical Therapy (DPT) degree. The program has an entry-level DPT program, an entry-level DPT/MBA program, and a post-entry level transitional DPT curriculum leading to the DPT degree. The following section describes the profession and the pre-professional

requirements and application procedures. This information also is available on the program website at www.health.umt.edu/schools/pt.

The Profession

Physical Therapy is a health care profession concerned with the habilitation and rehabilitation of individuals having limitations resulting from pathological, surgical, or traumatic conditions. The profession is also concerned with health, wellness and prevention of disability in an effort to promote maximal use of an individual's capacities and reduce their risk of illness. Physical therapists are trained to evaluate neurological, musculoskeletal, cardiovascular, respiratory, and integumentary disorders. Exercise and physical agents, such as heat, cold, light, electricity, and massage are used to promote healing, relieve pain, maintain or restore strength, and improve joint range of motion and functional capabilities. Physical therapists play key roles in: 1) the physical therapy diagnosis and treatment of musculoskeletal injuries, 2) wellness and injury prevention, 3) rehabilitating injured workers to return to their jobs, 4) rehabilitating senior citizens after debilitating disease to enable them to remain independent, 5) helping handicapped children to live within the least restrictive environment, 6) preventing and treating sports-related injuries, and 7) conducting research in the basic and clinical sciences. Knowledge of the psychological and social ramifications of disability affecting the individual and his or her family is an integral part of physical therapy intervention.

Physical therapy is practiced in diverse settings, including hospitals, clinics, skilled nursing facilities, sports medicine programs, public schools, and private practices. Legislation in Montana permits direct public access to physical therapists for evaluation and treatment without a physician referral. Even so, physical therapists remain committed to functioning as an integral member of the health care team.

The physical therapy educational program at the University of Montana seeks to prepare physical therapists who have a broad base of skills upon graduation, and who will be able to implement physical therapy services in many settings, especially rural environments. Rural settings require a physical therapist to serve not only as a provider of direct patient care, but also to fulfill the roles of administrator, supervisor, teacher, consultant, and researcher. Students successfully completing the professional program meet the competencies for physical therapy as determined by the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association, receive a Doctor of Physical Therapy degree, and are prepared for state licensure.

The Physical Therapy Program is accredited by the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association through 2018.

High School Preparation:

Specific high school courses are not required but a background is recommended in mathematics, chemistry, biology, physics, English, and communication skills.

Pre-Professional Physical Therapy Curriculum and Application Process

Students wishing to apply to the professional physical therapy program at the University of Montana-Missoula may select any major for their undergraduate degree. While pre-physical therapy is not a degree-granting major at the University, prospective applicants should list pre-professional physical therapy (PPPT) as their second major. This will allow them also to receive advising from the School of Physical Therapy and Rehabilitation Science in order to assure adequate preparation for the professional program. In addition to completing a baccalaureate degree, applicants must take the following prerequisite courses and meet the additional application requirements listed. All prerequisite courses must be taken for a traditional letter grade and must be completed with a grade of "C" (2.00) or better.

Prerequisite Courses and Credits

Human Anatomy and Physiology: minimum of two semesters or two to three quarters of human anatomy and physiology. This coursework must be completed either in a biology-based science department or a kinesiology-based department with an accompanying lab. A full sequence must be completed of two semesters or two to three quarters, depending upon what is offered by the institution. A comparative vertebrate anatomy and an animal physiology course may be substituted for human anatomy and physiology.

Chemistry: A full sequence must be completed of two semesters or two to three quarters, depending upon what is offered by the institution.

Physics: A full sequence must be completed of two semesters or two to three quarters, depending upon what is offered by the institution.

Statistics: minimum of one semester or quarter of statistics coursework.

Social Sciences: minimum of two semesters or three quarters of social/behavioral science classes. These classes may include courses offered by Psychology, Educational Psychology, Sociology, Social Work, Cultural Geography or Anthropology departments.

Certification in adult, child, and infant CPR is assumed.

Computer literacy is assumed. You should be able to utilize email communication, word processing, statistical and spreadsheet programs and be able to complete searches on the Web.

Department Faculty

Professor

- Charles Leonard, Professor, Physical Therapy

Associate Professor

- James J. Laskin, Associate Professor, Physical Therapy
- Ryan L. Mizner, Associate Professor
- Anita Santasier, Chair

Assistant Professor

- Jennifer Bell, Clinical Assistant Professor/Associate Director of Clinical Education
- David Levison, Clinical Assistant Professor, Director of Clinical Education
- Sambit Mohapatra, Assistant Professor, Physical Therapy
- Alex Santos, Assistant Professor, Physical Therapy, Director of Motor Control Laboratory

Research Faculty

- Ryan Mays, Research Assistant Professor of Exercise Physiology

Affiliates

- Kimberly Mize, Affiliated Clinical Faculty

Course Descriptions

Allied Health: Health Sciences

AHHS 582 - Implementing Value Based System Change in Rehabilitation

Credits: 1. Offered autumn, spring, summer. Prereq. Enrolled in the Rehabilitation Business Administration Certificate. Enhance the learner's appreciation of the management, data, and system skills needed to successfully innovate and implement necessary value based practice changes to compete in the changing rehabilitation healthcare landscape. Level: Graduate

AHHS 584 - Leadership to Develop Innovative Clinical Practice for Value Based Care

Credits: 2. This course will explore the drivers of health care reform, the key strategies to implement value based care. The required leadership and organizational characteristics to support innovations and transformative health care. Level: Graduate

AHHS 599 - System Skills to Thrive in a Changing Health Care Environment - Capstone Project

Credits: 4. This course will culminate in a capstone project describing the concept of system skills (ie., intrinsic interest in data, the ability to devise solutions to problems identified by the data; and understanding of how to implement practice innovations on a large scale) with relevance to physical therapy practice. The course has three components 1) the importance of measurement and the resultant systems data, 2) the concept of 'positive deviants'

and provides case examples of innovators who are using systems data to solve clinical challenges, and 3) performance of a capstone project by the student related to their clinical issue. Level: Graduate

Physical Therapy

P T 503 - PT and Health Care System

Credits: 4. Offered autumn. An introduction to physical therapy and its relationship to the health care system. Topics include introduction to PT as a profession, medical terminology, medical records, teaching and learning, ethics, laws and professional issues in physical therapy. Level: Graduate

P T 510 - Applied Clinical Anatomy

Credits: 5. Offered autumn. Prereq., course in human anatomy or comparative vertebrate anatomy. Anatomy of the neuromusculoskeletal system and body cavities in relation to movement and function with clinical correlates. Course lab fee. Level: Graduate

P T 516 - Movement System Exam & Eval

Credits: 5. Offered autumn. Prereq., PT 510, 529. Principles of musculoskeletal examination and evaluation including posture, neurologic screen, palpation, measurement of ROM and muscle performance, assessment of muscle length, and joint play. Level: Graduate

P T 519 - Musculoskeletal Management I

Credits: 4. Offered spring. Prereq., PT 510, 516, 529. Coreq., PT 530, 524. Principles of musculoskeletal examination, evaluation, and intervention. The focus is application of anatomic and biomechanical principles when examining posture and movement, identification of abnormal movement patterns, and analysis of underlying neuromuscular impairments. Level: Graduate

P T 520 - Development Through Life Span

Credits: 2. Offered spring. Presentation of changes in adults they progress through the lifespan. Includes the functional changes associated with aging, assessing and managing fall risk, performance and interpretation of functional outcome measures. Level: Graduate

P T 523 - Clinical Medicine I: Intro to Med

Credits: 1. Introduction to medical screening within the patient/client management model. Level: Graduate

P T 524 - Clin Med II Intro to Med

Credits: 1. Offered spring. Prereq., PT 523. Introduction to pharmacology, medical management of selected orthopedic and hematological conditions. Level: Graduate

P T 525 - Clin Med III

Credits: 2. Offered autumn. Prereq., PT 523 or PT 516, and PT 524 or 519. Pathophysiology, medical and pharmacological management of hepatic, oncological, immunological diseases and organ transplantation. Level: Graduate

P T 526 - Foundational Skills & Intervention

Credits: 3. Offered autumn. Coreq., PT 510, 516. Basic skills of transfers, bed mobility, gait assistive device use, and soft tissue mobilization. Level: Graduate

P T 527 - Physical & Electrophysical Agents

Credits: 3. Offered spring. Physiology, indications, contraindications, and application of electrotherapy and physical agents. Theory and application of electrodiagnostic and electrotherapeutic procedures. Level: Graduate
P T 529 - Biomechanics

Credits: 4. Offered autumn. Coreq., PT 510. Principles of biomechanics and application to physical therapy. Level: Graduate
P T 530 - PhysClinical Applied Exercise Physiology

Credits: 4. Offered spring. Prereq., PT 510. Principles and applications of the physiological adaptations to acute and chronic exercise stresses, exercise assessment/testing, prescription and progression of the exercise program, and the adaptations of exercise interventions in the clinical environment. Basic principles and application of Proprioceptive Neuromuscular Facilitation (PNF). Level: Graduate
P T 536 - Neurosciences

Credits: 5. Offered spring. Anatomy of the head and neck, and neuroanatomy of the human nervous system with emphasis on evaluation of central nervous system lesions and pathological conditions, clinical applications to physical therapy. Level: Graduate
P T 560 - Clinical Reasoning I

Credits: 1. Offered spring. Introduction to the clinical reasoning process in physical therapy, faculty research and scholarship options, and laboratory orientation. Level: Graduate
P T 563 - Cardiopulmonary PT

Credits: 3. Offered autumn. Prereq., PT 510, 516, 530. Cardiovascular and pulmonary pathology, pharmacology, and differential diagnosis. Physical therapy assessment and interventions for patients with cardiovascular and/or pulmonary disease. Level: Graduate
P T 565 - PT for Children

Credits: 2. Offered autumn. Prereq., PT 520, PT 536. Normal development throughout childhood. Evaluation and intervention of neuromotor and musculoskeletal physical therapy rehabilitation of children. Physical therapy for children in school systems. Level: Graduate
P T 567 - Neurorehabilitation I

Credits: 3. Offered autumn. Prereq., PT 536. Neurologic physical therapy assessment and intervention of adults with cerebrovascular accidents, Parkinson disease, or multiple sclerosis. Motor control and motor learning and application to physical therapy neurorehabilitation. Includes wheelchair and home assessment. Level: Graduate
P T 568 - Neurorehab II

Credits: 3. Offered spring. Prereq., PT 536. Neurologic physical therapy assessment and intervention of adults with traumatic brain injury or spinal cord injury, degenerative neurological conditions, neurological diseases. Also includes assessment and treatment of vestibular system and conditions. Level: Graduate
P T 569 - Musculoskeletal Management II

Credits: 5. Offered autumn. Prereq., PT 510, 516, 519, 529, 530. Principles of musculoskeletal examination, evaluation, and intervention for the hip, knee, ankle, foot, and lumbar spine. Level: Graduate
P T 570 - Psych of Illness & Disability

Credits: 2. Offered autumn. Psychological response to illness and disability to include patient motivation, patient/professional interaction, and treatment of persons with chronic pain. Level: Graduate

P T 572 - Practice & Administration

Credits: 2. Offered spring. Practice management and operations explored with emphasis on strategic planning, human resource management, regulatory compliance/risk management, quality improvement and coding payment.

Level: Graduate

P T 573 - Musculoskeletal Management III

Credits: 4. Offered spring. Prereq., PT 510, 516, 519, 529, 530. Principles of musculoskeletal examination, evaluation, and intervention for the shoulder, elbow, wrist, hand, temporomandibular joint (TMJ), thoracic and cervical spine. Level: Graduate

P T 576 - Clinical Reasoning II

Credits: 2. Offered autumn. This course will build on the foundations established in Clinical Reasoning I. Issues related to clinical and research ethics will be discussed. The principles of evidence based practice (EBP), including the application of evidence and the creation of evidence, will be part of the discussion. Limitations of EBP and its role in the changing health care environment, critical appraisal of the literature, statistical knowledge, and weighing evidence for clinical decision making will be presented. A writing assignment, application of debate/persuasive argument techniques, and collaborative group exercise will be a part of this course. Level: Graduate

P T 577 - App Clin Teaching in PT

Credits: 1 TO 2. Offered autumn. Teaching experience in practical application of clinical therapy. Level: Graduate

P T 578 - PT for Select Populations

Credits: 6. Offered spring. Prereq., PT 510, 516, 529, 530. Physical therapy assessment and interventions are addressed in the areas of occupational health, pregnancy and pelvic floor dysfunction, wound management and prosthetic management. This course also addresses the needs and concerns of special populations in the clinical environment. Level: Graduate

P T 582 - Clinical Experience

Credits: 1. Offered spring. A mix of classroom and clinical experiences to introduce students to the expectations of professional practice. CR/NCR grading. Level: Graduate

P T 583 - Integrated Clinical Experience-Orthopedic Physical Therapy

Credits: 2. Offered autumn and spring. Prereq., P T 587 and successful completion of all prior coursework and clinical experiences. An integrated, part-time clinical experience with emphasis on evaluation and management of patients with orthopedic conditions. Only CR/NCR grading. Level: Graduate

P T 584 - Integrated Clinical Experience-Neurologic Physical Therapy

Credits: 2. Offered autumn and spring. Prereq., PT 587 and successful completion of all prior coursework and clinical experiences. An integrated, part-time clinical experience with emphasis on evaluation and management of patients with neurological conditions. CR/NCR grading. Level: Graduate

P T 587 - Full-Time Clinical Experience I

Credits: 4. Offered summer. Prereq., successful completion of all first-year DPT courses and PT 582. Eight weeks of full-time clinical experience with emphasis on developing patient evaluation and treatment skills. CR/NCR grading.

Level: Graduate

P T 589 - Full-Time Clinical Experience II

Credits: 5. Offered summer. Prereq., Successful completion of second year DPT courses and all previous clinical education courses. Eight weeks of full-time clinical experience with emphasis on learning about administrative issues, problem solving, time management, and communication skills. Continuation of development of patient treatment and evaluation skills. CR/NCR grading. Level: Graduate

P T 598 - Internship

Credits: 1. Offered summer. Prereq., Successful completion of all prior clinical experiences, and previous DPT coursework. Eight weeks of full-time clinical experience with emphasis on learning about administrative issues, problem solving, time management, and communication skills. Continuation of development of patient treatment and evaluation skills. Only CR/NCR grading. Level: Graduate

P T 626 - Clinical Medicine IV

Credits: 3. Offered autumn. Prereqs., PT 523 or PT 516, PT 524 or PT 519, and PT 525. Course will focus on the role of the physical therapist in a Direct Access environment. Pathology, differential screening, pharmacotherapeutics, evaluation and management of integumentary, gastrointestinal, endocrine/metabolic and urogenital disease. Course will address abdominal and dermatological screening. Level: Graduate

P T 627 - Prevention & Wellness Education

Credits: 2. Offered autumn. Nutrition, health promotion, patient and support network education, exercise/fitness, disease and injury prevention, life span emphasis. Level: Graduate

P T 628 - PT Student Clinic

Credits: 1. Offered autumn and spring. Open to 2nd and 3rd year DPT students. Supervised service learning experience for students providing physical therapy rehabilitation and wellness activities to individuals without health insurance. Level: Graduate Course Attributes: Service Learning

P T 650 - Screening for Medical Disorder

Credits: 2. Offered autumn, spring. Prereq. Enrolled in t-DPT curriculum. PT's role, responsibilities, and decision-making processes regarding appropriate referral of a patient to a physician for evaluation of medical conditions outside the scope of physical therapy. Level: Graduate

P T 651 - Med Imaging in Rehabilitation

Credits: 2. Offered autumn, summer. Prereq. Enrolled in t-DPT curriculum. Provide the physical therapy clinical learner with the tools needed to interpret and apply specialized medical imaging information to the rehabilitation patient. Level: Graduate

P T 652 - Pharmacology in Rehab

Credits: 2. Offered autumn, spring. Prereq. Enrolled in t-DPT curriculum. Provide clinical learners with the primary drug classes and the physiologic basis of their action. Level: Graduate

P T 653 - Legal and Ethical Issues

Credits: 1. Offered spring, summer. Prereq. Enrolled in t-DPT curriculum. Foundational information as to the legal, ethical and administrative decision making process often facing physical therapists in clinical practice. Level: Graduate

P T 654 - Clinical Decision Making

Credits: 1. Offered autumn, spring. Prereq. Enrolled in t-DPT curriculum. Provide ways to utilize the Guide to PT Practice for effective and efficient clinical decision making. Level: Graduate

P T 655 - Business and Marketing

Credits: 2. Offered spring, summer. Prereq. Enrolled in t-DPT curriculum. Enhance the PT clinical learner's appreciation of business and management practices needed to succeed within the current healthcare landscape.

Level: Graduate

P T 656 - Coding and Reimbursement

Credits: 1. Offered autumn, summer. Prereq. Enrolled in t-DPT curriculum. Educate the clinical learner in analyzing reimbursement of current billing, accounts receivable, collection procedures and use of proper coding. Level:

Graduate

P T 657 - Professionalism

Credits: 2. Prereq. Enrolled in t-DPT curriculum. This seminar course provides the clinical learner with the opportunity to analyze and discuss the roles/responsibilities and challenges/opportunities inherent in doctoral level physical therapy practice. Only CR/NCR grading. Level: Graduate

P T 658 - Critical Assessment

Credits: 3. Offered autumn, spring. Prereq. Enrolled in t-DPT curriculum. Develop skills in the application of evidence-based practice as a model for effective clinical decision-making. Level: Graduate

P T 659 - Capstone Project

Credits: 4. Prereq. Enrolled in t-DPT curriculum. Development of the skills needed by physical therapists to fulfill their role as effective participants in the research process. Guide student through the capstone case report completion process. Only CR/NCR grading. Level: Graduate

P T 660 - Mgmt of MS Disorders

Credits: 2. Offered autumn, spring, summer. Prereq., enrolled in t-DPT curriculum. PT's role, responsibilities, and decision-making processes regarding patients with musculoskeletal disorders. Level: Graduate

P T 661 - Mgmt of CVP Disorders

Credits: 2. Offered autumn, spring and summer. prereq., Enrolled in t-DPT curriculum. PT's role, responsibilities and decision-making processes regarding appropriate patient management of persons with cardiovascular and/or pulmonary disorders. Level: Graduate

P T 662 - Mgmt of Neuro Disorders

Credits: 2. Offered autumn, spring, summer. Prereq., enrolled in t-DPT curriculum. PT's role, responsibilities, and decision-making processes regarding patients with neurological disorders. Level: Graduate

P T 663 - Mgmt of Integ Disorders

Credits: 2. Offered autumn, spring, summer. Prereq., Enrolled in t-DPT curriculum. PT's role, responsibilities, and decision-making processes regarding patients with integumentary disorders. Level: Graduate

P T 664 - Wellenss Hlth Promotion

Credits: 2. Offered autumn, spring, summer. Prereq., Enrolled in t-DPT curriculum. PT's role, responsibilities, and decision-making processes regarding patient/client involvement with wellness and health promotion. Level:

Graduate

P T 672 - Research in PT II

Credits: 2. Offered autumn. Data analysis, writing of research manuscript, presentation of project. Level: Graduate

P T 676 - Clinical Reasoning III

Credits: 3. Offered autumn. Course addresses elements of clinical mastery, professional development, career options, ethics and patient advocacy. Each student develops and presents a case report and provides peer review and feedback. Level: Graduate

P T 679 - Trends & Scholarly Act.

Credits: 1 TO 6. (R-6) Offered autumn and spring. Students are required to complete at least 6 credits during their 2nd and 3rd years. Seminar sections that focus on advanced clinical topics in physical therapy and/or engagement in research with an individual faculty advisor. Traditional or CR/NCR grading as determined by instructor. Level: Graduate

P T 680 - Clinical Internship

Credits: 12. Prereq., Successful completion of all prior DPT coursework and clinical experiences. Final summative experience is a 15 week clinical internship. Includes writing and presentation of case study or special project.

CR/NCR grading. Level: Graduate

P T 690 - Research

Credits: 1 TO 10. (R-10) Prereq., consent of instr. Traditional or CR/NCR grading as determined by instructor. Level: Graduate

P T 691 - Special Topics

Credits: 1 TO 6. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Traditional or CR/NCR grading as determined by instructor. Level: Graduate

P T 692 - Independent Study

Credits: 1 TO 4. (R-6) Prereq., consent of instructor. Traditional or CR/NCR grading as determined by instructor. Level: Graduate

P T 694 - Seminar/Workshop

Credits: 1 TO 6. (R-6) Traditional or CR/NCR grading as determined by course instructor. Level: Graduate

P T 699 - Thesis/Dissertation

Credits: 1 TO 10. (R-10) Offered every term. Only CR/NCR grading. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

Pre-Medical Sciences

Mark A. Pershouse (Director and Associate Professor)

Health care continues to be one of the most rapidly expanding areas of our society. Careers in the health professions have expanded, both in numbers and in the variety of opportunities. The rewards of a career in health care include excellent salaries, stability of employment, geographic mobility, and the opportunity to help other people. The Pre-Medical Sciences Program is an advising program that helps students become well-informed, well-prepared applicants to programs in allopathic medicine, osteopathic medicine, chiropractic medicine, dentistry, naturopathic medicine, optometry, physician assistant studies, podiatry and veterinary medicine.

Pre-Medical Sciences is not a major at the University of Montana. The Pre-Medical coursework will help students to gain admission to a professional school or program while completing a degree in a field of study. Students may select any major as a field of study, but specific pre-professional courses must be completed. When selecting a major, remember that a science major is not required for admissions into professional schools. It is more important to perform well in your chosen major. Professional schools are most concerned with the overall quality, scope and difficulty of undergraduate work rather than the major.

Pre-professional courses are designed to provide a strong foundation in the sciences, highly developed communication skills, and a solid background in the social sciences and humanities. Curriculum guides outlining minimal course requirements established by professional schools are available from the Pre-medical Sciences office and from the Pre-Medical Sciences website (<http://umt.edu/premed>). Because many majors within the sciences, social sciences and humanities can provide strong preparation for medical school, the Pre-Medical Sciences Advising Program gives students the opportunity to interact with advisors from diverse disciplines in addition to their advisor for their major.

The minimal requirements for professional school should be completed by the end of the third year of study or prior to taking the admission test required by professional schools. Since specific subject requirements vary among institutions, students should discuss their academic plans with their Pre-Medical Sciences advisor.

Admission to a professional school is very competitive. Students must maintain a high grade-point average in college if they expect to be admitted. All required courses must be taken for letter grades. In addition, the applicant must score well on the appropriate professional admissions test. These tests are designed to measure basic academic ability in the natural sciences, reading ability and problem solving skills. These examinations are usually taken during the third year of study.

Besides academic accomplishments and admission exam scores, acceptance by a professional school is also dependent upon letters of recommendation, volunteer experience, job shadowing, and personal interviews conducted by the professional school. It is important that students consult with a Pre-Medical Sciences advisor and with an academic advisor in their major each year to make sure that they can satisfy the necessary requirements for graduation within the time available. The Pre-Medical Sciences Director will also discuss procedures, advise and assist the student during the process of applying to a professional school.

High School Preparation: High school students contemplating a career in the health professions should have three to four years of mathematics, courses in chemistry and physics and a solid background in literature and social science.

School of Public and Community Health Sciences

Craig Molgaard, Professor and Chair

Accredited by the Council on Education for Public Health (CEPH) in 2012, the School of Public and Community Health Sciences is a multi-disciplinary program that offers the Master of Public Health (M.P.H.) degree and a graduate Certificate of Public Health (C.P.H.). The program is designed to prepare public health practitioners who will use global insight to improve the health of the people of Montana and other rural areas. Predominantly on-line, web-based instruction allows both traditional students and working professionals to pursue a degree or certificate.

Department Faculty

Professor

- Jean Carter, Pharm.D., Ph.D., Professor
- Ann Cook, Research Professor Bioethics
- Amanda Golbeck, Professor and Dr.
- Willard Granath Jr., Professor
- Kari Harris, Ph.D., M.P.H., Professor
- Rosemary Hughes, Research Professor
- Peter Koehn, Ph.D., Professor
- Kimber Haddix McKay, Professor
- Craig Molgaard, Ph.D., M.P.H., Chair and Professor
- Liz Putnam, Chair, Associate Professor
- Gilbert Quintero, Professor
- Annie Sondag, Professor

Course Descriptions

Public Health

PUBH 510 - Intro to Epidemiology

Credits: 3. Offered spring. Open to PUBH majors only. Principles and methods of epidemiologic investigation, descriptive and analytic epidemiology techniques, disease frequency, risk determination, study designs, causality, and validity. Level: Graduate

PUBH 511 - History & Theory Epidemiology

Credits: 3. Offered autumn. Open to PUBH majors only. This graduate course covers the basic science of public health. Major schools of epidemiology from the Greek, Italian and English traditions will be compared and contrasted. Basic concepts and terminology will be introduced and major pandemics used to illustrate the evolution of the field. Level: Graduate

PUBH 512 - Neuroepidemiology

Credits: 3. Offered autumn. Open to PUBH majors only. An overview of the fundamental considerations of the history, scope, and methods of neuroepidemiology as a subfield of epidemiology. Specific neurologic diseases and injuries will be studied as to distribution and risk factors, as well as the relationship to international public health. Level: Graduate

PUBH 515 - Public Health Genetics

Credits: 3. Offered autumn. Open to PUBH majors only. Basic principles of genetics and genomics, application to public health practices and research. Includes issues in public health genetics such as informed consent, screening for genetic susceptibility, and ethical, legal and social implications. Level: Graduate

PUBH 520 - Fundamentals of Biostatistics

Credits: 3. Offered autumn. Open to PUBH majors only. This course is designed for graduate students and practitioners in public health, biomedical sciences, and related fields. The course introduces basic vocabulary, concepts, and methods of biostatistics. The goal is to provide an introduction to how biostatistics works. Topics will include descriptive statistics, probability, random variables, probability distributions, statistical inference, chi-square analysis, linear regression, and correlation. Level: Graduate

PUBH 525 - Multi/Native American Pub Hlth

Credits: 3. Offered Autumn. Open to PUBH majors only. This course is designed to provide general overview of multicultural issues within the United States and specifically within Montana. The course will provide overview information about health disparities within the nation and how these disparities disproportionately impact ethnic minority populations. Montana's largest minority population is native American tribal communities. As a result, much of the course will incorporate advanced knowledge and topics relating to regional health disparities facing Native American communities. Level: Graduate

PUBH 530 - Pub Hlth Admin and Mangmnt

Credits: 3. Offered autumn. Open to PUBH majors only. Overview of public health and health care systems; organizational structures, functions, authorities, policies and procedures; programmatic budgeting, operations, and prioritizations; program performance reporting and improvement; grants and contracts; informatics; human relations and negotiation; management and leadership; and business planning. Level: Graduate

PUBH 531 - Leadership in Public Health

Credits: 3. Offered spring. Open to PUBH majors only. Prereq., PUBH 530 or consent of instr. This course deepens the student's knowledge and understanding of the role of public health leaders in the community whether in forming partnerships between public health agencies or with private entities. This course begins by building an understanding of the principles of leadership, explores the applications of leadership to public health, develops the relationship between leadership skills and competencies, studies the role of leadership in evaluation and research and concludes with a look at public health now versus how it could be in the future. Level: Graduate

PUBH 535 - Health Policy

Credits: 3. Offered autumn and spring. Open to PUBH majors only. The evolution and intersection of international, federal, state, and local public health policy. Level: Graduate

PUBH 540 - Social & Behav Sci in Pub Hlth

Credits: 3. Offered autumn. Open to PUBH majors only. Behavioral and social factors relevant to the identification and solution of public health problems, principles of health behavior change, applications, and assessment of interventions. Level: Graduate

PUBH 550 - Progrm Eval & Res Meth

Credits: 3. Offered every odd summer. Open to PUBH majors only. Prereq., PUBH 510 or equiv. and consent of instr. Covers purpose statements, standards, study designs, sampling, measurement, methods for data collection

and analysis, interpretation, and report preparation. Models of evaluation described, and similarities and differences between research and evaluation methods explored. Level: Graduate

PUBH 560 - Environmental & Rural Health

Credits: 3. Offered spring. Open to PUBH majors only. Relationship of people to their physical environment, how this relationship impacts health, and efforts to minimize negative health effects. Level: Graduate

PUBH 570 - Ethical Issues in Public Hlth

Credits: 3. Offered summer. Open to PUBH majors only. Focus on the values and moral issues that underlie U.S. public health policies. Course examines ethical decision making in areas such as policy development, research, environmental health, occupational health, resource allocation, and genetics. Level: Graduate

PUBH 580 - Rural Health Iss Global Contxt

Credits: 3. Offered summer. Open to PUBH majors only. Focus on rural concerns and global influences on public health. Covers trends in global health, global health policies, players, priorities, human rights, health equity, and mobile and vulnerable populations. Students will be introduced to health research methods and design, which will be used to analyze rural and global health issues. Emphasize the science and art of epidemiological strategies to answer specific health questions. Level: Graduate

PUBH 591 - Practicum

Credits: 3. Offered autumn and spring. Open to PUBH majors only. Prereq., consent of instructor. Semester long, supervised graduate practicum in a health science setting, followed by an oral defense. Offered credit/no credit only. Level: Graduate

PUBH 593 - Professional Portfolio

Credits: 3. Offered autumn and spring. Open to PUBH majors only. Prereq., PUBH 591 and PUBH 599, consent of instructor. Integrates the student's practice experience and knowledge gained through course work, practicum, and possibly professional papers and research with the goals and learning objectives of the M.P.H. program into a portfolio. Students will present and defend their portfolio to illustrate their growth as a professional public health practitioner at the end of their M.P.H. program. Offered credit/no credit only. Level: Graduate

PUBH 595 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Open to PUBH majors only. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Previous topics have included Global Health and Epidemiology of Infectious Disease. Level: Graduate

PUBH 596 - Independent Study

Credits: 1 TO 6. (R-6) Offered autumn and spring. Open to PUBH majors only. Prereq., admission to the M.P.H., program and consent of instructor. Supervised readings, research, or public health practice. Level: Graduate

PUBH 597 - Research

Credits: 3. (R-6) Offered autumn and spring. Open to PUBH majors only. Prereq., admission to the M.P.H. program and consent of instructor. With the guidance of their faculty advisor, students will develop a written proposal specific to the goals of their research project, and carry out the project. Level: Graduate

PUBH 599 - Professional Paper

Credits: 3. Offered autumn and spring. Open to PUBH majors only. Prereq., consent of instructor. Students will write and submit an original research paper to a peer-reviewed public health or medical journal. Students may also fulfill

the professional paper requirement by presenting a conference paper or conference poster to a local, regional, or national meeting. Offered credit/no credit only. Level: Graduate

School of Social Work

Ryan Tolleson Knee, Chair

Social work is a human service profession concerned with the prevention of social problems, the maintenance of satisfying social relationships and the enhancement of human development. It focuses on people and their social environment. Social workers employ a range of knowledge and skills as the basis for constructive intervention on behalf of various client populations. The Bachelor of Arts and Master of Social Work degrees are offered. The Bachelor of Arts degree prepares graduates for generalist social work practice. The Master of Social Work degree prepares graduates for advanced integrated practice.

The undergraduate major in social work is available for those who wish to prepare for: (1) professional employment in the social services; (2) entry into a graduate school of social work; (3) graduate education in other helping service professions. The graduate degree in social work prepares graduates for advanced social work practice. Students can enroll in a two year full-time program or in a part-time option. See the University of Montana Graduate Catalog for a description of the Master of Social Work program. Both the Bachelor of Arts degree and the Master of Social Work degree are fully accredited by the Council on Social Work Education.

Gerontology Minor

Students in the Gerontology Minor program will study issues of aging from an interdisciplinary perspective and come to understand the interplay between them, including the health and medical as well as social and psychological needs of older persons. Although this interdisciplinary minor is housed in the School of Social Work, students in other majors may complete the minor in consultation with both the Chair of the Gerontology Minor and the students' academic advisors in their respective departments. Students must consult with their major advisor to select electives, practicum or volunteer experiences, and to integrate courses that will meet the requirements of the minor.

Course Descriptions

Social Work

S W 100 - Intro Soc Welfare

Credits: 3. Offered autumn and spring. Overview of human services, programs and problems in meeting social welfare needs, with emphasis on the complexity of social services and their historical development. Analysis of the value, attitudinal, economic and political factors that condition the provision of these services.

S W 198 - Internship

Credits: 1 TO 3. (R-3) Offered autumn and spring. Prereq., consent of instructor. Application of classroom learning in off campus internship placements. Prior approval must be obtained from the School of Social Work practicum coordinator and from the Center for Work-Based Learning. A maximum of 6 credits of Internship (198, 398,) may count toward graduation. Course Attributes: Internships/Practicums

S W 200 - Intro Soc Wrk Pract

Credits: 4. Offered autumn and spring. Prereq., SW 100, sophomore standing. Introduction to social work as a profession, including an examination of goals, guiding philosophy and basic assumptions. Emphasis on a generalist framework of social work practice and the development of beginning analytical and practice skills.

S W 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

S W 300 - Hum Behav & Soc Environ

Credits: 3. Offered autumn and spring. Prereq., SW 100 and 200, and junior standing in Social Work. Using the ecological-social systems framework, the integration of knowledge and concepts from the social and behavioral sciences for analysis and assessment of problems and issues relevant to professional social work practice. Course Attributes: Writing Course-Advanced

S W 310 - S W Policy & Services

Credits: 3. Offered autumn and spring. Prereq., SW 200; Social Work major. Social welfare history, program planning and analysis with review of selected policies on the national level. Includes international comparisons. Upper-division writing course. Course Attributes: Writing Course-Advanced

S W 323 - Women & Soc Action Amer

Credits: 3. Offered intermittently. Prereq., one of SW 100, SOCI 101S, or ANTY 101H or consent of instr. Same as WS 323. Focus on women's experiences of and contributions to social change in North, South and Central America

in the mid to late-20th century. Through case studies, testimonials, discussions with activists and Internet connections examine social constructions of gender, compare forms of social action in diverse cultural, political and historical contexts, link practice to theories of social participation, and reflect on lessons learned from women's experiences.

S W 325 - Introduction to Gerontology

Credits: 3. Offered spring. Prereq., junior standing or consent of instr. An interdisciplinary discussion of the health and social issues of older persons, utilizing didactic presentations, clinical demonstrations, and curricular modules.

S W 350 - S W Interven Meth I

Credits: 3. Offered autumn and spring. Prereq., SW 200; Social Work major. The study and application of the generalist model of social work practice and related techniques and procedures for the assessment, intervention and prevention of problems in social functioning. Emphasis on individuals and families.

S W 360 - S W Interven Meth II

Credits: 4. Offered autumn and spring. Prereq., Social Work major. The study and application of the generalist model of social work practice and related techniques and procedures for the assessment, intervention and prevention of problems in social functioning. Emphasis on groups and team meetings.

S W 391 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

S W 398 - Internship

Credits: 1 TO 3. (R-3) Offered autumn and spring. Application of classroom learning in off campus internship placements. Prior approval must be obtained from the School of Social Work practicum coordinator and the Center for Work-Based Learning. A maximum of 6 credits of Internship (198, 398) may count toward graduation. Course

Attributes: Internships/Practicums

S W 400 - Social Work Research

Credits: 3. Offered autumn and spring. Prereq., SW 360; Social Work major. Utilization of social research findings in social work practice. Techniques for the collection and analysis of clinical data. Special emphasis on research methodology for the assessment of practitioner and program effectiveness.

S W 410E - Social Work Ethics

Credits: 3. Offered autumn and spring. Prereq., SW 200, admission into the BSW program. Analysis of specific ethical dilemmas from personal, professional and policy perspectives. Focus on ethical issues common to the helping professions and utilizing codes of ethics as guides to decision-making. The relationship between professional ethical issues and the development of social policy. Course Attributes: Ethical & Human Values Course

S W 420 - Child Abuse/Child Welfare

Credits: 3. Offered autumn. Prereq., junior standing or consent of instr. Signs and symptoms of physical and sexual abuse and neglect, family dynamics in abuse and neglect, the legal context, programs of prevention and intervention, foster care, special needs adoptions and related issues in child welfare.

S W 423 - Addiction Studies

Credits: 3. Offered spring. Same as PSYX 441 and SOCI 433. Examination of chemical dependency and behavioral compulsions, including alcohol and other drugs, gambling, eating disorders, sexual addictions. Ecosystems

perspective on etiology, treatment, prevention, family dynamics, community response, and societal contributors. Students engage in a service learning community project which is integrated into the classroom through initial training, regular reflection, and other activities.

S W 434 - Social Work and the Law

Credits: 3. Offered spring even-numbered years. Prereq., junior standing. Contemporary implication of social work practice in a judicial arena.

S W 440 - Psychosoc Illness Disabil

Credits: 3. Offered autumn. Same as HS 440. Prereq., PSYX 245. ?A review of the psychosocial aspects of illness and disability in older persons to include societal impact of these illnesses, responses of the individual, family, and support network to the stress of illness and disability, caregiver issues, cultural implications, and the impact of the health care system on these psychosocial aspects.

S W 450 - Children and Youth at Risk

Credits: 3. Offered autumn or spring. Focus on the aspects of society that pose a threat to today's youth and the ramification of those threats on youth development and behavior. Resilience and protective factors for youth at risk and strategies to work with those youth. Attention to related systems in Missoula and Montana, including juvenile justice, mental health, child protection, substance abuse, and education.

S W 455 - Social Gerontology

Credits: 3. Offered autumn. Examination of the field of social gerontology, including an examination of the major bio/psycho/social/cultural/spiritual theories of aging, the service system, social and health issues, family and care giving dynamics, social policy, and end of life concerns.

S W 465 - Social Work Global Context

Credits: 3. Offered spring even-numbered years. Prereq., upper-division or graduate standing. Examination of globalization, human rights, poverty, international aid, and gender issues; their relationship to social work and social justice, and strategies for action.

S W 472 - Relational Development

Credits: 3. Offered autumn and spring. This course covers strategies to help children whose early experiences deprived them of the nurturing needed to develop the essential capacity to connect with others. Emphasis is on significant discoveries in the fields of neuroscience, childhood trauma, grief and loss, child development, and family systems that have fueled the evolution of the Attachment Treatment philosophy to a broader method of caring for emotionally distress children, the Relational Development treatment approach.

S W 475 - Death, Dying and Grief

Credits: 3. Offered intermittently. Examination of death, dying and grief from an ecological perspective, focusing on the processes of dying and theories of grief. Emphasis on physical, social, psychological, spiritual, and cultural influences that surround death and grief. Consideration of cultural norms, attitudes toward death, medical, legal and ethical issues of dying. Focus on normal and complicated grief.

S W 485 - Counseling Theories

Credits: 3. Offered autumn. Prereq., PSYX 100S. Same as COUN 485 and PSYX 442. This course introduces students to the primary theories that constitute the intellectual foundation for common counseling and psychotherapy techniques, with a special focus on gender, interpersonal influence strategies, and diversity issues.

S W 487 - Advanced Practice I

Credits: 2. Offered every term. Concurrent SW 495; admission to the practicum program. Consideration and discussion of practicum-related matters, professional development, and issues confronting the profession.

S W 488 - Advanced Practice II

Credits: 2. Concurrent with SW 495; admission to the practicum program. Consideration and discussion of practicum-related matters, professional development, and issues confronting the profession.

S W 491 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

S W 492 - Independent Study

Credits: 1 TO 10. (R 10) Offered intermittently. Prereq., 10 credits in social work. Independent work under the University omnibus option. See index. Course Attributes: Omnibus Course

S W 495 - Field Work Practicum

Credits: 5. (R-10) Offered every term. Prereq., SW 350 and 360 and approved application to practicum coordinator. Practicum must be taken over two consecutive semesters for a total of 10 credits. Minimum of one credit per semester. Cumulative grade average of 2.75 or above in SW 100, 200, 300, 350 and 360 and a 3.0 grade average for SW 200, 350 and 360 are required. Supervised field work in public and private agencies and institutions. Successful completion of the field work practicum requires a passing performance on the school administered professional social work competency examination. Course Attributes: Internships/Practicums

S W 500 - Orientation

Credits: 1. Prereq., admission to M.S.W. program. Seminar introducing M.S.W. students to program philosophy and social work's theory and value base. Level: Graduate

S W 505 - Found Social Work Pract

Credits: 2. Prereq., admission to M.S.W. program. Introductory practice course that examines generalist social work practice, dominant theoretical influences, and forces shaping social work over time. Level: Graduate

S W 510 - Hum Behav Soc Envt I

Credits: 3. Prereq., admission to M.S.W. program. Introduction to and critical consideration of social work perspectives on human behavior as influenced by the social environment. Particular attention is paid to biological, psychological, social, cultural and spiritual influences. Level: Graduate

S W 511 - Hum Behav Soc Invt II

Credits: 3. Prereq., admission to M.S.W. program and SW 510 or consent of instr. Advanced course on human behavior and social environment that addresses difference and diversity, histories and mechanisms of discrimination and oppression, and frameworks for thought and practice that recognize diversity and promote social justice. Level: Graduate

S W 515 - Pract W Indiv & Families

Credits: 4. Prereq., admission to M.S.W. program or consent of instr. Practice-oriented course building on students' developing knowledge of engagement, assessment, intervention and evaluation and the application to practice with individuals and families in context of community. Level: Graduate

S W 520 - SW Research Methods

Credits: 3. Prereq., admission to M.S.W. program or consent of instr. Introduction to principles, methodologies, technologies, and statistical approaches of human service research. Emphasis on beginning capabilities in evaluation of social work practice and skill development regarding use of published research. Level: Graduate
S W 521 - Advanced Research

Credits: 3. Prereq., SW 515. The use of research within the integrated practice model of social work through evaluation of practice and program evaluation. Advanced statistical concepts are applied to direct practice and five types of program evaluation. Level: Graduate
S W 525 - Pract Groups & Communities

Credits: 4. Prereq., admission to M.S.W. program or consent of instr. Practice oriented course addressing theories, frameworks, principles, and skills of group and community work. Dynamics of group work and examination of modalities such as mutual aid and social action groups. Level: Graduate
S W 530 - History of Social Policy

Credits: 3. Prereq., admission to M.S.W. program or consent of instr. Foundation in social welfare policy and services; examination of relationship between history social welfare policy and emergence of social work profession. Introduction to frameworks for policy analysis. Level: Graduate
S W 531 - Social Policy Analysis

Credits: 3. Prereq., SW 530. Focus on the analysis of existing or proposed policies specific to oppressed populations, rural areas and isolated communities. Level: Graduate
S W 535 - Advanced Practice

Credits: 4. Prereq., consent of instr. Builds on the skills, knowledge, and values of the foundation generalist and practice courses. Level: Graduate
S W 545 - Organizational Leadership

Credits: 3. Prereq., consent of instr. Advanced training in professional leadership and how to effectively conceive, plan, design, implement, manage, assess, and change contemporary organizations. Level: Graduate
S W 551 - Couples and Family Therapy

Credits: 3. Offered spring. Prereq., admission to the MSW program, SW 505, or consent of instructor. Course explores family-centered methods of clinical social work interventions with couples and families that can be applied in a variety of settings. Level: Graduate
S W 552 - Psychopathology & S W

Credits: 3. Prereq., admission to the MSW program, SW 505, or permission of instructor. Focus on current problems of children, adolescents, and adults of all ages that can be classified as a mental disorder under the DSM of the system. Includes information on theories within the bio-psycho-social paradigm of causality of disorders/conditions; on methods of assessment, including DSM; and an understanding of how social injustice, oppression and poverty impacts healthy growth and development across the life span. Level: Graduate
S W 553 - Social Work Addictions

Credits: 3. Offered spring semester. Prereq., admission to MSW program or by permission of instructor. The course examines historical and contemporary models of direct practice, and current ideological, political, policy and systemic challenges to the practice of social work in the addictions. Level: Graduate
S W 554 - Suicide Prev/Intervention

Credits: 1. Offered winter. Prereq., admission to MSW program or consent of instructor. This course investigates the biological, psychological and social forces that directly impact suicidal behaviors. Current program services and resources are critically analyzed. Level: Graduate

S W 555 - Leader in Uncertain Times

Credits: 1. Offered winter. Prereq., admission to MSW program or consent of instructor. This course is designed to give participants a clearer picture of their leadership competencies and greater self knowledge so that they are more effective in providing the needed situational leadership in the organizations they run, work in, or participate in. Level: Graduate

S W 576 - Found Integrative Sem I

Credits: 1. Prereq., admission to MSW program, SW 505, 587. Seminar accompanying first semester foundation practicum in which students discuss experience with goal of integrating theory and practice. Level: Graduate

S W 577 - Found Integrative Sem II

Credits: 1. Prereq., admission to MSW program, SW 505, 587. Seminar accompanying second semester foundation practicum in which students discuss experience with goal of integrating theory and practice. Level: Graduate

S W 578 - Advanced Seminar I

Credits: 1. Prereq., SW 587. Critical analysis of how predominant social work theories and professional values and skills are being incorporated into the practicum. Level: Graduate

S W 579 - Advanced Seminar II

Credits: 1. Prereq., SW 578. Critical analysis of how predominant social work theories and professional values and skills are being incorporated into the practicum. Advanced portfolio development. Level: Graduate

S W 586 - Found Practicum I

Credits: 2. Prereq., admission to MSW program. First semester foundation field practicum experience in a supervised setting designed to provide opportunities to integrate classroom learning and field experiences. Level: Graduate

S W 587 - Found Practicum II

Credits: 2. Prereq., admission to MSW program, SW 505, 587. Second semester foundation field practicum experience in a supervised setting designed to provide opportunities to integrate classroom learning and field experiences. Level: Graduate

S W 588 - Concentration Practicum I

Credits: 3. Prereq., SW 587, 589. Advanced supervised field work in public and private agencies and institutions. Level: Graduate

S W 589 - Concentration Practicum II

Credits: 3. Prereq., SW 588. Advanced supervised field work in public and private agencies and institutions. Level: Graduate

S W 593 - Professional Portfolio

Credits: 1. Prereq., foundation courses. Summative and in-depth written analysis of course work and practicum experience. Level: Graduate

S W 594 - Graduate Seminar

Credits: 3. (R-9) Offered autumn or spring. Prereq., admission to MSW program or consent of instr. In-depth analysis of a current social work issue. Level: Graduate

S W 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., admission to MSW program or consent of instr.

Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

S W 596 - Independent Study

Credits: 1 TO 9. (R-9) Offered autumn or spring. Prereq., admission to MSW program or consent of instr. Work on selected problems by individual students under direct faculty supervision. Level: Graduate

S W 597 - Research

Credits: 1 TO 9. (R-9) Offered autumn or spring. Prereq., admission to MSW program or consent of instr. Directed individual graduate research and study appropriate to background and objectives of the student. Level: Graduate

Skaggs School of Pharmacy

Pharmacy is the study of the biological, chemical, and physical characteristics of medicinal substances and the utilization of these substances in the prevention, treatment, and control of illness and disease. It also encompasses a study of the systems of delivering health care and the function of the professional pharmacist within these systems.

The Skaggs School of Pharmacy was established in 1907 at Montana State College and was transferred to the University in 1913. The pharmacy program consists of two departments, Pharmacy Practice and Biomedical and Pharmaceutical Sciences.

The Skaggs School of Pharmacy is a member of the American Association of Colleges of Pharmacy. The entry-level doctor of pharmacy program is fully accredited by the Accreditation Council for Pharmacy Education, 135 S. LaSalle Street, Suite 4100, Chicago IL 60603-4810, telephone (312) 664-3575, (800) 533-3606; FAX (312) 664-4652; <http://www.acpe-accredit.org/>

The curriculum offered by the Skaggs School of Pharmacy consists of a six year program leading to the entry-level Pharm.D. degree. The first two years, or pre-professional portion of the curriculum, are spent in studies of the basic biological and physical sciences, and in course work necessary to satisfy the University general education requirements. During the first three years of the professional program, students devote their time to the study of the biomedical and pharmaceutical sciences and pharmacy practice. Areas of study include biochemistry, microbiology, medicinal chemistry, pharmaceuticals, pharmacology, social and administrative pharmacy, and therapeutics. The final professional year is entirely experiential.

A program of selected electives allows the student to obtain further educational experience in specialized areas of pharmaceutical knowledge. Students in the professional program may choose elective courses in specific areas of interest which include community pharmacy practice, management, research and teaching, hospital and institutional pharmacy practice, and a variety of therapeutic-based topics. All students must confer with assigned advisors prior to each registration period and receive approval of proposed courses.

In addition to their formal educational program, to become registered pharmacists, students must complete practical experience under the direction of a registered pharmacist and pass the NAPLEX and MPJE exams administered by the National Association of Boards of Pharmacy.

Career opportunities exist in the fields of community pharmacy, institutional pharmacy, federal or state government service, public health agencies, and with the pharmaceutical industry in sales positions or in manufacturing. Those with advanced degrees or residencies are in demand for research positions and in pharmaceutical education.

High School Preparation: In addition to the general University admission requirements, algebra, trigonometry, biology, chemistry, physics and a course in computers are recommended.

Admission

The general requirements for admission to the University are listed separately in this catalog.

Pre-Pharmacy Program

The pre-pharmacy curriculum, which requires a minimum of two years of full-time study, may be taken at any accredited college or university.

Students at the University of Montana-Missoula may enter the pre-pharmacy program during any semester. It is recommended that students considering pharmacy as a major declare a pre-pharmacy major as early as possible in order to receive appropriate advising. Upon designating pre-pharmacy as a major, students will be assigned an advisor within the pharmacy program.

Professional Pharmacy Program

Students must apply for admission to the professional program. Class size in the professional pharmacy program is restricted and admission to the program is competitive. The admission process is designed to admit the best overall class into professional study. Completed applications are evaluated by the Skaggs School of Pharmacy Admissions Committee. Acceptances are made by the pharmacy faculty and the dean based on the recommendations of the committee.

Since very few elective credits are available in the professional pharmacy curriculum, students will be expected to have completed all General Education requirements except for the upper-division writing and ethics requirements prior to entering the professional curriculum. Students must complete all General Education requirements before entering pharmacy practice experience rotations during the final year of the program. Applicants will be screened based on academic record (both overall and in the required pre-pharmacy course work) and Pharmacy College Admission Test scores (refer to www.pcatweb.info for test dates). To be eligible for admission, students must have a minimum grade point average of 2.5 on a 4 point scale, both overall and in required pre-professional courses. Students must earn grades of at least a C (not C-) in all required pre-pharmacy courses. For the past several years there have been more than two applicants for each opening, and the grade point average of the entering class has been about 3.5. In addition, applicants must present proof of having completed at least 20 hours of volunteer or paid service in a pharmacy, other health care, or social field, a writing assignment about the experience, and one evaluation form filled out by someone involved with the applicant in such an experience. A personal interview is also required.

As a state supported institution, the Skaggs School of Pharmacy gives all applicants from the Montana University System equal consideration for admission into the professional pharmacy program. There is no restriction on admission of out-of-state students; however, Montana residents are given priority among students with equal qualifications. Students will be notified of their admission status in writing. In the past, students with only international coursework have not been admitted to the professional pharmacy program.

The curriculum of the professional pharmacy program is sequential. Therefore, students may enter the program in the autumn semester only. Application forms for admission to the professional curriculum may be obtained from the website of the College of Health Professions and Biomedical Sciences (www.health.umt.edu). Applications must be post marked by February 15th preceding the autumn semester of the year for which admission is requested.

An application fee must be submitted with the application. Admission for one academic year cannot be deferred to another academic year. Official transcripts of all academic courses taken must be forwarded directly to the Skaggs School of Pharmacy.

The professional pharmacy curriculum must be taken in residence at the University. Students transferring from other accredited schools of pharmacy may be admitted with advanced standing, determined on the basis of credits accepted, provided they are in good academic standing. Transfer credit for required professional courses taken at other institutions is accepted only for those courses which are deemed equivalent and in which a letter grade of C (2.00) or better is obtained.

Academic Progression

The general University academic standing requirements are listed separately in this catalog.

Students in the professional pharmacy curriculum must maintain cumulative, professional, and pharmacy grade point averages of 2.0 or higher. The professional grade point average consists of all required course work in the professional curriculum. The pharmacy grade point average consists of all courses with a pharmacy (PHAR) prefix.

Students enrolled in the professional pharmacy program must maintain satisfactory academic progress. Students must earn grades of at least C- in all required courses in the professional pharmacy curriculum. Students in the professional program who have a pharmacy or professional grade point average of less than 2.0 or who receive a grade of D or F in any required course in the professional curriculum will be placed on academic probation. A student must petition to continue in the professional pharmacy program if he or she is on probation. A student will be dismissed from the professional pharmacy program if he or she is on probation for a total of three terms, not necessarily consecutive, subject to review by the dean. A student will be removed from probation when a grade point average of 2.0 has been achieved and all grades in required professional pharmacy courses are C- or better.

Students who have failed ten or more credits of required professional course work or who fail to progress in the expected manner for two consecutive years may be dismissed from the professional pharmacy program, subject to review by the Academic Standards Committee and the dean.

Students dismissed from the program for substandard performance will not be readmitted, except in cases where substantiation is made to the faculty, by written petition, that the substandard performance was the result of circumstances that no longer exist, or that the student has demonstrated the capability and desire to perform satisfactory work since his or her dismissal from the program.

Students leaving the program on their own volition are guaranteed readmission if they are in good academic standing and exit by interview with the assistant dean for student affairs. Those students leaving the program on their own volition and not in good standing must reapply for admission.

The professional pharmacy curriculum consists of an integrated sequence of required courses which is designed to be completed in four consecutive years. With appropriate justification, part-time study in the professional pharmacy program may be allowed. Students desiring to be enrolled in part-time study must make their request by petition to the Academic Standards Committee. Because the curriculum is revised periodically, students who take longer than the normal number of years to complete the professional program will be required to complete curricular changes applicable to the class in which they graduate. Because the pharmacy program is academically intense, employment beyond the minimal, part-time work is not recommended.

Special Degree Requirements

Refer to graduation requirements listed previously in the catalog.

Degree candidates must:

1. Meet the general University requirements for graduation.
2. Earn a grade point average of 2.0 or higher in each of the following areas:
 1. all courses attempted at The University of Montana-Missoula (cumulative GPA).
 2. all courses which carry a pharmacy (PHAR) prefix (pharmacy GPA).
 3. all required courses in the professional pharmacy curriculum (professional GPA).
3. Required pharmacy course work must be completed with a grade of C- or better.
4. Complete at least six full academic years, including pre-pharmacy instruction, and a minimum of eight semesters of professional instruction as a full-time student registered for a minimum of twelve credits per semester.
5. Complete not less than 200 credits of course work.

Licensure in Montana

An applicant for licensure as a registered pharmacist in Montana must pass national examinations as required by the Montana State Board of Pharmacy. To qualify for the examinations, the applicant must be of good moral character and a graduate of an accredited school of pharmacy; however, an applicant will not receive a license until all requirements have been met.

Internship Regulations

1. The internship requirement for licensure as a registered pharmacist in Montana is regulated by the Montana State Board of Pharmacy. Students must be registered with the Board of Pharmacy as a pharmacy intern in order to accrue internship hours.
2. Only those students who have completed 30 days of the professional pharmacy curriculum may begin their internship.
3. The internship requirement consists of 1,500 hours of experience in an approved pharmacy setting. The student also may acquire hours concurrently with school attendance in courses, clinical pharmacy programs, or demonstration projects which have been approved by the Board of Pharmacy.
4. Most courses and programs currently offered by the School of Pharmacy are approved and applicable toward fulfilling the internship requirement.
5. Students will receive credit for internship time and/or courses taken if such experience is certified by the preceptor and/or instructor and approved by the Board of Pharmacy.

Pre-Pharmacy Curriculum

The courses shown here must be completed before entering the professional pharmacy program. The sequence of courses is illustrative and, if proper prerequisites are satisfied, the student may alter the order in which the courses are taken.

In addition, applicants to the professional pharmacy program must present proof of having completed at least 20 hours of volunteer or paid service in a pharmacy, other health care, or social field, a writing assignment about the

experience, and one evaluation form from someone involved with the applicant in such an experience. The Pharmacy College Admission Test (PCAT) must be taken within two years of application.

Pre-Pharmacy First Year	A/S	Total Cr

* *Students must complete the University's General Education requirements. Due to the limitation of elective credits in the professional pharmacy curriculum, students are advised to complete the lower-division General Education requirement during the pre-pharmacy curriculum.

Professional Pharmacy Curriculum

Students must apply for admission to the professional program. For requirements see the section on Admission. Students enrolled in the professional pharmacy curriculum are assessed a supplemental fee. This fee does not apply to pre-pharmacy students. Refer to the fees section of this catalog for details. Students must demonstrate proficiency in pharmaceutical calculation by successfully completing a competency assessment prior to entering the second professional year.

The Upper-Division Writing Requirement must be met by successfully completing PHAR 550 or an upper-division writing course from the approved list in the Academic Policies and Procedures section of this catalog. See index.

Department of Biomedical and Pharmaceutical Sciences

Elizabeth A. Putnam, Chair

The Department of Biomedical and Pharmaceutical Sciences offers a curriculum in support of the Doctor of Pharmacy (Pharm.D.) degree and graduate programs in the biomedical and pharmaceutical sciences. Degree programs include the M.S. in Neuroscience, Pharmaceutical Sciences, Toxicology and Medical Chemistry; and the Ph.D. in Neuroscience, Biomedical Sciences, Toxicology, and Medical Chemistry. These programs provide education and training in pharmacology, toxicology, neurobiology, neurochemistry, medicinal chemistry, and molecular genetics. Program graduates are well prepared for careers in academia, government and industry.

Course Descriptions

Allied Health: Health Sciences

AHHS 191 - Special Topics

Credits: 1 TO 6. (R 6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

AHHS 201 - Living Well, Health & Disabilil

Credits: 2. Offered autumn and spring. The development and implementation of exercise programs for individuals with physical disabilities or chronic illness.

AHHS 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

AHHS 320 - Am Ind Health Issues

Credits: 2. Offered spring. Same as PHAR 320. An overview of the health issues, health care delivery and payment that affect American Indians.

AHHS 325 - Introduction to Gerontology

Credits: 3. Offered spring. Prereq., junior standing or consent of instr. An interdisciplinary discussion of the health and social issues of older persons, utilizing didactic presentations, clinical demonstrations, and curricular modules.

AHHS 327 - MGS Meeting

Credits: 1. (R-3) Offered spring. Attendance and participation in the Montana Gerontology Society meeting held annually in April.

AHHS 389 - Rec Adv in Clin Med

Credits: 1. Offered spring. Prereq., junior or senior standing. Weekly presentations throughout the semester by local clinical medical practitioners describing in non-technical terms recent advances in their specialities.

AHHS 390 - Research

Credits: 1 TO 4. (R-8) Offered autumn and spring. Prereq., consent of instr. Traditional or CR/NCR grading determined by instructor. Course Attributes: Research & Creative Schlrshp

AHHS 391 - Special topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

AHHS 394 - Medical Preparation

Credits: 2. Offered autumn. Admission by application, sophomores, juniors, and seniors only. This is a survey course designed for students considering a career in the health care field, geared towards students considering becoming a medical provider (MD, DO, NP, PA).

AHHS 395 - Geriatric Practicum

Credits: 1 TO 3. (R-3) Offered spring. Prereq., HS 325. Service learning experience in geriatrics in a setting compatible with the student's major and interests. Course Attributes: Internships/Practicums

AHHS 420 - Geriatric Health Issues

Credits: 3. Prereq., Anatomy & physiology. A review of normal aspects of aging, common health problems associated with aging, and common pharmacological and non-pharmacological treatments of these problems in older persons.

AHHS 430 - Health Aspects of Aging

Credits: 3. Offered spring. Same as HHP and HS 430. Overview of the health aspects of aging in the United States including biological theories of aging, normal physiological changes associated with aging systems, common pathological problems associated with aging, cultural and ethnic differences in the health of elders, health promotion and healthy aging, and the health care continuum of care for older persons.

AHHS 440 - Psychoso Illness Disabil

Credits: 3. Offered autumn. Same as SW 440. Prereq., PSYX 245. A review of the psychosocial aspects of illness and disability in older persons to include societal impact of these illnesses, responses of the individual, family, and support network to the stress of illness and disability, caregiver issues, cultural implications, and the impact of the health care system on these psychosocial aspects.

AHHS 490 - Research

Credits: 1 TO 4. (R-8) Offered autumn and spring. Prereq., consent of instr. Traditional or CR/NCR grading determined by instructor. Course Attributes: Research & Creative Schlrshp

AHHS 491 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

Biomedical /Pharmaceutical Sciences

BMED 545 - Research Lab Rotations

Credits: 2 TO 3. (R 6) Offered autumn and spring. Prereq., BMED 443 or graduate standing. Experience in research methods in departmental research laboratories. Level: Graduate

BMED 581 - Research Seminar Biomed

Credits: 1. (R-9) Offered autumn and spring. Oral and written presentations of experimental research results and selected literature topics in biomedical science. Level: Graduate

BMED 582 - Research Seminar Neurosci.

Credits: 1. (R-9) Offered autumn and spring. Oral and written presentations of experimental research results and selected literature topics in neuroscience. Level: Graduate

BMED 583 - Research Seminar Toxicol

Credits: 1. (R-9) Offered autumn and spring. Oral and written presentations of experimental research results and selected literature topics in toxicology. Level: Graduate

BMED 593 - Current Research Literature

Credits: 1. (R-6) Offered autumn and spring. Readings and discussion of current research literature. Level: Graduate

BMED 594 - Seminar

Credits: 1. (R 6) Offered autumn and spring. Prereq., senior or graduate standing. Level: Graduate

BMED 595 - Special Topics

Credits: 1 TO 9. (R 9) Offered intermittently. Prereq., senior or graduate standing. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics. Level: Graduate

BMED 596 - Independent Study

Credits: 1 TO 9. (R 9) Offered every term. Level: Graduate

BMED 597 - Research (MS)

Credits: 1 TO 9. (R 10) Offered every term. Level: Graduate

BMED 599 - Thesis (MS)

Credits: 1 TO 9. (R 10) Offered every term. Level: Graduate

BMED 605 - Biomedical Research Ethics

Credits: 1. Offered spring. Overview of biomedical research ethics and regulations. Topics include ethics and morality in science, scientific integrity, conflicts of interest, human and animal experimentation, intellectual property, plagiarism. Level: Graduate

BMED 609 - Biomedical Statistics

Credits: 3. Offered autumn. Experimental design and statistical analysis relevant to the biomedical sciences. Level: Graduate

BMED 610 - Neuropharmacology

Credits: 3. Offered alternate years. Prereq., BMED 613 or 661 or consent of instr. Focus on current areas of research and research technologies in neuropharmacology. Development of presentations and research grant proposals. Level: Graduate

BMED 613 - Pharmacology I

Credits: 4. Offered autumn. Prereq., BIOC 380 or equiv. Fundamentals of pharmacology and drug action. Level: Graduate

BMED 614 - Pharmacology II

Credits: 4. Offered spring. Prereq., BMED 613. Fundamentals of pharmacology and drug action. Continuation of BMED 613. Level: Graduate

BMED 615 - Molecular Pharmacology

Credits: 3. Offered alternate years. Prereq., BMED 600, 613 or consent of instr. Focus on the molecular world of receptors and their interactions with related cellular components and ultimately with binding ligands, both physiological and pharmaceutical. Major emphasis in pharmacodynamics with some time devoted to related pharmacokinetic parameters. Level: Graduate

BMED 620 - Cardiovas Pharm & Tox

Credits: 3. Offered alternate years. Prereq., BMED 613 or 641, or consent of instr. Recent advances in pharmacology and toxicology of the cardiovascular system. In-depth study of regulatory mechanisms and the effect of immune response and xenobiotics on cardiovascular function. Level: Graduate

BMED 621 - Drug Design

Credits: 4. Offered alternate years. Prereq., Organic Chemistry and Biochemistry or consent of instr. Introduction to the main concepts in medicinal chemistry. Laboratory experience in instrumental analysis, interpreting NMR, MS cleavage, and structure elucidation Level: Graduate

BMED 622 - Drug Pharmacodynamics

Credits: 4. Offered alternate years. Organic Chemistry and Biochemistry or consent of instr. Introduction and topical coverage of how drugs form complexes with biological targets to cause an array of responses. Level: Graduate

BMED 623 - Drug Diversity

Credits: 3. Offered alternate years. Organic Chemistry and Biochemistry or consent of instr. Topics in chemogenomics and diversity oriented synthesis will be covered. Level: Graduate

BMED 624 - Methods in Medicinal Chemistry

Credits: 3. Offered intermittently. Prereq., Organic chemistry and biochemistry or consent of instr. Novel approaches to small molecule therapeutics for disease targeting. Level: Graduate

BMED 625 - Drug Synthesis

Credits: 3. Offered intermittently. An introduction to the past and current synthetic approaches and total syntheses of biologically active drugs. Level: Graduate

BMED 626 - Res Meth Biochem Pharm

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Laboratory course intended to familiarize students with the instruments, and expertise of current research techniques in the biomedical sciences. Level: Graduate

BMED 627 - Professional Development

Credits: 1. Offered autumn and spring. Prereq., Organic Chemistry and Biochemistry or consent of instr. Developmental training in presentations, writing, reviewing, literature research, teaching, research methods, grant writing, ethics, and business aspects in medicinal chemistry. Level: Graduate

BMED 628 - Grantsmanship

Credits: 1. This course is designed to provide graduate students and postdoctoral fellows with the necessary background, tools and hands on experience to be able to confidently write and submit a research grant. The focus is on preparing a fellowship application although training will be provided for more typical investigator initiated grants. The entire process from conception, preparation, review and revision will be covered. This course will be a requirement for students on training grants. No prerequisites are required. Level: Graduate

BMED 630 - Pharmacogenetics

Credits: 3. Offered alternate years. Prereq., BIOC 380 or 481. The genetic basis of differential drug activity. Level: Graduate

BMED 632 - Advanced Pharmacokinetics

Credits: 4. Offered Fall. Recent developments and emerging concepts in theoretical and experimental pharmacokinetics, pharmacogenomics, and drug disposition. Critical analysis of the current literature. Level: Graduate

BMED 637 - Topics in Biomedical Sci

Credits: 1 TO 3. (R-9) Offered autumn or spring. Prereq., BMED 613, or 641, or 661. Current topics in the biomedical sciences. Level: Graduate

BMED 641 - Toxicology I-Principles

Credits: 3. Offered autumn. Prereq., BIOC 481 or equiv. Introduction to toxicology. Topics include general principles, risk assessment, organ system toxicology, introduction to carcinogenesis, and genetic toxicology. Level: Graduate

BMED 642 - Toxicology II-Agents

Credits: 3. Offered spring. Prereq., BMED 641. Toxic agents and the diseases caused by those agents. Includes common toxicants in the environment and occupational settings as well as drug induced toxicity. Level: Graduate

BMED 643 - Cellular & Molecular Tox

Credits: 3. Offered autumn. Prereq., BMED 641. Cellular and molecular mechanisms of toxicity. Includes apoptosis, regulation of cell cycle, genetic toxicology, and signal transduction pathways in toxicity. Level: Graduate

BMED 644 - Immunopharm/Immunotox

Credits: 3. Offered alternate years. Prereq., MICB 410 or equiv. The impacts of xenobiotic agents on the immune system. Level: Graduate

BMED 645 - Respiratory Toxicology

Credits: 3. Offered alternate years. Prereq., BMED 641. The lung and associated immune systems and their response to inhaled immunogenic and toxicological agents. Level: Graduate

BMED 646 - Neurotoxicology

Credits: 3. Offered alternate years. Prereq., BMED 641 or 661. Mechanisms of major neurotoxins and neurological disease. Level: Graduate

BMED 647 - Topics in Toxicology

Credits: 1 TO 3. (R-9) Offered autumn or spring. Prereq., BMED 613, or 641, or 661. Current topics in toxicology. Level: Graduate

BMED 657 - Topics in Immunology

Credits: 1 TO 3. (R-9) Offered autumn or spring. Prereq., MICB 410 or equiv. Current topics in immunology. Level: Graduate

BMED 661 - Neuroscience I

Credits: 4. Offered autumn. Prereq., BIOC 380 or equiv. Overview of the structure and function of the nervous system. Level: Graduate

BMED 662 - Neuroscience II

Credits: 4. Offered spring. Prereq., BMED 661. Fundamentals of developmental neuroscience, behavioral and cognitive neuroscience and computational neuroscience. Level: Graduate

BMED 667 - Topics in Neurobiology

Credits: 1 TO 3. (R-9) Offered every year. Prereq., BMED 661. Current topics in neuroscience. Level: Graduate

BMED 668 - Neuropathology

Credits: 4. Prereq., BMED 347 or BMED 661. This course will provide a comprehensive overview of the pathological findings in neurological disease, and their biological basis. This course will provide neuroscience graduate students with a clear description of molecular and cellular processes and reactions that are relevant to the normal and abnormal functioning of the nervous system. Level: Graduate

BMED 694 - Seminar

Credits: 1 TO 3. (R 6) Offered autumn and spring. Prereq., senior or graduate standing. Level: Graduate

BMED 697 - Research (PhD)

Credits: 1 TO 9. (R-20) Offered every term. Level: Graduate

BMED 699 - Dissertation (PhD)

Credits: 1 TO 9. (R-20) Offered every term. Level: Graduate

Pharmacy

PHAR 110N - Use & Abuse of Drugs

Credits: 3. Offered autumn and spring. Drug dependence and abuse. Course Attributes: Natural Science Course

PHAR 145N - Intro to Cancer Biology

Credits: 3. Introduction to basic concepts in cancer biology, treatment, and prevention. Includes discussions of the history of cancer, nomenclature, prevention, cellular and molecular mechanisms, pathology, treatment, and familial cancers. Course Attributes: Natural Science Course

PHAR 191 - Special Topics

Credits: 1 TO 6. (R 16) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

PHAR 300 - Pharmacy Practice I

Credits: 3. Offered autumn. Prereq., M 162 and admission to the professional pharmacy program. An introduction to the prescription and pharmaceutical calculations and to the role of the pharmacist in systems involved in health care delivery.

PHAR 310 - Pharmacy Practice II

Credits: 2. Offered spring. Prereq., PHAR 300 (309). Federal and state laws and regulations pertaining to pharmacy practice. Introductory dispensing laboratory.

PHAR 324 - Medicinal Plants

Credits: 2 TO 3. Offered autumn. Same as AAHS 324. Plants and other natural substances which nourish, heal, injure, or alter the conscious mind.

PHAR 328 - Antimicrobial Agents

Credits: 3. Offered spring. Prereq., BIOM 400. Chemical characteristics, biochemical mechanisms, and pharmacological properties of drugs used in treating infections caused by microorganisms.

PHAR 331 - Pharmaceutics

Credits: 4. Offered spring. Prereq., CHMY 222, first professional year standing. Physical pharmacy and dosage forms.

PHAR 341 - Physiological Systems I

Credits: 4. Offered autumn. Prereq., CHMY 222, PHSX 205N, BIOB 260/261. Principles of anatomy, normal and abnormal physiology.

PHAR 342 - Physiological Systems II

Credits: 4. Offered spring. Prereq., PHAR 341. Continuation of 341.

PHAR 361 - Pharm Sci Lab I

Credits: 1. Offered autumn. Coreq., PHAR 300, PHAR 341. Laboratory experience in the pharmaceutical sciences.

PHAR 362 - Pharm Sci Lab II

Credits: 1. Offered spring. Prereq., PHAR 361; coreq., PHAR 331 and 342. Continuation of 361.

PHAR 363 - Pharmaceutical Care Lab I

Credits: 1. Coreq. PHAR 310. Practice in technical and legal aspects of drug dispensing, prescription and OTC drug counseling, and sterile intravenous (IV) admixture.

PHAR 371 - Integrated Studies I

Credits: 1. Prereq., first professional year standing in pharmacy. Small group conferences designed to develop professional skills while integrating material from other pharmacy courses.

PHAR 372 - Integrated Studies II

Credits: 1. Prereq., PHAR 371. Continuation of 371.

PHAR 381 - Pharmaceutical Biochemistry

Credits: 4. Offered every Autumn. Prereq., admission to Pharmacy School. Fundamental biochemistry from a pharmaceutical sciences perspective; management of genetic information, molecular structure and function, and metabolic reactions, especially as relating to drug actions and targets.

PHAR 390 - Undergraduate Research

Credits: 1 TO 3. (R-6) Offered autumn and spring. Prereq., consent of instr. Individual participation in library or laboratory research. Course Attributes: Research & Creative Schlrshp

PHAR 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PHAR 395 - Pharmacy Practicum

Credits: 1 TO 2. (R-3) Offered autumn and spring. Prereq., PHAR 309. Supervised professional experience in the Student Health Service Pharmacy. Course Attributes: Internships/Practicums

PHAR 401 - Use of Animals in Research

Credits: 2. Offered intermittently. Prereq., consent of faculty supervisor. An introductory course to the care and use of laboratory animals in research. Includes lecture and some hands-on instruction with inanimate models and live animals.

PHAR 412 - Pharmacy Practice III

Credits: 2. Offered spring. Prereq., second professional year standing and a course in communication. The social, economic, legal, ethical, and psychological factors involved in professional and patient relationships of pharmacists.

PHAR 415 - Medication Therapy Mgmt

Credits: 1. Offered Spring. Prereq., second or third professional year standing in pharmacy. A broad introduction to the basic principles, concepts, and application of medication therapy management (MTM) in various pharmacy practice settings.

PHAR 421 - Medicinal Chem I

Credits: 3. Offered autumn. The chemistry of organic compounds used medicinally and their biochemical mechanisms of action.

PHAR 422 - Medicinal Chem II

Credits: 3. Offered spring. Prereq., BMED 421. Continuation of 421.

PHAR 430 - Pharmacogenetics

Credits: 2. Offered each semester online. Prereq., BMED 421, 432. The genetic basis of differential drug activity.

PHAR 432 - Clinical Pharmacokinetics

Credits: 3. Offered spring. Prereq., BMED 331 and pharmaceutical calculation proficiency requirement, or consent of instr. Drug absorption, distribution and elimination.

PHAR 443 - Pharmacol & Toxicol I

Credits: 4. Offered autumn. Prereq., second professional year standing. Basic principles of pharmacology, toxicology and therapeutics.

PHAR 444 - Pharmacology & Toxicol II

Credits: 4. Offered spring. Prereq., BMED 443. Continuation of 443.

PHAR 445 - Immunopharm/Immunotox

Credits: 3. Offered in alternating years. Prereq., consent of instr. This course is designed to introduce advanced undergraduate students and professional Pharmacy students to various aspects involved in the development and mechanisms of action of immunomodulatory drugs and chemicals.

PHAR 451 - Therapeutics I

Credits: 3. Offered autumn. Prereq., second professional year standing; coreq., PHAR 471; prereq. or coreq., PHAR (BMED) 328, 421 and 443. Pharmacotherapeutics of common disease states emphasizing pathophysiology and the selection, monitoring, and individualization of drug therapy. Applies the basic pharmaceutical sciences to patient care.

PHAR 452 - Therapeutics II

Credits: 3. Offered spring. Prereq., PHAR 451; coreq., PHAR 472; prereq. or coreq., PHAR (BMED) 422, 432 and 444. Pharmacotherapeutics of common disease states emphasizing pathophysiology and the selection, monitoring, and individualization of drug therapy. Applies the basic pharmaceutical sciences to patient care.

PHAR 460 - Pharmaceutical Care Lab II

Credits: 1. Offered autumn. Prereq., second professional year standing, PHAR 310. Introduction to parenteral practice application, applied patient interview assessment, and communication skills for practice.

PHAR 463 - Pharmaceutical Care Lab III

Credits: 1. Coreq. PHAR 412. Practice counseling and patient-care skills with emphasis on non-prescription drugs and devices. Includes individual in-service presentations.

PHAR 471 - Integrated Studies III

Credits: 1. Offered autumn. Prereq., second professional year standing in pharmacy. Small group conferences designed to develop professional skills while integrating material from first and second year professional pharmacy courses.

PHAR 472 - Integrated Studies IV

Credits: 1. Offered spring. Prereq., PHAR 471. Continuation of 471.

PHAR 480 - Community Pharmacy IPPE

Credits: 3. (R-6) Offered every term. Prereq., completion of first professional year. Supervised professional experience in community pharmacy.

PHAR 481 - Hospital Pharmacy IPPE

Credits: 3. (R-6) Offered every term. Prereq., completion of first professional year. Supervised professional experience in a hospital pharmacy.

PHAR 484 - Introduction to Toxicology

Credits: 3. Offered every autumn. Prereq., Biology, Chemistry, and Biochemistry; or consent of instructor. Online instruction provides students with a comprehensive introduction to environmental health and the principles of toxicology. Included: Human toxic substance exposure, processing of toxic substances and the impact on cells and tissues including genetic and epigenetic factors. Graduate increment includes design of a research study in toxicology and leading class

PHAR 485 - Environmental Health

Credits: 3. Offered every spring. Prereq., Biology, Chemistry, Biochemistry, and Intro. Toxicology; or consent of instructor. Online instruction for the principles, concepts and applications of environmental health. Included: Methods and paradigm used in the field ranging from ecology to epidemiology, from toxicology to environmental psychology, from genetics to ethics. This course will provide students with a comprehensive introduction to environmental health. This includes an overview of the methods and paradigms used in the field, ranging from ecology to epidemiology, from toxicology to environmental psychology, and from genetics to ethics.

PHAR 486 - Epidem Translational

Credits: 3. Offered every Autumn. Prereq., Biology, Chemistry, Biochemistry, Statistics, and Intro. Toxicology; or consent of instructor. Online instruction to introduce the principles and methods for epidemiologic and clinical investigation, including biostatistical applications. Students will learn to conduct and interpret epidemiological and clinical studies on environmental toxicology. Graduate increment includes design and analysis of an epidemiological study and leading class discussions.

PHAR 490 - Undergraduate Research

Credits: 1 TO 3. (R-6) Offered autumn and spring. Prereq., consent of instr. Individual participation in library or laboratory research. Course Attributes: Research & Creative Schlrshp

PHAR 491 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PHAR 494 - Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. Varying topics.

PHAR 505 - Pharmacy Practice IV

Credits: 3. Offered autumn. Prereq., third professional year standing in Pharm.D. program. Applications of advanced drug therapy monitoring and disease state management. Level: Graduate
PHAR 506 - Pharmacy Practice V

Credits: 3. Offered spring. Prereq., PHAR 505. Aspects of dispensing, management, communications, disease state monitoring, and legal issues related to the provision of pharmaceutical care. Level: Graduate
PHAR 513 - Pharmacoeconomics

Credits: 3. Offered spring. Prereq., third professional year standing or consent of instr. Introduction to assessing the economic, clinical and humanistic outcomes of pharmacotherapy. Level: Graduate
PHAR 514E - Case Studies Pharm Ethics

Credits: 3. Offered spring. Prereq., third professional year standing or consent of instr. A practical discussion of pharmacy ethics, as it relates to pharmacy practice. Level: Graduate Course Attributes: Ethical & Human Values Course
PHAR 550 - Drug Literature Eval

Credits: 3. Offered autumn. Prereq., third professional year standing in pharmacy. Scientific and statistical evaluation of the drug and medical research literature to formulate solutions for patient-specific pharmacotherapy problems. Level: Graduate Course Attributes: Writing Course-Advanced
PHAR 553 - Therapeutics III

Credits: 4. Offered autumn. Prereq., PHAR 452, 472: prereq. or coreq., PHAR 571. Pharmacotherapeutics of common disease states emphasizing pathophysiology and the selection, monitoring, and individualization of drug therapy. Applies the basic pharmaceutical sciences to patient care. Level: Graduate
PHAR 554 - Therapeutics IV

Credits: 4. Offered spring. Prereq., PHAR 553, 571; prereq. or coreq., PHAR 572. Intended for Pharm.D. students. Pharmacotherapeutics of common disease states emphasizing pathophysiology and the selection, monitoring, and individualization of drug therapy. Applies the basic pharmaceutical sciences to patient care. Level: Graduate
PHAR 556 - Psychopharmacotherapeutics

Credits: 2. Offered autumn. Prereq., PHAR 452 or consent of instr. A discussion of the more common childhood and adult psychiatric disorders with emphasis on a pharmacologic approach to their treatment. Level: Graduate
PHAR 557 - Public Health In Pharmacy

Credits: 2. Offered autumn. Prereq., PHAR 452, 472. Discussion of the roles and responsibilities of pharmacists in public health and the role of drugs in public health programs. Level: Graduate
PHAR 560 - Pharmaceutical Care Lab IV

Credits: 1. Coreq PHAR 505. Practice in professional communication and pharmaceutical care interventions and recommendations. Level: Graduate
PHAR 563 - Pharmaceutical Care Lab V

Credits: 1. Coreq., PHAR 506. Practice in professional communication and pharmaceutical care interventions and recommendations. Level: Graduate
PHAR 571 - Integrated Studies V

Credits: 1. Offered autumn. Prereq., third professional year standing in Pharm.D. program. Small group conferences designed to develop the professional skills needed to practice pharmaceutical care while integrating material from the professional pharmacy curriculum. Level: Graduate

PHAR 572 - Integrated Studies VI

Credits: 1. Offered spring. Prereq., third professional year standing in Pharm.D. program. Small group conferences designed to develop professional skills while integrating material from other pharmacy courses. Level: Graduate

PHAR 578 - Port Assess/APPE Orient

Credits: 1. Offered spring. Prereq., final semester in didactic PHARM D curriculum. Preparation and assessment of the student portfolio and orientation for the final experiential year of the professional pharmacy program. Level: Graduate

PHAR 579 - Comm Pharm APPE

Credits: 1 TO 12. (R-12) Offered every term. Prereq., completion of didactic courses in the Pharm. D. program. Supervised professional experience in the patient care functions of the pharmacist in the community pharmacy setting. Level: Graduate

PHAR 580 - Hosp Pharm APPE

Credits: 4. (R-12) Offered every term. Prereq. Completion of didactic courses in the Pharm.D. program. Supervised professional experience in the patient care functions of the pharmacist in the hospital pharmacy setting. Level: Graduate

PHAR 581 - Inpatient APPE

Credits: 4 TO 12. (R-12) Offered every term. Prereq., completion of didactic courses in the Pharm.D. program. Supervised professional experience in the clinical functions of the pharmacist in the inpatient hospital setting. Level: Graduate

PHAR 582 - AMB Care APPE

Credits: 4 TO 16. (R-16) Offered every term. Prereq., completion of didactic courses in the Pharm.D. program. Supervised professional experience in the clinical functions of the pharmacist in the ambulatory care setting. Level: Graduate

PHAR 583 - Drug Information APPE

Credits: 4. (R-8) Offered every term. Prereq., completion of didactic courses in the Pharm.D. program. Supervised professional experience in the provision of drug information by the pharmacist. Level: Graduate

PHAR 584 - Specialized Services APPE

Credits: 4. (R-8) Offered every term. Prereq., completion of didactic courses in the Pharm.D. program. Supervised professional experience in specialized practice settings, such as home infusion, compounding, and nuclear pharmacies.. Level: Graduate

PHAR 585 - Geriatric APPE

Credits: 4. (R-8) Offered every term. Prereq., completion of didactic courses in the Pharm.D. program. Supervised professional experience with geriatric patients in the long term care and/or other pharmacy setting. Level: Graduate

PHAR 586 - Clinical Speciality APPE

Credits: 4. (R-16) Offered every term. Prereq., completion of didactic courses in the Pharm.D. program. Supervised professional experience in the clinical functions of the pharmacist in specialty settings or with specialized groups of patients. Level: Graduate

PHAR 587 - Administrative APPE

Credits: 4. (R-8) Offered every term. Prereq., completion of didactic courses in the Pharm.D. program. Supervised professional experience in the administrative aspects of providing pharmaceutical care. Level: Graduate

PHAR 588 - Research APPE

Credits: 4. (R-8) Offered every term. Prereq., completion of didactic courses in the Pharm.D. program. Supervised professional experience in a research setting. Level: Graduate

PHAR 589 - Education APPE

Credits: 4. Offered every term. Prereq., completion of didactic courses in the Pharm.D. program. Supervised professional experience in teaching in a pharmacy curriculum. Level: Graduate

PHAR 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., senior or graduate standing. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

PHAR 596 - Independent Study

Credits: 1 TO 9. (R-9) Offered every term. Course material appropriate to the needs and objectives of the individual student. Level: Graduate

PHAR 603 - Professional Practice IV

Credits: 4. Offered autumn. Prereq., third professional year standing in Pharm.D. program and acceptance into M.B.A. program. Aspects of dispensing, management, communications, disease state monitoring, and legal issues related to the provision of pharmaceutical care. Level: Graduate

PHAR 604 - Professional Practice V

Credits: 4. Offered spring. Prereq., PHAR 603. Applications of advanced drug therapy monitoring and disease state. Level: Graduate

College of Humanities and Sciences

Christopher M. Comer, Dean

Jenny McNulty, Associate Dean

S. Melanie Hoell, Director of Advising

Homepage: www.cas.umt.edu

The College of Humanities and Science is the intellectual core of the University of Montana. We fulfill the central purpose for which the University was chartered in 1893: to provide a liberal education and integrated knowledge of the humanities and the sciences.

A liberal arts education gives students the means to think broadly and test the value of diverse ideas, beliefs and facts. It empowers them to continue the learning process throughout life. By studying the ways of thinking and

expression that are characteristic of the humanities and the social and natural sciences, students will be educated citizens. They will be enabled to think critically about scientific methods and findings, social analysis, creativity in the arts and humanities, aesthetics and values. Equally important is effective expression of one's understandings. Clear thinking, cogent expression, and solid values provide the foundation of successful careers.

A particular strength of the College is the breadth of its disciplines and programs. This breadth makes possible a varied and flexible curriculum that advances both general programs and specialized education on the undergraduate and graduate levels. Another strength is the quality of the faculty. Its members have a distinguished record of teaching, research and creation of new knowledge, and service to our communities. Their commitment to undergraduate liberal arts education is demonstrated by the quality of the graduates the College has produced. The pre-professional education received here has enabled University of Montana graduates to compete successfully for admission to graduate schools across the nation. A third strength of the College is its commitment to students as they pursue their academic studies at the University. This is reflected in close student/faculty relationships and in the continuous attention given by the College to the effect that policies, procedures, and administrative practices have on students' educational experience.

African-American Studies

Tobin Miller Shearer, Program Director

African-American Studies at the University of Montana connects African and African-American (including Latin America and the Caribbean) history, experiences, and perspectives with the 21st century. The goal of the African-American Studies curriculum is to develop basic knowledge of, and appreciation for, the diverse experiences of the African Diaspora, and their contributions to the nations into which they were incorporated. Through this study students will recognize that the African-American narrative connects to the core issues of nation formation, identity politics, social movements, and the liberal state. Those who take this minor will likewise be equipped to talk alongside, through, and in the midst of the racial fracture lines that mark this nation as a country where the color of one's skin is socially significant. In all these efforts, we promote scholarship that is driven first and foremost by an interest in creating knowledge and furthering our understanding of the African-American experience. The interdisciplinary curriculum of African-American Studies includes course offerings from the following academic disciplines: anthropology, economics, English, geography, history, music, political science, and sociology. Some topics of study include: African heritage and cultural continuity among African-Americans; African-American identity issues and cultural variation; the history of African-American protest and resistance, including the abolitionist, anti-lynching, and civil rights movements; the Harlem Renaissance; the social dynamics of integration and segregation; and the various circumstances of, and prospects for, African Americans in the 21st century.

Course Descriptions

African-American Studies

AAS 141H - Black: Africa to Hip-Hop

Credits: 3. Level: Undergraduate. Offered autumn. Same as HSTA 141H. This course introduces students to the primary questions, themes, and approaches to African-American Studies. In addition to examining key historical periods such as Reconstruction, the Harlem Renaissance, and the Civil Rights era, students will encounter Hip-Hop, African-American film, African-American religion, and contemporary identity politics. This course concludes by discussing the reasons for and new directions in African-American studies, including diaspora studies, Pan-Africanism, and post-colonial studies. Overall students will gain new insight into the social, cultural, political, and

intellectual, experiences of a diverse people and into the history and contemporary experience of the United States.

Course Attributes: Historical & Cultural Course Indigenous and Global

AAS 191 - Special Topics

Credits: 1 TO 6. Level: Undergraduate. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

AAS 208H - Discovering Africa

Credits: 3. Level: Undergraduate. Offered intermittently. Interdisciplinary study of the history of pre-colonial Africa, focusing on social, economic, political, and cultural institutions and traditions including the wealth, diversity, and complexity of ancient and classical African civilizations and cultures. Course Attributes: Historical & Cultural Course Non-Western Course

AAS 260 - African Amer & Native Amer

Credits: 3. Level: Undergraduate. Offered Fall, even years. Same as NAS 260. A study of the broad scope of relations between African Americans and Native Americans in colonial and United States history. Topics explored through history, sociology, and cultural anthropology.

AAS 291 - Special Topics

Credits: 1 TO 6. Level: Undergraduate. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

AAS 292 - Independent Study

Credits: 1 TO 6. Level: Undergraduate. Prereq., consent of instr.

AAS 342H - Afr Amer Hist to 1865

Credits: 3. Level: Undergraduate. Offered intermittently. Same as HSTA 342H. Survey of the African-American experience from the African background to the end of the Civil War. Focus on Black American quest for the American Dream, and how Blacks attempted to deal with the challenges of enslavement and racism. Course Attributes: Historical & Cultural Course

AAS 343H - Afr Amer Hist Since 1865

Credits: 3. Level: Undergraduate. Offered intermittently. Same as HSTA 343H (HIST 379H). Study of the African-American experience since the Civil War. Change and continuity in the African-American experience, the fight against Jim Crow, the struggle for civil rights, and post-civil rights economic, political, social and cultural developments and challenges. Course Attributes: Historical & Cultural Course

AAS 372 - African American Identity

Credits: 3. Level: Undergraduate. Offered autumn. Interdisciplinary course designed to explore and illuminate the multifaceted nature and development of African-American group and individual identity. Course Attributes: Writing Course-Upper-Division Writing Course-Approved

AAS 391 - Special Topics

Credits: 1 TO 6. Level: Undergraduate. (R-9) Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

AAS 392 - Independent Study

Credits: 1 TO 9. Level: Undergraduate. (R-9) Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

AAS 415 - The Black Radical Tradition

Credits: 3. Level: Undergraduate, Graduate. (AM) Offered autumn, odd years. From slave revolts through to the Move rebellion in Philadelphia, this course examines how the African-American community has engaged in radical efforts to change the status quo in the name of seeking justice. Course Attributes: Writing Course-Upper-Division

AAS 417 - Prayer & Civil Rights

Credits: 3. Level: Undergraduate. (AM) Offered autumn, even years. This course explores the meaning of public prayer in the Civil Rights Movement. Built around the question, "Does religion help or hinder the pursuit of social change?" this class combines historical and religious studies inquiry to trace changes in civil rights activists' efforts to make use of religion. By focusing on a particular religious practice - in this case prayer - in a specific, but limited period of time, this course challenges students to consider how meaning is formed through historical action and study the social significance of religious practice. This formed through historical action and study the social significance of religious practice. This course complicates prevailing ideas about the normalcy of African-American religious practitioners' prayer, invites students to examine their assumptions about the nature of prayer, and traces how religion spilled out of sanctuaries into the streets during the civil rights era. Course Attributes: Writing Course-Upper-Division

AAS 420 - America Divided, 1848-1865

Credits: 3. Level: Undergraduate, Graduate. Offered intermittently. Same as HSTA 420. This course explores the period in American history from the close of the Mexican War through the conclusion of the Civil War. Topics include slavery and sectionalism; race and racism; immigration and ethno-religious conflict; military mobilization and wartime dissent; the meaning of freedom in the age of emancipation. This course is intended to hone skills fundamental to the historical discipline: the critical analysis of primary sources; independent primary research and historical writing; engagement with and assessment of historical scholarship; the construction of a historiographical essay. Course Attributes: Writing Course-Upper-Division

AAS 491 - Special Topics

Credits: 1 TO 6. Level: Undergraduate, Graduate. (R-9) Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

AAS 492 - Independent Study

Credits: 1 TO 9. Level: Undergraduate, Graduate. (R-9) Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

AAS 562 - Problems in AfAm History

Credits: 3. Level: Undergraduate, Graduate. Spring, even years. Same as HSTA 562. This course explores the question, "How does one study African-American history?" through the lens of African-American religious practice.

Anthropology Department

Tully J. Thibeau, Chair

Anthropology is the study of people, both ancient and contemporary, in their biological, archaeological, cultural, and linguistic context. Anthropology uses a holistic approach to integrate findings from the social sciences, natural

sciences, and humanities. The primary educational mission of the Department of Anthropology is teaching, research, and professional service in order to impart the critical importance of understanding the human condition and its relevance to an increasingly diverse world. To accomplish this task, the Department of Anthropology provides a curriculum that will help students understand and appreciate the range of human cultures as well as the significance of biological evolution of the human condition. Through our undergraduate and graduate programs, students not only achieve a broad cross-cultural education but also prepare to apply their anthropological knowledge in their chosen career paths. A minor, Bachelor of Arts, Master of Arts, and Doctor of Philosophy degrees are offered in Anthropology, with options or specializations available at every level. For undergraduates, the B.A. can include an option in Archaeology, Cultural and Ethnic Diversity, Forensic Anthropology, Linguistics, Medical Anthropology - or a general degree crafted to the interests of the student. Parallel missions to promote the study of human diversity and experience are advanced by the Linguistics Program, which is also housed in the Department. Additional offerings include certificates in Forensic Science and Historic Preservation; these certificates are interdisciplinary by nature, but are administered within the Anthropology Department.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Certificate of Art Level: Certificate Subject: **Forensic Studies**

Total Credits: 18 Cumulative GPA Required: 2.0

The certificate in forensic studies is designed so that students may complete the requirements either as resident students at UM-Missoula or completely online through UM-Missoula's online facility.

To earn a certificate in forensic studies the student must complete a minimum of 18 credits, including 6 credits in core forensic science courses.

Lower Division Core

Category Name: Core Courses Rule: All courses required.

Criterion: C Number of Credits 6

Course Listing

CJUS 125N Fund of Forensic Science 3

CJUS 488 Foren Sci: Beyond Crime Lab 3

Commentary: Major Electives

Category Name: Science Electives Rule: Must complete 6 credits

Criterion: C Number of Credits 6

Course Listing

Commentary: To meet this requirement, students must complete six credits in courses with a suffix of "N" (courses that have been designated as University of Montana- Missoula General Education Group XI, Natural Sciences) in any department. Any Criminology courses offered through the Sociology department also count towards meeting this requirement. Courses numbered under 100 may not be counted toward meeting this requirement. Minimum grade required is C-.

Commentary:

Upper Division Electives

Category Name: Communication Elective Rule: Must complete a 3 credit course

Criterion: C- Number of Credits 3

Course Listing

Commentary: To meet this requirement, student must complete one, 3-credit course related to written, oral, or pictorial communication, including selected courses in Art, Curriculum & Instruction, Communication Studies, Computer Science, English, Forestry, Journalism, Linguistics, and Media Arts. Courses numbered under 100 may not be counted toward meeting this requirement. WRIT 101 will not be accepted as fulfilling this requirement.

Upper Division Electives Category Name: Ethics Elective

Rule: Must complete a 3 credit course

Criterion: C Number of Credits 3

Course Listing

Commentary: To meet this requirement, student must complete one, 3-credit course that has been designated as a University of Montana - Missoula General Education Group VIII (Ethics and Human Values) course in any department.

Commentary: Degree Commentary

The Certificate in Forensic Studies is primarily designed as a step toward a baccalaureate degree for those interested in a career in the forensic sciences or a related field. It is also designed as an avenue for law enforcement agents, forensic scientists, or other professionals in the justice system to satisfy mandatory continuing education requirements for continued employment or promotion.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Certificate of Applied Science Level: Certificate Subject: **Historic Preservation**

Total Credits: 21 Cumulative GPA Required: 2.0

Historic Preservation is the interdisciplinary field that seeks to identify, document, preserve and protect significant structures, sites and landscapes.

Upper Division Core

Category Name: Core Courses Rule: must complete all courses

Criterion: C Number of Credits 15

Course Listing

ANTY 451	Cultural Resource Management	3

Criterion: C Number of Credits 3

Course Listing

HSTA 320	Birth of Modern US	3
HSTA 321	America in Crisis	3
HSTA 322	American History: WWII to Pres	3

Category Name: Internship or Independent Study Rule: Must complete three credits

Criterion: C Number of Credits 3

Course Listing

ANTY 398	Internship	1 To 6
ANTY 492	Independent Study	1 To 6

Commentary: Internship must be with an approved, appropriate preservation-based agency or focused on an approved preservation-based topic.

Commentary: Degree Commentary

Historic Preservation is the interdisciplinary field that seeks to identify, document, preserve and protect significant structures, sites and landscapes. To earn a certificate in historic preservation the student must complete a minimum of 21 credits.

Department Faculty

Professors

- Gregory Campbell, Professor
- Kelly Dixon, Professor
- John Douglas, Professor
- S. Neyooxet Greymorning, Professor
- Ardeshir Kia, Associate Director, Central and Southwest Asia Program
- Douglas MacDonald, Professor & Graduate Program Coordinator
- Kimber Haddix McKay, Professor
- Anna Prentiss, Professor
- Gilbert Quintero, Professor
- Randall Skelton, Professor
- G.G. Weix, Professor

Associate Professors

- Irene Appelbaum, Associate Professor, Linguistics Director
- Leora Bar-el, Associate Professor
- Mizuki Miyashita, Associate Professor
- Tully Thibeau, Associate Professor, Dept.Chair

Assistant Professors

- Meradeth Snow, Assistant Professor

Adjunct Faculty

- Corey Ragsdale, Visiting Assistant Professor

Lecturers

- D. Garry Kerr, Adjunct Instructor
- Richard Sattler, Adjunct/Lecturer

Emeritus Professors

- Thomas A. Foor, Professor Emeritus

Course Descriptions

Anthropology

ANTY 101H - Anthro & the Human Experience

Credits: 3. Offered autumn and spring. Offered intermittently in summer. A survey of anthropology which introduces the fundamental concepts, methods and perspectives of the field. The description and analysis of human culture, its growth and change. The nature and functions of social institutions. Course Attributes: Historical & Cultural Course Indigenous and Global

ANTY 102H - Intro to South & S. East Asia

Credits: 3. Offered intermittently. An introduction to South and Southeast Asian regions, cultures, societies, and histories, with particular emphasis on artistic, religious and literary traditions from prehistory to the present. An overview approach with different materials and emphases. Course Attributes: Historical & Cultural Course Indigenous and Global

ANTY 103H - Intro Latin American Studies

Credits: 3. Offered autumn or spring. Multidisciplinary survey and introduction to Latin America from pre- Columbian times to the present. Course Attributes: Historical & Cultural Course Indigenous and Global

ANTY 122S - Race and Minorities

Credits: 3. Offered autumn. Analysis of the development and concept of race as a social category and the processes of cultural change within and between ethnic groups. Course Attributes: Social Sciences Course American and European

ANTY 133X - Food and Culture

Credits: 3. Offered spring. Examination of the ways culture shapes the satisfaction of a biological need; food production, preparation, choices, customs, taste, taboos, beverages, spices and food distribution around the globe. Course Attributes: Indigenous and Global

ANTY 141H - The Silk Road

Credits: 3. Offered autumn and spring. Introduction to the study of the human communities, cultures, and economies in Central and Southwest Asia along the ancient four thousand mile-long Silk Road. Course Attributes: Historical & Cultural Course Indigenous and Global

ANTY 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ANTY 198 - Internship

Credits: 1 TO 6. Offered every term. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, and 498) may count toward graduation. Course Attributes: Internships/Practicums

ANTY 210N - Intro to Physical Anthropology

Credits: 3. Offered autumn. An introduction to human evolutionary biology including processes of evolution, primate studies, hominid paleontology, and human variation. Course Attributes: Natural Science Course

ANTY 211N - Anthropological Genetics

Credits: 3. Offered intermittently. Genetics-related problems that confront individuals and society. Variation and natural selection in human populations. Designed for non-biology majors. Course Attributes: Natural Science Course

ANTY 213N - Physical Anthropology Lab

Credits: 1. Prereq., or coreq., ANTY 210N. Offered autumn. This lab course allows students to more deeply explore the concepts and materials covered in Introduction to Physical Anthropology. Students will engage in lab based activities involving human genetics and processes of evolution, biology and behavior of non-human primates, human evolution, and modern human adaptation and variation. Course Attributes: Natural Science Lab Course

ANTY 216 - Primates in Peril

Credits: 3. Offered intermittently. An overview of the living primates and their behavior with a focus on conservation issues that have an impact on primates.

ANTY 220S - Culture & Society

Credits: 3. Offered autumn and spring. Study of social organization of non-western societies; emphasis on variations in ecology, social structure, economic, political and religious beliefs and practices. Course Attributes: Social Sciences Course Indigenous and Global

ANTY 241H - Central Asian Culture and Civ

Credits: 3. Offered autumn even numbered years. Introduction to Central Asia's history, culture and ways of thinking. Focus on the political and social organization of Central Asia and cultural changes as expressed in art and interactions with China, India and the Middle East. Course Attributes: Historical & Cultural Course Indigenous and Global

ANTY 250S - Intro to Archaeology

Credits: 3. Offered spring. What archaeologists do and how they reconstruct past human cultures. Methodological and theoretical approaches to understanding and explaining past human societies. Course Attributes: Social Sciences Course

ANTY 251H - Foundations of Civilization

Credits: 3. Offered spring. Focus on the worldwide evolution of human society from Stone Age hunter-gatherers to the beginnings of modern civilization. Approached through the colorful and exciting world of archaeologists and the sites they excavate. Course Attributes: Historical & Cultural Course Indigenous and Global

ANTY 254H - Arch Wonders of the World

Credits: 3. Offered spring even numbered years. This course highlights the classical civilizations of the ancient world, fields such as Egyptology and Classical Archaeology, and the major archaeological discoveries which are associated with them. Course Attributes: Historical & Cultural Course Indigenous and Global

ANTY 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings relating to current problems or new developments in the discipline.

ANTY 310 - Human Variation

Credits: 3. Offered every spring. Prereq., ANTY 210N or consent of instr. Introduction to human biological variation, and to the methods and theories that are used to explain the distribution of variable features. Course Attributes: Writing Course-Intermediate

ANTY 312 - Human Evolution

Credits: 3. Offered autumn. Prereq., ANTY 210N. An exploration of the fossil and archaeological records of the evolution of human beings, and of current methods and theories used in interpreting these data.

ANTY 314 - Principles of Forensic Anthro

Credits: 3. Offered autumn. Prereq., ANTY 210N. A study of techniques for recovering skeletal material, identifying and interpreting human skeletal remains, keeping records, interacting with the law enforcement system and documenting human rights abuses. Course Attributes: Writing Course-Advanced

ANTY 318 - Casting & Facial Approximation

Credits: 3. Offered spring. Prereq., ANTY 314 and consent of instr. An exploration of techniques for conservation and replication of skeletal elements, facial reconstruction, and other techniques for identification of individuals from their skeletal remains.

ANTY 323X - Native Peoples of Montana

Credits: 3. Offered spring. The history and culture of the Indian tribes in Montana. Course Attributes: Indigenous and Global

ANTY 326E - Indigenous Peoples & Globl Dev

Credits: 3. Offered spring odd-numbered years. This class will examine the impact of global development on tribal and Indigenous peoples. Topics will include land issues, health, employment, and cultural change caused by global development and explore how these societies are resisting and adapting to their changing world. Course Attributes: Ethical & Human Values Course Indigenous and Global

ANTY 330X - Peoples and Cultures of World

Credits: 3. (R-9) Offered autumn and spring. Study of the peoples of various geographic regions and their cultures.

ANTY 333 - Culture and Population

Credits: 3. Offered autumn, even-numbered years. The relationship between population processes and culture to the human condition; survey data, methodologies, theories of demographic and culture change.

ANTY 336 - Myth, Ritual and Religion

Credits: 3. Offered autumn odd-numbered years. Theories and practices concerning supernatural phenomena, and the comparative study of world religions and cosmological traditions of indigenous peoples throughout the world. Course Attributes: Writing Course-Intermediate

ANTY 347 - Central Asia and Its Neighbors

Credits: 3. Offered autumn odd number years. Analysis of the human communities and cultures of Central and Southwest Asia, with particular emphasis on the importance of relationships with neighboring countries and civilizations since ancient times.

ANTY 349 - Social Change in NnWstrn Socts

Credits: 3. Offered autumn, odd-numbered years. Prereq., ANTY 220S or consent of instr. Study of the processes of change, modernization and development.

ANTY 351H - Archaeology of North America

Credits: 3. Offered intermittently. The origins, backgrounds and development of Pre-Columbian American peoples and cultures. Course Attributes: Historical & Cultural Course Indigenous and Global

ANTY 352X - Archaeology of Montana

Credits: 3. Offered spring. The origins, distributions and development of aboriginal cultures in Montana and surrounding regions. Course Attributes: Indigenous and Global

ANTY 353 - PaleoIndian Archaeology

Credits: 3. Offered spring or winter, even-numbered years. Examines archaeological, linguistic, biological and skeletal data to determine from where and when Native Americans arrived in North America. Examines archaeological sites from such diverse places as Montana, Siberia, Virginia, and Chile to answer the most intriguing question in contemporary American archaeology today: how, when and from where did people first arrive in the Americas?

ANTY 354H - Mesoamerican Prehistory

Credits: 3. Offered intermittently. The development of civilization and prehistoric states in the New World. Prehistoric lifeways and the effects of European contact on these cultures. Course Attributes: Historical & Cultural Course

ANTY 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ANTY 398 - Internship

Credits: 1 TO 6. Offered intermittently. Prereq., 9 credits in anthropology; consent of faculty supervisor and cooperative education officer. Practical application of classroom learning through internship in a number of areas such as museology, cultural resource management, and forensics. A maximum of 6 credits of Internship (198, 298, 398, and 498) may count toward graduation. Course Attributes: Internships/Practicums

ANTY 400 - History of Anthropology

Credits: 3. Offered autumn. Prereq., ANTY 101H and 220S. The development of theory and method in cultural anthropology to the present. Various archaeological, ethnological and socio-psychological theories in the light of historical anthropology. Course Attributes: Writing Course-Advanced

ANTY 401 - Anthropological Data Analysis

Credits: 3. Offered autumn. Prereq., M 104, M 105, M 115, M 121, M 122, M 135, M 151 or consent of instr. An analysis of the foundations of anthropological scaling and measurement.

ANTY 402 - Quantitative Ethnographic Field Methods

Credits: 3. Offered autumn. This course is designed to enhance student understanding of field methods that generate quantitative data describing human behavior. The toolkit of a student completing this course will include knowledge of basic methods that will get you from observing behavior to discussing your research and findings in a professional manner in oral or written formats. Course Attributes: Writing Course-Advanced

ANTY 403E - Ethics and Anthropology

Credits: 3. Offered spring even-numbered years. Prereq., ANTY 101H or 220S, or consent of instr. Ethical and anthropological modes of inquiry in relation to each other. Focus on the sociocultural subfield as well as ethical issues in physical anthropology and archaeology. Course Attributes: Ethical & Human Values Course Writing Course-Advanced

ANTY 404 - Anthropological Museology

Credits: 3. Offered spring even-numbered years. Prereq., ANTY 101H. Introduction to anthropological museums, museum work and museum theory.

ANTY 408 - Advanced Anthro Statistics

Credits: 3. Offered spring. Prereq., consent of inst. Focus on techniques used for microcomputer-based data management and multivariate analysis. Course Attributes: Writing Course-Advanced

ANTY 409 - Preceptorship in Anthropology

Credits: 1 TO 3. (R-6) Offered autumn and spring. Prereq., ANTY 210N, 220S, 250S and consent of instr. Assisting a faculty member by tutoring, grading objective exams, conducting review sessions, and carrying out other class-related responsibilities. Open to juniors, senior, and graduate students with consent of the faculty member with whom they serve. Proposals must be approved by department chair.

ANTY 412 - Osteology

Credits: 4. Offered autumn. Prereq., ANTY 314 and consent of instr. A detailed examination of the human skeleton with an emphasis on identifying individual bones and their structures. Specifically extended to fragmentary skeletal elements. Direct hands-on experience required.

ANTY 413 - Forensic and Mortuary Arch

Credits: 3. Offered spring. Prereq., ANTY 314 and consent of instr. Practical approaches to locating, documenting and recovering human skeletal remains, including surface scatters and burials. Emphasis on interpretations of evidence for recovery scene formation and mortuary behavior.

ANTY 415 - Emergence Modern Humans

Credits: 3. Offered intermittently. Prereq., ANTY 210N. An exploration of the emergence of "modern" humans and their relationships with Neanderthals. Exploration of what it means to be "a modern human" through an examination of human evolutionary history.

ANTY 416 - Dental Anthropology

Credits: 3. Offered intermittently. Prereq., ANTY 210N. The use of information from teeth in investigating evolutionary trends, the relationships between human groups, subsistence change, and culture change.

ANTY 417 - Adaptation & Nutritional Anth

Credits: 3. Offered intermittently. Prereq., ANTY 210N. An examination of the adaptation of human populations to the environment and food supply via evolutionary, physiological, and cultural mechanisms.

ANTY 418 - Ecol Genet Var Human Pops

Credits: 3. Offered intermittently. Prereq., ANTY 210N Human genetic variation examined from an ecological perspective. Emphasis on the role of infectious disease as a selective factor in human evolution and exploration of the implications of these associations for human genetic variation.

ANTY 422 - Mind, Culture and Society

Credits: 3. Offered autumn even-numbered years. Prereq., ANTY 220S or consent of instr. The study of socialization, personality, cognition, and mental health cross-culturally.

ANTY 423 - Culture and Identity

Credits: 3. Offered spring. Prereq., ANTY 220S or consent of instr. The comparative study of identity formation along and across racial, ethnic, and ethno-national lines. Emphasis on issues of ethnogenesis, cultural resistance,

transformation, domination, colonialism as well as sharing to understand both the cultural commonalities and differences in identity formation.

ANTY 426 - Culture, Health and Healing

Credits: 3. Offered autumn. Cross-cultural comparisons of theories and concepts and health and illness.

Examination of the impact of these concepts upon health practices and treatment of disease around the world.

ANTY 427 - Anthropology of Gender

Credits: 3. Offered spring. Comparative study of the history and significance of gender in social life.

ANTY 430 - Social Anthropology

Credits: 3. Offered spring. Prereq., ANTY 220S. Seminar style senior capstone course for cultural anthropology students. This course focuses on bringing theory and methods together in written and visual ethnography.

ANTY 431 - Ethnographic Field Methods

Credits: 3. Offered spring. Prereq., ANTY 220S, ANTY 401, or consent of instr. Introduction to socio-cultural anthropological methods including participant observation, interviewing and narrative techniques and analysis of qualitative data.

ANTY 433 - Indig Global Health & Healing

Credits: 3. Offered alternate years. Examination of traditional and contemporary uses of medicine in Native American societies. Issues covered will include current health conditions of American Indians, and the relationship from a cultural perspective on health, healing and medicine.

ANTY 435 - Drugs, Culture and Society

Credits: 3. Offered intermittently. Drug use in a cross-cultural perspective. The role of drugs in cultural expression and social interaction. Examination of the prehistory of drug use, drug use in traditional non-Western and Western societies, and drug use in the context of global sociocultural change.

ANTY 440 - Cont. Issues of SSEA

Credits: 3. Offered intermittently. Prereq., ANTY 102H. An examination of the major issues that affect the contemporary experience of South and Southeast Asians.

ANTY 442 - Cities/Landscapes Central Asia

Credits: 3. Offered spring odd numbered years. Analysis of the main centers of civilization and culture, rich sites and monuments of Central Asia and Southwest Asia since ancient times.

ANTY 444 - Artistic Tradtns Central Asia

Credits: 3. Offered spring even numbered years. Analysis of the study of human artistic creativity and scientific innovations of various cultures in Central and Southwest Asia since ancient times.

ANTY 450 - Archaeological Theory

Credits: 3. Offered autumn. Prereq., ANTY 250S. Historical trends and current major theories and methods in archaeology. Course Attributes: Writing Course-Advanced

ANTY 451 - Cultural Resource Management

Credits: 3. Offered autumn. Introduction to the laws and practice of cultural resource/heritage property management. Focus on the management of archaeological sites, historic structures, and traditional cultural places due to federal laws. Emphasis is on laying foundation of CRM practices for students interested in pursuing it as a potential career. Course Attributes: Writing Course-Advanced

ANTY 452 - GIS in Archaeology

Credits: 3. Prereq., ANTY 250s. Anthropological and archaeological data acquisition, management, and analysis using Geographic Information Systems (GIS) tools and techniques.

ANTY 454 - Lithic Technology

Credits: 3. Offered autumn odd-numbered years. Prereq., ANTY 250S and consent of instr. Analysis of stone artifacts and debitage.

ANTY 455 - Artifact Analysis

Credits: 3. Offered spring. Prereq., ANTY 250S and consent of instr. Laboratory approaches and techniques for analyzing material culture from technological, stylistic, and chronological perspectives. Course Attributes: Writing Course-Advanced

ANTY 456 - Historical Archaeology

Credits: 3. Offered spring. Prereq., ANTY 250S or consent of instr. Understanding and interpreting the past through historical archaeological remains, methods, and theories. Focuses on historical archaeological sites and topics from the American West, but also examines the field's global perspective.

ANTY 457 - Arch of the Pacific Northwest

Credits: 3. Offered autumn even-numbered years. Introduction to the study of archaeology in the Pacific Northwest region inclusive of the Northwest Coast and Columbia/Fraser-Thompson Plateau. Understanding hunter-gatherer adaptations, evolution of social complexity, and ancient history of contemporary native peoples in the region.

ANTY 458 - Arch of Hunter-Gatherers

Credits: 3. Offered autumn even-numbered years. Introduction to the archaeological study of hunter-gatherer societies. Primary emphasis on archaeological method and theory.

ANTY 459 - Arch of the Arctic/Subarctic

Credits: 3. Offered spring even-numbered years. Introduction to the study of Arctic and Subarctic archaeology emphasizing the Pleistocene and Holocene prehistory of North America and eastern Siberia. Understanding of methodological problems associated with archaeology in a northern context, the evolution of Inuit, Eskimo, Aleut and Athapaskan cultures, and hunter-gatherer adaptations to northern interior and coastal environments.

ANTY 465 - Arch of the SW United States

Credits: 3. Offered intermittently. The development of the prehistoric communities in the southwestern United States from ancient times to the dawn of history in the area.

ANTY 466 - Archaeological Survey

Credits: 1 TO 12. (R-12) Prereq., ANTY 250S and consent of instr. Offered autumn. A field course in Montana archaeology.

ANTY 467 - Archaeological Field School

Credits: 3 TO 12. (R-12) Offered summer. Prereq., ANTY 250S and consent of instructor. Provides students with a well-rounded experience in archaeological field methods. Field schools will typically occur at archaeological site locations away from campus. During the archaeological field experience, students may learn methods of excavation, survey, research, and analysis to facilitate their transition to careers as professional archaeologists.

ANTY 476 - Methods for Native Languages

Credits: 3. (R-6) Offered Spring. In an effort to highlight promising methodologies that will advance the success of Native language acquisition and instruction, students will be exposed to an innovative methodology while being instructed in an Indigenous language.

ANTY 491 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ANTY 492 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

ANTY 494 - Seminar/Workshop

Credits: 3. Offered spring. Advanced analysis of historical and contemporary issues involving human communities, cultures, and economies of a particular region, and that region's role in the world.

ANTY 495 - Field Experience:

Credits: 1 TO 12. (R- 12) Offered intermittently. Prereq., consent of instr. Organized field experience in anthropology. Course Attributes: Internships/Practicums

ANTY 500 - Cont Anthro Thought

Credits: 3. Offered autumn and spring. Prereq., graduate standing or consent of instructor. A review of major contributions to current anthropological theory, with an emphasis on the application of theory to anthropological problems. Significant advances in general theory, symbolic anthropology, critical theory, cultural studies, and postmodernism. Level: Graduate

ANTY 501 - Historical Anthropology

Credits: 3. Offered spring even numbered years. The location, use, and value of written records in anthropological research. Level: Graduate

ANTY 502 - Curatorial & Archival Mgmt

Credits: 3. Offered intermittently. Theory and practice in the curation of anthropological collections and the maintenance of anthropological information and records. Level: Graduate

ANTY 503 - Cultl Resrc Interpretation

Credits: 3. Offered intermittently. Practice of presenting anthropological knowledge of cultural resources to the public, with an emphasis on writing. Level: Graduate

ANTY 510 - Sem Human Var & Evol

Credits: 3. (R-6) Offered autumn. Prereq., ANTY 515. Various topics related to genetic evidence of human biological evolution, morphological and genetic diversity of modern humans, and problems of "race". Level: Graduate

ANTY 512 - Adv Forensic Anthropology

Credits: 3. (R-6) Offered spring. Prereq., ANTY 515 and consent of instr. Review of traditional methods and exploration of new methods of skeletal analysis, as applied to cases from the forensic collection. Level: Graduate

ANTY 513 - Sem Bioarch & Skel Biol

Credits: 3. (R-6) Offered spring. Prereq., ANTY 515 or consent of instructor. Theoretical and methodological approaches to the analysis of human skeletal remains derived from archaeological contexts. Demography, health

and disease, diet and nutrition, growth, activity patterns, and measures of biological relatedness are interpreted within a biocultural framework. Level: Graduate

ANTY 514 - Sem Paleoanth & Evol Analy

Credits: 3. (R-6) Offered intermittently. Prereq., ANTY 515 or consent of instructor. Exploration of selected aspects of the human fossil, archaeological, & genetic records and the theories and methods of evolutionary analysis used to analyze them. Level: Graduate

ANTY 515 - Theor & Meth in Bioanth

Credits: 3. Offered autumn. A detailed review of the body of theory that is foundational for the study of human evolution, human variation, bioarchaeology, forensic anthropology, and primatology, along with a consideration of major methods used to analyze data in these fields. Level: Graduate

ANTY 520 - Seminar in Ethnology

Credits: 3. (R-6) Offered autumn. A review and discussion of current research. Topics vary. Level: Graduate

ANTY 521 - Applied Anthropology

Credits: 3. Offered spring odd-numbered years. Study of ways in which anthropological skills may be used in non-academic fields. Level: Graduate

ANTY 522 - Medical Anthropology

Credits: 3. Offered spring even-numbered years. An examination of selected issues and trends in contemporary theory and methodology within medical anthropology. Seminar assignments and discussions focus on understanding the application of anthropological concepts and methods in medical settings and are organized around several topics, including cultural conceptualizations of health, illness and risk; global health; the social and cultural construction of illness; drug and pharmaceutical use; and mental health in cultural context. Level: Graduate

ANTY 550 - Seminar in Archaeology

Credits: 3. Offered autumn odd-numbered years. A review and discussion of current research. Topics vary. Level: Graduate

ANTY 551 - Seminar Historical Archaeology

Credits: 3. Offered autumn odd-numbered years. An exploration of theories, methods, and literature in historical archaeology. Level: Graduate

ANTY 552 - Power, Prestige & Things

Credits: 3. Offered autumn even-numbered years. Investigation of power, prestige, leadership, and inequality in past social systems as interpreted through artifacts and architecture. Level: Graduate

ANTY 553 - Evolutionary Archaeology

Credits: 3. Offered intermittently. Examination of method and theory in Darwinian evolutionary archaeology. Seminar assignments and discussions focus on human behavioral ecology, cultural transmission, and macroevolution. Level: Graduate

ANTY 593 - Professional Project

Credits: 1 TO 10. (R-10) Offered every term. Prereq., consent of instr. Preparation of a professional paper appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Faculty-Led Study Abroad

ANTY 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums
ANTY 596 - Independent Study

Credits: 1 TO 9. (R-9) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Service Learning/Volunteer
ANTY 597 - Research

Credits: 1 TO 10. (R-10) Offered every term. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate
ANTY 598 - Internship

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., graduate standing and consent of faculty supervisor. Practical application of classroom learning through internship in a number of areas such as museology, cultural resource management and forensics. Written reports are required. Level: Graduate Course Attributes: Internships/Practicums
ANTY 599 - Thesis

Credits: 1 TO 10. (R-10) Offered every term. Prereq., consent of instr. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate
ANTY 600 - Issues Cultural Herit

Credits: 3. Offered autumn. Prereq., consent of instr. Doctoral dissertation research activities. A review of the range of topics that fall under the umbrella of cultural heritage and a review of theory and practice in one or more of these topics. Level: Graduate

ANTY 601 - Resrch Design & Proposal Prep

Credits: 3. Offered spring. Prereq., graduate standing. Seminar in the development of anthropological research designs and proposals. Level: Graduate

ANTY 602 - Cultl Herit Policy & Pract

Credits: 3. Offered spring odd-numbered years. Prereq., graduate standing. Exploration of critical issues in cultural heritage policy emphasizing the regulatory basis for federal CRM, public anthropology, and indigenous people's issues. Hands-on training in the design and production of federal planning documents. Level: Graduate

ANTY 694 - Seminar Cultural Heritage

Credits: 1 TO 6. (R-6) Offered intermittently. A review and discussion of current research. Topics vary. Level: Graduate

ANTY 697 - Advanced Research

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Independent research projects, other than dissertation. Level: Graduate

ANTY 699 - Dissertation

Credits: 1 TO 10. (R-10) Offered every term. Doctoral dissertation research activities. Level: Graduate

Criminal Justice

CJUS 125N - Fund of Forensic Science

Credits: 3. Offered autumn and online spring. A survey of the forensic sciences and related disciplines and their use in criminal investigations, the role of forensic scientists in the investigative process and as expert witnesses. Course

Attributes: Natural Science Course

CJUS 488 - Foren Sci: Beyond Crime Lab

Credits: 3. Offered spring and online in autumn. Prereq., ANTH 286N or consent of instr. Examination of the forensic sciences with emphases on the non-crime lab forensic sciences, new technologies, and new directions in the forensic sciences.

English as a Second Language

EASL 195 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

EASL 250 - Interm Eng Acad Purpose I

Credits: 3. Offered autumn and spring. Prereq., 525 to 549 on the Paper-Based TOEFL or equivalent. Concentration on academic tasks prompting comprehension of evidence offered to support opinion; gathering facts to be stated in narrative/descriptive patterns is emphasized as distinct from practicing summary exposition. This course is highly recommended to all international students with TOEFL scores between 525 and 549. Student Option Grade Mode (traditional or credit/no credit).

EASL 251 - Inter Eng Acad Purposes II

Credits: 3. Offered autumn and spring. Prereq., 525 to 549 on the Paper-Based TOEFL or equivalent. Concentration on academic tasks guiding identification of main ideas underlying formal speech (broadcasts, lectures, interviews); recognition of intent of discussion and status of detail therein bearing on readings is emphasized. This course is highly recommended to all international students with TOEFL scores between 525 and 549. Student Option Grade Mode (traditional or credit/no credit).

EASL 450 - Adv Eng Acad Purposes I

Credits: 3. Offered autumn and spring. Prereq., 550 to 574 on the Paper-Based TOEFL or equivalent. Concentration on academic tasks prompting the collection and comprehension of evidence used to draw inferences regarding debatable issues; explanation of connection between evidence and inference is emphasized. This course is highly recommended to all international students with TOEFL scores between 550 and 574. Student Option Grade Mode (traditional or credit/no credit).

EASL 451 - Adv Eng Acad Purposes II

Credits: 3. Offered autumn and spring. Prereq., 550 to 574 on the Paper-Based TOEFL or equivalent. Concentration on academic tasks obliging comprehension of main ideas/details furnished in spoken media (broadcasts, lectures, discussions); detection of intended message and essential facts related to readings is emphasized. This course is highly recommended to all international students with TOEFL scores between 550 and 574. Student Option Grade Mode (traditional or credit/no credit).

Historic Preservation

HPRV 400 - Historic Preservation

Credits: 3. This course is intended to provide a comprehensive foundation to historic preservation practice and issues. Topics include the history and theory of the American historic preservation movement, identification and documentation of historic properties, preservation technology, strategies for conservation of historic resources and a critical examination of the philosophy and principles of preservation.

Linguistics

LING 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

LING 198 - Internship

Credits: 1 TO 6. Offered autumn and spring. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

LING 270S - Intro to Ling

Credits: 3. Offered autumn and spring. An introduction to the field of modern linguistics and to the nature of language. Emphasis on the ways different cultures develop symbol systems for representing meaning. Course Attributes: Social Sciences Course

LING 375X - Endangered Languages

Credits: 3. Offered spring. Survey of endangered languages and the communities in which those endangered languages are spoken. Topics to be addressed include linguistic diversity, language endangerment, language shift and loss, language maintenance efforts, and prospects for the future of these languages. Course Attributes: Indigenous and Global

LING 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

LING 398 - Internship

Credits: 1 TO 6. Offered autumn and spring. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

LING 465 - Structure & History of English

Credits: 3. Offered one per year. The development of the English language from a historical perspective contrasted with the phonological and grammatical structure of English from a modern linguistic point of view; specifically designed for teachers.

LING 466 - Pedagogical Grammar

Credits: 3. Offered intermittently. Prereq., LING 470. Discussion of English grammar from a non–native speaker perspective focusing on items and structures that are difficult for non–native speakers.

LING 470 - Linguistic Analysis

Credits: 3. Offered autumn and spring. An in-depth examination of the formal properties of language, concentrating on the core areas of linguistic analysis (phonetics, phonology, morphology, syntax and semantics).

LING 471 - Phonetics and Phonology

Credits: 3. Offered autumn. Prereq., LING 470. A study of phonetic and phonological systems from as many as 20 languages, most of them non–Indo–European; training in how to do linguistic analysis as well as linguistic theory.

This course co-convenes with LING 571. Course Attributes: Co-Convened Course

LING 472 - Generative Syntax

Credits: 3. Offered autumn. Prereq., LING 470. This course is Co-convened with LING 572. A study of the human language sentence–formation system, the means for expressing semantic information as propositional content.

Emphasis on the abstraction of utterances in the form of mathematical objects. This course co-convenes with LING 572. Course Attributes: Co-Convened Course

LING 473 - Language and Culture

Credits: 3. Offered spring. Prereq., LING 470. Technical study of the relationships between grammatical categories and world view. This course co-convenes with LING 573. Course Attributes: Co-Convened Course Writing Course-Advanced

LING 474 - Historical Linguistics

Credits: 3. Offered spring. Prereq., LING 470. An introduction to the study of language change over time. Topics include: methods for studying language change (the comparative method and internal reconstruction); types of language change (sound change, borrowing, analogical change, lexical, syntactic, and semantic change); and explanations for language change. The principles of historical reconstruction and comparative method in the analysis of linguistic variation and change. This course co-convenes with LING 574. Course Attributes: Co-Convened Course

LING 475 - Linguistic Field Methods

Credits: 3. Offered spring odd-numbered years. Prereq., LING 470. Writing up linguistic data; developing techniques for eliciting linguistic data by working with a native speaker of a less commonly taught language. This course co-convenes with LING 575. Course Attributes: Co-Convened Course

LING 477 - Bilingualism

Credits: 3. Offered autumn. Prereq., LING 270S or equiv. Societal and individual bilingualism: topics include language policy, maintenance, interference, code-switching and mixing, and bilingual education.

LING 478 - Second Language Development

Credits: 3. Offered spring. Prereq., LING 471 and 472 or consent of instructor. Like studies in Second Language (L2) Acquisition, this course considers Interlanguage (i.e., a language system that develops non–natively) and includes analysis of L2 data taken from naturalistic and experimental setting.

LING 480 - Tchg Engl as For Lang

Credits: 3. Offered autumn. Prereq., LING 270 or equiv. Same as ENLI 480. The application of principles of modern linguistics to the problems of teaching English as a foreign language.

LING 481 - The ESL Professional

Credits: 3. Offered intermittently. Prereq. or coreq., LING 491; prereq., LING 480 or consent of instr. Professional development techniques for the independent language teacher: language test construction, self-critique of teaching strategies, materials development, curriculum evaluation and design, and electronic and print media resources for the language teaching professional.

LING 484 - NA Indigenous Lang & Ling

Credits: 3. Offered spring even-numbered years. Prereq. LING 470. Description and analysis of grammatical features of Indigenous languages of North America. This course co-convenes with LING 584. Course Attributes: Co-Convened Course Writing Course-Advanced

LING 489 - Morphology

Credits: 3. Offered spring. Prereq., LING 470. A survey of the morphological features of several unrelated languages to provide the student with a broad overview of how languages compare and contrast. This course co-convenes with LING 589. Course Attributes: Co-Convened Course

LING 491 - Special Topics

Credits: 1 TO 6. (R-6) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Internships/Practicums

LING 492 - Independent Study

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Special projects in linguistic analysis.

LING 495 - ESL Practicum

Credits: 1 TO 3. Offered autumn and spring. Prereq., or coreq., LING 480. Offered every term. Same as ENLI 491. Students with a teaching major take the course for 3 credits; others take it for 1 credit and do one third of the work. Course Attributes: Internships/Practicums

LING 498 - Internship

Credits: 1 TO 6. Offered autumn and spring. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

LING 559 - Preceptorship

Credits: 1. (R-4) Offered autumn and spring. Prereq., consent of instr. Materials development, assessment and evaluation of learners' needs and interests in teaching English as an academic second Language to international students attending universities with English instruction. Level: Graduate

LING 570 - Seminar in Linguistics

Credits: 3. (R-12) Offered autumn and spring. Advanced topics in linguistic analysis. Level: Graduate

LING 571 - Phonetics and Phonology

Credits: 3. Offered autumn. A study of phonetic and phonological systems from as many as 20 languages, most of them non-Indo-European; training in how to do linguistic analysis as well as linguistic theory. This course co-convenes with LING 471. Graduate students taking LING 571 will complete additional requirements and their work will be of a more advanced nature. Level: Graduate Course Attributes: Co-Convened Course

LING 572 - Generative Syntax

Credits: 3. Offered autumn. Prereq., LING 470 or equivalent. An inquiry in foundations of common human language sentence–formation system, understood as a type of mapping function (a computational world of calculations) that relates human utterances (the physical world of sound) and their propositions (the mental world of meaning). An emphasis on the abstraction of observable forms (cross-linguistic data) as prime mathematical objects. This course is Co-convened with LING 472. Graduate Requirements: weekly data-analysis problem-sets assigned to undergraduates plus additional exercises that extend several particular methods of analysis, consequently exploring the margins of generative-syntactic theory, which also includes one extra item on the midterm and final exams that complicates the theory, thus provoking the necessity for graduates to provide their observations of how these data confound the theory and to furnish plausible revisions to a theory of generative syntax as construed at that point during the course of the term. Level: Graduate Course Attributes: Co-Convened Course

LING 573 - Language and Culture

Credits: 3. Offered spring. Technical study of the relationships between grammatical categories and world view. This course co-convenes with LING 473. Graduate students will complete additional requirements and their work will be of a more advanced nature. Level: Graduate Course Attributes: Co-Convened Course

LING 574 - Historical Linguistics

Credits: 3. Offered spring. An introduction to the study of language change over time. Topics include: methods for studying language change (the comparative method and internal reconstruction); types of language change (sound change, borrowing, analogical change, lexical, syntactic, and semantic change); and explanations for language change. The principles of historical reconstruction and comparative method in the analysis of linguistic variation and change. This course co-convenes with LING 474. Graduate students will complete additional requirements and their work will be of a more advanced nature. Level: Graduate Course Attributes: Co-Convened Course

LING 575 - Linguistic Field Methods

Credits: 3. Offered spring odd-numbered years. Writing up linguistic data; developing techniques for eliciting linguistic data by working with a native speaker of a less commonly taught language. This course co-convenes with LING 475. Graduate students will complete additional requirements and their work will be of a more advanced nature. Level: Graduate Course Attributes: Co-Convened Course

LING 584 - NA Indigenous Lang and Ling

Credits: 3. Offered intermittently. Description and analysis of grammatical features of Indigenous languages of North America. This course co-convenes with LING 484. Graduate students will complete additional requirements and their work will be of a more advanced nature. Level: Graduate Course Attributes: Co-Convened Course

LING 589 - Morphology

Credits: 3. Offered spring. A survey of the morphological features of several unrelated languages to provide the student with a broad overview of how languages compare and contrast. This course co-convenes with LING 489. Graduate students taking LING 589 will complete additional requirements and their work will be of a more advanced nature. Level: Graduate Course Attributes: Co-Convened Course

LING 595 - Special Topics

Credits: 1 TO 9. (R–9) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one–time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

LING 596 - Independent Study

Credits: 1 TO 3. (R-6) Offered autumn and spring. Course material appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Service Learning/Volunteer

LING 598 - Internship

Credits: 1 TO 6. (R-6) Offered autumn and spring. Extended classroom experience which provides practical application of classroom learning during placements off campus. Level: Graduate Course Attributes:

Internships/Practicums

LING 599 - Professional Paper

Credits: 1 TO 6. (R-6) Offered autumn and spring. Preparation of a professional paper appropriate to the needs and objectives of the individual student. Level: Graduate

LING 699 - Thesis

Credits: 1 TO 6. (R-6) Offered autumn and spring. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

Applied Science

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Applied Science Level: Major Subject: **Applied Science**

Total Credits: 127 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Perspectives

Rule: A minimum of 3 credits towards each Perspective Category is required, except Natural Sciences.

Criterion: C- Number of Credits 27

Course Listing

Commentary: Some courses satisfy multiple Perspectives or GER Categories. Some courses included in your specific degree plan may overlap with Perspective or other GER categories; visit with your advisor for more information.

Subcategory Name: Expressive Arts (A) Rule: A minimum of three credits is required.

Criterion: C- Number of Credits 3

Course Listing Commentary:

Subcategory Name: Literary & Artistic Studies (L) Rule: A minimum of three credits is required.

Criterion: C- Number of Credits 3

Course Listing Commentary:

Subcategory Name: Historical & Cultural Studies (H) Rule: A minimum of three credits is required.

Criterion: C- Number of Credits 3

Course Listing Commentary:

Criterion: C- Number of Credits 3

Course Listing Commentary:

Subcategory Name: Ethical & Human Values (E) Rule: A minimum of three credits is required.

Criterion: C- Number of Credits 3

Course Listing Commentary:

Subcategory Name: American & European Perspectives (Y) Rule: A minimum of three credits is required.

Criterion: C- Number of Credits 3

Course Listing Commentary:

Subcategory Name: Indigenous & Global Perspectives (X) Rule: A minimum of three credits is required.

Criterion: C- Number of Credits 3

Course Listing Commentary:

Subcategory Name: Natural Sciences (N)

Rule: A minimum of six credits is required. At least one course must have a laboratory component.

Criterion: C- Number of Credits 6

Course Listing Commentary:

Commentary: Lower Division Core

Category Name: Symbolic System/Foreign Language

Rule: Students must complete either a Symbolic System OR a Foreign Language.

Criterion: C- Number of Credits 3-10

Course Listing Commentary:

Subcategory Name: Symbolic Systems

Rule: Successful completion of 1 course from the list below.

Criterion: C- Number of Credits 3-4

Course Listing

M 133 Geom & Meas for K-8 Teachers 3

M 162 Applied Calculus 4

SOCI 202 Social Statistics 3

STAT 216 Introduction to Statistics 4

Commentary: Prerequisites apply for all courses listed below; some courses from this list are major-restricted. Other baccalaureate major-specific Symbolic Systems may be used in lieu of course list above; speak with your advisor for more information.

Subcategory Name: Foreign Language

Rule: Successful completion of first-year sequence of a Modern and Classical Language (MCLL).

Criterion: C- Number of Credits 3-10

Course Listing

Commentary: A first-year sequence usually consists of courses numbered 101 & 102 (5 credits each) for most catalog-approved languages, though some exceptions to this course numbering and sequencing apply. Depending on the language, students may take a placement test to demonstrate proficiency to receive non-credit exemption from this requirement. Refer to the General Education Requirements section of this catalog and speak with your advisor for more information.

Commentary: Lower Division Core

Category Name: Mathematics

Rule: Any Mathematics course level 104 or higher (excluding M 111 Technical Mathematics).

Criterion: C- Number of Credits 3-4

Course Listing

Commentary: Appropriate placement into mathematics courses required. Prerequisites may apply. If a student successfully places into and completes a mathematics (either "M" or "STAT") course that is also considered a Symbolic System, that course may be used to count towards both the Mathematics and Symbolic Systems General Education Requirements.

Commentary: Lower Division Core

Category Name: Writing Skills

Rule: Both WRIT 101 AND an Approved Writing Course are required.

Criterion: C- Number of Credits 6

Course Listing

Commentary: NOTE: Students who place into and successfully complete WRIT 201 are considered to have satisfied both the WRIT 101 and the Lower-Division Approved Writing Course General Education Requirements.

Subcategory Name: WRIT 101 Rule: Take 1 of the courses below.

Criterion: C- Number of Credits 3

Course Listing

WRIT 101	College Writing I	3	F,S,SU
WRIT 201	College Writing II	3	

Subcategory Name: Lower-Division Approved Writing Course

Rule: Any course designated as an Approved Writing Course during semester it's taken.

Criterion: C- Number of Credits 3

Course Listing Commentary:

Commentary: Upper Division Core

Category Name: Upper-Division Credit Requirement

Rule: 39 upper-division courses required for UM GERs. At least 30 of the 39 upper-division credits must be from the degree plan. Criterion: Number of Credits 39

Course Listing Commentary: null

Upper Division Writing

Category Name: Upper-Division Writing

Rule: At least one upper-division writing course is required for UM GERs.

Criterion: Number of Credits 3

Course Listing

Commentary: This course may be included as part of the student's degree plan or total Upper-Division Credits.

Commentary: Other Courses

Category Name: AAS Degree Credits

Rule: Up to 50 technical credits earned from AAS may be counted towards the 127 required for the BAS.

Criterion: C- Number of Credits 38-50

Biochemistry

Bruce E. Bowler, Program Director

The Biochemistry Program is a joint program between the Department of Chemistry and Biochemistry and the Division of Biological Sciences. Biochemistry is an interdisciplinary science that integrates chemistry and biology to understand the molecular basis of life. The program offers a B.S. in Biochemistry and M.S. and Ph.D. degrees in Biochemistry & Biophysics.

Undergraduate majors receive a solid foundation in both chemistry and biology. Biochemistry courses are usually taken in the junior year allowing majors to become involved in research with faculty and to take electives in their senior year. The major also introduces students to computer science and bioinformatics, essential tools in modern biochemistry. The B.S. in Biochemistry prepares students for advanced degrees in biochemistry or biophysics, for medical, dental or veterinary schools and for careers in the pharmaceutical and biotechnology industries. A Health Professions option is also offered within the B.S. in Biochemistry for students whose career goals are in fields related to biochemistry. This option allows more flexibility in upper division electives, permitting students to tailor the degree to their needs. Students desiring a basic grounding in biochemistry to complement their primary major can choose to pursue a minor in Biochemistry.

The graduate degrees in Biochemistry & Biophysics prepare students to be independent researchers in academic laboratories or in the biotechnology and pharmaceutical industries. Through coursework and independent research, graduate students in this program will become adept at the physical and structural methods necessary to probe important problems in the life sciences at the molecular level. In collaboration with the Center for Biomolecular Structure & Dynamics, the Biochemistry Program provides state-of-the-art facilities for research in biochemistry, biophysics and structural biology.

Prospective students desiring further information on these degrees should contact the Program Director by visiting the [Biochemistry Program web site](#).

High School Preparation: In addition to the general University admission requirements, it is strongly recommended that a student take four years of mathematics, four years of science, and a foreign language.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: **Major** Subject: **Biochemistry**

Total Credits: 96 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Lower Division Core

Rule: Must complete the following subcategories

Criterion: Number of Credits 54

Course Listing Commentary:

Subcategory Name: Biochemistry

Rule: All of the following courses are required

Criterion: C- Number of Credits 5

Course Listing

BCH 110 Intro Biology for Biochemists 3

BCH 111 Intro Biol for Biochemists Lab 1

BCH 294 Seminar/Workshop 1

Subcategory Name: Biology

Rule: All of the following courses are required

Criterion: C- Number of Credits 8

Course Listing

BIOB 260 Cellular and Molecular Biology 4

BIOB 272 Genetics and Evolution 4

Subcategory Name: General and Organic Chemistry Rule: All of the following courses are required

Criterion: C- Number of Credits 20

Course Listing

CHMY 141N College Chemistry I 5

CHMY 143N College Chemistry II 5

CHMY 221 Organic Chem I 3

CHMY 222 Org Chm I Lab 2

CHMY 223 Organic Chm II 3

PHAR 422	Medicinal Chem II	3

Commentary: No more than 3 credits combined of BIOB 490, CHMY 490, CHMY 498 and BCH 490. No more than 3 credits combined of CHMY 397 and CHMY 494.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: Major Subject: **Biochemistry** Option: **Health Professions**

Total Credits: 99 Cumulative GPA Required: 2.0

The B.S. in Biochemistry prepares students for advanced degrees in biochemistry or biophysics, for medical, dental or veterinary schools and for careers in the pharmaceutical and biotechnology industries. A Health Professions option is also offered within the B.S. in Biochemistry for students whose career goals are in fields related to biochemistry. This option allows more flexibility in upper division electives, permitting students to tailor the degree to their needs.

Lower Division Core

Category Name: Lower Division Core

- Walter Hill, Professor Emeritus

Course Descriptions

Biochemistry

BCH 110 - Intro Biology for Biochemists

Credits: 3. Offered spring. Prereq. CHMY 141N or equivalent. Prereq. or Coreq., CHMY 143N. Coreq., BCH 111. An introductory course that explores biomolecules and their roles in life processes. Provides a foundation for Cellular and Molecular Biology (BIOB 260), Genetics and Evolution (BIOB 272), Introductory Biochemistry Seminar (BCH 294), and many other advanced science courses.

BCH 111 - Intro Biol for Biochemists Lab

Credits: 1. Offered spring. Prereq., CHMY 141N or equivalent. Prereq., or Coreq., CHMY 143N. Coreq., BCH 110. Introduction to the experimental techniques used to study biomolecules and their roles in life processes. Provides a foundation for other advanced level laboratory courses in chemistry and biochemistry.

BCH 294 - Seminar/Workshop

Credits: 1. Offered spring. Prereq., BCH 110/111 or equivalent. An introduction to important advances in biochemistry through readings from the primary literature and discussion of this literature. Faculty members will also make presentations on their research. Graded credit/no credit.

BCH 380 - Biochemistry

Credits: 4. Offered autumn and spring. Prereq., CHMY 223 or BIOB 260. Fundamental biochemistry; chemistry and metabolism of biomolecules, energy relationships in metabolism; storage, transmission, and expression of genetic information. Credit not allowed for both BCH 380 and 480-482.

BCH 480 - Advanced Biochemistry I

Credits: 3. Offered autumn. Prereq., CHMY 223. Primarily for science majors. The chemistry of biomolecules, with emphasis on the structure and function of proteins, carbohydrates, lipids and nucleic acids. The chemistry and regulation of the transfer and expression of genetic information, protein synthesis. Credit not allowed for both BCH 380 and 480-482.

BCH 482 - Advanced Biochemistry II

Credits: 3. Offered spring. Prereq., BCH 480 or equiv. Continuation of BCH 480. Enzyme kinetics, metabolism, especially macromolecule biosyntheses and energy acquisition pathways, and the associated energetics and molecular physiology. Credit not allowed for both BCH 380 and BCH 480-482.

BCH 486 - Biochemistry Research Lab

Credits: 3. Offered spring. Prereq., BCH 380 or 480. Applications of biochemical principles to modern protein biochemistry. Basic micro- and molecular biology techniques are used to produce mutant proteins; then students learn basic and advanced biophysical techniques to characterize the mutant proteins.

BCH 490 - Undergraduate Research

Credits: 1 TO 10. (R-10) Offered every term. Prereq., junior or senior standing and consent of instr.

Independent research under the direction of a faculty member. Course Attributes: Research & Creative Schlrshp

BCH 491 - Special Topics

Credits: 1 TO 10. (R-10) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BCH 499 - Senior Thesis/Capstone

Credits: 3 TO 6. (R-6) Offered every term. Prereq., senior standing and consent of instr. Preparation of a thesis or manuscript based on undergraduate research for presentation and/or publication. Student must give an oral or poster presentation at the Undergraduate Research Symposium or a scientific meeting.

BCH 547 - Exptl Mol/Cell/Chem Biol

Credits: 1. (R-8) Offered every term. Prereq., graduate standing or consent of instr. Same as BIOB 547. Focus on experimental design, methods, and presentation of experimental results for graduate students in laboratories with a molecular, cellular or chemical biological focus. Level: Graduate

BCH 561 - RNA Structure & Function

Credits: 1. (R-8) Offered every semester. Prereq., BCH 482, BIOB 260, and consent of instr. Exploration of current scientific literature and new data that focuses on RNA biochemistry. Emphasis on literature relevant to research on RNA viruses and ribosomes and protein synthesis. Level: Graduate

BCH 570 - Intro to Research

Credits: 1. (R-2) Offered autumn and spring. Prereq., graduate standing. Required course for Biochemistry and Biophysics graduate students. Students are acquainted with faculty research projects. Instruction in basic research techniques, research equipment. Introduction to relevant scientific research literature. Level: Graduate

BCH 581 - Physical Biochemistry

Credits: 3. Offered spring odd-numbered years. Prereq., CHMY 360 or CHMY 373 or CHMY 371; BCH 480. Techniques of physical chemistry used in studying biological structure and function of macromolecules. Emphasis is on spectroscopic methods, hydrodynamic methods and x-ray and other scattering and diffraction techniques. Level: Graduate

BCH 582 - Proteins and Enzymes

Credits: 3. Offered autumn even-numbered years. Prereq., BCH 482 or equivalent. An investigation into the structure/function relationship in proteins and a detailed exploration of enzyme kinetics, using examples from current literature. Level: Graduate

BCH 584 - Nucleic Acids

Credits: 3. Offered autumn odd-numbered years. Prereq., BCH 482 or equivalent. Emphasis on critical reading of current literature that investigates structure, chemistry, and function of nucleic acids. Level: Graduate

BCH 595 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., graduate standing and consent of instr. Experimental offering of new courses by resident or visiting faculty. Level: Graduate Course Attributes:

Internships/Practicums

BCH 597 - Research

Credits: 1 TO 18. (R-18) Offered intermittently. Directed individual research and study appropriate to the background and objectives of the student. Level: Graduate

BCH 599 - Thesis

Credits: 1 TO 10. (R-10) Offered intermittently. Prereq., master's student in biochemistry and biophysics. Laboratory research for and preparation of a master's thesis. Level: Graduate

BCH 600 - Cell Organization & Mechanisms

Credits: 3. Offered spring even-numbered years. Prereq., BCH 480 or consent of instr. Same as BMED 600. Primary literature exploration of the regulation of structure, function, and dynamics of eukaryotic cells. Topics include membranes, cytoskeleton, transcription, translation, signal transduction, cell motility, cell proliferation, and programmed cell death. Level: Graduate

BCH 694 - Biochemistry & Biophysics Seminar

Credits: 1. (R-10) Credit/No credit only. Offered Autumn and Spring. Prereq., graduate standing or consent of instructor. Presentation of current research in Structural Biology, Biochemistry, Biophysics, or related fields by invited outside speakers, UM faculty, and senior graduate students. Level: Graduate

BCH 699 - Dissertation

Credits: 1 TO 20. (R-20) Offered intermittently. Prereq., doctoral student in biochemistry. Laboratory research for and preparation of a doctoral dissertation. Level: Graduate

Biological Sciences

Charles H. Janson, Associate Dean for the Biological Sciences

The Division of Biological Sciences has undergraduate and graduate programs representing the full range of the biological sciences. The Division offers a bachelor degree in Biology (with a broad array of formal options described in more detail below), Medical Technology, Microbiology including microbial ecology, Wildlife Biology (a cooperative program administered by the College of Forestry and Conservation), and Biochemistry (an interdepartmental degree administered by the Chemistry Department). The Division also advises students in pre-health sciences and offers a series of summer field courses at the University's Flathead Lake **Biological Station** (<http://flbs.umt.edu>) a year-round academic center for the ecological sciences, located 85 miles north of Missoula near Kalispell and Glacier National Park. The Division is one of the leading research units in the

University. Research programs in the Division provide abundant opportunities for students to enhance their educational experience by participating in mentored research. Several sources of funding are available to support undergraduate student research, and the Division participates in the University of Montana Conference on Undergraduate Research each spring.

Graduate degrees offered by the Division of Biological Sciences include Master's of Science and Doctor of Philosophy degrees in Cellular, Molecular and Microbial Biology (CMMB), Organismal Biology and Ecology (OBE), and Systems Ecology (SE). The Division also participates in the graduate (M.S. and Ph.D.) program in Wildlife Biology, administered by the College of Forestry and Conservation and in the Ph.D. program in Biochemistry and Biophysics, administered by the Chemistry Department. Information on graduate study and program requirements is available from the Graduate School or the Division of Biological Sciences.

The Division offers a Bachelor's degree in **Biology** that provides a solid foundation in core areas of the biological sciences and in supporting physical sciences and mathematics. Several options are provided within the biology degree:

Cellular and molecular biology: For students interested in the cellular and molecular aspects of biology, and for students interested in health-related professions.

Ecology and organismal biology: For students interested in the biology of organisms (plants and animals), populations or communities, and for students interested in veterinary school.

Field ecology: For students interested in field-based ecology. Students with this option spend one or two summers taking field courses at the Flathead Lake Biological Station.

Genetics and evolution: For students interested in all aspects of genetics, as well as evolutionary biology, and for students interested in health-related professions.

Human biological sciences: Provides a strong background in the biological sciences for students interested in pursuing further study in a health sciences professional program.

Natural history: For students who would like to combine basic natural history and biological sciences with another field such as art, journalism, or creative writing.

Biological Education and General Sciences Broadfield: Two separate options designed for students interested in a career teaching biology or all sciences at the secondary (middle or high school) level.

The Division also offers a Bachelor's degree in **Microbiology**. Microbiology is the study of microorganisms, including bacteria, yeasts, molds, viruses, protozoa and other microscopic parasites. The Bachelor's degree in Microbiology is offered as a general degree or with an option in microbial ecology. The general option

emphasizes microbial structure, function, and interactions and relationships with humans. The microbial ecology option emphasizes microbial structure, function, and interactions and relationships with the environment and other organisms.

The Division also offers a Bachelor's degree in **Medical Technology** (Michael Minnick, Professor of Microbiology, Advisor). **Medical Technology** or clinical laboratory science is a combined study of chemistry, physiology and microbiology (<http://www.umt.edu/medtech/>). A medical technologist performs chemical, microscopic, and microbiological procedures used in the diagnosis, study and treatment of disease. Medical technologists are in high demand in hospital labs, clinical labs, research institutions and government health departments. Certification is required for clinical practice.

To be certified by the Board of Registry, a student, after satisfying the minimum course requirements, serves a clinical practicum of at least 12 consecutive months in an approved school of medical technology endorsed by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) or American Society of Clinical Pathology (ASCP) of the American Medical Association. After completing a clinical practicum and passing the Registry exam, the student receives a diploma from the Board of Registry with the professional designation of Medical Technologist M.T. ASCP.

The University of Montana has two coursework options for the medical technology degree. The 3+1 track includes the practicum at one of our affiliated programs as part of the degree, while the practicum is not included in the 4+1 track.

Degree requirements for all three majors and courses are described below (see the College of Forestry and Conservation for information about Wildlife Biology and the Biochemistry Program in the College of Humanities and Sciences for information about Biochemistry).

The Division of Biological Sciences is committed to providing coursework and experiences for non-science majors. The world faces many problems and opportunities that include significant biological components. Courses for non-science majors have the goal of fostering understanding of the process of science and enhancing biological knowledge as it relates to environmental, medical, social, and other issues. A number of introductory courses are open both to majors and non-majors. In addition, the Division offers courses designed specifically for non-majors: Microbiology for Health Sciences, Introductory Ecology, Survey of Montana Wildlife and Habitats, and others.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: Biology Option: **Biological Education**

Total Credits: 62 Cumulative GPA Required: 2.75

Individuals interested in teaching in K-12 schools must complete a degree in the content area they want to teach plus the teacher preparation program through the Department of Curriculum and Instruction. Individuals

must complete the teaching major/teaching track within that degree program, which may contain different course requirements than the academic major since the sequence of courses is designed to meet state standards. Upon completion of the degree program with the teaching track and the secondary licensure program, one will be eligible for a standard Montana teaching license in this content area.

Lower Division Core

Category Name: Biology/Microbiology Lower Division Core Rule: All of the following courses are required.

Criterion: C-

Course Listing		Number of Credits	17	
BIOB 160N	Principles of Living Systems	4		F,SU
BIOB 170N	Princpls Biological Diversity	3		S,SU
BIOB 171N	Princpls Biological Dvrsty Lab	2		S,SU
BIOB 260	Cellular and Molecular Biology	4		F,SU
BIOB 272	Genetics and Evolution	4		S,SU

Commentary: The lower division core should be completed before attempting most upper division major courses. AP Biology credit may be substituted for either BIOB 160N or BIOB 170N/171N.

Commentary: Upper Division Core

Category Name: Upper Division Core Courses Required by the Biological Education Option

Rule: All of the following courses are required.

Criterion: C-

Course Listing		Number of Credits	14	
BIOE 370	General Ecology	3		F
BIOE 371	Gen Ecology Lab (equiv to 271)	2		F
BIOM 360	Gen Microbiolgy (equiv to 260)	3		F,S
BIOM 361	Gen Microbiolgy Lb (equiv 261)	2		F,S

Commentary: The Division of Biological Sciences has been granted an exception to the Modern/Classical Language Requirement. Either of these Calculus courses (required by the major) will satisfy this requirement.

Commentary: Degree Commentary

This option provides students with coursework in biology and related science and mathematics needed to be certified by the State of Montana to teach secondary biology (in middle and high school). This option is appropriate for students interested in teaching biology in a larger, more urban school. In order to be licensed to teach secondary biology, students must be admitted to the Teacher Education Program through the Phyllis J. Washington College of Education and Human Sciences.

M 162	Applied Calculus	4	F,S	
-------	------------------	---	-----	--

Commentary: M 171 Calculus I may be substituted for M 162.

Subcategory Name: Chemistry

Rule: All of the following courses are required.

Criterion: C- Number of Credits 20

Course Listing

CHMY 141N	College Chemistry I	5	F,S	
CHMY 143N	College Chemistry II	5	S,SU	
CHMY 221	Organic Chem I	3	F	
CHMY 222	Org Chm I Lab	2	F	
CHMY 223	Organic Chm II	3	S	
CHMY 224	Org Chm II Lab	2	S	

Commentary:

Subcategory Name: Additional Depth in Chemistry

Rule: Complete at least one of the following chemistry courses

Criterion: C- Number of Credits 3 or 4

Course Listing

CHMY 311	Analytical Chem-Quant Analysis	4	F,SU	
CHMY 360	Applied Physical Chemistry	3	S	
CHMY 373	Phys Chem-Kntcs & Thrmdynmcs	4	F	

Commentary:

Subcategory Name: Physics

Rule: All of the following courses are required.

Criterion: C- Number of Credits 10

Course Listing

PHSX 205N	College Physics I	4	F,S,SU	
-----------	-------------------	---	--------	--

PHSX 206N College Physics I Laboratory 1 F,S,SU

PHSX 207N College Physics II 4 F,S,SU

PHSX 208N College Physics II Laboratory1 F,S,SU

Commentary: These are algebra- and trigonometry-based physics courses. The calculus-based physics sequence, PHSX 215N/216N & PHSX 217N/218N (which require M 171 and M 172), may be substituted for PHSX 205N/206N & 207N/208N.

Commentary:

Upper Division Writing

Category Name: Upper Division Writing Expectation for the Major

Rule: Complete the equivalent of a full writing course (either three 1/3 writing courses or one 2/3 writing course + one 1/3 writing course or one complete writing course)

Criterion: C- Number of Credits

Course Listing

Commentary: To meet the Upper Division Writing Expectation for the Major, Biology students take 2 or 3 partial writing courses (either three 1/3 writing courses or one 1/3 writing course and one 2/3 writing course) or one complete writing course. The Cellular & Molecular Biology Option requires two 1/3 writing courses: BCH 482 and BIOB 425. The UD Writing Expectation for the Major is completed with one additional course, chosen from any of the following.

Subcategory Name: 1/3 UD Writing Courses Rule:

Criterion: C- Number of Credits

Course Listing

BCH 482	Advanced Biochemistry II	3	S
BIOB 410	Immunology	3	F
BIOB 425	Adv Cell & Molecular Biology	3	S
BIOB 483	Phylogenetics and Evolution	3	
BIOE 403	Vert Design & Evolution	5	F
BIOE 409	Behavior & EvolutionDiscussion	1	
BIOE 428	Freshwater Ecology	5	F
BIOL 484	Plant Evolution	3	I
BIOM 402	Medical Bacteriology& Mycology	3	S
BIOO 320	General Botany	5	F
BIOO 434	Plant Physiology Lab	1	S
BIOO 470	Ornithology	4	S
BIOO 475	Mammalogy	4	F

Commentary:

Subcategory Name: 2/3 UD Writing Courses Rule:

Criterion: C- Number of Credits

Course Listing

BCH 486	Biochemistry Research Lab	3	S
---------	---------------------------	---	---

BCH 499	Senior Thesis/Capstone	3 To 6	F,S,SU
BIOB 411	Immunology Laboratory	2	F
BIOB 499	Undergraduate Thesis	3 To 6	F,S,SU
BIOE 342	Field Ecology	5	
BIOE 371	Gen Ecology Lab (equiv to 271)	2	F
BIOM 411	Exprmntl Microbial Genetcs Lab	1	
BIOM 499	Undergraduate Thesis	3 To 6	F,S,SU

Commentary:

Subcategory Name: Complete UD Writing Course Rule:

Criterion: C- Number of Credits

Course Listing

BIOH 462	Principles Medical Physiology	3

Commentary:

Degree Specific Symbolic Systems

Category Name: Exception to the Modern/Classical Languages Requirement Rule: Choose one of the following Math courses

Criterion: C- Number of Credits

Course Listing

M 162	Applied Calculus	4	F,S
M 171	Calculus I	4	F,S

Commentary: The Division of Biological Sciences has been granted an exception to the Modern/Classical Language Requirement. Either of these Calculus courses (required by the major) will satisfy this requirement.

Degree Commentary: Cellular and molecular biology is the study of cellular, molecular, and physiological aspects of biology. This option is a graduate prep program, and is for students interested in academia or research jobs in private or government laboratories. It is also an excellent option for pre-medical sciences students.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: **Biology** Option: **Ecology and Organismal Biology**

Total Credits: 69 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Biology/Microbiology Lower Division Core Rule: All of the following courses are required.

Criterion: C-

Course Listing	Number of Credits	17	
BIOB 160N	Principles of Living Systems	4	F,SU
BIOB 170N	Princpls Biological Diversity	3	S,SU
BIOB 171N	Princpls Biological Dvrsty Lab	2	S,SU
BIOB 260	Cellular and Molecular Biology	4	F,SU
BIOB 272	Genetics and Evolution	4	S,SU

Commentary: The lower division core should be completed before attempting most upper division major courses. AP Biology credit may be substituted for either BIOB 160N or BIOB 170N/171N.

Commentary: Upper Division Core

Category Name: Upper Division Core Courses Required by Ecology & Organismal Biology Option

Rule: All of the following courses are required.

Criterion: C- Number of Credits 5

Course Listing

BIOE 370	General Ecology	3	F
BIOE 371	Gen Ecology Lab (equiv to 271)	2	F

Commentary: BIOE 342 Field Ecology at the Flathead Lake Biological Station may be substituted for BIOE 370/371

Major Electives

Category Name: Additional Upper Division Major Courses Required for the Ecology & Organismal Biology Option

Rule: Complete a minimum of 21 credits of UD BIOB, BIOE, BIOH, BIOL, BIOM, BIOO, or BCH, with at least one course from each subcategory Criterion: C- Number of Credits 21

Course Listing Commentary:

Subcategory Name: Organismal Course Requirement

Rule: Complete at least one organismal course (lab must also be taken, if available) from the following list

Criterion: C-

Course Listing	Number of Credits		
BIOB 301	Developmental Biology	3	S
BIOB 375	General Genetics	3	S
BIOB 468	Endocrinology	3	I
BIOE 403	Vert Design & Evolution	5	F
BIOL 435	Comparative Animal Physiology	3	S
BIOO 433	Plant Physiology	3	S

Commentary: If BIOO 433 Plant Physiology, then BIOO 434 Plant Physiology Lab must also be taken.

Subcategory Name: -Ology Course Requirement

Rule: Complete at least one course with a focus on a group of organisms (lab must also be taken, if available) from the following list

Criterion: C-

Course Listing	Number of Credits		
BIOM 360	Gen Microbiology (equiv to 260)	3	F,S
BIOM 427	General Parasitology	2	F
BIOO 320	General Botany	5	F
BIOO 335	Rocky Mountain Flora	3	S,SU
BIOO 340	Biology and Mgmt of Fishes	4	F
BIOO 462	Entomology	4	SE

BIOO 470 Ornithology 4 S

BIOO 475 Mammalogy 4 F

Commentary: If BIOM 360 General Microbiology, then BIOM 361 General Microbiology Lab must also be taken. If BIOM 427 General Parasitology, then BIOM 428 General Parasitology Lab must also be taken.

Subcategory Name: Specialized Ecology Course Requirement

Rule: Complete at least one specialized ecology course from the following list

Criterion: C- Number of Credits

Course Listing

BIOE 428 Freshwater Ecology 5 F

BIOE 447 Terrestrial Ecosystem Ecology 3 I

BIOE 448 Terrestrial Plant Ecology 4 F

BIOE 449 Plant Biogeography 3 I

BIOM 415 Microbial Dvrsty Eclgy & Evltn 3 S

WILD 346 Wildlife Physiological Ecology 3 F

WILD 470 Conserv of Wildlife Populatns3 F,S

Commentary: A specialized ecology course taken at the Flathead Lake Biological Station (BIOE 416, 439, 440, 451, 453, or 458) may be substituted for this requirement.

Subcategory Name: Evolution Course Requirement

Rule: Complete at least one evolutionary biology course from the following list

Criterion: C-

Course Listing Number of Credits

BIOB 480 Conservation Genetics 3 S

BIOB 483 Phylogenetics and Evolution 3

BIOB 486 Genomics 3 F

BIOE 406 Behavior & Evolution 4 F

BIOE 482 Evolution & Development 3 I

BIOL 484 Plant Evolution 3 I

Commentary: Other recommended courses include BCH 380 or BCH 480-482.

Cognates

Category Name: Required Courses Outside of the Major Rule:

Criterion: C- Number of Credits

Course Listing Commentary:

Subcategory Name: Mathematics - Calculus

Rule: Complete one of the following calculus courses

Criterion: C- Number of Credits 4

Course Listing

M 162 Applied Calculus 4 F,S

M 171 Calculus I 4 F,S

Commentary: Choose M 171, if you plan to take additional calculus courses, or if you plan a double major or minor in a field that requires more calculus (e.g. math, physics, biochemistry, computer science).

Subcategory Name: Mathematics - Statistics

Rule: Complete either one semester of statistics (STAT 216) or a full year of statistics (STAT 451/457 and 452/458)

Criterion: C-

Course Listing		Number of Credits	4 or 8	
STAT 216	Introduction to Statistics	4		F,S,SU
STAT 451	Statistical Methods I	3	F	
STAT 452	Statistical Methods II	3	S	
STAT 457	Computer Data Analysis I	1	F	
STAT 458	Computer Data Analysis II	1	S	

Commentary: Choose the full year of statistics for graduate preparation in ecology.

Subcategory Name: Chemistry

Rule: Complete either one year of chemistry (CHMY 121N, 123N/124N) or two years of chemistry (CHMY 141N, 143N, 221/222, 223/224) Criterion: C-

Number of Credits 8 or 20

Course Listing

CHMY 121N	Intro to General Chemistry	3	F,S,SU
CHMY 123N	Intro to Organic & Biochem	3	F,S,SU
CHMY 124N	Intro to Organic & Biochem Lab	2	F,S,SU
CHMY 141N	College Chemistry I	5	F,S
CHMY 143N	College Chemistry II	5	S,SU
CHMY 221	Organic Chem I	3	F
CHMY 222	Org Chm I Lab	2	F
CHMY 223	Organic Chm II	3	S
CHMY 224	Org Chm II Lab	2	S

Commentary: Choose the two year sequence of chemistry for graduate preparation in organismal biology, or if you are pre-veterinary.

Subcategory Name: Physics

Rule: All of the following courses are required.

Criterion: C- Number of Credits 10

Course Listing

PHSX 205N	College Physics I	4	F,S,SU
PHSX 206N	College Physics I Laboratory	1	F,S,SU
PHSX 207N	College Physics II	4	F,S,SU
PHSX 208N	College Physics II Laboratory	1	F,S,SU

Commentary: These are algebra- and trigonometry-based physics courses. The calculus-based physics sequence, PHSX 215N/216N & 217N/218N (which require M 171 and M 172), may be substituted for PHSX 205N/206N & 207N/208N.

Upper Division Writing

Category Name: Upper Division Writing Expectation for the Major

Rule: Complete the equivalent of a full writing course (either three 1/3 writing courses or one 2/3 writing course + one 1/3 writing course or one complete writing course)

Criterion: C- Number of Credits

Course Listing

Commentary: To meet the Upper Division Writing Expectation for the Major, Biology students take 2 or 3 partial writing courses (either three 1/3 writing courses or one 1/3 writing course and one 2/3 writing course) or one complete writing course. The Ecology & Organismal Biology Option requires one 2/3 writing course (BIOE 371). The UD Writing Expectation for the Major is completed with one more course, chosen from any of the following.

Subcategory Name: 1/3 UD Writing Courses Rule:

Criterion: C- Number of Credits

Course Listing

BCH 482	Advanced Biochemistry II	3	S
BIOB 410	Immunology	3	F
BIOB 425	Adv Cell & Molecular Biology	3	S

Category Name: Exception to the Modern/Classical Languages Requirement Rule: Choose one of the following Math courses

Criterion: C- Number of Credits

Course Listing

M 162 Applied Calculus 4 F,S

M 171 Calculus I 4 F,S

Commentary: The Division of Biological Sciences has been granted an exception to the Modern/Classical Language Requirement. Either of these Calculus courses (required by the major) will satisfy this requirement.

Degree Commentary: Genetics and evolution is for students interested in genetics and evolutionary biology, including molecular genetics, population genetics, ecological genetics, and genomics. This option is a graduate prep program, and is for students interested in academia or research jobs in private or government laboratories. It is also an excellent option for students interested in a professional health program such as medical school or a genetic counseling graduate program.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: **Biology** Option: **Human Biological Sciences**

CHMY 223	Organic Chm II	3	S
CHMY 224	Org Chm II Lab	2	S

Commentary: If you plan to apply to a graduate or professional school such as medical or dental, you should plan to complete the two year sequence in chemistry. If you plan to pursue nursing or a graduate program in physical therapy, the one year sequence of chemistry is sufficient. The two year chemistry option is more flexible, and keeps more options open for future careers. Check the requirements of your intended professional program to help determine which sequence is right for you.

Subcategory Name: Physics

Rule: All of the following courses are required.

Criterion: C- Number of Credits 10

Criterion: C- Number of Credits

Course Listing Commentary:

Subcategory Name: Chemistry and Geology Rule: Complete all of the following courses

Criterion: C- Number of Credits 12

Course Listing			
CHMY 121N	Intro to General Chemistry	3	F,S,SU
CHMY 124N	Intro to Organic & Biochem Lab	2	F,S,SU
GEO 101N	Intro to Physical Geology	3	F,S,SU
GEO 102N	Intro to Physical Geology Lab1		F,S,SU

Subcategory Name: Cognate Electives

Rule: Complete 20 credits from the following disciplines (maximum of 10 credits/discipline): ANTY, ASTR, CHMY (excluding 121N, 123N, 124N), GPHY, GEO (excluding 101N, 102N), FORS, M, PHSX, STAT, or WILD

Criterion: Number of Credits 20

Course Listing

Commentary: Students should plan on taking M 121 or higher level M course (prerequisite for BIOB 272 and GER math requirement) and STAT 216 (prerequisite for BIOE 371).

Students interested in combining the Natural History Option with another subject area may, with the advisor's permission, substitute 20 credits in English - writing, journalism, photography, art, foreign language, business management, or other appropriate field.

Upper Division Writing

Category Name: Upper Division Writing Expectation for the Major

Rule: Complete the equivalent of a full writing course (either three 1/3 writing courses or one 2/3 writing course + one 1/3 writing course or one complete writing course).

Criterion: C- Number of Credits

Course Listing

Commentary: To meet the Upper Division Writing Expectation for the Major, Biology students take 2 or 3 partial writing courses (either three 1/3 writing courses or one 1/3 writing course and one 2/3 writing course) or one complete writing course. The Natural History Option requires one 2/3 writing course (BIOE 371) and several 1/3 writing courses (BIOO 320, BIOO 470 or BIOO 475). No additional writing courses must be taken to meet this requirement.

Degree Specific Symbolic Systems

Category Name: Exception to the Modern/Classical Languages Requirement Rule: Choose one of the following Math courses

Criterion: C- Number of Credits

Course Listing

M 162 Applied Calculus 4 F,S

M 171 Calculus I 4 F,S

Commentary: The Division of Biological Sciences has been granted an exception to the Modern/Classical Language Requirement. Either of these Calculus courses will satisfy this requirement. The Natural History Option does not require a calculus course; the Natural History student may choose to take one year of a modern or classical language, or they may take one of these calculus courses (which will count towards a cognate elective).

Degree Commentary: The natural history option is designed for students who seek an interdisciplinary science program. This option is not research-oriented, and is not considered a preparatory program for traditional research-based graduate programs. It is, however, designed for students seeking careers in environmental education, science writing or illustration, natural history or wildlife film-making, or natural history centers or museums. There is enough latitude in the requirements to allow for a minor or even a double major in a related field of interest (e.g. journalism, art, media arts, etc.).

Commentary: Degree Commentary

Microbiology is the study of microorganisms including bacteria, fungi, viruses, and protozoa. The option in Microbial Ecology emphasizes microbial structure and function as well as interactions and relationships with the environment and other organisms. Students may continue their studies at the graduate level and seek research careers in government, or private laboratories.

Commentary: Degree Commentary

A Medical Technology degree prepares students to perform various chemical, histological, and microbial laboratory procedures used in the diagnosis, study, and treatment of disease. Students with this degree seek employment in hospital laboratories, physicians' offices, and health departments. For clinical practice, a student must be certified through the Board of Registry by completing a one year clinical practicum. The 4+1 track is the more flexible option, in which students complete the four years of the Bachelor's degree on the UM campus. Students may apply to a clinical practicum program anywhere in the country.

A Medical Technology degree prepares students to perform various chemical, histological, and microbial laboratory procedures used in the diagnosis, study, and treatment of disease. Students with this degree seek employment in hospital laboratories, physicians' offices, and health departments. For clinical practice, a student must be certified through the Board of Registry by completing a one year clinical practicum. The 3+1 track is the faster option, as the clinical practicum year is part of the degree. Three years are spent on the UM campus, and then the clinical practicum year with the MUS CLS program (or with one of our affiliated programs) is the fourth year of the Bachelor's degree. Note: this degree requires a total of 130 credits.

Course Descriptions

Biology-General

BIOB 101N - Discover Biology

Credits: 3. Offered every term. Contemporary exploration of the organization and complexity of living organisms and the systems in which they live. The central question of biology--relationship between form and function, acquisition and use of energy, and continuity between generations will be addressed through lectures and laboratory investigations. Credit not allowed toward a major in biology. Credit not allowed for both BIOB 101N and BIOB 160N. Course Attributes: Natural Science Lab Course

BIOB 130N - Evolution and Society

Credits: 3. Offered spring. A focus on relationships between evolutionary biology and important social issues, including the evolution of drug-resistant diseases, the construction and use of genetically-modified organism, human evolutionary biology, and experimental laboratory evolution. Course Attributes: Natural Science Course

BIOB 160N - Principles of Living Systems

Credits: 4. Offered autumn and summer. Unifying principles of biological structure-function relationships at different levels of organization and complexity. Consideration of reproduction, genetics, development, evolution, ecosystems, as well as the inter-relationships of the human species to the rest of life. Lab experiences illustrate biological principles underlying growth, reproduction, development, genetics and physiology. Credit not allowed for both BIOB 101N and 160N. Course Attributes: Natural Science Lab Course

BIOB 170N - Princpls Biological Diversity

Credits: 3. Offered spring and summer. Survey of the diversity, evolution and ecology of life including prokaryotes, viruses, protista, fungi, plants and animals. Course Attributes: Natural Science Course

BIOB 171N - Princpls Biological Dvrsty Lab

Credits: 2. Offered spring and summer. Coreq., BIOB 170N. The diversity of life including prokaryotes, viruses, protista, fungi, plants and animals including structure and evolutionary relationships. Course Attributes: Natural Science Lab Course Natural Science Course

BIOB 191 - Special Topics

Credits: 1 TO 6. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BIOB 191N - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Internships/Practicums
BIOB 198 - Internship

Credits: 1 TO 6. Prereq., consent of Division. Extended classroom experience that provides practical application of learning during placement off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

BIOB 226N - Gen Science: Earth & Life Sci

Credits: 5. Offered spring. Prereq., PHSX 225N and M 132 or M 135 or equiv. Integrated lectures, laboratory exercises, and field trips on topics in earth and biological science for prospective elementary school teachers and the non-scientist. A two-hour laboratory session is required each week and one or two Saturday field trips. Course Attributes: Natural Science Lab Course

BIOB 260 - Cellular and Molecular Biology

Credits: 4. Offered autumn and summer. Prereq. BIOB 160N (preferred) or BCH 110/111 (preferred) or B- or higher in BIOH 112; and either CHMY 123 or CHMY 143. Analytical exploration of the structure and function of the cell, the fundamental unit of life, with an emphasis on energy transformations and information flow. Topics include molecular building blocks, membranes, organelles, and mechanisms of replication, gene expression, metabolism, signal transduction, cell birth, cell death, and cell differentiation.

BIOB 272 - Genetics and Evolution

Credits: 4. Offered spring. Prereq., either BIOB 260 OR both BIOB 160N and BIOB 170N/171N; and one of M 121, 122, 151, 162, or 171. Principles and mechanisms of inheritance and evolution. Population genetics, fossil record, macroevolution, speciation, extinction, systematics, molecular evolution.

BIOB 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BIOB 298 - Internship

Credits: 1 TO 6. Offered intermittently. Prereq., consent of Division. Extended classroom experience that provides practical application of learning during placement off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

BIOB 301 - Developmental Biology

Credits: 3. Offered autumn. Prereq., BIOB 260; BIOB 272 recommended. An analysis of the origin and development of form and patterns in organisms, stressing the processes of growth and differentiation in plants and animals. Graded traditional letter grade only.

BIOB 375 - General Genetics

Credits: 3. Offered spring. Prereq., BIOB 260 and 272. This course will focus on the molecular genetics of eukaryotes, with special emphasis on transmission genetics and gene structure and regulation.

BIOB 390 - Undergrad Research

Credits: 1 TO 10. (R-10) Offered every term. Prereq., consent of instr. Independent research under the direction of a faculty member. Graded credit/no credit. Course Attributes: Research & Creative Schlrshp
BIOB 391 - Special Topics

Credits: 1 TO 10. (R-10) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BIOB 392 - Independent Study

Credits: 1 TO 10. (R-10) Offered every term. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BIOB 398 - Internship

Credits: 1 TO 6. Offered every term. Prereq., consent of the Division. Extended classroom experience that provides practical application of learning during placement off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

BIOB 410 - Immunology

Credits: 3. Offered autumn. Prereq., BIOB 260. Current concepts and methods in Immunology.

BIOB 411 - Immunology Laboratory

Credits: 2. Offered autumn. Coreq., BIOB 410. Modern techniques for analysis of immune responses.

BIOB 425 - Adv Cell & Molecular Biology

Credits: 3. Offered spring. Prereq., BIOB 260 and 272; BCH 380 strongly recommended. Cell structure and function, cell cycle, cellular signaling, molecular basis of cancer, regulated cell death, membrane transport, organelle dynamics, cytoskeleton, cell adhesion, and the molecular basis of learning and memory.

BIOB 440 - Biological Electron Microscopy

Credits: 2. Offered spring. Prereq., senior standing or consent of instr. Theory of electron microscopy, recent developments in transmission and scanning electron microscopy. Limited experience with the instruments.

BIOB 468 - Endocrinology

Credits: 3. Offered alternate years. Prereq., BIOB 260 and 272. Integration of fundamental concepts of endocrinology (such as hormone release, hormone transport and receptor activation) into complex systems (such as reproduction).

BIOB 480 - Conservation Genetics

Credits: 3. Offered intermittently. Prereq., BIOB 272. Genetic basis for solving biological problems in conservation including the genetics of small populations, the application of molecular genetic techniques to conservation biology and case studies of the application of genetics to conservation problems.

BIOB 483 - Phylogenics and Evolution

Credits: 3. Offered alternating spring semesters. Prereq., BIOB 260 and BIOB 272. Phylogenies, or evolutionary trees, provide insights into the history of life on Earth, including our own origins. This course focuses on the theoretical foundations of popular methods of reconstructing phylogenies from molecular sequence data and how to implement these methods with computational software for real data sets. Other current methods for testing evolutionary hypotheses with sequence data will also be introduced.

BIOB 486 - Genomics

Credits: 3. Offered autumn. Prereq., BIOB 272. Principles and mechanisms of genome biology of animals and microbes, including genome function, evolution, and basic molecular and computational methodology used in genome biology.

BIOB 490 - Adv Undergrad Research

Credits: 1 TO 10. (R-10) Offered every term. Prereq., junior or senior standing and consent of instr.

Independent research under the direction of a faculty member. Graded credit/no credit. Course Attributes:

Research & Creative Schlrshp

BIOB 491 - Special Topics

Credits: 1 TO 10. (R-10) Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BIOB 492 - Independent Study

Credits: 1 TO 10. Offered every term. Prereq., consent of instr. Independent work under the University omnibus option. See index. Course Attributes: Omnibus Course

BIOB 494 - Seminar in Biology

Credits: 1. (R-3) Offered intermittently. Prereq., consent of instr. A review and discussion of current research. Topics vary.

BIOB 498 - Internship

Credits: 1 TO 6. Offered every term. Prereq., consent of the Division. Extended classroom experience that provides practical application of learning during placement off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

BIOB 499 - Undergraduate Thesis

Credits: 3 TO 6. (R-6) Offered every term. Prereq., senior standing and consent of instr. Preparation of a thesis or manuscript based on undergraduate research for presentation and/or publication. Student must give oral or poster presentation at the Biological Sciences Undergraduate Research Symposium or a scientific meeting. Graded credit/no credit.

BIOB 501 - Grad Issues and Policies

Credits: 1. Prereq., graduate standing in biological sciences. Discussion of issues of importance to new graduate students, including the philosophy of graduate education, the mentor-student relationship, the role of the teaching assistant, handling ethical quandaries, library resources and bibliographic searches, animal use policies and issues, proposal writing and the publication process. Review of ongoing research by faculty in the organismal biology and ecology program. Level: Graduate

BIOB 505 - OBE Core Course - Genetics and Evolution

Credits: 3. Offered alternate years. Prereq., graduate standing. Exploration of the fundamental concepts and approaches in evolutionary biology and evolutionary genetics. Lectures and discussions, with an emphasis on primary literature, classic and contemporary. Level: Graduate

BIOB 506 - OBE Core Course - Ecology

Credits: 3. Offered alternate years. Prereq., graduate standing. Broad overview of population and community ecology. Lectures and discussions, introducing theoretic foundations and exploring classic and more recent empirical tests of theory. Level: Graduate

BIOB 507 - OBE Core Course - Organismal Function

Credits: 3. Offered alternate years. Prereq., graduate standing. Exploration of the physical and chemical mechanisms that underlie the relationship between form and function in organisms. Lectures and discussions are pursued using a comparative, ecological and evolutionary framework. Level: Graduate

BIOB 513 - Community Ecology

Credits: 3. Offered alternate years. Prereq., BIOE 370 or equiv., consent of instr. Current concepts of species interactions, succession, food webs, temporal and spatial patterns and quantitative characterization of community structure. Level: Graduate

BIOB 517 - Adv Plant Ecology

Credits: 3. Prereq., upper-division course in ecology or consent of instr. Offered alternate years. Review and discussion of recent advances in plant ecology. Level: Graduate

BIOB 518 - Plant-Consumer Interactions

Credits: 3. Offered alternate years. Prereq. BIOE 370 or equiv. Ecology and evolution of plant-consumer interactions. Review of classic and contemporary literature on plant-consumer interactions. Level: Graduate

BIOB 522 - Rdgs Morph, Phys, and Zool

Credits: 1. (R-8) Prereq., graduate standing and consent of instr. Review and discussion of current literature in the fields of morphology, physiology, and ecology. Level: Graduate

BIOB 524 - Physiological Plant Ecology

Credits: 3. Offered alternate years. Prereq., BIOE 370 and BIOC 433. The physiological basis of plant adaptation and response to the environment. Level: Graduate

BIOB 526 - Trends in Plant Ecology

Credits: 2. (R-16) Prereq., graduate standing. Current concepts, theory, and experiments in plant ecology. Level: Graduate

BIOB 541 - Electron Microscopy Lab

Credits: 1 TO 6. (R-6) Prereq. or coreq., BIOB 440 or equiv. Practical laboratory experience in the preparation of various samples and hands-on operation of the transmission and/or scanning electron microscopes. Level: Graduate

BIOB 547 - Exptl Mol/Cell/Chem Biol

Credits: 1. (R-8) Offered every term. Prereq., graduate standing or consent of instr. Focus on experimental design, methods, and presentation of experimental results for graduate students in laboratories with a molecular, cellular or chemical biological focus. Level: Graduate

BIOB 551 - Environmental Field Study

Credits: 1 TO 3. (R-3) Prereq. or coreq., ENSC 540 or ENST 560. Same as ENSC 551. Designing, executing, and interpreting environmental studies. Project oriented. Level: Graduate

BIOB 561 - Population Genetics Seminar

Credits: 1 TO 2. (R-12) Prereq., consent of instr. or graduate standing. Current topics in population genetics, evolutionary biology, molecular evolution and related topics. Level: Graduate

BIOB 565 - Membrane Dynamics Res Sem

Credits: 1. (R-8) Offered every term. Prereq., graduate standing or consent of instr. Focus on experimental design, methods, and presentation of experimental results for students conducting research in membrane cell biology, including membrane trafficking and intracellular signaling. Level: Graduate

BIOB 594 - Seminar in Biology

Credits: 1. (R-6) Prereq., graduate standing or consent of instr. A review and discussion of current research in biology. Topics vary. Level: Graduate

BIOB 595 - Special Topics

Credits: 1 TO 4. (R-8) Prereq., graduate standing and consent of instr. Experimental offering of new courses by resident or visiting faculty. Level: Graduate Course Attributes: Internships/Practicums

BIOB 596 - Independent Study

Credits: 1 TO 8. (R-8) Prereq., consent of instr. Credit for independent research project unrelated to thesis or dissertation. Level: Graduate Course Attributes: Service Learning/Volunteer

BIOB 597 - Research

Credits: 1 TO 8. (R-12) Prereq., consent of instr. Library work involved with preparation of a thesis or dissertation proposal. Level: Graduate

BIOB 598 - Internship

Credits: 1 TO 8. (R-8) Prereq., consent of the Division, graduate standing. Extended classroom experience that provides practical application of learning during placement off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. Level: Graduate Course Attributes:

Internships/Practicums

BIOB 599 - Thesis

Credits: 1 TO 10. (R-10) Prereq., masters student in biology. Field and laboratory research on, and writing of, a student's master's thesis. Level: Graduate

BIOB 699 - Dissertation

Credits: 1 TO 10. (R-20) Prereq., doctoral student in biology. Credit for field and laboratory research on, and writing of, a student's doctoral dissertation. Level: Graduate

Biology - Ecological

BIOE 172N - Introductory Ecology

Credits: 3. Offered autumn. An introduction to ecological principles, stressing the structure and function of natural communities and examining human's role in these ecosystems. Course Attributes: Natural Science Course

BIOE 342 - Field Ecology

Credits: 5. Offered summers only at Flathead Lake Biological Station. Prereq., BIOB 272 and one year of college math, including statistics. The principles and practices of the study of animals and plants in their

natural environments, including human influences, with focus on the Crown of the Continent area of the Rock Mountains and taught entirely outdoors.

BIOE 370 - General Ecology

Credits: 3. Offered autumn. Prereq., BIOB 272. Analysis of the distribution and abundance of plants and animals. Includes individual, population and community-level processes (e.g., population growth and regulation, competition, predation, succession, nutrient cycling, energy flow and community organization).

BIOE 371 - Gen Ecology Lab (equiv to 271)

Credits: 2. Offered autumn. Prereq. or Coreq., BIOE 370 and either STAT 216 or WILD 240. Methods of describing and testing alternative explanations for patterns in nature. The use of scientific methodology in ecology.

BIOE 394 - Seminar/Workshop

Credits: 2. Offered autumn. Preparatory readings and attendance at seminars on a wide variety of ecological and wildlife management topics followed by critiques.

BIOE 403 - Vert Design & Evolution

Credits: 5. Offered spring. Prereq., BIOB 170N, 171N and 272 and PHSX 205N/206N or 215N/216N.

Evolutionary patterns of animal morphology and the importance of body size on life history patterns.

Phylogenetic study of major extant and extinct vertebrate groups. Laboratory includes systematic study of organ systems and workshops in experimental functional morphology.

BIOE 406 - Behavior & Evolution

Credits: 3. Offered autumn. Prereq., BIOB 272. Diversity of animal behavior in an evolutionary context including inheritance of behavior, diets, avoidance responses, mating systems and sexual selection, parental care, and evolution of animal groups and societies.

BIOE 409 - Behavior & Evolution Discussion

Credits: 1. Offered autumn. Co-req., BIOE 406. Diversity of animal behavior in an evolutionary context including inheritance of behavior, diets, avoidance responses, mating systems and sexual selection, parental care, and evolution of animal groups and societies. This discussion course complements the lectures of BIOE 406 by examining both landmark and recent literature. It also includes a written component.

BIOE 416 - Alpine Ecology

Credits: 3. Offered summers only at Flathead Lake Biological Station. Prereq., BIOE 342 or BIOE 370/371.

Distribution, abundance and life cycles of plants and animals and their unique ecophysiological adaptations to life in the rigorous environments of the high mountains above the timberline, with emphasis on the Crown of the Continent area.

BIOE 428 - Freshwater Ecology

Credits: 5. Offered autumn. Prereq., BIOB 160N and either CHMY 123N or 143N. Physical and chemical dynamics of lakes and streams. Diversity, distribution and dynamics of freshwater organisms.

BIOE 439 - Stream Ecology

Credits: 3. Offered summers only at Flathead Lake Biological Station. Prereq., BIOE 342 or BIOE 370/371, CHMY 121N. The biota and biogeochemical processes of running waters with unifying principles and contemporary research approaches.

BIOE 440 - Conservation Ecology

Credits: 3. Offered summers only at Flathead Lake Biological Station. Prereq., BIOE 342 or BIOE 370/371. Concepts and approaches for sustaining biodiversity and other natural goods and services provided by terrestrial and aquatic systems.

BIOE 447 - Terrestrial Ecosystem Ecology

Credits: 3. Offered alternate years. Prereq., BIOB 160N and any ecology-themed course or consent of instr. Introduction to systems thinking and the ecosystem concept, review of water and energy balance, carbon cycling and production processes, nutrient cycling, trophic dynamics, and species effects on ecosystem functioning.

BIOE 448 - Terrestrial Plant Ecology

Credits: 4. Offered autumn. Prereq., an introductory college course in ecology. The interrelationships between plants and plant communities and their natural environment.

BIOE 449 - Plant Biogeography

Credits: 3. Prereq., consent of instr. Offered alternate years. Description of the distribution of plants and animals at global, continental and regional scales. Analysis of ecological and historical factors influencing distribution and association.

BIOE 451 - Landscape Ecology

Credits: 3. Offered summers only at Flathead Lake Biological Station. Prereq., BIOE 342 or BIOE 370/371. Biophysical processes that determine landscape and ecosystem structure and function using remote sensing tools, geographic information systems and dynamic models to demonstrate landscape change.

BIOE 453 - Ecology of Small & Large Lakes

Credits: 3. Offered summers only at Flathead Lake Biological Station. Prereq., BIOE 342 or BIOE 370/371, CHMY 121N and CHMY 123N. The physical, chemical and biological characteristics of lake ecosystems with an emphasis on nutrient cycling, food web interactions and water quality.

BIOE 458 - Forest and Grassland Ecol

Credits: 3. Offered summers only at Flathead Lake Biological Station. Prereq., BIOE 342 or BIOE 370/371. Patterns and processes of the forests and grasslands of the northern Rocky Mountains in the context of principles of population community and ecosystem ecology.

BIOE 490 - Adv Undergrad Research

Credits: 1 TO 10. (R-10) Offered every term. Prereq., junior or senior standing and consent of instr. Independent research under the direction of a faculty member. Graded credit/no credit.

BIOE 594 - Seminar

Credits: 1 TO 4. (R-12). Offered intermittently. Prereq. graduate standing. Presentations by student, faculty, and associates on issues and topics in their field. Level: Graduate

Biology-Human

BIOH 112 - Human Form and Function I

Credits: 3. Offered autumn. Explores the fundamentals of structure and function at basic cellular and tissue levels, in addition to the anatomy and physiology of the integumentary, musculoskeletal, and nervous systems.

BIOH 113 - Human Form and Function II

Credits: 3. Offered spring. Explores the fundamental structures and functions of the endocrine, cardiovascular, respiratory, digestive, urinary and reproductive systems.

BIOH 191 - Special Topics

Credits: 1 TO 6. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BIOH 280 - From Molecules to Mind - Fundamentals of Neuroscience

Credits: 3. Course will focus on the molecular and cellular underpinnings of the functions of the brain and nervous system. The topics will range from the basis of electrical and chemical signaling to the organization of the sensory systems and mechanisms involved in learning, memory, and complex behaviors.

BIOH 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BIOH 365 - Human AP I for Health Profsns

Credits: 0 TO 4. Offered autumn and summer. Prereq., CHMY 121N or CHMY 141N; BIOB 160N or BIOH 112 or 113. Introduction to basic cellular structure and function. The fundamental facts and concepts of the anatomy and physiology of cells and tissues, the integumentary, musculoskeletal, nervous and special senses with an emphasis on clinical application for students preparing for careers in health care. Laboratory component includes presentation of cadaver prosections and models.

BIOH 370 - Human AP II for Health Profsns

Credits: 0 TO 4. Offered spring. Prereq., BIOH 365. The fundamental facts and concepts of the anatomy and physiology of the endocrine, circulatory, respiratory, digestive, urinary and reproductive systems with an emphasis on clinical application for students preparing for careers in health care. Laboratory component includes presentation of cadaver prosections and models.

BIOH 398 - Internship

Credits: 1 TO 6. Offered intermittently. Prereq., consent of the Division. Extended classroom experience that provides practical application of learning during placement off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internship graduation limit 6

BIOH 405 - Hematology

Credits: 3. Offered autumn. Prereq., junior level or consent of instr., BIOM 360. Study of blood and diseases of the circulatory system. Blood banking and serology.

BIOH 423 - TA: Form & Function I

Credits: 1 TO 3. (R-4) Offered autumn. Prereq., "A" or "B" in BIOH 112 and 113 and/or one year upper division anatomy and physiology coursework with cadaver lab. Consent of instr. This select group of students teaches regularly scheduled cadaver lab prosection experiences for students enrolled in BIOH 112; assists in

preparation and grading of lecture and laboratory visit teaching materials; and assists with proctoring and grading exams of undergraduate students enrolled in BIOH 112.

BIOH 424 - TA: Form & Function II

Credits: 1 TO 3. (R-4) Offered spring. Prereq., "A" or "B" in BIOH 112 and 113 and/or one year upper division anatomy and physiology coursework with cadaver lab. Consent of instr. This select group of students teaches regularly scheduled cadaver lab prosection experiences for students enrolled in BIOH 113; assists in preparation and grading of lecture and laboratory visit teaching materials; and assists with proctoring and grading exams of undergraduate students enrolled in BIOH 113.

BIOH 456 - Cadaver Dissection I

Credits: 2. Offered autumn. Prereq., "A" or "B" in BIOH 365 and 370 or equivalent with cadaver experience. Consent of instr. This course is a practicum that provides the participant the ability to expand their anatomical knowledge base, professional growth, and public speaking skills. The participant will have the unique opportunity to dissect, within a small group, a region of a cadaver and present visible structures to their peers. The cadavers prepared by these students are used for teaching in DBS A&P offerings. Systems presented in autumn semester include integumentary, musculoskeletal and nervous systems.

BIOH 457 - Cadaver Dissection II

Credits: 2. Offered spring. Prereq., "A" or "B" in BIOH 365 and 370 or equivalent with cadaver experience, and a grade of "A" in BIOH 456. Consent of instr. This course is a practicum that provides the participant the ability to expand their anatomical knowledge base, professional growth, and public speaking skills. The participant will have the unique opportunity to dissect, within a small group, a region of a cadaver and present visible structures to their peers. The cadavers prepared by these students are used for teaching in DBS A&P offerings. Systems prepared and presented in spring semester include endocrine, cardiovascular, lymphatic, digestive, urinary and reproductive.

BIOH 458 - Neuroscience Research

Credits: 4. Prereq., senior standing in Neuroscience. Theory and practical experience in neuroscience experiment design, data collection, results analysis and report creation. Students will generally assist with ongoing research as well as attend formal classroom presentations and discussions. Students will be required to work with the course writing instructor to undertake the writing process and develop a primary literature review, an abstract and final report based on the experiments conducted and the data collected. Students with well-developed research ideas and skills may be allowed to undertake supplemental independent research.

Course Attributes: Writing Course-Advanced

BIOH 461 - Human Anat/Phys I Tutor/Honors

Credits: 3. Offered autumn. Prereq., "A" or "B" in BIOH 365 or equiv. and consent of instr. This select group of students performs tutoring for students enrolled in BIOH 365; assists in preparation and grading of lecture and laboratory course teaching materials to undergraduate students enrolled in BIOH 365. Students enrolled in BIOH 461 have the option of co-enrolling in the cadaver dissection course.

BIOH 462 - Principles Medical Physiology

Credits: 3. Offered spring. Prereq., C (2.00) or better in BIOH 365, 370, and either CHMY 123N or 143N or consent of instr. An advanced course in human physiology for students preparing for careers in health care.

Course Attributes: Writing Course-Advanced

BIOH 463 - Human Anat/Phys II Tutor/Honor

Credits: 3. Offered spring. Prereq., "A" or "B" in BIOH 370 or equiv. and consent of instr. This select group of students performs tutoring for students enrolled in BIOH370; assists in preparation and grading of lecture and laboratory course teaching materials to undergraduate students enrolled in BIOH 370. Students enrolled in BIOH 463 have the option of co-enrolling in the cadaver dissection course.

BIOH 470 - Summer Clinical Laboratory

Credits: 12. Offered summer. Prereq., successful completion of medical technology 3+1 on-campus curriculum, admittance into one of our affiliated clinical practicum programs, and consent of instructor. Professional training in clinical laboratory sciences (medical technology).

BIOH 471 - Professional Training I

Credits: 13. Offered autumn. Prereq., BIOH 470. Continuation of BIOH 470. Professional training at clinical site(s).

BIOH 472 - Professional Training II

Credits: 12. Offered spring. Prereq., BIOH 471. Continuation of BIOH 471. Professional training at clinical site(s).

BIOH 480 - Tchg Anatomy & Physiology I

Credits: 3 TO 4. Offered autumn. Prereq., "A" or "B" in BIOH 365 and 370 or equiv. and consent of instr. This select group of students assists in preparation and grading of demonstrations and laboratory teaching materials; and provides laboratory anatomy and physiology instruction to undergraduate students enrolled in BIOH 365. Students enrolling for the 4 credit option will also provide occasional comparable assistance for BIOH 112.

BIOH 481 - Tchg Anatomy & Physiology II

Credits: 3 TO 4. Offered spring. Prereq., "A" or "B" in BIOH 365 and 370 or equiv. and consent of instr. This select group of students assists in the preparation and grading of demonstrations and laboratory teaching materials; and provides laboratory anatomy and physiology instruction to undergraduate students enrolled in BIOH 370. Students enrolling for the 4 credit option will also provide occasional comparable assistance for BIOH 113.

BIOH 491 - Special Topics

Credits: 1 TO 10. (R-10) Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

Biology

BIOL 315 - Peer Advising Internship

Credits: 1. (R-6) Offered autumn and spring. Prereq., consent of instr. Supervised training and internship for peer advisors who will gain knowledge and ability to communicate degree requirements and relate the various

degree offerings to professional and career goals. No more than two credits are allowed toward upper-division major requirements.

BIOL 435 - Comparative Animal Physiology

Credits: 3. Offered spring. Prereq., BIOB 260 or equivalent. Animal physiology with emphasis on diversity of functional processes, with strong links to broader ecological and evolutionary contexts.

BIOL 484 - Plant Evolution

Credits: 3. Offered fall, alternate years. Prereq., BIOB 272. Lecture, reading and discussion on the evolutionary processes that shape major patterns of plant diversity. Topics include but are not restricted to: local adaptation, floral and mating system evolution, polyploidy, genome evolution, and speciation.

BIOL 492 - Seminars in Ecol & Res Man

Credits: 1. Offered summers only at Flathead Lake Biological Station. Prereq., BIOL 342 or BIOE 370/371 or taken concurrently with BIOL 342. Seminar course that meets weekly for 2 hours in the evening. Includes seminar speaker and discussion.

Biology-Microbiology

BIOM 135N - Hot Spring Micb: Yellowstone

Credits: 3. Offered autumn alternate years. A field and laboratory based exploration of the microbial diversity of the thermal features of our first national park. Topics to be discussed include how these communities are shaped by the physical and chemical conditions of the environment and how microorganisms can thrive at life's extremes. Includes a field trip to Yellowstone National Park. Course Attributes: Natural Science Course

BIOM 227 - Vectors and Parasites

Credits: 3. Offered spring. Prereq., college level general biology class is recommended but not required. An introduction to the major groups of parasites and arthropod-borne pathogens infecting humans worldwide. The class will stress the biology, transmission dynamics, prevention and control of these organisms.

BIOM 250N - Microbiology for Hlth Sciences

Credits: 3. Offered spring. Infectious diseases, including concepts of virulence, resistance, prevention and control of microbial diseases in the individual and in the community. If laboratory experience is desired, the student may enroll concurrently in BIOM 251. Credit not allowed toward a major in microbiology. Course Attributes: Natural Science Course

BIOM 251 - Microbiology Hlth Sciences Lab

Credits: 1. Offered spring. Prereq. or coreq., BIOM 250N. Observation of live microorganisms, their characteristics and activities. Experience with microbiological techniques. Credit not allowed toward a major in microbiology.

BIOM 291 - Special Topics

Credits: 1 TO 6. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

BIOM 360 - General Microbiology

Credits: 3. Offered autumn. Prereq., CHMY 123N or 143N; Prereq. or coreq., BIOB 260. Microbial structure and function, growth and reproduction, physiology, ecology, genetics, environmental factors, control of microorganisms and sterility, antimicrobial agents, microbial diversity.

BIOM 361 - General Microbiology Lab

Credits: 2. Offered autumn. Prereq. or coreq., BIOM 360. Basic microbiology procedures and techniques.

BIOM 390 - Undergraduate Research

Credits: 1 TO 6. (R-10) Offered every term. Prereq., consent of instr. Independent research under the direction of a faculty member. Graded credit/no credit.

BIOM 400 - Medical Microbiology

Credits: 3. Offered autumn. Microbial structure and functions, pathogenic microorganisms, virology, immunology. Credit not allowed toward a major in microbiology.

BIOM 402 - Medical Bacteriology & Mycology

Credits: 3. Offered spring. Prereq., BIOM 360, 361. A study of the pathogenic bacteria and fungi and the diseases they produce.

BIOM 403 - Medical Bacteriology & Mycology Lab

Credits: 2. Offered spring. Prereq. or coreq., BIOM 402. Laboratory study of pathogenic bacteria and fungi.

BIOM 407 - Clinical Diagnosis

Credits: 2. Offered spring. Prereq., BIOM 360-361 or BIOH 365 or BIOM 402/403 (may concur). Principles of blood chemistry, urinalysis, blood banking, serology and other clinical parameters of disease and health.

BIOM 408 - Clinical Diagnosis Lab

Credits: 1. Offered spring. Prereq., or coreq., BIOM 407, and BIOM 360-361 or BIOH 365 or BIOM 402/403 (may concur). Clinical diagnostic methods.

BIOM 410 - Microbial Genetics

Credits: 3. Offered spring. Prereq., BIOM 360 and 361. The molecular genetics of prokaryotic organisms including: structure and replication of the prokaryotic chromosome; gene expression; mutagenesis and DNA repair; plasmids and other tools of genetic engineering; transmission of genetic material and recombination in prokaryotes; regulation of gene expression in prokaryotes; recombinant DNA and biotechnology.

BIOM 411 - Experimental Microbial Genetics Lab

Credits: 1. Offered spring. Prereq. or coreq., BIOM 410. Experiments in microbial genetics: Analysis of genes and genomes.

BIOM 415 - Microbial Diversity Ecology & Evolution

Credits: 3. Offered spring. Prereq., BIOB 260, 272, BIOM 360-361 or consent of instr. A broad overview of the physiological, phylogenetic and genomic diversity and ecology of microorganisms within a framework of general ecological principles. Focuses on microbial interactions with their environment at the level of the individual, population and community, including intimate associations with plants and animals. Surveys current methods for studying microbial ecology and diversity in the environment.

BIOM 427 - General Parasitology

Credits: 2. Offered autumn. Prereq., BIOB 272. Parasitism as a biological phenomenon, origin of parasitism, adaptations and life cycles, parasite morphology, fine structure, physiology, parasites and their environment.

BIOM 428 - General Parasitology Lab

Credits: 2. Offered autumn. Coreq., BIOM 427. Taxonomy, morphology and identification of parasitic protozoa, helminths and arthropods.

BIOM 435 - Virology

Credits: 3. Offered spring. Prereq., BIOB 260, and either BIOM 360 or BIOM 400. The general nature of viruses, with emphasis on the molecular biology of animal and human viruses. Co-convenes with BIOM 535.

Course Attributes: Co-Convened Course

BIOM 450 - Microbial Physiology

Credits: 3. Offered autumn. Prereq., BIOM 360-361. Microbial structure and function, physiological diversity, microbial metabolism, role of microbial activity in the environment.

BIOM 451 - Microbial Physiology Lab

Credits: 1. Offered autumn. Coreq., BIOM 450. Experimental approaches to analysis of microbial structure, composition and metabolism.

BIOM 490 - Adv Undergrad Research

Credits: 1 TO 10. (R-10) Offered every term. Prereq., BIOM 360, junior or senior standing and consent of instr. Independent research under the direction of a faculty member. Graded credit/no credit. Course Attributes:

Research & Creative Schlrshp

BIOM 491 - Special Topics

Credits: 1 TO 10. (R-10) Offered intermittently. Experimental offerings of new courses, experimental offerings of visiting professors, or one-time offerings of current topics.

BIOM 494 - Seminar

Credits: 1. (R-3) Offered intermittently. Prereq., senior standing in natural sciences. Recent topics in microbiology and related subjects.

BIOM 498 - Internship

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off campus. Course Attributes:

Internships/Practicums

BIOM 499 - Undergraduate Thesis

Credits: 3 TO 6. (R-6) Offered every term. Prereq., senior standing and consent of instr. Preparation of a thesis or manuscript based on undergraduate research for presentation and/or publication. Student must give an oral or poster presentation at the Biological Sciences Undergraduate Research Symposium or a scientific meeting. Graded credit/no credit.

BIOM 502 - Advanced Immunology

Credits: 3. Offered autumn even-numbered years. Advanced topics and immunological techniques used in modern immunology. Level: Graduate

BIOM 505 - Advanced Topics in Metagenomics

Credits: 1. (R-8) The course comprises a study group of four faculty 4-6 graduate students and select advanced undergraduates that meets weekly to consider and discuss advances in the areas of metagenomics and bioinformatics research based on recent publications in the primary literature or on their own research

findings. There are no specific course prerequisites, but the course is only appropriate for microbiology and computer science graduate and advanced undergraduate students and requires permission of the instructor for enrollment. Level: Graduate

BIOM 509 - Advanced Virology

Credits: 3. Offered spring add-numbered years. Prereq., BIOM 435 (MICB 420). Students are presented with research papers that have been pivotal to the understanding of important molecular or genetic concepts in virology. Level: Graduate

BIOM 535 - Advanced Virology

Credits: 3. Coreq., BIOB 596. A "principles-based" discussion of virology, focusing on the molecular processes and events that must be completed by all viruses for successful replication within an individual host, and spread through host populations. The molecular basis of alternative replication strategies, the interactions of viruses with hosts organisms, and how these interactions lead to disease will be presented with examples drawn from a representative set of more well-understood animal viruses. BIOM 535 emphasizes independent, creative, critical thought. Co-convenes with BIOM 435. Level: Graduate Course Attributes: Co-Convened Course

BIOM 540 - Microbial Pathogenesis

Credits: 3. Offered fall. Prereq., graduate standing. Current concepts in pathogenesis at the molecular and cellular levels. Focus is on microbial (viral, bacterial) and genetic factors leading to disease and the host's involvement in the process. Level: Graduate

BIOM 545 - Adv Topics in Microb Ecol

Credits: 1. (R-4) Offered every term. Prereq., graduate standing or consent of instr. Discussion of selected themes of the ecology of microorganisms with a focus on the recent primary literature. Level: Graduate

BIOM 546 - Experimental Microb Ecol

Credits: 1. Offered every term. Prereq., graduate standing or consent of instr. Focus on experimental design, methods, and presentation of experimental results in the area of microbial ecology. Level: Graduate

BIOM 570 - Intro to Research

Credits: 1. (R-2) Offered autumn and spring. Prereq., graduate standing. Required course for biochemistry and microbiology graduate students. Instruction in basic research techniques, research equipment and reading in the relevant scientific literature. Students conduct research projects under faculty mentors of their choosing. Level: Graduate

BIOM 594 - Seminar

Credits: 1. (R-4) Offered autumn and spring. Prereq., graduate standing or consent of instr. Same as BCH 594. Presentation of current research in biochemistry and molecular biology by senior graduate students, faculty, and invited outside speakers. Level: Graduate

BIOM 595 - Special Topics

Credits: 1 TO 3. (R-6) Offered intermittently. Prereq., graduate standing. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

BIOM 596 - Independent Study

Credits: 1 TO 6. (R-6) Prereq., consent of instr. Credit for independent research project unrelated to thesis or dissertation. Level: Graduate

BIOM 597 - Research

Credits: 1 TO 18. (R-18) Offered intermittently. Prereq., graduate standing, one semester residence. Level: Graduate

BIOM 599 - Thesis

Credits: 1 TO 10. (R-10) Offered intermittently. Prereq., master's student in microbiology. Laboratory research for and preparation of a master's thesis. Level: Graduate

BIOM 699 - Dissertation

Credits: 1 TO 20. (R-20) Offered intermittently. Prereq., doctoral student in microbiology. Laboratory research for and preparation of a doctoral dissertation. Level: Graduate

Biology - Organismal

BIOO 101N - Survey MT Wildlife & Habitats

Credits: 3. Offered autumn. Prereq., one course in biology. Interpreting biological patterns associated with selected Montana wildlife species, including mammals, birds, reptiles and amphibians. Course Attributes: Natural Science Course

BIOO 105N - Introduction to Botany

Credits: 3. Offered spring. Introduction to the plant kingdom including anatomy, physiology and ecology. Course Attributes: Natural Science Lab Course

BIOO 320 - General Botany

Credits: 5. Offered autumn. Prereq., BIOB 170N-171N, 260. Prereq. or coreq., BIOB 272. Anatomy, morphology, ecology and physiology of photosynthetic organisms.

BIOO 335 - Rocky Mountain Flora

Credits: 3. Offered spring. Prereq., one college-level course in Biology or consent of instr. Elements of the evolution, geography and natural affinities of flowering plants. Identification using a manual of native plants of Montana.

BIOO 340 - Biology and Mgmt of Fishes

Credits: 4. Offered autumn. Prereq., BIOB 272 and either STAT 216 or WILD 240. Diversity, adaptations and ecology of fishes. Analysis and management of fish populations and communities.

BIOO 433 - Plant Physiology

Credits: 3. Offered spring. Prereq., BIOB 260 or consent of the instructor. The molecular, biochemical and biophysical basis of plant function, from the subcellular to the whole organism level.

BIOO 434 - Plant Physiology Lab

Credits: 1. Offered spring. Prereq or coreq., BIOO 433. Laboratory exercises designed to familiarize students with concepts and techniques in plant physiology.

BIOO 462 - Entomology

Credits: 4. Offered alternate springs. Prereq. or Coreq., BIOB 272. The classification, morphology, anatomy, development, life-history, behavior and ecology of insects. Labs include identification of major insect groups, internal and external anatomy and student collections.

BIOO 470 - Ornithology

Credits: 4. Offered spring. Prereq. or Coreq., BIOB 272; major of biology, Pre-Wildlife Biology, or Wildlife Biology, and must be of junior or senior standing. The classification, structure, evolution, behavior and ecology of birds.

BIOO 475 - Mammalogy

Credits: 4. Offered autumn. Prereq., BIOB 272. The evolution, systematics, anatomy, physiology and ecology of mammals.

BIOO 486 - Field Techniq in Mammalogy

Credits: 2. Offered intermittently. Prereq., BIOO 475 or equiv. and consent of instr. A "hands-on" approach to lab and field techniques employed for the study of mammals. Includes mark/recapture live trapping methods, remote cameras, and tracking plates of non-invasive censussing.

BIOO 490 - Adv Undergrad Research

Credits: 1 TO 10. (R-10) Offered every term. Prereq., junior or senior standing and consent of instr. Independent research under the direction of a faculty member.

Biology - Systems Ecology

BIOS 532 - Ecosystem Ecology

Credits: 3. Offered autumn every other year. Prereq. CHMY 141N or the equivalent. Coreq. CHMY 143N and BCH 111. This course includes the fundamentals of an ecosystem approach to ecological research by emphasizing relationships among physical, chemical, and biotic elements of interactive systems. It will provide a fundamental basis for more advanced Systems Ecology courses (e.g., Limnology, Integrated Systems Ecology, Landscape Genetics, etc.). Level: Graduate

BIOS 534 - Integrated Systems Ecology

Credits: 3. Offered spring semester alternate years. Principles, theories and empirical studies that describe the complex attributes and processes of coupled natural and human systems. Landscape, climate, economic and social change dynamics and processes emphasized. Flagship course of the UM-DBS Systems Ecology Program. Students strongly advised but not required to take BIOS 532 Fundamentals of Ecosystem Ecology prior to this course. Level: Graduate

BIOS 599 - Thesis

Credits: 1 TO 10. R-10

Microbiology

MICB 699 - Dissertation

Credits: 1 TO 20. (R-20) Offered intermittently. Prereq., doctoral student in microbiology. Laboratory research for and preparation of a doctoral dissertation. Level: Graduate

Central and Southwest Asian Studies

Dr. Ardi Kia, Advisor

The University of Montana has emerged as a national and international leader in recognizing the significance of Central and Southwest Asia, and translating that awareness into a major academic program. The program builds on significant faculty experience and expertise in the region, and includes scholars from a variety of academic disciplines. The program has also organized intensive summer language training programs at UM, as well as summer study tours for K-12 teachers to Central Asia, and also hosts an annual conference that brings leading scholars, diplomats, analysts, and journalists to the UM campus.

The University of Montana offers an undergraduate major as well as a Minor in Central and Southwest Asian Studies. Arabic, Chinese, Persian, Russian and Turkish language instruction are also offered. Faculty exchanges have been organized with universities in China, Egypt, Georgia, Kazakhstan, Kyrgyzstan, Morocco, Russia and Tajikistan.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Central & Southwest Asian Stds**

Total Credits: 42 Cumulative GPA Required: 2.0

HSTR 496 Independent Study 1 To 12

Commentary: If taking HSTR 496, student is required to take the course for 3 credits and complete a 25 page research paper. Either course fulfills the Upper-Division Writing Requirement for the Major.

Degree Commentary: Students are required to complete 12 credits of Lower-Division core courses, 9 credits of Upper-Division core courses, in addition to completing the Capstone requirement. Students also must complete the second year sequence (8-10 credits) of either Arabic OR Chinese OR Russian, for a combined total of 42-44 credits. Students are strongly recommended to take a third or fourth year of language study.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Minor Level: Minor Subject: **Central & Southwest Asian Stds**

Total Credits: 18 Cumulative GPA Required: 2.0

The Central and Southwest Asian Studies Minor is available to all students. It consists of eighteen credits. Students selecting the minor are required to successfully complete HSTR 146 (HIST106)/ANTH 106H/AS 106H and six credits in foundational Central and Southwest Asian Studies courses (200-level courses). Students must then complete nine credits of additional course work at the 300- or 400- level. No language courses are required; however, students pursuing the minor are strongly encouraged to meet the University-wide general education foreign language competency requirement by completing at least the second semester of one of the following languages (100 level or higher): Chinese, Persian, Arabic, Turkish or Russian. Participation in a study-abroad program is strongly recommended.

Lower Division Core

Rule: Must complete 1 of the following courses

Criterion: C- Number of Credits 3

Course Listing

GPHY 335 Water Policy 3

GPHY 433 Cultural Ecology 3

GPHY 499 senior thesis / capstone 3

Commentary: GPHY 335 or GPHY 433 will also count toward the upper division core requirements GPHY 499 will also count toward upper division elective credits.

Degree Specific Symbolic Systems

Category Name: General Ed Symbolic Systems

Rule: Must complete either 1 year of a foreign language or STAT 216 Introduction to Statistics

Criterion: C- Number of Credits 3-10

Course Listing

Commentary: Gen Ed credits do not count towards degree credits.

Chemistry and Biochemistry Department

Christopher P. Palmer, Chair

Chemistry is the central science that involves the study of molecules, their structures, their combinations, their interactions, and the energy changes accompanying chemical processes.

The Department offers the following degrees: B.S., B.A., M.S., M.A., and Ph.D.

Prospective students desiring further information on any program of the Department of Chemistry and Biochemistry should visit the [Department of Chemistry and Biochemistry](#) and [Biochemistry Program](#) websites.

High School Preparation: In addition to the general University admission requirements, it is strongly recommended that a student take four years of mathematics, four (or more) years of science (earth and space science, biology, chemistry, and physics), four years of a foreign language, and four years of English. Refer to graduation requirements listed previously in the catalog. See index.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Chemistry**

Total Credits: 89 Cumulative GPA Required: 2.0

The courses required for the B.A. degree provide a less extensive training in chemistry than do the courses required for the American Chemical Society certified B.S. degree. This is to allow the student to supplement his or her program with courses that meet his or her specific needs. Thus this degree provides the core of traditional preparation in chemistry together with latitude for combination with an interdisciplinary field or the Teacher Preparation program. It is strongly advised that students using this degree obtain faculty advice in planning their program.

Department Faculty

Professor

- Bruce Bowler, Professor and Director, Biochemistry Program
- Mark Cracolice, Professor
- Michael DeGrandpre, Professor of Chemistry and Biochemistry
- Daniel Dwyer, Dr.
- Christopher Palmer, Professor/Chair
- Nigel Priestley, Professor of Chemistry
- Edward Rosenberg, Professor
- J.B. Alexander (Sandy) Ross, Dean of the Graduate School and Professor of Chemistry and Biochemistry
- Kent Sugden, Professor of Chemistry and Biochemistry

Associate Professors

- Orion Berryman, Assistant Professor
- Klara Briknarova, Associate Professor
- Xi Chu, Associate Professor
- Aaron Thomas, Associate Professor, Director of Native American Research Laboratory

Adjunct Instructor

- Gerald Olbu

Lecturer

- Earle Adams, assistant research professor
- Holly Thompson, Lecturer

Emeritus Professor

- Richard Field, Professor Emeritus
- Donald Kiely
- Garon Smith, Professor of Chemistry
- Edward Waali, Professor Emeritus

Course Descriptions

Chemistry

CHMY 101N - Chemistry for the Consumer

Credits: 3. Offered intermittently. An introduction to chemistry that emphasizes the influence of chemistry on one's everyday life. Common household products, such as soap, aspirin, toothpaste, face cream and fertilizers are prepared in the lab. Course Attributes: Natural Science Lab Course

CHMY 104 - Preparation for Chemistry

Credits: 3. Offered autumn. Prereq. ALEKS Level 3 or M 090 Introductory Algebra w/ C- or better. An introduction to chemistry for those who believe they have an inadequate background to enroll in CHMY 121N or 141N. Not appropriate toward chemistry requirement in any major.

CHMY 121N - Introduction to General Chemistry

Credits: 3. Offered autumn and spring. First semester of an introduction to general, inorganic, organic and biological chemistry. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt Natural Science Course

CHMY 122 - Introduction to General Chemistry Lab

Credits: 1. Offered autumn and spring. Prereq., Enrolled in the College of Technology ASRN program. Prereq. or coreq., CHMY 121N or equivalent. A laboratory course emphasizing inorganic chemistry, quantitative relations and synthesis of inorganic and organic compounds. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt

CHMY 123 - Introduction to Organic and Biochemistry

Credits: 3. Offered autumn and spring. Prereq., "C-" or equiv. in CHMY 121N or consent of instr. Second semester of an introduction to general, inorganic, organic and biological chemistry.

CHMY 124 - Introduction to Organic and Biochemistry Lab

Credits: 2. Offered autumn and spring. Prereq. or coreq., CHMY 123. Laboratory to accompany CHMY 123.

CHMY 141N - College Chemistry I

Credits: 5. Offered autumn and spring. Prereq., ALEKS Placement Level 4 or M 095 Intermediate Algebra w/ C- or better. For science majors and other students intending to take more than one year of chemistry. Properties of elements, inorganic compounds, liquid solutions, chemical equilibria and chemical kinetics. Includes laboratory. Course Attributes: Natural Science Lab Course

CHMY 143N - College Chemistry II

Credits: 5. Offered spring and summer. Prereq., "C-" or better in CHMY 141N or consent of instr. A continuation of CHMY 141N. Includes Laboratory. Course Attributes: Natural Science Lab Course

CHMY 191 - Special Topics/Expmntl Crse

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CHMY 221 - Organic Chemistry I

Credits: 3. Offered autumn. Prereq., CHMY 123N or 143N. The chemical and physical properties of organic compounds.

CHMY 222 - Organic Chemistry I Lab

Credits: 2. Offered autumn. Coreq., CHMY 221; prereq., one semester of 100-level laboratory. Microscale techniques are emphasized.

CHMY 223 - Organic Chemistry II

Credits: 3. Offered spring. Prereq., CHMY 221. Continuation of 221.

CHMY 224 - Organic Chemistry II Lab

Credits: 2. Offered spring. Prereq., CHMY 222; prereq. or coreq., CHMY 223.

CHMY 290 - Undergraduate Research

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Research & Creative Schlrshp

CHMY 291 - Special Topics/Expmntl Crse

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CHMY 292 - Independent Study

Credits: 1 TO 10. (R-10) Offered autumn and spring. Prereq., one semester of chemistry and consent of instr. Laboratory investigations and research in the laboratory of a faculty member.

CHMY 294 - Seminar/Workshop

Credits: 1 TO 3. (R-6) Offered intermittently. Topic varies.

CHMY 302E - Chemistry Literature and Science Writing

Credits: 3. Offered autumn and spring. Prereq., CHMY 223 and chemistry or biochemistry majors. Presentation and discussion of current literature in chemistry. Use of library and search tools. Workshop for developing and improving skills in scientific writing and evaluation. Use of on-line data bases and the interface of these with PC-based word processing and scientific graphics programs. Course Attributes: Ethical & Human Values Course Writing Course-Advanced

CHMY 311 - Analytical Chem-Quant Analysis

Credits: 4. Offered autumn. Prereq., one year of college chemistry, including laboratory. Classroom and laboratory work in gravimetric, volumetric, colorimetric and electrochemical methods of analysis; theory of errors; ionic equilibria in aqueous solutions.

CHMY 360 - Applied Physical Chemistry

Credits: 3. Offered spring. Prereq., CHMY 123 OR 143 AND M 162. Basic thermodynamics and chemical kinetics with applications in the biological and environmental sciences. Credit not allowed for both 360 and 373.

CHMY 371 - Phys Chem-Qntm Chm & Spctrscopy

Credits: 4. Offered spring. Prereq., CHMY 373. Systematic treatment of the laws and theories relating to chemical phenomena.

CHMY 373 - Phys Chem-Kntcs & Thrmdynmcs

Credits: 4. Offered autumn. Prereq., CHMY 143N, M 273, PHSX 207N or 212N. Systematic treatment of the laws and theories relating to chemical phenomena. Credit not allowed for both CHMY 360 and 373.

CHMY 390 - Undergraduate Research

Credits: 1. Offered every term. Prereq., CHEM 161N-162N with B or better and consent of instr. Methods of peer-led team learning as applied to general chemistry instruction. Review of concepts from general chemistry. Student leaders mentor a team of general chemistry students in working toward constructing chemistry knowledge and developing problem-solving skills. Course Attributes: Research & Creative Schlrshp

CHMY 391 - Special Topics/Expmntl Crse

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CHMY 392 - Independent Study

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CHMY 397 - Teaching Chemistry

Credits: 1. Offered every term. Prereq., CHMY 141N-143N with B or better and consent of instr. Methods of peer-led team learning as applied to general chemistry instruction. Review of concepts from general chemistry. Student leaders mentor a team of general chemistry students in working toward constructing chemistry knowledge and developing problem-solving skills.

CHMY 398 - Internship/Cooperative Educ

Credits: 1 TO 6. Offered autumn and spring. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

CHMY 401 - Advanced Inorganic Chemistry

Credits: 3. Offered autumn. Prereq., CHMY 223 AND 360 OR 373 or consent of instr. Theory and principles of inorganic chemistry and a systematic coverage of descriptive inorganic chemistry in the context of the periodic table.

CHMY 402 - Advanced Inorganic Chem Lab

Credits: 2. Offered spring. Prereq., CHMY 224 AND 360 or 373 and consent of instr. Preparation of inorganic and coordination compounds. Isolation and characterization by ion exchange, column chromatography, IR, UV-VIS, derivatives, MP, and BP.

CHMY 403 - Descriptive Inorganic Chem

Credits: 3. Offered spring. Prereq., CHMY 221-222, 360 or 373-371, and 401. A survey of the chemistry of the elements including transition metal reaction mechanisms, redox chemistry, organometallic chemistry, bioinorganic chemistry.

CHMY 421 - Advanced Instrument Analysis

Credits: 4. Offered spring. Prereq., CHMY 311. Theory and use of instrumental methods in the study of analytical and physical chemistry.

CHMY 442 - Aquatic Chemistry

Credits: 3. Offered autumn odd-numbered years. Prereq., CHMY 311 or consent of instr. Application of chemical equilibria theory for understanding and modeling chemical processes in natural waters with an emphasis on spreadsheet computations. In depth examination of concepts such as pH, alkalinity, buffering, and solubility as they apply to natural waters.

CHMY 445 - Indstrl Chm & Its Impct on Soc

Credits: 3. Offered every other autumn semester. Prereq., CHMY 143 or 123. A course based on local Montana chemical industries involving field trips to chemical plants, visits by company personnel and an overall evaluation of the company=s economic and environmental impact on the community.

CHMY 465 - Organic Spectroscopy

Credits: 3. Offered intermittently. Prereq., CHMY 360 or 373 and one year of organic chemistry or consent of instr. Theory and interpretation of the NMR, IR, UV, and mass spectra of organic compounds with the goal of structure identification.

CHMY 466 - FT-NMR Optn for Undrgrd Rsrch

Credits: 1. Offered intermittently. Prereq., CHMY 221-222; research project using NMR; consent of instr. Operation of the FT-NMR spectrometer and brief background of NMR spectroscopy.

CHMY 485 - Laboratory Safety

Credits: 1. Offered autumn. Prereq., one year of college chemistry. Awareness of and methods of control of hazards encountered in laboratory work. Awareness of legal constraints on work with chemicals. Sources of information regarding chemical hazards.

CHMY 488 - Forensic Research

Credits: 3. Offered autumn, spring and summer. Prereq., consent of instr. Laboratory investigations and research on forensic chemistry topics under the direction of a faculty member.

CHMY 489 - Forensic Research Seminar

Credits: 1. Offered autumn. Prereq., CHMY 421 and ANTH 286N. Seminar speakers on forensic science topics in the areas of ethics, law, anthropology and criminology; tours of the Montana State Crime Laboratory.

CHMY 490 - Undergraduate Research

Credits: 1 TO 9. Undergraduate Research Variable cr (R-9). Offered autumn, spring, and summer. Prereq., consent of instr. Laboratory investigations and research in the laboratory of a faculty member. Course Attributes: Research & Creative Schlrshp

CHMY 491 - Special Topics/Expmntl Crse

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses or one-time offerings of current topics.

CHMY 492 - Independent Study

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Laboratory investigations and research in the laboratory of a faculty member.

CHMY 494 - Seminar/Workshop

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Laboratory investigations and research in the laboratory of a faculty member.

CHMY 498 - Internship/Cooperative Educ

Credits: 1 TO 6. Prereq., consent of department. Extended non-classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

CHMY 499 - Senior Thesis/capstone

Credits: 3. Offered autumn and spring. Prereq., CHMY 490 or consent of instr. and senior standing. Students complete and report on undergraduate research initiated as CHEM 490 or equivalent research experience. Reports are both oral and written.

CHMY 501 - Teaching University Chemistry

Credits: 1. Offered autumn. Preparation for teaching chemistry at the college level. A survey of teaching fundamentals and educational psychology as applied to chemistry instruction. Level: Graduate

CHMY 541 - Environmental Chemistry

Credits: 3. Offered intermittently. Prereq., CHMY 360 OR 373. Chemical principles and reactions in natural systems: Fate of chemical contaminants in the environment; partitioning of contaminants between phases (air/water/soil); chemistry of atmospheric pollutants; computer modeling of equilibrium and kinetic processes; degradation and transformation of organic contaminants. Level: Graduate

CHMY 542 - Separation Science

Credits: 3. Offered autumn odd-numbered years. Prereq., CHMY 421, CHMY 360 or 373. Theory, method development, and application of analytical separations; solvent extraction; solid phase extraction; various forms of chromatography; electrophoresis. Level: Graduate

CHMY 544 - Applied Spectroscopy

Credits: 3. Offered intermittently. Prereq., CHMY 421 or consent of instr. The function and application of optical (ultraviolet to infrared) chemical instrumentation. Specific topics include optics, light sources, detectors and a wide variety of spectrochemical methods with an emphasis on methods not typically covered in undergraduate instrumental analysis courses. Level: Graduate

CHMY 553 - Inor Chem and Curr Lit

Credits: 4. Offered spring. Prereq., CHMY 401. A survey of the elements including transition metal reaction mechanisms, redox chemistry, organometallic chemistry, bioinorganic chemistry. Oral and written presentations on primary literature. Level: Graduate

CHMY 562 - Org Structure and Mech

Credits: 3. Offered intermittently. Prereq., one year of organic chemistry. Topics may include: stereochemistry, conformational analysis, aromaticity, transition state theory, isotope effects, solvent effects, substitution and elimination reactions, and mechanisms that involve carbocations, carbanions, radicals and carbenes as reactive intermediates. Level: Graduate

CHMY 563 - Organic Synthesis

Credits: 3. Offered intermittently. Prereq., CHMY 221-223. Theoretical treatise of the common methods used in organic synthesis including: oxidation, reduction, organometallics, C-C bond forming reactions, synthetic strategies and total synthesis. Level: Graduate

CHMY 566 - FT-NMR for Graduates

Credits: 1. Offered intermittently. Prereq., CHMY 221-222; research project using NMR; consent of instr. Operation of the FT-NMR spectrometer and brief background of NMR spectroscopy. Level: Graduate

CHMY 568 - Organometallic Chemistry

Credits: 3. Offered intermittently in autumn. Prereq., CHMY 221, 223, 401, 403. Survey of the reactivity and structure of main group and transition metal organometallic compounds with an emphasis on applications to organic synthesis and catalysis. Level: Graduate

CHMY 573 - Advanced Physical Chem

Credits: 3. Offered intermittently. Prereq., CHMY 371-373. Fundamental principles of physical chemistry and special applications. Level: Graduate

CHMY 580 - Adv Graduate Res Seminars

Credits: 1. (R-10) Offered every term. Prereq., consent of instr. Formal oral and written presentations of research results and selected literature topics in a designated area. Level: Graduate

CHMY 593 - Professional Project

Credits: 3. Offered autumn and spring. Prereq., consent of instr. Preparation of a professional project appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Faculty-Led Study Abroad

CHMY 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

CHMY 596 - Independent Study

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Service Learning/Volunteer

CHMY 597 - Research

Credits: 1 TO 10. Offered autumn and spring. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

CHMY 598 - Internship

Credits: 1 TO 8. (R-8) Offered autumn and spring. Prereq., consent of department. Extended non-classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. Level: Graduate Course Attributes: Internships/Practicums

CHMY 599 - Thesis

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., consent of instr. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

CHMY 630 - Seminar

Credits: 1. (R-14) Offered autumn and spring. Prereq., graduate standing in chemistry or biochemistry, or consent of instr. Level: Graduate

CHMY 640 - Intro Grad Seminar

Credits: 1. (R-20) Offered autumn. Prereq., graduate standing in chemistry or biochemistry or consent of instr. Seminar to acquaint new graduate students with departmental research. Level: Graduate

CHMY 650 - Graduate Chemistry Seminar

Credits: 1. (R-2) Offered spring. Prereq., graduate standing. A review and discussion of current research. Topics vary. Level: Graduate

CHMY 652 - Original Research Proposal

Credits: 1. Offered autumn. Prereq., CHMY 640 and CHMY 650. Preparation and presentation of original research proposals for third year graduate students. Level: Graduate

CHMY 697 - Research

Credits: 1 TO 10. (R-60) Offered autumn and spring. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

CHMY 699 - Dissertation

Credits: 1 TO 10. (R-10) Offered autumn and spring. Preparation of extensive thesis or manuscript based on research for presentation and/or publication. Level: Graduate

Communication Studies Department

Steve Schwarze, Chair

Communication Studies engages in both social-scientific and humanistic approaches to the analysis, understanding and improvement of human communication. The discipline traces its roots to ancient Greek and Roman studies of the functions of public discourse in society, but in the twentieth century communication came to embrace the studies of interpersonal and small group interaction, human relations in organizations, media and society, and intercultural interaction. Although interdisciplinary in spirit, the discipline has a core of knowledge, theory, and concepts concentrating on such things as symbols, messages, interactions, networks, audiences, and persuasive campaigns. Uniting the field is the belief that the role of communication in human experience is basic to comprehending complex situations and problems in the modern world. The discipline has roles in both the broad traditions of liberal arts education and in the development and refinement of practical skills.

The Department of Communication Studies at the University of Montana-Missoula focuses on three broad areas of study: interpersonal interaction and human relationships, organizational communication, and rhetoric and public discourse. The knowledge and skills the student may acquire in each of these areas are important to functioning effectively in one's personal life, at work, and as a citizen of the larger society in a rapidly changing world.

The program in Communication Studies helps to prepare students for such diverse professions as: public relations officer, marketing analyst, human resources or personnel manager, community mediator, political speech writer, health communication trainer, social services director, or student services coordinator. Also, undergraduate and

Course Descriptions

Communication

COMX 111A - Intro to Public Speaking

Credits: 3. Offered every term. Preparation, presentation, and criticism of speeches. Emphasis on the development of public speaking techniques through constructive criticism. Credit not allowed for both COMM 111A and COM 160A. Course Attributes: Expressive Arts Course

COMX 115S - Introduction to Interpersonal Communications

Credits: 3. Offered autumn and spring. An overview of the process of human communication with special emphasis on analyzing communication patterns and improving interpersonal communication skills. Credit not allowed for both COMM 110S and COM 150S. Course Attributes: Social Sciences Course

COMX 191S - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Internships/Practicums Social Sciences Course

COMX 202S - Nonverbal Communication

Credits: 3. Offered yearly. Nonverbal code systems and how they function in human communication including gestures, facial expressions, personal space, and others. Course Attributes: Social Sciences Course

COMX 204X - International & Dvlpmnt Comm

Credits: 3. Offered yearly. International Communication is concerned with information exchange across national borders while Development Communication focuses on the historical, current, and prospective role of communication technologies in social change, improving living conditions, and enhancing life prospects-mainly in developing countries. Course Attributes: Indigenous and Global

COMX 210 - Communication in Small Groups

Credits: 3. Offered autumn and spring. Theory and research related to communication roles, collaboration, cohesion, leadership, and decision-making. Experiences provided in task oriented groups and field analyses of group processes.

COMX 220S - Intro to Organizational Comm

Credits: 3. Offered yearly. Theory and research on communication in organizations. Focus on topics such as productivity, power, culture, socialization, technology and globalization covering a wide range of organizations including corporations, government, educational institutions, non-profit agencies and media organizations. Course Attributes: Social Sciences Course

COMX 222 - Professional Communication

Credits: 3. Offered intermittently. Explores communication skills needed in business and professional contexts. Focus on developing a working knowledge of theory and skills for interpersonal communication, group communication, and business writing. Concepts include communication processes, diversity in the workplace, nonverbal communication, technical communication, communication with customers, and employment communication.

COMX 240H - Intro to Rhetorical Theory

Credits: 3. Offered yearly. An overview of rhetorical theory including an exploration of classical rhetoric, British and Continental rhetorical theory, and contemporary theories of language and persuasion. Course Attributes: Historical & Cultural Course

COMX 241 - Persuasive Communication

Credits: 3. Offered yearly. The use of communication in attitude and behavior change as experienced in personal, organizational, and public contexts.

COMX 242 - Argumentation

Credits: 3. Offered autumn and spring on the Mountain campus, offered intermittently on the Missoula College campus. Development of argumentation skills and critical judgment in decision-making and debate. Includes criticism, construction, presentation, and refutation of spoken and written arguments.

COMX 311 - Family Communication

Credits: 3. Offered yearly. Not open to PCOM. Prereq., COMX 115 or consent of instructor. An examination of communication in husband-wife, parent-child, and extended family relationships. Topics include intimacy, power, decision-making, problem solving, identity formation, and interpersonal perception.

COMX 312 - Forensics/Honors

Credits: 1 TO 3. (R-12) Offered every term. Preparation and participation in competitive speech and debate, including Lincoln/Douglas and Parliamentary debate. The team travels to regional competitions and hosts on-campus and intramural debates and speaking events. Up to 6 credits may apply toward a major or minor in communication studies.

COMX 343 - Persuasive Speaking and Critic

Credits: 3. Offered yearly. Prereq., COMM 111A or consent of instructor. Not open to PCOM. The persuasive process through the criticism and creation of speeches and other rhetorical artifacts emphasizing the role persuasion plays in creating and shaping our culture.

COMX 347 - Rhetoric Nature & Environmentlsm

Credits: 3. Offered every other year. Same as ENST 377. Not open to PCOM. Survey of rhetorical texts that shape public understanding of nature and environmental issues. Analysis of a range of historical and contemporary environmental texts using theoretical concepts from the rhetorical tradition. Course Attributes: Writing Course-Advanced

COMX 349 - Comm Consump & Climate

Credits: 3. Offered every other year. Same as CCS 349. Not open to PCOM majors. Analyzes consumption as a communication practice, investigates discourses that promote consumption, and illuminates environmental impacts on consumption.

COMX 351 - Principles of Public Relations

Credits: 3. Offered yearly. Not open to PCOM. The many uses of communication in the endeavor of public relations. Communication theories and models including interpersonal communication, organizational communication, and mass communication are applied to explore the internal and external communication behavior associated with public relations.

COMX 352 - Public Relations Portfolio

Credits: 3. Offered yearly. Not open to PCOM. Writing documents such as press releases, fact sheets, brochures and speeches to create relationships between organizations and their publics.

COMX 380 - Gender and Communication

Credits: 3. Offered yearly. Not open to PCOM. The meaning of gender in our culture. Examines how gender is displayed and perpetuated through social institutions such as the media and through our private and public verbal and nonverbal interactions.

COMX 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Not open to PCOM. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

COMX 398 - Internship

Credits: 1 TO 6. (R-6) Offered autumn and spring. Not open to PCOM. Prerequisite, consent of instructor. Extended classroom experience that provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (398, 498) may count toward graduation. Offered C/NCR only. Course Attributes: Internships/Practicums Internship graduation limit 6

COMX 412 - Communication and Conflict

Credits: 3. Offered autumn and spring. Not open to PCOM. Conceptual and practical discussions of communication and conflict in interpersonal relationships, organizational settings and overall cultural milieu. Topics include culture, power, styles, negotiation and bargaining, mediation, dissent, dispute systems, and crisis communication. Credit is not allowed for both COMM 413 and COMM 412.

COMX 413 - Comm & Conflict-Writing

Credits: 3. Offered yearly. Not open to PCOM. Conceptual and practical discussions of communication and conflict in interpersonal relationships, organizational settings and overall cultural milieu. Fulfills Upper-Division Writing requirement for Communication Studies majors. Credit is not allowed for both COMX 413 and COMX 412. Course Attributes: Writing Course-Advanced

COMX 414 - Comm in Personal Relationships

Credits: 3. Offered yearly. Prerequisite, COMX 115S or consent of instructor. Not open to PCOM. An examination of the functions, types, and historical context of close personal relationships with an in-depth study of the role of communication in friendships and romantic relationships. Course Attributes: Writing Course-Advanced

COMX 415 - Intercultural Communication

Credits: 3. Offered autumn and spring. Not open to PCOM. Communication principles and processes in cross-cultural environments. Non-Western cultures are emphasized by contrasting them to Western communication norms.

COMX 421 - Comm in Non-Profit Organizatns

Credits: 3. Offered yearly. Not open to PCOM. Focuses on issues in nonprofit organizational communication at macro and micro levels. Topics include: organizational identity, change processes, public relations, fund-raising,

advocacy, socialization, stress and burnout, board management and professionalization. Course Attributes: Writing Course-Advanced

COMX 422 - Communication and Technology

Credits: 3. Offered every other year. Not open to PCOM. This course takes a critical look at the influence of communication technologies on organizational communication. Students will examine how the world of work is changing due to new technologies and explore the social and ethical implications of technical innovation, adoption and use. Course Attributes: Writing Course-Advanced

COMX 423 - Org Comm Consult & Train

Credits: 3. Offered every year. Prerequisite, COMX 220S or consent of instructor. Not open to PCOM. Emphasis on the theoretical and practical issues involved in communication training and consultation. Overview of theoretical models followed by the "nuts and bolts" of communication training, development, and assessment. Students will carry out a training or consultation project (e.g., planning, execution, and evaluation) to sharpen the issues explored.

COMX 424 - Risk Crisis & Comm

Credits: 3. Offered every other year. Not open to PCOM. This course explores the communicative dynamics that both prevent and cause organizational crisis. Through case studies, the class examines how people plan, communicate and make good decisions in high-risk situations, as well as how to manage crisis public relations effectively. Course Attributes: Writing Course-Advanced

COMX 425 - Comm in Health Organizations

Credits: 3. Offered every other year. Not open to PCOM. This course explores the key issues at the intersection of health communication and organizational communication by considering communication processes that occur in a number of distinct contexts of health organizations. Through case studies and health campaigns students explore contemporary concerns and theory in the area of health communication.

COMX 445 - Rhetorical Criticism and Theor

Credits: 3. Offered yearly. Not open to PCOM. Introduction to study of rhetorical criticism and theory. Current theoretical and methodological issues and approaches including traditional criticism, experiential criticism, dramatism, narrative criticism, feminist criticism, postmodern criticism. Course Attributes: Writing Course-Advanced

COMX 447 - Rhetorical Constrctn of Woman

Credits: 3. Offered every other year. Not open to PCOM. Explores the rhetoric surrounding contemporary women's social "activism" in the U.S. Topics include women's rights, women's liberation, consciousness raising as a rhetorical form, reproductive rights, sexuality, and intersections between gender, race, and class. Course Attributes: Writing Course-Advanced

COMX 449 - Rhetoric of Women's Activism

Credits: 3. Offered every other year. Not open to PCOM. Explores the rhetoric surrounding contemporary women's social "activism" in the U.S. Topics include women's rights, women's liberation, consciousness raising as a rhetorical form, reproductive rights, sexuality, and intersections between gender, race, and class. Course Attributes: Writing Course-Advanced

COMX 460 - Research Methods

Credits: 3. Offered autumn and spring. Open only to majors in COMM. Prereq. grade of C- or better in EDU 421 or EDLD 486 or PSYX 222 or SOCI 202 or STAT 216. Introduction to the major types of communication research and the foundations of quantitative research methods.

COMX 461 - Communication Research Seminar

Credits: 1 TO 3. (R-9) Offered autumn and spring. coreq., COMX 460. Application of quantitative and qualitative research methods to specialized contexts. Emphasis on direct student involvement in research activities.

COMX 485 - Communication and Health

Credits: 3. Offered yearly. Not open to PCOM. Theory and research on the health correlates of human interaction.

COMX 491 - Special Topics

Credits: 1 TO 3. (R-9) Offered intermittently. Not open to PCOM. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

COMX 492 - Independent Study

Credits: 1 TO 9. (R-9) Offered every term. Prerequisite, consent of instructor. Offered C/NCR only.

COMX 510 - Sem Personal Relationships

Credits: 3. (R-6) Offered yearly. Examines theory and research on the process and functions of communication in personal relationship contexts. Interdisciplinary readings illuminates the dynamics of communication in the development, maintenance, and deterioration of romantic relationships, friendships, and family relationships. Discussion and assignments center around theoretical, methodological, and practical issues in research on communicative activities and events in personal relationships. Level: Graduate

COMX 511 - Survey Interpersonal Comm

Credits: 3. Offered every other year. Survey of theories and research in interpersonal communication including definitions of interpersonal communication, its place in the field of communication, and methodological issues. Overall emphasis on foundational readings and recent research developments. Level: Graduate

COMX 512 - Sem Comm Conflict

Credits: 3. (R-6) Offered intermittently. A review and discussion of current research regarding conflict in different levels and contexts of communication. Level: Graduate

COMX 514 - Alt Dispute Resolution

Credits: 3. Offered yearly. Same as LAW 614. A study of the varieties of dispute resolution vehicles outside the court process. Focus on a 40-hour component of practical skills training for the mediation practitioner. Topics include the mediation model, interest-based negotiation and effective communication. Level: Graduate

COMX 515 - Enviro Negotiation Mediation

Credits: 3. Same as NRSM 515 and ENST 515. This course prepares students to effectively engage in multiparty negotiation on natural resource and environmental issues. It is grounded in theory and provides an opportunity to develop practical skills in both negotiation and facilitation/mediation. Guest speakers, case studies, and simulations allow students to develop, test, and refine best practices. The course is face-paced, highly interactive, and serves as the second of three required courses in the Natural Resources Conflict Resolution Program. Level: Graduate

COMX 520 - Sem in Organiz Communication

Credits: 3. (R-6) Offered every other year. Introduction to theories and research in organizational communication. Topics include culture, networks, structure, technology, identity, power, resistance, gender, and globalization. Overall emphasis on foundational readings and recent research developments. Level: Graduate

COMX 540 - Sem Instructional Comm

Credits: 3. Offered every other year. Instruction in the theories, concepts, principles, and skills employed university level classroom communication and instruction. Level: Graduate

COMX 541 - Tchg the Basic Course

Credits: 2. (R-8) Offered autumn and spring. Prereq., consent of instr. Restricted to Communication majors only. Offered C/NCR only. Level: Graduate

COMX 555 - Sem Rhet Crit & Theory

Credits: 3. Offered annually. Introduction to contemporary issues in rhetorical criticism and theory. Methods reviewed include classical criticism, dramatism, close textual analysis, ideographic criticism, narrative criticism, feminist criticism, and postmodern criticism. Level: Graduate

COMX 561 - Qual Research Methods

Credits: 3. Offered every year. An emphasis on the philosophy and practice of qualitative inquiry, the development and use of descriptive frameworks, and gathering and testing qualitative data to develop human communication theory. Level: Graduate

COMX 572 - Family Law Mediation

Credits: 3. Offered autumn. Same as LAW 672. Interdisciplinary course on advanced mediation skills with a focus on family mediation including divorce and other types of family problems. Psychological issues for both children and parents, power balancing, gender issues and interest-based negotiation model. Level: Graduate

COMX 575 - Sem:Rhet&Env'l Controversy

Credits: 3. Offered every other year. Same as ENST 575. The study of how advocates use symbols to influence meaning and action in environmental controversies. Rhetorical theory is used to identify, analyze, and evaluate persuasive strategies and tactics. Level: Graduate

COMX 585 - Comm Across Sciences

Credits: 3. Offered yearly. Focus on communication practices that facilitate interdisciplinary interactions across the sciences and result in more competent communication. Offered only to graduate student trainees enrolled in the M-EID program. Level: Graduate

COMX 593 - Professional Paper

Credits: 1 TO 3. (R-6) Offered every term. Prereq., consent of instr. Preparation of a professional paper appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Faculty-Led Study Abroad

COMX 594 - Topical Seminar

Credits: 1 TO 2. (R-6) Offered intermittently. Prereq., consent of instr. A review and discussion of current research.

Topics vary. Level: Graduate

COMX 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

COMX 596 - Independent Study

Credits: 1 TO 9. (R-9) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Service Learning/Volunteer

COMX 599 - Thesis

Credits: 1 TO 9. (R-9) Offered every term. Prereq., consent of instr. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

Computer Science Department

Yolanda Reimer, Chair

The growing utility of computers in research and education, as well as the increased impact of computers on our modern society, strongly implies that knowledge of computers and their capabilities should be a part of the basic education of all students. The courses listed below are designed to provide the student with this knowledge and to prepare the student for a career in a field in which there is a growing need for trained personnel. The objective of the undergraduate curriculum in computer science is to develop professionally competent, broadly educated computer scientists who wish to pursue professional careers or graduate studies.

The B.S. program is accredited by the Computing Accreditation Commission of ABET (<http://www.abet.org>). For more information, access our homepage <http://www.cs.umn.edu> or email the chair at yolanda.reimer@umontana.edu.

High School Preparation: In addition to general University admission requirements, pre-college preparation should include as many computer science courses as possible, and four years of high school mathematics, to include algebra, trigonometry and pre-calculus. Also recommended are physics, chemistry and biology.

Admission Requirements

Admission to computer science courses varies according to course level and other departmental standards. However, students must have completed all prerequisite courses with a grade of at least a "C-".

Lower-Division Courses

Most 100- and 200-level courses are open on a first-come, first-served basis to all students who have the prerequisites.

Upper-Division Courses

Admission to 300-level or above courses requires successful completion of the prerequisites.

Major-Minor Status

Completed change of major forms along with college transcripts must be turned in to the department when declaring computer science as a major or minor.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: Major Subject: **Mathematical Sci-Computer Sci**

Total Credits: 73 Cumulative GPA Required: 2.0

The purpose of the combined program is to provide a thorough background in both allied disciplines and to inculcate a deeper understanding of their goals and methods. A student must complete 60 credits in the two disciplines: 30 of these credits in Computer Science courses and 30 of these credits in Mathematical Sciences courses. Each student plans a program in consultation with a Computer Science and a Mathematical Sciences advisor. Students planning to attend graduate school in computer science or the mathematical sciences should consult with their respective advisors.

Category Name: Mathematical Sciences Rule: Complete the following subcategories.

Criterion: Number of Credits 31

Course Listing Commentary:

Subcategory Name: Mathematical Sciences Core Rule: Complete all of the following courses.

Criterion: C- Number of Credits 19

Course Listing

M 171	Calculus I	4	F,S
M 172	Calculus II	4	F,S
M 221	Introduction to Linear Algebra	4	F,S
M 273	Multivariable Calculus	4	F,S
M 307	Intro to Abstract Mathematics	3	F,S

Commentary: The following substitutions are allowed: M 181 for M 171, M 182 for M 172, and M 225 for M 307.

Subcategory Name: Mathematical Sciences Electives Rule: Complete 12 credits from the following courses.

Criterion: C- Number of Credits 12

Course Listing

M 311	Ordinary Diff Equations/System	3	F
M 325	Discrete Mathematics	3	
M 326	Number Theory	3	S
M 361	Discrete Optimization	3	S

Course Listing

CSCI 315E	Computers, Ethics, and Society	3
CSCI 499	Senior Thesis/Capstone	1 To 6

M 429 History of Mathematics 3

M 499 Senior Thesis 1 To 12

Commentary: Any other approved Advanced College Writing course will also fulfill this requirement.

Commentary: Additional Requirements

Category Name: Suggested Curricula

Commentary: Students are encouraged to choose their Computer Science and Mathematical Sciences Electives according to one of the following curricula; these tracks are suggestions only and, as such, optional.

Applied Math–Scientific Programming: M 311, 412, 414, and one course chosen from M 381, 440, 472, 473 and STAT 341. Three courses chosen from CSCI 441, 444, 460, 477.

Combinatorics and Optimization–Artificial Intelligence: M 361, 362, and two courses chosen from M 325, 414, 485 and STAT 341; and CSCI 446, 447, and 460.

Statistics–Machine Learning: STAT 341, 421, and two courses chosen from M 325, 362, 485 and STAT 422. Three courses chosen from CSCI 340, 444, 446, 447, and 451.

Algebra–Analysis: M 381, 431, and two courses chosen from M 326, 432, 472, 473; CSCI 426, 460, and one other course.

College Humanities & Sciences

Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: Major Subject: **Computer Science: Interdisciplinary**

Total Credits: 87 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Computer Science Core Courses Rule: Must complete all of the following:courses

Criterion: C- Number of Credits 33

Course Listing

CSCI 106	Careers in Computer Science	1	F
CSCI 135	Fund of Computer Science I	3	F,S
CSCI 136	Fund of Computer Science II	3	F,S

PHSX 218N	Physics Laboratory II w/Calc	1	S
PHSX 343	Modern Physics	3	F
PHSX 444	Advanced Physics Lab 3	S	

Commentary: The Biology, Chemistry, or Physics sequence chosen to fulfill the science core may not count toward the science electives requirement. Laboratory courses must be taken in conjunction with their associated lecture course.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Minor Level: Minor Subject: **Computer Applications (Minor)**

Total Credits: 21 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Computer Science Fundamentals Rule: Take 1 or both of the following courses

Criterion: C- Number of Credits 3-6

Course Listing

CSCI 100	Intro to Programming	3
CSCI 135	Fund of Computer Science I	3

Commentary: Other Courses

Category Name: Computer Science Electives

Rule: Complete at least 1 and no more than 3 of the following courses

Criterion: C- Number of Credits 3-9

Course Listing

CAPP 171	Communicating via Computers	3
CSCI 105	Computer Fluency	3

CSCI 172	Intro to Computer Modeling	3
CSCI 181	Web Design and Programming	3
CSCI 250	Computer Mdlng/Science Majors	3

Commentary: Other Courses

Category Name: Degree Electives

Rule: May complete remaining degree credits from the following courses for a total of 21 degree credits Criterion: C-
Number of Credits 6-15

Course Listing

CSCI 135	Fund of Computer Science I	3
CSCI 136	Fund of Computer Science II	3
CSCI 191	Special Topics 0 To 6	
CSCI 205	Programming Languages w/ C/C++	4
CSCI 232	Data Structures and Algorithms	4
CSCI 291	Special Topics 1 To 6	
CSCI 391	Special Topics 1 To 6	
CSCI 444	Data Visualization	3
CSCI 491	Special Topics 1 To 6	

Commentary: Selection of CSCI 191, 291, 391, or 491 must be pre-approved by the advisor. CSCI 135 may not be counted toward 2 categories of requirements.

6 credits may be taken outside of the Computer Science department but must be pre-approved by the advisor.

Commentary: Degree Commentary

The minor in computer applications emphasizes use of applications such as programming languages, word processors, spreadsheets, and data bases in the management and manipulation of electronic information.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Minor Level: Minor Subject: **Computer Science (Minor)**

Total Credits: 21 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Computer Science Courses Rule: Must complete the following subcategories

Criterion: C- Number of Credits 18

Course Listing Commentary:

Subcategory Name: Fundamentals

Rule: Must complete all of the following courses

Criterion: Number of Credits 6

Course Listing

CSCI 135	Fund of Computer Science I	3
CSCI 136	Fund of Computer Science II	3

Subcategory Name: Minor Electives

Rule: Must complete 12 credits of electives

Criterion: C- Number of Credits 12

Commentary: In addition to the six credits of Fundamentals, students must select 12 credits of electives chosen from CS 181, CSCI 100, 250, 232, 205, 361 and courses numbered 300 and above with the restrictions: both CSCI 100 and 250 cannot be counted, and at least 6 credits of electives must be at the 300 level or above.

Commentary: Other Courses

Category Name: Mathematics

Rule: Must complete 3 credits of the following courses

Criterion: C- Number of Credits 3-6

Course Listing

M 115 Probability and Linear Math 3

M 121 College Algebra 3

M 122 College Trigonometry 3

M 151 Precalculus 4

Commentary: If M 121 is selected, it must be taken in conjunction with M 122 for a total of 6 credits.

Degree Commentary: The traditional minor in computer science emphasizes computer programming and related skills.

Department Faculty

Professor

- Ray Ford, Professor
- Joel Henry, Professor
- Jesse Johnson, Professor
- Yolanda Reimer, Professor

Associate Professor

- Douglas Raiford, Computer Science Department Chair, Bioinformatics, Modeling, Machine Learning, Pattern Recognition, Data Science

Assistant Professor

- Rob Smith, Assistant Professor
- Travis Wheeler, Assistant Professor

Lecturer

- Michael Cassens, Lecturer
- Mike O'Conner, Lecturer, Undergraduate Advisor

Emeritus

- Alden Wright, Emeritus Professor

Course Descriptions

Computer Applications

CAPP 171 - Communicating via Computers

Credits: 3. Offered every term. Prereq., previous computer experience or consent of instr. The use of the computer for information presentation and communication; emphasis placed on the use of electronic resources for the access, management, and presentation of information. Students taking CS classes with computer programming components should expect to use additional computer lab time outside of class.

Computer Science/Programming

CSCI 100 - Intro to Programming

Credits: 3. Offered autumn and spring. This course covers basic programming concepts such as variables, data types, iteration, flow of control, input/output, functions, and objects. The course will also cover programming ideas such as data structures, algorithms, modularity, and debugging. Students will learn about the role computation can play in solving problems by writing interesting programs to solve useful goals. No prior programming experience is expected. (Two hours independent lab per week.) Credit not allowed for both CSCI 100 and CSCI 110.

CSCI 104 - Programming with Alice

Credits: 1. Offered frequently. Classes are held for 2 hours/week in the first half of the semester. Introduction to object-oriented programming using a visual programming environment. Students create programs using drag-and-drop and these programs control animated on-screen characters and objects. Course is designed as a supplement to CSCI 135-136 which teaches object-oriented programming in a more traditional manner.

CSCI 105 - Computer Fluency

Credits: 3. Offered autumn and spring. Introduces the skills and concepts of information technology, both from practical and a more theoretical point of view. During lectures and interactive computer labs, students will explore a wide range of digital and information technologies, including common PC applications, networking, databases, privacy, and security. Credit not allowed for both CSCI 105 and CRT 111 and CS 111.

CSCI 106 - Careers in Computer Science

Credits: 1. Offered autumn. Exploration of various careers available in the general area of Computer Science. Includes discussion of strategies for success in the major. Computer Science faculty members also will discuss possible undergraduate research opportunities and motivation for graduate education.

CSCI 135 - Fund of Computer Science I

Credits: 3. Offered autumn and spring. Prereq., computer programming experience in a language such as BASIC, Pascal, C, etc.; CSCI 104 highly recommended as prereq. or coreq. Fundamental computer science concepts using the high level structured programming language, Java.

CSCI 136 - Fund of Computer Science II

Credits: 3. Offered autumn and spring. Prereq., CSCI 135; coreq., M 115 or M 151 or consent of instr. Continuation of CSCI 135. Survey of computer science topics including recursion, algorithms, basic data structures, operating systems, artificial intelligence, graphics, user interfaces, and social and ethical implications of computing.

CSCI 172 - Intro to Computer Modeling

Credits: 3. Offered autumn and spring. Problem solving and data modeling using computer productivity software. Emphasis using spreadsheets and database for data analysis. Credit not allowed for CSCI 172, CRT 172, and CS 172.

CSCI 181 - Web Design and Programming

Credits: 3. Electronic Publishing on the World Wide Web

CSCI 191 - Special Topics

Credits: 0 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Students taking CS classes with computer programming components should expect to use additional computer lab time outside of class.

CSCI 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Students taking CS classes with computer programming components should expect to use additional computer lab time outside of class.

CSCI 198 - Internship

Credits: 1 TO 6. Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements on and off campus. Prior approval must be

obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

CSCI 205 - Programming Languages w/ C/C++

Credits: 4. Offered spring. Prereq., CSCI 232 and M 225. Concepts and principles of programming languages with an emphasis on C, C++, and object-oriented programming. Syntax and semantics of object-oriented languages. Principles and implementation of late binding, memory allocation and de-allocation, type-checking, scope, polymorphism, inheritance.

CSCI 216E - Technology, Ethics & Society

Credits: 3. An examination of ethical issues related to new technologies in the context of ethical theory in the western secular tradition. Focus will be on applying central concepts, principles, and problems of ethical theory to particular areas of technology, such as artificial intelligence and robotics, social networks, nanotechnology, genetic engineering, and privacy in a digital age. Course Attributes: Ethical & Human Values Course Writing Course-Intermediate

CSCI 232 - Data Structures and Algorithms

Credits: 4. Offered autumn. Prereq., CSCI 136; prereq. or coreq., M 225 or consent of instr. Abstract data types, recursion, linked lists, trees, hashing, graphs, and applications of data structures in algorithm development. Emphasis on object oriented programming techniques.

CSCI 250 - Computer Mdlng/Science Majors

Credits: 3. Offered autumn. Prereq., basic computer and spreadsheet literacy; coreq., M 162 or 171. An introduction to computer modeling in the sciences using spreadsheets and a programming language. Integrates principles of math, computer science and science. A student can take at most one of CSCI 172, CSCI 250, CRT 280, and CRT 281 for credit.

CSCI 291 - Special Topics

Credits: 1 TO 6. (R-9) Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Writing Course-Lower-Division

CSCI 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

CSCI 298 - Internship

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements on and off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

CSCI 315E - Computers, Ethics, and Society

Credits: 3. Offered autumn. Prereq., WRIT 222 or university approved lower-division writing course and successful completion of the Upper-Division Writing Proficiency Assessment, or consent of instr. Ethical problems that computer scientists face. The codes of ethics of professional computing societies. The social implications of computers, computing, and other digital technologies. Course Attributes: Ethical & Human Values Course Writing Course-Advanced

CSCI 323 - Software Science

Credits: 3. Offered autumn. Prereq., CSCI 136. Study, implementation, and assessment of software processes, techniques, methods, and CASE tools. Project management and cost estimation techniques will be examined. A group project may be required.

CSCI 332 - Design/Analysis of Algorithms

Credits: 3. Offered spring. Prereq., CSCI 232 and M 225 or consent of instr. Algorithm design, analysis, and correctness. Commonly used algorithms including searching and sorting, string search, dynamic programming, branch and bound, graph algorithms, and parallel algorithms. Introduction to NP-complete problems.

CSCI 340 - Database Design

Credits: 3. Offered spring. Prereq., CSCI 232 or consent of instr. Fundamentals of data modeling, the relational mode, normal forms, file organization, index structures and SQL. Major project involving the design and implementation of a relational database.

CSCI 361 - Computer Architecture

Credits: 3. Offered spring. Prereq., CSCI 136 or consent of instr. Functional view of computer system components, BCPU, ALU, memory, bus, cache, I/O module. Instruction set design: formats, addressing modes. Basic circuit design. Pipelining and assembly language. Interrupt handling. Implementation of ALU and control unit. Detailed design of an RISC-like instruction set. Datapath and performance comparisons. Basic multiprocessor design.

CSCI 390 - Research

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student. Course Attributes: Research & Creative Schlrshp

CSCI 391 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., junior standing. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CSCI 392 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

CSCI 394 - Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Guidance in special work.

CSCI 398 - Internship

Credits: 1 TO 3. (R-3) Offered intermittently. Prereq., consent of department. Business or government internship. Prior approval must be obtained from faculty supervisor and the Internship Services office. Only three credits applicable to computer science major or minor. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

CSCI 411 - Advanced Web Programming

Credits: 3. Offered intermittently. Prereq., CSCI 136. Programming and software development techniques for developing web-based applications. Scripting and other programming languages that are used for web-based development.

CSCI 412 - Game and Mobile App

Credits: 3. Offered intermittently. Prereq., CSCI 232 and 323. Programming and software development techniques for developing gaming and mobile applications. Multiple gaming environments and mobile programming languages are introduced and examined to build modern applications.

CSCI 426 - Adv Prgrmng Theory/Practice I

Credits: 3. Offered autumn. Prereq., CSCI 205, 232, 323 and M 225, or consent of instr. Examination and implementation of modern best practices in the areas of software design, coding, testing and maintenance. Focus on design patterns and design pattern languages used to build modern software systems in a variety of areas.

CSCI 427 - Adv Prgrmng Theory/Practice II

Credits: 3. Offered spring. Prereq., CSCI 426. Design and implementation of a major software project in a group setting, with required documentation, presentation, installation, and approval by the instructor.

CSCI 438 - Theory of Computation

Credits: 3. Offered intermittently. Prereq., M 225 or M 307. This course focuses on understanding the limitations & capabilities of abstract models of computation, through rigorous mathematical analysis. Topics will include finite & pushdown automata, nondeterministic computation, regular expressions, generative grammars, Turing machines, undecidability, and computational complexity.

CSCI 441 - Computer Graphics Programming

Credits: 3. Offered intermittently. Prereq., CSCI 232 and M 221 or consent of instr. Hardware and software elements of graphics systems. Basic computer graphics algorithms for transformations, clipping, windowing and polygon filling. Straight line, circle generation. Parametrical representations of curves and surfaces. Three-D viewing. Hidden line and surface removal, shading and color models.

CSCI 443 - User Interface Design

Credits: 3. Offered intermittently. Prereq., CSCI 232 or consent of instr. Introduction to usability and key concepts of human behavior. Focus on the process of user-centered design, including requirements specification, prototyping, and methods of evaluation. Incorporation of regular design critiques of classmates' work, and emphasis on both oral and written communication skills. Credit not allowed for CSCI 543 and this course. Course Attributes: Co-Convened Course

CSCI 444 - Data Visualization

Credits: 3. Offered intermittently. Prereq., M 171; programming experience; and junior, senior, or graduate status; or consent of instr. Visualization fundamentals and applications using special visualization software; formulation of 3-D empirical models; translation of 3-D models into graphical displays; time sequences and pseudo-animation; interactive versus presentation techniques; special techniques for video, CD and other media.

CSCI 446 - Artificial Intelligence

Credits: 3. Offered intermittently. Prereq., M 225 or M 307, and CSCI 232, or consent of instr. Using computers and software to solve problems that require intelligence. Specific topics may include knowledge representation, logical and probabilistic reasoning, machine learning, planning, game playing, information retrieval, computer vision, and robotics.

CSCI 447 - Machine Learning

Credits: 3. Offered intermittently. Prereq., CSCI 232 or consent of instr. Introduction to the framework of learning from examples, various learning algorithms such as neural networks, and generic learning principles such as inductive bias, Occam's Razor, and data mining. Credit not allowed for both CSCI 447 and CSCI 547. Course Attributes: Co-Convened Course

CSCI 448 - Pattern Recognition

Credits: 3. Offered intermittently. Prereq., Junior or Senior status. Introduction to the framework of unsupervised learning techniques such as clustering (agglomerative, fuzzy, graph theory based, etc.), multivariate analysis approaches (PCA, MDS, LDA, etc.), image analysis (edge detection, etc.), as well as feature selection and generation. Emphasis will be on the underlying algorithms and their implementation. Credit not allowed for both CSCI 448 and CSCI 548. Course Attributes: Co-Convened Course

CSCI 451 - Computational Biology

Credits: 3. Offered Autumn. Designed for attendance by both computer scientists and biologists. The course will explore the importance of interdisciplinary partnerships between these two fields. Students will learn to use various existing computational tools for investigating genomic and other biological data. This will include tools for performing sequence alignments and searches, building phylogenetic trees, predicting RNA secondary structure, and predicting protein tertiary structure. The underlying algorithmic approaches taken by these tools will be discussed, and in some cases, actually implemented by the class participants. The course will examine the data repositories where genomic and other biological data are stored. There will be some light programming required using PERL as the language of choice. It is assumed that the class participants have no experience programming in PERL and will learn this skill as part of the course. Credit not allowed for CSCI 558 and this course. Course Attributes: Co-Convened Course

CSCI 460 - Operating Systems

Credits: 3. Offered autumn. Prereq., CSCI 232, or consent of instr. Operating system design principles. Processes, threads, synchronization, deadlock, memory management, file management and file systems, protection, and security, comparison of commonly used existing operating systems, writing programs that make use of operating system services. It is recommended, but not required, that the student also attend Programming Languages (in order to be prepared to write C programs) and Architecture (in order to understand interactions between the operating system and processor hardware) prior to attending this course.

CSCI 464 - Applications of Mining Big Data

Credits: 3. Offered intermittently. Prereq., upper division or consent of instr. Co-convenes with CSCI 564. Introduction to existing data mining software systems and their use, with focus on practical exercises. Topics include data acquisition, data cleansing, feature selection, and data analysis. Credit not allowed for both CSCI 464 and CSCI 564. Course Attributes: Co-Convened Course

CSCI 466 - Networks

Credits: 3. Offered spring. Prereq., CSCI 232. Concepts and practice of computer networking, network protocol layers, switching, routing, flow, and congestion control. Network programming.

CSCI 473 - Cryptography

Credits: 3. Prereq., CSCI 332 and either M 225 or M 307; or consent of instr. Theory and practice in modern cryptography. Statistical analysis of classical ciphers. Design practice of modern block ciphers and hash functions, and their theoretical justifications. Linear and differential cryptanalysis. Public-key cryptography based on number-theoretic problems. Zero-knowledge proofs and secure multi-party computation protocols. Credit not allowed for both CSCI 473 and CSCI 573.

CSCI 477 - Simulation

Credits: 3. Co-convene with CSCI 577. Prereq., M 172, CSCI 135, or consent of instr. Matrix languages. ODE solving; Euler-Richardson, Runge-Kutta, PDE solving; finite differences, finite elements, multi-grid techniques. Discrete methods for solution, renormalization group method, critical phenomena. Emphasis on presentation of results and interactive programs. Credit not allowed for CSCI 577 and this course. Course Attributes: Co-Convened Course

CSCI 478 - Multimedia Data Processing

Credits: 3. Offered intermittently. Prereq. CSCI 232 or consent of instr. Introduction to fundamental concepts of multimedia data. Focus on principles and techniques of multimedia data (image, audio, and video) processing and retrieval. Implementation of multimedia applications. Credit not allowed for CS 578 and this course. Course Attributes: Co-Convened Course

CSCI 480 - Applied Parallel Computing Techniques

Credits: 3. Prereq., CSCI 205 and 232, or instructor consent. This course is an introduction to parallelism and parallel programming. Topics include the various forms of parallelism on modern computer hardware (e.g. SIMD vector instructions, GPUs, multiple cores, and networked clusters), with coverage of locality and latency, shared vs non-shared memory, and synchronization mechanisms (locking, atomicity, etc). We will introduce patterns that appear in essentially all programs that need to run fast. We will discuss how to recognize these patterns in a variety of practical problems, discuss efficient algorithms for implementing them, and how to compose these patterns into larger applications. We will address computer architecture at a high level, sufficient to understand the relative costs of operations like arithmetic and data transfer. We also introduce useful tools for debugging correctness and performance of parallel programs. Assignments will include significant parallel programming projects. Co-convenes with CSCI 580. Credit not allowed for both CSCI 480 and CSCI 580. Course Attributes: Co-Convened Course

CSCI 490 - Research

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student. Course Attributes: Research & Creative Schlrshp

CSCI 491 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CSCI 492 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

CSCI 494 - Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Guidance in special work.

CSCI 498 - Internship

Credits: 1 TO 3. (R-3) Offered Intermittently. Prereq., consent of department. Business or government internship. Prior approval must be obtained from the faculty supervisor and the Internship Services office. Only three credits of CSCI 398 and/or CSCI 498 applicable to computer science major or minor. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

CSCI 499 - Senior Thesis/Capstone

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of thesis/project director and chair of the Computer Science Department. Senior thesis for computer science majors and/or Watkins scholars.

CSCI 521 - IT Infrastructure

Credits: 3. Offered infrequently. Prereq., CSCI 446 or IS 372 or consent of instr. Identification and classification of background environment, hardware, software, and service components in an enterprise IT environment; management and security concerns for each component; consideration of how the components fit together to form an enterprise information technology environment. Level: Graduate

CSCI 531 - Desgn & Anal Algorithms

Credits: 3. Offered intermittently. Prereq., CSCI 332. Algorithm design, analysis, and correctness, with an emphasis on more advanced techniques than covered in CS 332. Design of algorithms by induction. Recurrences and their solutions. Parallel algorithms. Complexity theory: NP-hard and NP-complete problems. Approximation algorithms for intractable problems. Level: Graduate

CSCI 543 - Human-Computer Interaction

Credits: 3. Offered intermittently. Prereq., CSCI 232 or consent of instr. Principles of good design for interactive systems and web-based applications. User-centered design methodology including requirements specification, low and high-fidelity prototyping, heuristic evaluation, cognitive walkthrough, predictive modeling, and usability testing. Advanced HCI research project. Credit not allowed for both CSCI 443 and CSCI 543. Level: Graduate Course

Attributes: Co-Convened Course

CSCI 547 - Machine Learning

Credits: 3. Offered intermittently. Prereq., CSCI 232 or consent of instr. Fundamentals of machine learning including neural networks, decision trees, Bayesian learning, instance-based learning, and genetic algorithms; inductive bias, Occam's razor, and learning theory; data mining; software agents. Credit not allowed for CSCI 447 and CSCI 547.

Level: Graduate Course Attributes: Co-Convened Course

CSCI 548 - Pattern Recognition

Credits: 3. Offered intermittently. Introduction to the framework of unsupervised learning techniques such as clustering (agglomerative, fuzzy, graph theory based, etc.), multivariate analysis approaches (PCA, MDS, LDA, etc.), image analysis (edge detection, etc.), as well as feature selection and generation. Techniques in exploratory data analysis when faced with large, multivariate datasets. Opportunities at implementation of some algorithmic approaches as well as use of preexisting tools such as the R-project statistics package. Emphasis will be on the underlying algorithms and their implementation. Credit not allowed for both CSCI 448 and CSCI 548. Level:

Graduate Course Attributes: Co-Convened Course

CSCI 555 - Topics Artificial Intelligence

Credits: 3. Offered intermittently. Prereq., M 225 or M 307, and CSCI 232, or consent of instr. The study and design of artificial intelligent agents. Specific topics may include knowledge representation, logical and probabilistic reasoning, machine learning, planning, game playing, information retrieval, computer vision, and robotics. Level: Graduate

CSCI 558 - Intro to Bioinformatics

Credits: 3. Offered autumn. Prereq., consent of instr. Introduction and use of biological data sources available in the post human genome project era. Topics include basic algorithms for alignment of genome sequences and prediction of protein structures, as well as more advanced representational and algorithmic issues in protein structure, genome sequence computation, and systems biology. Discussion of state of the art bioinformatics projects that are being developed between the Department of Computer Science and the School of Pharmacy.

Level: Graduate Course Attributes: Co-Convened Course

CSCI 564 - Applications of Mining Big Data

Credits: 3. Offered intermittently. Co-convenes with CSCI 464. Introduction to existing data mining software systems and their use, with focus on practical exercises. Topics include data acquisition, data cleansing, feature selection, and data analysis. Credit not allowed for both CSCI 464 and CSCI 564. Level: Graduate Course Attributes: Co-Convened Course

CSCI 565 - Database Systems

Credits: 3. Offered intermittently. Prereq., CSCI 205 and 340, or consent of instr. Relational database theory, data models, query languages, transaction processing, security, and concurrency. Level: Graduate

CSCI 573 - Cryptography

Credits: 3. Prereq., CSCI 332 and either M 225 or M 307; or consent of instr. Theory and practice in modern cryptography. Statistical analysis of classical ciphers. Design practice of modern block ciphers and hash functions,

and their theoretical justifications. Linear and differential cryptanalysis. Public-key cryptography based on number-theoretic problems. Zero-knowledge proofs and secure multi-party computation protocols. Credit not allowed for both CSCI 473 and CSCI 573. Level: Graduate

CSCI 577 - Simulation Modeling

Credits: 3. Co-convene with CSCI 477. Prereq., M 172, CSCI 135, or consent of instr. Matrix languages. ODE solving; Euler-Richardson, Runge-Kutta, PDE solving; finite differences, finite elements, multi-grid techniques. Discrete methods for solution, renormalization group method, critical phenomena. Emphasis on presentation of results and interactive programs. Conduct, document, and present graduate level research involving computer simulation methods. Credit not allowed for CSCI 477 and this course. Level: Graduate Course Attributes: Co-Convened Course

CSCI 578 - Multimedia Systems

Credits: 3. Offered intermittently. Prereq. CSCI 232 or consent of instr. Introduction to fundamental concepts of multimedia data. Focus on principles and techniques of multimedia data (image, audio, and video) processing and retrieval. Implementation of multimedia applications. Credit not allowed for CSCI 478 and this course. Level: Graduate Course Attributes: Co-Convened Course

CSCI 580 - Applied Parallel Computing Techniques

Credits: 3. Offered intermittently. Prereq., CSCI 232, 205. Parallel processing architectures and programming languages. Co-convenes with CSCI 580. Credit not allowed for both CSCI 480 and CSCI 580. Level: Graduate Course Attributes: Co-Convened Course

CSCI 594 - Graduate Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Seminar on current research topics in computer science. Level: Graduate

CSCI 595 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offering of current topics. Level: Graduate Course Attributes: Internships/Practicums

CSCI 596 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Service Learning/Volunteer

CSCI 597 - Research

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

CSCI 598 - Internship

Credits: 1 TO 9. (R-3) Offered intermittently. Prereq., consent of department. Business or government internship. Prior approval must be obtained from faculty supervisor and the Internship Services office. Only three credits applicable to computer science major or minor. Level: Graduate Course Attributes: Internships/Practicums

CSCI 599 - Thesis/Project

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Research for and preparation of the master thesis or professional paper. Level: Graduate

East Asian Studies

Undergraduate Degrees Available

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **East Asian Studies**

Total Credits: 44 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Lower Division Core Courses Rule: Complete the following subcategories

Criterion: Number of Credits 6

Course Listing Commentary:

Subcategory Name: Fundamentals

Rule: Must complete the following course

Criterion: C- Number of Credits 3

Course Listing

HSTR 240 East Asian Civilizations 3

Commentary: On occasion the Modern and Classical Languages department offers an alternative Introduction to East Asian Studies course which could fulfill this requirement. Check with the advisor.

Economics Department

Jeff Bookwalter, Chairperson

The department considers its teaching goals to be three-fold: (1) To present students with the basic theoretical tools of economic analysis, relevant facts and institutional material, which will assist them as civic leaders. (2) To introduce students majoring in economics to the various special fields of study within economics. This training, along with extensive work in the other liberal arts and sciences, is intended to instill breadth of intellectual interest, critical habits of thought, a problem-solving attitude and facility of expression. (3) To help meet, through graduate work, the increasing demands for competent professional economists in industry, commerce, government and education.

Courses cover general economic theory, environmental economics, monetary theory, international economics, public finance, labor economics, economic development, comparative economic systems, econometrics, and industrial organization.

Students major in economics leading to a Bachelor of Arts degree. Graduate work leads to a Master of Arts degree in economics (see Graduate School catalog).

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Economics**

Total Credits: 36 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Economics - Lower-division Core Rule: All courses are required.

Criterion: C- Number of Credits 6

Course Listing

ECNS 201S	Principles of Microeconomics	3
ECNS 202S	Principles of Macroeconomics	3

Commentary: Within the 36 credits the student must include ECNS 201S, 202S. Three credits of ECNS 101S may be counted toward the additional fourteen credits of upper-division economics courses if taken before attaining junior status.

Upper Division Core

Category Name: Economics - Upper-division Core Rule: All courses are required.

Criterion: C- Number of Credits 16

Course Listing

ECNS 301	Intermediate Micro with Calc	3	
ECNS 302	Intermediate Macroeconomics	3	
ECNS 403	Introduction to Econometrics	4	
ECNS 488	Res Meth & Thesis Design	2	F
ECNS 494	Senior Seminar	2	S
ECNS 499	Senior Thesis/Capstone	2	S

Commentary: Within the 36 credits the student must include ECNS 301, 302, 403, 488, 494, 499 and fourteen economics elective credits numbered 300 or above. ECNS 398 credits do not count toward the 36-credit requirement. The Upper-division Writing Expectation must be met by successfully completing the Senior Economics Thesis, ECNS 488 and 499.

Upper Division Electives

Category Name: Upper-division Electives

Rule: A minimum of fourteen credits of upper-division Economics electives is required; more credits may be taken.

Criterion: C-

Course Listing		Number of Credits	14

Course Descriptions

Economics

ECNS 101S - Economic Way of Thinking

Credits: 3. Offered autumn and spring. A critical examination of the market mechanism as a social decision-making device to guide the use of a nation's resources. The limitations of these processes in light of current economic problems such as the rise of the large corporation, monopoly, environmental degradation, economic discrimination and the increasing role of the government. Course Attributes: Social Sciences Course

ECNS 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ECNS 201S - Principles of Microeconomics

Credits: 3. Offered every term. The nature of a market economy, economic decisions of the household and firm, competition and monopoly, value and price determination, distribution of income and applied microeconomic topics. Course Attributes: Social Sciences Course

ECNS 202S - Principles of Macroeconomics

Credits: 3. Offered every term. Prereq., ECNS 201S. The determination of the level of national economic activity, inflation, economic instability, the role of money and financial institutions, and selected topics in public economic policy. Course Attributes: Social Sciences Course

ECNS 217X - Issues in Economic Development

Credits: 3. Offered intermittently. Prereq., ECNS 201S. Study of the processes of economic growth and development in the less developed world. Course Attributes: Indigenous and Global

ECNS 301 - Intermediate Micro with Calc

Credits: 3. Offered spring and autumn. Prereq., ECNS 201S and M 162 or equiv. Analysis of consumer behavior, production, factor pricing, externalities and public goods.

ECNS 302 - Intermediate Macroeconomics

Credits: 3. Offered autumn and spring. Prereq., ECNS 202S. Analysis of national income determination, unemployment, and inflation with emphasis on the role of fiscal and monetary policy.

ECNS 310 - Intro Health Economics

Credits: 3. Offered intermittently. Prereq., economics course. Survey of market forces that govern the production and consumption of medical care in the U.S. market; uncertainty, asymmetric information, and concentrations of market power resulting in inefficient outcomes. Topics include cost escalations, role of medical insurance, and problems of an aging population.

ECNS 312 - Labor Economics

Credits: 3. Offered intermittently. Prereq., ECNS 201S. Economic analysis of labor markets. Theories of wage determination, discrimination and poverty with implications for manpower policy.

ECNS 313 - Money and Banking

Credits: 3. Offered intermittently. Prereq., ECNS 202S. Definition and role of money; banks and other financial institutions as suppliers of money; the federal reserve system as a regulator of money; monetary theories, history, and policy.

ECNS 320 - Public Finance

Credits: 3. Offered intermittently. Prereq., ECNS 201S. Rationale for governmental expenditure; public goods; public choice. Analysis of expenditure policy. Intergovernmental relations.

ECNS 374 - Comparative Economics

Credits: 3. Offered intermittently. Prereq., ECNS 201S. Comparative analysis of alternative ideal types of economic organization stressing the assumptions and values used in their critique and defense. Capitalism, Socialism, Communism, Fascism.

ECNS 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ECNS 392 - Independent Study

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., six credits in economics and consent of instr. Course material appropriate to the needs and objectives of the individual student.

ECNS 398 - Internship

Credits: 1 TO 6. (R-6) Offered intermittently. Extended classroom experience that provides practical application of classroom learning during placements within the business community. The student must complete a learning agreement with a faculty member, relating the placement opportunity to his or her field of study. The department will determine the number of credits to be earned for the experience based upon the activities outlined in the learning agreement. Prior approval must be obtained from the faculty supervisor and the Internship Services office. The department has determined that credit for this course cannot count in the 36 credit minimum requirement for the major. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation.

Course Attributes: Internships/Practicums

ECNS 403 - Introduction to Econometrics

Credits: 4. Offered autumn. Prereq., an introductory statistics course. Quantitative methods in economics with emphasis on regression analysis.

ECNS 405 - Game Theory

Credits: 3. Offered every other autumn. Prereq., ECNS 201S. An introduction to the tools of game theory and how they are applied. In many real-world economic situations, outcomes are jointly determined where one agent's choices will affect another's welfare, and vice versa. Game theory provides a method of analyzing these economic situations where decisions are interrelated, and each agent recognizes this fact and thus makes decisions strategically.

ECNS 406 - Industrial Organization

Credits: 3. Offered intermittently. Prereq., ECNS 201S. The theoretical basis for public policy solutions to market power. Emphasis on case studies in matters of antitrust, regulation of public utilities, and public ownership of business enterprises.

ECNS 431 - International Trade

Credits: 3. Offered intermittently. Prereq., ECNS 301 or consent of instr. International trade: theory, policy, institutions, and issues. Analysis of comparative advantage and trade restrictions, negotiations, and agreements.

ECNS 433 - Economics of the Environment

Credits: 3. Offered intermittently. Prereq., ECNS 201S. Outlines a theoretical framework for the analysis of environmental problems, including concepts of market failure and externalities, materials balance and property rights. The policy implications of this analytical model are explored for a range of topics including pollution and the preservation of natural environments and species. Formally cross-listed with EVST 440. Course Attributes: Writing Course-Intermediate

ECNS 445 - Int Env Econ & Clim Change

Credits: 3. Offered autumn every other year. Same as CCS 445. Prereq., ECNS 201S. An introduction to the economics of various policy approaches towards climate change and other international environmental issues such as trans-boundary pollution problems, international trade and the environment and pollution haven hypothesis.

ECNS 450 - Adv. Topics in Economic Dev.

Credits: 3. Offered intermittently. Prereq., ECNS 201S and ECNS 202S, or consent of instructor. Advanced treatment of the processes of economic growth and development in the less developed world.

ECNS 451 - Behavioral and Experimental Economics

Credits: 3. Prereq., ECNS 201. An overview of experimental economics and behavioral economics. Outlines methods and instruments frequently used in economics experiments. Experimental design and assessment. Risk aversion, prospect theory, preference stability, and altruism.

ECNS 486 - Economic Research Seminar

Credits: 1 TO 15. (R-15) Offered intermittently. Prereq., consent of instr.

ECNS 488 - Res Meth & Thesis Design

Credits: 2. Offered autumn. Prereq., senior standing, economics major. Development of senior thesis proposal; presentation of research topics and methods by economics faculty and seminar participants. Course Attributes: Writing Course-Advanced

ECNS 491 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ECNS 492 - Independent Study

Credits: 1 TO 15. (R-15) Offered intermittently. Prereq., 12 credits in economics and consent of instr.

ECNS 494 - Senior Seminar

Credits: 2. Offered spring. Prereq., senior standing, economics major. Capstone course for economics majors. Advanced topics in economic methodology, theory and/or public affairs.

ECNS 499 - Senior Thesis/Capstone

Credits: 2. Offered spring. Prereq., senior standing, economics major. Completion of senior thesis; presentation of results by seminar participants.

ECNS 501 - Graduate Research

Credits: 1 TO 6. (R-6) Offered autumn and spring. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

ECNS 511 - Microeconomic Theory

Credits: 3. Offered autumn. Prereq., ECNS 301. Advanced theoretical treatment of consumer and producer behavior. Level: Graduate

ECNS 513 - Macroeconomic Theory

Credits: 3. Offered spring. Prereq., ECNS 302. Advanced theoretical treatment of national income determination, unemployment and inflation. Level: Graduate

ECNS 560 - Advanced Econometrics

Credits: 4. Offered spring. Prereq., ECNS 403. Advanced quantitative methods in econometrics. Coverage of probit-logit regression models, simultaneous equation system, and other specialized techniques. Level: Graduate

ECNS 569 - Empirical Research Design

Credits: 1 TO 3. (R-6) Offered every term. Role and scope of empirical research. Planning and conduct of a research project. Level: Graduate

ECNS 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

Course Attributes: Internships/Practicums

ECNS 596 - Independent Study

Credits: 1 TO 9. (R-9) Offered intermittently. Course material appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Service Learning/Volunteer
ECNS 598 - Internship

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of department. Extended classroom experience that provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. Level: Graduate Course Attributes: Internships/Practicums
ECNS 599 - Thesis

Credits: 1 TO 12. (R-9) Offered every term. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

English Department

Beverly Chin, Chair

The Department of English is among the oldest and most prestigious units at the University. As one of the campus's original departments, it offered some of the University's inaugural courses, including literature classes taught by UM's first president, Oscar J. Craig. In 1919, Rhodes Scholar H.G. Merriam inaugurated one of the first creative writing programs in the country. Now, more than a century old, this department offers a B.A. with options in Literature, Creative Writing, Teaching, Film Studies, and Linguistics, and graduate degrees in Creative Writing (M.F.A.), Literature (M.A.), and Teaching (M.A.). Our Composition program serves the entire University by offering the first-year composition requirement, as well as courses in advanced composition and graduate seminars in the teaching of writing. We have a relatively new minor in Irish Studies.

Admission Requirements

To be admitted to any option of the undergraduate English major, a student must satisfy the following requirements:

1. Completion of 24 credits overall with a minimum cumulative GPA of 2.5 or a GPA of 2.5 in the previous two terms.
2. Completion of at least nine credits in English, excluding WRIT (composition) courses, with a minimum GPA of 2.5 and no grade lower than a C (2.00) in those courses.

Students who intend to major in English but who have not yet met the above requirements are admitted to the program as pre-English majors. Pre-English majors will be assigned to the English department Academic Advisor. Before a student can graduate with a major in English, she or he must meet the requirements to become an English major and declare a specific option within the program.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: **English** Option: **Creative Writing**

Total Credits: 42 Cumulative GPA Required: 2.0

The Creative Writing program is predicated on the model of the workshop, and focuses on three areas of study: poetry, fiction, and nonfiction. Undergraduates who select the creative writing option fulfill some of the same requirements as those in literature, while also participating in a series of small writing workshops, gaining the

techniques needed to craft poetry and/or prose that work towards artistic excellence. Graduate students pursuing an M.F.A. degree complete a series of writing workshops and seminars designed to develop their creative work and expand their understanding of literary technique. The Creative Writing faculty is augmented each year by visiting Hugo and Kittredge fellows. The program sponsors the graduate literary magazine, CutBank, now in its fourth decade of publishing works of poetry, prose and art. Additionally, undergraduate students have the opportunity to contribute to and edit their own literary magazine, The Oval.

LIT 300	Literary Criticism	3	F,S
LIT 327	Shakespeare	3	F,S

Commentary: LIT 300 is the pre-requisite for most other 300- and 400-level LIT courses, including LIT 327. FILM 320 Shakespeare and Film substitutes for LIT 327 Shakespeare.

Commentary: LIT 300 is open only to English majors who have completed the Pre-English curriculum and have declared a major option.

Degree Specific Modern & Classical Languages

Category Name: Modern or Classical Language major requirement

Criterion: Pass Number of Credits 4-18

Course Listing

Commentary: Students may either take four sequential semesters (101, 102, 201, 202) of a modern or classical language or exemplify proficiency through examination (available through the Modern and Classical Languages and Literature Department).

Commentary: Degree Commentary

Upon successful completion of the Pre-English requirements, students must declare the English major and choose a degree option. English majors with the option in Creative Writing must earn 42-60 of their total credits in Department of English courses.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: **English** Option: **English Teaching**

Total Credits: 45 Cumulative GPA Required: 2.0

The English Teaching program provides content knowledge, pedagogy, and professional experiences required for teaching literacy in a democratic society. Based on current research and best practices, the English Teaching program integrates the study of language, literature, and media, creating learning communities and supporting

teachers as critical thinkers, creative problem solvers, and reflective practitioners. Students who successfully complete this option and the requirements from the College of Education receive both a B.A. in English teaching and a secondary teaching license (grades 5-12) in English. At the graduate level, the English Teaching program offers advanced theory and pedagogy courses, culminating in an M.A. in teaching. The English Teaching Program is also the home of the Montana Writing Project, which is dedicated to improving the teaching and learning of writing at all grade levels and offers a special focus on meeting the state-mandated Indian Education for All.

Individuals interested in teaching in K-12 schools must complete a degree in the content area they want to teach plus the teacher preparation program through the Department of Curriculum and Instruction. Individuals must complete the teaching major/teaching track within that degree program, which may contain different course requirements than the academic major since the sequence of courses is designed to meet state standards. Upon completion of the degree program with the teaching track and the secondary licensure program, one will be eligible for a standard Montana teaching license in this content area.

LIT 300	Literary Criticism	3	F,S
LIT 327	Shakespeare	3	F,S

Commentary: LIT 300 is the pre-requisite for most other 300- and 400-level LIT courses, including LIT 327. FILM 320 Shakespeare and Film substitutes for LIT 327 Shakespeare.

Commentary: LIT 300 is open only to English majors who have completed the Pre-English curriculum and have declared a major option.

Additional Requirements

Category Name: Teaching Licensure Requirements

Commentary: Students must be formally admitted to the Teacher Education Program and complete all of the professional education licensure requirements. See the Department of Curriculum and Instruction in the College of Education and Human Sciences for more information.

Degree Commentary

Upon successful completion of the Pre-English requirements, students must declare the English major and choose a degree option. English majors with the option in English Teaching must earn 45 of their total credits in Department of English courses and 128 credits overall. English Teaching students must also complete Secondary Licensure Requirements. Please refer to the Teaching Licensure Degree Level for requirements. A major GPA of 2.75 is required to be eligible for student teaching.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: **English** Option: **Linguistics**

Total Credits: 45 Cumulative GPA Required: 2.0

In conjunction with the Linguistics Program, English also offers an option in English Linguistics which provides a background in both literature. Students interested in Teaching English as a Second Language, which prepares students for the particular concerns of second-language acquisition and pedagogy, may pursue the Teaching English as a Second Language Certificate Program through the Anthropology Department. Please note that the Teaching English as a Second Language (ESL) Certificate Program is not a stand-alone route to licensure. For licensure requirements, refer to the College of Education section in this catalog.

Degree Specific Modern & Classical Languages

Category Name: Modern or Classical Language major requirement

Rule: Complete the 202-level proficiency in either a modern or classical language other than English Criterion: Pass
Number of Credits 4-18

Course Listing

Commentary: Students may either take four sequential semesters (101, 102, 201, 202) of a modern or classical language or exemplify proficiency through examination (available through the Modern and Classical Languages and Literature Department).

Commentary: Degree Commentary

Upon successful completion of the Pre-English requirements, students must declare the English major and choose a degree option. English majors with the option in Linguistics must earn 45-60 of their total credits in Department of English courses.

College Humanities & Sciences

Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: **English** Option: **Film Studies**

Total Credits: 45 Cumulative GPA Required: 2.0

In Film Studies, students receive a thorough introduction to the many facets of moving image culture, including a background in film history, theory, and aesthetics. In this interdisciplinary program, students are exposed to a broad array of national and international films, as well as filmic translations of well-known works of literature. Students analyze film from a variety of theoretical perspectives and become critical viewers of what is now one of the most predominant forms of cultural representation. Film Studies currently offers a minor for those students who wish to learn more in this discipline without committing fully to the degree program.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: **English** Option: **Literature**

Total Credits: 42 Cumulative GPA Required: 2.0

Under the Literature option, students ground their study in the reading and examination of works through a series of historically based surveys as well as other core courses, covering the techniques of literary analysis, the application of literary theory, and finally the development of a research project in a senior capstone. Students complement these core courses with a selection of electives that engage specific genres, authors, and periods, as well as different disciplines (e.g. Literature and the Environment) and literatures of diversity (e.g. Native American Literature). M.A. students select graduate seminars in American, British, and comparative literatures as well as other disciplines, their course work culminating in a research thesis or a portfolio of seminar papers revised in collaboration with a committee. The literature emphasis imparts an understanding of not only the aesthetic richness

of canonical and emerging literatures but also the historical and cultural forces that have contributed to their making. The classes are of a size that makes discussion very much a part of a student's experience.

Course Descriptions

Creative Writing

CRWR 115L - Montana Writers Live

Credits: 3. (R-6) Offered autumn. Open to all majors. An introduction to Montana's practicing creative writers and their work through reading, live performances and discussion. Regional poets and prose writers will read from their work and lead class discussion. Students prepare questions developed from readings and criticism. Course

Attributes: English Course Literary & Artistic Stds Crse

CRWR 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: English Course

CRWR 212A - Intro Nonfiction Workshop

Credits: 3. A study of the art of nonfiction through reading and responding to contemporary nonfiction and the writing of original nonfiction works. Focus is on creative expression, writing technique and nonfiction forms. Students begin with writing exercises and brief essays, advancing to longer forms as the semester progresses. Course Attributes:

Expressive Arts Course

CRWR 234 - The Oval: Literary Mag

Credits: 3. This course is open to undergraduates who have completed at least one semester of creative writing. Students focus on the editing, design, layout and marketing of The Oval, University of Montana's undergraduate literary magazine. Students will read, discuss and develop responses to to recongnized literary works, as well as developing criteria for each volume's content and design. The class will include the evaluation and selection of fiction, nonfiction, poetry and visual art submissions to The Oval. Students are required to keep a reading journal, and compile a portfolio of writing exercises, responses to texts and critiques of published works.

CRWR 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CRWR 310 - Intermediate Fiction Workshop

Credits: 3. (R-9) Offered autumn and spring. Prereq., completion of CRWR 210A with a "B" average or better. An intermediate fiction writing workshop. Students will be expected to finish 3 or 4 substantial stories for the course. Although some outside material will be considered, the primary emphasis will be analysis and discussion of student work. Course Attributes: English Course

CRWR 311 - Intermediate Poetry Workshop

Credits: 3. (R-9) Offered autumn and spring. Prereq., Completion of CRWR 211A with a "B" average or better. An intermediate workshop involving critical analysis of students' work-in-progress as well as reading and discussion of poems in an anthology. Numerous directed writing assignments, experiments, exercises focused on technical considerations like diction, rhythm, rhyme, and imagery. Course Attributes: English Course

CRWR 312A - Interm Nonfiction Workshop

Credits: 3. (R-9) Prereq., completion of CRWR 212A or CRWR 210A with a "B" average or better. An intermediate nonfiction workshop. Students read and respond to model essays, in addition to creating and revising original essays for workshop review. Assignments and exercises focus on writing craft and research techniques. Course

Attributes: English Course Expressive Arts Course

CRWR 320 - The Art and Craft of Revision

Credits: 3. (R-6) Offered spring. Prereq., CRWR 210A or consent of instr. An intermediate writing course focused on revision of prose works-in-progress and study of narrative, plot, and editing at the language level. Materials include craft manuals, contemporary and classic examples, and student manuscripts.

CRWR 322 - Techniques of Modern Essay

Credits: 3. Offered intermittently. Prereq., consent of instr. Study of various forms of nonfiction essay, such as memoir, personal essay, travel and nature writing, profile and literary journalism. Assignments and exercises focus on writing craft and research techniques.

CRWR 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: English Course

CRWR 398 - Internship

Credits: 1 TO 3. (R-9) Offered intermittently. Prereq., consent of faculty supervisor, department chair, and the Internship Services Office. Course Attributes: Internships/Practicums English Course

CRWR 410 - Advanced Fiction Workshop

Credits: 2 TO 3. (R-6) Offered autumn and spring. Prereq., consent of instr. An advanced writing workshop in which student manuscripts are read and critiqued. Rewriting of work already begun (in CRWR 310 classes) will be encouraged. Course Attributes: English Course

CRWR 411 - Advanced Poetry Workshop

Credits: 2 TO 3. (R-6) Offered autumn and spring. Prereq., consent of instr. An advanced writing workshop involving critical analysis of students' work-in-progress, as well as reading and discussion of poems by established poets. Discussions will focus on structure and stylistic refinement, with emphasis on revision. Different techniques, schools and poetic voices will be encouraged. Frequent individual conferences. Course Attributes: English Course

CRWR 412 - Advanced Nonfiction Workshop

Credits: 3. (R-6) Offered autumn and spring. Prereq., consent of instr. An advanced creative writing workshop focused primarily on reading and writing nonfiction; some classes may focus on personal essay, narrative nonfiction or short forms. Students complete two substantial essays. Course Attributes: English Course

CRWR 425 - Storytelling

Credits: 3. This course is open to both undergraduate and graduate students, and is not limited to English majors. In-class exercises and out-of-class assignments are designed to help students identify, develop, and demonstrate effective narrative practices in their chosen fields. Students learn to recognize and identify unifying themes, motifs, and ideas in literature and oral stories. Students will read, write, edit and present stories to the class, as well as providing a critique of their peers' work.

CRWR 491 - Special Topics

Credits: 1 TO 6. (R-6) Offered Intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: English Course

CRWR 492 - Independent Study

Credits: 1 TO 3. (R-9) Offered every term. Prereq., consent of instr. and department chair, and junior or senior standing. Special projects in creative writing. Only one 492 may be taken per semester. Course Attributes: English Course

CRWR 496 - Service Learning

Credits: 1 TO 3. (R-9) Offered every term. Prereq., consent of instr. and department chair, and junior or senior standing. Special projects in creative writing. Only one 496 may be taken per semester. Course Attributes: Service Learning/Volunteer English Course

CRWR 510 - Fiction Workshop

Credits: 1 TO 15. (R-15) Offered autumn and spring. Prereq., consent of instr. Level: Graduate Course Attributes: English Course

CRWR 511 - Poetry Workshop

Credits: 1 TO 15. (R-15) Offered autumn and spring. Prereq., consent of instr. Level: Graduate Course Attributes: English Course

CRWR 512 - Nonfiction Workshop

Credits: 1 TO 15. (R-15) Offered autumn and spring. Prereq., consent of instr. A creative writing workshop focused primarily on personal essay and narrative nonfiction. Attention given to writing and publishing professional magazine essays. Students complete two substantial essays. Level: Graduate Course Attributes: English Course

CRWR 513 - Techniques of Nonfiction

Credits: 1 TO 6. (R-6) Offered once every 2 years. Prereq., consent of instr. Study of form, technique and style in contemporary nonfiction. Level: Graduate

CRWR 514 - Techniques Modern Fiction

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Intensive reading of contemporary prose writers. Level: Graduate Course Attributes: English Course

CRWR 515 - Traditional Prosody

Credits: 3. Offered intermittently. Prereq., consent of instr. Intensive practice and readings in prosodic and other poetic techniques. Level: Graduate Course Attributes: English Course

CRWR 516 - Topics in Creative Writing

Credits: 3. (R-9) Offered intermittently. Creative Writing faculty explore readings in their genres of specialty. Each professor chooses the focus, reading list, and assignments for the course. Level: Graduate Course Attributes: English Course

CRWR 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums English Course

CRWR 596 - Graduate Independent Study

Credits: 1 TO 9. (R-9) Offered every term. Prereq., consent of instr. and Associate Chair. Special projects in creative writing. Only one 596 permitted per semester. Level: Graduate Course Attributes: Service Learning/Volunteer English Course

CRWR 599 - Thesis

Credits: 1 TO 12. (R-12) Offered every term. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate Course Attributes: English Course

English - Linguistics

ENLI 465 - Structure of Eng for Tchrs

Credits: 3. Offered intermittently. Same as LING 465. The development of the English language from a historical perspective contrasted with the phonological and grammatical structure of English from a modern linguistic point of view, specifically designed for teachers. Course Attributes: English Course

English as a Second Language

ENSL 195 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: English Course

English - English Teaching

ENT 296 - Independent Study

Credits: 1 TO 3. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ENT 395 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: English Course

ENT 398 - Internship

Credits: 1 TO 3. Offered intermittently. Prereq., consent of faculty supervisor, department chair, and the Internship Services office. Extended classroom experience which provides practical application of classroom learning during placements off campus. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: English Course Internship graduation limit 6

ENT 439 - Studies in Young Adult Lit

Credits: 3. Offered autumn. Reading of representative texts covering the history, genres, authors, and themes of literature for students in middle school and high school. Course Attributes: English Course

ENT 440 - Teaching Writing

Credits: 3. Offered autumn and spring. Prereq./co-req., EDU 220 and admission to Teacher Education Program. Emphasis on teaching writing in grades 5-12. Research about development and maturity of writers, overview of schools of writing/history of writing instruction, strategies for teaching writing as a process, elements of writing craft, criteria for assessing and responding to writing, peer-coaching methods, writing/reading workshops, the role of grammar in improving writing, writing/reading connections, assignment characteristics, and grading practices.

Required of students pursuing secondary English major and minor teaching certificates. Course Attributes: English Course

ENT 441 - Tchg Rdng & Literature

Credits: 3. Offered autumn and spring. Prereq./Coreq., ENT 439, EDU 395, admission to Teacher Education Program, and consent of instr. Emphasis on various approaches to teaching reading and literature in grades 5-12. Research about the development and maturity of readers, strategies for teaching reading comprehension and vocabulary, strategies for diagnosing reading abilities and criteria for reading assessment, reading workshops/literature circles. Emphasis on various approaches to teaching literature: genre, inquiry, thematic, chronological and interdisciplinary. Includes techniques for developing responses to fiction, nonfiction, prose, poetry, film and other media. Focus on the design of lesson plans and curriculum using traditional/classic, contemporary, young adult, and multicultural literature in grades 5-12. Required of students pursuing secondary English major and minor teaching certificates. Course Attributes: English Course

ENT 442 - Tchg Oral Lang & Media Lit

Credits: 3. Offered autumn and spring. Prereq./co-req., LING 465, EDU 395, admission to Teacher Education Program, and consent of instr. Emphasis on preparation, implementation, and evaluation of teaching strategies and materials in grades 5-12. Includes learning objectives, teaching styles, unit plans, print and non-print media, and creative drama. Explores student-centered curriculum, with emphasis on developmental abilities in speaking, listening and viewing, and multigenre/multimodal communication. Teaching majors and minors in areas other than English should enroll in ENT 440. Course Attributes: English Course

ENT 495 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: English Course

ENT 496 - Independent Study

Credits: 1 TO 3. (R-9) Offered every term. Prereq., consent of instr. and department chair, and junior or senior standing. Special projects in English teaching. Only one 496 may be taken per semester. Course Attributes: English Course

ENT 542 - Theor/Pedagog of Rhet/Comp

Credits: 3. Offered intermittently. Exploration of contemporary theories and practical strategies for teaching rhetoric and composition grades 5-16. Level: Graduate Course Attributes: English Course

ENT 543 - Adv Tchg Strat Yng Adv Lit

Credits: 3. Offered intermittently. Prereq., teaching experience or senior standing (3.0 GPA and petition) with consent of instr. Selecting, reading, teaching, and evaluating young adult literature. Design of thematic units with emphasis on students' responses to literature. Presentation of multicultural literature, gender inquiry, social justice, censorship, and media issues. Level: Graduate Course Attributes: English Course

ENT 544 - Creat Drama English Class

Credits: 3. Offered intermittently. Prereq., teaching experience, or senior standing (3.0 GPA and petition) with consent of instr. Designing, teaching and evaluating creative drama in the English language arts classroom. Emphasis on using creative drama as a learning strategy to teach literature and all the language arts. Level: Graduate Course Attributes: English Course

ENT 545 - Theor/Pedagog of Literacy

Credits: 3. Offered intermittently. Exploration of contemporary theories and practical strategies for teaching literacy grades 5-16. Level: Graduate Course Attributes: English Course

ENT 546 - Literary Crit for Teachers

Credits: 3. Offered intermittently. Prereq., teaching experience or senior standing (3.0 GPA and petition) with consent of instr. Emphasis on a variety of theories which focus on reader responses. Application of theories to prose and poetry genres. Level: Graduate Course Attributes: English Course

ENT 547 - Adv Tchg Strat Wrtg & Rdg

Credits: 3. Offered intermittently. Prereq., teaching experience, or senior standing (3.0 GPA and petition) with consent of instr. Current research and best practices in teaching writing and reading in all content areas. Emphasis on writing and reading processes, workshops, conferences and portfolios. National and state standards, curriculum, and assessments in writing and reading are addressed. Level: Graduate Course Attributes: English Course

ENT 548 - Portfolios and Assessment

Credits: 3. Offered intermittently. Prereq., teaching experience, or senior standing (3.0 GPA and petition) with consent of instr. Selecting, designing, and evaluating informal and formal assessments in English Language Arts. Exploration of portfolios as assessment strategies that align standards curriculum and instruction. Focus on content and performance standards, evaluation criteria and rubrics, and role of reflection in teaching and learning. Level: Graduate Course Attributes: English Course

ENT 550 - Montana Writing Project

Credits: 9. Offered summer. Prereq., special application and consent of director. Intensive, four-week program designed to increase the effectiveness of the teaching and learning of writing in all levels of education in Montana. For graduate students, K-12 teachers in all content disciplines and university level educators. Level: Graduate Course Attributes: English Course

ENT 552 - MWP Leadership Training

Credits: 7. Offered intermittently Prereq., ENT 440, special application, and consent of director. Intensive leadership training for Montana Writing Project teacher-consultants in responding to peer writing, organizing professional development institutes, honing strategies for curriculum development and institute design to provide professional development statewide that increases the effectiveness of teaching and learning of writing in all levels of education, pre-20. Level: Graduate Course Attributes: English Course

ENT 553 - Native Voices & Writing

Credits: 7. Offered summer at Blackfeet Community College. Focus is on writing across the curriculum in the context of participants' teaching assignments alongside the essential component of Niitsitapi (Blackfeet) culture and ways of knowing. Participants develop a theoretical articulation of what it means to write in their disciplinary area(s) of endorsement and with predominantly Blackfeet students. Participants design and critique writing curriculum and instruction in their disciplines with attention to theory and research on writing in the content areas and Blackfeet ways of knowing. Level: Graduate

ENT 556 - IEFA & Writing

Credits: 3. Offered intermittently in partnership with Montana Writing Project and local school districts. Consent of instr. This course assumes that writing is an ideal vehicle for moving forward with implementation of Montana law Indian Education for All (IEFA) in K-12 schools. The primary goal of this course is to help teachers of all grade levels and content areas develop the knowledge, resources, and confidence to enable them to integrate IEFA smoothly into their existing literacy curriculum. Level: Graduate

ENT 557 - The Holocaust and IEFA

Credits: 3. Consent of Instr. This course, intended for K-12 and college/university educators, is a collaboration between Montana Writing Project and the Holocaust Educators' Memorial Library in New York City to examine curricula and pedagogies for linking Nazi Holocaust Education and Indian Education for All through writing and literacy education. Level: Graduate

ENT 593 - Professional Paper

Credits: 1 TO 4. (R-4) Offered intermittently. Pedagogical paper for the Master of Arts (Teacher Option). Credit not allowed toward any other degree. Level: Graduate Course Attributes: English Course

ENT 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., teaching experience or senior standing (3.0 GPA and petition) with consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: English Course

ENT 596 - Graduate Independent Study

Credits: 1 TO 9. (R-9) Offered every term. Prereq., consent of instr. and department chair. Special projects in English teaching. Only one independent study permitted per semester. Level: Graduate Course Attributes: English Course

ENT 598 - Internship

Credits: 1 TO 3. (R-9) Offered intermittently. Prereq., consent of faculty supervisor, department chair, and the Internship Services office. Extended classroom experience which provides practical application of classroom learning during placements off campus. Level: Graduate Course Attributes: English Course

ENT 599 - Thesis

Credits: 1 TO 6. (R-6) Offered every term. Level: Graduate

Film

FILM 103L - Introduction to Film

Credits: 3. Offered every term. The history and development of the film medium. Emphasis on critical analysis of selected classic or significant films. Course Attributes: Literary & Artistic Stds Crse

FILM 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

FILM 291 - Special Topics

Credits: 1 TO 6. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

FILM 300 - History of Film

Credits: 3. Offered every year. Prereq., FILM 103L, LIT 270L. Survey of film history.

FILM 320 - Shakespeare and Film

Credits: 3. Same as LIT 327. Offered once a year. Prereq., LIT 300 or consent of instr. A survey of selected Shakespeare plays emphasizing close reading of the texts and consideration of their dramatic possibilities in relation to film. Course Attributes: Writing Course-Intermediate

FILM 327 - Film Genres

Credits: 3. (R-9) Offered every other year. Prereq. FILM 103L. Intensive study of central works within one major film genre.

FILM 363 - The French Cinema

Credits: 3. Offered intermittently. An historical, aesthetic, and critical survey of the French cinema, from its beginnings in 1895 through the contemporary cinema (Muet, classical, Realism, Nouvelle Vogue, etc.) with an introduction to contemporary film criticism. Students taking the course for French credits are required to do research, reading, and writing in the French language.

FILM 365 - Latin Amer Civ Thru Lit & Film

Credits: 3. Offered in autumn odd-numbered years. The development of the traditional society of Latin American civilization through the interaction of European, Indian and African elements.

FILM 381 - Studies in the Film

Credits: 3. (R-9) Offered autumn and spring. Prereq., FILM 103L or consent of instr. Studies in genres, directors, movements, problems, etc.

FILM 391 - Special Topics

Credits: 1 TO 9. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

FILM 447 - Film Theory

Credits: 3. Offered yearly. This course examines key approaches to film theory and criticism, and the theoretical roots of each. Classic and contemporary films will be assessed in the light of the theories covered.

FILM 481 - Advanced Studies in Film

Credits: 3. (R-9) Offered every other year. Studies in film aesthetics, politics of film, international cinema and comparative film analyses.

FILM 484 - Film Directors

Credits: 3. (R-9) Offered every year. Prereq. FILM 103L. Intensive study of the life and work of one major film director.

FILM 491 - Special Topics

Credits: 1 TO 9. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics

FILM 492 - Independent Study

Credits: 1 TO 9. (R-9) Offered every term. Prereq., consent of instr. and department chair, and junior or senior standing. Special Projects in film. Only one 492 may be taken per semester.

FILM 495 - Practicum

Credits: 1 TO 6. R-6

FILM 596 - Independent Study

Credits: 1 TO 9. (R-9) Offered every term. Prereq., consent of instr. and department chair. Special projects in film.

Level: Graduate

Irish

IRSH 101 - Elementary Irish/Gaelic

Credits: 3. Offered autumn or spring. Same as ENIR 101. This course represents an introduction to modern Irish in both its spoken and written forms: basic principles of grammar and sentence structure are covered. Emphasis is placed on the application of these principles in every-day situations. This course is housed in the English Department. The GenEd Foreign Language requirement can be fulfilled by successful completion of 101, 102 and 103. Course Attributes: Foreign Language Requirement

IRSH 102 - Elementary Irish II

Credits: 3. Offered autumn or spring. Same as ENIR 102. The primary objective of this course is to build on the foundations laid in Elementary Irish I. Students will expand their vocabulary with a special focus on verbs; they will also engage new themes that demand a corresponding increase in their store of nouns, adjectives, idioms and expressions. This course is housed in the English Department. The GenEd Foreign Language requirement can be fulfilled by successful completion of 101, 102 and 103. Course Attributes: Foreign Language Requirement

IRSH 103 - Elementary Irish III

Credits: 3. Offered autumn or spring. Same as IRSH 103. The primary objective of this course is to build on the foundations laid in Beginning Irish I. Students will expand their vocabulary with a special focus on verbs; they will also engage new themes that demand a corresponding increase in their store of nouns, adjectives, idioms and expressions. The GenEd Foreign Language requirement can be fulfilled by successful completion of 101, 102 and 103. Course Attributes: Foreign Language Requirement

IRSH 201 - Intermediate Irish I

Credits: 3. Offered spring semester. Prereq. ENIR 101, 102, and 103 or their equivalent from another university. Students will continue their study of the verbs; engage more complex syntax and grammatical constructions; and consult the prose and poetry of the written and oral literary traditions. For proficiency equal to the 202-level, students must take the five semester sequence (101, 102, 103, 201, & 202) of Irish language study.

IRSH 202 - Intermediate Irish II

Credits: 3. Offered fall semester. Prereq. IRSH 201 or its equivalent from another university. Students will expand their knowledge of Irish language verbs: they will study the five declensions of the nouns; and acquire the vocabulary and language necessary to engage more abstract ideas and topical issues on an intellectual level. For proficiency equal to the 202-level, students must take the five semester sequence (101, 102, 103, 201, & 202) of Irish language study.

IRSH 345L - Literature in the Irish Lang

Credits: 3. Offered intermittently. This course acknowledges Irish as the oldest documented vernacular in Europe and its literature as a voice that is over 1500 years old. Examines the literary response of Gaelic Ireland to invasion, conquest, and colonization as articulated by its literature. Course Attributes: Literary & Artistic Stds Crse

IRSH 360 - Irish/N Irish Literature

Credits: 3. Offered intermittently. Examines (in English) selection of fiction, poetry, drama, film, and music from the Irish and/or Northern Irish literary traditions. Students will seek to understand how artists respond to the burdens of history, identity, and political conflict, and how they articulate the possibilities afforded by Ireland's changing position in the world.

IRSH 380 - Topics in Irish Studies

Credits: 3. Offered intermittently. A rotating variety of special topics in Irish Studies, including Irish and Irish-American cinema, major Irish/N. Irish authors, Irish cultural studies, and transatlantic and comparative studies.

IRSH 391 - Special topics

Credits: 1 TO 6. (R-9) Offered intermittently. Experimental offerings of visiting professors, new courses, or one-time offerings of current topics;

IRSH 492 - Independent Study

Credits: 1 TO 3. (R-9) Offered intermittently. Experimental offerings of visiting professors, new courses, or one-time offerings of current topics;

English - Literature

LIT 110L - Intro to Lit

Credits: 3. Offered every term. Study of how readers make meaning of texts and how texts influence readers. Emphasis on interpreting literary texts: close reading, critical analysis and effective writing. Course Attributes: English Course Literary & Artistic Stds Crse Writing Course-Intermediate

LIT 120L - Poetry

Credits: 3. Offered every term. An introduction to the techniques of reading and writing about poetry with emphasis on the lyric and other shorter forms. Course Attributes: English Course Literary & Artistic Stds Crse Writing Course-Intermediate

LIT 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: English Course

LIT 201 - Intro to Literary Studies

Credits: 3. Offered every term. Introduction to the field of literary studies, to the conventions of literary analysis, and to the literature option for English majors. Reading, writing, and research skills will be stressed, along with interpretative approaches to major genres within the field.

LIT 202 - The Environmental Imagination

Credits: 3. Course is designed to introduce students to the many discourses of nature. In this course we will approach "natural history" as a complex literary genre grounded in personal experience of the "more-than-human" world (in David Abram's now ubiquitous phrase). While the study of natural history writing has historically focused on authors like Gilbert White, Henry David Thoreau, John Muir, and John Burroughs (as prominent practitioners of the personal narrative essay that explores the natural world), a more thorough understanding of the genre requires consideration of the role race, class, and gender play in shaping discourses of nature. Further, consideration of non-Anglo-American traditions (including, for example, a range of Native American and Asian "literary" practices) expands our understanding of those traditions as it allows us to see the Anglo-American tradition in useful perspective.

LIT 210L - American Lit I

Credits: 3. Offered every term. Representative texts from the pre-colonial period through the Civil War. Course Attributes: English Course Literary & Artistic Stds Crse Writing Course-Intermediate

LIT 211L - American Lit II

Credits: 3. Offered every term. Representative texts from the Civil War to the present. Course Attributes: English Course Literary & Artistic Stds Crse Writing Course-Intermediate

LIT 220L - Brit Lit: Med to Renaissance

Credits: 3. Offered every term. Representative texts from the Anglo-Saxon period through the Renaissance. Course Attributes: Literary & Artistic Stds Crse Writing Course-Intermediate

LIT 221L - Brit Lit: Enlightenment to Rom

Credits: 3. Offered every term. Representative texts from the seventeenth through the eighteenth century. Course Attributes: Literary & Artistic Stds Crse Writing Course-Intermediate

LIT 222L - Brit Lit: Victorian to Contemp

Credits: 3. Offered every term. Representative texts from the early nineteenth century to the present. Course Attributes: Literary & Artistic Stds Crse Writing Course-Intermediate American and European

LIT 270L - Film & Lit

Credits: 3. (R-6) Offered intermittently. Studies of the relationship between film and literature. Topics vary. Course Attributes: English Course Literary & Artistic Stds Crse

LIT 280L - Ecology of Literature

Credits: 3. Literary study of nature writing and other genres introducing an ecocritical perspective, with revolving Anglophone texts.

LIT 291 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

LIT 300 - Literary Criticism

Credits: 3. Offered every term. Prereq. or coreq., 12 credits of lower-division English courses. Study of various literary theories and their application to literary texts. Course Attributes: English Course Writing Course-Advanced

LIT 301 - Studies in Literary Forms

Credits: 3. (R-9) Offered intermittently. Prereq., LIT 300 or consent of instr. Reading of various authors from different literary periods and cultures working in the same mode of composition (courses offered under this rubric may include Literature of Place, Modern Drama, 19th Century Fiction, 20th Century Fiction, Lyric Poetry, Science Fiction, Autobiography; less frequently, Travel Literature, Popular Fiction, Epic, Tragedy, Satire, Romance, Comedy).

Course Attributes: English Course

LIT 304 - U.S. Writers of Color

Credits: 3. Offered intermittently. Prereq., LIT 300 or consent of instr. Selected readings from African American, Asian American, Chicano/a, Latino/a, and Native American literatures. Course Attributes: Writing Course-Advanced

LIT 305 - Lit by & About Native Amer

Credits: 3. Offered autumn. Prereq., three credits of lower-division LIT courses and NASX 105H or 235X. Same as NASX 340. Selected readings from Native American literature with special emphasis on the literature of writers from the Rocky Mountain west. Course Attributes: English Course

LIT 314 - The American Novel

Credits: 3. Offered intermittently. Prereq., LIT 210L or 211L and prereq. or co-req., LIT 300. Examination of a selection of American novels in their historical, cultural, and literary contexts. Exploration of literary movements such as realism, naturalism, modernism, and postmodernism. Discussion of critical theories and application to the texts.

Course Attributes: English Course Writing Course-Advanced

LIT 315 - Voices of the Am Renaissance

Credits: 3. Offered intermittently. Prereq., LIT 210L or 211L and LIT 300 or consent of instr. Perspectives on antebellum Native American, African American, and gender issues. Study of the poetry of Walt Whitman and Emily Dickinson in light of these three perspectives. Course Attributes: English Course

LIT 316 - Topics in Postcolonial Lit

Credits: 3. Offered intermittently. Prereq., LIT 210L or 211L and LIT 300. Course Attributes: English Course Writing Course-Advanced

LIT 327 - Shakespeare

Credits: 3. Offered autumn and spring. Prereq., LIT 300 or consent of instr. A survey of selected Shakespeare plays emphasizing close reading of the texts and consideration of their dramatic possibilities. Course Attributes: English Course Writing Course-Advanced

LIT 331 - Major Author/s

Credits: 3. (R-9) Offered intermittently. Prereq., LIT 300 or consent of instr. Intensive study of the life and works of one author writing in English (courses offered under this rubric have included Chaucer, Milton, Faulkner, Joyce, Twain; less frequently, Conrad, Hemingway, Blake, Woolf, D.H. Lawrence, Welty). Course Attributes: English Course

LIT 332 - Topics in Modernism

Credits: 3. Offered intermittently. Prereq., LIT 300 or consent of instr. An introductory study of European and American modernism. Detailed exploration of major modernist novels and/or poems in relation to broader cultural and social contexts. Course Attributes: English Course

LIT 335 - Women & Lit

Credits: 3. Offered intermittently. Prereq., LIT 300 or consent of instr. Same as WGS 336. Study of the work of women writers through a progression of 19th century literary forms: the cautionary seduction novel, the sentimental and domestic novel, realism, naturalism, and utopianism. Course Attributes: English Course

LIT 342 - Montana Writers

Credits: 3. Offered intermittently. Prereq., LIT 210L or 211L. Examination of poems, stories, and novels by or about Montanans and the treatment and representation of race, place, class, gender, sexuality, and identity in Montana. Exploration of the myths and realities of Montana and the American West. Course Attributes: Writing Course-Advanced

LIT 343 - African American Lit

Credits: 3. Offered intermittently. Prereq., LIT 300 or consent of instr. Selected works by African-American authors. Course may define a narrowed focus such as poetry, women writers, etc. Course Attributes: English Course Writing Course-Advanced

LIT 349L - Medieval Lit

Credits: 3. Offered alternate years. Prereq., LIT 300 or consent of instr. Exploration of literature from the medieval period, focusing on the major cultural and intellectual influences on the emergence of vernacular writing. Topics will vary, but will regularly include Anglo-Saxon literature and Middle English literature (excluding Chaucer). Course Attributes: English Course Literary & Artistic Stds Crse

LIT 350L - Chaucer

Credits: 3. Offered alternate years. Critical reading of Chaucer's masterpiece, the Canterbury Tales, with attention to Chaucerian irony, the author's place in literary history, and issues in Chaucer studies. Course Attributes: English Course Literary & Artistic Stds Crse

LIT 351 - Donne & His Followers

Credits: 3. Offered alternate years. Prereq., LIT 300 or consent of instr. Close study of John Donne and other early 17th century religious poets within the context of Renaissance intellectual history. Course Attributes: English Course

LIT 353L - Milton

Credits: 3. Offered alternate years. Prereq., LIT 300 or consent of instr. Selected study of poetry and prose of Milton. Course Attributes: Literary & Artistic Stds Crse Writing Course-Advanced

LIT 355 - British Romanticism

Credits: 3. Offered alternate years. Prereq. or co-req., LIT 300. Introduction to the major texts, themes, and authors of British literature from 1790-1815, focusing on poets such as Blake, Barbauld, Wordsworth, Coleridge, and P.B. Shelley but attending also to prose writers from Austen to Mary Shelley. Course Attributes: English Course

LIT 363 - Modern Poetry

Credits: 3. Offered alternate years. Prereq., LIT 300 or consent of instr. Survey of modern poetry in English beginning with Emily Dickinson and Walt Whitman and moving toward the present, centering on modernist poets. Course Attributes: English Course

LIT 369 - Short Fiction

Credits: 3. Offered intermittently. Prereq., LIT 300 or consent of instructor. Study of selected short stories and novellas from mid-19th century to the present.

LIT 370 - Science Fiction

Credits: 3. Offered intermittently. Prereq., LIT 300 or consent of instr. Study of the science fiction genre from its pulp magazine beginnings in the 1920s to the present. Course Attributes: English Course

LIT 373 - Lit & Environment

Credits: 3. Offered autumn. Prereq., LIT 210L or 211L (ENLT 224L or 225L) and LIT 300 (ENLT 301) or consent of instr. Study of major texts and issues in American nature writing. Course Attributes: English Course Writing Course-Upper-Division

LIT 375 - Literary History

Credits: 3. (R-9) Offered intermittently. Prereq., LIT 300 or consent of instr. Study of influences on and innovations in the works of various authors within a particular literary historical period in England or America (e.g. British Renaissance, 18th century, Victorian, British Modern, American Puritanism, American Realism and Naturalism; 17th century). Course Attributes: English Course

LIT 376 - Lit & Oth Disciplines

Credits: 3. (R-9) Offered intermittently. Prereq., nine credits in LIT or LSH or consent of instr. Selected works of literature studied in conjunction with works of art, music, religion, philosophy, or another discipline (e.g. Film and

Literature, Modernism, Literature and Science, Bible as Literature, Song). Course Attributes: English Course Writing Course-Advanced

LIT 378L - Gay and Lesbian Studies

Credits: 3. Offered alternate years. Prereq., LIT 300 or consent of instr. Review of the history of the gay and lesbian movement in the twentieth century as a basis for understanding the political, social, and sexual issues that influenced homoerotic cultural representation in plays, films, and novels. Course Attributes: English Course Writing Course-Upper-Division

LIT 379L - Gender & Sexuality in Eng. Fic

Credits: 3. Offered alternate years. Same as LSH 327L. Major 20th century novels and short stories written in English in different parts of the world and how these texts explore changing concepts of gender and sexuality. Course Attributes: English Course Literary & Artistic Stds Crse

LIT 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: English Course

LIT 398 - Internship

Credits: 1 TO 6. Offered intermittently. Prereq., consent of faculty supervisor, department chair, and the Internship Services office. Extended classroom experience which provides practical application of classroom learning during placements off campus. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

LIT 402 - Literature in Place

Credits: 3. This course gives students a set of advanced learning opportunities to engage with Anglophone texts on the general theme of nature and culture, applying an ecocritical lens to extended literary analysis. Drawing from various periods and from various trans-Atlantic national literatures, the course is designed to focus on the emerging critique of nature and culture that questions foundational structures of epistemology and economy, animate and inanimate, civilization and wilderness.

LIT 420 - Critical Theory

Credits: 3. (R-9) Offered autumn or spring. Prereq., LIT 300 and six credits in literature courses numbered 300 or higher or consent of instr. Study and application of one or more theoretical approaches to interpreting texts (e.g., aesthetic post-structural, new historicist, classical, Renaissance, Romantic, narrative, psychoanalytic, formalist, neo-Marxist, feminist, gender, cultural studies and reader-response theory). Course Attributes: English Course

LIT 421 - History of Criticism & Theory

Credits: 3. Offered autumn or spring. Prereq., LIT 300 and six credits in literature courses numbered 300 or higher or consent of instr. Survey of the historical development of critical theories which shaped ways of reading and writing from Plato and Aristotle to the present. Course Attributes: English Course

LIT 422 - Ecocritical Theory & Practice

Credits: 3. Prereq., or coreq., LIT 300. This course surveys the developing field of ecocriticism, introducing students to the major issues and methodologies entailed in the study of literature and the environment.

LIT 429 - Studies in Native Am Autobiog

Credits: 3. Offered intermittently. Same as NAS 410. Prereq., LIT 300 or LIT 305/NASX 340, or consent of instr. Study of texts that present a first-person story of an American Indian individual's life within historical and cultural contexts, with discussion of theories of autobiography. Course Attributes: English Course Literary & Artistic Stds Crse

LIT 430 - Studies in Comparative Lit

Credits: 3. (R-9) Offered intermittently. Prereq., consent of instr. Same as LSH 342. The study of important literary ideas, genres, trends and movements. Credit not allowed for the same topic in more than one course numbered 430, LSH 342. Course Attributes: English Course

LIT 491 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: English Course

LIT 492 - Independent Study

Credits: 1 TO 3. (R-9) Offered every term. Prereq., consent of instr. and department chair, and junior or senior standing. Special projects in literature. Only one independent study may be taken per semester. Consent must be obtained prior to enrollment. Course Attributes: English Course

LIT 494 - Seminar: Lit Capstone

Credits: 3. (R 9) Offered autumn and spring. Prereq., LIT 300 and nine credits in literature courses numbered higher than 300. Required for completing the English literature option, this seminar will allow students to conduct advanced studies in literary figures and topics chosen by faculty to engage a broad range of interests. A long research paper is required. Course Attributes: English Course Writing Course-Advanced

LIT 499 - Thesis/capstone: Honors

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of chair. Preparation of a thesis or manuscript based on research for presentation and/or publication. Course Attributes: English Course

LIT 500 - Intro to Graduate Studies

Credits: 3. Offered autumn. Instruction in advanced literary and cultural theory, library and research skills, and academic genres. Level: Graduate Course Attributes: English Course

LIT 502 - Topics in Ecocriticism

Credits: 3. This course is a central requirement for the English Department's graduate option in Ecocriticism. The course will vary by topic, but will link introductions to ecocritical theory with practice as it models how to apply ecocritical theory to the study of literature. Each offering will explore the interconnections between nature and culture, through the cultural artifacts language and literature. Although changing with the topic, in most cases the course considers the role race, class, and gender play in shaping discourses of nature. Further, consideration of non-Anglo-American traditions will be featured for many offerings. Level: Graduate

LIT 520 - Sem in British Lit

Credits: 3. (R-9) Offered every autumn and spring. Prereq., graduate status or consent of instructor. Topics will vary. Level: Graduate Course Attributes: English Course

LIT 521 - Sem American Lit

Credits: 3. (R-9) Offered autumn and spring. Prereq., graduate status or consent of instr. Topics will vary. Level: Graduate Course Attributes: English Course

LIT 522 - Sem Comparative Lit

Credits: 3. (R-9) Offered intermittently. Same as MCLG 522. Prereq., graduate status or consent of instructor. Topics will vary. Level: Graduate Course Attributes: English Course

LIT 524 - Nature, Language and Politics

Credits: 3. Offered intermittently. Investigation of environmental, social and political thought from the perspective of contemporary language theory. Level: Graduate Course Attributes: English Course

LIT 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

LIT 596 - Graduate Independent Study

Credits: 1 TO 9. (R-9) Offered every term. Prereq., consent of instr. and chair. Special projects in literature. Only one 596 permitted per semester. Consent must be obtained prior to enrollment. Level: Graduate Course Attributes: Service Learning/Volunteer

LIT 598 - Internship

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of faculty supervisor, department chair, and the Internship Services office. Extended classroom experience which provides practical application of classroom learning during placements off campus. Level: Graduate Course Attributes: Internships/Practicums

LIT 599 - Thesis

Credits: 1 TO 6. (R-6) Offered every term. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate Course Attributes: English Course

Writing

WRIT 101 - College Writing I

Credits: 3. UM: Offered every term. Prereq., WRIT 095 or proof of passing score on writing diagnostic examination, referral by WRIT 095 instructor-SAT writing score at or above 440, MUSWA at or above 3.5, SAT/ACT essay score at or above 7, or ACT Combined English/Writing score at or above 18. Expository prose and research paper; emphasis on structure, argument, development of ideas, clarity, style, and diction. Students expected to write without major faults in grammar or usage. Credit not allowed for both WRIT 101 and COM 101. Grading A-F, or NC (no credit). MC: Offered every term. Prereq., WRIT 095 or proof of appropriate SAT/ACT essay, English/Writing, writing section scores, appropriate MUSWA scores, or proof of passing scores on Writing Placement Exam). Expository prose and research paper; emphasis on structure, argument, development of ideas, clarity, style, and diction. Students expected to write without major faults in grammar or usage. Grading A-F, or NC (no credit). Course Attributes: Writing Course-Introductory

WRIT 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: English Course

WRIT 198 - Coop Education Experience

Credits: 1 TO 12. Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

WRIT 201 - College Writing II

Credits: 3. Offered autumn and spring. Prereq., placement or C or better in WRIT 101. MUSWA at or above 5.5, SAT/ACT essay at or above 11, a SAT writing section score at or above 700 or a Combined English/Writing portion of the ACT at or above 32. Designed for first year students with advanced writing ability and students who seek a lower-division writing course. Offers instruction in rhetorical reading and writing, particularly the study and practice of written argumentation in different academic and civic contexts. Course Attributes: Writing Course-Intermediate

Writing Course-Introductory

WRIT 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: English Course

WRIT 398 - Coop Education Experience

Credits: 1 TO 12. Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

WRIT 491 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: English Course

WRIT 492 - Independent Study

Credits: 1 TO 3. (R-9) Offered every term. Prereq., consent of instr. and chair, and junior or senior standing. Special projects in expository writing. Only one 496 may be taken per semester. Course Attributes: English Course

WRIT 540 - Tchg Coll Levl Composition

Credits: 3. Offered autumn. Restricted to graduate students teaching expository writing at The University of Montana. Theory and pedagogy of teaching college composition are emphasized. Level: Graduate Course Attributes: English Course

WRIT 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

WRIT 596 - Grad Independent Study

Credits: 1 TO 3. (R-9) Offered every term. Prereq., consent of instr. and chair. Special projects in expository writing. Only one 596 may be taken per semester. Level: Graduate Course Attributes: Service Learning/Volunteer

Environmental Studies

Phil Condon, Director

The Environmental Studies Program (EVST) seeks to provide students with the literacy, skills and commitment needed to foster a healthy natural environment and to create a more sustainable, equitable, and peaceful world. To these ends, the EVST program educates and challenges students to become knowledgeable, motivated, and engaged in environmental affairs. Our students acquire the skills and awareness to promote positive social change and improve the environment and communities of Montana and the world, for current and future generations. Our program is organized upon the following principles:

- Environmental studies require an interdisciplinary approach that integrates the natural sciences, social sciences, and humanities.
- Creating solutions to environmental problems requires enterprise and performance as well as reflection; therefore, an effective environmental education generates thinkers who can do as well as doers who can think.
- It is important to provide both classroom and experiential learning opportunities in the arts and responsibilities of democratic citizenship, including communication, collaboration, and committed civic participation.
- Students should be co-creators of their educational experience.

High School Preparation: Students in high school who are planning to major in environmental studies should take their school's college preparatory curriculum. Courses in biology, chemistry, math through pre-calculus, and writing

College Humanities & Sciences Catalog Year: 2015-2016

Course Descriptions

Environmental Sciences

ENSC 105N - Environmental Science

Credits: 3. Offered autumn. Provides students with opportunities to use class knowledge to make a difference; helps students build all of the following: scientific literacy; skills in critical thinking, research and self-instruction; an understanding of the scientific basis of environmental issues, policies and laws; habits of sustainable living, scientifically-informed, active participation in social decisions, and service to their community and to the earth.

Course Attributes: Natural Science Course

ENSC 291 - Special Topics/Experimental Courses

Credits: 1 TO 6. (R-6) Offered intermittently. May be restricted to EVST majors. May require consent of instructor. Experimental offerings of visiting professors, new courses, or one-time offerings of current topics.

ENSC 360 - Applied Ecology

Credits: 3. Offered autumn. Prereq or coreq ENST 201. To succeed in this course, students also need college level courses in general biology, chemistry & statistics. Principles and concepts of ecology and how they can be applied to inform real life decisions about human interactions with the environment. Emphasizes the science of sustainability and the conservation of watersheds and biodiversity.

ENSC 391 - Special Topics/Experimental Courses

Credits: 1 TO 9. (R 12) Offered intermittently. May be restricted to EVST majors. May require consent of instructor. Experimental offerings of visiting professors, new courses, or one time offerings of current topics.

ENSC 398 - Cooperative Education/Intern

Credits: 1 TO 6. Offered autumn and spring. Requires consent of instructor. Practical application of classroom learning through internship with governments, organizations or industry. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation.

ENSC 491 - Special Topics/Experimental Courses

Credits: 1 TO 9. (R-9) Offered intermittently. May be restricted to EVST majors. May require consent of instructor. Experimental offerings of visiting professors, new courses, or one time offerings of current topics.

ENSC 492 - Independent Study

Credits: 1 TO 6. (R-6) Offered autumn and spring. Requires consent of instructor. Course material appropriate to the needs and objectives of the individual student.

ENSC 494 - Seminar/Workshop

Credits: 1 TO 3. (R-6) Offered intermittently. May be restricted to EVST majors. May require consent of instructor. A seminar on a current environmental topic.

ENSC 495 - Field Study

Credits: 1 TO 10. Offered autumn. Prereq or coreq ENSC 360. Designing, executing, interpreting and documenting field studies. Project oriented.

ENSC 501 - Scientific Approaches to Environmental Problems

Credits: 3. Offered autumn. Prereq., graduate standing in EVST or consent of instructor. The strength and limitations of the scientific approach to investigating and solving selected environmental problems with an emphasis on the natural sciences. Level: Graduate

ENSC 540 - Watershed Conservation

Credits: 3. Offered autumn. Prereq., graduate standing or consent of instructor. Course assumes students have level of knowledge presented in a college level ecology course. Integrates watershed science, policy, planning, action and organizing. The science component explores watershed connections, evaluating change and assessing watershed condition. The policy component explains the scientific basis of national, state and local laws, programs and agencies that affect watersheds. The planning and action component discusses developing watershed conservation plans and selecting actions likely to address problems without creating other problems. The organizing component covers how to help watershed communities make choices, resolve conflicts, build commitment and find funding. Students work individually or in teams to assist Montana groups in developing watershed CPR plans, initiating monitoring projects, and/or conducting education projects. Level: Graduate

ENSC 550 - Pollution Ecology

Credits: 3. Offered spring even-numbered years. Prereq., graduate standing or consent of instructor. Course assumes students have level of knowledge presented in a college level ecology course. Examines sources, fate, and effects of pollutants on organisms and ecosystems; methods of measuring and predicting pollutant fate and effects, assessing and reducing risks, estimating ecosystem assimilation capacity; setting standards and restoring ecosystems damaged by pollution. Briefly examines some relevant laws and policies at the federal, state and local level. Level: Graduate

ENSC 551 - Environmental Field Study

Credits: 1 TO 3. (R-3) Offered intermittently. Prereq. or coreq., ENSC 540 or 550 or ENST 560 or consent of instructor. Same as BIOB 551. Designing, executing and interpreting environmental field studies. Oriented to studies of aquatic systems and watersheds. Students will assist with a class project and may also pursue their own projects. Projects focus on the Clark Fork, Bitterroot and Blackfoot River basins. Level: Graduate

ENSC 593 - Professional Paper

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., graduate standing in EVST and consent of instructor. Preparation of a professional paper appropriate to the needs and objectives of the individual student. Level: Graduate

ENSC 594 - Graduate Seminar

Credits: 1 TO 15. (R-15) Offered autumn and spring. Prereq., graduate standing. May be restricted to EVST majors. May require consent of instructor. In depth analysis of a current environmental topic. Different topics offered each semester. Level: Graduate

ENSC 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., graduate standing. May be restricted to EVST majors. May require consent of instructor. Experimental offerings of visiting professors, of new courses, or one-time offerings of current topics. Level: Graduate

ENSC 596 - Independent Study

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., graduate standing in EVST and consent of instructor. Work on selected problems by individual students under direct faculty supervision. Level: Graduate

ENSC 597 - Research

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., graduate standing in EVST and consent of instructor. Directed individual graduate research and study appropriate to background and objectives of the student. Level: Graduate

ENSC 598 - Internship

Credits: 1 TO 8. (R-8) Offered autumn and spring. Prereq., graduate standing in EVST and consent of instructor. Practical application of classroom learning during placements off campus. Level: Graduate

ENSC 599 - Thesis

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., graduate standing in EVST and consent of instructor. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

Environmental Studies

ENST 201 - Environmental Info Resources

Credits: 3. Offered autumn and spring. Students learn how to find, evaluate and use existing information to increase understanding of environmental issues and resolve controversies. Students will research a subject using a variety of sources (refereed literature, government sources, internet sources, interviews); evaluate sources critically; write a literature review and give an oral presentation on their topic. Focus is on critical thinking and dealing with the information explosion. Course Attributes: Writing Course-Intermediate

ENST 225 - Community & Environment

Credits: 3. Offered autumn. Same as SOCI 225. Exploration of the ways that communities address their environmental concerns. Introduction of relevant social science concepts.

ENST 230H - Nature and Society

Credits: 3. UM campus course offered spring. Explores the relationship between ideas about nature and the development of political and social ideas, institutions, and practices, primarily in western (Euro-American) society. Complements ethics offerings in philosophy aimed at environmental studies majors. Course Attributes: Historical & Cultural Course

ENST 291 - Special Topics/Experimental Courses

Credits: 1 TO 9. (R-9) Offered intermittently. May be restricted to EVST majors. May require consent of instructor. Experimental offerings of visiting professors, of new courses, or one-time offerings of current topics.

ENST 294 - Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. May be restricted to EVST majors. May require consent of instructor. A review and discussion of current research. Topics vary.

ENST 335L - The Environmental Vision

Credits: 3. Offered autumn. Provides background, overview, interpretations, and understanding of key concepts, themes, approaches, and forms in American nature and environmental nonfiction as well as that literature's response to and influence on environmental events, figures, and movements. Course Attributes: Literary & Artistic Stds Crse Writing Course-Advanced

ENST 367 - Environmental Politics & Policies

Credits: 3. Offered autumn. Foundation in public lands history, bedrock environmental laws, policy processes and institutions. Research and analysis of current environmental and natural resource policy issues. Focus is domestic illustrated by case studies. Course Attributes: Writing Course-Advanced

ENST 373A - Nature Works

Credits: 3. Offered spring. Writing workshop for the creation, critique, and revision of essays about the environment to include natural history, personal narrative, science interpretation, advocacy/editorial, place-based essay, and others. Examination of concepts, forms, and approaches to writing about environmental concerns, awareness and sensitivity. Reading and responding to published work, primarily from the perspective of technique and approach. Course Attributes: Expressive Arts Course Writing Course-Upper-Division

ENST 382 - Environmental Law

Credits: 3. Offered spring. Introduction to the history, law and theory of environmental regulation in the United States using public and private land regulation mechanisms as case studies. Basic principles of constitutional and administrative law relevant to environmental regulation, substantive public and private land use law and the history of environmental problems and their regulation. Course Attributes: Writing Course-Advanced

ENST 391 - Special Topics/Experimental Courses

Credits: 1 TO 12. (R-12) Offered intermittently. May be restricted to EVST majors. May require consent of instructor. Experimental offerings of visiting professors, of new courses, or one-time offerings of current topics.

ENST 395 - Field Studies: Env. Studies

Credits: 2 TO 3. (R-12) Offered every term. Via extended backcountry travel, experiential examination of cultural history and public lands management, and how those affect ecosystem integrity. Investigation of personal roles in and relationships with human and ecological communities. Offered by the Wild Rockies Field Institute and Northwest Connections. Course Attributes: Internships/Practicums

ENST 396 - Supervised Internship (PEAS)

Credits: 0 TO 10. (R-10) Offered Fall (2 cr.), Spring (2 cr.); Summer intensive, (6 cr.). Students learn small scale sustainable vegetable farming in a hands-on work environment at the PEAS farm (15 minute bike ride from campus). Lectures, readings and reflection inform the work. Summer students also visit local farms on once-a-week field trips. PEAS is repeatable, as the curriculum changes across the season, and students can attend any semester, though the 6 credit summer intensive course is the heart of the program. Course Attributes: Service Learning/Volunteer

ENST 398 - Cooperative Education/Intern

Credits: 1 TO 6. Offered autumn and spring. Consent of instructor required. Practical application of classroom learning through internship with governments, organizations or industry. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

ENST 410 - TEK of Native Peoples

Credits: 3. Offered intermittently. Examines traditional environmental knowledge (TEK) of Native peoples with a special focus on ancient peoples of the Northern Great Plains.

ENST 420 - US Environmental Movement

Credits: 3. Offered Intermittently. Study of the environmental movement as a social movement. Examination of different approaches to environmental protection and restoration in view of the movement's historical roots and contemporary debates.

ENST 427 - Social Issues:The Mekong Delta

Credits: 3. The course focuses on the history, culture, economy and environment of Vietnam, with particular emphasis on the Mekong Delta region. This is achieved through lectures from local professors at Can Tho University, active participation in field trips, the home stay, course readings, and synthesis through questions sets and discussions provided by University of Montana instructor. The goal of this half of the Vietnam study abroad program is to provide an understanding of the unique environments and the socio-economy of the Mekong Delta region to facilitate learning about the effects of climate change on these complex natural and anthropogenic systems. Co-convenes with ENST 514. Course Attributes: Co-Convened Course

ENST 430 - Culture & Agriculture

Credits: 3. Offered spring, from start of semester to mid-April. Surveys treatment of farmers and farming in the humanities. Course covers specific agricultural crops and their effect on social and environmental history, artistic commentary on agricultural life and farmer philosophy. Themes range from agriculturally influenced historical events to Wendell Berry's poetry to Albert Borgmann's philosophy.

ENST 437 - Climate Change: Mekong Delta

Credits: 3. This course focuses on the threats posed by climate change in Vietnam, with particular emphasis on the Mekong Delta region. This is achieved through lectures from Can Tho University professors, active participation in field trips, the homestay, course readings, and synthesis through questions sets and discussions provided by University of Montana instructor. The goal of this half of the Vietnam study abroad program is to provide an understanding of the potential impacts of climate change on the ecosystems and people of the Mekong Delta, and explore opportunities for people to adapt to and mitigate these impacts. Co-convenes with ENST 516. Course Attributes: Co-Convened Course

ENST 472 - Gen Sci: Conservation Education

Credits: 3. Offered autumn and spring. A study of the foundations of environmental science and conservation education with applications to community service and teaching.

ENST 476 - Environmental Citizenship

Credits: 3. Offered spring. Prereq., open to juniors and seniors only or by consent of instructor. Same as CCS 476. Develops leadership and environmental citizenship skills, values and virtues through student-initiated projects informed by principles of organizing and sustainable behavior change theories of social marketing.

ENST 480 - Food, Agriculture, Environment

Credits: 3. Offered spring. Exploration of the premise that agricultural sustainability requires practices, policies, and social arrangements that balance concerns of environmental soundness, economic viability, and social justice among all sectors of society.

ENST 487 - Globalization, Justice & Environment

Credits: 3. Offered autumn. Study of current trends in economic globalization and its effects on efforts to work for social justice and environmental sustainability, particularly in the Global South. Examination of different models and theories of globalization, analysis of ethical issues raised, and assessment of alternatives proposed. Course

Attributes: Writing Course-Advanced

ENST 489S - Environmental Justice Issues & Solutions

Credits: 3. Offered autumn. Examination of evidence, causes and consequences of social inequality in the distribution of environmental risks and in access to natural resources and environmental amenities. Community, government and industry responses and service approaches for addressing environmental inequities. Course

Attributes: Social Sciences Course

ENST 491 - Special Topics/Experimental Courses

Credits: 1 TO 12. (R-12) Offered intermittently. May be restricted to EVST majors. May require consent of instructor. Experimental offerings of visiting professors, of new courses, or one-time offerings of current topics.

ENST 492 - Independent Study

Credits: 1 TO 6. (R-6) Offered autumn and spring. Consent of instructor required. Course material appropriate to the needs and objectives of the individual student.

ENST 493 - Study Abroad: Environmental Justice Latin America

Credits: 3. Offered summer. Two week travel seminar to one or more Latin American countries to examine Latin American perspectives on environmental justice and efforts toward sustainable development within the context of the global economy and U. S. foreign policy. Required one-credit seminar offered spring semester to provide background readings. Course Attributes: Faculty-Led Study Abroad

ENST 494 - Seminar/Workshop

Credits: 1 TO 3. (R-6) Offered intermittently. May be restricted to EVST majors. May require consent of instructor. A seminar on a current environmental topic.

ENST 499 - Senior Thesis/Capstone

Credits: 3. Offered intermittently. Prereq., senior standing in EVST. For seniors who want to design and perform a significant capstone project involving research and/or service. Students have responsibility for designing their projects which are subject to faculty approval. A final report and public presentation are required. Honors credit available.

ENST 505 - Literature of Nature Writing

Credits: 3. Offered spring. Prereq., graduate standing. Study of nature, environmental, and place-based writing, with emphasis on the American tradition and its relationship to twenty-first century environmental concerns, challenges, and opportunities, and to the current practice of nature and environmental writing. Level: Graduate

ENST 510 - Native American Environmental Issues

Credits: 3. This graduate readings seminar provides an overview of environmental issues of Native American communities through the 19th to 21st centuries. Level: Graduate

ENST 513 - Natural Resource Conflict Resolution

Credits: 3. Offered autumn. Same as NRSM 513 and LAW 613. Prereq., graduate standing. Examines the basic framework for preventing and resolving natural resource and environmental conflicts in America. Reviews the history

of alternative approaches, emphasizes the theory and practice of collaboration, and considers future trends. This highly interactive course uses lectures, guest speakers, case studies, and simulations. Level: Graduate

ENST 514 - Social Issues: The Mekong Delta

Credits: 3. This course focuses on the history, culture, economy and environment of Vietnam, with particular emphasis on the Mekong Delta region. This is achieved through lectures from local professors at Can Tho University, active participation in field trips, the home stay, course readings, independent graduate research, and synthesis through questions sets and discussions provided by University of Montana instructor. The goal of this half of the Vietnam study abroad program is to provide an understanding of the unique environments and the socio-economy of the Mekong Delta region to facilitate learning about the effects of climate change on these complex natural and anthropogenic systems. Co-convenes with ENST 427. Level: Graduate Course Attributes: Co-Convened Course

ENST 515 - Environmental Negotiation Mediation

Credits: 3. Offered intermittently. Same as NRSM 515 and COMX 515. Prereq., graduate standing. This course prepares students to effectively engage in multiparty negotiation on natural resource and environmental issues. It is grounded in theory and provides an opportunity to develop practical skills in both negotiation and facilitation/mediation. Guest speakers, case studies, and simulations allow students to develop, test, and refine best practices. The course is fast-paced, highly interactive, and serves as the second of three required courses in the Natural Resources Conflict Resolution Program. Level: Graduate

ENST 516 - Climate Change: Mekong Delta

Credits: 3. This course focuses on the threats posed by climate change in Vietnam, with particular emphasis on the Mekong Delta region. This is achieved through lectures from Can Tho University professors, active participation in field trips, field data collection, analysis and interpretation, the homestay, course readings, independent graduate research, and synthesis provided by University of Montana professors. The goal of this half of the Vietnam study abroad program is to provide an understanding of the potential impacts of climate change on the ecosystems and people of the Mekong Delta, and explore opportunities for people to adapt to and mitigate these impacts. Co-convenes with ENST 516. Level: Graduate Course Attributes: Co-Convened Course

ENST 520 - Environmental Organizing

Credits: 3. Offered spring. Prereq., graduate standing. Developing understanding of and skills in community and environmental organizing. Emphasis on theory and practice of civic engagement and social change with a focus on developing and running campaigns and working in a group. Team projects. Level: Graduate

ENST 521 - Foundation in Environmental Education

Credits: 3. Offered autumn. Prereq., graduate standing in environmental studies. Same as C&I 521. Problem-solving approaches to environmental education; problem identification, research and design and implementation of an educational approach to selected environmental issues. Level: Graduate

ENST 530 - The Greening of Religion

Credits: 3. Offered yearly. A critical examination of different religious traditions' views on nature and society, and contemporary religious traditions' responses to environmental issues. Level: Graduate

ENST 535 - Local Climate Solutions

Credits: 3. Offered intermittently. This course seeks to develop students' understanding and skills for participating in local solutions to climate change that can also support broader conservation, efficiency and sustainability efforts. This will be accomplished by engaging in planning and carrying out group projects that further advance existing climate change mitigation or adaptation efforts. Level: Graduate

ENST 537 - Building Effective Environment Organizations

Credits: 3. Offered intermittently. Prereq., graduate standing. Focus on the tasks and skills necessary to building and managing effective environmental organizations, particularly non-profit. Budgeting, fund-raising, grant-writing, attracting and utilizing volunteers, working with the media. Strategic approaches and how they are shaped by issue, context, and structure. Level: Graduate

ENST 542 - Transboundary Environmental Issues

Credits: 3. Offered intermittently in autumn. Prereq., graduate standing in environmental studies program. Review of the political systems and administrative systems of each country relevant to natural resource policy decision-

making and ecological systems. Review pertinent literature, interact with stakeholders, and produce group reports.
Level: Graduate

ENST 548 - Supervision and Teaching Environmental Education

Credits: 3. Offered intermittently. Prereq., ENST 521 or EDU 521. Design, selection and evaluation of materials for the teaching of environmental education. Level: Graduate

ENST 555 - Research Methods for Social Change

Credits: 3. Offered intermittently. Prereq., graduate standing. Introduction to qualitative methods of research design, data collection, and analysis. Emphasis on research that facilitates and documents social change processes. Hands-on research experience through fieldwork projects. Includes instruction on writing social science and on research ethics. Level: Graduate

ENST 560 - Environmental Impact Analysis

Credits: 3. Offered intermittently. Prereq., graduate standing or consent of instructor. Covers legal and scientific aspects of the Environmental Impact Analysis (EIA) including: What is required by international, national and state law and regulations? How does one organize an effective interdisciplinary team research effort and public participation program? What scientific tools are used in EIA? How could EIA process be improved? Level: Graduate

ENST 561 - Land Use Law

Credits: 3. Offered autumn. Same as GPHY 561 and LAW 687. Prereq., graduate standing. Basic overview of the law of land use planning including background in the traditional governmental regulatory, proprietary, and fiscal land use tools. Examination of modern techniques for land use planning; consideration of constitutional limits of authority of state and local governments. Focus on skills in interpreting, drafting and applying state legislation and local ordinances. Level: Graduate

ENST 563 - Introduction to Environmental Law

Credits: 3. Offered autumn. Prereq., graduate standing in EVST. Same as LAW 650. Philosophy and values underlying environmental regulation, basic introduction to administrative law, in-depth study of air and water pollution and the environmental policy acts. Level: Graduate

ENST 564 - Advanced Environmental Law

Credits: 3. Offered autumn. Prereq., graduate standing in EVST. Same as LAW 649. In-depth study of the laws addressing toxic substances and solid and hazardous waste, and the Endangered Species Act. Exploration of interaction between land use regulation and environmental law. Level: Graduate

ENST 565 - Public Land & Resources Law

Credits: 3. Offered spring. Prereq., graduate standing in EVST and consent of instr. Same as LAW 654. Historical development of United States public land law, state-federal relations, and the roles of Congress, the executive and the courts; the law applying to specific public land resources: water, minerals, timber, range, and preservation. Level: Graduate

ENST 567 - Water Law

Credits: 3. Offered spring. Same as LAW 663. Prereq., graduate standing. Interstate water problems; federal/state powers; federal/Indian water rights/Montana water law. Level: Graduate

ENST 570 - Ethics & Restoration

Credits: 3. Offered yearly. Prereq., graduate level or consent of instr. A critical examination of the ethical issues that emerge in the field of ecological restoration, and decisions to manipulate nature intentionally for social and ecological goals. Level: Graduate

ENST 573 - Environmental Writing

Credits: 3. Offered autumn. Prereq., graduate standing. Writing workshop designed to improve skills in writing on environmental topics for general audiences. Approaches include personal narrative, natural history, science interpretation, advocacy/argument, place-based essays. Includes analysis of published work from the perspective of technique and craft. Level: Graduate

ENST 579 - Collaborative Conservation

Credits: 3. (R-4) Offered every semester. Same as NRSM 579. Prereq., ENST 513 or consent of instructor. Designed as the capstone experience of the Natural Resources Conflict Resolution Program. Provides practical experience in multi-party collaboration and conflict resolution. Students may design their own project in consultation

with the director of the NRCR Program, or participate in a project organized and convened by faculty. Projects may be conducted year-round. Level: Graduate

ENST 580 - The Politics of Food

Credits: 3. Offered intermittently. This seminar explores social, economic, and ecological issues related to the contemporary food and agricultural system and alternatives to that system. Level: Graduate

ENST 590 - Supervised Internship PEAS

Credits: 0 TO 8. (R-8) Spring and autumn, 2 cr.; summer intensive, 3 cr. Prereq., graduate standing. Students learn small scale sustainable vegetable farming in a hands-on work environment at the PEAS farm (15 minute bike ride from campus). Lectures, readings and reflection inform the work. Summer students also visit local farms on a once-a-week field trips. PEAS is repeatable, as the curriculum changes across the season, and students can attend any semester, though the 3 credit (grad level) summer intensive course is the heart of the program. Level: Graduate

ENST 593 - Professional Paper

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., graduate standing in EVST and consent of instructor. Preparation of a professional paper appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Faculty-Led Study Abroad

ENST 594 - Graduate Seminar

Credits: 1 TO 15. (R-15) Offered autumn and spring. Prereq., graduate standing. May be restricted to EVST majors. May require consent of instructor. In-depth analysis of a current environmental topic. Different topics offered each semester. Level: Graduate

ENST 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., graduate standing. May be restricted to EVST majors. May require consent of instructor. Experimental offerings of visiting professors, of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

ENST 596 - Independent Study

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., graduate standing in EVST and consent of instructor. Work on selected problems by individual students under direct faculty supervision. Level: Graduate Course Attributes: Service Learning/Volunteer

ENST 597 - Research

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., graduate standing in EVST and consent of instructor. Directed individual graduate research and study appropriate to background and objectives of the student. Level: Graduate

ENST 598 - Internship

Credits: 1 TO 8. (R-8) Offered autumn and spring. Prereq., graduate standing in EVST and consent of instructor. Practical application of classroom learning during placements off campus. Level: Graduate Course Attributes: Internships/Practicums

ENST 599 - Thesis

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., graduate standing in EVST and consent of instructor. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

Geography Department

Christiane von Reichert, Chair

Whether global climate change or local land use change – geography provides an understanding of complex natural, social, and human-environmental processes at different geographic scales. Drawing on and expanding the knowledge base of Natural Sciences, Social Sciences, and Geographic Information Sciences, we focus on Mountain Studies, Community and Environmental Planning, and Geographic Information Systems.

Our graduates are successful in occupying meaningful and challenging positions in public, private, and non-profit sectors. Their contributions speak to the impacts Geographers have in analyzing, understanding, and shaping our natural and human landscapes for the benefit of future generations.

The Department of Geography offers the Bachelor of Arts, Bachelor of Science, Master of Arts, and Master of Sciences degrees in geography. For a B.A. in geography, an option in community and environmental planning is available. For a B.S. in geography an option in physical geography is available. Also offered are a minor in geography and a teaching major and minor in geography. Several interdisciplinary minors are available to students: a minor in mountain studies, a minor in climate change and a minor in international development studies. See the [Graduate School website](#) for more information concerning the M.A. and M.S. programs.

A certificate in GIS Sciences and Technologies, jointly offered by the Department of Geography (College of Humanities and Sciences) and the Department of Forest Management (College of Forestry and Conservation), is also available. This GIST certificate is a complement to an existing major or to a bachelor's degree already obtained. For details, please see below or the [GIST website](#).

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: **Geography**

Total Credits: 36 Cumulative GPA Required: 2.5

The general geography B.A. degree (without option) is very flexible. In addition to meeting the core requirements for all geography majors, students may take a wide range of electives in geography (minimum 11, maximum 35 elective credits). Electives may be chosen from the fields of regional geography, geographic methods and techniques, or systematic geography (physical geography, human-environment interaction, or geography and society).

Lower Division Core

Category Name: Introduction to Geography Rule: Must complete all of the following courses:

Criterion: C- Number of Credits 7

Course Listing

GPHY 111N Intro to Physical Geography 3

GPHY 112N Intro to Phys Geography Lab 1

GPHY 121S Human Geography 3

Commentary: Lower Division Core

Category Name: Regional Geography Course

Rule: Must complete at least 1 of the following courses

Criterion: C- Number of Credits 3

Course Listing

GPHY 141S Geography of World Regions 3

GPHY 144 Montana's Mountains 3

GPHY 241 Montana 3

GPHY 243X Africa 3

GPHY 245X The Middle East 3

GPHY 342 North America 3

GPHY 344 Crown of the Continent 3

GPHY 347 Regional Geography (Mult Reg) 3

GPHY 348 Field Studies in Geography 3

GPHY 442 Regionalism & Rocky Mtn West 3

GPHY 444 High Asia 3

GPHY 445 Regional Geography 3

Lower Division Core

Category Name: Geographic Methods

Rule: Must complete all of the following courses

Criterion: C- Number of Credits 6

Course Listing

GPHY 284 Intro to GIS and Cartography 3

GPHY 385 Field Techniques 3

Commentary: Upper Division Core

Category Name: Upper Division Systematic Geography Rule: Must complete the following subcategories of courses

Criterion: C- Number of Credits 9

Course Listing Commentary:

Subcategory Name: Physical Geography

Rule: Must complete at least 1 of the following courses

Criterion: C- Number of Credits 3

Course Listing

ERTH 303N Weather and Climate 3

GPHY 311N Biogeography 3

GPHY 314 Global Mountain Environments 3

GPHY 317 Geomorphology 3

GPHY 438 Mountain Field Study 3

GPHY 525 Adv Physical Geography 3

Subcategory Name: Geography and Society Rule: Must complete at least 1 of the following:

Criterion: C- Number of Credits 3

Course Listing

GPHY 323S Econ. Geog. of Rural Areas 3

GPHY 421 Sustainable Cities 3

GPHY 434 Food and Famine 3

GPHY 443 Cultural & Global Competence 3

GPHY 515 Adv Human Geography 3

Subcategory Name: Human Environment Interaction Rule: Must complete at least 1 of the following:

Criterion: C- Number of Credits 3

Course Listing

GPHY 335 Water Policy 3

GPHY 336 Exploration & Discovery 3

GPHY 338 Mountains and Society 3

GPHY 432 Human Role Environ Change 3

GPHY 433 Cultural Ecology 3

Commentary: Major Electives

Category Name: Degree Electives

Rule: Must complete 10 credits of GPHY electives to fulfill the 36 degree credit total
Criterion: C- Number of Credits 10

Course Listing

Commentary: Students must fulfill the degree credit total of 36 credits plus the university requirement for 39 upper division credits.

Commentary: Capstone

Category Name: Capstone

Rule: Seniors must complete the following course

Criterion: C- Number of Credits 1

Course Listing

GPHY 400 Geography Capstone 1

Commentary: Seniors must enroll in GPHY 400 in fall, attend GPHY 500 in fall, and complete course requirements in spring.

Upper Division Writing

Category Name: Upper Division Writing

Rule: Must complete 1 of the following courses

Criterion: C- Number of Credits 3

Course Listing

GPHY 335 Water Policy 3

GPHY 433 Cultural Ecology 3

GPHY 499 senior thesis / capstone 3

Commentary: GPHY 335 or GPHY 433 will also count toward the upper division core requirements GPHY 499 will also count toward upper division elective credits.

Degree Specific Mathematics

Category Name: General Ed Mathematics Rule: Must complete 1 of the following

Criterion: C- Number of Credits 3

Course Listing

M 115 Probability and Linear Math 3

M 121 College Algebra 3

M 151 Precalculus 4

M 162 Applied Calculus 4

Commentary: Students are encouraged to take M 115. Students who successfully complete M 122 Trigonometry, M 171 Calculus I, or M 172 Calculus II also meet the degree specific Gen Ed Mathematics requirement. Gen Ed credits do not count towards degree credits.

Commentary: Degree Commentary

Criterion: Number of Credits 13-20

Course Listing Commentary:

Subcategory Name: Community and Environmental Planning Core Rule: Must complete both courses

Criterion: C- Number of Credits 6

Course Listing

GPHY 465 Planning Princ & Processes 3

GPHY 466 Environmental Planning 3

Subcategory Name: Community and Environmental Planning Methods Rule: Must complete at least 1 of the following course/lab combinations

Criterion: C- Number of Credits 4

Course Listing

GPHY 468 Community & Regional Analysis 3

GPHY 469 Planning & Analysis Laboratory 1

GPHY 486 Transport, Planning & GIS 3

GPHY 489 Cartography/GIS Laboratory 1

Commentary: GPHY 468 must be taken together with GPHY 469. GPHY 486 must be taken together with GPHY 489.

Subcategory Name: Community and Environmental Planning Electives Rule: Must complete at least 3 courses from the following courses:

Criterion: C-

Course Listing Number of Credits 3-10

GPHY 323S Econ. Geog. of Rural Areas 3

GPHY 335 Water Policy 3

GPHY 421 Sustainable Cities 3

GPHY 432 Human Role Environ Change 3

Commentary: If not previously taken to fulfill CEP Methods, the following courses can be selected as electives:

- 1) GPHY 468/469 Community and Regional Analysis with co-requisite lab - 4 cr
- 2) GPHY 486/489 Transport, Planning & GIS with co-requisite lab = 4 cr Other courses can count towards CEP electives.

GPHY 323S and GPHY 421 can be used to satisfy upper division requirements in 'Geography and Society'

GPHY 335 and GPHY 432 can be used to satisfy upper division requirements in 'Human Environment Interaction.'

Degree Specific Mathematics

Category Name: General Ed Mathematics Rule: Must complete 1 of the following

Criterion: C- Number of Credits 3

Course Listing

M 115 Probability and Linear Math 3

M 121 College Algebra 3

M 151 Precalculus 4

M 162 Applied Calculus 4

Commentary: Students are encouraged to take M 115. Students who successfully complete M 122 Trigonometry, M 171 Calculus I, or M 172 Calculus II also meet the degree specific Gen Ed Mathematics requirement. Gen Ed credits do not count towards degree credits.

Commentary: Degree Commentary

An internship is strongly recommended.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: **Major** Subject: **Geography**

Total Credits: 36 Cumulative GPA Required: 2.5

The B.S. in Geography is designed to accommodate those students who are interested in pursuing more science-based and technical areas of study and work in the field of Geography, such as aspects involving physical geography and geospatial technologies, or environmental planning. Those pursuing a geography B.S. degree (with or without an option) must complete 6-10 additional credits (a two-course sequence) of science coursework. The classes must be selected and approved by the student and advisor as appropriate to individual student goals (e.g., BIOO 105N (BIOL 120N), BIOE 172N (BIOL 121)).

Lower Division Core

Category Name: Introduction to Geography Rule: Must complete all of the following courses:

Criterion: C- Number of Credits 7

M 171 Calculus I 4
STAT 451 Statistical Methods I 3

Commentary: M 171 Calculus I is recommended.

Commentary: GenEd credits do not count towards degree credits.

Depending on the courses selected, the degree requirements vary from 36 to 39 credits.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: Major Subject: **Geography** Option: **Physical Geography**

Total Credits: 47 Cumulative GPA Required: 2.5

In addition to satisfying the general requirements for a B.S. degree in geography, a student pursuing the option in physical geography must complete additional requirements, including EARTH 303N (GEOG 322N), GPHY 317 (GEOG 324), and GPHY 411N (GEOG 426N), though substitutions which broaden the student's curriculum may be approved by their advisor. Also, students must complete an additional appropriate math course above the 150 level to complement the one used to fulfill their symbolic systems requirements (the second semester of Calculus is recommended), and the two-course sequence in science used to fulfill the B.S. requirement MUST be one of the

following: CHMY121N-123N (CHEM 151N-152N), CHMY 141N-143N (CHEM 161N-162N), PHSX 205N-207N (PHYS 121N-122N), PHSX 215N-217N (PHYS 211N- 212N), or BIOO 105N (BIOL 120N), BIOE 172N (BIOL 121N)).

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Certificate of Art Level: **Certificate** Subject: **Geographic Information Systems**

Total Credits: 20 Cumulative GPA Required: 3.0

Certificate in GIS Sciences and Technologies

The Certificate in GIS Sciences and Technologies, jointly offered by the departments of Geography and Forest Management, is aimed at present or future professionals or scientists who require skills in GIS technologies. The purpose of this program is to provide undergraduate students or individuals possessing an undergraduate degree with the training, knowledge, and understanding necessary to acquire, process, analyze, and properly display digital geographic data.

Special Requirements for the Certificate

To earn a certificate in GIS Sciences and Technologies, students must either complete or have completed an undergraduate degree and complete a minimum of 20 semester credit hours of course work, including 9 to 11 required credits and 9 to 11 elective credits as described below. Students must achieve at least an overall grade point average of 3.0 for courses within the program in order to earn a certificate. The certificate will be awarded upon the successful completion of all of the requirements of the certificate and the undergraduate degree.

Lower Division Core

Category Name: Required GIS Core Courses

Rule: Must complete 1 from each of the following subcategories

Criterion: C- Number of Credits 9-11

Course Listing Commentary:

Subcategory Name: Introduction to GIS

Rule: Must complete 1 and only 1 of the following courses

Criterion: C- Number of Credits 3

Course Listing

FORS 250 Intro to GIS for Forest Mgt 3

GPHY 284 Intro to GIS and Cartography 3

Commentary: Prior to Fall 2013, this was fulfilled by FOR 250 & 350 or GPHY 381 & 382. In 2013 this requirement could be fulfilled with FORS 284.

Subcategory Name: Photogrammetry/Remote Sensing Rule: Must complete 3-4 credits of the following courses

Criterion: C- Number of Credits 3-4

Course Listing

FORS 351 Env Remote Sensing 3

GPHY 487 Remote Sensing/Raster GIS 3

GPHY 489 Cartography/GIS Laboratory 1

Commentary: GPHY 487 and 489 should be completed together.

Subcategory Name: Additional Required Courses

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Minor Level: **Minor** Subject: **Mountain Studies (Minor)**

Total Credits: 18 Cumulative GPA Required: 2.5

Mountain Studies is an interdisciplinary field of study focusing on the physical and human dimensions of mountain environments. Coursework in the minor emphasizes physical geography and mountain-society interactions, including a critical analysis of the processes of change and influence shaping local and regional mountain environments today. The minor in Mountain Studies takes advantage of existing faculty expertise and an array of courses to provide students with a science-based curriculum and global perspective. Students pursuing the minor in mountain studies will develop knowledge and skills appropriate for graduate study and for working with government and non-government agencies and groups.

Course Descriptions

Earth Systems

ERTH 303N - Weather and Climate

Credits: 3. Offered spring. Same as CCS 303N. Origin, composition, structure, and dynamics of the atmosphere, gas and radiation laws, energy budget and balance, weather elements, North American weather systems, and climate change. To succeed in this course students should have comfort with basic algebra. Course Attributes: Natural Science Course

Geography

GPHY 111N - Intro to Physical Geography

Credits: 3. Offered autumn and spring. Introduction to the earth's major natural environmental systems, their spatial distribution and interrelationships, including weather and climate, vegetation and ecosystems, soils, landforms, and earth-surface processes. Course Attributes: Natural Science Course

GPHY 112N - Intro to Phys Geography Lab

Credits: 1. Offered autumn and spring. Prereq. or coreq., GPHY 111. Introduction to concepts and techniques needed to understand and analyze the information contained in various types of maps, graphs, aerial photos, imagery, and other graphics and geographic data sets. This is prerequisite to GPHY 385. Course Attributes: Natural Science Lab Course

GPHY 121S - Human Geography

Credits: 3. Offered autumn and spring. Introduction to Human Geography focuses upon the linkages between geography and society including analysis of regions, ethnic groups, urban landscapes, migration and population change, geopolitics, economics, and cultural differences. Course Attributes: Social Sciences Course

GPHY 141S - Geography of World Regions

Credits: 3. Offered autumn. An overall view of how the lands and peoples of the world are organized into coherent geographical regions, how landscapes differ from region to region, and how the people differ in terms of their traits, beliefs, ways of life, and economic livelihood. Course Attributes: Social Sciences Course Indigenous and Global

GPHY 144 - Montana's Mountains

Credits: 3. Consent of Instructor. A field-based course offered during winter session in the winter splendor of the North Fork of the Flathead River and Glacier National Park. Topics addressed include physical geography, geology, winter ecology, national park management, environmental history, and the changing economy of the region.

GPHY 191X - Special Topics

Credits: 1 TO 3. (R 6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics. Course Attributes: Internships/Practicums Indigenous and Global

GPHY 241 - Montana

Credits: 3. Offered autumn. The physical, cultural, economic, political, and historical geography of the state including Montana's mountains and the prairies.

GPHY 243 - Africa

Credits: 3. Offered intermittently. A survey of the biophysical and cultural geography of Sub-Saharan Africa. Emphasis is on the region's cultural-historical development and current ecological, demographic, and economic patterns.

GPHY 245X - The Middle East

Credits: 3. Offered intermittently. A survey of the biophysical and cultural geography of Southwest Asia and North Africa. Emphasis on environmental change; rehistory; patterns of cultural and historical change; issues of socio-economic, religious, and political diversity; and the broader political significance of the region. Course Attributes: Indigenous and Global

GPHY 284 - Intro to GIS and Cartography

Credits: 3. Offered every term. Open to sophomores or juniors or with Consent of Instructor. This course is designed as a practical introduction to the use of Geographic Information Systems (GIS) for storing, retrieving, analyzing and displaying spatial data. It will also cover the history of cartography and the conventions of the modern map-making process. Students need to register for a required lab section.

GPHY 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

GPHY 295 - Mountain Field Studies

Credits: 1. Offered autumn and spring as a series of one-credit courses, maximum of three-credits per semester. Field studies of Montana's Rocky Mountain Front, Crown of the Continent, or Yellowstone. Students prepare to conduct field work, spend time in the field observing wildlife, physical landscapes and cultural aspects of these landscapes, and follow up their observations in written reports.

GPHY 311N - Biogeography

Credits: 3. Offered intermittently. Changing patterns of plant and animal distributions in space and time. Combination of historical and ecological approaches to biological species and communities. Study of external causes of plant and animal distributions, especially climatic change and human impacts. Course Attributes: Natural Science Course

GPHY 314 - Global Mountain Environments

Credits: 3. Offered most autumns. The study of mountain environments and their physical processes around the globe: Andes, Appalachians, East African Mountains, European Alps, Hindu Kush-Himalaya-Karakoram, Pamir, Rocky Mountains, Southern Alps of New Zealand, Tien Shan, and others. Topics include mountain building, alpine glaciers, mountain geomorphology and climatology, mountain watersheds, mountain biogeography, and mountain hazards such as earthquakes and mass movements.

GPHY 317 - Geomorphology

Credits: 3. Offered intermittently. Prereq., GPHY 111N or GEO 101N. Important landforms and landscapes, their biophysical processes, and their formative elements.

GPHY 323S - Econ. Geog. of Rural Areas

Credits: 3. Offered spring odd-numbered years. Study of the location of economic activities, including agriculture, industry, and services. Focus on the changing nature of rural areas. Course Attributes: Social Sciences Course
GPHY 335 - Water Policy

Credits: 3. Offered autumn. Prereq., WRIT 101 or WRIT 201, and one Approved Writing Course. Exploration of water resources issues facing the public, resource managers, and water users in the western United States today. Examines concepts, terms, and regulatory environment which provide the foundation for modern water management and policy. Course Attributes: Writing Course-Advanced

GPHY 336 - Exploration & Discovery

Credits: 3. Offered intermittently. Emphasis on the evidence of language, genetics, material culture, and transoceanic plant and animal exchanges in assessing mobility and population distributions in prehistory; factors that motivate exploration; the history of navigation; the impacts of exploration upon science, society, economics, and government.

GPHY 338 - Mountains and Society

Credits: 3. Offered spring. Physical and cultural aspects of the mountains of North and South America, Europe, Africa, and Asia. Emphasis on combining the physical landscape with an overview of the indigenous people who inhabit the worlds' heights.

GPHY 342 - North America

Credits: 3. Offered intermittently. Physiographic regions of North America; highlights of historical geography blended with physical and cultural aspects of the continent. Lesser known places are explored.

GPHY 344 - Crown of the Continent

Credits: 3. Offered autumn. The study of the geographical setting of the Crown of the Continent of North America, including the richness of physical geography, history, culture, and models of conservation. Examines ongoing research initiatives, impacts of climate change, regional transformations, and the relationship between people and this mountainous environment.

GPHY 347 - Regional Geography (Multiple Regions)

Credits: 3. (R-9) Offered intermittently. Selected regions will be listed as appropriate in each Class Schedule.

GPHY 348 - Field Studies in Geography

Credits: 3. (R-12) Offered autumn and spring. Through extended backcountry travel, experiential examination of regional landforms, climate, hydrology, soils, and patterns of vegetation and wildlife. Local landscapes, natural-resource endowment, and societies with particular emphasis on human-environmental interaction. Geographical skills and techniques, including map reading and navigational skills. Offered by the Wild Rockies Field Institute as part of a semester-long, 12-credit field experience with corequisite courses in allied fields.

GPHY 378 - Preceptorship in Geography

Credits: 1 TO 3. (R-6) Offered autumn and spring. Consent of instructor. Assisting a faculty member by tutoring, conducting review sessions, helping students with research projects, and carrying out other class-related responsibilities. Open to juniors and seniors who apply to instructor for consent.

GPHY 385 - Field Techniques

Credits: 3. Offered autumn and intermittently in spring. Prereq., GPHY 112N or Consent of Instructor. Field techniques used by geographers and planners in making field observations and in collecting data.

GPHY 391 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

GPHY 392 - Independent Study

Credits: 1 TO 9. (R-9) Offered every term. Consent of Instructor. Independent study in any subfield of geography.

GPHY 395 - Field Studies

Credits: 1 TO 9. (R-9) Offered fall and/or spring. Field experience in the region. Includes geographically relevant field courses offered as part of Northwest Connections' Landscapes and Livelihood Field Semester, focusing on natural and human communities and on conservation solutions of the Southwest Crown of the Continent Region: Sustainability and Agriculture (3 cr), and Biogeography of Northwest Montana (4 cr).

GPHY 400 - Geography Capstone

Credits: 1. Offered autumn. Prereq., Senior standing. Exploration of current research, projects, and programs of geographers and scientists/practitioners in allied disciplines and fields, and preparation of a professional portfolio. Student preparation for post-graduate professional and academic careers is emphasized.

GPHY 421 - Sustainable Cities

Credits: 3. Offered spring even-numbered years. Prereq., upper-division or graduate standing. Same as CCS 421. A discussion of sustainability efforts in cities around the world. Topics include, for example, urban sprawl and smart growth, alternative energy, public transportation, integrated waste management, integrated water management, green architecture, and urban agriculture.

GPHY 432 - Human Role Environ Change

Credits: 3. Offered intermittently. A systematic examination of the ways in which the major physical systems and ecosystems of the earth have been modified by human activity, and approaches to the rehabilitation of these systems.

GPHY 433 - Cultural Ecology

Credits: 3. Offered most spring. Prereq., WRIT 101 or WRIT 201 and one Approved Writing Course or consent of instructor. Examines issues related to culture and the natural environment. Topics include cultural origins and diversity, geography of religion, geolinguistics, plant and animal domestication, livelihood systems, folk and popular culture, ethnic geography, political patterns, demography, industries, urban genesis, and the transformation of environmental systems. Course Attributes: Writing Course-Advanced

GPHY 434 - Food and Famine

Credits: 3. Offered intermittently. Exploration of the production, distribution, and consumption of food; the causes and consequences of hunger; and measures that might be taken to relieve hunger.

GPHY 438 - Mountain Field Study

Credits: 3. (R-6) Upper-division or graduate standing and consent of instructor. Examination of aspects of the study of mountain geography through a two-week field course based in a mountainous country and/or region. Possible areas of focus include, but are not limited to, the Northern Rocky Mountains, the Alps, the Himalaya, and the Andes.

GPHY 442 - Regionalism & Rocky Mtn West

Credits: 3. Offered intermittently. Investigation of regionalism as a concept and its future in the Rocky Mountain West. Regionalism as a geographical, economic, political, and cultural entity. Course Attributes: Writing Course-Upper-Division

GPHY 465 - Planning Principles & Processes

Credits: 3. Offered autumn even-numbered years. Prereq., upper-division or graduate standing. Surveys planning principles, practices and issues in urban and rural environments. Attention is devoted to Montana, state planning programs in the United States., and federal programs and policies that influence land-use planning. Emphasizes skills and techniques used in plan development and implementation.

GPHY 466 - Environmental Planning

Credits: 3. Offered autumn odd-numbered years. Introduction to practice of environmental planning which includes elements of physical planning, planning design at the landscape scale, and conservation planning. Includes field visits and project-based work.

GPHY 468 - Community & Regional Analysis

Credits: 3. Offered autumn. Prereq., M 115 or M 121 or Consent of Instructor. Coreq., GPHY 469. Socio-demographic analysis of communities and regions: population, employment, and spatial interaction. Hands-on course designed for future planners, GIS analysts, and others interested in socio-demographic change.

GPHY 469 - Planning & Analysis Laboratory

Credits: 1. Offered autumn. Coreq., GPHY 468. Laboratory to accompany GPHY 468.

GPHY 481 - Advanced Cartographic Design

Credits: 3. Offered autumn. Prereq GPHY 284 or GPHY 381 or FORS 250 or Consent of Instructor. The course concentrates on the presentation of spatial data and the construction of cartographic products that have clear communication and excellent aesthetic design. The class meets the University's service learning course objectives through a semester long project where students consult with a client, design and construct a map, and deliver a final product.

GPHY 482 - Spatial Analysis & GIS

Credits: 3. Offered intermittently. Prereq., GPHY 284 and STAT 216, or Consent of Instructor. Quantitative analysis of spatial data, including techniques for pattern analysis, classification, and interpolation within a GIS environment.

GPHY 485 - Internet GIS

Credits: 3. Offered intermittently. Prereq., GPHY 284 or GPHY 381; coreq., GPHY 489. Principles and techniques for distributing GIS and mapping applications through the Internet.

GPHY 486 - Transport, Planning & GIS

Credits: 3. Offered intermittently during wintersession (2 credits) or spring semester (3 credits.) Prereq., M 115 or M 121 or consent of instr. Coreq., GPHY 489. A project-oriented course focusing on patterns and trends in urban passenger transportation, principles of transport planning, and modeling in GIS-T.

GPHY 487 - Remote Sensing/Raster GIS

Credits: 3. Offered autumn. Prereq. or coreq., GPHY 284 or GPHY 381 or Consent of Instructor. Coreq., GPHY 489. Basic principles of remote sensing and analyzing images within a raster GIS. Review current data sources.

GPHY 488 - Applications of GIS

Credits: 0 TO 3. Offered spring. Prereq., GPHY 284 or GPHY 381 or FORS 250 or Consent of Instructor; Application of GIS for managing natural and cultural resources. Covers choropleth maps, dot maps, proportional figure maps, isarithmic maps, and others. Includes computer mapping and GIS exercises. Students need to register for a required lab section.

GPHY 489 - Cartography/GIS Laboratory

Credits: 1. (R-4) Offered autumn and spring. Coreq., GPHY 485, 486, or 487. Lab to accompany cartography and GIS courses.

GPHY 491 - Special Topics

Credits: 0 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

GPHY 492 - Independent Study

Credits: 1 TO 9. (R-9) Offered every term. Consent of instructor. Independent study in any subfield of geography.

GPHY 497 - Workshop in Teaching Geography

Credits: 2 TO 3. Offered intermittently. Concepts and techniques in geography, with emphasis on their use in teaching geography in Montana schools. Students are required to prepare and present a teaching unit project. Designed for pre-service or in-service teachers.

GPHY 498 - Internship

Credits: 1 TO 6. Offered every term. Consent of instructor. Extended classroom experience which provides practical application of classroom learning during placements within governmental agencies or the business community. A maximum of 6 credits of Internship may count toward graduation. Course Attributes: Internships/Practicums

GPHY 499 - senior thesis / capstone

Credits: 3. (R-6) Offered autumn and spring. Senior standing and consent of instructor. Independent research project in any geographical topic supervised by a faculty member, and leading to completion of the baccalaureate degree. Course Attributes: Writing Course-Advanced

GPHY 500 - Geography Graduate Colloquium

Credits: 1. (R-3) Offered autumn. Presentation of faculty and student research. Guest lecturers. Graded pass/not pass only. Enrollment required every autumn graduate students are in residence. Level: Graduate

GPHY 504 - Geographical Research

Credits: 1. Offered autumn. To be taken during first semester of graduate studies. Understanding of diverse research approaches in geography and development of a thesis topic. To be continued in spring in GPHY 505. Level: Graduate

GPHY 505 - Research Design

Credits: 2. Offered spring. Prereq., GPHY 504. Preparation of a thesis proposal: research design, data collection, analysis, interpretation, and presentation. Recommended to be taken during the second semester of graduate studies. Level: Graduate

GPHY 520 - Seminar Geographical Thought

Credits: 3. Offered autumn. Geographical ideas, concepts, approaches, and techniques from ancient to modern times. Recommended to be taken during first semester of graduate studies. Level: Graduate

GPHY 525 - Advanced Physical Geography

Credits: 3. (R-9) Offered intermittently. Advanced topics in climate and global change, paleo-environments and biogeography, landform analysis, soils, and other selected topics. Topic titles will appear in the Class Schedule. Level: Graduate

GPHY 550 - Seminar in Geography

Credits: 3. (R-9) Offered intermittently. Seminar topics in geography and society, human-environmental interaction, physical geography, regional geography, or geographical techniques. Level: Graduate

GPHY 560 - Seminar in Planning

Credits: 3. Offered spring odd-numbered years. A critical analysis of land planning history, theory, approaches, and practice. Emphasis is on the United States and England. Level: Graduate

GPHY 561 - Land Use Planning Law

Credits: 3. Offered autumn. Same as ENST 561 and LAW 687. Basic overview of the law of land-use planning including, background in the traditional governmental regulatory, proprietary, and fiscal land use tools. Examination of modern techniques for land-use planning; consideration of constitutional limits of the authority of state and local governments. Focus on skills in interpreting, drafting, and applying state legislation and local ordinances. Level: Graduate

GPHY 562 - Land Use Planning Clinic

Credits: 1 TO 6. (R-6) Offered every term. Prereq. or coreq., GPHY 561. Same as ENST 562. Students assist local communities in long-range planning efforts and development of growth management plans as required by Montana law; ordinance drafting, development proposals, and land use issues. Level: Graduate

GPHY 564 - Planning Design

Credits: 3. Offered spring even-numbered years. Prereq., graduate standing or Consent of Instructor. Analysis of land-use problems and design. Level: Graduate

GPHY 578 - Preceptorship in Geography

Credits: 1 TO 3. (R-6) Offered autumn and spring. Graduate standing and Consent of Instructor. Assisting a faculty member by tutoring, helping students with research projects, and carrying out other class-related activities. Level: Graduate

GPHY 580 - Seminar GIS & Cartography

Credits: 3. (R-9) Offered spring. Seminar topics in cartography and GIS. Applications to advanced studies in human and physical geography. Level: Graduate

GPHY 587 - Image Analysis & Modeling

Credits: 3. Offered every two years. Prereq., GPHY 487 or FORS 351 or Consent of instructor; coreq., GPHY 589. Advanced topics in image analysis (e.g. hyperspectral images and pattern-recognition-based classification) and foundations of simple raster-based models. Level: Graduate

GPHY 588 - Spatial Analysis and Modeling

Credits: 3. Offered autumn. Coreq., GPHY 589. Theoretical/conceptual and practical aspects of entity-based GIS modeling and spatial analysis. Point pattern analysis (i.e. cluster detection, density analysis, kriging), network analysis (i.e. network construction, network-based spatial statistics, accessibility modeling), and areal pattern analysis (i.e. spatial autocorrelative pattern, spatial regression modeling). Applications in urban and environmental planning, transportation, natural resource management, ecology, health, criminology, engineering, and business. Level: Graduate

GPHY 589 - Cartography/GIS Laboratory

Credits: 1. (R-4) Offered autumn and spring. Laboratory to accompany GPHY 587 or 588. Level: Graduate

GPHY 595 - Special Topics

Credits: 1 TO 8. (R-9) Offered intermittently. Prereq., Consent of Instructor. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

GPHY 596 - Independent Study

Credits: 1 TO 9. (R-9) Offered every term. Graduate standing and consent of instructor. Independent research in geography or planning. Level: Graduate Course Attributes: Service Learning/Volunteer

GPHY 597 - Professional Paper

Credits: 1 TO 6. (R-6) Offered autumn and spring. Graduate standing in Geography and Consent of Advisor. Level: Graduate

GPHY 598 - Internship

Credits: 1 TO 9. (R-9) Offered every term. Graduate standing and consent of instructor. Extended classroom experience which provides practical application of classroom learning during placements off campus. Level: Graduate Course Attributes: Internships/Practicums

GPHY 599 - Thesis

Credits: 1 TO 6. Offered every term. Graduate standing in Geography and Consent of Advisor. Level: Graduate

Geosciences Department

James R. Staub, Chair

Human impact on Earth systems and reliance on Earth's resources will increase as human population and economic production grows. These impacts are creating "global grand challenges": complex, globally important problems that require an interdisciplinary approach. The most pressing grand challenges over the next decade will be resource scarcity/depletion (especially water and petroleum), adaption to and mitigation of climate change and natural hazards, and environmental stewardship of highly stressed physical and biological Earth systems. As University of Montana Geoscientists, we address these challenges in our research and teaching. We develop the knowledge to find and extract mineral and water resources, solve problems caused by using those resources and develop models of the past, present and future Earth. Faculty, staff, graduate students, and undergraduate students are helping Montana and the World develop a sustainable future.

Our Vision:

We will build and teach a fundamental understanding of Earth processes to benefit humankind and sustain Earth systems.

Our Goals:

1. Conduct geoscience research, including obtaining extramural funding to perform essential and transformative research.
2. Disseminate research findings by publishing in peer-reviewed journals and presenting at national and international scientific conferences.
3. Teach students how to learn from known sources of information and create new knowledge from their own research.
4. Engage all graduate students and selected undergraduates in research and publication.
5. Produce graduates competent in their disciplines who can perform well in field, laboratory and computational settings, and who are prepared to serve as high-quality professionals in geoscience and related fields.
6. Provide opportunities for students to work and learn in other countries through international research and learning opportunities.
7. Educate the general student population about the nature of science and basic scientific principles through the study of Earth and its natural systems.
8. Engage the public with important geoscience issues through outreach and community education.

UM Geosciences in the National Context

With B.S., M.S. and Ph.D. degrees, UM Geosciences is one of 120 Ph.D. granting Geoscience departments in the United States. U.S. News & World Report ranks the UM Geosciences program with Universities like Florida State, Michigan Tech, University of Georgia, University of Pennsylvania, and University of South Carolina. We are ranked above schools like University of Idaho, University of Missouri, UNLV, and Notre Dame.

Employment

Geoscientists completing our program are employed by private industry, federal, state, and local governmental agencies, environmental consulting firms, non-profit organizations, and by schools needing Earth Science teachers. Jobs in geosciences are available at the B.S., M.S. and Ph.D. levels. The M.S. degree is considered the main working professional degree. The Ph.D. degree is required for positions at universities and with organizations specializing in research. However, there are ample opportunities for geoscience employment with the B.S. degree. Our graduates have a wide range of educational and employment opportunities. Over the last decade, 95% of our graduate program alumni are employed in Geosciences: 13% work for government, 23% for industry, 31% for consultancies and 2% for non-governmental organizations, 10% are teaching, and 17% went on for a Ph.D. UM Geosciences graduates have exceptional placement rates.

Undergraduate Degree Requirements

We offer three Bachelor of Science degrees: Geosciences B.S., International Field Geosciences Joint B.S. with University of Cork (Ireland), and International Field Geosciences Dual B.S. with Potsdam University (Germany). We also offer an option in Earth Science Education.

The Upper-division Writing Expectation must be met for all degree options by successfully completing an upper-division writing course from the approved list in the Academic Policies and Procedures section of this catalog or by completing GEO 499 (GEOS 499).

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: **Major** Subject: **Geosciences**

Total Credits: 62 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Lower Division Core

Rule: Must complete all of the following courses

Criterion: C- Number of Credits 8

Course Listing

GEO 101N Intro to Physical Geology 3

GEO 102N Intro to Physical Geology Lab 1

GEO 211 Earth's History and Evolution 4

Commentary: Upper Division Core

Category Name: Degree Electives

Rule: Must complete 24 credits from the following list of courses

Criterion: C-

Course Listing Number of Credits 24

GEO 225 Earth Materials 4

GEO 305 Igneous & Metamorph Petrology 4

GEO 309 Sedimentation/Stratigraphy 4

GEO 311 Paleobiology 3

GEO 315 Structural Geology 4

GEO 318 Surface Processes 4

GEO 320 Global Water 4

GEO 327	Geochemistry	4
GEO 420	Hydrogeology	4
GEO 421	Hydrology	3
GEO 433	Global Tectonics	3
GEO 443	Prin of Sedimentary Petrology	4
GEO 460	Process Geomorphology	4
GEO 482	Global Change	3
GEO 488	Snow, Ice and Climate	3
GEO 491	Special Topics 1 To 8	

Upper Division Core

Category Name: Cognate Sciences

Rule: In addition to completing course work in Geosciences, a minimum of 30 credits in cognate science classes must be completed. Criterion: Number of Credits

Course Listing

Commentary: More advanced courses in Chemistry, Computer Science, Math, and Physics may be used to meet the 30 credit minimum total in cognate sciences. Biology 100N or above is also appropriate. Course substitutions for the 30 credit minimum in cognate sciences must be approved by a departmental advisor.

Commentary: Cognates

Category Name: Physics

Rule: Must complete 1 of the following sequences

Criterion: Number of Credits 10

Course Listing Commentary:

Subcategory Name: Physics

Rule: May complete the following sequence

Criterion: C- Number of Credits 10

Course Listing

PHSX 205N	College Physics I	4
PHSX 206N	College Physics I Laboratory	1
PHSX 207N	College Physics II	4
PHSX 208N	College Physics II Laboratory	1

Subcategory Name: Physics with Calculus Rule: May complete the following sequence

Criterion: C- Number of Credits 10

Course Listing

PHSX 215N	Fund of Physics w/Calc I	4
PHSX 216N	Physics Laboratory I w/Calc	1
PHSX 217N	Fund of Physics w/Calc II	4
PHSX 218N	Physics Laboratory II w/Calc	1

Cognates

Category Name: Chemistry

Rule: Must complete the following courses

Criterion: C- Number of Credits 10

Course Listing

CHMY 141N	College Chemistry I	5

CHMY 143N College Chemistry II 5

Commentary: Cognates

Category Name: Math

Rule: Must complete 1 of the following subcategories

Criterion: Number of Credits 7-8

Course Listing Commentary:

Subcategory Name: Math Option 1

Rule: May complete the following 2 courses

Criterion: C- Number of Credits 7

Course Listing

M 162 Applied Calculus 4

M 274 Intro to Differential Equation 3

Subcategory Name: Math Option 2

Rule: May complete the following 2 courses

Criterion: C- Number of Credits 8

Course Listing

M 171 Calculus I 4

M 172 Calculus II 4

Cognates

Category Name: Computer Science

Rule: Must complete 1 course in Computer Science (Programming or Modeling) Criterion: C- Number of Credits 3

Course Listing

CSCI 172 Intro to Computer Modeling 3

CSCI 250 Computer Mdlng/Science Majors 3

GPHY 284 Intro to GIS and Cartography 3

STAT 216 Introduction to Statistics 4

Commentary: These courses are recommended to complete the Computer Science requirement. Credit may be received for only 1 of these 4 courses for the 30 credit minimum cognate science requirement.

Upper Division Writing

Category Name: Upper Division Writing

Rule: Must complete 1 upper division writing course

Criterion: C- Number of Credits 3

Course Listing

GEO 320 Global Water 4

GEO 499 senior thesis / capstone 3 To 10

Commentary: These courses are recommended to complete the upper division writing requirement in Geosciences but students may also select from the university- approved list of upper division writing courses to fulfill this requirement.

Degree Specific Modern & Classical Languages Category Name: Languages

Rule: Must complete 1 of the following courses

Criterion: C- Number of Credits 3

Course Listing

M 162 Applied Calculus 4

Commentary: Students graduating in Geosciences may substitute one of these courses in place of the Modern and Classical Language requirement.

Degree Commentary: This option is designed for students who seek post-graduate employment as a professional geoscientist or preparation for graduate study in geosciences.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: **Major** Subject: **Geosciences** Option: **Earth Science Education**

Total Credits: 60 Cumulative GPA Required: 2.0

Individuals interested in teaching in K-12 schools must complete a degree in the content area they want to teach plus the teacher preparation program through the Department of Curriculum and Instruction. Individuals must complete the teaching major/teaching track within that degree program, which may contain different course requirements than the academic major since the sequence of courses is designed to meet state standards. Upon completion of the degree program with the teaching track and the secondary licensure program, one will be eligible for a standard Montana teaching license in this content area.

Commentary: Degree Commentary

Students must take all core courses from The University of Montana's curriculum, but can receive content credit for relevant practicum and internships experience and for relevant courses taken at other universities if approved by the program director.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: Major Subject: **International Field Geos Dual**

Total Credits: 65 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Lower Division Core

Rule: Must complete all of the following courses

Criterion: C- Number of Credits 12

Course Listing

GEO 101N Intro to Physical Geology 3
GEO 102N Intro to Physical Geology Lab 1
GEO 211 Earth's History and Evolution 4
GEO 225 Earth Materials 4

Commentary: Upper Division Core

Category Name: Upper Division Core

Rule: Must complete all of the following courses

Criterion: C- Number of Credits 8

Course Listing

GEO 315 Structural Geology 4
GEO 318 Surface Processes 4

Rule: Must complete 17 credits from the following courses:

Criterion: C- Number of Credits 17

Course Listing

GEO 305 Igneous & Metamorph Petrology 4
GEO 309 Sedimentation/Stratigraphy 4
GEO 311 Paleobiology 3
GEO 320 Global Water 4
GEO 327 Geochemistry 4
GEO 420 Hydrogeology 4
GEO 433 Global Tectonics 3
GEO 460 Process Geomorphology 4
GEO 491 Special Topics 1 To 8

Commentary: Cognates

Category Name: Physics

Rule: Must complete 1 of the following sequences

Criterion: Number of Credits 10

Course Listing Commentary:

Subcategory Name: Physics

Rule: May complete the following sequence

Criterion: C- Number of Credits 10

Rule: Must complete the following courses and field work at Potsdam University Criterion: C- Number of Credits 27-30

Course Listing

Commentary: In addition to Geosciences coursework completed at UM students must complete the following:

1. Selection of one field course run by Potsdam University listed below 1a. BP 15 (Field Course - France)
1b. BW01 (Field Course - Norway) 1c. BW02 (field Course - Alps)
2. Any 4 of the following courses offered by Potsdam University 2a. Regional Geology
2b. Paleoclimate @ Quaternary Geology 2c. Analysis of Geologic Maps
2d. Analytic Geochemistry 2e. Natural Hazards
2f. Tectonophysics & Rheology 2g. Seismology
2h. Seismics
2i. Geoelectrics
2j. Sedimentary Systems & Stratigraphic Geomorphology 2k. Tectonics and Geodynamics
3. 2 additional cognate science courses to be taken at Potsdam University

Degree Commentary: This degree is designed specifically for students who seek to combine a rigorous education in the Geosciences with a yearlong international Geosciences experience and an emphasis on field-based learning. It requires attending classes and living overseas. For students who satisfy all degree requirements, a B.S. degree in International Field Geosciences will be awarded by The University of Montana and a second B.S. degree in International Field Geosciences will be awarded by the Potsdam University. The degree requirements specified below pertain both to UM-based and Potsdam-based students seeking their UM diploma. Potsdam-based students are eligible to satisfy any of the following specific requirements through credits that are transferred from Potsdam and approved as equivalent by the UM Geosciences undergraduate advisors.

Rule: Must complete the following courses and field work at University College of Cork and Potsdam University

Criterion: C- Number of Credits 33-36

Course Listing

Commentary: In addition to Geosciences coursework completed at UM students must complete the following:

1. 1 formal field course module run by University College Cork, selected from 1a. GL 2016 (Easter Field Course - Dingle Peninsula)
- 1b. GL 3019 (Easter Field Course - Western Scotland) 1c, ER 3002 (Easter Field Course - North Clare)
- 1d. GL 4008 (Easter Field Course - Central Greece)

- 1e. another equivalent-level field course run by UCC and approved apriori by their UCC and UM advisors
2. While in residence at Cork, students must complete any 9 of the following courses in consultation with their UCC and UM advisors
- 2a. Sed Processes and Petrology
- 2b. Igneous and MM Petrology
- 2c. Invertebrate Paleontology & Evolution 2d. Plate Tectonics & Global Geophysics 2e. Igneous Petrogenesis & Geochemistry 2f. Metamorphism & Geochronology
- 2g. Advanced Structural Geology
- 2j. Environmental Geology
- 2k. Terr Ecosystems Through Time 2l. Micropaleontology & Palynology
- 2m. Petroleum Geology & Basin Analysis
- 2n. Applied Geophysics & Computer Applications 2o. Advanced Igneous Petrology
- 2p. Hydrogeology
3. 1 formal upper-level Geosciences course at Potsdam University. Recommended are courses that focus on computer-based visualization or geoscience data using GIS or other visualization platforms
- Commentary: Degree Commentary

This degree is designed specifically for students who seek to combine a rigorous education in the Geosciences with a yearlong international Geosciences experience and an emphasis on field-based learning. It requires attending classes and living overseas. Most of the course work completed during the year abroad will take place at University College Cork (UCC) in Ireland. For students who satisfy all degree requirements, a joint B.S. degree in International Field Geosciences will be awarded by The University of Montana and the University College Cork.

Course Descriptions

Geoscience

GEO 101N - Introduction to Physical Geology

Credits: 3. Offered autumn and spring. General geology including the work of wind, flowing water, glacial ice, gravity, earthquakes, volcanoes and plate tectonics in shaping the earth. Course Attributes: Natural Science Course

GEO 102N - Introduction to Physical Geology Lab

Credits: 1. Offered autumn and spring. Prereq. or coreq., GEO 101N (preferred) or 105N or 108N. A series of laboratory and field experiences designed around basic geologic processes and materials. Familiarization with common minerals, rocks, land forms, and structures. Intended to provide laboratory experience primarily with GEO 101N, but can be taken with or following any of the other freshman GEO courses listed above. Course Attributes: Natural Science Lab Course

GEO 105N - Oceanography

Credits: 3. Offered spring. The ocean covers 70 % of the globe, and yet vast regions remain unexplored. Interactions between the atmosphere and the sea moderate and control our climate. Nearly 40 % of the world's population lives within 100 kilometers of the coast. The oceans are geographically, environmentally, culturally, and economically critical to society. This course introduces oceanography, including the origin of water and ocean basins; marine resources; atmospheric circulation; air-sea interaction; ocean-climate feedback; currents, tides, and coastal processes; marine ecology; and use and misuse of the oceans. Course Attributes: Natural Science Course

GEO 106N - History of Life

Credits: 3. Offered spring. The evolution of plants, invertebrates and vertebrate animals, highlighting major events in the evolution of life on Earth. Includes laboratory experience with fossils. Course Attributes: Natural Science Lab Course

GEO 107 - Natural Hazards

Credits: 3. Offered spring. Examination of volcanism, earthquakes, landslides, floods, coastal erosion, hurricanes, and asteroid impacts. Emphasis on processes, recognition and consequences of catastrophic events, and how to minimize their societal impacts.

GEO 108N - Climate Change

Credits: 3. Offered autumn. The geoscience perspective on the earth's climate system. Climate processes and feedbacks, climate history from early earth to the ice ages, present and future changes due to natural processes and human activities. Course Attributes: Natural Science Course

GEO 151 - Introduction to Fossil Fuels

Credits: 3. Offered autumn. A broad introduction to the basic principles and concepts related to the exploration for, the composition of, and the utilization of fossil fuels (coal, coal bed methane, natural gas, and oil). Environmental issues related to fossil fuel development and utilization are also addressed.

GEO 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

GEO 191N - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Internships/Practicums

GEO 211 - Earth's History and Evolution

Credits: 4. Offered autumn and spring. Prereq., GEO 101N and GEO 102N. Traces the history of the Earth since its inception 4.6 billion years ago. Presents scientific theories for the origin of the Earth and the nature of important earth shaping events of the past, including the development of the oceans, atmosphere, and climate.

GEO 225 - Earth Materials

Credits: 4. Offered autumn. Prereq., any geoscience 100 level lecture course, GEO 102N, CHMY 121N or 141N. Study of minerals and rocks utilizing an Earth Systems approach; mineral identification and paragenesis; survey of the distribution of minerals from the interior to the surfaces of planets and the processes that led to their formation.

GEO 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

GEO 304E - Science and Society

Credits: 3. Offered autumn. Role of scientific knowledge in human societies from the pre-Classical to the present. Discussion of tools for integrating science into ethical, political, and social decisions, including analyses of modern case studies from physical sciences. Course Attributes: Ethical & Human Values Course

GEO 305 - Igneous & Metamorph Petrology

Credits: 4. Offered spring. Prereq., GEO 225, CHMY 143N. Igneous rock associations, igneous processes and origins; metamorphic minerals and phase relationships, metamorphic zones, facies, and conditions; metamorphic environments, metallic minerals and mineral deposits.

GEO 309 - Sedimentation/Stratigraphy

Credits: 4. Offered spring. Prereq. GEO 211, 225. Origins of sediments and sedimentary rocks; climate, weathering, and weathering products; transport, deposition, and depositional environments of sediments; concepts and methods of stratigraphy including correlation of sedimentary rocks and an introduction to basin analysis.

GEO 311 - Paleobiology

Credits: 3. Offered spring. Prereq. GEO 101N or equiv. level Biology. Survey of the major groups of organisms in the geologic record and hands-on study of fossils; application of geologic and biologic data and principles to solve problems in geoscience and bioscience.

GEO 315 - Structural Geology

Credits: 4. Offered autumn. Prereq., GEO 211, 225. Structures of deformed rocks; mechanical principles; graphical interpretation of structural problems, tectonic principles.

GEO 317 - Planetary Science

Credits: 3. Offered autumn even-numbered years. Prereq., PHSX 205N/206N or PHSX 215N/216N and M 162, 171. Same as ASTR 351. Physical and geological characteristics of planets, satellites, asteroids, comets, and meteoroids with an emphasis on comparative planetology.

GEO 318 - Surface Processes

Credits: 4. Offered spring. Prereq., GEO 101/102, GEO 211, M 162 or M 171, and PHSX 205/206 or PHSX 215/216. This course will introduce students to the study of the earth using the laws and principles of physics. The course will describe the mechanisms underlying the processes that shape the earth and drive its evolution, including climate, tectonics, hydrology, glaciers, and geomorphology. The course will combine lectures, field data collection, data analysis, and lab activities.

GEO 320 - Global Water

Credits: 4. Offered autumn. Prereq. one semester of college chemistry, WRIT 101 or equiv., and completion of one writing course. Students are encouraged to take the UDWPA prior to taking this course. Fulfills the Upper Division Writing Requirement. Water is necessary for life. Without it, life as we know it cannot exist. This course discusses the chemistry of water as it moves through the hydrological cycle. We discuss how water chemistry evolves through atmospheric water, rain water, ground water, surface water, and sea water. Students will have an understanding of the chemical attributes of water in major water reservoirs. Class discussions, formal and informal writing assignments, a short laboratory experiment, and a field trip highlight examples of water chemistry. Students will use excel to solve problems and will learn citation conventions relevant for scientific writing. Course Attributes: Writing Course-Advanced

GEO 327 - Geochemistry

Credits: 4. Offered alternate years. Prereq. one year of college chemistry, one semester of calculus, and one semester of physical geology, or consent of instructor. One semester of mineralogy recommended. The chemical properties of elements control their geological distribution and underlie the basic physical properties of rocks. An understanding of geochemistry will help students understand water chemistry, sediment geochemistry, and igneous petrology. The course covers chemical principles applied to geologic materials and processes, including the origin and chemical composition of earth, atmosphere, and hydrosphere. Principles of stable and radiogenic isotope geochemistry are discussed. Students will use excel to solve problems. Class discussions, problems sets, and exams are used to assess student performance.

GEO 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

GEO 392 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Specific topics of particular interest to individual students.

GEO 398 - Internship

Credits: 1 TO 6. Offered every term. Prereq., 12 credits in geosciences. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. No more than 3 credits of GEO 398 may be applied to the geosciences minor. A maximum of 6 credits of Internship may count toward graduation. Course Attributes: Internships/Practicums

GEO 420 - Hydrogeology

Credits: 4. Offered spring. Prereq., GEO 101N-102N; PHSX 205N/206N or PHSX 215N/216N ; M 162 or 171 strongly recommended or consent of instr. Occurrence, movement, quality, and methods of quantification of groundwater. Geological framework and physics of groundwater flow. Supply, contamination, and management problems.

GEO 421 - Hydrology

Credits: 3. Offered autumn. Prereq. one semester college calculus and physics or consent of instructor. Introduction to the physical mechanisms that drive the water cycle at different scales. The course covers heat, momentum and mass transfer and storage mechanisms in turbulent systems and their role in the global and local climates. At the local scale, the equations that govern surface and subsurface water flows are studied. Along with the overarching goals, students will improve their quantitative skills, will gain experience accessing and reading the professional literature and will improve their capabilities to acquire knowledge independently.

GEO 433 - Global Tectonics

Credits: 3. Offered autumn. Prereq., GEO 315, M 162, and 2.25 or better overall GPA in geosciences courses. Geodynamics and tectonics of the Earth and other planets. Course material includes methods of observing tectonic processes and tectonic phenomena, both at the surface and in the deep earth, over a wide range of time scales.

GEO 443 - Principles of Sedimentary Petrology

Credits: 4. Offered autumn. Prereq., GEO 225 or graduate standing. Field, hand specimen and thin section petrology of siliciclastic and carbonate rocks, emphasis on tectonic and diagenetic interpretation of siliciclastic rock and environments of deposition and diagenesis of carbonate rocks.

GEO 460 - Process Geomorphology

Credits: 4. Offered autumn. Prereq., one semester college calculus and physics. Quantitative examination of landforms, runoff generation, weathering, mechanics of soil erosion by water and wind, mass wasting, glacial and periglacial processes and hillslope evolution.

GEO 482 - Global Change

Credits: 3. Offered Spring. Same as CCS 482. Prereq., upper division/higher standing in Geosciences or consent of instructor. Lectures, readings, discussions and practicum on the complexity of global climate. Emphasizes the physical, geochemical and geologic processes affecting climate change over geologic and recent time scales.

GEO 488 - Snow, Ice and Climate

Credits: 3. Offered spring. Prereq., M 121. Study of basic physical processes occurring in snow and ice, and how these processes govern the interaction between frozen water and the climate system. The first half of the course focuses in snow, with special attention to snow formation in the atmosphere, snow metamorphism, water flow through snow, and basic avalanche mechanics. The second half of the course focuses on ice and includes glacier and ice sheet flow dynamics, glacier hydrology, and ice age theory. Graduate students will be required to complete additional problem sets requiring higher level math; perform additional reading assignments; perform at a higher level on assignments and exams where students are asked to outline and describe various physical processes;

submit a well researched and reference research proposal that is able to synthesize previous research and provide a sophisticated research plan.

GEO 491 - Special Topics

Credits: 1 TO 8. (R-8) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses or one-time offerings of current topics.

GEO 492 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Specific topics of particular interest to individual students.

GEO 494 - Senior Geology Seminar

Credits: 1 TO 10. (R-10) Offered intermittently. Prereq., upper-division standing in geosciences or consent of instr. Independent study of various topics under the direction of a faculty member.

GEO 498 - Internship

Credits: 1 TO 6. Offered every term. Prereq., 12 credits in geosciences. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. No more than 3 credits of GEOS 398 may be applied to the geosciences minor. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation.

Course Attributes: Internships/Practicums

GEO 499 - Senior Thesis /Capstone

Credits: 3 TO 10. (R-10) Offered every term. Prereq., 18 credits in geosciences. Independent research project in any geosciences topic supervised by faculty member, and leading to completion of baccalaureate degree. Course

Attributes: Writing Course-Advanced

GEO 508 - Fundamentals of Academic Research

Credits: 2. Offered autumn. Prereq., graduate standing. An introduction to research methods and tools in the academic setting intended for first semester graduate students in geosciences. Topics include proposal writing, presenting research results in oral and written formats, using computer tools for research in the geosciences, and ongoing research of department faculty. Level: Graduate

GEO 528 - Sedimentary Basin Analysis

Credits: 4. Offered intermittently. Influence of allocyclic processes (tectonism, climate, eustacy, etc.) in shaping the evolution of sedimentary basins. Emphasis on integration and synthesis of tools of sedimentary basins analysis, including the study of depositional systems, provenance, paleocurrents, subsidence, sequence stratigraphy, and well logs. Level: Graduate

GEO 531 - Environmental Geochemical Metal Contamination

Credits: 4. Offered intermittently. Prereq., GEO 570, 579; CHMY 442; FOR 511 or consent of instr. Integration of major processes and cycles transporting, fixing, and transforming inorganic contaminants in aquatic systems, soils, sediments and subsurface environments. Concentration on research to solve complex environmental problems.

Level: Graduate

GEO 548 - Topics in Cryosphere

Credits: 3. (R-6 M.S., R-12 Ph.D.) Prereq., graduate standing or consent of instructor. Readings, discussions, lectures, and field experiments on various topics related to snow, ice, and climate processes. Recent topics: meltwater infiltration in snow, glacier hydrology, climate cycles, ice, and sea level rise. Level: Graduate

GEO 560 - Fluvial Geomorphology

Credits: 3. Offered spring. Prereq., graduate standing or consent of instructor. Application of fluid mechanics to sediment transport and development of river morphology. Form and process in river meanders, the pool-riffle sequence, aggradation, grade, and baselevel. Level: Graduate

GEO 570 - Aqueous Geochemistry

Credits: 4. Offered alternate years. Prereq. one year college chemistry and one year of calculus, or consent of instructor. Water is necessary for life. Water carries nutrients, dissolved minerals, and contaminants through the hydrological cycle and within living systems. This course discusses the chemistry of aqueous systems including aqueous kinetics, aqueous thermodynamics, acid/base chemistry, carbonate systematics, oxidation/reduction reactions, mineral solubility, and complexation. It includes an introduction to the use of geochemical models to model kinetic and thermodynamic systems. Concepts are applied to examples from natural systems that are selected based on the interests of the students in the class. Students are evaluated by problem sets, exams, and a term paper Level: Graduate

GEO 572 - Advanced Hydrogeology

Credits: 3. Offered autumn. Prereq., GEO 420 or consent of instr. Advanced concepts used in groundwater investigations, including flow systems analysis, hydrogeologic monitoring and sampling, resource evaluation, exploration, development and monitoring, and contaminant transport. Special problem areas in groundwater exploration and management. Level: Graduate

GEO 573 - Application Groundwater Modeling

Credits: 3. Offered spring. Prereq., GEO 420 or consent of instr. Development of numerical modeling techniques, finite difference and finite element modeling of groundwater flow systems. Application of standard 2D and 3D models to field problems. Level: Graduate

GEO 579 - Chemistry of Hot Springs

Credits: 3. Offered alternate years. Prereq., one year of college of chemistry or consent of instr. Hydrothermal systems support the most ancient microorganisms and may have been the locus for the first appearance of life on Earth. Terrestrial hot springs are the surface expression of deep circulation of fluids that concentrate elements, opening a window into processes leading to ore formation. This course discusses the chemistry and geology of hydrothermal systems including solute/gas geothermometry, acid/base reactions, oxidation/reduction reactions, mineral equilibrium, and microbial ecology as applied to terrestrial and submarine hydrothermal systems. The course includes an introduction to the use of geochemical models and a field trip to a hot spring system. Students are evaluated on class discussions and presentations, problems sets, and a term paper. Level: Graduate

GEO 580 - Topics Mineral & Petrol

Credits: 1 TO 12. (R-6 for M.S., R-12 for Ph.D.) Prereq., consent of instr. Offerings on request of graduate students by arrangement with appropriate faculty. Recent topics: tectonics and petrology; alkaline igneous rocks. Level: Graduate

GEO 582 - Tps Structure & Geophysics

Credits: 1 TO 12. (R-6 for M.S., R-12 for Ph.D.) Prereq., consent of instr. Offerings on request of graduate students by arrangement with appropriate faculty. Recent topics: structural analysis, Precambrian crustal evolution, field trips on Rocky Mountain structure. Level: Graduate

GEO 583 - Tps Strat, Sed & Paleo

Credits: 1 TO 12. (R-6 for M.S., R-12 for Ph.D.) Prereq., consent of instr. Offerings on request of graduate students by arrangement with appropriate faculty. Recent topics: evolution of life; Proterozoic stratigraphy; reefs through time. Level: Graduate

GEO 585 - Tps Hydro Low-Temp Geochem

Credits: 1 TO 12. (R-6 for M.S., R-12 for Ph.D.) Prereq., consent of instr. Offerings on request of graduate students by arrangement with appropriate faculty. Recent topics: field methods, well design, contaminant transport, geochemical modeling. Level: Graduate

GEO 587 - Geomorph Seminar

Credits: 1 TO 6. (R–6 for M.S., R–12 for Ph.D.) Offered alternate years. Prereq., consent of instr. Reading and discussion of relevant papers. Offerings on request of graduate students by arrangement with appropriate faculty. Recent topics: landscape evolution; weathering processes; tectonic geomorphology. Level: Graduate

GEO 590 - Supervised Internship

Credits: 1 TO 12. Offered intermittently. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate Course Attributes: Research & Creative Schlrshp

GEO 595 - Special Topics

Credits: 1 TO 8. (R–8) Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one–time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

GEO 597 - Advanced Problems

Credits: 1 TO 10. (R–10) Offered intermittently. Prereq., consent of instr. Investigations of geological problems exclusive of thesis or dissertation research. Level: Graduate

GEO 599 - Thesis Research

Credits: 1 TO 12. (R–6) Offered every term. Prereq., thesis proposal approval. Directed research to serve as thesis for the master degree. Credit assigned upon submittal of final copy of approved and bound thesis. Level: Graduate

GEO 699 - Dissertation Research

Credits: 1 TO 12. (R–12) Offered every term. Prereq., dissertation proposal approval. Directed research to serve as dissertation for the Ph.D. degree. Credit assigned upon submittal of final copy of approved and bound dissertation. Level: Graduate

History Department

Robert H. Greene, Chair

The History Department offers an exciting program of instruction for undergraduates in search of a broad education. The curriculum is designed to provide knowledge and understanding of the background and ramifications of present local, national, and world affairs. The program emphasizes historical analysis and critical thought rather than the memorization of facts. History majors are taught how to read critically, analyze thoughtfully, conduct research carefully, and write intelligently.

The department offers a wide variety of courses ranging in time, space, and theme. Courses span the full range of American history from the colonial period through the recent past. More specialized courses in local and regional history focus on Montana, the West, and the northern Rockies. Offerings in European and world history emphasize social, cultural, and intellectual history, French and German history, British history, Russian and Soviet history, Latin American history, Islamic civilization, East Asian history, and Central and Southwest Asian history. Topical courses explore issues of democracy, diplomacy, human rights, war and peace, terrorism, race and gender, religion, and environmental history.

History provides not only a basis for future employment but also, more importantly, furnishes knowledge and perspective for intelligent leadership in community affairs. Graduates are employed in federal, state, or local governments, with positions ranging from elected office to research analysts. Many teach history in middle schools

and high schools while others pursue advanced degrees at the graduate level. Still others go on to attain professional degrees in law, journalism, and business.

The History Department at the University of Montana boasts professors with award-winning scholarship and active research agendas, which greatly enhances the education and training we provide to our students.

The Department offers the Bachelor of Arts, Bachelor of Arts for teaching, Master of Arts, and the Doctor of Philosophy degrees. Our graduate students have found great success in a diverse range of occupations in public history, in education, and in academia.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: **History**

Total Credits: 40 Cumulative GPA Required: 2.0

A minimum of 40 credits in History are required, 21 of which must be upper division credits. A maximum of 60 credits in History are allowed. Penalties will apply for more than 60 credits.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: History Option: **History Education**

Total Credits: 45 Cumulative GPA Required: 2.0

Individuals interested in teaching in K-12 schools must complete a degree in the content area they want to teach plus the teacher preparation program through the Department of Curriculum and Instruction. Individuals must complete the teaching major/teaching track within that degree program, which may contain different course requirements than the academic major since the sequence of courses is designed to meet state standards. Upon completion of the degree program with the teaching track and the secondary licensure program, one will be eligible for a standard Montana teaching license in this content area.

Secondary Education Licensure Program

Licensure Degree Requirements

Students may earn a teaching major in history by completing the requirements for the BA in history, to include the following: HSTA 101 or 102; HSTR 101 or 102; HSTR 200; HSTA 255; 9 credits in world history; 6 upper-division credits in American history; 6 upper-division credits in European history; 6 additional credits upper-division history electives; one HSTA/HSTR 400-level approved writing course; and EDU 497 (C&I 428). All requirements for the history major apply. Students with a teaching major in history must also complete a teaching major or minor in a second field. For the history teaching major, students must be formally admitted to the Teacher Education Program

and complete all of the professional education licensure requirements. Students may also earn a teaching minor in history. See the Department of Curriculum & Instruction for more information.

Course Descriptions

History

HIST 141H - Black: Africa to Hip-Hop

Credits: 3. Offered autumn. Same as AAS 141H. This course introduces students to the primary questions, themes, and approaches to African-American Studies. In addition to examining key historical periods such as Reconstruction, the Harlem Renaissance, and the Civil Rights era, students will encounter Hip-Hop, African-

American film, African-American religion, and contemporary identity politics. This course concludes by discussing the reasons for and new directions in African-American studies, including diaspora studies, Pan-Africanism, and post-colonial studies. Overall students will gain new insight into the social, cultural, political, and intellectual, experiences of a diverse people and into the history and contemporary experience of the United States. Course Attributes: Historical & Cultural Course Indigenous and Global

HIST 208H - Discovering Africa

Credits: 3. Offered intermittently. Same as AAS 208H. Interdisciplinary study of the history of pre-colonial Africa, focusing on social, economic, political and cultural institutions and traditions including the wealth, diversity and complexity of ancient and classical African civilizations and cultures. Course Attributes: Historical & Cultural Course

HIST 262 - Abolitionism: The First Civil Rights Movement

Credits: 3. Offered spring. Same as AAST 262. Interdisciplinary, historical perspective on the early 19th century movement to abolish slavery and racial discrimination in the United States.

HIST 457 - Artistic Trad Cent & SW Asia

Credits: 3. Offered autumn and spring. Same as HSTR 459. Analysis of the study of human artistic creativity and scientific innovations of various cultures in Central and Southwest Asia since ancient times.

HIST 462 - Central Asia Seminar

Credits: 3. Offered spring. Advanced analysis of the historical and contemporary issues involving the human communities, cultures, and economies in Central and Southwest Asia.

HIST 464 - Hist of Indian Affairs to 1776

Credits: 3. Offered Autumn. Same as NASX 464. A study of American Indian relations with Europeans and the United States from first contact to 1776.

HIST 465 - Hist Amer Indian Affrs 19 Cent

Credits: 3. Offered Spring. Same as NASX 465. A study of tribal encounters and adjustments to the American nations in the nineteenth century.

HIST 466 - Hist of Indian Affrs from 1890

Credits: 3. Offered Autumn. Same as NASX 466. A study of tribal encounters and adjustments to the American nation from 1890.

HIST 482 - Revolution & Reform in China

Credits: 3. Offered autumn. A history of the rise and fall of the Maoist regime and the complicated impact of the epochal post Mao reform movement.

History: American

HSTA 101H - American History I

Credits: 4. (AM) Offered autumn. A comprehensive introductory history of Colonial, Revolutionary and 19th century America, to 1877. Lecture-discussion. Credit not allowed for both 101H and 103H. Course Attributes: Historical & Cultural Course American and European

HSTA 102H - American History II

Credits: 4. (AM) Offered spring. A comprehensive introductory history of the U.S. since 1877. Lecture-discussion. Credit not allowed for both 102H and 104H. Course Attributes: Historical & Cultural Course American and European

HSTA 103H - Honors American History I

Credits: 4. (AM) Offered autumn. Enrollment by consent of instructor. A comprehensive introductory history of Colonial, Revolutionary, and 19th century America, to 1877. Lecture-honors discussion. Credit not allowed for both 103H and 101H. Course Attributes: Historical & Cultural Course Honors Course American and European

HSTA 104H - Honors American History II

Credits: 4. (AM) Offered spring. Enrollment by consent of instructor. A comprehensive introductory history of the U. S. since 1877. Lecture-honors discussion. Credit not allowed for both 104H and 102H. Course Attributes: Historical & Cultural Course Honors Course American and European

HSTA 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

HSTA 198 - Internship

Credits: 1 TO 6. Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation.

HSTA 255 - Montana History

Credits: 3. (AM) Offered autumn. An introductory and interpretive history from Lewis and Clark to 2000.

HSTA 262 - Abolitionism

Credits: 3. (AM) Same as AAS 262. Offered spring. Interdisciplinary, historical perspective on early 19th century movement to abolish slavery and racial discrimination in the United States.

HSTA 291 - Special Topics

Credits: 1 TO 12. (R-12) (AM) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

HSTA 311 - Early America

Credits: 3. (AM) Offered even-numbered years. Emphasis changes from year to year. Can touch upon the political economy of Puritanism, through gender and family to the preconditions for the American Revolution.

HSTA 315 - Early American Republic

Credits: 3. (AM) Offered spring odd-numbered years. Democracy, nationalism and sectionalism, the War of 1812, the second party system, social order and disorder, the capitalist revolution. Course Attributes: Writing Course-Intermediate

HSTA 316 - American Civil War Era

Credits: 3. (AM) Offered autumn odd-numbered years. Civil War and Reconstruction; the triumph of the industrialist and capitalist ethic.

HSTA 320 - Birth of Modern US

Credits: 3. (AM) Offered autumn odd-numbered years. The history of the U.S. from 1877 to 1920 is largely the story of Americans responding to profound social, cultural and economic change. In an effort to bring order to their changing world, Americans created new institutions, retooled their ideologies, and improved the nation's infrastructure. The order they created is, in modified form, still with us today. Students will explore the myriad changes that transformed the United States during this period and study the social, political, and cultural struggles that shaped the emergence of Modern America.

HSTA 321 - America in Crisis

Credits: 3. (AM) Offered autumn. This era in U.S. history was marked by a series of crises: the contested transition to modernity during the 1920s, the Great Depression, and World War II and its aftermath. This course will explore how Americans responded to these crises, why they responded to them the way they did, and how their responses altered the society in which they lived.

HSTA 322 - U.S. History: WWII to Present

Credits: 3. (AM) Offered spring. The Cold War and its consequences, the civil rights revolution, affluence and anxiety, counter-culture, political radicalism, feminism, the Nixon years, Watergate and after.

HSTA 323 - U.S. in the 1950s

Credits: 3. (AM) Offered alternate years, Examines the political, social, cultural, intellectual developments of America in the 1950s. Particular emphasis is placed on cultural history.

HSTA 324 - U.S. in the 1960s

Credits: 3. (AM) Offered alternate years, Examines the political, social, cultural, intellectual developments of America in the 1960s. Topics include the Great Society, political radicalism, the counter culture, black radicalism, and Vietnam.

HSTA 327 - Atlantic World Slavery

Credits: 3. (AM) Offered alternate years. This course will examine the development and demise of slavery in the early modern Atlantic world, from the late fifteenth to the late nineteenth centuries. Specifically, we will explore the ways the transatlantic slave trade forged economic and cultural connections between Europe, Africa, and the Americas, thereby causing immeasurable suffering while conditioning conceptions of race, reshaping politics and religion, and transforming the ecology of nearly a third of the globe.

HSTA 333 - American Military History

Credits: 3. (R-6) (AM) Offered intermittently. The French and Indian Wars to Vietnam and beyond; chronological and topical accounts.

HSTA 335 - Movie America

Credits: 3. (AM) Offered intermittently. This course examines major topics and themes in United States history from the early twentieth century to the present using movies as primary sources.

HSTA 342H - Afr Amer Hist to 1865

Credits: 3. (AM) Offered intermittently. Same as AAS 342. Survey of the African American experience from the African background to the end of the Civil War. Focus on Black American quest for the American Dream, and how Blacks attempted to deal with the challenges of enslavement and racism. Course Attributes: Historical & Cultural Course

HSTA 343H - Afr Amer Hist Since 1865

Credits: 3. (AM) Offered intermittently. Same as AAS 343H. Study of the African American experience since the Civil War. Change and continuity in the African American experience, the fight against Jim Crow, the struggle for civil rights, and post-civil rights economic, political, social and cultural developments and challenges. Course Attributes: Historical & Cultural Course

HSTA 347 - Voodoo, Muslim, Church: Black Religion

Credits: 3. (AM) Spring, odd years. The African American religious experience encompasses Islam, Christianity, Santeria, voodoo, and many others. In this course, students will examine the history of religious expression within the African-American community from the colonial era through the twentieth century. Central to the course question, "How did religion shape the experience of the African-American community?" Students will also examine the ways in which religious practice influenced social, political, and cultural changes in American history. Same as AAS 347. Course Attributes: Writing Course-Intermediate

HSTA 361 - The American South

Credits: 3. (AM) Offered intermittently. Social history of the American South with particular attention to race, class, and gender. Course Attributes: Historical & Cultural Course

HSTA 370H - Wmn Amer Colonial to Civil War

Credits: 3. Offered autumn. Interpretive overview of major themes and events in U.S. women's history to 1865. Same as WGS 370H. Course Attributes: Historical & Cultural Course

HSTA 371H - Wmn Amer Civil War to Present

Credits: 3. Offered spring. Interpretive overview of major themes and events in U.S. women's history from 1865 to the present. Same as WGS 371. Course Attributes: Historical & Cultural Course

HSTA 372 - The American Revolution

Credits: 3. (AM) Offered alternate years. Delving into the history of the early modern Atlantic world, this course examines the transnational ramifications of the American Revolution. Specifically, it examines the Revolution's economic and ideological origins, European involvement in the Revolutionary War, as well as the Revolution's impact on African American slavery and the slave trade. We will also consider its implications for Haitian and Latin American independence. And finally, we will discuss the creation of the U.S. Constitution, America's struggle for political sovereignty, and the Revolution's impact on Native Americans, women and families, and conceptions of American identity during the Early National period.

HSTA 377 - Alcohol in American History

Credits: 3. (AM) Offered intermittently. This course explores the controversial history of alcohol in American history beginning in the colonial period and ending in the recent past. It blends varied historical approaches, including political, legal, business, social, and cultural history, to interrogate the manifold ways that alcohol has shaped the American nation and the everyday lives of its citizens.

HSTA 380 - American Constitutional History

Credits: 3. (AM) Offered intermittently. An examination of major issues in the American constitutional past. Topics include the creation of the U.S. Constitution and the problem of "original intent," courts and judicial review, slavery and anti-slavery, the bill of rights, industrial capitalism and the welfare state, and majority rule and minority rights in American democracy

HSTA 382H - History of American Law

Credits: 3. (AM) Offered intermittently. Issues in the social history of law from the colonial period to the present.

Course Attributes: Historical & Cultural Course

HSTA 385 - Families & Children in America

Credits: 3. (AM) Offered intermittently. Historical overview of families and children in the United States from the colonial era to the present. Topics include changing patterns of family life, the evolution of attitudes toward children and youth, the relationship between the American family and the nation-state, and debates over "family values" from the nation's founding to the present. Course Attributes: Writing Course-Intermediate

HSTA 391 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

HSTA 415 - The Black Radical Tradition

Credits: 3. (AM) Offered autumn, odd years. Same as AAS 415. Enrollment for history majors and minors, graduate students in history, or by consent of the instructor. Prereq. HSTR 200. From slave revolts through to the Move rebellion in Philadelphia, this course examines how the African-American community has engaged in radical efforts to change the status quo in the name of seeking justice. Course Attributes: Writing Course-Advanced

HSTA 417 - Prayer & Civil Rights

Credits: 3. (AM) Offered autumn, even years. Same as AAS 417 and RELS 417. Enrollment for history majors and minors, graduate students in history, or by consent of the instructor. Prereq. HSTR 200. This course explores the meaning of public prayer in the Civil Rights Movement. Built around the question, "Does religion help or hinder the pursuit of social change?" this class combines historical and religious studies inquiry to trace changes in civil rights activists' efforts to make use of religion. By focusing on a particular religious practice - in this case prayer - in a specific, but limited period of time, this course challenges students to consider how meaning is formed through historical action and study the social significance of religious practice. This formed through historical action and study the social significance of religious practice. This course complicates prevailing ideas about the normalcy of African-American religious practitioners' prayer, invites students to examine their assumptions about the nature of prayer, and traces how religion spilled out of sanctuaries into the streets during the civil rights era. Course Attributes: Writing Course-Advanced

HSTA 418 - Women and Slavery: Research Sem

Credits: 3. (AM) Offered intermittently. Prereq. HSTR 200. Enrollment for history majors and minors, graduate students in history, or by consent of the instructor. Study of the connection between women's status and slavery in antebellum America, looking at slave women, slaveholding women, and antislavery women. Upper division writing course for the history major. Course Attributes: Writing Course-Advanced

HSTA 419 - Southern Women: Research Sem

Credits: 3. (AM) Offered intermittently. Prereq. HSTR 200. Enrollment for history majors and minors, graduate students in history, or by consent of the instructor. Examination of the connections between race, class, and gender in the South. Conflict and cooperation among black and white women in politics, reform, and work. Upper division writing course for the history major. Course Attributes: Writing Course-Advanced

HSTA 422 - U.S. After WWII: Research Sem

Credits: 3. (AM) Offered alternate years. Prereq. HSTR 200. Enrollment for history majors and minors, graduate students in history, or by consent of the instructor. This course offers students an opportunity to do original research and produce an article-length research paper on a topic in post-war American history. It meets the department's requirement of an upper-level research seminar as well as the upper-division writing expectation in the major. Course Attributes: Writing Course-Advanced

HSTA 461 - Research in Montana History

Credits: 3. (AM) Offered intermittently. Prereq. HSTR 200. Enrollment for history majors and minors, graduate students in history, or by consent of the instructor. This course is a research and writing seminar in Montana history. Students will learn advanced research methodology in history and will be exposed to a variety of databases and source collections in Montana history that are available locally and online. Students will research and write a primary-source based paper on a topic in Montana history. This course fulfills the upper-division writing requirement for the history department and the university. Course Attributes: Writing Course-Advanced

HSTA 469 - Atlantic America Research Sem

Credits: 3. (AM) Offered intermittently. Prereq. HSTR 200. Enrollment for history majors and minors, graduate students in history, or by consent of the instructor. This seminar is designed to teach advanced undergraduate and graduate students the fundamentals of original research in the fields of early American and Atlantic world history. Every student will pursue an original research project, based on primary materials, and focused chronologically within the period of early contact to the U.S. Civil War. You will read texts that will serve as models of historical writing and others that will help you develop your skills as a researcher, writer, and editor. We will hone our writing skills through drafting and discussion. Consent of instructor required. Course Attributes: Writing Course-Advanced
HSTA 471 - Writing Women's Lives

Credits: 3. (AM) Offered intermittently. Prereq. HSTR 200. Enrollment for history majors and minors, graduate students in history, or by consent of the instructor. Consent of instructor required. Upper-division writing-intensive seminar in women's history. Students will write an original research paper based on primary source materials. Course Attributes: Writing Course-Advanced
HSTA 491 - Special topics

Credits: 1 TO 12. (R 12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

HSTA 494 - Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. Consent of instructor.

HSTA 501 - Readings in Early Am Hist

Credits: 3. Graduate readings course in U.S. history covering the period from pre-contact to 1877. Level: Graduate
HSTA 502 - Readings in Modern Am Hist

Credits: 3. Graduate readings course in U.S. history covering the period from 1877 to the present. Level: Graduate
HSTA 550 - Early America

Credits: 3. Intensive reading. Level: Graduate

HSTA 551 - The Early American Republic

Credits: 3. Intensive reading. Level: Graduate

HSTA 552 - Industrial America: 1863-1932

Credits: 3. Intensive reading. Level: Graduate

HSTA 553 - Modern America

Credits: 3. Intensive reading. Level: Graduate

HSTA 564 - US Environmental History

Credits: 3. Intensive reading. Level: Graduate

HSTA 566 - The American West

Credits: 3. Intensive reading. Level: Graduate

HSTA 567 - Research in History

Credits: 3. Intensive reading. Level: Graduate

HSTA 570 - U.S. Women's History

Credits: 3. Intensive readings. Level: Graduate

HSTA 594 - Seminar

Credits: 1 TO 12. (R-12) Prereq., 27 credits in history. Directed research. Level: Graduate

HSTA 595 - Special Topics

Credits: 0 TO 9. (R-9) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

HSTA 596 - Independent Study

Credits: 0 TO 12. (R-12) Course material appropriate to the needs and objectives of the individual student. Level: Graduate

HSTA 597 - Independent Study

Credits: 1 TO 9. (R-9) Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

HSTA 598 - Internship

Credits: 1 TO 8. (R-8) Prereq., consent of department and Internship Services office. Practical application of classroom learning in off-campus placements. Level: Graduate

HSTA 599 - Professional Paper

Credits: 1 TO 6. (R-6) Preparation of a professional paper appropriate to the needs and objectives of the individual student. Level: Graduate

HSTA 699 - Thesis/Dissertation

Credits: 1 TO 6. (R-6) Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

History: World

HSTR 101H - Western Civilization I

Credits: 4. (EU) Offered autumn. A comprehensive, introductory history of western civilization from classical antiquity to 1648. Lecture-discussion. Credit not allowed for both 101H and 103H. Course Attributes: Historical & Cultural Course American and European

HSTR 102H - Western Civilization II

Credits: 4. (EU) Offered spring. A comprehensive, introductory history of western civilization from 1648 to the present. Lecture-discussion. Credit not allowed for both 102H and 104H. Course Attributes: Historical & Cultural Course American and European

HSTR 103H - Honors Western Civilization I

Credits: 4. (EU) Offered autumn. Limited enrollment by consent of instr. only. A comprehensive, introductory history of western civilization from classical antiquity to 1648. Lecture-honors discussion. Credit not allowed for both 103H and 101H. Course Attributes: Historical & Cultural Course Honors Course American and European

HSTR 104H - Honors Western Civilization II

Credits: 4. (EU) Offered spring. Limited enrollment by consent of instr. only. A comprehensive introductory history of western civilization from 1648 to the present. Lecture-honors discussion. Credit not allowed for both 104H and 102H. Course Attributes: Historical & Cultural Course Honors Course American and European

HSTR 146H - The Silk Road

Credits: 3. (WRLD) Offered autumn and spring. Same as AS and ANTH 106H. Introduction to the study of the human communities, cultures, and economies in Central and Southwest Asia along the ancient four thousand mile-long Silk Road. Course Attributes: Historical & Cultural Course Indigenous and Global

HSTR 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

HSTR 198 - Cooperative Educ/Internship I,

Credits: 1 TO 6. Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

HSTR 200 - Intro: Historical Methods

Credits: 1. Offered autumn and spring. Enrollment limited to history majors or by consent of the instructor. This course introduces students to the practice of history and prepares them for upper-division courses in the field. Students will learn to critically read secondary sources, research in primary sources, analyze documents, and write clear and convincing historical essays. This course is required for recently declared history majors and minors. Students should take it before taking upper-division history courses.

HSTR 230H - Colonial Latin America

Credits: 3. (WRLD) Offered autumn. Latin America from conquest by Spain and Portugal to wars for independence. Focus on social relations, imperial and local politics, hegemony, resistance, and change. Course Attributes: Historical & Cultural Course Indigenous and Global

HSTR 231H - Modern Latin America

Credits: 3. (WRLD) Offered spring. Latin America from wars of independence to the present. Focus on social relations, development models, politics, and popular movements. Course Attributes: Historical & Cultural Course Indigenous and Global

HSTR 240 - East Asian Civilizations

Credits: 3. (WRLD) Offered autumn. Same as AS 201. An interdisciplinary, pluralist, and exploratory introduction to civilizations of East Asia. Primary focus on China, Japan, and Korea, the relations among them and their patterns of interaction with the outside world in pre-modern and modern periods.

HSTR 241H - Central Asian Cult & Civ

Credits: 3. (WRLD) Offered autumn. Same as ANTY 241H. Introduction to Central Asia's history, culture and ways of thinking. Focus on the political and social organization of Central Asia and cultural changes as expressed in art and interactions with China, India and the Middle East. Course Attributes: Historical & Cultural Course Indigenous and Global

HSTR 262H - Islamic Civil: Classical Age

Credits: 3. (WRLD) Offered autumn. A concise history of the Islamic world from the 6th century to the fall of the Abbasid Empire in the 13th century, focusing primarily on the teachings of Islam and the causes for the rapid expansion of the Islamic empire. Course Attributes: Historical & Cultural Course

HSTR 264 - Islamic Civ: Modern Era

Credits: 3. (WRLD) Offered spring. History of the Islamic world and particularly the Persian, Arabic, and Turkish speaking lands between 1453 and 1952.

HSTR 272E - Terrorism:Viol Mod Wrld

Credits: 3. (WRLD) Offered autumn. Prereq., lower-division course in Perspective 5 or consent of instr. The rise and spread of terrorism in the modern world, from the French Revolution to the present. Course Attributes: Ethical & Human Values Course

HSTR 291 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

HSTR 300 - Writing For History

Credits: 3. Students will learn the fundamentals of writing history through study of a topic that will change according to the expertise of the instructor of record. Through a multi-drafting writing process students will hone their research skills, learn how to craft interpretive theses, develop outlines, and gain experience in drafting and re-drafting their written work. Students will also learn how to compose strong prose, organize historical arguments, and manage the mechanics of proper citation. Course Attributes: Writing Course-Intermediate

HSTR 302H - Ancient Greece

Credits: 3. (EU) Offered intermittently. Greek history from the earliest times through the Macedonian ascendancy, based on the writings of the Greek historians. Course Attributes: Historical & Cultural Course

HSTR 312 - Age of Absolut 1648-1789

Credits: 3. (EU) Offered intermittently. The political, economic, intellectual, and social development of Europe 1648-1789. Course Attributes: Historical & Cultural Course

HSTR 320 - Europ Social & Intellect Hist

Credits: 3. (EU) Offered autumn. The influence of the Renaissance, Baroque and Classical Ages, and the Enlightenment on early modern history.

HSTR 323 - Europ Social & Intellect Hist

Credits: 3. (EU) Offered autumn. Romanticism, Realism, and the Avant-Garde against the historical background of the Industrial Revolution and urbanization. Course Attributes: Historical & Cultural Course

HSTR 325 - Europ Social & Intellect Hist

Credits: 3. (EU) Offered spring. The triumph of the Avant-Garde and the decline of traditional culture: 1914-1945. Course Attributes: Historical & Cultural Course

HSTR 326 - Contemporary Europe

Credits: 3. (EU) Offered autumn odd-numbered years. European politics, culture, and society since 1945.

HSTR 334 - Latin America: Reform & Revolution

Credits: 3. (WRLD) Offered intermittently. Different ideologies and projects in Latin America aimed at gradual or radical transformation of political systems and/or socio-economic relations. From the Haitian Revolution to the Bolivarian vision of Hugo Chavez. Course Attributes: Writing Course-Intermediate

HSTR 335 - Latin America: Workers & Labor

Credits: 3. (WRLD) Offered intermittently. Study of the experiences and agency of diverse working people in Latin America. Influence of race, ethnicity, gender, religion, and generation on working class identity and movements. Labor organizations and politics in historic context.

HSTR 343 - Modern Japan

Credits: 3. (WRLD) Offered spring. Japanese culture, politics, and economics since 1800: the Tokugawa period, the Meiji Restoration, militarization and the Great Pacific War, the American occupation, Japan as a model of modernization.

HSTR 345H - Modern China

Credits: 3. (WRLD) Offered autumn. China since 180, emphasizing internal weaknesses of the Manchu dynasty, confrontation with the west, and the emergence of Nationalist and Communist regimes. Course Attributes: Historical & Cultural Course

HSTR 348 - Britain 1485-1688

Credits: 3. (EU) Offered autumn. Social, political, religious, and intellectual history of the British peoples during the tumultuous period of reformation, exploration, constitutional crisis, and civil war.

HSTR 349 - Britain from Rev - Reform 1688

Credits: 3. (EU) Offered spring. The social, political, cultural, and intellectual consequences of British expansion, financial and industrial revolutions, and revolutionary movements.

HSTR 350 - Modern Britain

Credits: 3. (EU) Offered autumn odd-numbered years. Social, political, intellectual and cultural history of the United Kingdom from an age of industry, empire, and political reform to one of economic decline and international retreat.

HSTR 352 - France Revol 1789-1848

Credits: 3. (EU) Offered autumn. Political, economic, and social upheaval and development.

HSTR 353 - Modern France

Credits: 3. (EU) Offered intermittently. Political, economic and social development.

HSTR 354 - Italy: 1300-1800

Credits: 3. (EU) Offered autumn odd-numbered years. The emergence of the Italian states with an emphasis on cultural achievements in the late Medieval, Renaissance, Baroque, and Neoclassical periods.

HSTR 355 - Italy: 1800-Present

Credits: 3. (EU) Offered spring even-numbered years. The emergence of a united Italy, the triumph of fascism and contemporary Italian society.

HSTR 357 - Russia to 1881

Credits: 3. (EU) Offered intermittently. Emphasis on the autocratic political tradition, Westernization, and territorial expansion.

HSTR 358 - Russia Since 1881

Credits: 3. (EU) Offered intermittently. Emphasis on modernization and the revolutionary movement; the Bolshevik Revolution and Stalinist era; the decline of Soviet system. Course Attributes: Writing Course-Intermediate

HSTR 361 - Germ:Augsburg-Bismarck

Credits: 3. (EU) Offered intermittently. Political, economic and social development of the states of the Holy Roman Empire from 1555-1866.

HSTR 363 - Eastern Europe

Credits: 3. (EU) Offered spring. Main currents in the history of Eastern Europe from earliest times to the present. Focus on the lands of Poland, Bohemia, Hungary, and the Balkan region.

HSTR 364 - Environmental History

Credits: 3. (AM) Offered intermittently. Prereq., lower-division course in Perspective 5 or consent of instr. A history of the human-nature interaction in the United States.

HSTR 367 - 19th Cent Amer West

Credits: 3. (AM) Offered intermittently. Euro-American movement and conflict in the nineteenth century trans-Mississippi west.

HSTR 368 - Iran Between Two Revolutions

Credits: 3. (WRLD) Offered autumn. The several intellectual traditions and philosophies some ephemeral and visionary, most eclectic and confused, and virtually all conflicting that are usually believed to underlie the varying concept of Iranian and Arab nationalism in the 20th century.

HSTR 369 - 20th Cent Amer West

Credits: 3. (AM) Offered spring. The contemporary trans-Mississippi West.

HSTR 374 - War, Peace, & Society

Credits: 3. (WRLD) Offered intermittently. A thematic and interdisciplinary approach to warfare and peace, sociopolitical structures and military organization, power among states, technological change, the role of the individual in organized violence, and moral views of war and peace.

HSTR 377 - European Internal Relat

Credits: 3. (EU) Offered intermittently. The nature, evolution, and functions of the European diplomatic system from the Ancient World to 1870.

HSTR 380 - Foreign Relations of the Great

Credits: 3. (WRLD) Offered intermittently. Begins with a discussion of the classical system of diplomacy and then moves into the causes and results of the First World War, the rise of Hitler and the Second World War, America's emergence as a superpower, the Cold War, the influence of Asia, the implications of the 9/11 attack and terrorism, and the continuing search for peace and stability in a world of conflict.

HSTR 384 - Hist Internat Human Rights

Credits: 3. (WRLD) Offered intermittently. A treatment of the powerful global influence of visions of human rights upon the historical and contemporary world in which movements such as abolitionism, women's rights, humanitarian law, racial equality, decolonization and democratization, and the impact of the Universal Declaration of Human Rights.

HSTR 386 - Nationalism Modern Middle East

Credits: 3. (WRLD) Offered spring. The socioeconomic, political, and cultural causes which resulted in the transformation of the Iranian society from a traditional Islamic entity to a modern secular state and the factors which led to the downfall of the secular state and the establishment of an Islamic republic.

HSTR 391 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

HSTR 392 - Independent Study

Credits: 1 TO 12. (R 12) Offered intermittently.

HSTR 394 - Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. A review and discussion of current research. Topics vary.

HSTR 396 - Independent Study

Credits: 1 TO 12. (R-12) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

HSTR 398 - Internship

Credits: 1 TO 6. Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

HSTR 400 - Historical Research Seminar

Credits: 3. Offered autumn and spring. Prereq., HSTR 200. Enrollment for history majors and minors, graduate students in history, or by consent of the instructor. Topics vary according to the instructor. The goal of this course is for students to propose and execute a substantial research project. Upper division writing course for the history major. Course Attributes: Writing Course-Advanced

HSTR 401 - The Great Historians

Credits: 3. (EU) Offered intermittently. The history and philosophy of history. Course Attributes: Writing Course-Intermediate

HSTR 418 - Britain 1500 - 1800

Credits: 3. (EU) Offered spring alternate years. Prereq., HSTR 200. Recommended HSTR 348 or 349. Enrollment for history majors and minors, graduate students in history, or by consent of the instructor. Students will discuss specific issues in the historiography of the early modern period in British history (c1500-1800) and produce research papers grounded in primary sources. Course Attributes: Writing Course-Advanced

HSTR 435 - Lat Am Human Rgts & Memory

Credits: 3. (WRLD) Offered intermittently. The legacy of state violence and ongoing struggles for truth and justice in select Latin American case studies. Different uses of memory and narration in bearing witness to social and political conflict and human rights violations.

HSTR 437 - US-Latin America Relations

Credits: 3. (WRLD) Prereq., HSTR 200. Enrollment for history majors and minors, graduate students in history, or by consent of the instructor. Research and writing seminar on U.S.-Latin American relations from the late 18th century through the 20th century. Course Attributes: Writing Course-Advanced

HSTR 441 - Islam and the West

Credits: 3. (WRLD) Offered spring. Advanced analysis of the historical and contemporary issues involving the human communities, cultures, and economies in Central and Southwest Asia.

HSTR 442 - Cities/Landscps Central Asia

Credits: 3. (WRLD) Offered autumn. Same as ANTY 442. Analysis of the main centers of civilization and culture, rich sites and monuments of Central Asia and Southwest Asia since ancient times.

HSTR 448 - Tradition & Reform in China

Credits: 3. (WRLD) Taught annually. Prereq., junior standing or consent of instructor. A history of key reform movements from the mid-19th century (when China was rocked by rebellion and the entry of the West) to the Maoist period.

HSTR 459 - Artistic Trad Cent & SW Asia

Credits: 3. (WRLD) Offered autumn and spring. Analysis of the study of human artistic creativity and scientific innovations of various cultures in Central and Southwest Asia since ancient times.

HSTR 472 - Problems of Peace and Security

Credits: 3. (WRLD) Offered intermittently. Prereq., lower-division course in Perspective 5 or consent of instr. Contemporary and historical problems of civilian policy and military strategy, power and technology, intelligence operations in democratic societies, human rights and security issues, conscription, and ethics in statecraft.

HSTR 491 - Special Topics

Credits: 1 TO 12. (R 12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

HSTR 492 - Independent Study

Credits: 1 TO 12. (R 12) Offered intermittently. Prereq., consent of instr.

HSTR 494 - Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. A review and discussion of current research. Topics vary.

HSTR 495 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

HSTR 496 - Independent Study

Credits: 1 TO 12. (R-12) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

HSTR 500 - Tchg Discussion Sections

Credits: 1. (R-4) Supervised teaching and reading keyed to survey courses in American history and western civilization. Level: Graduate

HSTR 516 - Modern Europe

Credits: 3. Offered alternate years. Intensive reading in 19th and 20th century European history. Level: Graduate

HSTR 540 - Europ Cultural & Intellect

Credits: 3. Intensive reading. Level: Graduate

HSTR 585 - Latin America

Credits: 3. Offered alternate years. Intensive reading in Colonial and Modern Latin American history. Level: Graduate

HSTR 594 - Seminar

Credits: 1 TO 12. (R-12) Prereq., 27 credits in history. Directed research. Level: Graduate

HSTR 595 - Special Topics

Credits: 1 TO 9. (R-9) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

HSTR 596 - Independent Study

Credits: 1 TO 12. (R-12) Course material appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Service Learning/Volunteer

HSTR 597 - Research in History

Credits: 1 TO 9. (R-9) Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

HSTR 598 - Internship

Credits: 1 TO 8. (R-8) Prereq., consent of department and Internship Services office. Practical application of classroom learning in off-campus placements. Level: Graduate Course Attributes: Internships/Practicums

HSTR 599 - Professional Paper

Credits: 1 TO 6. (R-6) Preparation of a professional paper appropriate to the needs and objectives of the individual student. Level: Graduate

HSTR 699 - Thesis/Dissertation

Credits: 1 TO 9. (R-6) Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

Liberal Studies

Stewart Justman, Director

The Liberal Studies Program offers students the opportunity to work in a combination of disciplines within the humanities, including literature, philosophy, and history. The Liberal Studies Program offers options in:

- General Humanities
- Asian Studies
- Religious Studies

In addition, the Program offers a minor in Liberal Studies and South and Southeast Asian Studies.

The Liberal Studies curriculum is designed for the student who seeks a liberal education with emphasis on the humanities. While allowing ample room for electives, the coursework for the LS major focuses on the literary and religious works, cultural records, and ideas that enrich our common inheritance. The aim of the program is to foster critical understanding and appreciation of our inheritance and world through the study and discussion of these texts and traditions. Emphasis in all cases is on critical thinking, close reading of primary sources, analytical writing, and historical understanding. Students who graduate from the program will be prepared to enter various fields in the private and public sectors, pursue further professional training, and be better prepared to meet the demands of citizenship. More information about the program is available at the Liberal Studies Program office in LA 101, (406) 243–2949, or online at www.cas.umt.edu/liberal. For advising assistance contact the humanities advisor in LA 145 or call (406) 243-6082.

Majors in Liberal Studies may not take any course work presented for the major for CR/NCR. Upper-level students transferring into this program should have at least a C average in all credits attempted. The upper-division writing expectation must be met by successfully completing an upper-division writing course from the approved list in the General University Requirements section of this catalog (such as LSH 484).

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: **Liberal Studies**

Total Credits: 42 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Women's, Gender and Sexuality Studies Lower Division Core Rule: 18-20 credits

Criterion: C- Number of Credits 18-20

Course Listing Commentary:

Subcategory Name: Humanities

Rule: Take both of the following courses. (6-8 credits).

Criterion: C- Number of Credits 6-8

Course Listing

LSH 151L IntrHumanities:Greek,Bible,Rom 0 To 4 F

LSH 152L Humanities Medieval to Modern 0 To 4 S

Commentary: Prerequisite or co-requisite: WRIT 101 or equivalent.

These courses are recommended to be taken early in the curriculum as they are foundational. LSH 152L can be taken prior to LSH 151L. General Education fulfillment through the lower-division core: Both courses fulfill the "approved writing course" and "Literary & Artistic Studies".

Subcategory Name: Literary Studies - European or American Literature Rule: Take one approved 3 credit course.

Commentary: Please see WGSS office for course substitution possibilities. LA 138A

Commentary: Additional Requirements

Category Name: Modern and Classical Language Requirement

Commentary: Students must demonstrate fourth semester proficiency in a second language either by completing four semesters (recommended to be subsequent) with a grade of C- or better, or by receiving an equivalent score on a competence exam.

Option Requirements

Category Name: WGSS Introductory Course Requirement Rule: Take the following 3 credit course.

Criterion: C- Number of Credits 3

Course Listing

WGSS 163L Hist/Lit Persp Women 3

Commentary: Take this course as early in your education as possible.

Degree Commentary: Working closely with a faculty advisor is imperative in Liberal Studies as the programs are unique and substitutions can be approved to meet the student's individual interests.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Liberal Studies** Option: **Asian Studies**

Total Credits: 41 Cumulative GPA Required: 2.0

Asian Studies Option, Professor Bradley Clough, Advisor:

The Asian Studies Option offers opportunities for those students who wish to focus on the diverse societies of the Asian continent through the study of literature, geography, history, peoples, religious and other cultural traditions, and languages.

Interested students must major in Liberal Studies with an option in Asian Studies. In addition to select Liberal Studies courses, students will choose from specified courses offered in many departments and areas in the College of Humanities and Sciences, such as History, Japanese Studies, Chinese Studies, Anthropology, Sociology, Geography, and Religious Studies.

Students who choose the Asian Studies option must meet with the Asian studies faculty advisor.

Lower Division Core

Category Name: Asian Studies Option Lower Division Core Rule: 20 credits.

Criterion: C- Number of Credits 20

Course Listing

Commentary: Please see academic advisor for questions regarding course availability or course substitutions.

Rule: Take both of the following courses (8 credits).

Criterion: C- Number of Credits 8

Commentary: Additional Requirements

Category Name: Modern and Classical Language Requirement

Commentary: Students must demonstrate fourth semester proficiency in a second language either by completing four semesters (recommended to be subsequent) with a grade of C- or better, or by receiving an equivalent score on a competence exam.

Degree Commentary: Advising closely with the Humanities Advisor and your assigned Liberal Studies advisor is imperative in Liberal Studies. There are substitutions that can occur in this program of study which need to be approved and documented with your faculty advisor.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Liberal Studies** Option: **Religious Studies**

Total Credits: 44 Cumulative GPA Required: 2.0

Religious Studies Option, Professor Paul Dietrich, Advisor:

Religion has been taught as an academic discipline at the University of Montana since 1924. Located within the Liberal Studies Program, the study of religion is pursued in the University in an interdisciplinary setting that offers opportunities for exploration and discovery in many areas of the humanities, art, and sciences. Our Religious Studies courses emphasize the scholarly analysis and interpretation of the history, literature, beliefs, myths, symbols, rituals, ethical and legal codes, and communities and institutions of the world's religious traditions. We investigate how the world's religions address enduring human questions and influence responses to daily problems, and we explore how religious traditions shape lives and societies, from the emergence of the earliest civilizations to 21st-century global conflicts. Our students engage ideas about the good life and death, suffering and happiness, war and peace, revelation and salvation, God, mysticism, and religious experience. The curriculum is designed to provide students with a broad and deep understanding of religion as a field of human activity and inquiry. Students acquire the skills necessary to investigate specific religious traditions in historical depth and to understand the forms, expressions, and roles of religion in the world today.

Department Faculty

Professors

- Paul Dietrich, Professor of Religious Studies and Liberal Studies
- Stewart Justman
- Ruth Vanita, Professor

Associate Professors

- Bradley Clough, Associate Professor of Liberal Studies (Asian Religions)
- Nathaniel Levtow, Associate Professor (Religious Studies, Biblical Studies)

Adjunct Faculty

- Beth Hubble, Adjunct Assistant Professor of Women's Studies

Lecturers

- Mark Hanson, Lecturer of Liberal Studies

Course Descriptions

Liberal Studies

LS 105H - Intro to Russian Culture

Credits: 3. Offered autumn. Same as RUSS 105HY and MCLG 105HY. A chronological survey of Russian culture from its beginnings to the contemporary period. Course Attributes: Historical & Cultural Course American and European

LS 202X - Introduction to India

Credits: 3. Offered alternate years. Same as SSEA 202X This course introduces students to the history, economy, political and legal system, society, culture, religions, and literary and artistic traditions of India, which is the world's largest secular democracy and the birthplace of four major world religions. Course Attributes: Indigenous and Global

LS 234X - Hindu Religious Traditions

Credits: 3. Offered spring even-numbered years. Same as AS and LS 365. Critical exploration of selected aspects of Hindu thought, narrative and practice, both in contemporary and historical perspective. Focus primarily on India, but with consideration of Hinduism's transformation and impact beyond South Asia. Course Attributes: Indigenous and Global

LS 306 - Intro to Russian Literature I

Credits: 3. Offered spring. Same as MCLG and RUSS 306. A survey of Russian poetry and prose from the mid-nineteenth century through the Symbolist period of the early 20th century. Included are the works of Gogol, Turgenev, Dostoevsky, Tolstoy, and the Symbolists.

LS 308 - Russian Cinema and Culture

Credits: 3. Offered alternate years. Same as RUSS 308, ENFM 308, and MCLG 308. Topically arranged introduction to the cinema of Russia and the former Soviet Union, with particular emphasis on contemporary Russian cinema. No knowledge of Russian is necessary.

LS 311 - Chinese Folktales

Credits: 3. Offered intermittently. Same as MCLG 380. The study of the aspirations, desires, loves, fears, moral and aesthetic values of the Chinese people as expressed in their folk literature.

LS 315 - Major Hispanic Authors

Credits: 3. Offered autumn. Same as MCLG 315. The intensive study of the life, times, and works of a major Hispanic author.

Liberal Studies & Humanities

LSH 102H - Intro to South & S East Asia

Credits: 3. Offered intermittently. Same as ANTY 102H/SSEA 102H. An introduction to South and Southeast Asian regions, cultures, societies, and histories, with particular emphasis on artistic, religious and literary traditions from prehistory to the present. An overview approach with different materials and emphases. Course Attributes: Historical & Cultural Course Indigenous and Global

LSH 151L - Humanities: Greeks, Bible, Roman

Credits: 0 TO 4. Offered autumn. Prereq., eligibility for WRIT 101 (ENEX 101) based on writing placement examination. General survey of the field of Humanities in Western civilization contrasting the Greco-Roman with the Jewish and Christian traditions. Course Attributes: Literary & Artistic Stds Crse Writing Course-Intermediate

LSH 152L - Humanities: Medieval to Modern

Credits: 0 TO 4. Offered spring. Prereq., eligibility for WRIT 101 (ENEX 101) based on writing placement examination. General survey of the field of Humanities in Western civilization, from the Middle Ages through modernity. Course Attributes: Literary & Artistic Stds Crse Writing Course-Intermediate

LSH 161H - Asian Humanities

Credits: 3. Offered autumn. Coreq., LS 151L or consent of instr. Selective survey of classical South and East Asian perspectives on the humanities. Hinduism, Confucianism, Taoism and Buddhism are the primary traditions considered. Course Attributes: Historical & Cultural Course Non-Western Course

LSH 291 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

LSH 292 - Independent Study

Credits: 1 TO 9. (R-9) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

LSH 294 - Seminar/Workshop

Credits: 1 TO 6. (R-6) Offered intermittently. A review and discussion of current research. Topics vary.

LSH 326 - Stories East and West

Credits: 3. Offered intermittently. A course tracing the influence of Arabic fiction on its western counterpart.

LSH 327L - Gender & Sexuality in Eng Fict

Credits: 3. Offered alternate years. Same as WGS 379L & LIT 379L. Major 20th century novels and short stories written in English in different parts of the world and how these texts explore changing concepts of gender and sexuality.

LSH 328 - Love in Bombay Cinema

Credits: 3. Offered intermittently. Examines the representation of romantic love in Bombay cinema, in the context of the representation of many types of love, familial, friendly and devotional.

LSH 329 - Fathers & Daughters in Lit

Credits: 3. Same as WGS 329. Prereq., WRIT 101. Examines how relationships between fathers and daughters have been represented, celebrated and critiqued in literature in the Western world, from antiquity to the present.

LSH 342 - Topics Comparative Lit & Rel

Credits: 3. Offered every second semester. Same as SSEA 342. These courses compare major traditions, texts and trends in two or more world civilizations or cultures. Works of literature and/or philosophy are examined in their historical contexts, and in relation to each other.

LSH 351L - Exploring the Humanities

Credits: 3. (R–9) Offered intermittently. Intensive study of a specific historical period in Western humanities through its seminal literature, with an emphasis on intellectual and ethical paradigms. Course Attributes: Literary & Artistic Stds Crse

LSH 368 - Shakespeare: Comedy & Tragedy

Credits: 3. Offered yearly. An investigation of the differences, but also affinities, between the two fundamental Shakespearean genres.

LSH 389E - Placebos: The Power of Words

Credits: 3. Situated at the crossroads of medicine and the humanities, this course looks into the changing reputation of the placebo effect, with special attention to the power of words to induce therapeutic—or counter-therapeutic—effects. Course Attributes: Ethical & Human Values Course

LSH 390 - Undergraduate Research

Credits: 1 TO 6. (R–6) Offered intermittently. Directed individual research and study appropriate to the back ground and objectives of the student. Course Attributes: Research & Creative Schlrshp

LSH 391 - Special Topics

Credits: 1 TO 9. (R–9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one–time offerings of current topics.

LSH 392 - Independent Study

Credits: 1 TO 12. (R–12) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

LSH 398 - Coop Education/Internship

Credits: 1 TO 6. Offered intermittently. Prereq., consent of director. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

LSH 415 - Same Sex Unions Literature

Credits: 3. Offered intermittently. Examines the literary representation of same-sex unions in European and Indian literary traditions.

LSH 416 - The Bhagavad Gita

Credits: 3. Offered once every 3 years. Close reading of the Bhagavad Gita in translation, examining its literary, philosophical and religious dimensions, and the way Indian and Western commentators have interpreted and used it.

LSH 484 - Novel Ancient and Modern

Credits: 3. Offered yearly. Two antithetical models for the construction of a novel. Course Attributes: Writing Course-Advanced

LSH 490 - Undergraduate Research

Credits: 1 TO 6. (R–6) Offered intermittently. Directed individual research and study appropriate to the background and objectives of the student. Course Attributes: Research & Creative Schlrshp

LSH 491 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

LSH 492 - Independent Study

Credits: 1 TO 9. (R-9) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

LSH 494 - Seminar/Workshop

Credits: 3. (R-9) Offered intermittently. Concentrated studies in specific genres and periods.

LSH 498 - Coop Education/Internship

Credits: 1 TO 6. Offered intermittently. Prereq., consent of director. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

Religious Studies

RLST 104 - Introduction to the Bible

Credits: 3. This course offers an introduction to the modern study of the Bible, including both the Hebrew Bible (Old Testament) and the New Testament. It assumes no prior knowledge of religion, the Bible, Judaism or Christianity. The goal of the course is to understand the Bible's literary structures and themes and its ancient historical contexts. It will approach the Bible from comparative, historical, literary, anthropological and archeological perspectives to illuminate the world of its authors.

RLST 191 - Special Topics

Credits: 1 TO 9. (R-9) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

RLST 198 - Internship

Credits: 1 TO 6. (R-6) Prereq., consent of faculty supervisor and the Internship Services office. Extended classroom experience which provides practical application of classroom learning during placements off campus. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

RLST 204H - Intro to the Hebrew Bible

Credits: 3. An introduction to the history, religion, and literature of ancient Israel and to modern methods in Hebrew Bible (Old Testament) studies. Includes an introduction to the history and religions of ancient West Asia. Course Attributes: Historical & Cultural Course

RLST 205 - Introduction to New Testament

Credits: 3. An introduction to the history, religion, and literature of earliest Christianity and to modern methods in New Testament studies. Includes an introduction to the history and religions of the ancient Mediterranean.

RLST 221 - Judaism

Credits: 3. An introduction to Judaism as a religion and to the history of Jewish peoples (in Asia, Africa, Europe, and the Americas) from antiquity to modernity.

RLST 225 - Christianity

Credits: 3. Introduction to the historical development of Christian thought and practice in the cultures of late antiquity and the medieval and the modern periods.

RLST 232H - Buddhism

Credits: 3. A historical introduction to the development of Buddhist thought and practice in the cultures of Asia and the West. Course Attributes: Historical & Cultural Course Indigenous and Global

RLST 234X - Hindu Religious Traditions

Credits: 3. Same as SSEA and LS 365. Critical exploration of selected aspects of Hindu thought, narrative and practice, both in contemporary and historical perspective. Focus primarily on India, but with consideration of Hinduism's transformation and impact beyond South Asia. Course Attributes: Indigenous and Global

RLST 236 - Chinese Religions

Credits: 3. An exploration of the development of thought and practice in and the interactions between the major religious movements of Chinese religion: Confucianism, Taoism, Buddhism, and folk religion/animism. Course

Attributes: Indigenous and Global

RLST 281E - Comparative Ethics

Credits: 3. An examination of central theological teachings and modes of ethical reasoning of major religious traditions models from the East and West. Course Attributes: Ethical & Human Values Course

RLST 291 - Special Topics

Credits: 1 TO 9. (R-9) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

RLST 300 - Theory & Method Study of Relig

Credits: 3. A survey of modern theories and methods in the study of religion. Overview of sociological, anthropological, psychological, phenomenological, comparative, cognitive, and other approaches to the question, What is religion?

RLST 310 - Topics in Biblical Studies

Credits: 3. (R-6) Selected topics in modern Hebrew Bible (Old Testament) and New Testament studies. Focus on history, literature, and religions of ancient West Asia, the Mediterranean and North Africa. Topics vary from year to year and include: Israelite religion; prophets and prophecy; biblical history and historiography; ancient Gospels; the letters and communities of Paul; early biblical interpretation; archaeology and iconography of ancient religions; religion and politics in the Bible.

RLST 320 - Anct Judaism & Early Christnty

Credits: 3. (R6) Survey of the history and literature of ancient Judaism and early Christianity. Topics include: the emergence of Judaism and Christianity in the Persian, Greek, and Roman empires; religions of ancient West Asia and the Mediterranean; stories of Jewish and Christian origins; the historical Jesus; the early rabbinic movement; the Dead Sea Scrolls; Paul between Judaism and Christianity.

RLST 335 - Western Religious Thought I

Credits: 3. Selected studies in the intellectual history of western religions, alternating between studies of periods and seminal thinkers. Emphasis will be on the ancient and medieval periods.

RLST 336 - Western Religious Thought II

Credits: 3. Selected studies in the intellectual history of western religions, alternating between studies of periods and seminal thinkers. Emphasis will be on the late medieval and early modern periods.

RLST 353 - Topics in South Asia Religions

Credits: 3. (R-6) This course will examine select topics of central importance with respect to the history of interaction between the major religions (Hinduism, Islam, Buddhism, Jainism, Sikhism) of South Asia.

RLST 354 - Topics in East Asia Religions

Credits: 3. (R-6) This course will examine select topics of central importance with respect to the history of interaction between the major religions (Confucianism, Taoism, Buddhism, and folk animism and shamanism) of East Asia.

RLST 366 - Tibetan Civilization

Credits: 3. An exploration of the history and culture of a unique civilization that has influenced greatly the cultures of Himalayan, East, and South Asia. Special attention will be given to Tibetan religions, but these will be explored within the context of the society's political, social, economic, and other cultural developments.

RLST 368 - Contemporary Buddhism S/SEAsia

Credits: 3. As with other major religions, modernity and globalization have presented profound challenges to Buddhist traditions. In this course we will explore various contemporary issues that have affected Theravada Buddhist societies--colonial and post-colonial revivalism, religious nationalism, women's rights and social reform--as case studies in some of the major ways in which religions have confronted modernity.

RLST 369 - Contemplative Traditions Asia

Credits: 3. An exploration of the rich and diverse approaches to mental transformation and cultivation of gnosis as developed by several of Asia's major religious traditions, such as Buddhism, Jainism, Hinduism, Taoism, and Confucianism.

RLST 370 - Mysticism

Credits: 3. (R-6) An inquiry into the literature and interpretation of mysticism in the major religious traditions. Each offering will focus on a specific tradition or period.

RLST 376 - Contemporary Religious Thought

Credits: 3. (R-6) Study of selected major critical and constructive proposals in modern religious thought in various traditions.

RLST 391 - Special Topics

Credits: 1 TO 12. (R-12) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

RLST 392 - Independent Study

Credits: 1 TO 6. (R-6) Course material appropriate to the needs and objectives of the individual student.

RLST 491 - Special Topics

Credits: 1 TO 12. (R-12) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

RLST 492 - Independent Study

Credits: 1 TO 9. (R-9) Prereq., consent of instr. Work on selected problems by individual students under direct faculty supervision.

Mathematical Sciences Department

Emily Stone, Chair

Mathematics is studied both as a tool and for its own sake. Its usefulness in the sciences - physical, biological, social, behavioral, and environmental - and in decision-making processes is so established that it is an indispensable part of many curricula.

Mathematics is chosen as a major area of study by individuals who find it challenging, fascinating, and beautiful. It is also appreciated by many who seek primarily to use mathematics as a tool.

A career in mathematics, except for teaching at the secondary level, generally requires a graduate degree as preparation. Careers include teaching, research, and the application of mathematics to diverse problems in institutions of higher learning, business, industry, and government.

The Bachelor of Arts, Master of Arts, and Doctor of Philosophy degrees are offered as well as a Bachelor of Science in Mathematical Sciences–Computer Science.

High School Preparation: For studying mathematics at the University level, it is recommended that the high school course work consist of four years of college-preparatory mathematics, including geometry, trigonometry, and college algebra or precalculus. A course in calculus or statistics is helpful, but not necessary. It is unusual to complete an undergraduate degree in mathematics in four years without the necessary background to take Calculus I (M 171) during the freshman year (preferably during the first semester at the university).

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: Major Subject: **Computer Sci-Mathematical Sci**

Total Credits: 73 Cumulative GPA Required: 2.0

The purpose of the combined program is to provide a thorough background in both allied disciplines and to inculcate a deeper understanding of their goals and methods. A student must complete 60 credits in the two disciplines: 30 of these credits in Computer Science courses and 30 of these credits in Mathematical Sciences courses. Each student plans a program in consultation with both a Computer Science and a Mathematical

Sciences advisor. Students planning to attend graduate school in computer science or the mathematical sciences should consult with their respective advisors.

Course Listing

CSCI 315E Computers, Ethics, and Society 3

CSCI 499 Senior Thesis/Capstone 1 To 6

M 429 History of Mathematics 3

M 499 Senior Thesis 1 To 12

Commentary: Any other approved Advanced College Writing course will also fulfill this requirement.

Commentary: Additional Requirements

Category Name: Suggested Curricula

Commentary: Students are encouraged to choose their Computer Science and Mathematical Sciences Electives according to one of the following curricula; these tracks are suggestions only and, as such, optional.

Applied Math–Scientific Programming: M 311, 412, 414, and one course chosen from M 381, 440, 472, 473 and STAT 341. Three courses chosen from CSCI 441, 444, 460, 477.

Combinatorics and Optimization–Artificial Intelligence: M 361, 362, and two courses chosen from M 325, 414, 485 and STAT 341; and CSCI 446, 447, and 460.

Statistics–Machine Learning: STAT 341, 421, and two courses chosen from M 325, 362, 485 and STAT 422. Three courses chosen from CSCI 340, 444, 446, 447, and 451.

Algebra–Analysis: M 381, 431, and two courses chosen from M 326, 432, 472, 473; CSCI 426, 460, and one other course.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: **Mathematics**

Total Credits: 67 Cumulative GPA Required: 2.0

This degree is the BA in Mathematics without an option. Students can add one or more of the options in Applied Mathematics, Combinatorics & Optimization, Pure Mathematics, or Statistics to this degree by fulfilling the respective Option Requirements (achieved by taking specific Upper-Division Elective Courses). Typically, students declare one of these four options during their sophomore or junior year. Note that the requirements for the Mathematics Education option are extensive and differ substantially from the requirements for the other options. Students interested in Mathematics Education are encouraged to declare this option as early as possible, preferably during their first year at UM.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Mathematics**

Option: **Mathematics Education**

Total Credits: 53 Cumulative GPA Required: 2.5

Individuals interested in teaching in K-12 schools must complete a degree in the content area they want to teach plus the teacher preparation program through the Department of Curriculum and Instruction. Individuals must complete the teaching major/teaching track within that degree program, which may contain different course requirements than the academic major since the sequence of courses is designed to meet state standards. Upon completion of the degree program with the teaching track and the secondary licensure program, one will be eligible for a standard Montana teaching license in this content area.

Lower Division Core

---------	------------------------	--------

Commentary: The course number EDU 497 covers many different teaching methods courses. The section of EDU 497 entitled "Methods: 5 - 12 Mathematics" is required for the Mathematics Education option.

Commentary: Cognates

Category Name: Science Requirement for the Mathematics Education Option

Rule: Take 12 credits in at most two areas selected from astronomy (ASTR), biology (BIO*), chemistry (CHMY), computer science (CSCI, except CSCI TR*), economics (ECNS), forestry (FORS, WILD), geosciences (GEO), management information systems (BMIS), and physics (PHSX).

Criterion: C- Number of Credits 12

Course Listing

Commentary: (1) Students completing a teaching minor (in another subject) or a second major are exempt from this requirement.

(2) Transfer courses listed on the transcript as "CSCI TR*" may include course work in other areas such as Computer Applications (CAPP) and therefore do not count towards this requirement unless a student successfully petitions the Department of Mathematical Sciences.

Commentary: Additional Requirements

Category Name: Secondary Teaching Licensure

Commentary: For licensure to teach mathematics, a student must also gain admission to the Teacher Education Program and meet all the requirements for secondary teaching licensure (see the College of Education and Human Sciences).

Degree Commentary

(1) The number of degree specific credits required is significantly higher if one also counts the additional course work required by the Teacher Education Program.

(2) Note that the Teacher Education Program requires in addition an overall cumulative GPA of at least 2.75.

College Humanities & Sciences Catalog Year: 2015-2016 Degree Type: Minor Level: Minor Subject:

Mathematics Total Credits: 23 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Calculus Requirement for a Minor in Mathematics Rule: Take one of the following three courses:

Course Listing

M 162 Applied Calculus 4 F,S

M 172 Calculus II 4 F,S

M 182 Honors Calculus II 4

Commentary: M 172 or 182 are recommended since they are prerequisites for many upper-division mathematics courses.

Commentary: Other Courses

Category Name: Elective Courses for a Minor in Mathematics

Rule: Take 23 credits in M or STAT courses offered at UM-Missoula. M courses must be numbered 115 or higher (excluding M 118). Courses must include at least three 3- or 4-credit courses at the 300 level or above.

Criterion: C- Number of Credits 23

Course Listing

Commentary: (1) The required Calculus course (M 162, 172, or 182) counts toward the 23 credits, as well as its prerequisite courses at the 100-level (e.g., M 171 or 121).

(2) Notice to Transfer Students: Mathematical Sciences courses that are not equivalent to courses taught at UM-Missoula can often be counted toward a Minor in Mathematics. This is determined on an individual basis; please contact the Department of Mathematical Sciences for details.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Mathematics** Option: **Pure Mathematics**

Total Credits: 68 Cumulative GPA Required: 2.0

This degree option differs from the BA in Mathematics without an option only in the Option Requirements.

Lower Division Core

Category Name: Mathematics Core Courses Rule:

Criterion: C- Number of Credits 23

Course Listing Commentary:

Subcategory Name: Calculus I

Rule: Take 1 of the following 2 courses.

Criterion: C- Number of Credits 4

Course Listing

M 171 Calculus I 4 F,S

M 181 Honors Calculus I 4 F

Subcategory Name: Calculus II

Rule: Take 1 of the following 2 courses.

Criterion: C- Number of Credits 4

Course Listing

M 172 Calculus II 4 F,S

M 182 Honors Calculus II 4

Subcategory Name: Other Mathematics Core Courses Rule: Take all of the following courses.

Criterion: C- Number of Credits 15

Course Listing

M 210 Intro to Mathematical Software 3 S

M 221 Introduction to Linear Algebra 4 F,S

M 273 Multivariable Calculus 4 F,S

M 300 Undergraduate Mathematics Sem 1 F,S

M 307

Commentary: Intro to Abstract Mathematics 3 F,S

Major Electives

Category Name: Upper-Division Mathematics Requirement Rule: Take 23 credits in this category.

Criterion: C- Number of Credits 23

Course Listing

Commentary: (1) Students completing a minor (in another subject) need take only 20 credits.

(2) Students completing a second major need take only 18 credits.

Subcategory Name: Upper-Division Elective Courses

Rule: Take 7 courses from the following list; at least 3 of them must be at the 400 level. Criterion: C- Number of Credits 21 or more

Course Listing

M 301 Math Technology for Teachers 3 F

M 311 Ordinary Diff Equations/System 3 F

M 325 Discrete Mathematics 3

M 326 Number Theory 3 S

M 361	Discrete Optimization	3	S		
M 362	Linear Optimization	3	F		
M 412	Partial Differential Equations	3		S	
M 414	Deterministic Models	3			
M 429	History of Mathematics	3	S		
M 431	Abstract Algebra I	4	F

M 485	Graph Theory	3	F		
STAT 341	Intro to Probability and Stat	3		F,S	
STAT 421	Probability Theory	3	F		
STAT 422	Mathematical Statistics	3	S		
STAT 452	Statistical Methods II	3	S		

Commentary: (1) Students completing a minor (in another subject) or a second major need take only 6 courses (totaling 18 credits or more).

(2) Residency Requirement: At least 4 of the courses in this category must be taken at UM-Missoula (only 3 if M 307 is taken at UM-Missoula).

(3) Note that STAT 451 does not count toward this requirement.

Subcategory Name: Upper-Division Elective Computer Labs

Rule: Computer labs from the following list are optional; if taken, they count toward the total number of credits required for the Upper-Division Mathematics Requirement.

Criterion: C- Number of Credits 0-5

Course Listing

M 317	ODE Computer Lab	1	F		
M 363	Linear Optimization Lab	1	F		
M 418	PDE Computer Lab	1	S		
STAT 457	Computer Data Analysis I	1	F		
STAT 458	Computer Data Analysis II	1	S		

Commentary: Cognates

Category Name: Science Requirement

Rule: Take 18 credits in at most 3 areas selected from astronomy (ASTR), biology (BIO*), chemistry (CHMY), computer science (CSCI, except CSCI TR*), economics

Course Listing

Commentary: (1) Students completing a minor (in another subject) or a second major are exempt from this requirement.

(2) Transfer courses listed on the transcript as "CSCI TR*" may include course work in other areas such as Computer Applications (CAPP) and therefore do not count towards this requirement unless a student successfully petitions the Department of Mathematical Sciences.

Upper Division Writing

Category Name: Advanced College Writing Requirement

Rule: Take 1 of the following 2 courses, or any other approved Advanced College Writing course. Criterion: C-

Number of Credits 3

Course Listing

M 429 History of Mathematics 3 S

M 499 Senior Thesis 1 To 12

Additional Requirements

Category Name: GPA Requirement

Commentary: (1) A cumulative GPA of 2.0 is required for all courses used to fulfill major requirements.

(2) In addition, a cumulative GPA of 2.0 is required for all mathematical sciences courses used to fulfill major requirements. (Mathematical sciences courses are those with a prefix of M or STAT.)

Other Courses

Category Name: Foreign Language/Computer Science Requirement

Rule: Either complete the General Education Requirement "Group III: Modern and Classical Language" (not the symbolic systems exception), or take one course from the following list.

Criterion: C-

Course Listing Number of Credits 3

CSCI 100 Intro to Programming 3 F,S

CSCI 135 Fund of Computer Science I 3 F,S

CSCI 136 Fund of Computer Science II 3 F,S

CSCI 250 Computer Mdlng/Science Majors 3 F

Commentary: Students completing a second major are exempt from this requirement.

Commentary: Option Requirements

Category Name: Requirements for the Pure Mathematics Option

Course Listing

M 381 Advanced Calculus I 3 F

M 431 Abstract Algebra I 4 F

M 432 Abstract Algebra II 4 S

M 472 Intro to Complex Analysis 4 S

M 473 Introduction to Real Analysis 4 FO

Degree Commentary: The degree specific credits are much lower for double-majors and for students completing an additional minor (in another subject): 44 credits for students completing a second major, and 47 credits for students completing a minor.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Mathematics** Option: **Statistics**

Total Credits: 67 Cumulative GPA Required: 2.0

This degree option differs from the BA in Mathematics without an option only in the Option Requirements.

- Justin Lynd, Visiting Assistant Professor
- Michael Olear, Adjunct Instructor
- Joyce Schlieter, Adjunct Instructor
- Mickey Smith, Lecturer
- Grant Swicegood, Postdoctoral Lecturer

Lecturers

- Lauren Fern, Lecturer
- Cindy Leary, Lecturer
- Regina Souza, Lecturer

Emeritus Professors

- Richard Billstein, Emeritus
- James Hirstein, Professor Emeritus
- George McRae, Professor Emeritus

Course Descriptions

Mathematics

M 104 - Numbers as News

Credits: 3. Offered spring. Prereq., M 090 with a grade of B- or better, or M 095, or ALEKS placement ≥ 3 . An exploration of mathematics and statistics as used in the popular media. For students in the School of Journalism only.

M 105 - Contemporary Mathematics

Credits: 3. Offered every term. Prereq., M 090 with a grade of B- or better, or M 095, or ALEKS placement ≥ 3 . An introduction to mathematical ideas and their impact on society. Intended for students wishing to satisfy the general education mathematics requirement.

M 115 - Probability and Linear Mathematics

Credits: 3. Offered every term. Prereq., M 090 with a grade of B- or better, or M 095, or ALEKS placement ≥ 3 . Systems of linear equations and matrix algebra. Introduction to probability with emphasis on models and probabilistic reasoning. Examples of applications of the material in many fields. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt

M 118 - 118 Mathematics for Music Enthusiasts

Credits: 3. Offered autumn and/or spring. Prereq. M 090 with a grade of B- or better, or M 095, or ALEKS placement ≥ 3 ; and elementary music background. An introduction to the interplay between mathematics and music. Course intended for Music majors/minors, and others with musical backgrounds/interests, who wish to satisfy the general education mathematics requirement.

M 121 - College Algebra

Credits: 3. Offered autumn and spring. Prereq., M 095 or ALEKS placement ≥ 4 . Intended to strengthen algebra skills. The study of functions and their inverses; polynomial, rational, exponential, and logarithmic functions. Credit not allowed for both M 121, and M 151. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt

M 122 - College Trigonometry

Credits: 3. Offered autumn and spring. Prereq., M 121 or ALEKS placement ≥ 4 . Preparation for calculus based on college algebra. Review of functions and their inverses. Trigonometric functions and identities, polar coordinates and an optional topic such as complex numbers, vectors or parametric equations. Credit not allowed for both M 122 and M 151.

M 132 - Numbers and Operations for Elementary School Teachers

Credits: 3. Offered autumn and spring. Prereq., M 095 or M 115, or ALEKS placement ≥ 4 . The study of number and operations for prospective elementary and middle school teachers, including whole numbers, decimals, fractions, percent, integers, operations, numeration systems, and problem solving.

M 133 - Geometry and Measurement for Elementary School Teachers

Credits: 3. Offered autumn and spring. Prereq., M 132. The study of geometry and geometric measurement for prospective elementary and middle school teachers, including synthetic, transformational, and coordinate geometry, constructions, congruence and similarity, 2-dimensional and 3-dimensional measurement, and problem solving.

M 135 - Mathematics for K-8 Teachers I

Credits: 5. Offered autumn and spring. Prereq., M 095, M 115, or ALEKS placement ≥ 4 . Open only to elementary education majors. Topics include problem-solving, sets and logic, functions, whole numbers, integers, rational numbers, real numbers, number theory, probability and statistics.

M 136 - Mathematics for K-8 Teachers II

Credits: 4. Offered autumn and spring. Prereq., M 135. Topics include introductory geometry, geometric constructions, congruence, similarity, measurement, coordinate geometry and an introduction to computer geometry.

M 151 - Precalculus

Credits: 4. Offered autumn and spring. Prereq., ALEKS placement ≥ 4 . A one semester preparation for calculus (as an alternative to M 121-122). Functions of one real variable are introduced in general and then applied to the usual elementary functions, namely polynomial and rational functions, exponential and logarithmic functions, trigonometric functions, and miscellaneous others. Inverse functions, polar coordinates and trigonometric identities are included. Credit not allowed for both M 151 and M 121 or 122. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt

M 162 - Applied Calculus

Credits: 4. Offered autumn and spring. Prereq., ALEKS placement ≥ 5 or one of M 121, 122 or 151. Introductory course surveying the principal ideas of differential and integral calculus with emphasis on applications and computer software. Mathematical modeling in discrete and continuous settings. Intended primarily for students who do not plan to take higher calculus.

M 171 - Calculus I

Credits: 4. Offered autumn and spring. Prereq., M 122 or 151 or ALEKS placement ≥ 5 . Differential calculus, including limits, continuous functions, Intermediate Value Theorem, tangents, linear approximation, inverse functions, implicit differentiation, extreme values and the Mean Value Theorem. Integral Calculus including antiderivatives, definite integrals, and the Fundamental Theorem of Calculus. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt

M 172 - Calculus II

Credits: 4. Offered autumn and spring. Prereq., M 171 or 181. Techniques of Integration. Area computations. Improper integrals. Infinite series and various convergence tests. Power series. Taylor's Formula. Polar coordinates. Parametric curves.

M 181 - Honors Calculus I

Credits: 4. Offered autumn. Prereq., consent of instr. Coreq., Honors Calculus Seminar, a section of M 294. Honors version of M 171. Course Attributes: Honors Course

M 182 - Honors Calculus II

Credits: 4. Offered spring. Prereq., M 181 or consent of instr. Coreq., Honors Calculus Seminar, a section of M 294. Honors version of M 172. Course Attributes: Honors Course

M 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

M 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

M 210 - Introduction to Mathematical Software

Credits: 3. Offered spring. Prereq., one of M 162, 171, or 181, or consent of instr. Software packages useful for doing and writing mathematics. Introduction to a computer algebra system (such as Maple or Mathematica), a numerical package (such as MATLAB or R), and elementary programming. Writing and communicating mathematics using the mathematical typesetting system LaTeX.

M 221 - Introduction to Linear Algebra

Credits: 4. Offered autumn and spring. Prereq., M 172 or 182. Vectors in the plane and space, systems of linear equations and Gauss–Jordan elimination, matrices, determinants, eigenvalues and eigenvectors, vector spaces, linear transformations. Calculators and/or computers used where appropriate.

M 225 - Introduction to Discrete Mathematics

Credits: 3. Offered autumn. Prereq., one of M 162, 171, or 181 or consent of instr. Mathematical concepts used in computer science with an emphasis on mathematical reasoning and proof techniques. Elementary logic, sets, functions and relations, combinatorics, mathematical induction, recursion and algorithms. Mathematics majors should take M 307 instead of 225.

M 231 - Topics in Geometry

Credits: 3. Offered intermittently. Prereq., M 136 or consent of instr. Geometry topics for teaching grades 6–12 mathematics. Intended primarily for students in elementary education who plan to teach middle school mathematics.

M 234 - Higher Mathematics for Elementary School Teachers

Credits: 3. Offered autumn and spring. Prereq., M 132. The study of algebra, number theory, probability and statistics for prospective elementary and middle school teachers, including proportional reasoning, functions, elementary number theory, statistical modeling and inference, and elementary probability theory.

M 273 - Multivariable Calculus

Credits: 4. Offered autumn and spring. Prereq., M 172 or 182. Calculus of functions of several variables; differentiation and elementary integration. Vectors in the plane and space.

M 274 - Introduction to Differential Equations

Credits: 3. Offered spring. Prereq., one of M 162, 171 or 181 and knowledge of basic trigonometry. Solution of ordinary differential equations and systems with emphasis on applications, numerical methods and computer software.

M 291 - Special Topics

Credits: 1 TO 3. (R-9) Offered autumn and spring. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

M 292 - Independent Study

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Guidance of an individual student in doing independent study on material not offered in a regular course.

M 294 - Seminar

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr.

M 300 - Undergraduate Mathematics Seminar

Credits: 1. (R-6) Offered every semester. Prereq., M 171 or 181. Discussion seminar focused on topics and issues of interest to students in the mathematical sciences.

M 301 - Mathematics Technology for Teachers

Credits: 3. Offered autumn. Prereq., M 221. Discrete and continuous mathematical models from a variety of disciplines using appropriate technology.

M 307 - Introduction to Abstract Mathematics

Credits: 3. Offered autumn and spring. Prereq., M 172 or 182. Designed to prepare students for upper-division proof-based mathematics courses. Topics include proof techniques, logic, sets, relations, functions and axiomatic methods. Students planning to take both M 221 and 307 are encouraged to take M 221 first.

M 311 - Ordinary Differential Equations and Systems

Credits: 3. Offered autumn. Prereq., M 273. Ordinary differential equations. Systems of linear differential equations from a matrix viewpoint. Series solutions. Existence and uniqueness for initial value problems. Numerical methods. Stability and selected topics. M 317 computer lab recommended.

M 317 - Ordinary Differential Equations Computer Lab

Credits: 1. Offered autumn. Coreq., M 311 or consent of instr. Intended primarily for student in M 311.

M 325 - Discrete Mathematics

Credits: 3. Offered spring. Prereq., M 171 and 225 or 307. Continuation of 225 and topics from graph theory, Boolean algebras, automata theory, coding theory, computability and formal languages.

M 326 - Number Theory

Credits: 3. Offered spring. Prereq., M 225 or 307. Congruences, Diophantine equations, properties of primes, quadratic residues, continued fractions, algebraic numbers.

M 361 - Discrete Optimization

Credits: 3. Offered spring. Prereq., one of M 162, 172 or 182 (221 or 225 recommended). Intended for non-mathematics majors as well as mathematics majors. Introduction to discrete optimization and modeling techniques with applications. Topics from combinatorics and graph theory, including enumeration, graph algorithms, matching problems and networks.

M 362 - Linear Optimization

Credits: 3. Offered autumn. Prereq., one of M 162, 172 or 182 (221 recommended). Coreq., M 363 recommended. Intended for non-mathematics majors as well as majors. Introduction to linear programming and modeling techniques with applications. Topics include the simplex method, duality, sensitivity analysis and network models.

M 363 - Linear Optimization Laboratory

Credits: 1. Offered autumn. Coreq., M 362. Introduction to linear optimization software.

M 381 - Advanced Calculus I

Credits: 3. Offered autumn. Prereq., M 307. Rigorous development of single-variable calculus with formal proof. Functions, sequences, limits, continuity, differentiation, and integration.

M 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

M 392 - Independent Study

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Guidance of an individual student in doing independent study on material not offered in a regular course.

M 394 - Seminar

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr.

M 398 - Internship

Credits: 1 TO 6. Offered autumn and spring. Prereq., consent of instructor. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

M 412 - Partial Differential Equations

Credits: 3. Offered spring. Prereq., M 311. Fourier series, Sturm-Liouville and boundary value problems. Partial differential equations: Cauchy problems and the method of characteristics, separation of variables and Laplace transform methods. Numerical methods and selected topics. M 418 computer lab recommended.

M 414 - Deterministic Models

Credits: 3. Offered autumn or spring. Prereq., M 274 or 311 or consent of instr. Linear and nonlinear difference and differential equations: stability, phase-plane analysis, oscillatory behavior, limit cycles, and chaos. Eigenvalues and eigenfunctions. Emphasis on models in biology.

M 418 - Partial Differential Equations Computer Lab

Credits: 1. Offered spring. Coreq., M 412 or consent of instr. Intended primarily for students in M 412.

M 429 - History of Mathematics

Credits: 3. Offered spring. Prereq., M307. Historical study of the development of mathematics from the Egyptian and Babylonian eras to the 20th century. Course Attributes: Writing Course-Advanced

M 431 - Abstract Algebra I

Credits: 4. Offered autumn. Prereq., M 221 and 307 or consent of instr. An introduction to modern ideas of algebra through the study of groups, rings, and fields.

M 432 - Abstract Algebra II

Credits: 4. Offered spring. Prereq., M 431. Continues the investigation of groups, rings, and fields begun in M 431. Further topics include vector spaces and field extensions.

M 439 - Euclidean and Non-Euclidean Geometry

Credits: 3. Offered autumn. Prereq., M 307; M 231 recommended. Euclidean geometry from a rigorous, axiomatic viewpoint and Non-Euclidean geometries chosen from Lobachevskian, projective, finite and Riemannian.

M 440 - Numerical Analysis

Credits: 4. Offered intermittently. Prereq., M 307, 311, one computer language. Error analysis; approximation and interpolation, numerical solution of linear and non-linear equations, numerical integration of ordinary and partial differential equations.

M 445 - Statistical, Dynamical, and Computational Modeling

Credits: 4. Offered autumn odd-numbered years. Prereq., consent of instr. An interdisciplinary course on the integration of statistical and dynamical models with applications to biological problems. Linear and nonlinear models, estimation, systems of ordinary differential equations, numerical integration, bootstrapping, MCMC methods. Intended both for students in mathematics and the natural sciences.

M 461 - Practical Big Data Analytics

Credits: 3. Offered autumn. Prereq., STAT 341, and one of M 221 or M 273, or consent of instructor. This is a methods course supporting the Big Data Certificate Program. The course provides the students with the essential tools for the analysis of big data. The content consists of map reduce and canonical information methods for analyzing massively large data sets, windowing methods for the analysis of streaming data, an introduction to predictive analytics, and an introduction to data visualization methods.

M 462 - Theoretical Basics of Big Data Analytics and Real Time Computation Algorithms

Credits: 3. Offered spring. Prereq., M 221 and two other Mathematics / Statistics classes at the 200-level or above, or consent of instr. The main goal of this course is to provide students with a unique opportunity to acquire conceptual knowledge and theoretical background behind mathematical tools applicable to Big Data Analytics and Real Time Computations. Specific challenges of Big Data Analytics, e.g., problems of extracting, unifying, updating, and merging information, and processing of highly parallel and distributed data, will be reviewed. The tools for Big Data Analytics, such as regression analysis, linear estimation, calibration problems, real time processing of incoming (potentially infinite) data, will be studied in more detail. It will be shown how these approaches can be transformed to conform to the Big Data demands.

M 467 - Big Data Analytic Projects

Credits: 3. Offered spring. Prereq., two courses chosen from STAT 341, M 221 and M 273, and one of M 461 or M 462, or consent of instructor. This course is a practicum course aimed at developing skills needed to solve big data problems facing industry and academics. Problems are brought to the class by local technology-oriented businesses and university researchers. Lecture topics include project management, interacting with clients, and written and oral presentation of results. Additional lecture topics will be selected to address the specific problems brought to the class and may cover data reduction methods, algorithm design and predictive analytics.

M 472 - Introduction to Complex Analysis

Credits: 4. Offered spring. Prereq., M 273, M 307. Analytic functions, complex integration, singularities and application to contour integration, harmonic functions, spaces of analytic functions.

M 473 - Introduction to Real Analysis

Credits: 4. Offered autumn odd-numbered years. Prereq., M 273, M 307. Theory of metric spaces and point set topology, Riemann-Stieltjes integral, sequences and series of functions. Stone-Weierstrass theorem, theorem of Arzela-Ascoli, introduction to Lebesgue integration.

M 485 - Graph Theory

Credits: 3. Offered autumn. Prereq., M 325, or M 307 and M 361, or consent of instr. Theory and applications of graphs. Topics chosen from trees, matchings, connectivity, coloring, planarity, Ramsey theory, random graphs, combinatorial designs and matroid theory.

M 490 - Undergraduate Research

Credits: 1 TO 4. (R-12) Offered every term. Prereq., consent of instr. Undergraduate research in the mathematical sciences under the direction of a faculty member. Graded credit/no credit.

M 491 - Special Topics

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

M 492 - Independent Study

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Guidance of an individual student in doing independent study on material not offered in a regular course

M 494 - Seminar

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr.

M 498 - Internship

Credits: 1 TO 6. Offered autumn and spring. Prereq., consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

M 499 - Senior Thesis

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., consent of instr. Senior thesis for mathematics majors and/or Watkins Scholars. Course Attributes: Writing Course-Advanced

M 500 - Current Mathematical Curricula

Credits: 3. Offered intermittently. Prereq., teacher certification or consent of instructor. Analysis of contemporary materials for secondary school mathematics: the goals, the mathematical content, alternative methodologies, and curriculum evaluation. Level: Graduate

M 501 - Technology in Mathematics for Teachers

Credits: 3. Offered intermittently. Prereq., teacher certification or consent of instructor. Technology usage when it is appropriate and when it is not. Experience is provided with scientific calculators, graphing utilities, computers, and identification of exemplary software. Level: Graduate

M 504 - Topics in Math Education

Credits: 1 TO 12. (R-12) Offered intermittently. Prereq., teacher certification. Topics of current interest which may include calculus, number theory, probability and statistics, geometry, or algebra, at a level suitable for teachers.

Level: Graduate

M 510 - Problem Solving for Teachers

Credits: 3. Offered intermittently. Prereq., teacher certification or consent of instructor. Strategies for problem solving, problem posing in a variety of situations, modeling and applications. Problems are selected from various areas of mathematics. Level: Graduate

M 511 - Advanced Mathematical Methods I

Credits: 3. Offered autumn odd-numbered years. Prereq., M 311, and 412 or 414. Methods in applied mathematics related to the qualitative and quantitative solution of nonlinear and differential integral equations, dynamical systems, and perturbation methods. Applications of these methods to other sciences. Level: Graduate

M 512 - Advanced Mathematical Methods II

Credits: 3. Offered spring even-numbered years. Prereq., M 511. Continuation of M 511. Level: Graduate

M 514 - Topics in Applied Mathematics

Credits: 1 TO 12. (R–12) Offered autumn even–numbered years. Prereq., consent of instr. or M 511-512. Topics of current interest in applied mathematics, mathematical modeling, dynamic modeling, and optimal management in stochastic or deterministic environments. Level: Graduate

M 521 - Advanced Algebra I

Credits: 3. Offered alternate years. Prereq., M 432 or consent of instr. Topics covered include group theory, field theory and Galois theory. Level: Graduate

M 522 - Advanced Algebra II

Credits: 3. Offered alternate years. Prereq., M 521 or consent of instr. Continuation of 521; rings, modules, commutative algebra, and further topics. Level: Graduate

M 524 - Topics in Algebra

Credits: 3. (R-12) Offered alternate years in fall and spring. Prereq., consent of instr. Topics chosen from algebra and related areas, for example from commutative algebra, algebraic geometry, linear algebra, group theory, ring theory, or number theory. Level: Graduate

M 530 - Geometries for Teachers

Credits: 3. Offered intermittently in summer. Prereq., M 439 or equiv. Comparison of synthetic, analytic, vector, and transformational approaches to geometry. Includes classification of geometries, geometric representations, axiomatics, and the applications of modern geometries. Level: Graduate

M 531 - Topology

Credits: 3. Offered autumn even–numbered years. Prereq., M 473 or consent of instr. Set theory, topological spaces, metrizable, continuous mappings and selected topics. Level: Graduate

M 532 - Algebraic Topology

Credits: 3. Offered spring alternate years. Prereq., M 431 and M 531 or consent of instr. Introduction to algebraic topology through one or more topics chosen from the fundamental group and higher homotopy groups, singular homology, and simplicial homology. Level: Graduate

M 551 - Real Analysis

Credits: 3. Offered spring even–numbered years. Prereq., M 473 or 472 or consent of instr. Measure theory, abstract integration theory, theory of L_p -spaces. Level: Graduate

M 555 - Functional Analysis

Credits: 3. Offered spring odd–numbered years. Prereq., M 473 or 472 or consent of instr. Normed linear spaces, linear functionals, separation theorems, topological linear spaces, weak topologies, dualities. Level: Graduate

M 564 - Topics in Analysis

Credits: 3. (R–12) Offered autumn odd–numbered years. Prereq., consent of instr. Research projects or topics in analysis. May include but not restricted to Banach algebras, Fourier analysis, Harmonic analysis, Hilbert space theory, integral equations, or operator theory. Level: Graduate

M 570 - Calculus for Middle School Teachers

Credits: 3. Offered online in full-year format. Prereq., teacher certification or consent of instr. A first course in differential and integral calculus. Concepts, definitions, properties, and elementary applications of the calculus of single-valued real variables. Level: Graduate

M 572 - Algebra for Middle School Teachers

Credits: 3. Offered intermittently in summer. Prereq., teacher certification or consent of instr. Topics include algebraic number fields, linear algebra topics, polynomials, and applications appropriate for teachers of middle school mathematics. Level: Graduate

M 573 - Geometry for Middle School Teachers

Credits: 3. Offered intermittently in summer. Prereq., teacher certification or consent of instr. Introduction to synthetic, analytic, vector, and transformational approaches to geometry. Includes topics in 2- and 3-dimensional geometry and measurement appropriate for teachers of middle school mathematics. Level: Graduate

M 574 - Probability and Statistics for Middle School Teachers

Credits: 3. Offered intermittently in summer. Prereq., teacher certification or consent of instr. A survey of topics in probability and statistics appropriate for teachers of middle school mathematics. Level: Graduate

M 578 - Discrete Mathematics for Middle School Teachers

Credits: 3. Offered intermittently. Prereq., teacher certification or consent of instr. Elements and operations of finite structures, combinatorics, recursion, graphs, matrices, and finite models appropriate for teachers of middle school mathematics. Level: Graduate
M 581 - Combinatorics

Credits: 3. Offered autumn odd-numbered years. Prereq., consent of instr. Theory and applications of discrete mathematics. Topics chosen from enumeration, combinatorial analysis, and graph theory. Level: Graduate
M 582 - Optimization

Credits: 3. Offered autumn even-numbered years. Prereq., consent of instr. Theory and applications of optimization. Topics chosen from linear, non-linear, and discrete optimization, including duality theory, convexity and networks. Level: Graduate
M 584 - Topics in Combinatorics and Optimization

Credits: 3. (R-12) Offered spring odd-numbered years. Prereq., consent of instr. Topics chosen from the areas of combinatorics and optimization. May include classical problems, current trends, research interests or other topics chosen by the instructor. Level: Graduate
M 593 - Professional Project

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., consent of advisor. Preparation of a professional paper appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Faculty-Led Study Abroad
M 595 - Special Topics

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums
M 596 - Independent Study

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Service Learning/Volunteer
M 597 - Research

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate
M 598 - Internship

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. Level: Graduate Course Attributes: Internships/Practicums
M 599 - Thesis

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., consent of instr. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate
M 600 - Mathematics Colloquium

Credits: 1 TO 3. (R-3) Offered autumn and spring. Prereq., consent of advisor. Presentations of research topics in mathematics and related fields. Level: Graduate
M 602 - Teaching College Mathematics

Credits: 3. Prereq., second year standing in graduate school. Topics include publishing, grant writing, writing in mathematics classes, media use in mathematics, evaluation and assessment of curricular materials and programs, instructional methods in university mathematics courses, and other selected topics. Level: Graduate
M 605 - Learning Theories in Mathematics

Credits: 3. Prereq., graduate status. How children learn mathematical content and processes. Models of mental development, concept formation, problem solving, reasoning, and creative thinking. Level: Graduate
M 606 - Current Topics in the History of Mathematics

Credits: 3. Examination of mathematical history topics from the latter part of the 20th century. Discussions may focus on the impact of Hilbert's Problems. Research on current mathematics. Level: Graduate
M 609 - Research Methods in Mathematics Education

Credits: 3. Prereq., Consent of instr. Resources for learning of reported research, critical reviews of research, quantitative and qualitative processes. Level: Graduate

M 610 - Graduate Seminar in Applied Mathematics

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., consent of instr. A review and discussion of current research. Level: Graduate

M 620 - Graduate Seminar in Algebra

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., consent of instr. Level: Graduate

M 630 - Graduate Seminar in Geometry/Topology

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., consent of instr. A review and discussion of current research. Level: Graduate

M 650 - Graduate Seminar in Analysis

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., consent of instr. A review and discussion of current research. Level: Graduate

M 680 - Graduate Seminar in Combinatorics and Optimization

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., consent of instr. A review and discussion of current research. Level: Graduate

M 690 - Supervised Internship

Credits: 1 TO 12. (R-6) Offered autumn and spring. Prereq., consent of department. Supervised Teaching Internship. Level: Graduate Course Attributes: Research & Creative Schlrshp

M 691 - Practicum

Credits: 3. Prereq., consent of instr. Resources for learning of reported research, critical reviews of research, quantitative and qualitative processes. Level: Graduate

M 694 - Seminar

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., consent of instr. A review and discussion of current research. Topics vary. Level: Graduate

M 699 - Dissertation

Credits: 1 TO 9. (R-9) Offered autumn and spring. Level: Graduate

Mathematics-Statistics

STAT 216 - Introduction to Statistics

Credits: 4. Offered autumn and spring. Prereq., M 115 (preferred), or one of M 121, 135, 151, 162 or 171, or ALEKS placement ≥ 4 . Introduction to major ideas of statistical inference. Emphasis is on statistical reasoning and uses of statistics.

STAT 341 - Introduction to Probability and Statistics

Credits: 3. Offered autumn and spring. Prereq., one of M 162, 172 or 182. Probability, probability models and simulation, random variables, density functions, special distributions, and a brief survey of estimation and hypothesis testing. Computer use integrated throughout.

STAT 421 - Probability Theory

Credits: 3. Offered autumn. Prereq., M 273 and STAT 341 or consent of instr. An introduction to probability, random variables and their probability distributions, estimation and hypothesis testing. This course is the foundation on which more advanced statistics courses build.

STAT 422 - Mathematical Statistics

Credits: 3. Offered spring. Prereq., STAT 421. Continuation of 421.

STAT 451 - Statistical Methods I

Credits: 3. Offered autumn. Prereq., one year of college mathematics including M 115 or equiv. course in probability or consent of instr. May not be counted toward a major in mathematics. Intended primarily for non-mathematics majors who will be analyzing data. Graphical and numerical summaries of data, elementary sampling, designing experiments, probability as a model for random phenomena and as a tool for making statistical inferences, random variables, basic ideas of inference and hypothesis testing.

STAT 452 - Statistical Methods II

Credits: 3. Offered spring. Prereq., STAT 451. Continuation of STAT 451. May not be counted toward a major in mathematics. Multiple regression, experimental design, analysis of variance, other statistical models.

STAT 457 - Computer Data Analysis I

Credits: 1. Offered autumn. Coreq., STAT 451 or consent of instr. An introduction to software for doing statistical analyses. Intended primarily for students in STAT 451.

STAT 458 - Computer Data Analysis II

Credits: 1. Offered spring. Coreq., STAT 452 or consent of instr. Continuation of STAT 457. Intended primarily for students in STAT 452.

STAT 491 - Special Topics

Credits: 1 TO 9. (R 9) Offered autumn and spring. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

STAT 540 - Probability and Statistics for Teachers

Credits: 3. Offered intermittently in summer. Prereq., STAT 341 or equiv. A survey of modern topics in probability and statistics. Emphasis will be on applications of statistics in real situations. Level: Graduate

STAT 541 - Advanced Mathematical Statistics

Credits: 3. Offered intermittently. Prereq., STAT 422. Advanced theory of estimation and hypothesis testing including large sample theory. Level: Graduate

STAT 542 - Applied Linear Models

Credits: 3. Offered autumn even-numbered years. Prereq., STAT 422 or consent of instr. Numerical and graphical data summaries, simple linear and multiple regression and analysis of variance, including estimation, hypothesis testing, residual analysis, diagnostics, and model-building strategies. Use of the computer and real data sets integrated throughout. Level: Graduate

STAT 543 - Applied Multivariate Statistical Analysis

Credits: 4. Offered spring even-numbered years. Prereq., STAT 452 or 422, or consent of instr. Introduction to multivariate statistical methods and applications. Includes appropriate linear algebra, random vectors, multivariate normal distribution, multivariate ANOVA, principal components, clustering, discriminant analysis, and related topics. Use of the computer and real data sets integrated throughout. Intended for students in mathematics and in other fields. Level: Graduate

STAT 544 - Topics in Probability and Statistics

Credits: 3. (R-12) Offered intermittently. Prereq., STAT 422 and consent of instr. May include theory of nonparametric statistics, generalized linear models, stochastic processes or other topics chosen by the instructor. Level: Graduate

STAT 545 - Theory of Linear Models

Credits: 3. Offered autumn odd-numbered years. Prereq., STAT 422. Multivariate normal distribution, distribution of quadratic forms, estimation and hypothesis testing in the full rank and less than full rank general linear models. Level: Graduate

STAT 547 - Applied Nonparametric Statistics

Credits: 3. Offered autumn odd-numbered years. Prereq., STAT 421 or 452 or consent of instr. Statistical estimation and inference based on ranks and elementary counting methods. Applications to a variety of situations including one- and two-sample, correlation, regression, analysis of variance, and goodness-of-fit problems. Use of the computer and real data sets integrated throughout. Intended for students in mathematics and in other fields. Level: Graduate

STAT 549 - Applied Sampling

Credits: 3. Offered autumn even-numbered years. Theory and application of methods for selecting samples from populations in order to efficiently estimate parameters of interest. Includes simple random, systematic, cluster, stratified, multistage, line transect, distance and adaptive sampling. Use of the computer and real data sets integrated throughout. Intended for students in mathematics and in other fields. Level: Graduate

STAT 640 - Graduate Seminar in Probability and Statistics

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., consent of instr. A review and discussion of current research. Level: Graduate

Military Science

Reserve Officers Training Corps, Chad Carlson, Chair

Army ROTC (Reserve Officers' Training Corps) offers college students the opportunity to serve as commissioned officers in the U.S. Army, the Army National Guard, or the U.S. Army Reserve upon graduation. ROTC enhances a student's education by providing unique leadership and management training along with practical leadership experience. Students develop many of the qualities basic to success while earning a college degree and an officer's commission at the same time.

The Margin of Difference. Army ROTC cadets learn to be leaders and receive hands-on experience in managing physical, financial, and human resources. They develop self-confidence and superior decision-making skills. Employers value these leadership qualities and recognize the associated potential in ROTC graduates.

Four-Year Program. The four-year Army ROTC program consists of two parts: the Basic Course and the Advanced Course.

Basic Course. The basic course is normally taken during the first two years of college and may be taken without incurring any military obligation. This course covers such subjects as management principles, national defense, military history, and leadership development. Basic course classes include adventure training such as squad tactics and small arms marksmanship. Additional opportunities are also available to conduct small unit training exercises throughout Western Montana. In addition, a variety of outside social and professional enrichment activities are available. All necessary ROTC textbooks, uniforms, and other essential materials for the basic course are furnished to students at no cost. After completing the basic course, students who have demonstrated the potential to become officers and who have met the physical and scholastic standards are eligible to enroll in the Advanced Course. Compression of the Basic Course into two semesters may be arranged for those students who did not take military science courses during their Freshman year.

Advanced Course. The Advanced Course is usually taken during the final two years of college. Instruction includes organization and management, tactics, ethics, critical thinking, creative problem solving and further leadership development. Uniforms and equipment in the Advanced Course are furnished to students at no cost. During the summer between their junior and senior years of college, Advanced Course cadets attend Cadet Summer Training (CST), a fully paid four-week leadership practicum. LDAC gives cadets the chance to apply what they have learned in the classroom and introduces them to Army life while also receiving academic credit. Completion of the Advanced Course requires two years of study. Each cadet in the Advanced Course receives a subsistence allowance of up to \$4,500 for each year of attendance.

Two-Year Program. The two-year program applies to incoming juniors and community college graduates, students at four-year colleges who did not take ROTC during their first two years of school, and students entering a two-year postgraduate course of study. To enter the two-year program, students must attend a fully paid four-week Leader's Training Course (LTC), normally held during the summer between their sophomore and junior years of

college. At LTC, students learn to challenge themselves physically and mentally, and to build their confidence and leadership skills. After successfully completing LTC, students who meet all the necessary enrollment requirements may participate in the Advanced Course.

Scholarships and Financial Assistance. Army ROTC scholarships are offered for four, three and two years and are awarded on a competitive basis. Each scholarship pays 100% of student's tuition and fees, \$1200 a year for textbooks and supplies, and a monthly stipend totaling up to \$4,500 per year while the scholarship is in effect. Four-year scholarships are awarded to students who will be entering college as freshmen. Two and three-year scholarships are awarded to students already enrolled in college and to Army enlisted personnel on active duty. Additionally, students who attend LTC (see two-year program) may compete for two-year scholarships while at the course. Scholarship recipients can pursue degrees in any accredited four year program at the University of Montana. Students who receive scholarships are required to attain undergraduate degrees in the fields in which their scholarships were awarded.

Veterans. Veterans may apply their military experience as credit toward the ROTC Basic Course. If eligible, a veteran may enroll directly into the Advanced Course.

Simultaneous Membership Program. This program allows students to be members of the Army National Guard or the Army Reserve and to enroll in Army ROTC at the same time. Students participating in the Simultaneous Membership Program receive up to \$4,000 per year in tuition assistance, \$4,500 per year in monthly stipends and an additional \$20,000 per year in other benefits. There are also scholarships available for students participating in the Simultaneous Membership Program that are interested in staying in the Army National Guard or the Army Reserve upon graduation that pay up to \$8,500 per year for living expenses and \$1,200 per year for textbooks, supplies and other equipment. These scholarships are in addition to many of the current benefits students receive as part of the Simultaneous Membership Program.

Service Obligation. There is no military service obligation for basic course students, unless on scholarship. Advanced course and scholarship (contracted) students incur an obligation to serve in the active Army, Army Reserve or National Guard.

Commission Requirements. In order to earn a commission as a Second Lieutenant in the United States Army, each student must:

1. Complete all required Military Science instruction while attending college as a full-time student, and obtain a baccalaureate or higher degree.
2. Complete a PMS approved US History course.
3. Meet medical and physical fitness standards.
4. Be a U.S. citizen.
5. Successfully complete Cadet Summer Training.
6. Be recommended by the Professor of Military Science.

College Humanities & Sciences Catalog Year: 20152016

Degree Type: Minor

Level: Minor

Subject: **Military Studies (Minor)**

Total Credits: 33 Cumulative GPA Required: 2.5

Lower Division Core

Category Name: Lower Core Courses

Rule: Must complete all of the following:

Criterion: C

Number of Credits 12

Course Listing

MSL 101 Leadership and Personal Dev 3

MSL 102 Intro to Tactical Leadership 3

MSL 201 Innovative Team Leadership 3

Commentary: The department may waive the Basic Course requirements for following situation courses: prior military service, Advanced Individual Training (AIT),

Leader's Training Course (LTC) or Accelerated Cadet Commissioning Training (ACCT).

Commentary:

Upper Division Core

Category Name: Upper Core Courses

Rule: Must complete all of the following:

Criterion: C Number of Credits 12

Course Listing

MSL 301 Adaptive Team Leadership 3

MSL 302 Applied Team Leadership 3

MSL 401 Adaptive Leadership 3

MSL 402 Officership and Ethics 3

Commentary:

Upper Division Core

Category Name: War History Requirement

Rule: Must complete 1 of the following

Criterion: C Number of Credits 3

Course Listing

HSTA 316 American Civil War Era 3

HSTA 333 Key Events in American Militar 3

Commentary:

Major Electives

Category Name: History/Political Science Requirement

Rule: Must complete six credits from the following:

Criterion: C Number of Credits 6

Course Listing

HSTA 316 American Civil War Era 3

HSTA 333 Key Events in American Militar 3

HSTR 272E Terrorism:Viol Mod Wrld 3

HSTR 374 War, Peace, & Society 3

PSCI 230X Intro to International Rel 3

Commentary: Students must complete at least 3 credits from each discipline with at least 3 credits of upper division coursework in addition to the required history course. Student can also take HSTR 301 Political Ancient Greek Social History or HSTR 304 Ancient Rome to satisfy the History requirement.

Degree Commentary

A total of 24 credits of MSL (Military Science Leadership) courses are allowed toward the bachelor degree for contracted students. A total of 12 credits are allowed toward the bachelor degree for noncontracted students. Obtain a grade of "C" or better in all courses used toward the minor, and a cumulative GPA of 2.5 for Military Science courses.

Department Faculty

Professors

- Chad Carlson, Lieutenant Colonel

Assistant Professors

- CPT Patrick Beckwith, Assistant Operation Officer
- MSG Travis Hambrick, Senior Military Science Advisor & MS III Advisor
- CPT Tracy Mitchell, Instructor/ROTC Recruiter
- CPT Kris Pyette, Operation Officer & MSII Advisor
- CPT Sean Thornton
- SFC Bradley Watson

Affiliates

- Richard Reeves, Supplies manager

Course Descriptions

Military Science Leadership

MSL 101 - Leadership and Personal Dev

Credits: 3. Offered autumn. The Constitutional role of the military, military tradition, current defense posture, service roles and missions. An introduction to issues and competencies that are central to a commissioned officer's responsibilities. Establishes framework for understanding officership, leadership and army values.

Course Attributes: ROTC Course

MSL 102 - Intro to Tactical Leadership

Credits: 3. Offered spring. Establishes foundation of basic leadership fundamentals such as problem-solving, communications, goal setting and improving listening techniques. Introduction to the principles of military leadership and organizational values through discussion, observation and practice exercises. Course Attributes:

ROTC Course

MSL 106 - Army Physical Fitness

Credits: 1. (R-4) Offered autumn and spring. The study and application of military drill and ceremony: formation, ceremonies, and marching; the study of the fundamentals of the military physical conditioning program, and the practical application of skills learned. Physical education activity course; a maximum of four credits of activity courses may be counted toward graduation. Course Attributes: ROTC Course

MSL 195 - Special Topics

Credits: 1 TO 6. (R-6) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: ROTC Course

MSL 201 - Innovative Team Leadership

Credits: 3. Offered autumn. Demonstration and practice of individual military leadership skills with emphasis on communication and observation through experiential learning exercises. Establishes framework for

understanding of “life skills” such as physical fitness and time management. Examination and practical application of tasks training and military style briefings. Course Attributes: ROTC Course

MSL 202 - Found of Tactical Leadership

Credits: 3. Offered spring. Building successful teams through influencing actions and effective communication in setting and achieving goals. Use of creativity in the problem solving process. Introduction of individual and team aspects of military tactics in small unit operations. Practical exercises in techniques for training others as an aspect of continued leadership development. Course Attributes: ROTC Course

MSL 203 - Ranger Challenge

Credits: 2. (R–4) Offered autumn. Practical hands–on training in one rope bridge, land navigation, military weapons assembly/disassembly and physical conditioning. A team selected from this class will represent the University in competition against four other colleges and universities within the Big Sky Task Force. Students may include up to, but not more than, four credits earned in the HHP 100–179 and DANC 325 activity courses and MSL 203 and 315 in the total number of credits required for graduation. Students must be physically qualified and enrolled in an additional MSL academic class. Course Attributes: ROTC Course

MSL 204 - Leader's Training Course

Credits: 3. (R–4) Offered autumn and spring. Prereq., consent of instr. Intensive supervised study in applied leadership and management development in an organizational setting. Course Attributes: ROTC Course

MSL 295 - Special Topics

Credits: 1 TO 6. (R–6) Offered spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one–time offerings of current topics. Course Attributes: ROTC Course

MSL 296 - Leadership Practicum

Credits: 1 TO 4. (R–4) Offered autumn and spring. Prereq., consent of instr. Intensive supervised study in applied leadership and management development in an organizational setting. Course Attributes: Service

Learning/Volunteer ROTC Course

MSL 301 - Adaptive Team Leadership

Credits: 3. Offered autumn. Prereq., consent of instr. Coreq., MSL 303. Developing personal leadership principles through the learning and application of various small unit leadership procedures. Fundamentals of leadership development, land navigation, troop leading, small units tactics, rappelling, rifle marksmanship and physical fitness. Study of the organization and operation of the U.S. Army as a profession. Students are required to attend one weekend field exercise during the semester. Restricted to contracted Military Science students. Course Attributes: ROTC Course

MSL 302 - Applied Team Leadership

Credits: 3. Offered spring. Prereq., consent of instr. Coreq., MSL 303. Continuation of the study and application of small unit leadership tasks. Advanced leadership skills taught including medical evacuation procedures, radio procedures, and increased involvement in planning and executing military operations in preparation for attendance at the Leader Development and Assessment Course at Fort Lewis, Washington. Students participate in rifle marksmanship instruction including qualification with the M16A2 rifle, rappelling, and attend one weekend exercise with students from regional universities in the area and the Montana Army National Guard. Restricted to contracted Military Science students. Course Attributes: ROTC Course

MSL 303 - Leadership Laboratory

Credits: 1. (R–4) Offered autumn and spring. Prereq., consent of instr. Coreq., MSL 301, 302, 401, or 402. Practical application of skills learned in the classroom. Course Attributes: ROTC Course

MSL 305 - Leadership Development and Assessment Course

Credits: 3. Offered every term. Prereq., consent of instr. Required study and internship in military tactics, leadership and organizational behavior. Supervised by active duty military officers. Participants attend course of study at Fort Knox, KY for four weeks of intense evaluation and training to assess their ability to serve as a 2nd LT in the US Army, US Army Reserves, or the National Guard.

MSL 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: ROTC Course

MSL 401 - Adaptive Leadership

Credits: 3. Offered autumn. Prereq., consent of instr.; coreq., MSL 303. The application of leadership principles and techniques involved in leading young men and women in today's Army. Students explore training management. methods of effective staff collaboration and developmental counseling techniques. Develops student proficiency in planning and executing complex operations, functioning as a member of a staff and mentoring subordinates. Restricted to contracted Military Science students. Course Attributes: ROTC Course

MSL 402 - Leadership in a Complex World

Credits: 3. Offered spring. Prereq., consent of instr., coreq., MSL 303. Study includes case study of military law and practical exercises on establishing an ethical command climate. Examines the role communications, values and ethics play in effective leadership. Students complete a semester long Senior Leadership Project that requires them to plan, organize, collaborate, analyze and demonstrate their leadership skills. Restricted to contracted Military Science students. Course Attributes: ROTC Course

MSL 492 - Coop Education/Internship

Credits: 1 TO 4. (R-4) Offered every term. Prereq., consent of instr. Required study and internship in military tactics, leadership and organizational behavior. Supervised by active duty military officers. Course Attributes: ROTC Course.

Modern and Classical Languages Literatures Department

Elizabeth Ametsbichler and Jannine Montauban, Co-Chairs

Instruction is offered in the following languages and literatures: Arabic, Chinese, French, German, Classical Greek, Italian, Japanese, Latin, Russian and Spanish, as well as in linguistics, foreign literatures in English translation, film, and the study of foreign cultures. Undergraduate courses have been planned to meet the needs of students who began studying a language in high school as well as those who undertake such study for the first time at the University.

The courses are intended to serve several purposes: (1) Contribute to the general education of students by giving them an opportunity to gain insight into patterns of living and thinking which are different from their own; (2) Enable students to gain proficiency in the language; (3) Prepare candidates for careers in research and college teaching by providing a solid basis for graduate studies in the various languages; (4) Prepare future teachers of foreign languages; (5) Provide language training requisite to careers in government, foreign commerce, and library work; (6) Enable students to read foreign publications and to meet graduate foreign language requirements in their field.

The Department of Modern and Classical Languages and Literatures offers undergraduate majors in Classics (Greek and Latin), French, German, Japanese, Russian, and Spanish. Within Classics, it is possible to elect options in Classical Languages (Latin and Greek), Classical Civilization, and Latin. There are undergraduate minors in Arabic and Chinese. The Master of Arts degree in Modern Languages and Literatures is offered with options in French, German, and Spanish. A master's degree with a concentration in any of the languages in which we offer a major may be obtained by means of the Master of Interdisciplinary Studies program.

High School Preparation: Credit is automatically granted for Advanced Placement scores of 3, 4, or 5. At each UM Orientation, the department offers a computerized placement/assessment examination in French, German, and Spanish. Students also can arrange individually to take the CLEP exam, administered by Testing Services in French, German, or Spanish.

These exams are not required, but serve one or more of three purposes:

1. **Exemption from the General Education Competency Requirement in Foreign Language:** if the student achieves a score that indicates a competence equivalent to the completion of French, German, or Spanish 102 (second semester). (See the General Education Requirements section of this catalog.)
2. **Placement for further study in the language:** the score achieved on this test is an accurate indicator of the course level at which language study should be resumed at the University (e.g. 102, 201, 202).
3. **Credit by examination:** A student with extensive language study may score high enough on the placement exam to qualify for University credits if she or he places into 202 or 301. By taking the course into which she or he placed (202 or 301) and receiving a B (3.00) or better, the student may then receive four by-pass credits (Pass grade only) for the preceding course (201 or 202).

Students who elect not to take this exam may:

1. Satisfy the General Education Competency Requirement in Foreign Language by successfully completing a University foreign language 102 (second semester) course.
2. Estimate their placement level for further study by the approximate equating of one year of high school study to one semester of university study. Students should consult with the department in making this estimate.

Foreign Study Programs The Department of Modern and Classical Languages and Literatures offers programs of accredited study in Austria, China, Germany, Italy, Spain, Mexico, and Russia. Each program is supervised by a departmental faculty member, and is open to any student who meets the respective foreign language prerequisites. (There is no language prerequisite for the Study Abroad in Italy, but Italian is recommended.) Details concerning individual programs are available from the Department of Modern and Classical Languages and Literatures. The department also sponsors student exchanges with universities in France as well as work/study internships abroad for students in Japanese.

Credits: 3. A diachronic survey of primarily Francophone African cinema accompanied by interpretation and evaluation of films through filmic critical theory. Students taking the course for French credit must read and write in French.

MCLG 358 - Lat Amer Civ Thru Lit/Film

Credits: 3. Offered spring. The development of the traditional society of Latin American civilization through the interaction of European, Indian and African elements. Credit not allowed for both LS/MCLG 358 and 359.

MCLG 393 - The Russian Experience

Credits: 3. Offered intermittently during summer or winter sessions. Prereq., MCLG 193, Students spend three weeks in Russia on a faculty-led study-abroad program. They participate in daily cultural excursions and study Russian culture and literature with the program director.

MCLG 395 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offering of visiting professors, experimental offerings of new courses or one-time offerings of current topics.

MCLG 396 - Independent Study

Credits: 1 TO 9. (R-9) Offered autumn and spring. Course material appropriate to the needs and objectives of the individual student.

MCLG 398 - Internship

Credits: 1 TO 6. Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internship graduation limit 6

MCLG 410 - Methods Tchg For Lang

Credits: 3. Offered spring. Prereq., Ling 270S; one of FRCH 400, LATN 311, RUSS 350, or SPNS 400. Coreq. C&I 301 or 302. Fundamental concepts, objectives and techniques in the teaching of foreign languages.

MCLG 431 - Post-War Japanese Lit

Credits: 3. Offered spring odd-numbered years. Same as JPNS 431. Introduction to issues, literature, and criticism of Japanese literature from the postwar (1945) through the contemporary period, using texts in English translation.

Course Attributes: Writing Course-Upper-Division

MCLG 440 - Stds in Comparative Lit

Credits: 3. (R-9) Offered intermittently. Prereq., consent of instr. Same as LIT 430 and LS 455. The study of important literary ideas, genres, trends and movements. Credit not allowed for the same topic in more than one course numbered 440, 494, LIT 430 or LS 455.

MCLG 494 - Sem in Foreign Literatures

Credits: 1 TO 3. (R-9) Offered Spring. Same as RUSS 494. The topic of the seminar alternates between 1.) The Russian Novel and 2.) Dostoevsky and 3.) Women and Gender in Russian Culture. May be taken for honors credit through the Davidson Honors College. No knowledge of Russian is necessary, but Russian majors will be required to do selected readings in the original Russian. Fulfills the Upper-Division Writing Expectation for Russian majors.

Course Attributes: Writing Course-Advanced

MCLG 495 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses or one-time offerings of current topics.

MCLG 496 - Independent Study

Credits: 1 TO 6. (R-6) Offered autumn and spring. Course material appropriate to the needs and objectives of the individual student.

MCLG 501 - Research Methods

Credits: 3. Offered intermittently. Prereq., graduate standing in an M.A. program. Study of technical terms and overview of literary theory. Intensive analysis of research tools, materials and methods in literature, linguistics and pedagogy. Guided work in writing components of a research paper or thesis. Required of both thesis and non-thesis candidates for an advanced degree in Modern Languages and Literatures with an option in French, German, Spanish, or Interdisciplinary Studies which includes Classics. Level: Graduate

MCLG 522 - Sem in Comparative Lit

Credits: 3. (R-9) Offered intermittently. Prereq., graduate standing. Same as LIT 522. Topics will vary. Level: Graduate

MCLG 594 - Graduate Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. A review and discussion of current research. Topics vary. Level: Graduate

Mod & Class Lang-Linguistics

MCLX 395 - Special Topics

Credits: 1 TO 6. (R 6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

MCLX 495 - Special Topics

Credits: 1 TO 6. (R 6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

Russian

RUSS 101 - Elementary Russian I

Credits: 5. Offered autumn. Emphasis on oral communication, with development in all major skill areas: listening, speaking, reading, and writing. Course Attributes: Foreign Language Requirement

RUSS 102 - Elementary Russian II

Credits: 5. Offered spring. Prereq., RUSS 101 or equiv. Continuation of 101. Course Attributes: Foreign Language Requirement

RUSS 105H - Intro to Russian Culture

Credits: 3. Offered autumn. Fulfills both the Historical and Cultural (H) and American and European (Y) General Education Perspectives. Same as MCLG 105H and LS 105H. A chronological survey of Russian culture from its beginnings to the contemporary period. Course Attributes: Historical & Cultural Course American and European

RUSS 392 - Independent Study

Credits: 1 TO 6. (R–6) Offered autumn and spring. Course material appropriate to the needs and objectives of the individual student.

RUSS 393 - Study tours / Study abroad

Credits: 1 TO 12. Offered intermittently. University omnibus option for independent work. Course Attributes: Faculty-Led Study Abroad

RUSS 398 - Internship

Credits: 1 TO 6. Offered intermittently. Prereq., consent of department. Extended classroom experience that provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

RUSS 411 - 19th Century Russian Authors

Credits: 3. Offered intermittently. Prereq., RUSS 202 or consent of instr. A study of various authors; may include Pushkin, Dostoevsky, Tolstoy, etc.

RUSS 412 - 20th Century Russian Authors

Credits: 3. Offered intermittently. Prereq., RUSS 202 or consent of instr. A study of various authors; may include Bulgakov, Nabokov, Solzhenitsyn, etc.

RUSS 424 - Russian Short Story

Credits: 3. Offered intermittently. Prereq., RUSS 202 or consent of instr. A chronological study of the Russian short story, 19th and 20th centuries.

RUSS 440 - Russian Poetry

Credits: 3. Offered intermittently. Prereq., RUSS 202 or consent of instr. The evolution of Russian poetry from the end of the 18th century to the contemporary period.

RUSS 444 - The Russian Novel

Credits: 3. Offered spring. Topics of the seminar include 1.) The Russian Novel and 2.) Dostoevsky and 3.) Women and Gender in Russian Culture. May be taken for honors credit through the Davidson Honors College. No knowledge of Russian is necessary, but Russian majors will be required to do selected readings in the original Russian. Fulfills the upper-division writing expectation for Russian majors.

RUSS 491 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

RUSS 492 - Independent Study

Credits: 1 TO 6. (R-6) Offered autumn and spring. Course material appropriate to the needs and objectives of the individual student.

RUSS 493 - Study tours / Study abroad

Credits: 1 TO 12. (R-10) Offered intermittently. University omnibus option for independent work. Course Attributes: Faculty-Led Study Abroad

RUSS 494 - Seminar in Russian Studies

Credits: 1 TO 3. (R-9) Offered intermittently. Prereq., consent of instr. Specialized topics in various foreign literatures. Topics announced in class schedules. Course Attributes: Writing Course-Advanced

RUSS 596 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Level: Graduate

Spanish

SPNS 101 - Elementary Spanish I

Credits: 5. Offered autumn. Emphasis on oral communication, with development in all major skill areas: listening, speaking, reading and writing. Course Attributes: Foreign Language Requirement

SPNS 102 - Elementary Spanish II

Credits: 5. Offered spring. Prereq., SPNS 101. Continuation of 101. Course Attributes: Foreign Language Requirement

SPNS 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

SPNS 201 - Intermediate Spanish I

Credits: 4. Offered autumn. Prereq., SPNS 102. Continued practice in the oral skills with added emphasis on grammar and reading proficiency.

SPNS 202 - Intermediate Spanish II

Credits: 4. Offered spring. Prereq., SPNS 201. Continuation of 201.

SPNS 291 - Special Topics

Credits: 1 TO 6. (R 6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

SPNS 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered autumn and spring. Course material appropriate to the needs and objectives of the individual student.

SPNS 301 - Spanish: Oral and Written Expr

Credits: 3. Offered autumn and spring. Prereq., SPNS 202 or equiv. Development of oral and written skills with an emphasis on Hispanic cultural context.

SPNS 305 - Spanish Phonetics

Credits: 3. Offered once each academic year. Prereq., SPNS 202 or consent of instr. A practical and theoretical exploration of the Spanish sound system.

SPNS 306 - Commercial Spanish

Credits: 3. (R-6) Offered intermittently. Prereq., SPNS 301. The use of business concepts and terminology in Spanish. Conducted entirely in Spanish. Investigation of cultural attitudes, resources of the Hispanic world, ways in which Hispanics conduct business, practice in business letter writing.

SPNS 308 - Intensive Spanish Abroad

Credits: 1 TO 9. (R-9) Offered spring. Prereq., SPNS 202 or equiv. Intensive Spanish language course to coincide with intensive language course given at an institute or college during the Spanish Study Abroad Program. Credits vary according to the hours and intensity of the foreign language course and are determined by the director of the program.

SPNS 321 - Advanced Conversations

Credits: 3. Offered intermittently. Prereq., SPNS 202. Intensive practice in oral Spanish through individual presentations, vocabulary and grammar work, and film discussion and analysis.

SPNS 326 - Contemporary Spanish Lit

Credits: 3. Offered autumn and spring. Prereq., SPNS 202 or equiv. The study of contemporary works by peninsular authors, including an introduction to literary genres.

SPNS 331 - Contemp Latin Amer Lit

Credits: 3. Offered autumn and spring. Prereq., SPNS 202 or equiv. The study of representative works by Latin-American authors with emphasis on the 20th century. Includes an introduction to literary genres.

SPNS 355 - Topics in Spanish Lit/Culture

Credits: 1 TO 9. (R-9) Offered intermittently in spring. Prereq., SPNS 326 or SPNS 331 or consent of instr.

SPNS 359 - Span Amer Civ Lit & Film

Credits: 3. Offered spring in odd-numbered years. Prereq., at least one upper-division class in Spanish and SPNS 301. Same as MCLG and LS 358. The development of the traditional society of Spanish American civilization through the interaction of European, Indian, and African elements. Credit not allowed for both LS/MCLG 358 and SPAN 359.

SPNS 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

SPNS 392 - Independent Study

Credits: 1 TO 6. Course material appropriate to the needs and objectives of the individual student.

SPNS 398 - Internship

Credits: 1 TO 6. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship may count toward graduation.

Course Attributes: Internship graduation limit 6

SPNS 400 - Spanish: Applied Linguistics

Credits: 3. Offered autumn. Prereq., SPNS 305 and LING 270 or 470. Topics in linguistics applied to the Spanish Language with an emphasis on morphology, syntax and semantics.

SPNS 408 - Spanish: Adv Comp & Conversat

Credits: 3. Offered spring. Prereq., SPNS 301 or consent of instr. Intensive practice in writing on different levels of usage and style, combined with guided oral practice.

SPNS 432 - Latin American Literature

Credits: 3. (R-6) Offered regularly. Prereq. SPNS 326 or 331 or consent of instr. Emphasis on major works of the 20th century.

SPNS 465 - Spanish Lit:Renaiss/Goldn Age

Credits: 3. (R-6) Offered autumn even-numbered years. Prereq., SPNS 326 or 331 or consent of instr.

SPNS 466 - Spanish Lit:Modern & Contemp

Credits: 3. (R-6) Offered spring even-numbered years. Prereq., SPNS 326 or 331 or consent of instr.

SPNS 599 - Professional Paper

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., graduate standing. Preparation of a professional paper appropriate to the needs and objectives of the individual student. Level: Graduate

SPNS 699 - Thesis

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., graduate standing. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

Native American Studies

Dave Beck, Chair

The Native American Studies Department at the University of Montana builds its curriculum on the foundation of three interrelated principles: sovereignty, indigeneity and community well-being. In so doing we pay close attention to the continuing role of traditional value systems, the impacts of colonization and the efforts toward decolonization within tribal communities. We define sovereignty broadly as one of the rights of all indigenous peoples, including both the political-legal foundations as provided in U.S. law and policy and self-determination more generally. Indigeneity underlies the unique holistic relationship that Native American communities have to the land and to the environment. In addition, our degree program not only intends to advance the well-being of our individual students, both native and non-native, but also to enhance the well-being of Indigenous communities across Montana, the United States and globally, by providing necessary and relevant education about those communities as well as the skills and knowledge for those working within those communities to do so effectively. Our curriculum and the foundations of faculty research are broadly cross-disciplinary with these principles at their base.

Native American Studies is an academic discipline committed to examining the contemporary and past experiences and life ways of the first Americans from their perspective. The curriculum is designed to provide a study of American Indians from a holistic and humanistic viewpoint by focusing upon their cultures, history, and contemporary life. Courses are designed for both Native American and non Native American students so they can better understand human similarities and differences, thereby leading to more effective work with and within tribal communities, through stronger knowledge bases of tribal America, and the development of better communications and cross-cultural relationships.

The Native American Studies major supports the objectives of a liberal arts education. It is interdisciplinary and provides a perspective that critically analyzes and evaluates the strengths and limitations of each contributing discipline.

Course Descriptions

Film

FILM 860 - Native Americans & Cinema

Credits: 3. Offered once each year. Same as NASX 360. Surveys the image of Native Americans in American film with an emphasis on revisionist, or breakthrough films. Ultimate focus will be on films featuring Native American writers, directors and actors.

Native American Studies

NAS 260 - African Amer & Native Amer

Credits: 3. Offered Fall, even years. Same as AAS 260. A study of the broad scope of relations between African Americans and Native Americans in colonial and United States history. Topics explored through history, sociology, and cultural anthropology.

Native American Studies

NASX 105H - Intro Native Amer Studies

Credits: 3. Offered Autumn and Spring. Survey course to acquaint the student with Native American Studies by a general overview of Indian history, culture, philosophy, religious beliefs and contemporary issues. Course Attributes: Historical & Cultural Course Indigenous and Global

NASX 141 - Elementary Blackfoot I

Credits: 5. Offered autumn. An introduction to the Blackfoot language and culture. Students will learn how to write and read Blackfoot as well as how to conduct simple conversations. Course Attributes: Foreign Language Requirement

NASX 142 - Elementary Blackfoot II

Credits: 4. Offered intermittently spring. Continuation of 141. Course Attributes: Foreign Language Requirement

NASX 180 - Event Planning

Credits: 3. Offered spring semester. This course is intended for students to learn the skills necessary to put on a large event. The course is intended as a hands-on experiential learning course. The culmination of the course will be putting on the annual Kyi-Yo contest pow-wow, the first large regional pow-wow of the year on the circuit.

NASX 191 - Special Topics

Credits: 1 TO 9. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

NASX 192 - Independent Study

Credits: 1 TO 6. (R-6) Prereq., consent of instr. Selected topics on American Indians under the direct supervision of a faculty member.

NASX 198 - Internship

Credits: 1 TO 6. (R-9) Offered by special arrangement. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

NASX 201X - Indian Cultr Exprssd Thru Lang

Credits: 3. Offered Autumn. This course has been designed to introduce students to a non-Western perspective of the relationship that exists between Indian cultures and their languages. Students will be exposed to various languages of American Indian peoples, and how through Native languages insight can be gained into history, traditions, and cultural life-ways of Indian peoples. Course Attributes: Indigenous and Global

NASX 210X - Native Amer Sports & Games

Credits: 3. Offered Autumn or Spring. Explores Native American sports and games, both traditional and modern. Through classroom learning and actual play, students gain an understanding of how play and competition have been vital to Native communities. Course Attributes: Indigenous and Global

NASX 231X - Indig World View Perspectives

Credits: 3. Offered Spring. Same as ANTY 231X. Examination of Indigenous belief systems, with regard to world views, religious ceremonies, cultural ways and the impact that Anglo-European culture has had upon these systems. Focus on Indigenous peoples of Australia, New Zealand, Canada and the United States Course Attributes: Indigenous and Global

NASX 235X - Oral/Written Tradts Native Amer

Credits: 3. Offered Autumn and Spring. Analysis of the oral traditions of Native Americans including an introduction to the literary works of early leading American Indian writers. Course Attributes: Literary & Artistic Stds Crse Writing Course-Intermediate Indigenous and Global

NASX 239X - Nat North Amer History & Art

Credits: 3. Focus on Native North American history through art and material culture and its relationship to American Indian tribally specific aesthetics, cosmologies, worldviews and life-ways, historic uses and the contemporary Indian artistic experience. Course Attributes: Literary & Artistic Stds Crse Indigenous and Global

NASX 260X - Indig Community Developmnt

Credits: 3. Offered intermittently. This course introduces the student to concepts in indigenous/rural sustainable community development in the countries of North America in broad historical and cultural frameworks. Course Attributes: Indigenous and Global

NASX 280 - NA Studies Rsrch Theors/Mthds

Credits: 3. Offered Autumn. Prereq., NAS major or minor. Introduction to the Research materials pertaining to the study of American Indian peoples and cultures. Emphasis on current research trends and writing. Course Attributes: Writing Course-Intermediate

NASX 291 - Special Topics

Credits: 1 TO 6. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

NASX 292 - Independent Study

Credits: 1 TO 6. (R 6) Experimental offerings of visiting professors, experimental offerings of new courses or one time offerings of current topics.

NASX 303E - Ecol Persp in Nat Amer Trad

Credits: 3. Offered Autumn and Spring. An examination of Native American environmental ethics and tribal and historical and contemporary use of physical environmental resources. Course Attributes: Ethical & Human Values Course

NASX 304E - Native American Beliefs/Philos

Credits: 3. Offered Autumn and Spring. A study of selected ethical systems; origins, world views; religious beliefs and the way they have been affected by western civilization. Course Attributes: Ethical & Human Values Course Indigenous and Global

NASX 306X - Contemp Global Iss Indg People

Credits: 3. Offered Autumn. An examination of the major issues that affect the contemporary experiences of Indigenous Peoples of the Americas, and other global communities. Course Attributes: Indigenous and Global

NASX 340 - Native American Lit

Credits: 3. Offered Autumn. Prereq., three credits of lower-division LIT courses and NASX 105H or 235X. Same as LIT 305. Selected readings from Native American Literature and criticism with emphasis on the literatures after the Native American literary Renaissance. A minimum of three genres covered and three culture areas.

NASX 351 - Traditional Eco Knowledge

Credits: 3. Offered summer. This course is one unit of the four unit (12 credit) summer semester program: "Wild Rockies Summer Semester." Description: This course will explore the traditional ecological perspectives of the Salish, Kootenai, Blackfoot and Tlingit people, as well as how these perspectives relate to Western concepts of ecology. Through field-based activities, lectures by tribal elders, and personal exploration, students will come to a heightened understanding of the still vital cultural perspectives and practices of modern American Indians, particularly in the Rockies of Montana and Canada.

NASX 352 - Montana's Indians/Land

Credits: 3. Offered autumn. This course is one unit of the four unit (12 credit) fall semester program: "Montana Afoot & Afloat: Human/Land Relations." Description: This course gives students a greater understanding of Indian people's traditional relationships with the land in Montana, and an understanding of how and why those relationships may have changed. Extensive time will be spent on the Fort Belknap, Northern Cheyenne and Crow Reservations where the class will meet with tribal elders and learning will have an emphasis on environmental and tribal/land relationships.

NASX 354X - Indians of MT since Rsrvtn Era

Credits: 3. Offered Autumn. Same as HSTA 354. Examination of the history of Montana Indians since the establishment of the reservations, contemporary conditions, and issues among both reservation and non-reservation Indian communities in the state. Special attention given to social and economic conditions, treaty rights, tribal sovereignty, and legal issues. Course Attributes: Indigenous and Global

NASX 360 - Native Amer and Cinema

Credits: 3. Offered Autumn or Spring. Same as ENFM 344. Surveys the image of Native Americans in American film with an emphasis on "revisionist," or "breakthrough" films. Ultimate focus will be on films featuring Native American writers, directors and actors.

NASX 391 - Special Topics

Credits: 1 TO 6. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

NASX 394 - Workshop/Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. Variable topics addressing Indian law, policy and culture by visiting scholars.

NASX 398 - Internship

Credits: 1 TO 6. (R-6) Offered by special arrangement. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval

must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

NASX 403 - Contmp Tribal Resource Issues

Credits: 3. Offered intermittently. Acquaints students with contemporary tribal resource management and environmental policies.

NASX 405H - Gndr Iss in Native Amer Stdies

Credits: 3. Offered intermittently. Same as WS 342H. Focus on American Indian gender relations and their cultural continuity and historical evolution. National in scope with concentration on certain tribes. Group analysis of contemporary gender issues relevant to Native American peoples. Course Attributes: Historical & Cultural Course

NASX 430 - American Indian Education

Credits: 3. Offered intermittently. An overview of American Indian education including a look at the unique needs of Indian children.

NASX 464 - Hist Amer Indian Affrs to 1776

Credits: 3. Offered Autumn. Same as HIST 464. A study of American Indian relations with Europeans and the United States from first contact to 1776.

NASX 465 - Hist Amer Indian Affrs 10 Cent

Credits: 3. Offered Spring. Same as HIST 465. A study of tribal encounters and adjustments to the American nations in the nineteenth century.

NASX 466 - Hist of Indian Affrs from 1890

Credits: 3. Offered Autumn. Same as HIST 466. A study of tribal encounters and adjustments to the American nation from 1890.

NASX 475 - Tribal Sovereignty

Credits: 3. Offered Spring. An examination of the evolution of tribal governments from a historical and political perspective. Particular attention is devoted to the issues of tribal sovereignty and tribal-state conflicts.

NASX 481 - Native American Film

Credits: 3. Offered once a year. Prereq., NASX 360 or consent of instr.

NASX 488 - Stds in Native Amer Autbio

Credits: 3. Offered intermittently. Same as LIT 429. Prereq., LIT 300 or LIT 305/NASX 340, or consent of instr. Study of texts that present a first-person story of Native American individual's life within historical and cultural contexts, with discussion of theories of autobiography.

NASX 491 - Special Topics

Credits: 1 TO 6. (R-6) Prereq., upper-division standing and consent of instr. Selected topics on American Indians under the direct supervision of a faculty member.

NASX 492 - Independent Study

Credits: 1 TO 6. (R-9) Offered by special arrangement. Experimental offerings of visiting professors, experimental offerings of new courses or one-time offerings of current topics.

NASX 494 - Seminar/Workshop

Credits: 3. (R-6) Offered Spring. Prereq., NAS major or minor, 18 credits in NAS, and junior standing or higher. Senior reading capstone course for the review of past and current literature on and by American Indians. Course Attributes: Writing Course-Advanced

NASX 499 - Senior Capstone/Thesis

Credits: 3 TO 9. (R-9) Offered by special arrangement. Prereq., NAS major or minor, 18 credits in NAS, junior standing, and consent of instr. Independent research project in Native American Studies, supervised by a faculty member, and leading to completion of baccalaureate degree.

NASX 594 - Sem Native American Stds

Credits: 1 TO 3. (R-6) Offered intermittently. Prereq., consent of instr. A review and discussion of current research.

Topics vary. Level: Graduate

NASX 595 - Special Topics

Credits: 1 TO 9. (R-9) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

NASX 596 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., graduate standing and consent of instr. Study of selected topics or problems on American Indians under the direct supervision of a faculty member. Level: Graduate Course Attributes: Service Learning/Volunteer

NASX 598 - Internship

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. Level: Graduate Course Attributes:

Internships/Practicums

Philosophy Department

Paul Muench, Chair

Philosophy is the search for an understanding of how the world as a whole hangs together and how we are to assume our place in that world. Philosophy is the trustee of the heritage of great philosophical texts, and it engages those texts in conversation with contemporary problems. Secondly, philosophy turns directly to the contemporary world and tries to illuminate and advance its concerns with ethics and art, with science and technology, with ecology and feminism, with law and medicine.

Bachelor of Arts and Master of Arts degrees are offered. More information is available online:

<http://www.cas.umt.edu/philosophy>

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Philosophy**

Total Credits: 33 Cumulative GPA Required: 1.7

Lower Division Core

Category Name: Philosophy Lower-Division Core Rule: All courses are required.

Criterion: C- Number of Credits 12

Course Listing

PHL 210E	Moral Philosophy	3	F,S
PHL 233	Intro to Logic: Deduction	3	F,S
PHL 261Y	History of Ancient Philosophy	3	F
PHL 262Y	History of Modern Philosophy	3	S

Commentary: General Education fulfillment through the lower-division core: PHL 210E fulfills the "approved writing course" and "Ethical & Human Values". Both PHL 261Y and PHL 262Y fulfill the "American & European Perspectives".

Upper Division Core

Category Name: Philosophy Upper-Division Core

Rule: Complete four courses (12 credits) with one course (3 credits) in each of the following four core areas.

Criterion: C- Number of Credits 12

Course Listing Commentary:

Subcategory Name: I. History

Rule: Complete one course (3 credits).

Criterion: C- Number of Credits 3

Course Listing

PHL 462	Early Modern Philosophy	3	I
PHL 464	Kant	3	I
PHL 465	Plato	3	I
PHL 466	Aristotle	3	I

Commentary: Special Topics courses taught at the 400-level (PHL 491 [PHIL 495]) may count as upper-division core courses provided that they have a suitable content (consult the department advisor).

Subcategory Name: II. Value Theory Rule: Complete one course (3 credits).

Criterion: C- Number of Credits 3

Course Listing

PHL 412	Ethics and Public Affairs	3	I
PHL 422	Environmental Philosophy	3	I
PHL 427	Topics in Philosophy of Art	1 To 4	I
PHL 429	Philosophy in Literature	3	I
PHL 449	Hist Moral and Political Phil	3	I
PHL 450	Contemp Moral/Political Theory	3	I
PHL 455	Phil of Society and Culture	3	I

Commentary: Special Topics courses taught at the 400-level (PHL 491 [PHIL 495]) may count as upper-division core courses provided that they have a suitable content (consult the department advisor).

Subcategory Name: III. Continental Philosophy Rule: Complete one course (3 credits).

Criterion: C- Number of Credits 3

Course Listing

PHL 467	19th Century Continental Phil	3	I
PHL 468	20th Century Continental Phil	3	I

Commentary: Special Topics courses taught at the 400-level (PHL 491 [PHIL 495]) may count as upper-division core courses provided that they have a suitable content (consult the department advisor).

Subcategory Name: IV. Analytic Philosophy

Rule: Complete one course (3 credits).

Criterion: C- Number of Credits 3

Course Listing

PHL 405	20th Century Analytic Phil	3	I
PHL 406	Contemp Issues Analytic Phil	3	I

PHL 445 Central Issues Phil of Science 3 I

Commentary: Special Topics courses taught at the 400-level (PHL 491 [PHIL 495]) may count as upper-division core courses provided that they have a suitable content (consult the department advisor).

Commentary: Major Electives

Category Name: Required Upper-Division Electives in Philosophy Rule: Students must complete two courses (6 credits).

Criterion: C-

Course Listing	Number of Credits	6		
PHL 301	Knowledge and Reality	3	I

Degree Commentary

Students must complete a minimum of 18 credits in philosophy; at least 6 credits must be in courses numbered 300 and higher.

Department Faculty

Professors

- Albert Borgmann, Regents Professor Emeritus of Philosophy
- Christopher Preston, Professor of Philosophy
- David Sherman, Professor of Philosophy
- Deborah Slicer, Professor of Philosophy, Graduate Advisor

Associate Professors

- Bridget Clarke, Associate Professor of Philosophy
- Armond Duwell, Associate Professor of Philosophy
- Soazig Le Bihan, Associate Professor of Philosophy
- Paul Muench, Associate Professor of Philosophy
- Matthew Strohl, Associate Professor of Philosophy, Department Chair

Adjunct Faculty

- Patrick Burke, Adjunct Instructor of Philosophy
- David Clark, Adjunct Assistant Professor of Philosophy
- Daniel Congdon

Emeritus Professors

- Thomas Huff, Adjunct Professor / Professor of Philosophy, Emeritus
- Fred McGlynn, Professor Emeritus

Course Descriptions

Philosophy

PHL 101Y - Introduction to Philosophy

Credits: 3. (R-12) Offered yearly. An introduction to philosophy through examination of the thought of selected great philosophers or of traditional positions on classical philosophical problems. Course Attributes: American and European

PHL 102Y - Topical Intro to Philosophy

Credits: 1 TO 4. (R-9) Offered yearly. An introduction to philosophy through examination of a selected topic (such as existentialism, philosophy of film, technology and the good life, science and society, philosophy of religion). Course Attributes: American and European

PHL 110E - Introduction to Ethics

Credits: 3. Offered every term. An examination of the Western vision of morality through the careful study of selected writings from Aristotle, Kant and Mill. Additional works in ethics may supplement primary readings. Course Attributes: Ethical & Human Values Course

PHL 112E - Intro Ethics and Environment

Credits: 3. Offered intermittently. An introductory-level ethics course with a special interest in the natural environment. The course will (a) introduce students to the three classical traditions in ethics - virtue, Kantianism, and utilitarianism, (b) ground these theories in questions about the moral status of non-humans and our moral duties to non-humans, (c) include an applied section of the course that will cover animal welfare, biotechnology, and other current topics. Course Attributes: Ethical & Human Values Course

PHL 114E - Intro to Political Ethics

Credits: 3. Offered intermittently. An examination of the issues of political ethics through the careful study of selected writings from the three great Western political traditions: classical natural law theory, modern individualism, and contemporary distributive justice. Course Attributes: Ethical & Human Values Course

PHL 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PHL 198 - Internship

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of faculty supervisor and the Internship Services Office. Extended classroom experience which provides practical application of classroom learning during placements off campus. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

PHL 210E - Moral Philosophy

Credits: 3. Offered autumn and spring. Prereq., philosophy major or minor, or consent of instr. An examination of leading approaches to moral philosophy through a careful reading of classical texts in the Western tradition. A more thorough treatment of the material offered in PHL 110E. Intended primarily for philosophy majors and minors. Course Attributes: Ethical & Human Values Course Writing Course-Intermediate

PHL 233 - Intro to Logic: Deduction

Credits: 3. Offered autumn and spring. Understanding general principles of reasoning and the habits of clear and correct thinking. Emphasis on the analysis of the logical structure of claims in natural language and the skills of elementary deductive inference.

PHL 235 - Intro to Logic: Induction

Credits: 3. Offered intermittently. Prereq., PHL 233 or equivalent, or consent of instr. A study of the formal principles of reasoning from evidence.

PHL 241N - Hist & Philosophy of Science

Credits: 3. Offered intermittently. The epistemological and metaphysical developments of natural philosophy or science. The origins of science in ancient Greece, and its subsequent developments during the scientific revolution. Developments in biology, especially Darwinism and genetics, and developments in physics. Course Attributes: Historical & Cultural Course Natural Science Course

PHL 261Y - History of Ancient Philosophy

Credits: 3. Offered autumn. Introduction to the central works of Plato and Aristotle, with an overview of Presocratic and Hellenistic philosophy. Course Attributes: American and European

PHL 262Y - History of Modern Philosophy

Credits: 3. Offered spring. A survey of the history of philosophy from Descartes to Kant, which includes other continental rationalists and the British Empiricists. Course Attributes: American and European

PHL 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PHL 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

PHL 298 - Internship

Credits: 1 TO 6. (R-9) Offered intermittently. Prereq., consent of faculty supervisor and the Internship Services office. Extended classroom experience which provides practical application of classroom learning during placements off campus. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

PHL 301 - Knowledge and Reality

Credits: 3. (R-9) Offered intermittently. Prereq., upper-division standing or consent of instr. Selected topics in one or more of the following areas: epistemology (the study of knowledge), philosophy of science, metaphysics. Intended primarily for non-majors.

PHL 311 - The Good, Right, Beautiful

Credits: 3. (R-9) Offered intermittently. Prereq., upper-division standing or consent of instr. Selected topics in one or more of the following areas: ethics, philosophy of mind/action, aesthetics. Intended primarily for non-majors.

PHL 316 - Historical Figures in Phil

Credits: 3. (R-9) Offered intermittently. Prereq., upper-division standing or consent of instr. Study of one or more historically significant philosophers. Intended primarily for non-majors.

PHL 321E - Philosophy & Biomedical Ethics

Credits: 3. Offered intermittently. Prereq., upper-division standing or consent of instr. An examination of ethical problems raised by the practice of medicine and by recent developments in medically-related biological sciences. Course Attributes: Ethical & Human Values Course

PHL 323 - Ethics of Climate Change

Credits: 3. This course will examine some of the fundamental issues raised by global climate change and consider how environmental ethics might help to address these issues. Students will become acquainted with the essential elements of climate change science and be provided with an introduction to contemporary approaches to environmental ethics that have developed out of the primary ethical traditions of western thought: deontological (Kantian) ethics, utilitarian ethics, and virtue ethics. In addition, the course will examine alternative understandings of the appropriate relationship between humans and the natural world including: "Deep Ecology" and Native American perspectives.

PHL 351 - Philosophy and Feminism

Credits: 3. Offered intermittently. Prereq., upper-division standing or consent of instr. Study of what distinguishes feminist from traditional approaches to ethics. May also examine other relevant areas of philosophy, including epistemology, political theory, philosophy of science and environment.

PHL 363 - Ancient Greek and Roman Phil

Credits: 3. Offered intermittently. Examination of the thought of the philosophers of Greece and Rome as expressed in original works read in English translation. Ancient philosophy studied within its historical, linguistic and cultural setting. Cannot receive credit for both PHL 363 and MCLG 362H.

PHL 370 - Philosophy of Religion

Credits: 3. Offered intermittently. Prereq., upper-division standing or consent of instr. An examination of one or more of the classic problems of Western philosophy of religion, such as the traditional arguments for and against the existence of God, the relationship of faith and reason, the status of religious experience, the problem of evil, and the problem of reconciling divine omniscience with human freedom.

PHL 390 - Research

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Directed individual research and study appropriate to the background and objectives of the student. Course Attributes: Research & Creative Schlrshp

PHL 391 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PHL 392 - Independent Study

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

PHL 394 - Seminar

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. A review and discussion of current research. Topics vary.

PHL 398 - Internship

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of faculty supervisor and the Internship Services office. Extended classroom experience which provides practical application of classroom learning during placements off campus. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

PHL 405 - 20th Century Analytic Phil

Credits: 3. (R-9) Offered intermittently. Prereq., upper-division standing, PHL 210E, PHL 233, and PHL 262Y, or consent of instr. Intensive study of the work of one or more philosophers (such as Frege, Russell, Wittgenstein) or historical introduction to the major issues and figures of 20th century philosophy in the analytic tradition (with readings from Frege, Russell, Wittgenstein, Quine and others).

PHL 406 - Contemp Issues Analytic Phil

Credits: 3. (R-6) Offered intermittently. Prereq., upper-division standing, PHL 210E, PHL 233, and PHL 262Y, or consent of instr. Examination of contemporary issues in analytic philosophy focusing on one or more of the following topics: philosophy of language, epistemology, metaphysics, philosophy of mind.

PHL 412 - Ethics and Public Affairs

Credits: 3. Offered intermittently. Prereq., upper-division standing and PHL 210E, or consent of instr. Examination of morally relevant issues in government, journalism, education and other social institutions. Issues considered may include just war theory, deception, confidentiality, conflict of interest, privacy, paternalism responsibilities in conflict with other institutions, and responsibilities across national boundaries, among others.

PHL 422 - Environmental Philosophy

Credits: 3. Offered intermittently. Prereq., upper-division standing and PHL 210E, or consent of instr. Critical exploration of selected philosophical and literary texts pertinent to the ethics of human relationships with the natural environment.

PHL 427 - Topics in Philosophy of Art

Credits: 1 TO 4. (R-9) Offered intermittently. Prereq., upper-division standing and PHL 210E, or consent of instr. Examination of philosophical problems related to particular arts and discussion of the nature of the arts. Topics considered may include music, visual arts, literature, and film.

PHL 429 - Philosophy in Literature

Credits: 3. Offered intermittently. Prereq., upper-division standing and PHL 210E, or consent of instr. Philosophical thought in selected works of literature.

PHL 445 - Central Issues Phil of Science

Credits: 3. Offered intermittently. Prereq., upper-division standing and PHL 210E, or consent of instr. A consideration of philosophical issues relating to the nature of modern physical science: method, explanation, theory, progress, space/time, causality, relation of science to philosophy.

PHL 449 - Hist Moral and Political Phil

Credits: 3. Offered intermittently. Prereq., upper-division standing and PHL 210E, or consent of instr. Reading and interpretation of selected writings in the history of moral philosophy and/or political philosophy.

PHL 450 - Contemp Moral/Political Theory

Credits: 3. Offered intermittently. Prereq., upper-division standing and PHL 210E, or consent of instr. Recent theories in ethics and their implications; recent work in political theory, emphasizing contemporary liberalism and its critics.

PHL 455 - Phil of Society and Culture

Credits: 3. Offered intermittently. Prereq., upper-division standing and PHL 210E, or consent of instr. A philosophical examination of cultural forces shaping modern society, forces such as science, technology, or domesticity.

PHL 462 - Early Modern Philosophy

Credits: 3. (R-6) Offered intermittently. Prereq., upper-division standing, PHL 210E, and PHL 262Y, or consent of instr. Intensive study of the work of one or more of the major philosophers from the early modern period (Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume).

PHL 464 - Kant

Credits: 3. Offered intermittently. Prereq., upper-division standing, PHL 210E, and PHL 262Y, or consent of instr. Reading and interpretation of selected works.

PHL 465 - Plato

Credits: 3. Offered intermittently. Prereq., upper-division standing, PHL 210E, and PHL 261Y, or consent of instr. Reading and interpretation of selected works.

PHL 466 - Aristotle

Credits: 3. Offered intermittently. Prereq., upper-division standing, PHL 210E, and PHL 261Y, or consent of instr. Reading and interpretation of selected works.

PHL 467 - 19th Century Continental Phil

Credits: 3. (R-6) Offered intermittently. Prereq., upper-division standing, PHL 210E, and PHL 262Y, or consent of instr. Intensive study of the work of one or more 19th century continental philosophers (such as Hegel, Schopenhauer, Kierkegaard, Marx, Nietzsche).

PHL 468 - 20th Century Continental Phil

Credits: 3. (R-9) Offered intermittently. Prereq., upper-division standing, PHL 210E, and PHL 262Y, or consent of instr. Intensive study of the work of one or more 20th century continental philosophers (such as Heidegger, Husserl, Sartre, Merleau-Ponty, Ricoeur, Derrida) or several texts representing a major movement in 20th century continental thought (such as Phenomenology, Existentialism, Hermeneutics, Post-structuralism).

PHL 490 - Research

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Directed individual research and study appropriate to the background and objectives of the student. Course Attributes: Research & Creative Schlrshp

PHL 491 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PHL 492 - Independent Study

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

PHL 494 - Seminar

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. A review and discussion of current research. Topics vary.

PHL 498 - Internship

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of faculty supervisor and the Internship Services office. Extended classroom experience which provides practical application of classroom learning during placements off campus. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

PHL 499 - Senior Seminar

Credits: 3. (R-9) Offered spring. Prereq., senior standing and philosophy major or philosophy minor, or consent of instr. Research in problems in philosophy. Course Attributes: Writing Course-Advanced

PHL 501 - Episto/Technol/Science

Credits: 3. (R-6) Offered yearly. Reading and interpretation of selected writings that address one of three topics: epistemology (theory of knowledge), philosophy of technology, or philosophy of science (focus will be foundations of ecology). Level: Graduate

PHL 502 - Topics in Value Theory

Credits: 3. (R-6) Offered yearly. Reading and interpretation of selected writings in value theory. Level: Graduate

PHL 504 - Topics in Environ Philosophy

Credits: 3. (R-9) Offered yearly. Same as ENST 504. Critical study/discussion of current (as well as benchmark) texts and issues in environmental ethics, environmental politics, and the philosophy of ecology. Interdisciplinary; open to interested students from all disciplines. Level: Graduate

PHL 505 - Topics in Contemp Phil

Credits: 3. (R-6) Offered intermittently. Reading and interpretation of selected writings in contemporary philosophy. Level: Graduate

PHL 510 - Phil Forum Colloquium

Credits: 1. (R-3) Offered autumn and spring. Prereq., graduate standing. Discussion and further exploration of issues presented at the weekly Philosophy Forum. Level: Graduate

PHL 521 - Theory & Skills for Ethics

Credits: 3. Offered intermittently. Exploration and critical reflection of concepts and significant issues in the teaching of practical ethics in classroom and corporate settings. Level: Graduate

PHL 581 - Thesis Proposal Prep

Credits: 1 TO 2. (R-2) Offered every semester. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

PHL 590 - Research

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Directed individual research and study appropriate to the background and objectives of the student. Level: Graduate Course Attributes: Research & Creative Schlrshp

PHL 591 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

PHL 592 - Independent Study

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate

PHL 593 - Professional Paper

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Faculty-Led Study Abroad

PHL 594 - Seminar

Credits: 1 TO 9. (R-9) Offered intermittently. A review and discussion of current research. Topics vary. Level: Graduate

PHL 598 - Internship

Credits: 1 TO 12. (R-12) Offered intermittently. Prereq., consent of faculty supervisor and the Internship Services office. Extended classroom experience which provides practical application of classroom learning during placements off campus. Level: Graduate Course Attributes: Internships/Practicums

PHL 599 - Thesis

Credits: 1 TO 6. (R-9) Offered every semester. Prereq., approval of a thesis proposal by the student's thesis committee. Level: Graduate

Physics and Astronomy Department

Andrew S. Ware, Chair

Physics is considered to be the most fundamental of all disciplines in the natural sciences. In physics we try to describe and understand a myriad of physical phenomena ranging from subatomic to cosmological scales by quantifying the relationships among different physical quantities. Not only does physics have its own merit as a challenging but exciting scientific endeavor, it provides the basis for understanding underlying processes in astronomy, biology, chemistry, geology, computer science, engineering, and even in behavioral sciences. Applications of physics are virtually unlimited: computers, communications, energy production, medical technology, and space flight, to name just a few. The Department of Physics and Astronomy offers a range of physics courses from introductory to advanced undergraduate level in both experimental and theoretical physics with computational methods in mind. In addition, we offer introductory to advanced astronomy and astrophysics courses in which astronomical applications of physics are emphasized. These courses deal with the Universe, from the solar system to clusters of galaxies, both theoretically and observationally. The Department of Physics and Astronomy offers the Bachelor of Arts degree with a major in physics. Graduates with this degree are prepared for further study in physics or related fields at the masters or Ph.D. level, as well as a wide variety of technical positions in industry.

In addition, the department offers three options that combine a solid background in the study of physics with in-depth study in other fields. These options allow for specialization in related fields and provide appropriate background for certain employment opportunities and for continued graduate or professional study. For more details, see the related sections of this catalog.

- Astronomy
- Computational Physics
- Teaching Broadfield Science

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: **Major** Subject: **Physics**

Total Credits: 61 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Lower Division Physics

Rule: Must complete all of the courses in one of the two options:

Criterion: C- Number of Credits 10

Course Listing

Commentary: The Physics with Calculus series (PHSX 215N - 218N) is strongly recommended.

Subcategory Name: College Physics

Rule: May complete all of the following courses

Criterion: C- Number of Credits 10

Course Listing

PHSX 205N	College Physics I	4
PHSX 206N	College Physics I Laboratory	1
PHSX 207N	College Physics II	4
PHSX 208N	College Physics II Laboratory	1

Subcategory Name: Physics with Calculus Rule: May complete all of the following courses

Criterion: C- Number of Credits 10

Course Listing

PHSX 215N	Fund of Physics w/Calc I	4
PHSX 216N	Physics Laboratory I w/Calc	1
PHSX 217N	Fund of Physics w/Calc II	4
PHSX 218N	Physics Laboratory II w/Calc	1

Commentary: Calculus-based Physics sequence is strongly recommended.

Upper Division Core

Category Name: Upper Division Physics Rule: Complete the following courses

Criterion: C- Number of Credits 27

Course Listing

PHSX 301	Intro Theoretical Physics	3
PHSX 311	Oscillations and Waves	2
PHSX 320	Classical Mechanics	3
PHSX 323	Intermediate Physics Lab	3
PHSX 327	Optics	3
PHSX 343	Modern Physics	3
PHSX 423	Electricity & Magnetism I	3
PHSX 444	Advanced Physics Lab	3
PHSX 461	Quantum Mechanics I	3
PHSX 499	Senior Capstone Seminar	1

Commentary: Major Electives

Category Name: Physics Electives

Rule: Choose any 2 courses designated with PHSX prefix, for 6 total credits

Criterion: C-

Course Listing Number of Credits 6

PHSX 141N	Einstein's Relativity	3
PHSX 330	Communicating Physics	3
PHSX 333	Computational Physics	3
PHSX 425	Electricity & Magnetism II	3
PHSX 446	Thermodyn & Stat Mech	3
PHSX 462	Quantum Mechanics II	3

Commentary: PHSX 425 and PHSX 462 are strongly recommended

Commentary: Cognates

Category Name: Math Requirements

Rule: Complete all of the following courses

Criterion: C- Number of Credits 15

Course Listing

M 171 Calculus I 4

M 172 Calculus II 4

M 273 Multivariable Calculus 4

M 311 Ordinary Diff Equations/System 3

Commentary: M 317, M 412, and M 418 are recommended as well

Cognates

Category Name: Computer Science Requirements Rule: Choose 1 of the following

Criterion: C- Number of Credits 3

Course Listing

CSCI 100 Intro to Programming 3

CSCI 135 Fund of Computer Science I 3

CSCI 250 Computer Mdlng/Science Majors 3

PHSX 333 Computational Physics 3

Commentary: PHSX 333 or CSCI 250 is strongly recommended

Commentary: Additional Requirements

Category Name: Foreign Language

Commentary: Students must also complete a 2 semester language sequence or have equivalent placement.

Degree Commentary

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Physics** Option: **Astronomy**

Total Credits: 65 Cumulative GPA Required: 2.0

The astronomy option provides a thorough study of astronomy and astrophysics as well as a solid background in physics and mathematics. Graduates from this program have gone on to graduate programs in astronomy and astrophysics while others have found career opportunities at national astronomical observatories.

Lower Division Core

Category Name: Lower Division Physics Core

Rule: Must complete all of the courses in one of the two options:

Criterion: Number of Credits 10

Course Listing

Commentary: The Physics with Calculus series (PHSX 215N - 218N) is strongly recommended.

Subcategory Name: College Physics

Rule: May complete all of the following courses

Criterion: C- Number of Credits 10

Course Listing

PHSX 205N College Physics I 4

PHSX 206N College Physics I Laboratory 1

PHSX 207N College Physics II 4

PHSX 208N College Physics II Laboratory 1

Subcategory Name: Physics with Calculus

Rule: May complete all of the following courses:

Criterion: C- Number of Credits 10

Course Listing

PHSX 215N	Fund of Physics w/Calc I	4
PHSX 216N	Physics Laboratory I w/Calc	1
PHSX 217N	Fund of Physics w/Calc II	4
PHSX 218N	Physics Laboratory II w/Calc	1

Commentary: Calculus-based physics sequence is strongly recommended.

Lower Division Core

Category Name: Lower Division Astronomy Core

Rule: Must complete all of the courses in one of the two options:

Criterion: Number of Credits 4

Course Listing Commentary:

Subcategory Name: Astronomy Core: Option 1 Rule: May complete all of the following courses

Criterion: C- Number of Credits 4

Course Listing

ASTR 132N	Elementary Astronomy II	3
ASTR 135N	Elementary Astronomy Lab II	1

Subcategory Name: Astronomy Core: Option 2 Rule: May complete the following course

Criterion: C- Number of Credits 4

Course Listing

ASTR 142N	The Evolving Universe	4
-----------	-----------------------	---

Commentary: Upper Division Core

Category Name: Upper Division Physics Core Rule: Must complete the following courses

Criterion: C- Number of Credits 12

Course Listing

PHSX 301	Intro Theoretical Physics	3
PHSX 311	Oscillations and Waves	2
PHSX 343	Modern Physics	3
PHSX 461	Quantum Mechanics I	3
PHSX 499	Senior Capstone Seminar	1

Commentary: Upper Division Core

Commentary: Students must also complete a 2 semester language sequence or have equivalent placement Degree

College Humanities & Sciences Catalog Year: 20152016

Degree Type: Bachelor of Arts Level: Major Subject: **Physics** Option: **Teaching Broadfield Science**

Total Credits: 79 Cumulative GPA Required: 2.0

Individuals interested in teaching in K-12 schools must complete a degree in the content area they want to teach plus the teacher preparation program through the Department of Curriculum and Instruction. Individuals must complete the teaching major/teaching track within that degree program, which may contain different course requirements than the academic major since the sequence of courses is designed to meet state standards. Upon completion of the degree program with the teaching track and the secondary licensure program, one will be eligible for a standard Montana teaching license in this content area.

Lower Division Core

Category Name: Physics Requirements

Rule: Must complete all of the following subcategories

Criterion: C

Number of Credits 24

Course Listing

Research Faculty

- Vladimir Kovalev, Assistant Research Professor
- Phong Tran, Assistant Research Professor

Course Descriptions

Astronomy

ASTR 131N - Planetary Astronomy

Credits: 3. Offered autumn. Prereq., high school algebra and geometry. An introduction to observational, historical, and planetary astronomy. Students will have a chance to visit UM's state-of-the-art planetarium and observe with our 0.4 meter telescope. Course Attributes: Natural Science Course

ASTR 132N - Stars, Galaxies, and the Universe

Credits: 3. Offered spring. Prereq., high school algebra and geometry. An introduction to stars, stellar evolution, galaxies, and cosmology. Students will have a chance to visit UM's state-of-the-art planetarium and observe with our 0.4 meter telescope. Course Attributes: Natural Science Course

ASTR 134N - Planetary Astronomy Lab

Credits: 1. Offered autumn. Prereq. or coreq., ASTR 131N Laboratory exercises in observational and planetary astronomy. Students will have a chance to visit UM's state-of-the-art planetarium and observe with our 0.4 meter telescope. Course Attributes: Natural Science Lab Course Natural Science Course

ASTR 135N - Stars, Galaxies, and the Universe Lab

Credits: 1. Offered spring. Prereq. or coreq., ASTR 132N. Laboratory exercises in observational, stellar, and galactic astronomy. Students will have a chance to visit UM's state-of-the-art planetarium and observe with our 0.4 meter telescope. Course Attributes: Natural Science Lab Course

ASTR 142N - The Evolving Universe

Credits: 4. Offered spring. Prereq., M 151 or equiv. Overview of recent developments in planetary system formation, stars, galaxies, and cosmology. Some astronomical observing required outside of normal class hours. Course Attributes: Natural Science Lab Course

ASTR 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses or one-time offerings of current topics.

ASTR 198 - Internship

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internship graduation limit 6

ASTR 292 - Independent Study

Credits: 1 TO 6. Course material appropriate to the needs and objectives of the individual student.

ASTR 351 - Planetary Science

Credits: 3. Offered autumn even-numbered years. Prereq., PHSX 215N-216N or 205N-206N and M 162 or 171.

Same as GEO 317. Physical and geological characteristics of planets, satellites, asteroids, comets, and meteoroids, with an emphasis on comparative planetology.

ASTR 353 - Galactic Astrophysics

Credits: 3. Offered spring odd-numbered years. Prereq., ASTR 132N, PHSX 217N-218N, M 273. The nature of the Milky Way galaxy and other galaxies, galactic evolution, the large scale structure of the universe, active galaxies and quasars, and cosmology, including the early universe.

ASTR 362 - Observational Astronomy

Credits: 3. Offered autumn even-numbered years. Prereq., ASTR 132N or 142N, PHXS 217N-218N. Laboratory study of the probabilistic behavior of light, data acquisition with telescopes, digital imaging and spectroscopy. Emphasis on fundamental statistical tools, scientific computer programming, and written and oral presentation of scientific results.

ASTR 363 - Stellar Astr & Astrophys I

Credits: 3. Offered autumn odd-numbered years. Prereq., ASTR 132N, M 273, and PHSX 217N-218N; PHSX 343 recommended. Detailed application of physical laws to determine the nature of the stars; analysis of stellar spectra and atmospheres; solar astrophysics; structure of stars and their evolution.

ASTR 365 - Stellar Ast & Astrophys II

Credits: 3. Offered spring even-numbered years. Prereq., ASTR 363. Continuation of ASTR 363.

ASTR 391 - Special Topics

Credits: 1 TO 9. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ASTR 392 - Independent Study

Credits: 1 TO 6. Course material appropriate to the needs and objectives of the individual student.

ASTR 398 - Internship

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

ASTR 494 - Senior Capstone Seminar

Credits: 1. Offered autumn. Prereq., junior or senior standing in physics. Each student will present a seminar on research performed prior to or during their senior year.

ASTR 499 - Seminar/Workshop

Credits: 1. Offered autumn. Prereq., junior or senior standing in physics. Each student will present a seminar on research performed prior to or during their senior year.

General engineering Core

EGEN 101 - Intro to Eng Cal & Prob Solv

Credits: 3. Offered autumn. Prereq. or coreq., M 151 or equivalent. An introduction to engineering calculations, problem solving, and design. Students are taught to solve and present engineering problems on computers using

spreadsheet and graphic software (AutoCAD). In addition, there will be discussions on engineering failures and engineering ethics.

Physics

PHSX 101 - Freshman Physics Experience

Credits: 1. Offered autumn. Prereq., freshman standing (fewer than 30-credits towards degree) or consent of instructor. This course is intended for all incoming students either majoring in physics or considering majoring in physics. This seminar course presents an overview of the undergraduate experience as a physics major. Seminars on recent developments in physics and astronomy and opportunities for undergraduate involvement in research and instruction are included.

PHSX 141N - Einstein's Relativity

Credits: 3. Offered spring. Prereq., working knowledge of high school physics and high school calculus, or consent of instr. Modern theoretical study of space, time, the principle of relativity, and its implications. Analysis of apparent paradoxes, and applications to particle physics. Course Attributes: Natural Science Course

PHSX 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PHSX 198 - Internship

Credits: 1 TO 9. (R-6) Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

PHSX 205N - College Physics I

Credits: 4. Offered autumn and spring. Prereq., M 122 or 151 or equivalent, and prereq. or coreq. PHSX 206N. Mechanics, sound, and heat. For non-physical science majors. This course satisfies the lecture portion of medical school requirements in general physics. Credit not allowed for both PHSX 205N-207N and 215N-217N. Course Attributes: Natural Science Course

PHSX 206N - College Physics I Laboratory

Credits: 1. Offered autumn and spring. Prereq. or coreq., PHSX 205N. Mechanics, sound, and heat. For non-physical science majors. This course satisfies the laboratory portion of medical school requirements in general physics. Credit not allowed for both PHSX 206N-208N and 216N-218N. Course Attributes: Natural Science Lab Course

PHSX 207N - College Physics II

Credits: 4. Offered autumn and spring. Prereq. PHSX 205N and prereq. or coreq., PHSX 208N. Electricity, magnetism, light, and modern physics. For non-physical science majors. This course satisfies the lecture portion of medical school requirements in general physics. Credit not allowed for both PHSX 205N-207N and 215N-217N. Course Attributes: Natural Science Course

PHSX 208N - College Physics II Laboratory

Credits: 1. Offered autumn and spring. Prereq., PHSX 206N, prereq. or coreq., PHSX 207N. Electricity, magnetism, light and modern physics. For non-physical science majors. This course satisfies the laboratory portion of medical school requirements in general physics. Credit not allowed for both PHSX 206N-208N and 216N-218N. Course Attributes: Natural Science Lab Course

PHSX 215N - Fund of Physics w/Calc I

Credits: 4. Offered autumn. Prereq. or coreq., PHSX 216N and M 171 or equiv. This course satisfies the lecture portion of medical and technical school requirements in general physics. Mechanics, fluids, waves and sound. Credit not allowed for both PHSX 215N-216N-217N-218N and 205N-206N-207N-208N. Course Attributes: Natural Science Course

PHSX 216N - Physics Laboratory I w/Calc

Credits: 1. Offered autumn. Coreq., PHSX 215N. This course satisfies the laboratory portion of medical and technical school requirements in general physics. Mechanics, fluids, waves, and sound. Credit not allowed for both

PHSX 215N-216N-217N-218N and 205N-206N-207N-208N. Course Attributes: Natural Science Lab Course Natural Science Course

PHSX 217N - Fund of Physics w/Calc II

Credits: 4. Offered spring. Prereq., PHSX 215N, and prereq. or coreq. PHSX 218, and prereq. or coreq., M 172 or equivalent. This course satisfies the lecture portion of medical and technical school requirements in general physics. Heat, electricity, magnetism, and light. Credit not allowed for both PHSX 215N-216N-217N-218N and 205N-206N-207N-208N. Course Attributes: Natural Science Course

PHSX 218N - Physics Laboratory II w/Calc

Credits: 1. Offered spring. Prereq., PHSX 215N, coreq., PHSX 217N. This course satisfies the laboratory portion of medical and technical school requirements in general physics. Heat, electricity, magnetism, and light. Credit not allowed for both PHSX 215N-216N-217N-218N and 205N-206N-207N-208N. Course Attributes: Natural Science Lab Course

PHSX 225N - Gen Science: Phys & Chem Sci

Credits: 5. Offered autumn. Prereq., M 095 or equiv. Integrated lectures, discussions, laboratory exercises, and demonstrations on topics in chemical and physical science for prospective elementary school teachers and the non-scientist. A two-hour laboratory session is required each week. Course Attributes: Natural Science Lab Course

PHSX 291 - Special Topics

Credits: 1 TO 9. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PHSX 292 - Independent Study

Credits: 1 TO 9. (R-9) Course material appropriate to the needs and objectives of the individual student. Course Attributes: Omnibus Course

PHSX 301 - Intro Theoretical Physics

Credits: 3. Offered spring. Prereq., M 273; coreq., PHSX 217N-218N. Selected topics from applied linear algebra, ordinary and partial differential equations, vector analysis, complex variables, and Fourier series. Applications to classical mechanics, electromagnetism, and quantum mechanics.

PHSX 311 - Oscillations and Waves

Credits: 2. Offered autumn. Prereq., PHSX 217N-218N or 207N-208N; Prereq. or coreq. M 273. Detailed study of oscillations and waves at the intermediate level, to develop physical intuition and mathematical skills needed for analyzing a wide range of periodic phenomena encountered in physics.

PHSX 320 - Classical Mechanics

Credits: 3. Offered autumn. Prereq., PHSX 301, M 311. Topics in classical mechanics at the intermediate level, emphasizing Lagrangian and Hamiltonian dynamics.

PHSX 323 - Intermediate Physics Lab

Credits: 3. Offered spring. Prereq., PHSX 217N-218N or PHSX 207N-208N and PHSX 311. Laboratory course in the application of analog and digital electronics to experimental physics, with additional emphasis on data analysis techniques.

PHSX 327 - Optics

Credits: 3. Offered spring. Prereq., PHSX 311. Intermediate level study of light and optics, including geometrical optics, wave optics, optical instruments, coherence, polarization, and special topics.

PHSX 330 - Communicating Physics

Credits: 3. Offered spring even-numbered years. Prereq., PHSX 217N-218N or PHSX 207N-208N. Oral and written communication skills in physics, to include teaching high school and college physics, presenting seminars, and writing technical and non-technical physics articles. Course Attributes: Writing Course-Advanced

PHSX 333 - Computational Physics

Credits: 3. Offered spring odd-numbered years. Prereq., PHSX 217N-218N; coreq., any upper-division PHXS course. Solution of advanced problems in physics using computational methods. Students will learn a variety of numerical methods, including FORTRAN programming techniques.

PHSX 343 - Modern Physics

Credits: 3. Offered autumn. Prereq., one year of college physics; coreq., M 273. Includes historical background for development of modern physics and an introduction to quantum mechanics, atomic and nuclear physics. Credit not allowed for graduate degree in physics.

PHSX 391 - Special Topics

Credits: 1 TO 12. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PHSX 392 - Honors Physics

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Independent research in topics of current interest in physics.

PHSX 423 - Electricity & Magnetism I

Credits: 3. Offered autumn. Prereq, PHSx 301. Electricity and magnetism at the intermediate level.

PHSX 425 - Electricity & Magnetism II

Credits: 3. Offered spring. Prereq., PHSX 423. Continuation of PHSX 423. Electricity and magnetism at the intermediate level.

PHSX 444 - Advanced Physics Lab

Credits: 3. Offered autumn. Prereq., PHSX 343 or equiv., PHSX 327 or equiv.; PHSX 322 suggested but not required. Advanced experiments in classical and modern physics, including optics, spectroscopy, laser science, atomic, nuclear, and particle physics, Data analysis techniques for experimental scientists. Recommended for students entering graduate school in any experimental science.

PHSX 446 - Thermodyn & Stat Mech

Credits: 3. Offered spring even-numbered years. Prereq., PHSX 343; coreq., M 311. Topics in thermodynamics and statistical mechanics.

PHSX 461 - Quantum Mechanics I

Credits: 3. Offered autumn. Prereq., PHSX 311, PHSX 343; prereq. or coreq., M 311. Introduction to quantum mechanics. Topics include Schrodinger equation, piecewise constant potential, harmonic oscillator, hydrogen atom, angular momentum theory, electron spin.

PHSX 462 - Quantum Mechanics II

Credits: 3. Offered spring. Prereq., PHSX 461 or consent of instr. Advanced topics in quantum mechanics including linear vector spaces and Dirac notation, quantum dynamics, time-dependent perturbation theory, and scattering theory.

PHSX 491 - Special Topics

Credits: 3. (R-6) Offered intermittently. Prereq., PHSX 461 or consent of instr. Studies of a topic in advanced modern physics including nuclear physics, solid state physics, and quantum optics. The topic chosen will vary according to instructor.

PHSX 492 - Independent Study

Credits: 1 TO 9. (R-9) Offered intermittently. University omnibus option for independent work. Course Attributes: Omnibus Course

PHSX 499 - Senior Capstone Seminar

Credits: 1. Offered autumn. Prereq., junior or senior standing in physics. Each student will present a seminar on research performed prior to or during their senior year.

PHSX 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

PHSX 597 - Research

Credits: 1 TO 6. (R-9) Offered intermittently. Prereq., consent of instr. Research in selected physics topics. Level: Graduate

PHSX 598 - Internship

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. Level: Graduate Course Attributes:

Internships/Practicums

Political Science Department

Ramona Grey, Chair

Political Science is the systematic study of politics. Politics influence how people and institutions exercise and resist power. Political Science, therefore, is concerned with how nations and communities are governed and who governs them. The departmental faculty members have as their mission the engagement and enlightenment of their students, professional colleagues, and fellow citizens about the nature of politics.

The department offers a varied undergraduate curriculum covering domestic, foreign, and international politics. By meeting the requirements outlined below, a student may earn a bachelor's degree in political science or in political science-history; a minor in political science or global public health; or a bachelor's degree in political science with an option in one of the following: American politics, international relations and comparative politics, public administration, non-profit administration, international development studies, or public law. A Master of Arts degree in political science and a Master of Public Administration degree are also offered.

The scope of the faculty's interest and research is wide. They bring special insights gained through study and residence in Europe, Russia, Africa, Central Asia, India, the Far East and Latin America, as well as in Montana and Washington, D.C.

Courses offered in the department are designed to: (1) assist students to secure a broad liberal education and to equip them with the foundations for American citizenship; (2) provide undergraduate preparation for those students who propose to continue study at the graduate level with the ultimate goal of college teaching and research; (3) offer a broad program of training for those students who plan careers in government or politics; (4) assist in preparing students for careers in teaching at both the elementary and secondary levels; (5) provide a sound background for those students who intend to enroll in law and other professional schools.

The major fields of political science are (1) American government and politics with national, state and local government, and public law as sub-fields; (2) public administration; (3) political theory; (4) comparative government; (5) international relations, organization and law. Majors are eligible for membership in Pi Sigma Alpha, the national political science honorary and are active in student political activities. The Department of Political Science secures a number of legislative and administrative internships in state and local government each year. Internships and other learning opportunities in Washington, D.C., are also available.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Political Science**

Option: American Politics

Total Credits: 40 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Required Lower Division Courses Rule: Must complete all of the following courses:

Criterion: C- Number of Credits 12

Course Listing

PSCI 230X Intro to International Rel 3

PSCI 250E Intro to Political Theory3

Commentary: Upper Division Core

Category Name: Required Upper Division Courses Rule: Must complete the following course:

Criterion: C- Number of Credits 1

Course Listing

PSCI 400 Adv Writing in Pol Science 1

Commentary: Major Electives

Category Name: Degree Electives

Rule: Must complete 5 of the following courses

Criterion: C- Number of Credits 15

Course Listing

PSCI 340 Exp Offering: American Govt 1 To 6

PSCI 341 Political Parties and Election 3

PSCI 342 Media, Public Opinion, Polling 3

PSCI 344 State and Local Government 3

PSCI 346 American Presidency 3

PSCI 347 U.S. Congress 3

PSCI 348 US Multicultural Politics 3

PSCI 352 American Political Thought 3

PSCI 365 Pub Policy Issues and Analysis 3

PSCI 370 Courts and Judicial Politics 3

PSCI 440 Exp Offering: American Govt 1 To 9

PSCI 443 Politics of Social Movements 3

PSCI 444 Am Political Participation 3

PSCI 445 Political Psychology 3

PSCI 468 Public Policy Cycle 3

Other Courses

Category Name: Required Upper Division Field Courses

Rule: Must complete 1 upper division course in 4 of the 5 fields:

Criterion: C- Number of Credits 12

Course Listing

Commentary: Any field course can also be counted toward a Political science option. Student must take an additional four courses from the following options.

Subcategory Name: Public Administration Rule: May select one of the following courses:

Criterion: C- Number of Credits 0-3

Course Listing

PSCI 344 State and Local Government 3

PSCI 360 Exp Offering: Public Admin 1 To 6

PSCI 361 Public Administration 3

PSCI 365 Pub Policy Issues and Analysis 3

PSCI 391 Special Topics 1 To 9

PSCI 448 Health Care Policy 3

PSCI 449 Environmental Health Policy 3

PSCI 461 Administrative Law 3

Commentary: Degree Commentary

Students majoring in Political Science with an option in International Relations and Comparative Politics must take a minimum of 40 credits of political science. 21 of the 40 credits must be in upper-division courses. No more than 7 credits of independent study (PSCI 492) and internship (PSCI 498) combined may count toward the 40 required credits. In addition, no more than 15 total credits in special topics courses (e.g., PSCI 320, 391) may count toward the 40 required credits. A maximum of 60 PSCI credits can count towards the Political Science Major.

Students can use the same 300/400 course to fulfill both the upper-division core and the option requirements, but may not double-count the course credits. It is strongly recommended that a student complete either a) a minimum of two years of foreign language study or b) an internship or study-abroad program.

- Louis Hayes, Comparative Government & Politics & International Relations
- James Lopach, American Government & Public Law
- Jon Tompkins, American Government & Public Administration
- Terry Weidner, International Relations & Comparative Politics

Course Descriptions

Political Science

PSCI 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PSCI 191S - Special Topics

Credits: 1 TO 6. (R 6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics. Course Attributes: Internships/Practicums Social Sciences Course

PSCI 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

PSCI 210S - Intro to American Government

Credits: 3. Offered every term. Not open to senior level political science majors except with consent of instructor. Constitutional principles, structures, and the political processes of the national government. Course Attributes: Social Sciences Course American and European

PSCI 220S - Intro to Comparative Govt

Credits: 3. Offered every term. Not open to senior level political science majors except with consent of instr. Introduction to the basic political concepts, themes, values and dilemmas as they apply to the world's diverse societies and cultures. Course Attributes: Social Sciences Course

PSCI 227 - Global Health Issues

Credits: 3. Offered spring. Treats current public-health challenges in industrialized and low-income countries, including chronic and infectious illnesses. In comparative perspective, the course explores the individual, environmental, resource, and governance context of public-health policy, interventions, and outcomes and address questions of human rights and ethics, health equity and justice, regional problems and contributors, and the concerns of vulnerable populations along with possibilities for health advocacy.

PSCI 230X - Intro to International Rel

Credits: 3. Offered every term. Not open to senior level political science majors except with consent of instr. Review of the evolution of the nation-state system and survey of contemporary international actors, issues and forces for stability and change. Course Attributes: Indigenous and Global

PSCI 250E - Intro to Political Theory

Credits: 3. Offered spring. Analysis of the various attempts (from Plato to Marx) to explain, instruct, and justify the distribution of political power in society. Emphasis is placed upon those theories whose primary concern is to define the nature of the "good" society. Course Attributes: Ethical & Human Values Course

PSCI 320 - Exp Offering: Comp Politics

Credits: 1 TO 6. (R- 6) Offered intermittently. Experimental or one-time offerings in the subfield of comparative politics. Course Attributes: 15 cr grad limit/Spec Topics

PSCI 321 - Post-Communist Politics

Credits: 3. Offered spring. Prereq junior standing or consent of instructor. Historical and contemporary analysis of politics in post-communist states with an emphasis on Eastern Europe and Russia.

PSCI 322 - Politics of Europe

Credits: 3. Offered autumn. Prereq., junior standing or consent of instr. Comparative analysis of parliamentary forms of government and politics with emphasis on Great Britain, France and Germany.

PSCI 324 - Climate Policies: China & U.S.

Credits: 3. Offered every other year. Prereq., CCS 203 or consent of instructor. Explores historic, current, and future greenhouse-gas emissions of the United States and China, reasons why both are the two largest CO2 emitters, and prevailing national and subnational government policies and nongovernmental actions that affect emissions mitigation and adaptation.

PSCI 325 - Politics of Latin America

Credits: 3. Offered autumn. Prereq., junior standing. Latin American politics from both historical and contemporary perspectives.

PSCI 326 - Politics of Africa

Credits: 3. Offered autumn. Prereq., junior standing or consent of instr. Development of the political systems of sub-Saharan Africa. Analysis of the interaction between African and Western social, political, and economic forces. Consideration of African political thought.

PSCI 327 - Politics of Mexico

Credits: 3. Offered spring. Prereq., junior standing or consent of instr. A review of contemporary politics of Mexico from the Revolution to the present.

PSCI 328 - Politics of China

Credits: 3. Prereq., junior standing or consent of instr. Institutions and political development in China. Course Attributes: Historical & Cultural Course Non-Western Course

PSCI 330 - Exp Offering: Intrnt Relations

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., junior standing. Experimental or one-time offerings in the subfield of international relations. Course Attributes: 15 cr grad limit/Spec Topics

PSCI 332 - Global Environmental Pol.

Credits: 3. Offered fall. Prereq. PSCI 230X and junior standing or consent of instructor. This course focuses on the unique set of collective action problems faced by global actors in the governance of the environment and the institutions they use to overcome those problems. Themes include the tragedy of the commons, climate change, and environmental security.

PSCI 334 - International Security

Credits: 3. Offered Spring. Prereq. PSCI 230 and junior standing or consent of instr. Explores the meaning, sources, and future of human, national, and international security. Considers a range of historical and contemporary threats

(interstate war, civil war, terrorism, crime, natural disaster, human accident, disease, and deprivation), assesses the vulnerability of individuals and states to each threat, and evaluates national and international strategies to reduce them.

PSCI 335 - American Foreign Policy

Credits: 3. Prereq., PSCI 230X and junior standing or consent of instr. American diplomatic, economic and defense policies since World War II and their significance in international politics.

PSCI 336 - European Union

Credits: 3. Offered spring. Prereq junior standing or consent of instructor. Historical and contemporary analysis of political and economic integration in Europe with a focus on the political system of the European Union.

PSCI 337 - Model United Nations

Credits: 3. Offered autumn. Prereq., sophomore standing or consent of instr. History and structure of the UN. Contemporary global problems, and the UN's role in addressing them. Class has both active learning and service learning dimensions. Students plan, organize and run the annual Montana Model UN high school conference.

PSCI 340 - Exp Offering: American Govt

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental or one-time offerings in the subfield of American government. Course Attributes: 15 cr grad limit/Spec Topics

PSCI 341 - Political Parties and Election

Credits: 3. Offered spring even-numbered years. Prereq., PSCI 210S and junior standing. Political party organization, nominations, campaigns and elections in the United States.

PSCI 342 - Media, Public Opinion, Polling

Credits: 3. Offered intermittently. Prereq., PSCI 210S. Study of the role played by mass media in shaping public opinion, policy agendas, and governmental institutions.

PSCI 344 - State and Local Government

Credits: 3. Offered intermittently. Prereq., PSCI 210S and junior standing. Analysis of American state and local government with emphasis on governmental organization, intergovernmental relations, local government powers, and self-government charters. Special attention to Montana.

PSCI 346 - American Presidency

Credits: 3. Offered autumn. Prereq., PSCI 210S. The constitutional foundation and evolution of the executive branch, the structure of the office and executive functions and powers.

PSCI 347 - U.S. Congress

Credits: 3. Offered spring. Prereq., PSCI 210S. Structure, processes, and politics of U.S. Congress and state legislatures. During legislative years, special emphasis will be devoted to the Montana Legislature.

PSCI 348 - US Multicultural Politics

Credits: 3. Offered intermittently. Examines the politics of diversity in the U.S., including national community, identity, citizenship, immigration, assimilation, and racial issues such as voting rights, affirmative action, segregation and integration, and public opinion.

PSCI 350 - Exp Offering: Political Theory

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental or one-time offerings in the subfield of political theory. Course Attributes: 15 cr grad limit/Spec Topics

PSCI 352 - American Political Thought

Credits: 3. Offered spring. Prereq., PSCI 250E or consent of instr. The study of representative political thinkers is used to illustrate the theme of American democracy as a multifaceted experiment with self-government.

PSCI 354 - Contemp Issues in Pol Theory

Credits: 3. (R-6) Offered intermittently in autumn. Prereq., PSCI 250E or consent of instr. and junior standing. Topics variable. Research and assessment of current political and social issues through the study of a representative text and related literature.

PSCI 357 - Ancient & Medieval Pol Phil

Credits: 3. Offered autumn. Prereq., Junior standing. The classical western tradition, beginning with the ancient Greeks, spanning the Christian era, and ending with the high Renaissance period. Examination of the political ideas/values of these different times, exploring broad questions concerning human nature, the origins of the state, and the meaning of legitimate authority. Course Attributes: Ethical & Human Values Course

PSCI 360 - Exp Offering: Public Admin

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental or onetime offerings in the subfield of public administration or policy. Course Attributes: 15 cr grad limit/Spec Topics

PSCI 361 - Public Administration

Credits: 3. Offered autumn. Prereq., PSCI 210S and junior standing. Legal and institutional setting of the administrative system; dynamics of organization and processes of public management.

PSCI 365 - Pub Policy Issues and Analysis

Credits: 3. Examines a variety of public policy issues including economic, social welfare, health care, environmental and criminal justice policy. Emphasis is placed on substantive policies and policy analysis.

PSCI 370 - Courts and Judicial Politics

Credits: 3. Offered spring. Prereq., PSCI 210S and junior standing. Introduction to American courts with emphasis on judicial policy making.

PSCI 391 - Special Topics

Credits: 1 TO 9. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: 15 cr grad limit/Spec Topics

PSCI 400 - Adv Writing in Pol Science

Credits: 1. (R-3) Offered every term. Coreq., any upper-division political science course. Designed for political science students to satisfy their upper-division writing expectation for the major or for students desiring additional experience in writing. Course Attributes: Writing Course-Advanced

PSCI 401 - Nonprofit Hum Resource Mgt

Credits: 2. On-line course offered every year. Addresses human resource needs specific to nonprofits, including payroll, employment law, and other legal issues.

PSCI 402 - Nonprofit Volunteer Mgt

Credits: 2. On-line course offered every year. Addresses the process of recruiting and retaining volunteers at a nonprofit organization, including case studies and hands-on projects.

PSCI 403 - Nonprofit Prog Plan & Eval

Credits: 2. On-line course offered every year. Explores program planning for nonprofits from top-to-bottom, including needs assessment and evaluation.

PSCI 405 - Nonprofit Advocacy

Credits: 2. On-line course offered every year. Explores and reviews the role of nonprofit organizations in advocacy.

PSCI 406 - Nonprofit Board Management

Credits: 2. Online course offered every year. Explores policymaking and fundraising roles and responsibilities of the board; strategies for board recruitment, orientation, and evaluation; and executive director/board relationships.

PSCI 410 - Nonprofit Strategic Plan

Credits: 2. Online course offered every year. This course explores the importance of visionary leadership and strategic planning to the success of nonprofit agencies.

PSCI 411 - Nonprofit Grant Writing

Credits: 2. Online course offered every year. Students learn how to write the essential parts of a grant proposal and how to search for appropriate funding sources.

PSCI 412 - Nonprofit Fundraising

Credits: 2. Online course offered every year. The course will cover all major aspects of a fundraising plan including: annual fund, major gifts, capital campaigns, planned giving, grants and special events. The course will also give students the foundation and tools needed to implement these plans into action.

PSCI 413 - Nonprofit Financial Mgt

Credits: 2. Online course offered every year. This course explores special issues related to nonprofit financials including accounting basics, budgeting, financial statement ratios, management controls and nonprofit income tax reporting processes.

PSCI 420 - Exp Offering: Comp Politics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental or one-time offerings in the subfield of comparative politics. Course Attributes: 15 cr grad limit/Spec Topics

PSCI 422 - Revolution & Reform in China

Credits: 3. Offered autumn. A history of the rise and fall of the Maoist regime and the complicated impact of the epochal post Mao reform movement.

PSCI 430 - Exp Offering: Intrnt Relations

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., junior standing. Experimental or one-time offerings in the subfield of international relations. Course Attributes: 15 cr grad limit/Spec Topics

PSCI 431 - Politics of Global Migration

Credits: 3. Prereq., junior standing or consent of instr. Exploration of the elective and forced migration of peoples within countries and across national boundaries. Geographical coverage includes Asia, North and Central America, Africa, and Europe. Attention to policy and gender issues surrounding economic and political migration.

PSCI 432 - Inter-American Relations

Credits: 3. Offered intermittently. Prereq., PSCI 325 or consent of instr. Examination of problems, issues and concepts in the international relations of nations of the western hemisphere.

PSCI 433 - International Law & Org

Credits: 3. Offered fall. Prereq. PSCI 230 and junior standing or consent of instr. Introduction to classical principles and contemporary issues of the law of nations and the organizations created to facilitate international cooperation.

PSCI 440 - Exp Offering: American Govt

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental or one-time offerings in the subfield of American government. Course Attributes: 15 cr grad limit/Spec Topics

PSCI 443 - Politics of Social Movements

Credits: 3. Offered spring. Prereq., junior standing or consent of instr. The role of social movements in shaping the politics of power, reflected in public policy, electoral politics, relations of class, race, and gender, and people's understanding of the world and their place in it.

PSCI 444 - Am Political Participation

Credits: 3. Offered intermittently. Prereq., PSCI 210S. Examination of the individual and institutional factors affecting voter turnout, the influences on voter decision making, and non-electoral forms of participation in the United States.

PSCI 445 - Political Psychology

Credits: 3. Offered intermittently. Applies psychological theories such as personality, emotion, cognition, and social influence to political attitudes and actions, including political opinion formation, conformity, prejudice, genocide, and political leadership.

PSCI 448 - Health Care Policy

Credits: 3. offered autumn. Focuses on sociopolitical environment influencing health policy in the United States including health politics and policy development, political structure and process, health care financing, public opinion and special interest groups, political leadership, policy reform and global health.

PSCI 449 - Environmental Health Policy

Credits: 3. Offered spring. Focuses on environmental health policy in the U.S., its evolution, current status, and areas of change.

PSCI 450 - Exp Offering: Political Theory

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental or one-time offerings in the subfield of political theory. Course Attributes: 15 cr grad limit/Spec Topics

PSCI 452 - Utopianism and its Critics

Credits: 3. Offered intermittently. Prereq., junior standing. Examination of classic and contemporary utopias, from Plato's Republic to Barbara Goodwin's Justice by Lottery as well as their critics.

PSCI 453 - Modern Political Theory

Credits: 3. Offered autumn. Prereq., PSCI 250E or consent of instr. Analysis of Hobbes, Locke, Rousseau, Burke, James and John Stuart Mill, Marx and Lenin with regard to their "modern" views of the purpose(s) of political inquiry, the nature of citizenship and popular sovereignty. Particular attention to contemporary implications of ideas.

PSCI 460 - Exp Offering: Public Admin

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., junior standing. Experimental or onetime offerings in the subfield of public administration or policy. Course Attributes: 15 cr grad limit/Spec Topics

PSCI 461 - Administrative Law

Credits: 3. Offered autumn. Prereq., PSCI 210S and junior standing. The legal foundations of public administration with emphasis on legislative delegation, administrative rulemaking and adjudication, judicial review, and public participation.

PSCI 462 - Human Resource Management
Credits: 3. Offered spring. Study of the essential elements of human resource management, including analysis and evaluation of work, and the selection, management, and evaluation of public employees.

PSCI 463 - Development Administration
Credits: 3. Offered autumn. Prereq., junior standing or consent of instr. Study of the functions and processes of public administration in the Third World. Focus on alleviating poverty and underdevelopment. Includes project design and development planning activities.

PSCI 466 - Nonprofit Adm & Pub Svc
Credits: 3. Offered autumn. Prereq., junior standing. Investigation of the aspects involved in nonprofit management and public service and the complexity of the role of nonprofit organizations in society.

PSCI 467 - Adv Nonprofit Adm
Credits: 3. Offered spring. Prereq., PSCI 466. In-depth exploration of the special issues related to nonprofit management including fund raising, budgeting, and program planning.

PSCI 468 - Public Policy Cycle
Credits: 3. Offered intermittently. Follows specific policy problem through each stage of the public policy cycle, including how policy is formulated in the legislative branch, implemented by the executive branch and reviewed by the judicial branch.

PSCI 469 - Ethics and Public Policy
Credits: 3. Offered spring. Focuses on the ethical challenges faced by public servants in government agencies.

PSCI 471 - American Constitutional Law
Credits: 3. Offered autumn. Prereq., junior standing or consent of instr. Survey of U.S. Supreme Court's interpretation of the U.S. Constitution's provisions on separation of powers, federalism, civil rights, and civil liberties.

PSCI 474 - Civil Rights Seminar
Credits: 3. Offered spring. Prereq., PSCI 471 or consent of instr. Intensive analysis, discussion, and writing about key U.S. Supreme Court constitutional cases on expression, religion, privacy, criminal justice, and discrimination.

PSCI 480 - Research Goals and Strategies
Credits: 3. We explore the main methods used in political science research, focusing on research design, best research practices, and pitfalls in research. Students develop their own research design as the final course project.

PSCI 491 - Special Topics
Credits: 1 TO 3. (R-9) Offered intermittently. Prereq., consent of instr. and junior standing. Experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: 15 cr grad limit/Spec Topics

PSCI 492 - Independent Study
Credits: 1 TO 3. (R-6) Offered every term. Prereq., nine credits in political science courses numbered at the 300- or 400-level and consent of instr. Research in fields appropriate to the needs and objectives of the individual student. Course Attributes: 7 cr grad limit/In Stdy/Intern

PSCI 498 - Intern/coop education/omnibus
Credits: 1 TO 6. Offered every term. Prereq., sophomore standing and consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. Offered credit/no credit only. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

PSCI 501 - Public Administration
Credits: 3. Offered autumn. Advanced analysis of processes of public management; examination of public administrators' involvement in policy making. Level: Graduate

PSCI 503 - Policy Analysis
Credits: 3. Offered spring. The role of public administrators in the policymaking process with emphasis on methods of policy analysis and program evaluation. Level: Graduate

PSCI 504 - Organization Theory

Credits: 3. Offered spring. Concepts and theories relevant to the administration of complex organizations, including administrative structure, behavior, process and functions. Level: Graduate

PSCI 505 - Budgeting & Finance

Credits: 3. Offered spring. Seminar focusing on principles of public finance and analysis of budgeting as a primary tool of public sector management. Level: Graduate

PSCI 520 - Comparative Government

Credits: 3. Offered autumn. Prereq., consent of instr. Concentrated reading and examination of selected subject areas in the field of comparative government. Level: Graduate

PSCI 521 - Globalization

Credits: 3. Offered spring. Prereq., senior or graduate standing or consent of instr. Critical examination of contemporary globalization topics from a number of theoretical and political perspectives. Topics include but are not limited to international political economy, security, social movements, democratization, international development, climate change, immigration, and global governance. Level: Graduate

PSCI 522 - Human Resource Management

Credits: 3. Offered autumn. Study of the essential elements of human resource management, including analysis and evaluation of work, and the selection, management, and evaluation of public employees. Level: Graduate

PSCI 523 - Administrative Law

Credits: 3. Offered autumn. The legal foundations of public administration with emphasis on legislative delegation, administrative rulemaking and adjudication, judicial review, and public participation. Level: Graduate

PSCI 524 - Management Skills

Credits: 3. Offered spring. Focus on developing the skills required of managers in nonprofit and government organizations, such as competency in self-assessment, oral and written presentations, managing stress, communicating supportively, motivating, managing conflict, empowering and delegating, succeeding in multicultural contexts, and participating in interviews. Level: Graduate

PSCI 525 - Strategic Planning

Credits: 3. Focus on the means by which public and nonprofit agencies can carry out their missions effectively. Level: Graduate

PSCI 526 - Issues in State Government

Credits: 3. Examination of the evolution and development of state governments since the founding period by focusing on the basic political institutions and a broad range of public policy issues that affect governing in the states. Level: Graduate

PSCI 527 - Performance Measurement

Credits: 3. Offered intermittently. Focus on the process by which organizations routinely and systematically gather data to assess progress in achieving their goals. Level: Graduate

PSCI 528 - Strategic Hum Res Mgt

Credits: 3. Offered online alternate summers. This course explores the value of strategic human resource management as a means for enhancing agency performance. Level: Graduate

PSCI 529 - Intro to Nonprofit Orgs

Credits: 3. This course is one of the core courses required for MPA students completing the Nonprofit Administration Track. The course provides an introduction to nonprofit organizations and the nonprofit sector within which they are embedded. It investigates such topics as the nature of the nonprofit sector, the diverse kinds of nonprofits in existence, the phenomenon of charitable giving, philanthropy, and volunteering, and the legal framework that establishes nonprofit organizations and regulates their activities. This course is appropriate for graduate students from many disciplines in addition to MPA students due to the diverse nature of the nonprofit sector in fields such as environmental studies, communication studies, sociology, social work and law. Level: Graduate

PSCI 530 - International Relations

Credits: 3. Offered autumn. Prereq., consent of instr. Concentrated reading and examination of selected subject areas in the field of international relations. Level: Graduate

PSCI 540 - American Government

Credits: 3. Offered spring. Prereq., consent of instr. Concentrated reading and examination of selected subject areas in the field of American government. Level: Graduate

PSCI 547 - Legislative Relations

Credits: 3. Online course offered every other year. Focuses on the methods and issues involved in establishing effective working relationships between agencies and the legislative process. Level: Graduate

PSCI 550 - Political Theory

Credits: 3. Offered spring. Prereq., consent of instr. Concentrated reading and examination of selected subject areas in the field of political theory. Level: Graduate

PSCI 561 - Ethics in Public Admin

Credits: 3. Online course offered every other year. Explores the role of ethics and integrity in public administration and the moral obligations of citizenship. Level: Graduate

PSCI 563 - Improving Work Culture

Credits: 3. Online course offered every other year. Focuses on the complexity of the core components of strategic management: program culture and work process management and the considerations necessary to institutionalize positive change. Level: Graduate

PSCI 586 - MA Research Project

Credits: 1 TO 4. (R-6) Offered every term. Prereq., consent of instructor. Offered as Credit/No Credit only. Level: Graduate

PSCI 594 - Seminar

Credits: 1 TO 9. (R-9) Offered intermittently. Topic varies. Level: Graduate

PSCI 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

PSCI 596 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Service Learning/Volunteer

PSCI 598 - Internship

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Offered credit/no credit only. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate Course Attributes: Internships/Practicums

PSCI 599 - Thesis

Credits: 1 TO 6. (R-6) Offered every term. Preparation of a thesis or manuscript based on research for presentation and/or publication. Level: Graduate

PSCI 875X - Tribal Sovereignty

Credits: 3. Offered alternate years. Same as NASX 475X. An examination of the evolution of tribal governments from a historical and political perspective. Particular attention is devoted to the issues of tribal sovereignty and tribal state conflicts. Course Attributes: Indigenous and Global

Psychology Department

Christine Fiore, Chair

Psychology is the science of the behavior of humans and other animals. The psychologist, using scientific methods, seeks to understand the causes and purposes of behavior. Psychologists pursue their research and its application in academia, business, government, health, military and social service. The department offers training that leads to the Bachelor of Arts, Master of Arts, Educational Specialist, and Doctor of Philosophy degrees.

Admission Requirements

To be admitted to the psychology major, a student must satisfy the following requirements:

1. completion of 30 credits overall
2. completion of 6 credits in psychology courses, including PSYX 100S (PYSC 100S).
Students who intend to major in psychology but who have not yet met the credit hour requirements are admitted to the program as pre-psychology majors. Prior to meeting the above requirements for admission pre-psychology students should go to the Undergraduate Graduate Advising Center for advising.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Science Level: Major Subject: **Neuroscience** Option: **Cellular and Molecular**

Total Credits: 76 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Biology/Psychology Core Courses Rule: Must complete all of the following courses:

Criterion: C- Number of Credits 23

Course Listing

BIOB 160N	Principles of Living Systems	4	F,SU
BIOB 260	Cellular and Molecular Biology	4	F,SU
BIOB 272	Genetics and Evolution	4	S
BIOH 280	Fundamental Neuroscience	3	S
BIOH 380	Molecular Neuroscience	3	F,S
BIOH 458	Neuroscience Research	4	
PSYX 250N	Fund of Biological Psychology	3	F,S,SU

Commentary: BCH 110/111 maybe substituted for BIOB 160N.

BIOH 458 satisfies the Upper Division Writing Requirement for the Major.

Commentary: Lower Division Core

Category Name: Other Required Courses

Rule: Must complete all of the following courses:

Criterion: C- Number of Credits 35

Course Listing

CHMY 141N	College Chemistry I	5	F,S
CHMY 143N	College Chemistry II	5	S,SU
CHMY 221	Organic Chemistry I	3	F
CHMY 222	Organic Chemistry I Lab	2	F
CHMY 223	Organic Chemistry II	3	S
M 162	Applied Calculus	4	F,S
PHSX 207N	College Physics II	4	F,S
PHSX 208N	College Physics II Laboratory	1	F,S
STAT 216	Introduction to Statistics	4	F,S

Commentary: PSYX 222 may be substituted for STAT 216.

Commentary: Major Electives

Category Name: Additional Major Courses

Rule: Must complete all of the following courses:

Criterion: C- Number of Credits 9

Course Listing

BCH 480	Advanced Biochemistry I	3	F
---------	-------------------------	---	---

BCH 482 Advanced Biochemistry II 3 S

BIOB 425 Adv Cell & Molecular Biology 3 S

Subcategory Name:

Rule: Choose at least 1 of the following Courses:

Criterion: C- Number of Credits 3

Course Listing

BIOB 301 Developmental Biology3 S

BIOH 365 Human AP I for Health Profsns0 To 4 F,SU

BIOL 435 Comparative Animal Physiology 3 S

CSD 411 Neuroanatomy & Physiology 3 S

Subcategory Name:

Rule: Choose at least 1 of the following Courses:

Criterion: C- Number of Credits 3

Course Listing

BIOB 375 General Genetics 3 S

Commentary: The list of electives is categorized to assist the student wishing to focus on one of these areas.

Students may plan curricula which do not correspond to

these categories, but should choose among courses from this list. Occasionally "special topics" courses are offered.

Students may use these as electives with the

consent of their advisors.

Check with departments regarding variable credit 395 and 495 Special Topics listings.

Degree Commentary: To earn a minor the student must complete 24 credits, with 11 at the 300 level or above. All students are required to take a 12credit core curriculum and, with the help of a faculty advisor, to develop a written statement of goals and interests along with a planned curriculum that includes 12 additional credits of electives consistent with the stated goals and interests. At least 6 credits of electives must be outside of the student's major.

Course Descriptions

Biology-Human

BIOH 380 - Cellular and Molecular Neuroscience

Credits: 3. The material covered will give students a practical knowledge of the subcellular organization and function of the nervous system. Students will learn how brain energy metabolism is a dynamic, and highly regulated process. We will explore the variety forms of neuronal chemical communication that may not conform to basic concepts of synaptic signaling. We will study processes that are involved in the growth and guidance of axons leading to the formation as well as the elimination of synapses. We will learn about the processes that are involved in the regulation of sexual differentiation of the nervous system. We will explore the basic mechanisms involved in learning and memory. Finally, Students will learn about the molecular and cellular mechanisms associated with neurodegenerative disease.

BIOH 441 - CNS Diseases

Credits: 3. This course is designed as a special topics course within the new neuroscience major that focuses on developing an understanding of common diseases affecting the Central Nervous System (CNS), such as stroke, traumatic brain injury, Alzheimer disease, Parkinson's disease, schizophrenia, amyotrophic lateral sclerosis, epilepsy, etc.) For each of the CNS disorders surveyed (which will vary from year to year), an emphasis will be placed on framing the symptoms and etiology of the disease within the context of the normal neuronal function at the anatomical, cellular and molecular levels. Where feasible, lectures will be supplemented with presentations by clinicians with expertise in the field. Students will also develop an appreciation for the linkages between basic and translational research in neurological diseases as well as the importance of disease models in the development of new therapies.

Psychology

PSYX 100S - Intro to Psychology

Credits: 4. Offered every term. Introduction to the scientific study of behavior in humans and other animals. Credit not allowed for both PSY 100S and PSYC 100S. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt Social Sciences Course

PSYX 105 - Careers in Psychology

Credits: 1. Offered intermittently. Exploration of the various careers available in the general area of mental health research and practice.

PSYX 107 - Intergroup Dialog

Credits: 1. Offered autumn. Reflective dialogue about issues of identity, diversity, and social justice.

PSYX 120 - Research Methods I

Credits: 3. Offered every term. Prereq., PSYX 100S. Experimental and other quantitative methods employed in the scientific study of behavior.

PSYX 191 - Special Topics

Credits: 1 TO 6. (R 6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

PSYX 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

PSYX 222 - Psychological Statistics

Credits: 3. Offered every term. Prereq., PSYX 120; M 115, M 162 or 171. Application of statistical techniques to psychological data. Credit not allowed for both PSYX 222 and SOCI 202.

PSYX 233 - Fund of Psychology of Aging

Credits: 3. Offered intermittently. An overview of theories and research findings in the psychology of adulthood and aging.

PSYX 250N - Fund of Biological Psychology

Credits: 3. Offered every term. Prereq., PSYX 100S. Introduction to the relationships between biological structures and mechanisms and their corresponding psychological processes and events. Origins and adaptations of structures and behaviors as well as the methods used to study these relationships. Course Attributes: Natural Science Course

PSYX 270 - Fund Psychology of Learning

Credits: 3. Offered autumn. Prereq., PSYX 100S. Basic theory and research on the nature of animal learning and behavior.

PSYX 280 - Fund of Memory and Cognition

Credits: 3. Offered intermittently. Prereq., PSYX 100S. The acquisition and uses of knowledge. An examination of research and theories of human learning, memory, and thinking.

PSYX 290 - Supervised Research

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Course Attributes: Research & Creative Schlrshp

PSYX 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Internships/Practicums

PSYX 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr.

PSYX 294 - Seminar/Workshop

Credits: 1. (R 3) Offered intermittently. Prereq., consent of instr.; coreq., another psychology course. Taken in conjunction with another psychology course to provide additional content and discussion for honors students. Consent of the corequisite course instructor is required for this course.

PSYX 298 - Internship

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instructor. Extended classroom experience which provides practical application of classroom learning during placements off-campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internship graduation limit 6

PSYX 320 - Research Methods III

Credits: 3. Offered every term. Prereq., PSYX 222. An appreciation of the experimental approach to the scientific study of behavior through student-conducted experiments. Course Attributes: Writing Course-Advanced

PSYX 340 - Abnormal Psychology

Credits: 3. Offered every term. Prereq., PSYX 100S. Description and classification of abnormal behavior.

PSYX 345 - Child & Adolescent Psych Dis

Credits: 3. Offered intermittently. Prereq., PSYX 100S and 230. Study of causes, characteristics, assessment and treatment of emotional, social and intellectual disorders. The age span studied will range from infancy through adolescence.

PSYX 348 - Psychology of Family Violence

Credits: 3. Offered spring. Prereq., PSYX 100S. Same as WGS 385. Exploration of theoretical explanations for the presence of violence in American families; research and interventions in such areas as child physical and sexual abuse, battering of women, marital rape, spousal homicide, etc.

PSYX 352 - Comparative Psychology

Credits: 3. Offered autumn. Prereq., PSYX 250N. Advanced evaluation and analysis of animal behavior through the synthesis of theory, research, and methods found in comparative psychology, behavioral biology, ethology, and sociobiology.

PSYX 356 - Human Neuropsychology

Credits: 3. Offered spring. Prereq., PSYX 250N. Study of the organization of the nervous system, functional neuroanatomy, neuropathology, neurological disorders, behavioral neurology, and clinical neuropsychology.

PSYX 360 - Social Psychology

Credits: 3. Offered every term. Individual behavior as a function of interpersonal interaction.

PSYX 362 - Multicultural Psychology

Credits: 3. Offered autumn even-numbered years. Current theories and research on culture, race, and ethnicity, and how the sociocultural context influences psychological processes.

PSYX 376 - Prin Cognit Behav Mod

Credits: 3. Offered intermittently. Prereq., PSYX 270S. Study of basic principles, assumptions, methodology and applications of behavior modification. Discussion of current literature relevant to behavioral assessment and treatment of major psychological disorders.

PSYX 377 - Personalized Student Instr

Credits: 3. Offered every term. Prereq., consent of instr. Experience with the personalized student instruction method of teaching, gained through participating as a proctor in the introductory psychology course.

PSYX 378 - Intro to Clinical Psyc

Credits: 3. Offered intermittently. Prereq., PSYX 340. Clinical psychology as a science and a profession. Theoretical models and techniques of assessment and intervention. Case illustrations.

PSYX 383 - Health Psychology

Credits: 3. Prereq., PSYX 100S and PSYX 250N. This course will provide an overview of the growing field of health psychology, with particular attention to the biological, psychological, and social determinants of health. The course will also provide overviews of major illnesses for which psychologists can and do play a major role and will examine the tools and techniques that clinical health psychologists employ in medical settings.

PSYX 385 - Psychology of Personality

Credits: 3. Offered intermittently Prereq., PSYX 100S. Introduction to theories and research in personality. Intensive survey of theoretical concepts and a detailed examination of experimental methods and experiments in the field of personality.

PSYX 390 - Adv Supervised Research

Credits: 1 TO 3. (R-3) Offered every term. Prereq., 12 credits in psychology including PSYX 297 and consent of instr. Course Attributes: Research & Creative Schlrshp

PSYX 391 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., nine credits in psychology and consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PSYX 392 - Independent Study

Credits: 1 TO 3. (R-3) Offered every term. Prereq., consent of instr.

PSYX 398 - Internship

Credits: 1 TO 3. (R-3) Offered every term. Prereq., consent of instructor. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained

from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

PSYX 400 - History & System in Psychology

Credits: 3. Offered every term. Prereq., 15 credits in psychology. Origin and development of basic concepts and methods in scientific psychology. Course Attributes: Writing Course-Advanced

PSYX 441 - Addiction Studies

Credits: 3. Offered intermittently. Same as SOCI 433 and SW 423. Examination of chemical dependency and behavioral compulsion, including alcohol and other drugs, gambling, eating disorders, sexual addictions.

Ecosystems perspective on etiology, treatment, prevention, family dynamics, community response, and societal contributors.

PSYX 442 - Counseling Theories in Context

Credits: 3. Offered autumn. Prereq., PSYX 100S. Same as COUN 485 and SW 485. This course introduces students to the primary theories that constitute the intellectual foundation for common counseling and psychotherapy techniques, with a special focus on gender, interpersonal influence strategies and diversity issues.

PSYX 491 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., 12 credits in psychology and consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

PSYX 494 - Seminar/Workshop

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., nine credits in psychology and consent of instr. Topics of current interest with critical examination of the literature. Course Attributes: Omnibus Course

PSYX 499 - Senior Thesis

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., junior or senior standing and consent of instr. Preparation of a thesis or manuscript based on research for presentation and/or publication.

PSYX 501 - Teaching of Psychology

Credits: 3. Offered autumn. Prereq., graduate standing in psychology and consent of instr. Exploration and practice of effective teaching techniques. Level: Graduate

PSYX 510 - Trends Psyc Research

Credits: 1. Offered autumn. Brief survey of the departmental faculty's ongoing research interests. Level: Graduate

PSYX 511 - Professional Issues

Credits: 1. Offered autumn. Prereq., graduate standing in clinical psychology. Introduction to the professional role and skills in the clinical psychology field. Level: Graduate

PSYX 512 - Field Placement-Clinical

Credits: 1 TO 12. (R-12) Offered every term. Prereq., graduate standing in psychology and consent of instr. Supervised assessment and intervention experience in applied clinical settings. Level: Graduate

PSYX 520 - Adv Psyc Stat I

Credits: 3. Offered autumn. Prereq., undergraduate statistics and consent of instr. Introduction to descriptive and inferential statistics, probability distributions, null hypothesis significance testing, one and two sample techniques, analysis of variance and the general linear model. Level: Graduate

PSYX 521 - Adv Psyc Stat II

Credits: 4. Offered spring. Prereq., PSYX 520 or consent of instr. Multiple comparisons among means, factorial ANOVA, random effects and mixed models, correlation, simple and multiple regression, analysis of covariance. Level: Graduate

PSYX 522 - Multivariate Statistics

Credits: 3. Offered autumn. Prereq., PSYX 520 and 521. Introduction to matrix algebra, multivariate analysis of variance, multivariate analysis of covariance, simple slopes in multiple regression, discriminant analysis, canonical correlation, principal components analysis, factor analysis, cluster analysis. Level: Graduate

PSYX 523 - Research Design

Credits: 3. Offered spring. Prereq., graduate standing in psychology. The examination and application of the principles and methods of experimental and quasi-experimental research design in psychology. Level: Graduate

PSYX 524 - Tests & Measurement

Credits: 3. Offered autumn. Prereq., graduate standing in psychology or education. Introduction to measurement emphasizing correspondence between research and practice. Provides a theoretical and practical basis for evaluating and using measurement data. Level: Graduate

PSYX 525 - Psyc Evaluation I

Credits: 3. Offered autumn. Prereq., undergraduate statistics and consent of instr. Individual tests of aptitudes and intellectual abilities; psychometric considerations in clinical assessment; objective personality assessment. Level: Graduate

PSYX 526 - Psyc Eval II:App and Obj

Credits: 3. Offered spring. Prereq., enrollment in doctoral program in psychology and consent of instr. Objective methods in psychological assessment; psychological evaluation techniques in the clinical context. Level: Graduate

PSYX 530 - Clin and Diag Interviewing

Credits: 3. Offered autumn. Prereq., graduate standing in clinical psychology, school psychology, or counseling. Microcounseling skills development through interactive practice and feedback. Level: Graduate

PSYX 531 - Prin of Psychotherapy

Credits: 3. Offered autumn. Prereq., enrollment in doctoral program in clinical psychology. The philosophical and scientific bases of major systems of psychotherapy are reviewed. Psychotherapy research methods, issues, and findings are introduced. Level: Graduate

PSYX 532 - Adv Psychopathology

Credits: 3. Offered autumn. Prereq., graduate standing in psychology or consent of instr. Symptoms, etiology, diagnostic criteria and treatment of the major psychological disorders, with an emphasis on current research findings. Level: Graduate

PSYX 534 - Applied Clinical Methods

Credits: 1 TO 4. (R-24) Offered every term. Prereq., graduate standing in the clinical program and consent of instr. Theoretical and applied work in a supervised clinical setting. Level: Graduate

PSYX 535 - Child Interventions

Credits: 3. (R-12) Offered every term. Prerequisite: graduate standing in the clinical psychology program and consent of instructor. Review of clinical research and methodology in youth mental health. Specific treatment interventions are explored for the practitioner and also may serve as a valuable base for engaging in psychological consultation with youth and families. Level: Graduate

PSYX 536 - AdvcdChld/Adol Psychopathology

Credits: 3. Offered spring. Prereq., graduate standing in psychology or consent of instr. Advanced study of the characteristics, etiology, assessment, and treatment of the emotional, social, and intellectual problems covering the span from infancy through adolescence. DSM and Education Code criteria will be compared. Level: Graduate

PSYX 537 - Child Assessment

Credits: 3. Offered every other year spring semester. Provides an intensive introduction to diagnostic, behavioral, and personality assessment of children and adolescents. Level: Graduate

PSYX 540 - Adv Development Psyc

Credits: 3. Offered intermittently. Prereq., undergraduate course in developmental psychology or consent of instr. Psychological and behavioral development through the life span. Level: Graduate

PSYX 545 - Field Placement Humn Devel

Credits: 1 TO 6. (R-9) Offered autumn and spring. Prereq., PSYX 540 or equiv. Individualized, applied experience working with and/or observing a particular population of interest, including children, adolescents, or older adults. Involves the completion of an independent project, which may comprise program assessment, research proposal development, etc. Level: Graduate

PSYX 550 - Ad Social Psychology

Credits: 3. Offered spring even-numbered years. Prereq., undergraduate course in social psychology or consent of instr. Theory and experiment in the analysis of individual behavior in relation to social stimuli. Level: Graduate

PSYX 551 - Advanced Personality

Credits: 3. Offered autumn odd-numbered years. Prereq., undergraduate course in personality or consent of instr. Theory and research on human personality and behavior. Emphasis on issues and topics of contemporary importance. Level: Graduate

PSYX 560 - Advanced Learning & Cognition

Credits: 3. Offered spring odd-numbered years. Prereq., undergraduate course in perception, cognition, or learning, or consent of instr. A survey of principles, theories, and methods pertaining to how humans and animals learn and represent the world. Level: Graduate

PSYX 565 - Advanced Cognition

Credits: 3. Offered autumn odd-numbered years. Prereq., undergraduate course in perception, cognition, or learning, or consent of instr. Examination of the acquisition of knowledge through perception and learning, the retention of knowledge, and the use of knowledge through thinking and reasoning. Level: Graduate

PSYX 571 - Adv Physiological Psyc

Credits: 3. Offered autumn even-numbered years. Prereq., consent of instr. Brain mechanisms and behavior; electrophysiological correlates of behavior. Level: Graduate

PSYX 580 - Professional School Psych

Credits: 3. Offered autumn. Prereq., graduate standing in school psychology. The theory, role, and function of school psychology as a profession; includes historical precursors and fit with current systems of psychology. Level: Graduate

PSYX 582 - Behav Assmnt & Intervention

Credits: 3. Offered autumn. Prereq., graduate standing in psychology or consent of instr. Introduces theoretical and practical applications of behavioral assessment and intervention. Students develop skills using behavioral observation, sampling and intervention design/implementation through supervised experience in applied settings. Level: Graduate

PSYX 583 - Ed Assmnt & Intervention

Credits: 4. Offered spring. Prereq., graduate standing in psychology or education. Develops educational assessment and intervention skills using problem-solving strategies to make educational decisions. Students develop assessment and intervention design/implementation through supervised experience in applied settings. Level: Graduate

PSYX 587 - School Psyc Methods

Credits: 3. (R-9) Offered every term. Prereq., graduate standing in school psychology and consent of instr. Applied school psychology work in a supervised setting. Level: Graduate

PSYX 588 - School Psyc Internship

Credits: 1 TO 12. (R-12) Offered autumn and spring. Prereq., enrollment in school psychology program or consent of instr. Supervised work experience in the role and functions of school psychologists. Level: Graduate

PSYX 594 - Seminar

Credits: 1 TO 12. (R-12) Offered intermittently. A review and discussion of current research. Topics vary. Level: Graduate

PSYX 595 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

PSYX 596 - Independent Study

Credits: 1 TO 9. (R-9) Offered autumn and spring Prereq., consent of instr. Assigned readings and other special study projects. Level: Graduate Course Attributes: Service Learning/Volunteer

PSYX 597 - Research

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Independent supervised research projects, other than thesis or dissertation. Level: Graduate

PSYX 599 - Thesis/Research Project

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. M.A. thesis or M.A. Research project Level: Graduate

PSYX 625 - Clinical Assessment

Credits: 2. Offered annually. Prereq., advanced graduate standing in clinical psychology program and consent of instructor. Students will conduct a variety of clinical assessments, including personality and neuropsychological testing. Students will gain experience with all phases of clinical assessment (e.g., interviewing, test administration, report writing, etc.) Level: Graduate

PSYX 630 - Ethics, Prof & Cult Iss

Credits: 3. Offered spring. Prereq., enrollment in doctoral program in clinical or experimental psychology. Review of ethical principles and professional standards of psychologists. Analysis of the influence of cultural factors upon professional conduct. Level: Graduate

PSYX 631 - Intervention

Credits: 3. (R-12) Offered every term. Prereq., graduate standing in the clinical psychology program and consent of instr. Review of clinical research and methodology. Specific treatment interventions are explored for the practitioner and also may serve as a valuable base for engaging in psychological consultation. Each offering will have a unique title. Level: Graduate

PSYX 632 - Curr Clinical Topics

Credits: 3. (R-12) Offered intermittently. Prereq., graduate standing in psychology and consent of instr. Current topics in clinical psychology with reviews of theory, research, and methodology. Each offering will have a unique title. Level: Graduate

PSYX 634 - Adv App Clinical Methods

Credits: 1 TO 4. (R-6) Offered every term. Prereq., PSYX 534 and consent of instr. Advanced clinical work in a supervised setting. Level: Graduate

PSYX 638 - Clin Psyc Internship

Credits: 1 TO 3. (R-6) Offered every term. Prereq., proficiency in clinical techniques. Clinical internship offered by the psychology staff of a hospital, clinic or other approved agency in coordination with The University of Montana Clinical Psychology Program. Level: Graduate

PSYX 680 - Consultation

Credits: 3 TO 4. Offered spring even-numbered years. Prereq., graduate standing in school psychology. Theoretical background and case conceptualization in academic and behavioral consultation. Doctoral level also includes a supervised direct experience in applied settings. Level: Graduate

PSYX 694 - Seminar

Credits: 1 TO 12. (R-12) Offered intermittently. A review and discussion of current research. Topics vary. Level: Graduate

PSYX 697 - Advanced Research

Credits: 1 TO 9. (R-9) Offered autumn and spring. Prereq., consent of instr. Independent research projects, other than thesis or dissertation. Level: Graduate

PSYX 699 - Dissertation

Credits: 1 TO 18. (R-18) Offered every term. Prereq., consent of instr. Doctoral dissertation research activities. Level: Graduate

Sociology Department

Kathy Kuipers, Chairs

"Sociology is the study of social life, social change, and the social causes and consequences of human behavior. Sociologists investigate the structure of groups, organizations, and societies, and how people interact within these contexts. Since human behavior is shaped by social factors, the subject matter of sociology ranges from the intimate family to the hostile mob; from organized crime to religious cults; from the divisions of race, gender and social class to the shared beliefs of a common culture" (American Sociological Association 2002:1). The Sociology faculty at UM bring diverse theoretical perspectives to their courses and use a wide array of methodological strategies in their research and teaching. Their interests range from social issues facing our local community and the Northern Rocky Mountain region, to national and global concerns. Faculty research addresses both theoretical issues, such as the causes of criminal behavior, and practical matters, such as the effectiveness of prison rehabilitation programs or the impact of legislation on family policy and poverty programs.

In addition to a general sociology major, students may choose one of three options for structuring their course work. The general Sociology major provides a broad foundation in sociological theory and research, together with exposure to a variety of courses in the main substantive areas of the discipline. Students interested in crime and criminal justice can choose an option in Criminology, while students concerned with the causes and consequences of social inequality can select an option Inequality and Social Justice. Students interested in rural and environmental issues can pursue an option in Rural and Environmental Change. These options allow students to concentrate their studies in a particular area of interest while still acquiring a solid foundation in the discipline of Sociology.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Sociology**

Total Credits: 39 Cumulative GPA Required: 2.0

Students whose primary interest is in a general sociology major are urged to develop a plan of study with their advisor; they must take three electives in addition to the core courses and major content requirements listed above. Any sociology course, including courses from any of the three options, may be included in your study plan. The general sociology major prepares students for positions which require a bachelor's degree in one of the social science disciplines, including employment in a variety of government and private-sector agencies, or for a graduate program in sociology. It also provides valuable preparation for related fields such as law, social work, education, counseling, politics, and public administration.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Sociology** Option: **Criminology**

Total Credits: 39 Cumulative GPA Required: 2.0

Criminology has been an area of study within sociology since the inception of the discipline at the turn of the twentieth century. Contemporary criminology examines the making of laws, the nature and extent of crime, the causes of crime, and society's efforts to control crime through the juvenile and criminal justice systems. The option builds upon the required course work in sociology and allows students to pursue extended study of crime and the criminal justice system. In addition, the option provides opportunity for practical experience in juvenile and criminal justice systems through internship placement. The criminology option prepares students for employment in public and private criminal justice agencies, as well as graduate study in sociology, criminal justice, and law.

College Humanities & Sciences

Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Sociology** Option: **Inequality and Social Justice**

Total Credits: 39 Cumulative GPA Required: 2.0

Inequality is at the core of most sociological inquiries. The option in inequality and social justice examines the causes and consequences of inequalities based on class, gender, race/ethnicity, disability, age, and sexual orientation. Social inequalities at the local, national, and global levels are studied, as are the political, legal, and social processes that contribute to or reduce inequalities. Ethical elements of social justice are considered with regard to inequality. An option in inequality and social justice prepares students for employment in a variety of government and private-sector agencies, especially in social services, or for graduate school in Sociology. It also provides valuable preparation for related fields such as law, social work, education, counseling, politics, and public administration.

College Humanities & Sciences

Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Sociology** Option: **Rural and Environmental Change**

Total Credits: 39 Cumulative GPA Required: 2.0

Rural environments, residents and agencies are facing rapid social, economic, demographic and political change. This option develops analytical and practical skills for understanding rural and environmental change globally and in the American West, and its policy implications in such areas as rural health, welfare and work; community development and assessment; native peoples and natural resource management. An option in rural and environmental change prepares students for employment with either a government, private, or non-profit agency concerned with the above topics or for pursuing an advanced degree in sociology.

- Sara Rasch, Adjunct Instructor

Lecturers

- Megan Bahns, Adjunct Lecturer

Course Descriptions

Chemical Addiction Studies

CAS 433 - Adv Addiction Studies

Credits: 3. Offered spring. Same as PSYX 441 and SW 423. Examination of chemical dependency and behavioral compulsion, including alcohol and other drugs, gambling, eating disorders, sexual addictions. Ecosystems perspective on etiology, treatment, prevention, family dynamics, community response, and societal contributors. Sociology

SOCI 101S - Introduction to Sociology

Credits: 3. Offered every term. Overview of the principles and concepts used in the study of human social interaction, groups, communities and societies. Required of all majors. Course Attributes: Social Sciences Course

SOCI 130S - Soc of Alternative Religions

Credits: 3. Offered spring. Unconventional religious groups in American society. Topics include recruitment, conversion, commitment, defection, leadership, belief systems, organizational structure and change. Course Attributes: Social Sciences Course

SOCI 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

SOCI 191S - Special Topics

Credits: 1 TO 6. (R 6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics. Course Attributes: Internships/Practicums

SOCI 202 - Social Statistics

Credits: 3. Offered every term. Prereq., or coreq. M 115, Sociology majors only, or consent of instr. Application of descriptive and inferential statistical techniques to sociological data. Required of all majors.

SOCI 211S - Introduction to Criminology

Credits: 3. Offered autumn. Prereq., or coreq., SOCI 101S. A critical examination of crime in society: how crime is defined, the extent and distribution of crime, theoretical explanations of criminal behavior, and crime control efforts.

Course Attributes: Social Sciences Course

SOCI 212S - Social Issues Southeast Asia

Credits: 3. Offered every other year. Same as SSEA 212S and LS 212S. Introduction to the cultures, societies, and contemporary social problems of Southeast Asia. Course Attributes: Social Sciences Course

SOCI 220S - Race, Gender & Class

Credits: 3. Offered autumn. Same as WGS 220S. Analysis of the intersecting structure and dynamics of race, gender and class. Focus on power relationships, intergroup conflict and minority-group status. Course Attributes: Social Sciences Course

SOCI 221 - Criminal Justice System

Credits: 3. Offered spring. A systematic survey of crime and the administration of justice in the United States, including the organizational structures, processes, and dynamics of law enforcement, criminal adjudication, and corrections.

SOCI 270 - Intro Development Sociology

Credits: 3. Offered autumn. Introduction to sociological perspectives on international development, globalization, and sustainability. Rural and environmental issues emphasized.

SOCI 275S - Gender and Society

Credits: 3. Offered spring. Same as WGS 275S. Exploration of the social construction of gender, especially in western, post-industrial societies such as the U.S. How gender ideologies affect the social definition and position of men and women in work, family, sexual relationships, sexual divisions of labor, and social movements. Course Attributes: Social Sciences Course

SOCI 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

SOCI 306 - Sociology of Work

Credits: 3. Offered intermittently. An introduction to contemporary sociological debates on work including overwork, working poor, housework, globalization, mechanization, routinization, surveillance, and unions. Special focus on gender and class impacts on working life.

SOCI 312 - Criminal Adjudication

Credits: 3. Offered spring odd-numbered years. Prereq., SOCI 101S, 221 and either 211S or 330. An examination of adjudicatory processes applied to the criminally accused. Includes pretrial, trial, and sentencing practices and procedures. Special attention to the sociological dimensions of criminal adjudication: its cultural underpinnings, structural characteristics and interactional dynamics.

SOCI 314 - Extraordinary Group Behavior

Credits: 3. Offered intermittently. Prereq., SOCI 101S. The study of emergent social behavior including rumors, crowds, crazes, riots, panics, terrorism, revolutions and social movements.

SOCI 318 - Sociological Research Methods

Credits: 3. Offered every term. Prereq., SOCI 101S, Sociology majors only, or consent of instr. Methods of research in the social sciences including naturalistic observation, interviewing, measurement, experiments, surveys, content analysis, and basic data analysis. Required of all majors.

SOCI 325 - Social Stratification

Credits: 3. Offered intermittently. Prereq., SOCI 101S or SOCI 220S or SOCI 275S. The origins, institutionalization and change of class, status, prestige, power and other forms of social inequality. Special attention to the effects of stratification on individuals.

SOCI 330 - Juvenile Delinquency

Credits: 3. Offered spring. Prereq., SOCI 101S. The study of juvenile delinquency as a social phenomenon, including the emergence of "juvenile delinquency" as a social and legal concept, the nature of delinquency, and theoretical explanations of delinquent behavior.

SOCI 332 - Sociology of the Family

Credits: 3. Offered autumn. Prereq., SOCI 101S. Same as WGS 300. Historical, cross-cultural, and analytical study of the family. Emphasis on ideology, social structures, and agency affecting family composition and roles.

SOCI 335 - Juvenile Justice System

Credits: 3. Offered autumn. Prereq., SOCI 101S and 211S or 330. An analysis of the juvenile justice system in the United States, including the historical development of policies and practices. The role of various social agencies in defining, preventing, and responding to delinquency.

SOCI 342 - Urban/Metropolitan Soc

Credits: 3. Offered intermittently. Prereq., SOCI 101S. Classical social theories of urban growth. Contemporary urbanization in local, regional, national and global contexts. Internal urban/metropolitan social organization in terms of race, ethnicity, social class and gender.

SOCI 345 - Sociology of Organizations

Credits: 3. Offered intermittently. Prereq., SOCI 101S. Historical and analytical study of organizations as social systems, with an emphasis on applying theoretical models to analyzing organizational behavior and change.

SOCI 346 - Rural Sociology

Credits: 3. Offered intermittently. Prereq., SOCI 101S recommended. Demographic, economic and sociocultural change in rural communities with an emphasis on global economy, political structure, urbanization, and economic and social infrastructure. Special attention given to the rural west and Montana.

SOCI 350 - The Community

Credits: 3. Offered intermittently. Prereq., SOCI 101S. The study of families, peer groups, neighborhoods, voluntary associations, power structures, social classes and large scale organizations as they come together in local communities.

SOCI 355 - Population and Society

Credits: 3. Offered spring. Prereq., SOCI 101S. An introduction to contemporary world population problems including population growth, trafficking, fertility, mortality, population policy, and the relationship between population and environment. Emphasizes gender issues in international context.

SOCI 362 - Sociology of Law Enforcement

Credits: 3. Offered autumn even-numbered years. Prereq., SOCI 101S, 221 and either 211S or 330. An examination of policing in society, with emphasis on the cultural context in which it occurs, its structural characteristics, and social psychological processes.

SOCI 371 - Gender and Global Development

Credits: 3. Offered every other year. Prereq., SOCI 270 or consent of instructor. Intermediate level perspectives on colonization, international development, and globalization, with an emphasis on gender issues and impacts. Course Attributes: Non-Western Course Social Sciences Course

SOCI 382 - Soc Psych and Social Structure

Credits: 3. Offered autumn. Prereq., SOCI 101S. The study of the behavior of individuals in social contexts ranging from small groups to societies. Topics include attitude change, conformity, aggression, helping behavior, self-concept formation, and group cohesion and decision-making.

SOCI 386 - Preceptorship in Sociology

Credits: 2 TO 3. Offered autumn and spring. Prereq., SOCI 101S and consent of instr. Assisting a faculty member by tutoring, conducting review sessions, helping students with research projects, and carrying out other class-related responsibilities. Open to juniors and seniors with instructor's consent. Proposals must be approved by department chair.

SOCI 391 - Special Topics Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of new courses or one time offerings of current topics.

SOCI 398 - Internship

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

SOCI 423 - Sociology of Corrections

Credits: 3. Offered spring. Prereq., SOCI 101S, 221 and either 211S or 330. An examination of the purposes, structures, and processes of jails, prisons, and community corrections, including probation and parole. Emphasis on historical development and current trends and issues in corrections.

SOCI 435 - Law and Society

Credits: 3. Offered spring even-numbered years. Prereq., SOCI 101S. The study of the law and society, including the origin, institutionalization, and impact of law and legal systems.

SOCI 438 - Seminar in Crime & Deviance

Credits: 3. Offered every term. Consent of instructor. Advanced studies in criminology theory, research, and practice. This course will meet the upper-division writing expectation for sociology majors only. Course Attributes: Writing Course-Advanced

SOCI 441 - Capstone: Inequal and Soc Just

Credits: 3. Offered spring. SOCI 101S and two inequality and social justice courses and consent of instr. Research and writing on Inequity and Social Justice. Students bring together readings from other inequality content courses and/or independent readings, research methods training, and data and/or internship experience to write a final

research paper on a topic of their choice within the ISJ area. Meets upper-division writing expectation for sociology majors only. Course Attributes: Writing Course-Advanced

SOCI 442 - ISJ Service Learning

Credits: 3 TO 4. Prereq, consent of instr. Supervised fieldwork and research in settings relevant to Inequality and Social Justice, building participatory research and critical thinking skills; relationships with people in groups marginalized by systems of inequality; citizenship awareness. Course Attributes: Service Learning

SOCI 443 - Sociology of Poverty

Credits: 3. Offered autumn. Prereq. SOCI 101S, or consent of instr. An examination of the roots, prevalence, and social characteristics of poverty. Analysis of policies intended to end poverty.

SOCI 455 - Classical Sociological Theory

Credits: 3. Offered autumn and spring. Prereq., SOCI 101S, or consent of instr. Focus on the historical development of the field of sociology from 1850 to World War I. The classical writings of Marx, Durkheim, and Weber emphasized. Required of all sociology majors.

SOCI 460 - Capstone: Rural and Env Change

Credits: 3. Offered spring. Prereq., SOCI 101S and consent of instr. Advanced study of issues in rural, environmental, and development sociology with an emphasis on theoretical perspectives and applications. Meets upper-division writing expectation for sociology majors only. Course Attributes: Writing Course-Advanced

SOCI 470 - Environmental Sociology

Credits: 3. Offered autumn. Introduction to environmental sociology and the social dimensions of environmental change. Case studies of major environmental problems as applications of environmental sociological perspectives.

SOCI 485 - Political Sociology

Credits: 3. Offered spring odd-numbered years. Prereq., junior or senior standing. Analysis of political theory and behavior; social bases of power and policy determination; institutional interrelationships; intellectuals and ideologies; political trends and change; political participation and membership.

SOCI 488 - Writing for Sociology

Credits: 3. Offered autumn and spring. Consent of instr. Advanced study of variable topics or issues in sociology, with emphasis on writing for the discipline. This course satisfies the upper-division writing expectation for sociology majors only. Course Attributes: Writing Course-Advanced

SOCI 491 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., SOCI 101S. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

SOCI 492 - Independent Study

Credits: 1 TO 3. (R-9) Offered every term. Prereq., SOCI 101S and consent of instr. Individual work with a faculty supervisor in an area of special interest. Proposals must be approved by department chair.

SOCI 494 - Seminar/Workshop

Credits: 2 TO 3. Offered intermittently. Prereq., SOCI 101S and at least junior standing. Selected sociological topics.

SOCI 498 - Internship

Credits: 1 TO 6. (R-6) Offered every term. Prereq., SOCI 101S, 318 and 202; 2.75 GPA; junior standing and consent of instr. Supervised placement in an agency or business which involves work experience related to criminology, sociology, rural and environmental change and/or inequality and social justice. Course Attributes: Internships/Practicums

SOCI 520 - Contemp Social Theory

Credits: 3. Offered autumn. Sociology Graduate Student or consent of instr. The major sociological theories developed since World War I, including an examination of the critical issues under debate. Level: Graduate
SOCl 530 - Criminological Theory

Credits: 3. Offered autumn. Consent of instr. Advanced study of the major theories of crime and criminality; includes the concepts, propositions, and causal logic, together with relevant research findings. Level: Graduate
SOCl 538 - Sem in Crime & Deviance

Credits: 3. Offered intermittently. Consent of instructor. Graduate-level studies of a specific criminological topic or issue with special emphasis on theory, research, policy, and practice. Level: Graduate
SOCl 545 - Sem in Inequality & Soc Justic

Credits: 3. Offered spring. Graduate student in Sociology or consent of instr. Advanced study of variable topics in inequality and social justice held in a small group setting that maximizes opportunities for graduate student research, discussion, and writing. Level: Graduate
SOCl 561 - Qualitative Methods

Credits: 3. Offered spring. Consent of instr. Introduction to the basic methods used to conduct qualitative studies including ethnography, interviewing, observation and/or focus group. Includes hands-on fieldwork projects, data coding and analysis, and research ethics. Draws on examples and literature from sociology. Students should have had undergraduate research methods training. Level: Graduate

SOCl 562 - Quantitative Methods

Credits: 3. Offered autumn. Prereq., SOCl 101S, 318 and 202. Introduction to the basic methods used to conduct quantitative sociological research and program evaluation including proposal development, survey design, sampling techniques, data analysis, and dissemination of findings. Level: Graduate

SOCl 563 - Social Data Analysis

Credits: 3. Offered spring. Consent of instr. A hands-on introduction to preparing sociological reports and documents, performing research and statistical tasks common to the field. Presumes no previous knowledge of microcomputers. Level: Graduate

SOCl 590 - Sociology Internship

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Supervised placement for graduate students in an agency or business which involves work experience related to criminology, sociology, rural and environmental change and/or inequality and social justice.. Level: Graduate Course Attributes: Research & Creative Schlrshp

SOCl 594 - Graduate Seminar

Credits: 3. (R-9) Offered intermittently. Selected sociological topics. Level: Graduate

SOCl 595 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

SOCl 596 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Work with a faculty supervisor in an area of special interest. Level: Graduate Course Attributes: Service Learning/Volunteer

SOCl 597 - Graduate Research

Credits: 2 TO 3. (R-9) Offered every term. Directed research. Student must develop a specific research or evaluation proposal which is approved by the instructor prior to registration. Those students electing the professional paper option may apply three credits of 597 toward graduation. Level: Graduate

SOCl 598 - Internship

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. Level: Graduate Course Attributes: Internships/Practicums

SOCI 599 - Thesis/Professional Paper

Credits: 1 TO 6. (R-6) Offered every term. Students may apply six credits of 599 toward graduation. Level: Graduate

South and Southeast Asian Studies

Professor G.G. Weix, Advisor

The Liberal Studies Program offers undergraduates at the University of Montana-Missoula an opportunity to study South and Southeast Asian peoples, cultures, histories, and societies, as well as their literary, artistic and religious traditions. The region includes India, Nepal, Bhutan, Tibet, Sri Lanka, Pakistan, Bangladesh, Myanmar (Burma), Thailand, Laos, Cambodia, Vietnam, Malaysia, Brunei, Singapore, Indonesia, East Timor, and the Philippines.

The South Asianist faculty of Liberal Studies and the Dean of the College of Humanities and Sciences work closely with those faculty from other disciplines at the University of Montana who have research and teaching interests in the area, and competence in regional languages.

Students may choose to minor in South and Southeast Asia with a major in any discipline. They must register with Professor G.G. Weix, the advisor, and are encouraged to plan their course sequence at least one semester in advance, in consultation with an assigned core faculty advisor from those listed below.

College Humanities & Sciences Catalog Year: 2015-2016

Course Descriptions

South/Southeast Asian Studies

SSEA 102H - Intro to South & S. East Asia

Credits: 3. Offered intermittently. Same as ANTY 102H/LS 102H. An introduction to South and Southeast Asian regions, cultures, societies, and histories, with particular emphasis on artistic, religious and literary traditions from prehistory to the present. An overview approach with different materials and emphases. Course Attributes:

Historical & Cultural Course Indigenous and Global

SSEA 195 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, offerings of new courses, or one-time offerings of current topics. Course Attributes: Internships/Practicums

SSEA 202X - Introduction to India

Credits: 3. Offered autumn, even years. Same as LSH 202x. This course introduces students to the history, economy, political and legal system, society, culture, religions, and literary and artistic traditions of India, which is the world's largest secular democracy and the birthplace of four major world religions. Course Attributes: Indigenous and Global

SSEA 212S - Southeast Asian Cult & Civ

Credits: 3. Offered intermittently. Introduction to the cultures, social organization, and contemporary events of Southeast Asia. Course Attributes: Social Sciences Course Indigenous and Global

SSEA 232H - Buddhism

Credits: 3. Offered autumn. Same as RLST 232H. A historical introduction to the development of Buddhist thought and practice in the cultures of Asia and the West. Course Attributes: Historical & Cultural Course Indigenous and Global

SSEA 234X - Hindu Religious Traditions

Credits: 3. Offered spring, odd-numbered years. Same as RLST 234X. Critical exploration of selected aspects of Hindu thought, narrative and practice, both in contemporary and historical perspective. Focus primarily on India, but with consideration of Hinduism's transformation and impact beyond South Asia. Course Attributes: Indigenous and Global

SSEA 295 - Special Topics

Credits: 1 TO 12. (R-12) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Internships/Practicums

SSEA 330X - Peoples and Cultures of World

Credits: 3. Offered intermittently. Same as ANTY 330X. Ethnographic survey of societies and cultures of Indonesia and the Philippines.

SSEA 342 - Topics Comparative Lit & Rel

Credits: 3. Offered intermittently. Same as LSH 342. These courses compare major traditions, texts and trends in two or more world civilizations or cultures. Works of literature and/or philosophy are examined in their historical contexts, and in relation to each other.

SSEA 353 - Topics So. Asian Religions

Credits: 3. Offered intermittently. No prerequisites. This course will examine select topics of central importance with respect to the history of interaction between the major religions (Hinduism, Islam, Buddhism, Jainism and Sikhism) of South Asia.

SSEA 366 - Tibetan Civilization

Credits: 3. Offered intermittently. No prerequisites. An exploration of the history and culture of a unique civilization that has influenced greatly the cultures of Himalayan, East and South Asia. Special attention will be given to Tibetan religions, modernity, and globalization as they have presented profound challenges to Buddhist traditions.

SSEA 368 - Contemporary Buddhism in SSEA

Credits: 3. Offered intermittently. No prerequisites. Like other major religions, modernity and globalization have presented profound challenges to Buddhist traditions. In this course we will explore various contemporary issues that have affected Theravada Buddhist societies-colonial and post-colonial revivalism, religious nationalism, women's rights and social reform-as case studies of some of the major ways religions have confronted modernity.

SSEA 395 - Special Topics

Credits: 1 TO 12. (R-12) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Internships/Practicums

SSEA 495 - Special Topics

Credits: 1 TO 12. (R-12) Seminar designed for students with a minor in South and Southeast Asian Studies. Regional or temporal focus may vary. Course Attributes: Internships/Practicums

Women's, Gender and Sexuality Studies

Elizabeth Hubble, Director

Women's, Gender and Sexuality Studies, an interdisciplinary program founded in 1990, encourages the production, discussion, and dissemination of knowledge about women's experiences, oppressions, and achievements in Montana, the U.S., and the world. In the last decade this focus has broadened to include study of the social and cultural construction of gender, sex, and sexualities. By fostering awareness of cultural and international diversity, as well as of the circulations of power mediated by race, class, age, and sexual orientation, Women's and Gender Studies encourages students to think critically and to envision justice for all peoples.

The Women's, Gender and Sexuality Studies program is administered by the director, with assistance from the program coordinator, in consultation with the Women's, Gender and Sexuality Studies Steering Committee, an interdisciplinary group of faculty and professional associates with teaching, research, and scholarly interests in women, gender and sexuality.

Students may include Women's, Gender and Sexuality Studies in their studies in two ways. They can major in Liberal Studies with an option in Women's, Gender and Sexuality Studies, or they can complete the Women's, Gender and Sexuality Studies minor. Students may select coursework from a wide variety of courses offered in the humanities, social sciences, natural sciences, law, education and other disciplines. Women's, Gender and Sexuality Studies offers scholarships and sponsors or co-sponsors a variety of events including lectures, discussions, and performances that make a vibrant contribution to both the campus and the Missoula community life.

To be admitted, students must register with the Women's, Gender and Sexuality Studies director, who will explain option or minor requirements and supervise their program.

College Humanities & Sciences Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Women's, Gender & Sexuality St**

Adjunct Faculty

- Beth Hubble, Adjunct Assistant Professor of Women's Studies

Course Descriptions

Women's and Gender Studies

WGSS 150X - Women's Rights and Women's Roles Around the World

Credits: 3. Offered autumn in odd-numbered years. This course offers an interdisciplinary perspective on women's participation in family, community, and political life around the world. This course will use a comparative approach to familiarize students with multiple societies in the Americas, Europe, Africa, Asia, and Australia and examine transnational themes that range across time and place. Guest lectures, field trips, and films will expose students to different approaches to the study of women's lives, work, and activism and to the range of women's activities around the world. In the second part of the course, students will collaborate on further research and design a final project presentation. Course Attributes: Indigenous and Global

WGSS 163L - Hist/Lit Persp Women

Credits: 3. Offered spring. Formerly PHL 151H, LS 119H, WGS 119H, WGSS 163H. This is an introduction to the discipline and scope of Western thought from antiquity to the present focusing on women as the subject rather than men. The objective of the course is to provide an understanding and critical appreciation of seminal texts by and about women through readings, class discussion and written assignments. Course Attributes: Literary & Artistic Stds Crse

WGSS 250 - Media Representations of Women, Men, and Sexuality

Credits: 3. Offered autumn in even-numbered years. This course is designed as a survey introduction to a variety of issues related to gender and sexuality in the mass media and pop culture. The goal of the course is to familiarize students with the breadth of these issues while at the same time providing them tools to critically analyze and engage with modern media. The course focuses largely on mass mediated forms such as television, film, music, sports, news, advertising and new media. An underlying understanding within the course is a recognition of the inextricable interconnections between gender, race, ethnicity, class, sexual orientation and so forth. Therefore, the course is invested in exploring the ways in which differences in identity produce different mediated representations and experiences of media. The course is comprised of class discussions based on readings, class presentations, and viewing and interpreting various mediated texts and documentaries. The course readings are both practical and theoretical, and while many of them focus on specific case studies, they are intended to provoke thoughtfulness in each student such that it can be applied to a variety of media.

WGSS 263S - Social and Political Perspectives on Women, Men, and Sexuality

Credits: 3. Offered autumn. Broad overview of gender and women's issues from a social science perspective. Relevant topics related to the sociological and psychological aspects of gender across culture are explored, including masculinity, femininity, violence, reproductive health, cultural diversity in the expression of gender, issues in sexual orientation, and media contributions to these issues. Course Attributes: Social Sciences Course

WGSS 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

WGSS 294 - Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. A review and discussion of current research. Topics vary.

WGSS 363 - Feminist Theory and Methods

Credits: 3. Offered spring. In-depth exposure to feminist views and critique of the ethics and methods of scientific, social, and literary inquiry. Includes exposure to primary sources and current societal and global issues and movements, research finding, and literature exemplifying these methods of inquiry and the gendered dimensions of such inquiry. Course Attributes: Writing Course-Advanced

WGSS 390 - Undergraduate Research

Credits: 1 TO 6. (R-6) Offered intermittently. Directed individual research and study appropriate to the back ground and objectives of the student. Course Attributes: Research & Creative Schlrshp

WGSS 391 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

WGSS 392 - Independent Study

Credits: 1 TO 12. (R-12) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

WGSS 398 - Coop Education/Internship

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of director. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Course Attributes: Internships/Practicums

WGSS 463 - WGS Capstone

Credits: 2. Offered spring. Prereq., WGS 119H, WGS 263S, WS 275S. Capstone course for the Women's and Gender Studies minor.

WGSS 490 - Undergraduate Research

Credits: 1 TO 6. (R-6) Offered intermittently. Directed individual research and study appropriate to the background and objectives of the student. Course Attributes: Research & Creative Scholarship

WGSS 491 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

WGSS 492 - Independent Study

Credits: 1 TO 9. (R-9) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

WGSS 595 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums

WGSS 596 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Level: Graduate Course Attributes: Service Learning/Volunteer

WGSS 598 - Internship

Credits: 1 TO 6. (R-6) Offered by special arrangement. Prereq., consent of department. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Level: Graduate Course Attributes: Internships/Practicums

School of Journalism

Larry Abramson, Dean

Ray Ekness, Chair, Department of Radio-Television

Dennis Swibold, Chair, Department of Print and Photo Journalism

Courses in the School of Journalism examine the news media emphasizing their history, privileges and responsibilities and provide instruction in skills required for careers with newspapers, radio and television stations, magazines, websites, print and online news services and related agencies. The School of Journalism offers a Bachelor of Arts in Journalism and a Bachelor of Arts in Radio-Television Production. It also offers a Minor in Journalism. Students select courses in writing, reporting, producing, directing, editing and still and video photography. They train to work across multiple platforms including online, audio, video, newspaper and magazine. A quality education in journalism is built on a strong liberal arts foundation. Students at the pre-professional level are required to take courses outside journalism, including courses in Political Science, Business and History. They must complete the University's general education requirements as well.

For further information about the school's Master's of Arts program in Environmental and Natural Resource Journalism, contact the Director of Graduate Studies in Journalism, Henriette Löwisch, School of Journalism, University of Montana, Missoula, MT 59812, or (406) 243-2227.

Pre-Professional Program

In the first three or four semesters of study students are enrolled in pre-journalism and take courses in the major and in the liberal arts and sciences. Journalism courses in the pre-professional curriculum must be taken at University of Montana-Missoula, though the department chairs may occasionally accept substitutes taught at another schools with programs accredited by the Accrediting Council for Education in Journalism and Mass Communications. All non-journalism courses in the curriculum may be completed at any college or university if transfer credits are accepted by UM. Students may enter the pre-professional program during either autumn or spring semester but must declare their intent to major in order to be allowed into journalism courses.

Professional Program

Students may apply for admission to the professional program in Journalism once they have successfully completed the pre-professional curriculum. Applications are accepted in autumn and spring. Deadlines for applications are October 1 and March 1.

Students may apply for admission to the professional program in either semester, but they must have completed at least 45 credits before applying. In addition, applicants must have either completed all courses listed in the pre-professional curriculum or be taking the courses needed to complete the requirements during the semester in which they apply.

An overall grade point average of 2.5, and a GPA of at least 2.5 in the journalism core courses, is required of applicants.

Completed applications are evaluated by the School of Journalism department chairs and acceptances are made by the dean based on the chair's recommendations. The primary admissions criteria are grade point averages, both overall and in the pre-professional program, and progress in completing the pre-professional curriculum. Successful applicants will have demonstrated, among other qualities, promise and professional aptitude through the quality of their course work and their overall performance in the pre-professional program, and will have demonstrated an interest in pursuing a career in journalism. Students with deficiencies in these requirements may on occasion be admitted provisionally. Once deficiencies are removed the student will be given full admission status.

Applications for admission to the professional programs may be obtained online at the School's website. A \$15 nonrefundable application fee and transcripts of all academic work must accompany the application. Admission for one academic year cannot be deferred to another academic year without the written consent of the academic chair of the student's department.

Students transferring from other ACEJMC-accredited programs may be admitted on a space available basis. Transfer credit for pre-professional and professional courses taken at other institutions is accepted only for those courses that are deemed equivalent and in which a letter grade of C or better is obtained.

Academic Progression

The general University academic standing requirements are listed separately in this catalog. See index.

Students enrolled in the professional journalism program must maintain satisfactory academic progress. Admission to the professional program requires a cumulative grade average of 2.5 and a pre-journalism course average of 2.5. Any student who has been admitted and whose grade average subsequently falls below a 2.5 must meet with his or her adviser to discuss the student's progress before classes resume the following semester. A student in the professional program who has a cumulative or professional grade point average less than 2.0 will be suspended from the program.

A student dismissed from the program for substandard performance will not be readmitted, except in cases where substantiation is made to the faculty, by written petition, that the substandard performance was the result of circumstances that no longer exist, or that the student has demonstrated the capability and desire to perform satisfactory work since dismissal from the program.

A student leaving the journalism professional program for any reason, whether in good standing or on academic suspension, must reapply for admission.

School of Journalism Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Journalism**

Total Credits: 37 Cumulative GPA Required: 2.5

Lower Division Core

Category Name: Pre-Journalism Courses

Rule: 2.5 overall GPA and 2.5 GPA in pre-journalism core.

Criterion: C- Number of Credits 38

Course Descriptions

Journalism

JRNL 100H - Media History and Literacy

Credits: 3. Offered autumn. A survey of the history, development and role of the media in society, including newspapers, magazines, radio, television, books, movies, recordings and the World Wide Web. The course examines ethical, political, financial and other issues related to mass media. Also included is an introduction to media literacy and critical thinking about the media and their messages. Course Attributes: Historical & Cultural Course American and European

JRNL 102Y - News Literacy

Credits: 3. Offered spring. The course will teach students to become discriminating news consumers, helping them recognize the difference between news and propaganda, news and opinion, bias and fairness, assertion and verification, and evidence and inference in news reports. It will cover the foundation of news dissemination from its earliest manifestations through the accelerating news revolution of the present. Course Attributes: American and European

JRNL 105X - Global Current Events

Credits: 3. Offered autumn and spring. Survey of global news intended to make students familiar with the context and vocabulary necessary to understand the news, what makes it, and the implications that stem from it. Course Attributes: Indigenous and Global

JRNL 140A - Intro Radio/Audio Storytelling

Credits: 3. Offered intermittently. Introduction to the fundamentals of audio storytelling. Students will learn creative skills through experimentation with the use of sounds, interviews and voice description. Course Attributes: Expressive Arts Course

JRNL 170 - Elements of News Writing

Credits: 3. Offered Fall and Spring. Prereq. or Co-req., grade of C- or better in WRIT 101. Foundational course in the elements of news writing, with a focus on the style and conventions of writing for print, online and broadcast media.

JRNL 201 - Diversity in Media

Credits: 3. Offered autumn. Examination of how the news media portray different ethnic groups and other diverse populations and how the media's portrayals of diverse groups affect journalists' personal views and professional practices. Students will learn how to portray more accurately and fairly individuals, groups and points of view outside society's mainstream.

JRNL 257 - Beginning Visual Journalism

Credits: 3. Offered autumn and spring. This course provides an introduction to photo and video journalism using digital cameras. Students will learn the basics of editing still images with Photoshop and video with Final Cut Pro. Students will learn how to take compelling, content-driven photographs using light, composition and depth of field. Students will also learn about capturing quality video, audio and natural sound used to build video sequences. The overall emphasis is on visual storytelling.

JRNL 260 - Sports Journalism

Credits: 3. Offered intermittently. Prereq., JRNL 270. Study and practice of sports journalism in print and broadcast, including its history and its finest examples.

JRNL 270 - Reporting

Credits: 3. Offered autumn and spring. Prereq., JRNL 170. Fundamentals of interviewing, reporting, writing and audio editing of news stories for print, online and broadcast media. Course Attributes: Internships/Practicums Journ/R-TV graduation limit 40 Writing Course-Intermediate

JRNL 295 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Internships/Practicums Journ/R-TV graduation limit 40

JRNL 300 - First Amendment and Journalism Law

Credits: 3. Offered spring. Prereq., JRNL 270 and admission to professional program, or consent of instr. Overview of issues related to journalism and the law. Exploration of libel, privacy, prior restraints, access and other First Amendment questions along with ethical problems peculiar to media news gathering. Course Attributes: Journ/R-TV graduation limit 40

JRNL 328 - Intermediate Photojournalism

Credits: 3. Offered autumn and spring. Prereq., Must be admitted to Journalism Professional Program. Students create single photo assignments for newspapers, magazines and online publications. Students also create narrative picture stories and photo essays, one of which is produced in Final Cut Pro, and learn the basics of portable flash units. Course Attributes: Journ/R-TV graduation limit 40

JRNL 330 - News Editing

Credits: 3. Offered autumn and spring. Prereq., Must be admitted to Journalism Professional Program. Fundamentals of editing and headline writing for print and online media. Course Attributes: Journ/R-TV graduation limit 40

JRNL 331 - Intermediate Web Reporting

Credits: 3. Offered autumn and spring. Prereq., Must be admitted to Journalism Professional Program. Students learn to produce reporting for different websites and digital news sources, with a special emphasis on using digital technologies to broaden sources for stories. Course will also explore the societal, business and ethical effects these emerging technologies are having.

JRNL 340 - Intermediate Audio

Credits: 3. Offered autumn. Prereq., admission to Professional Program. Use of audio in news, interview and feature programs. Students will write, gather audio and produce segments and programs using digital audio equipment. Course Attributes: Internships/Practicums Journ/R-TV graduation limit 40 Writing Course-Advanced

JRNL 350 - Intermediate Video Photography

Credits: 3. Offered autumn. Prereq., admission to Professional Program. Digital video photography, storytelling and non-linear editing. Students will be introduced to high-definition video cameras and advanced editing techniques and build on photojournalism skills introduced in JRNL 257. Course Attributes: Internships/Practicums Journ/R-TV graduation limit 40

JRNL 351 - Intermediate Video Directing

Credits: 3. Offered spring. Prereq., JRNL 350. Students will learn the fundamentals of production and directing of studio-based programming. Students will work with those enrolled in Intermediate Video Reporting & Producing to create content. Newscasts produced in these courses are not intended for air. Course Attributes: Internships/Practicums Journ/R-TV graduation limit 40

JRNL 352 - Intermediate Video Reporting and Production

Credits: 3. Offered spring. Prereq., JRNL 350. Creation of video news stories and programs including story idea generation, research and interviewing techniques, sound selection, script writing, television anchoring and producing, video photography and editing. Works with Intermediate Video Directing class to create news programs. Course Attributes: Internships/Practicums Journ/R-TV graduation limit 40 Writing Course-Advanced

JRNL 362 - Feature Writing

Credits: 3. Offered autumn and spring. Prereq., Must be admitted to Journalism Professional Program. Classroom instruction and practical experience in applying feature-writing techniques to the coverage of news, entertainment and sports for print and electronic media. Course Attributes: Internships/Practicums Journ/R-TV graduation limit 40 Writing Course-Advanced

JRNL 370 - Public Affairs Reporting

Credits: 3. Offered autumn and spring. Prereq., Must be admitted to Journalism Professional Program. Study and practice of reporting public issues with emphases on news sources, interpretive writing and the coverage of local, state and federal governments. Course Attributes: Internships/Practicums Journ/R-TV graduation limit 40 Writing Course-Advanced

JRNL 396 - Adv Journ Problems

Credits: 1 TO 6. (R-6) Offered every term. Prereq., consent of instr. Independent study. Course Attributes: Service Learning/Volunteer Journ/R-TV graduation limit 40

JRNL 400 - Ethics & Trends in News Media

Credits: 3. Offered autumn and spring. Prereq., senior standing in journalism or radio-television. Practical ethics case studies from print, online and broadcast media, as well as an examination of the trends that are shaping the evolving news media. Course Attributes: Research & Creative Schlrshp Journ/R-TV graduation limit 40

JRNL 410 - Native News Honors Project

Credits: 1 TO 3. (R-6) Offered spring. Prereq., consent of instr. Researching, photographing and designing stories about Montana's Native American community. Photojournalism students travel with reporters to Montana's seven Indian reservations to document in- depth stories on a single topic. Course Attributes: Research & Creative Schlrshp Journ/R-TV graduation limit 40

JRNL 411 - Reporting Native News

Credits: 1 TO 6. (R-6) Offered spring. Prereq., consent of instr. Researching, reporting and editing stories about Montana's Native American community. Reporters travel to Montana's seven Indian reservations to investigate in depth a single story topic. Editors coach reporters and edit their stories. The stories appear in a publication distributed throughout the state and nation. Course Attributes: Research & Creative Schlrshp Journ/R-TV graduation limit 40

JRNL 412 - Montana Journalism Review

Credits: 1 TO 6. (R-6) Offered spring. Prereq., consent of instr. Students assist writing, editing, design and overall production and distribution of the Montana Journalism Review, a publication of the School of Journalism. Course Attributes: Research & Creative Schlrshp Journ/R-TV graduation limit 40

JRNL 414 - Investigations

Credits: 3. Offered autumn. Prereq., JRNL 370 for print students, JRNL 352 for broadcast students. Introduction to methods and ethics of investigative reporting, emphasizing computer-assisted research and analysis of public records and databases. Course Attributes: Journ/R-TV graduation limit 40

JRNL 427 - Advanced Photo & Multimedia Storytelling

Credits: 3. Offered spring. Prereq., JRNL 328 and admission into Professional Program. Students discuss, research, photograph, design, write and produce several documentary-style stories and essays using still photography, video, audio, text and graphics. Course Attributes: Journ/R-TV graduation limit 40

JRNL 428 - Freelance Photography

Credits: 3. Offered autumn and spring. Prereq., JRNL 328 and admission into Professional Program. A workshop-style class that centers on the technical aspects of digital still and video camera lighting for freelance photography. Includes instruction in basic business practices for freelance work. Students produce weekly assignments including editorial and adventure portraiture, food illustrations, magazine fashion projects and travel stories. Business and marketing practices will include copyright, branding, usage, pricing, licensing and negotiation. Students must provide a professional still digital SLR with lenses and a portable strobe. Course Attributes: Internships/Practicums

JRNL 429 - Documentary Photojournalism

Credits: 3. Offered autumn. Prereq., JRNL 417 or consent of instr. Production of an in-depth documentary project involving a social issue with intent to educate, inform and implement change. Students write, shoot and design final project in book form or produce a multimedia project using stills, video, audio and text. Course Attributes: Journ/R-TV graduation limit 40

JRNL 430 - Print & Web Editing & Design

Credits: 3. Offered spring. Prereq., JRNL 380 or consent of instr. Introduction to basic design principles, typography, color theory and usage, headline and caption writing. Discussion of the newest research on how readers use print and online publications. Students will design newsletter, brochure, newspaper, magazine and websites, plus other publications.

JRNL 431 - Online Journalism

Credits: 3. Offered autumn and spring. Prereq., admission to the professional program or consent of instr. Course introduces students to the basics of website design and organization, explores how the Internet can be used to

generate sources for stories and directs students in using multimedia reporting techniques for a web-based news site. Course Attributes: Internships/Practicums Journ/R-TV graduation limit 40

JRNL 433 - Marketing Your Work

Credits: 2. Offered spring. Prereq., admission to the professional program. This course aims to help upper-division students find buyers for their journalistic work in today's rapidly changing information marketplace. Students will study how to identify news markets, how to establish and maintain relationships with editors, producers and publishers; and how to maintain control of their work while maximizing its value.

JRNL 440 - Advanced Audio

Credits: 3. Offered spring. Prereq., JRNL 340 or consent of instr. Students will create long-form, in-depth audio programs such as radio documentaries and radio deliberation programming on a variety of topics. Students will report, interview, host, and write the programs for a variety of outlets such as radio stations, webcasting and online.

Course Attributes: Internships/Practicums

JRNL 470 - Covering Elections

Credits: 3. Offered autumn of even-numbered years. Prereq., JRNL 370 or consent of instr. Students will produce coverage of Montana elections for newspapers, broadcast stations and the web. Course Attributes:

Internships/Practicums

JRNL 471 - Covering the Legislature

Credits: 3. Offered spring of odd-numbered years. Prereq., JRNL 370 or consent of instr. Students will produce coverage of Montana's biennial legislative sessions for newspapers, broadcast stations and the web. Course

Attributes: Montana Field Experience

JRNL 472 - Opinion Writing

Credits: 3. Offered intermittently. Prereq., JRNL 370 or consent of instr. Practice in writing editorials, columns, op-eds, and opinion blogs. Examines the evolving role of journalism in moderating and stimulating public discourse.

Course Attributes: Internships/Practicums Journ/R-TV graduation limit 40 Writing Course-Upper-Division

JRNL 473 - International Reporting

Credits: 3. Offered intermittently. Prereq., admission to the professional program or consent of instr. Prepares students to report internationally and to develop global sources for local stories. History and practice of foreign correspondence. Course Attributes: Journ/R-TV graduation limit 40

JRNL 480 - Advanced Video Reporting

Credits: 3. Offered autumn. Prereq., JRNL 352. Teams will create three to five minute television weekly news updates available online and broadcast on commercial stations in Montana. Students will fill all positions needed to produce the updates including reporters, producers and anchors, in tandem with students in JRNL 450, 650. Course Attributes: Internships/Practicums Journ/R-TV graduation limit 40

JRNL 481 - Adv Video Photo and Directing

Credits: 3. Offered autumn. Prereq., JRNL 351 or consent of instr. Teams will create three to five minute weekly news updates to be broadcast online and on commercial stations in Montana. Students will fill all positions needed to produce the updates including photographers, editors and directors. Course Attributes: Journ/R-TV graduation limit 40

JRNL 482 - Advanced Video Storytelling

Credits: 3. Offered autumn. Prereq., JRNL 350 or consent of instr. Teams will generate story ideas about Montana issues, businesses and people. Students will research, write, photograph, interview, edit and create long-form video programs. The programs generated in this course are intended for air on Montana PBS Course Attributes: Research & Creative Schlrshp

JRNL 485 - Griz TV

Credits: 3. Offered spring. Prereq., JRNL 480 or 481. Techniques and strategies for directing, reporting, and producing a 30 minute live newscast. Students will also produce a weekly online newscast. Course Attributes: Journ/R-TV graduation limit 40

JRNL 488 - Student Documentary Unit

Credits: 3. Offered spring. Prereq., JRNL 351 or 352 or consent of instructor. In-depth examination of a topic of importance in Montana. Students will produce a one-hour television documentary to air on MontanaPBS and other outlets. Students will research, report, write, photograph, edit and promote the film. Co-convenes with JRNL 688. Course Attributes: Research & Creative Schlrshp Co-Convened Course Journ/R-TV graduation limit 40

JRNL 491 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Journ/R-TV graduation limit 40

JRNL 494 - Pollner Seminar

Credits: 3 TO 6. (R-6) Offered autumn and spring. Prereq., consent of instructor or print and photo department chair. Seminar on a topic selected by the T. Anthony Pollner Distinguished Professor. Topics will range from journalism history, ethics, practices and performance to current issues in the news media. Course Attributes: Journ/R-TV graduation limit 40

JRNL 505 - Journ and Society Sem

Credits: 3. Offered autumn. Prereq., graduate standing. Discussion and research about current journalism issues related to environmental science and natural resource journalism. Study of relevant traditional and online research methodology. Level: Graduate Course Attributes: Journ/R-TV graduation limit 40

JRNL 551 - Graduate Newscast Prod

Credits: 3. Offered spring. Prereq., JRNL 482 or consent of instructor. Intensive instruction and practice in reporting, writing, producing, directing and delivering television newscasts. Work on a special program for Montana PBS. Level: Graduate Course Attributes: Journ/R-TV graduation limit 40

JRNL 567 - Pres/Broadcast Law

Credits: 3. Offered spring. Prereq., graduate standing. Examination and discussion of state and federal court cases affecting the mass media, with emphasis on First Amendment issues. Level: Graduate Course Attributes: Journ/R-TV graduation limit 40

JRNL 570 - Reporting

Credits: 3. Offered autumn. Prereq., graduate standing. Principles of news gathering through records, documents, meetings, observation of events, and interviewing with a focus on coverage of environmental science and natural resources. Producing news and feature accounts for broadcast, print and digital media. Perspectives on reporting standards and practices especially related to natural resource news. Level: Graduate Course Attributes: Journ/R-TV graduation limit 40

JRNL 575 - Story Lab

Credits: 3. Offered spring. Prereq., graduate standing. Journalism students are paired with UM researchers for a practicum on telling the stories of scientific research for a general news audience. Level: Graduate Course Attributes: Journ/R-TV graduation limit 40

JRNL 580 - News Editing

Credits: 3. Offered autumn. Prereq., JRNL 570 or consent of instr. Fundamentals of copy editing and story editing for the print news media. In addition, students perform deadline editing on actual news stories for publication. Level: Graduate Course Attributes: Journ/R-TV graduation limit 40

JRNL 590 - Meth Journ Research

Credits: 3. Prereq., consent of the graduate program director. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate Course Attributes: Research & Creative Schlrshp Journ/R-TV graduation limit 40

JRNL 591 - Special Topics

Credits: 1 TO 8. (R-8) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Journ/R-TV graduation limit 40

JRNL 594 - Seminar

Credits: 1 TO 9. (R-9) Offered intermittently. A review and discussion of current research. Topics vary. Level: Graduate Course Attributes: Journ/R-TV graduation limit 40

JRNL 599 - Professional Project

Credits: 1 TO 6. (R-6) Offered every term. Planning, research and execution of a major project in print, photographic or broadcast journalism. Level: Graduate Course Attributes: Journ/R-TV graduation limit 40

JRNL 620 - Covering NA Issues

Credits: 3. Offered spring. Prereq., consent of instr. Researching, writing, photographing and/or editing in-depth special reports on issues that affect the Indians who reside within Montana's borders. Co-convening course JOUR 420/421. Level: Graduate Course Attributes: Journ/R-TV graduation limit 40

JRNL 640 - Montana Journalism Review

Credits: 1 TO 3. (R-6). Offered spring. Prereq., consent of instr. Intensive laboratory experience in all phases of magazine publication, including writing, editing, layout, design, production and distribution of Montana Journalism Review, an annual publication of the School of Journalism. Co-convenes with U 440. Level: Graduate Course Attributes: Research & Creative Schlrshp Journ/R-TV graduation limit 40

JRNL 650 - Gr Bcst Newsroom-Editorial

Credits: 3. (R-6) Prereq., R-TV 550, JRNL 551 or consent of instr. Students direct, photograph and edit a daily Newsbrief report for Montana PBS, and a weekly UMNews program for commercial stations, in tandem with students in R-TV 450, 460 and 650. Credits: 1 TO 3. (R-3) Offered every term. Prereq., JRNL 570. Practical experience working for news media and other approved businesses, agencies or organizations focused on natural resource issues, industries or scientific research. Level: Graduate Course Attributes: Internships/Practicums Journ/R-TV graduation limit 40

JRNL 699 - Thesis

Credits: 1 TO 6. (R-6) Offered every term. Research and writing of master's thesis. Level: Graduate Course Attributes: Journ/R-TV graduation limit 40

School of Law

Irma S. Russell, Dean

Andrew King-Ries, Associate Dean

The Law School is accredited by the American Bar Association and the Association of American Law Schools, and offers the degree of Juris Doctor (J.D.). Prerequisites for admission to the Law School are a baccalaureate degree and Law School Admission Test.

For detailed information concerning the Law School's admission criteria, application procedures, facilities, and official course descriptions, consult the Law School Catalog, which may be obtained by calling (406)243-6169 or visiting the Law School [website](#).

The Law School's administrative regulations are contained in the Law School Student Handbook, which is on the website. The Law School conforms in most instances to the calendar established for the entire University. There are some differences, however, because the Law School operates on a different (and longer) semester system than the rest of the University.

Academic Year Calendar

Access the Law School Academic Calendar on the [Law School calendar web page](#).

Required Curriculum

First Year	Credits
500 Civil Procedure I	3
501 Civil Procedure II	2
502 Contracts I	3
503 Contracts II	2
504 Pretrial Advocacy I	2
505 Pretrial Advocacy II	1
506 Legal Research	2
508 Legal Analysis	1

509 Legal Writing I	3
510 Criminal Law & Proc I	2
511 Criminal Law & Proc II	3
512 Torts I	2
513 Torts II	3
Second Year	Credits
550 Property I	2
551 Property II	3
552 Federal Tax(may be taken third year)	3
554 Business Organizations	3
555 Professional Responsibility	3
556 Business Transactions	2
557 Trial Practice	2

- Alternative Dispute Resolution (Law 614, 3 credits)
- American Indian Natural Resources (Law 619, 2 credits)
- Appellate Advocacy (Law 616, 3 credits)
- Bankruptcy (Law 621, 2 credits)
- Child Advocacy (Law 670, 2 credits)
- Client Counseling Team (Law 638, 2 credits)
- Conflict of Laws (Law 653, 2 credits)
- Consumer Transactions (Law 645, 3 credits)
- Copyright Law (Law 682, 3 credits)
- Cyber Law (Law 676, 2 credits)
- Disability Law (Law 668, 2 credits)
- Elder Law (Law 620, 3 credits)
- Employment Law (Law 622, 3 credits)
- Environmental Law (Law 650, 3 credits)
- Estate Planning (Law 659, 3 credits)
- Family Law (Law 669, 3 credits)
- Family Law Mediation (Law 672, 2 credits)
- Federal Courts (Law 671, 2 credits)
- Federal Indian Law (Law 648, 3 credits)

- First Amendment Seminar (Law 675, 2 credits)
- Foundations of Natural Resources Conflict Resolution (Law 613, 3 credits)
- Gender and the Law (Law 625, 3 credits)
- Health Care Law (Law 637, 3 credits)
- Independent Study (Law 660/1, 1-2 credits)
- Insurance Law (Law 624, 3 credits)
- International Business & Trade (Law 629, 2 credits)
- Introduction to Environmental Law (Law 650, 3 credits)
- Land Use Planning (Law 687, 3 credits)
- Law & Literature (Law 607, 1 credit)
- Law & Technology (Law 693, 2 credits)
- Law Practice (Law 631, 1 credit)
- Law Reviews I, II, III, IV (Law 564/5, Law 602/3, 1-2 credits)
- Lawyers' Values (Law 630, 2 credits)
- Legal History (Law 626, 2 credits)
- Local Government (Law 646, 3 credits)
- Moot Courts (Law 666, 2 credits)
- Montana Constitutional Law (Law 618, 2 credits)
- Natural Resource Development (Law 633, 3 credits)
- Negotiations (Law 641, 2 credits)
- Negotiation Team (Law 642, 2 credits)
- Non-profit Organizations (Law 674, 2 credits)
- Patent Law (Law 627, 2 credits)
- Philosophy of Law (Law 664, 3 credits)
- Practicum in Natural Resources Conflict Resolution
- Product Liability (Law 657, 2 credits)
- Public Interest Lawyering (Law 673, 3 credits)
- Public International Law (Law 634, 3 credits)
- Public Land and Resources Law (Law 654, 3 credits)
- Public Regulation of Business (Law 632, 3 credits)
- Real Estate Transactions (Law 658, 2 credits)
- Remedies (Law 628, 3 credits)
- Sales & Leases (Law 692, 3 credits)
- Secured Transactions (Law 636, 2 credits)
- Special Topics in Criminal Law (Law 667, 2 credits)
- Taxation of Business Organizations (Law 639, 4 credits)
- Taxation of Estates & Gifts (Law 655, 3 credits)
- Taxation of Property Transactions (Law 640, 2 credits)
- Trademark Law (Law 693, 2 credits)
- Tribal Courts/Tribal Law (Law 688, 3 credits)
- Tribal/State Relations (Law 694, 2 credits)
- UCC Articles 203 (Law 609, 3 credits)
- Water Law (Law 663, 2 credits)
- White Collar Crime (Law 644, 2 credits)
- Workers' Compensation (Law 662, 3 credits)

- Samuel Panarella, Associate Professor
- Cathay Smith, Assistant Professor of Law
- Martha Williams, Assistant Professor

Adjunct Faculty

- Stephen Brown, Adjunct Professor
- Hon. Edmond Burke, Adjunct Professor
- J. Martin Burke, Professor (Retired)
- Sally Cummins, Adjunct Professor
- Jesse Dodson, Adjunct Professor
- Heidi Fanslow, Adjunct Professor
- Hon. Leslie Halligan, Adjunct Professor
- Shahid Haque-hausrath, Adjunct Professor
- Marianne Hartigan, Adjunct Professor
- Joel Henry, Professor
- Marcia Holland, Adjunct Professor
- Kelley Hubbard, Adjunct Professor
- Thomas Huff, Adjunct Professor / Professor of Philosophy, Emeritus
- Cort Jensen, Adjunct Professor
- Malin Johnson, Adjunct Professor
- Kristen Juras, Adjunct Professor

- Matthew Mckinney, Adjunct Professor
- Gregory Munro, Professor (Retired)
- Robert Phillips, Adjunct Professor
- David Rice, Adjunct Professor
- Brandi Ries, Adjunct Professor
- Klaus Sitte, Adjunct Professor
- Wilton Strickland, Adjunct Professor
- Christian Tweeten, Adjunct Professor
- Sally Weaver, Adjunct Professor
- Charles Willey, Adjunct Professor

Maureen and Mike Mansfield Center

Abraham Kim, Director

The Maureen and Mike Mansfield Center was established in 1986 to pay tribute to Maureen and Mike Mansfield and to recognize their important contributions to U.S. Asian relations and public policy. The Center is an academic unit within the University of Montana and receives core funding from an endowment managed by the Maureen and Mike Mansfield Foundation. Mansfield Center faculty offer classroom instruction, conduct research, provide training for Asian and U.S. government personnel, and organize various types of conferences, all with a focus on East Asia. The Center faculty collaborate with the University's Asian Studies Program and several other campus units.

The Mansfield Center's Ethics and Public Affairs Program (formerly known as the Center for Ethics) focuses upon the relationship of values to public institutions and affairs. Its courses, seminars, lectures, conferences, and internships examine the role that ethical values can and should play in public life, moral quandaries faced by those who govern philosophical and practical dimensions of political ethics, and issues of leadership and character in public service.

College Humanities & Sciences Catalog Year: 20152016

Degree Type: Bachelor of Arts Level: Major Subject: **East Asian Studies**

Total Credits: 44 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Lower Division Core Courses

Rule: Complete the following subcategories

Course Descriptions

Mansfield Center

MANS 101 - Elementary Pashto I

Credits: 5. Offered intermittently. Prereq., students must be grant eligible. This course is an intensive six-week course teaching Pashto.

MANS 102 - Elementary Pashto II

Credits: 5. Offered intermittently. Prereq., MANS 101. Students must be also grant eligible. This course is an intensive six-week course teaching Pashto.

MANS 107 - Elementary Korean I

Credits: 5. The Defense Critical Language and Culture Program (DCLCP) (of The University of Montana's Maureen and Mike Mansfield Center) provides intensive language and culture training for members of the National Guard, Reserve, and Active Duty utilizing a congressionally funded Language Training Center (LTC) contract through the Department of Defense Language and National Security Education Office (DLNSEO)—Grant title: Subaward 2013-LTC-Montana (H98210-13-2-0001). This DCLCP course is designed to meet DoD (Department of Defense) total force Korean language training needs, especially members of the 1st Special Forces Group (Joint Base Lewis McChord, WA) in order to enable the DoD workforce to be better prepared and equipped with the target language, cultural and regional expertise. As a part of DoD Language Training Center, the course is open exclusively for U.S. DoD personnel who would not otherwise enroll into other UMT language course. Nonetheless, we encourage the students to pursue a degree in programs like Eastern Asian Studies, Asian Studies, or political science offered by the University of Montana.

MANS 108 - Elementary Chinese I

Credits: 5. The Defense Critical Language and Culture Program's Elementary I is an intensive 120-hour, 30 hours per week course (with 5 hours dedicated to culture and regional studies in English), equivalent to 6 months of college language courses. The course is for Special Forces military students who have previous language training in Chinese language, yet whose skills may have eroded somewhat due to insufficient practice. Students are admitted

into the elementary Chinese-Mandarin class if they currently perform at either 0 or 0+ on the Interagency Language Roundtable (ILR) scale. In class, the target language is used exclusively when teaching the language, with no English permitted (unless in a case of an emergency when the Chinese word is unknown). Standard Chinese or Modern Standard Chinese (MSC), also known as Mandarin, Putonghua and Guoyu is the official language of the People's Republic of China, the Republic of China (Taiwan) and one of the four official languages of Singapore. Due to the complexities of this language, the Defense Language Institute categorized MSC as Category IV language, one of the toughest languages to learn for non-native speakers. The majority of the class will be conducted via Video Tele Conferencing (VTC); the remaining portion of the class will be in residence. In order to create communicative and task-based and skill-integration activities in improving students' overall language proficiency level, additional tutoring, counseling and coaching will also be conducted.

MANS 201 - Intermediate Pashto I

Credits: 4. Offered intermittently. Prereq., MANS 101 and MANS 102. Students must also be grant eligible. This course is an intensive five-week course teaching Pashto.

MANS 202 - Intermediate Pashto II

Credits: 4. Offered intermittently. Prereq., MANS 101, MANS 102 and MANS 201. Students must also be grant eligible. This course is an intensive five-week course teaching Pashto.

MANS 207 - Intermediate Korean I

Credits: 5. The Defense Critical Language and Culture Program (DCLCP) (of The University of Montana's Maureen and Mike Mansfield Center) provides intensive language and culture training for members of the National Guard, Reserve, and Active Duty utilizing a congressionally funded Language Training Center (LTC) contract through the Department of Defense Language and National Security Education Office (DLNSEO)—Grant title: Subaward 2013-LTC-Montana (H98210-13-2-0001). This DCLCP course is designed to meet DoD (Department of Defense) total force Korean language training needs, especially members of the 1st Special Forces Group (Joint Base Lewis McChord, WA) in order to enable the DoD workforce to be better prepared and equipped with the target language, cultural and regional expertise. As a part of DoD Language Training Center, the course is open exclusively for U.S. DoD personnel who would not otherwise enroll into other UMT language course. Nonetheless, we encourage the students to pursue a degree in programs like Eastern Asian Studies, Asian Studies, or political science offered by the University of Montana.

MANS 208 - Intermediate Chinese I

Credits: 5. Nonetheless, we encourage the students to pursue a degree in programs like Eastern Asian Studies, Asian Studies, or Political Science offered by the University of Montana.

MANS 308 - Advanced Chinese I

Credits: 5. The Defense Critical Language and Culture Program's Advanced I is an intensive 120-hour, 30 hours per week (with 5 hours dedicated to culture and regional studies in the target language), equivalent to 6 months of college language courses. The course is for Special Forces military students who have previous language training in Chinese language, yet whose skills may have eroded somewhat due to insufficient practice. Students are admitted into the advanced Chinese-Mandarin class if they currently perform at either 2 or 2+ on the Interagency Language Roundtable (ILR) scale. In class, the target language is used exclusively, with no English permitted (unless in a case of an emergency when the Chinese word is unknown). Standard Chinese or Modern Standard Chinese (MSC), also known as Mandarin, Putonghua and Guoyu is the official language of the People's Republic of China, the Republic of China (Taiwan) and one of the four official languages of Singapore. Due to the complexities of this language, the Defense Language Institute categorized MSC as Category IV language, one of the toughest languages to learn for non-native speakers. The majority of the class will be conducted via Video Tele Conferencing (VTC); the remaining portion of the class will be in residence. In order to create communicative and task-based and skill-integration activities in improving students' overall language proficiency level, additional tutoring, counseling and coaching will also be conducted.

MANS 395 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

MANS 396 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently.

MANS 494 - Mansfield Center Seminar

Credits: 1 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. A review and discussion of current research. Topics vary.

MANS 495 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

MANS 496 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

MANS 595 - Special Topics

Credits: 1 TO 12. (R-12) Offered intermittently. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

The Maureen and Mike Mansfield Library

Shali Zhang, Dean of Libraries

The Maureen and Mike Mansfield Library at the University of Montana provides an array of information resources and services in support of the curricular and research programs of the University. These resources include traditional library collections and electronic access to networked research databases, e-journal packages, electronic journal subscriptions, media materials, and a web-based integrated library catalog. Library services include in-depth research and reference assistance, an extensive instruction program integrated into the university curriculum, and full-service computing and copying facilities. Extensive services for distance education students and faculty are available to provide an equitable educational experience.

The Maureen and Mike Mansfield Library comprises the heart of UM's library system. Collections exceed 1.75 million bound volumes, more than 218,000 electronic books, access to over 67,000 print and electronic journals, an expanding array of electronic databases, over 73,000 media, a federal government depository collection and an Archives and Special Collections. These collections are supplemented by an active interlibrary loan service through which the resources of other libraries are made available to students and faculty. The Mansfield Library is open seven days a week for 111 hours per week during the academic semester.

Over 130 computers available for student use and wireless access throughout the building provides fast and stable internet connectivity in support of access to electronic resources and access to other networked information. Three state-of-the-art classrooms underscore the goal of the Library as a learning library in which students learn how to access and evaluate information in support of their advancing academic careers. Study carrels, group study rooms, study tables, and soft seating on all floors of the library provide a variety of study environments.

The Mansfield Library at Missoula College UM (located on the East Campus) supports its curricular programs. Students and faculty at both campuses have access to all library resources and services. Students at Bitterroot College UM, in Hamilton, also have full access to the Mansfield Library resources and services. The library collections at the affiliated UM campuses are located in Butte at Montana Tech, and Highlands College of Montana Tech; in Dillon at The Carson Library of the University of Montana-Western; and in Helena at Helena College the University of Montana.

MISSION

The Mission of Missoula College is to create a comprehensive, accessible, student-centered learning environment that fosters individual growth, facilitates workforce development, and provides a foundation for advanced academic achievement.

Vision of Excellence

We envision a future where Missoula College is recognized as a model of excellence for two-year education in Montana, empowering students to succeed in higher education and continuing to serve the needs of the community and workforce. We elevate the awareness of two-year education as a result of our high retention, graduation and

placement rates. Through this demonstration of excellence, more students will enroll in two-year colleges, more businesses and industries will partner with two-year schools, and the state will receive the benefits of a more educated citizenry/workforce.

The Missoula College offers programs and services on four campuses: the East Campus at 909 South Avenue West, the West Campus at 3639 South Avenue West, Mountain Campus at 32 Campus Drive, and the Bitterroot College in Hamilton. The student support offices including Enrollment Services, Disability Services for Students, Financial Aid, Registrar, Career Services, Educational Opportunity (EOC), Outreach Programming Office, Academic Advising, and administrative offices are located at the East Campus. All business technology programs, applied computing and engineering technology programs, culinary arts programs, health professions programs, as well as a branch of the Mansfield Library, The Bookstore at the Missoula College, and a dining room are located on the East Campus. All industrial technology programs are located on the West Campus.

Students may attend courses at four campus sites and online. Courses are scheduled at a variety of times between 7 a.m. and 10 p.m., Monday through Saturday. The Missoula College Dean's Office, department chairs and/or program directors may be contacted for specific program and scheduling information.

Bachelor of Applied Science Degree Program

A Bachelor of Applied Science (B.A.S.) degree is offered by the University of Montana - Missoula in collaboration with the Missoula College. The initial contact for information and degree planning for the B.A.S. degree is the Missoula College Academic Advising Center. This degree program is available for students who have completed an Associate of Applied Science degrees from accredited institutions and who wish to continue toward completing a baccalaureate degree. For more information, see the Bachelor of Applied Science section of the catalog.

Associate of Applied Science and Certificate of Applied Science Programs

The Associate of Applied Science (A.A.S.) and Certificate of Applied Science (C.A.S.) programs are designed to prepare an individual for employment in a specific career or career pathway. In some instances, particularly in Health Professions, the degree or certificate is a prerequisite for taking a licensing examination. The A.A.S. degree is not typically considered a transfer degree, although opportunities do exist at the University of Montana and some other baccalaureate degree-granting institutions for continuing in programs such as the University's Bachelor of Applied Science degree program.

The College's Surgical Technology and Respiratory Care programs are reviewed by their respective Joint Review Committees and accredited by the Commission on Accreditation of Allied Health Education Programs. The Food Service Management program is accredited by the American Culinary Federation Educational Institute Accrediting Commission, the Paralegal Studies program is approved by the American Bar Association, and the Nursing programs are approved by the Montana Board of Nursing and Accredited by Accreditation Commission for Education in Nursing (ACEN). The Pharmacy Technology Program is accredited by American Society of Health System Pharmacists/Accreditation Council for Pharmacy Education (ASHP/ACPE).

Associate of Arts Degree Program

The Associate of Arts degree is a general education transfer degree and does not officially include a major or minor course of study but students may focus on specific areas of emphasis in order to satisfy the degree requirements. To receive an Associate of Arts (AA) degree, students must successfully complete all the general education requirements as described by Montana Board of Regents policy 301.10 Appendix 1. The minimum grade point average for the 60 credits required for the A.A. is 2.0. At least 30 of the 60 required credits must be earned at UM, through either Missoula College or University of Montana-Missoula.

Credit Applicable Toward Associate of Arts and Baccalaureate Degrees

Students may count up to 15 technical course credits towards the A.A. and baccalaureate degrees (except the B.A.S.; see the B.A.S. section of the catalog for more information). UP to 20 technical course credits may count if the student has previously earned an A.A.S. degree. Refer to the section on Technical Courses and Credit Maximums in this catalog for additional information. Students should visit with their advisor for more information.

Academic Support Services

Services designed to increase the success of students enrolled at Missoula College are available at the College. Such services include the Academic Advising Center, tutoring and computer-based academic learning tools in the Academic Support Center, study skills workshops, basic skills developmental courses, access to Disability Services for Students, academic and financial aid reinstatement and follow-up assistance, individual student retention services, and other learning support activities.

Applied Arts and Sciences Department

Josef Crepeau, Chair

The Department of Applied Arts and Sciences provides instruction in five disciplines: communication, mathematics, behavioral science and psychology, science, and writing. Many courses from these disciplines count towards the general education requirements for the Associate of Arts (AA) degree and frequently are programmatic requirements for Associate of Applied Science (AAS) degrees.

College Humanities & Sciences Catalog Year: 20152016

Degree Type: Bachelor of Applied Science Level: Major Subject: **Applied Science**

Total Credits: 127 Cumulative GPA Required: 2.0

The Bachelor of Applied Science (B.A.S.) degree at the University of Montana (UM) is designed for individuals who have completed an Associate of Applied Science (AAS) degree with a 2.50 grade point average at a regionally accredited institution. (The Missoula College section of the University of Montana-Missoula catalog identifies Associate of Applied Science degree programs offered at The University of Montana.) Individuals pursuing the

B.A.S. are those who are seeking additional education to strengthen their planned or previous training and improve career advancement opportunities.

As part of the B.A.S. curriculum, students must develop a degree plan tailored to their academic and professional goals. Due to the nature of the B.A.S., many plans are interdisciplinary in nature (i.e. consist of courses from multiple disciplines). Students initially meet with a B.A.S. advisor at Missoula College for assistance in developing their degree plan curriculum. After drafting their plan, students create a degree plan committee that consists of faculty members from disciplines represented in the plan. This committee provides final approval of the plan.

Bachelor of Applied Science students must meet all the University of Montana requirements for graduation. Up to 50 technical credits from an accredited A.A.S. program will count toward the 127 total credits required for graduation. Any courses taken as part of the A.A.S. that can count towards UM General Education Requirements (e.g. certain writing, psychology, math, and communication courses) are not considered technical and, hence, are not included in this 50 technical credit maximum.

It is important to understand that the B.A.S. degree does not identify a specific discipline major. Even though some plans may consist of courses from one sole discipline, the student is NOT a major in that discipline. Hence, the B.A.S. student's transcript and diploma will not indicate a specific major or concentration area.

Although students submit their application for admission to and are initially advised through Missoula College, B.A.S. students are enrolled through the mountain campus and, as such, are assessed UM-Missoula tuition rates. Students interested in pursuing the B.A.S. degree should review the Missoula College Academic Advising Center's B.A.S. webpage for informational resources and to learn how to request an initial advising appointment.

Commentary: Prerequisites apply for all courses listed above; some courses from this list are major-restricted. Other baccalaureate major-specific Symbolic Systems may be used in lieu of course list above; speak with your advisor for more information.

Subcategory Name: Foreign Language

Rule: Successful completion of first-year sequence of a Modern and Classical Language (MCLL). Criterion: C-

Number of Credits 3-10

Course Listing

Commentary: A first-year sequence consists of 101 & 102 courses (5 credits each) for all MCLL majors except Irish; 101, 102, & 103 courses of Irish (3 credits each) must be completed. Students may take placement test to demonstrate proficiency to receive non-credit exemption from this requirement. Speak with your advisor for more information.

Other Courses

Category Name: AA Degree Electives

Rule: Number of elective credits required varies; student needs to ensure s/he earns at least 60 total credits for the AA degree. Criterion: Number of Credits 13-27

Course Listing

Commentary: Transfer students may count up to 30 transfer credits towards the total 60 necessary for degree. A maximum of 15 technical credits may be counted towards the total 60. (A student may use 20 technical credits towards the 60 if s/he has earned an AAS degree.)

Commentary: Degree Commentary

The AA degree has three requirements: completion of UM's lower-division General Education Requirements (GERs), a minimum of 60 total earned credits, and a minimum cumulative GPA of 2.0. At least 30 of the total 60 degree credits must be earned from Missoula College or UM-Missoula. Missoula College students are limited to enrolling in lower-division coursework (course level 100 or 200).

Up to 15 technical credits may be counted towards the total 60 required for the AA. If the student has previously earned an AAS degree, the student may use up to 20 technical credits.

Course Descriptions

Applied Arts and Sciences

AASC 100 - Intro to University Experience

Credits: 3. This course is designed to help new students make a successful transition to college and acquire the skills needed to become competent and successful in higher education. Topics include an introduction to campus resources and academic policies; motivation and time management; study skills and learning strategies; critical thinking and problem solving; ethics, diversity and collaboration; information literacy and research. The course culminates with a semester capstone project. Elective credit only. Credit not allowed for both AASC 100 and AASC 101.

AASC 101 - Study & Learning Strategy

Credits: 2. This course facilitates the development of skills needed to become competent and successful in higher education. Topics include management of classroom performance, time, and money; memory, listening and note-taking; reading and test-taking strategies; critical thinking and problem-solving; information literacy and research; ethics and diversity; stress management and healthy choices. Elective credit only. Credit not allowed for both AASC 100 and AASC 101. Course Attributes: Study Skills Course

AASC 195T - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Technical Course

AASC 196T - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Technical Course

AASC 295T - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Technical Course

Art

ARTZ 195 - Student Teaching

Credits: 1 TO 6. (R-6) Offered intermittently. Organized student teaching.

Biology-General

BIOB 295 - Student Teaching

Credits: 1 TO 6. (R-6) Offered intermittently. Organized student teaching.

Biology-Human

BIOH 108 - Basic Anatomy

Credits: 3. Offered Intermittently. Structures of the human body and their basic functions.

BIOH 201N - Human Anat Phys I (equiv 301)

Credits: 4. Offered autumn and spring. Prereq., introductory science course or college-prep high school biology course recommended. Comprehensive knowledge of human form and function necessary for students preparing for health-related professions. Emphasis on structure, function and homeostatic regulation of body systems with presentation of basic concepts in chemistry and microbiology as they relate to human anatomy and physiology. Covers tissues through nervous system. Required, integrated laboratory includes some dissection. Course Attributes: Natural Science Lab Course Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt Natural Science Course

BIOH 202N - Human Anat and Phys I Lab

Credits: 4. Offered autumn and spring. Coreq., BIOH 201. Basic knowledge necessary for students in health-related programs. Emphasis on normal anatomy and physiology with presentation of basic concepts in chemistry and microbiology as they relate to human anatomy and physiology. Covers tissues through nervous system. A cadaver lab is included. Course Attributes: Natural Science Lab Course Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt Natural Science Course

BIOH 211N - Human Anat Phys II (equiv 311)

Credits: 4. Offered autumn and spring. Prereq., and continuation of BIOH 201N. Comprehensive knowledge of human form and function necessary for students in health-related programs. Emphasis on structure function and homeostatic regulation of body systems with presentation of basic concepts in chemistry and microbiology as they relate to human anatomy and physiology. Covers endocrine through reproductive systems. Required integrated laboratory includes frequent dissection. Course Attributes: Natural Science Lab Course Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt Natural Science Course

BIOH 212N - Human Anat Phys II Lab

Credits: 4. Offered autumn and spring. Prereq., BIOH 201N. Coreq., BIOH 211. Continuation of 201N. Basic knowledge necessary for students in health-related programs. Emphasis on normal anatomy and physiology with presentation of basic concepts in chemistry and microbiology as they relate to human anatomy and physiology.

Covers endocrine through reproductive systems. A cadaver lab is included. Course Attributes: Natural Science Lab Course Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt Natural Science Course
BIOH 213N - The Biology of Behavior

Credits: 3. Offered autumn and spring. Prereq., SCN 100N. An introduction to the biological basis of human behavior, including neuron function and the roles of hormones, heredity, and environmental influences. Behavioral topics include sensation, learning, emotion, and issues such as obesity, addiction, and stress. Intended for students to satisfy the science with a lab general education requirement. Course Attributes: Natural Science Lab Course

BIOH 220 - Human Physiology

Credits: 4. Offered intermittently. Prereq., BIOH 201N, 202N, 211N, and 212N. In-depth exploration of principles and clinical consequences of the physiology of selected human organ systems. Building upon basic concepts covered in BIOH 201N, 202N, 211N, and 212N, students study membrane functions, neural physiology, endocrine and peripheral nervous system function and coordination, circulatory, respiratory, renal, and digestive physiology.

BIOH 261 - Human Physiology lab

Credits: 4. Offered autumn. Prereq., BIOH 201N, 202N, 211N, and 212N. In-depth exploration of principles and clinical consequences of the physiology of selected human organ systems. Building upon basic concepts covered in BIOH 201N, 202N, 211N, and 212N, students study membrane functions, neural physiology, nervous system integration, endocrine and peripheral nervous system function and coordination, circulatory, respiratory, renal, digestive, and reproductive physiology.

BIOH 295 - Student Teaching

Credits: 1 TO 6. (R-6) Offered intermittently. Organized student teaching.

Chemical Addiction Studies

CAS 140X - Addictions and Diversity

Credits: 3. Offered autumn and spring; summers intermittently. This course required for students seeking to obtain their AA degree in Chemical and Addiction Studies and who wish to become Licensed Addiction Counselors in the State of Montana. Introduction to multicultural competencies where students will be exposed to the fundamentals of working with substance abusing and dependent individuals from the cultural impact of race, nationality, gender, age, sexual orientation, religion, and socio-economic status on the development and progression of alcohol/drug problems. Appropriate for students of Social Work, Psychology, community health, Business and Counseling students, Education, and those with an interest in diversity and addictions. Course Attributes: Indigenous and Global

CAS 185 - Prevention Practices

Credits: 3. Offered autumn and spring and summers intermittently. This course required for students seeking to obtain their AA degree in Chemical and Addiction Studies and who wish to become Licensed Addiction Counselors in the State of Montana. The course introduces strategies for environmental prevention that focus on altering and improving the environment by changing social norms or attitudes, controlling the availability of illicit drugs or alcohol, or strengthening enforcement of laws and regulations. Risk and Protective Theory will be outlined, as well as the five categories of environmental strategies. This course is appropriate for everyone who has or will have a role in prevention, education, community health, and/or community change. Required for Chemical Addiction Studies students. May also be appropriate for students of social work, psychology, sociology, community health or those with an interest in learning about alcohol and drug prevention in society.

CAS 191 - Special Topics

Credits: 3. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CAS 195 - Field Work/Clinical/Practicum

Credits: 1 TO 3. (R-3) Offered every autumn and spring. This field work placement focuses on PREVENTION and is created to provide Chemical Addiction Studies students with direct experience working in community organizations where they will create and implement alcohol and drug prevention activities. May also be appropriate for students of Social Work, Psychology, Sociology, Community Health or those with an interest in learning about prevention practices with direct experience in community organizations. Prerequisite: CAS 185 Prevention Practices and CAS 243, Fundamentals of Substance Abuse C/I. Course Attributes: Internships/Practicums

CAS 210 - Individual Counseling

Credits: 3. Offered intermittently. Prereq., CAS 201; CAS 242; PSYX 240. This course is intended for students seeking to obtain their AA degree in Chemical and Addiction Studies and who wish to become Licensed Addiction Counselors in the State of Montana. Major theories and practice of individual counseling for the client with substance abusing or chemically dependent individual is presented.

CAS 225 - Group Counseling

Credits: 3. Offered Intermittently. Prereq., CAS 201, CAS 242, PSYX 240. This course is intended for students seeking to obtain their AA degree in Chemical and Addiction Studies and who wish to become Licensed Addiction Counselors in the State of Montana. Major theories and practice of counseling for the client with substance abusing or chemically dependent individual in group settings. Includes comprehensive group approaches, family therapy and other appropriate group strategies. Includes group dynamics and strategies to managing group sessions.

CAS 231 - Pharmacology/Addictions

Credits: 3. Offered intermittently. This course is offered for students seeking to obtain their AA degree in Chemical and Addiction Studies and who wish to become Licensed Addiction Counselors in the State of Montana. May also be appropriate for Students of Social Work, Psychology, Sociology, Community Health or those with an interest in learning about pharmacology and addictions. This course discusses the classes of drugs, their effects on behavior and the effects on society in general. Primary emphasis is on the effects of the chemicals on the brain function of the individual.

CAS 242 - Fund Subst Abuse and Addiction

Credits: 3. This course is offered for students seeking to obtain their AA degree in Chemical and Addiction Studies and who wish to become Licensed Addiction Counselors in the State of Montana. May also be appropriate for Students of Social Work, Psychology, Sociology, or Community Health.

CAS 243 - Substance Abuse Counseling I

Credits: 3. Offered autumn and spring and summers intermittently. Prereq., CAS 242, CoReq. CAS 201, PSYX 240, or Abnormal Psychology, and consent of instr. This course is required for students seeking to obtain their AA degree in Chemical and Addiction Studies and who wish to become Licensed Addiction Counselors in the State of Montana. This course is created to provide students specific knowledge regarding the theories, research, and evidenced-based literature in the provision of addiction counseling services. Students will be introduced to the overall scope of the problems of addictions, professional characteristics and principles of addiction counselors, ethical and legal responsibilities of professional behavior, addiction counseling skills and competencies required to be addiction counselors.

CAS 248 - Substance Abuse Counseling II

Credits: 3. Offered autumn and spring and summers intermittently. Prereq., PSYX 240, CAS 201, CAS 242, consent of instr., corereq., CAS 243. This course is required for students seeking to obtain their AA degree in Chemical and

Addiction Studies and who wish to become Licensed Addiction Counselors in the State of Montana. Meets specific State of Montana educational requirements associated with individual and group counseling for addiction, as well as ethics for addiction counselors. The course requires the student to draw upon the resources provided by experts. The course work significant amount of experiential application and counseling practice techniques.

CAS 260 - Addiction Assess/Documentation

Credits: 3. Offered autumn and spring and summers intermittently. Prereq./CoReq., CAS 243, CAS 248, and consent of instr. This course is required for students seeking to obtain their AA degree in Chemical and Addiction Studies and who wish to become Licensed Addiction Counselors in the State of Montana. Intended to provide a comprehensive education to meet State of Montana education requirements for Licensure in Addiction Counseling. Students will be trained in clinical assessment diagnosis, treatment planning and patient record documentation with the client who has substance use disorders. Students will complete experiential application of the materials.

CAS 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CAS 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CAS 295 - Field Work/Clinical/Practicum

Credits: 1 TO 4. (R-4) This course is offered for students seeking to obtain their AA degree in Chemical and Addiction Studies and who wish to become Licensed Addiction Counselors in the State of Montana. This Field Work Placement focuses on addiction treatment and counseling activities. The student will work in the community under the supervision of an addiction treatment professional and be given the opportunity to witness and participate in alcohol and drug treatment counseling activities. Prerequisites: Consent of Instructor and successful completion of all other CAS courses. Course Attributes: Internships/Practicums

Chemistry

CHMY 195 - Student Teaching

Credits: 1 TO 6. (R-6) Offered intermittently. Organized student teaching.

Communication

COMX 102 - Interprsnl Skills in Workplace

Credits: 1. This course will introduce students to interpersonal communication theory which can be applied to a workplace environment. Students will learn effective communication strategies that promote success in professional and personal relationships.

COMX 140L - Intro to Visual Rhetoric

Credits: 3. Offered autumn and spring. An introduction to the persuasive nature of visual symbols as texts.

Readings will include historical to contemporary rhetorical criticisms on advertising, billboards, bodies, cartoons, memorials, and photography. Course Attributes: Literary & Artistic Stds Crse

COMX 191 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

COMX 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

COMX 198 - Internship

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prerequisite, consent of instructor. Extended classroom experience that provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (398, 498) may count toward graduation.

COMX 212X - Intro to Intercultural Com

Credits: 3. Offered autumn and spring. This course provides students with an introduction to communicating across cultures. Local and global case studies and theories will be explored. Students will explore the influence of immediate communication and social media on large scale social issues. Course Attributes: Indigenous and Global

COMX 217A - Oral Interpretation of Lit

Credits: 3. Offered intermittently. Introduction to orally presenting literature to an audience. Focus is on analyzing and performing prose, drama, poetry, and children's literature to express point of view. Course Attributes: Expressive Arts Course

COMX 219S - Survey of Children's Comm

Credits: 3. Offered autumn. Focus on communication processes and contemporary communication environments of children and adolescents. Topics include language development and the brain, nonverbal communication development, media, contracting, bullying, and gender. Course Attributes: Social Sciences Course

COMX 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

COMX 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

Creative Writing

CRWR 210A - Intro Fiction Workshop

Credits: 3. Offered intermittently. This beginning writing workshop emphasizes the reading, discussion, and revision of students' short fiction. Students will be introduced to the technical elements of writing fiction. No prior experience in writing short fiction required. Course Attributes: Expressive Arts Course

CRWR 211A - Intro Poetry Workshop

Credits: 3. Offered intermittently. This beginning writing workshop focuses on the reading, discussion, and revision of students' poems. Students will study and use models of poetic techniques. No prior experience in writing poetry required. Course Attributes: Expressive Arts Course

CRWR 240A - Intro Creative Writing Wrkshp

Credits: 3. Offered every term. Beginning writing workshop designed for students to explore genres of creative writing with opportunities for students to write, and revise using genre-specific writing techniques. Course Attributes: Expressive Arts Course

Environmental Studies

ENST 231H - Nature and Society

Credits: 3. Offered intermittently, autumn and spring. Prereq., WRIT 101. Explores the relationship between ideas about nature and the development of political and social ideas, institutions, and practices in primarily western (Euro-American) society. Course is an elective for students in the 2-year AA and AAS degree programs. Course

Attributes: Historical & Cultural Course Writing Course-Intermediate

Mathematics

M 065 - Prealgebra

Credits: 3. Offered every term. Prereq., ALEKS placement ≥ 1 . Arithmetic and basic algebra skills needed for Introductory Algebra. Topics include integers and rational numbers, decimals and percentages with applications, ratios and proportions with applications, single variable linear equations with applications, introduction to graphing, exponents, factoring, and an introduction to polynomials. Credit does not count toward a certificate or degree. Credit does not count toward Associate of Arts, Associate of Applied Science, or Baccalaureate degrees. MC Course

Attributes: Technical Course

M 090 - Introductory Algebra

Credits: 3. Offered every term. Prereq., M 065 or ALEKS placement ≥ 2 . Review of arithmetic principles of integers and rational numbers, linear equations in one or two unknowns, systems of linear equations and operations with polynomials and rational expressions. Credit does not count toward an Associate of Arts, Associate of Applied Science, or Baccalaureate degree. MC

M 095 - Intermediate Algebra

Credits: 3. Offered autumn and spring. Prereq., M 090 or ALEKS placement ≥ 3 . Topics include linear equations, inequalities, applications and graphing; polynomials; radicals, rational exponents and complex numbers; quadratic equations. Graphing calculator required. Credit does not count toward Associate of Arts or Baccalaureate degrees.

MC

M 111 - Technical Mathematics

Credits: 3. Offered autumn and spring. Prereq., ALEKS placement ≥ 2 . Designed to provide the mathematical background necessary for success in the industrial areas. Topics covered include percent, ratio proportion, formula evaluation, basic algebra and geometry concepts, trigonometry, measurement, statistics, and graphing. Markdowns, inventory turnover, and other basic formulas. Credit does not count toward Associate of Arts or Baccalaureate degrees. MC Course Attributes: Technical Course

Psychology

PSYX 161S - Fund of Organizational Psych

Credits: 3. Offered intermittently. Foundation in the psychological processes that influence behavior of people in organizational settings. Course Attributes: Social Sciences Course

PSYX 230 - Developmental Psychology

Credits: 3. Offered autumn, Spring, Summer. Prereq., PSYX 100S. The study of human physical, cognitive and psychosocial development throughout the life span. Content covers major theories, the influence of genetics, and the environment from a chronological aspect. Appropriate for Social work, Nursing, Addiction Studies, Education, and Psychology.

PSYX 238 - Adolescent Psychology

Credits: 3. Offered every term. PreReq., PSYX 100S or PSYX 230S. This course is designed to provide an introduction to the physical, social, emotional, and cognitive developmental changes that occur during adolescence, as well as their relationships and cultural influences. Appropriate for students in Addiction Studies, Psychology, Social Work, Education, and other disciplines where a study of the adolescent is desired.

PSYX 240 - Fund of Abnormal Psychology

Credits: 3. Offered every term. Prereq., PSYX 100. This course provides a broad introduction to abnormal psychology, which includes defining abnormality, examining the history of abnormal psychology, identifying how abnormal psychology relates to other disciplines in psychology, exploring major research methods used in abnormal psychology, discussing various mental illnesses and their potential causes and possible treatments, and applying major abnormal psychological findings to practical problems.

Science (COT)

SCN 095T - Special Topics

Credits: 1 TO 6. Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

SCN 100N - Issues in Biology

Credits: 3. Offered autumn and spring. An introductory course for students with little science background. This course explores several issues relating to human biology such as cancer, drug abuse, population growth, and genetic engineering. Also includes discussions of fundamental biological concepts such as evolution, biodiversity, and basic cell and molecular biology. Course Attributes: Natural Science Course

SCN 105N - Montana Ecosystems

Credits: 3. Offered autumn and spring. An introduction to the landscapes and ecosystem diversity of Montana, with an emphasis on exploring the dominant habitats of western Montana. Required, integrated laboratory includes field trip investigations, classroom lab exercises, and presentations. Course Attributes: Natural Science Lab Course

SCN 120T - Technical Physics I

Credits: 4. Offered intermittently. Prereq., M 095. Introduction to models, measurements, vectors, motion in a straight line, motion in a plane, Newton's laws of motion, application of Newton's laws, and circular motion and gravitation. Course Attributes: Technical Course

SCN 175N - Integrated Physical Science I

Credits: 3. Offered every term. An introduction to the basic principles of physics, chemistry, and nuclear reactions with emphasis on the scientific method and process. A knowledge of basic algebraic functions, decimals, and scientific notation is recommended. Suitable for students with little science background. Course Attributes: Natural Science Course

SCN 176N - Integrated Phys. Science II

Credits: 3. Offered spring term. An introduction to the fundamental principles of environmental and earth sciences. Course emphasizes the scientific method and process of science. Course Attributes: Natural Science Lab Course
Natural Science Course

SCN 195T - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Technical Course

SCN 196T - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Technical Course

SCN 260N - The Biology of Behavior

Credits: 3. Offered autumn and spring. Prereq., SCN 100N. An introduction to the biological basis of human behavior, including neuron function and the roles of hormones, heredity, and environmental influences. Behavioral topics include sensation, learning, emotion, and issues such as obesity, addiction, and stress. Intended for students to satisfy the science with a lab general education requirement. Course Attributes: Natural Science Lab Course

SCN 291 - Student Teaching

Credits: 1 TO 6. (R-6) Offered intermittently. Organized student teaching.

SCN 295T - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Technical Course

Writing

WRIT 090T - Critical Writing Skills

Credits: 3. Offered intermittently. Prereq., placement or referral by WRIT 101 instructor. Designed for students who need instruction and practice integrating critical thinking, reading, and writing before entering the required first-year writing course. Emphasis on drafting and revising. Grading by traditional letter system or NCR (no credit). Traditional letter grade only. Credit does not count toward a certificate or degree. Course Attributes: Technical Course

WRIT 095 - Developmental Writing

Credits: 3. Offered every term. Prereq., placement or referral by WRIT 101 instructor. Designed for students who need instruction and practice integrating critical thinking, reading and writing before entering the required first-year writing course. Emphasis on invention, drafting, and revision. Grading A-F or NC (no credit). Credit does not count toward Associate of Arts or Baccalaureate degrees.

WRIT 121 - Intro to Technical Writing

Credits: 3. Offered every term. Introduction to technical writing situations that integrate text, design, and graphics. Emphasis is on evidence-based, informative writing that uses design and graphics to visually represent logic and organization. Course focuses on writing as a process and includes student self-assessment. Major assignments include a pure technical document, exploration of credibility, and public science writing. Students are expected to write without major faults in grammar or usage and to have basic computer literacy. Course Attributes: Writing Course-Intermediate

WRIT 191T - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Technical Course

WRIT 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently.

WRIT 221 - Intermediate Tech Writing

Credits: 3. Offered intermittently. Prereq., WRIT 121, WRIT 101, or consent of instr. Continuation of technical writing with emphasis on technical text including editing for technical content, graphic placement, and document design as seen through the eye of the audience. Current critical issues in technical writing are discussed. Course Attributes:

Writing Course-Intermediate

WRIT 291T - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Technical Course

WRIT 292T - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Technical Course

Applied Computing and Engineering Technology

Penny Jakes, Chairperson

The Department of Applied Computing and Electronics collaborates with business and industry to prepare graduates to compete in and contribute to a diverse and dynamic global society. Students acquire the practical skills necessary to pursue entry-level careers in STEM-related (Science, Technology, Engineering, and Mathematics) occupations. Students engage in experiential learning, embracing technical education, effective communication, problem solving, professionalism, and specific workplace skills. The department promotes lifelong learning to empower students in an ever-changing world. More details on programs available through the department can be found at: <http://ace.mc.umt.edu>.

Preparation to Enter Programs

Students entering programs in Applied Computing & Electronics are expected to have basic computing skills and adequate preparation in mathematics. Completion of M90 Introductory Algebra or equivalent placement scores are required for the following first year courses: DDSN 114 (DDSN Intro to CAD), CSCI 110 Programming – VB I, CSCI 113 C++ Programming, CSCI 172 Intro to Computer Modeling, ITS 165 OS Commands and Scripts, ITS 150 CCNA I, NRGY 101 Intro to Sustainable Energy and ETEC 105 DC Circuit Analysis. Underprepared students should allocate an additional semester to the suggested four semester sequence in completing programs of study.

Missoula College Catalog Year: 2015-2016

Degree Type: Certificate of Applied Science Level: Certificate Subject: **Computer Aided Design**

Total Credits: 34 Cumulative GPA Required: 2.0

The Computer Aided Design (CAD) program offers graduates a pathway into professional careers as technicians in civil, mechanical, and architectural drafting. Other career opportunities exist in geographic information systems, mapping, surveying, and technical design. This one-year program prepares students in mathematics, business, and writing, as well as the following skills: graphic communications; computer-aided design and modeling systems; geographic information systems; and surveying. Graduates emerge with an understanding of how to use computer aided design software to solve real-world graphic communications problems in a team-oriented environment.

Missoula College Catalog Year: 2015-2016

Degree Type: Certificate of Applied Science Level: Certificate Subject: **Computer Support Specialist**

Total Credits: 31 Cumulative GPA Required: 2.0

Computer Support is a 31-credit certificate program that prepares students for entry-level positions in the computing field. Required coursework includes programming, operating systems, networking, PC hardware, data modeling, and web technologies. Graduates pursue careers as help desk technicians, computer repair professionals, and computer support specialists. All students have the opportunity to complete the CompTIA A+ Computer Support Specialist industry certification. Coursework for the certificate program also leads to the A.A.S. degree in Information Technology.

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Applied Science Level: Major Subject: **Electronics Technology**

Students in the Electronics Technology program learn to troubleshoot, calibrate, test, and repair electronic components and circuit boards used in a wide range of electronic equipment including computers and communication equipment. Training includes working knowledge of direct and alternating current theory, semiconductor circuits, instrumentation, automatic controls, data communications, computerized communication links, and operational amplifiers. Students become familiar with robotics, electronic communications theory, and modes of RF communications.

Students are awarded the Associate of Applied Science degree upon successful completion of the program.

Missoula College Catalog Year: 2015-2016

Degree Type: Professional Certificate Level: Certificate Subject: **Health Information Technology: Computing**

Total Credits: 13 Cumulative GPA Required: 2.0

The Information Systems Management option emphasizes application development and business processes.

Students learn to write software using an object-oriented programming paradigm for deployment to the web and the desktop. Relational database design, structured query language (SQL), and the ability to create applications which push and pull information from databases are highlighted. Graduates seek careers as computer support specialists, help desk technicians, web developers, software developers, and database administrators.

Degree Commentary

This certificate requires both the courses listed below and the successful completion of a degree in a computing-related field, i.e. Information Technology.

Missoula College Catalog Year: 2015-2016

Degree Type: Professional Certificate Level: Certificate Subject: **Health Information Technology: Health Professions**

Total Credits: 18 Cumulative GPA Required: 2.0

Network Administrator has become a common job title across all career fields. The Network Management option provides students with a background in network administration for supporting users and computing in a networked

environment. Coursework in network operating systems, server administration, routers, switches, security, and IP telephony are all embedded in the Network Management option.

The University of Montana is a Cisco Networking Academy, IBM Academic Alliance, & a CompTIA Authorized Academy, and a member of the Microsoft Developers Network Academic Alliance. Opportunities exist for professional certification from Cisco (CCNA, CCENT, CCVA), Microsoft and Comp TIA (A+, Network+ and Security+).

Students entering the program should be prepared with basic computing skills (keyboarding, word processing, file management, and Internet applications) and adequate preparation in mathematics (completion of M 090 or equivalent placement scores). Underprepared students should allocate an additional semester to the suggested four semester sequence.

Criterion: C- Number of Credits 16

Course Listing

ITS 271	Securing Desktop/Mobile Dev.	4	
---------	------------------------------	---	--

ITS 273	Securing Networks	4
ITS 275	Border/Perimeter Network Sec 4	
ITS 277	Software Assurance and File Sy	4

Commentary: Degree Commentary

Prerequisite skills needed to succeed in this proposed NIS certificate program are met with a degree in Network Management or related field or equivalent work experience. It would be helpful for incoming students to have industry certifications such as A+, CCNA, Security+, Microsoft Servers, or Net+ to establish an appropriate baseline skill set.

Missoula College Catalog Year: 2015-2016

Degree Type: Technical Certificate Level: Certificate Subject: **Recycling Technology**

Total Credits: 16 Cumulative GPA Required: 2.0

Lower Division Core

Category Name: Core Courses

Rule: Must complete all of the following courses:

Criterion: C- Number of Credits 16

Course Listing

BGEN 160S	Issues in Sustainability	3
ITS 221	Project Management	3
NRGY 102	Intro to Sustainable Energy II	3
NRGY 241	Alternative Fuels	3
NRGY 270	Recycling Technology	4

Department Faculty

Professors

- Thomas Gallagher, IT Program Director/Professor
- Dennis Labonty, Ph.D.

Associate Professors

- Bradley Layton, Energy Technology Program Director/Associate Professor

Assistant Professors

- Xueying Shen, Department Chair/Electronics Technology Program Director
- Steven Stiff, Assistant Professor

Adjunct Faculty

- Jonathan Bowe, Adjunct Instructor
- Dianne Burke, Cybersecurity Program Director/Adjunct Instructor
- Conor Darby
- Alan Fraser

- Corryn Greenawalt
- Matt Grimes, FabLab Director
- Wally Higgins, Adjunct Instructor
- Eric Iverson
- Brian Kerns
- Kari McLean, Adjunct professor
- Krista Milligan
- Marc Olson, Adjunct Instructor
- Zachary Rossmiller
- Troy Savage, Adjunct Instructor
- Craig Schaeffer
- Alexander Sievers, Adjunct Instructor
- John Taber
- Lagan Todd, Adjunct Instructor

Course Descriptions

Computer Technology (COT)

CRT 188T - Computers and Law

Credits: 3. Offered autumn. Prereq., CAPP 120 and LEG 185T. Intermediate concepts of computer systems, operating systems, graphical environments, electronic mail, Internet, and file management. A variety of applications including word processing, spreadsheet, database, presentation, and law-related software are included. Course

Attributes: Technical Course

CRT 205T - Food Serv Mgmt Comp App

Credits: 2. Offered spring. Prereq., CAPP 120. Introduction to computerized applications relevant to the food service industry. Includes spreadsheet, recipe management and word processing software; appropriate industry reports, create menus and fliers; import, export and scale recipes; analyze nutrition; and calculate food cost. Course

Attributes: Technical Course

Computer Science/Programming

CSCI 110 - Programming - VB I

Credits: 3. Offered autumn and spring. M 090 or ALEKS score >2 recommended prior to taking course. An introduction to object-oriented programming using an even-driven paradigm. Basic concepts of control structures, data handling, documentation, and error control. Fundamentals of algorithm design and structured software development.

CSCI 113 - Programming with C++ I

Credits: 3. Offered intermittently. M 090 or ALEKS score >2 recommended prior to taking course. Object oriented programming using C++. Implementation of structured programming concepts along with construction of classes to create data types for defining objects.

CSCI 120 - Programming - VB II

Credits: 3. Offered autumn. Prereq., CSCI 110. Design and implementation of software using object-oriented programming practices. The class framework is used to apply the object-oriented techniques of encapsulation, polymorphism, and inheritance.

CSCI 215E - Social & Ethical Issues in CS

Credits: 3. Offered autumn and spring. Prereq., WRIT 101. Exploration of ethical issues in the field of computing. Skills needed to identify and analyze various ethical concerns. Standard ethical concepts and theories, methods of ethical analysis. Strong emphasis on practical application of the ethical process. Course Attributes: Ethical & Human Values Course Writing Course-Intermediate

CSCI 221 - System Analysis and Design

Credits: 3. Offered spring. Prereq., CSCI 240. Analysis of the system development life cycle. Emphasis on planning, analyzing, designing, implementing and supporting information systems to meet business requirements. Covers feasibility studies, time and cost estimates, modeling tools, design tools, implementation and support strategies. A simulated business design project will be developed.

CSCI 240 - Databases and SQL

Credits: 3. Offered autumn. Prereq., CSCI 172 or consent of instr. Relational database design including: requirements analysis, data structure, entity relationships, normalization, relational algebra and integrity. Physical implementation focusing on data storage; retrieval and modification; concurrency; optimization; security; SQL; and XML.

Drafting Design

DDSN 113 - Technical Drafting

Credits: 3. Offered autumn. An introduction to the techniques and standard practices of communicating technical graphics. The class studies and practices drawing skills and learns the drawing standards that support the needs of the design team in advancing ideas. It also provides the foundation for successful drawing communication in the CAD environment. Topics covered include; drawing media and tools, hand drawing skills, perspectives, views, sketching, standard scales, geometric construction, sections, dimensioning, and tolerances.

DDSN 114 - Introduction to CAD

Credits: 3. Offered autumn. M 090 or ALEKS score >2 recommended prior to taking course. An introduction to computer aided design and drafting software for production of drawings and plans for architecture and engineering systems. Fundamentals of two dimensional drafting and drawing management for professional design.

DDSN 116 - 3D CAD

Credits: 3. Offered autumn. Prereq. or Co-req., DDSN 114. CAD II provides a project-based, in-depth study of the skills and concepts involved in Computer Aided Design and Drafting. Topics covered include object grouping and sharing; three dimensional modeling; animation; and interoperability with other software. This course is the second in a two-part series covering the core AutoCAD application.

DDSN 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Technical Course

DDSN 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Independent research in geography or planning.

DDSN 244 - GIS Mapping

Credits: 3. Offered Spring. Basics of geospatial technologies; remotely sensed imagery, GIS, and GPS and how each of the individual areas can be used together to analyze spatial datasets. Students will explore a wide range of spatial data and will learn to apply these data sets to real-world solutions.

DDSN 245 - Civil Drafting

Credits: 4. Offered spring. Prereq. DDSN 114. Introduces students to computer aided design software for common survey and engineering design and drafting applications. Topics include collection of survey data; the coordinate geometry system; surfaces; subdivision and land planning; road design and corridor modeling; utilities; site grading and drainage; mapping; and 3D visualization.

Electronics Technology

ETEC 105 - DC Circuit Analysis

Credits: 4. Offered autumn and spring. M 090 or ALEKS score >2 recommended prior to taking course. An introduction to direct current (DC) and analysis of series, parallel, and series-parallel circuits. Topics include electrical quantities, units of measurement, measurement instruments, resistors, current, voltage, power, energy, network theorems, equivalent circuits, magnetism, and electromagnetism. Laboratory experiments include circuit analysis; the proper use of measurement equipment and techniques; and troubleshooting.

ETEC 106 - AC Circuit Analysis

Credits: 3. Offered autumn and spring. Analysis of alternating current (AC) circuits and the behavior of capacitors, inductors, reactance, impedance, transformers, and signal filters. Laboratory experiments include circuit analysis, the use of proper measurement equipment, and troubleshooting.

ETEC 113 - Circuits Lab

Credits: 1. Offered autumn. Prereq/Co-req., ETEC 105. Covers proper techniques of soldering and tool usage. Electronic technical language, hands on troubleshooting skills and basic electronic measurements are involved.

ETEC 120 - Electrician Fundamentals NCCER Level I with NCCER Core Curriculum

Credits: 4. Students will learn the fundamentals of installing electrical systems in structures. These systems will include wiring, circuit breaker panels, switches, and light fixtures. Students will also learn to read and follow blueprints in accordance with the National Electrical Code® as well as state and local codes. The course largely follows the first level of NCCER's 4-level Electrical curriculum that complies with DOL time-based standards for apprenticeship.

ETEC 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered Intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ETEC 213 - Power Systems Technology

Credits: 3. Offered spring. Prereq., ETEC 106, M 121, Prereq/Co-req., M 122. A review of the principles of electricity, magnetism, and transformer action; the application of these principles in the operation of single-phase and three-phase ac/dc motors, alternators, and generators; and the control methods for these electrical devices.

ETEC 214 - Energy Storage and Dist.

Credits: 3. Offered spring. Prereq. ETEC 106, NRGY 101, and M 121 or consent of instructor. Studies storage and transport methods of different types of energy. Explores emergent technologies and mechanisms designed to enhance efficiency and safety, including 'smart grid' technologies; assesses relative social, economic and environmental merits of each type of energy system in terms of its storage and distribution.

ETEC 240 - Robotics

Credits: 3. Offered spring. Prereq. or Co-req., ETEC 250. Explores physical and operating characteristics of a robot. Topics include robot configurations, power supplies, control systems, end effectors, sensors, stepper motors and stepper controls. Robot programming also is covered and a typical robot is programmed to perform repetitive actions. Includes hands-on labs.

ETEC 245 - Digital Electronics

Credits: 4. Offered autumn. Prereq., ETEC 250. Explores digital electronic circuits and devices that make up a computer system. Topics include binary and hexadecimal number systems, Boolean algebra and digital logic theory, simple logic circuits, combinational logic, and sequential logic. Also covered is the analog-to-digital and digital-to-analog interfaces between a digital system and the real (analog) world. Includes hands-on labs.

ETEC 250 - Solid State Electronics I

Credits: 4. Offered spring. Prereq. ETEC 105. An introduction to semiconductor technologies used in solid state electronics with an emphasis on diodes and transistors. Classroom concepts are reinforced through lab-based experiments.

ETEC 251 - Solid State Electronics II

Credits: 3. Offered autumn. Prereq. ETEC 250. An introduction to semiconductor technologies used in solid state electronics with an emphasis on amplifier circuits, field effect transistors, thyristors, and operational amplifiers. Classroom concepts are reinforced through lab-based experiments.

ETEC 260 - Data and Network Communication

Credits: 3. Offered autumn. Prereq., ETEC 250. Explores the principles, applications, and theory of data communication systems. Topics include communication concepts and terminology, analog and digital channel characteristics, signaling techniques for analog and digital data, communication codes, transmission media, and standards and protocols for various data communication systems including computer networks, and the public switched telephone network. Includes hands-on labs.

ETEC 265 - Control Systems

Credits: 4. Offered autumn. Prereq., ETEC 250. The course provides a comprehensive coverage of components, circuits, instruments, and control techniques used in continuous and discrete automatic control systems, and focuses on basic principles, operation and applications. Programming, interfacing, and applications of programmable logic controllers are emphasized, including PLC hardware components, ladder logic diagram, fundamentals of PLC programming, and PLC interfacing and troubleshooting. Laboratory experiments and course projects are included in the course.

ETEC 270 - Wireless Communications

Credits: 4. Offered autumn. Prereq., ETEC 250. Explores audio and radio frequency (RF) circuits. Topics include AM and FM signal modulation and demodulation, RF transmitters, RF receivers, RF amplifiers, audio amplifiers, oscillators, mixers, and antennas. Includes hands-on labs.

ETEC 275 - Microprocessors and Microcontrollers

Credits: 4. Offered spring. Prereq., ETEC 250 and prereq., or Co-req., CSCI 113. The course introduces the fundamental concepts, basic principles of the architecture, organization, operation and applications of microprocessors and microcontrollers. Programming in assembly language and in C, and interfacing of microprocessor systems are emphasized. Laboratory experiments and course projects are included in the course to increase the hands-on skills of the students.

ETEC 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered Intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ETEC 295 - Special Topics

Credits: 1 TO 6. (R-6) Offered Intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ETEC 298 - Internship

Credits: 2. Offered intermittently. Consent of instructor required. Extended classroom experience providing practical application of classroom learning through on the job training in a student's field of study. This experience increases student skills, prepares them for initial employment, and increases occupational awareness and professionalism.

ETEC 299 - Electronics Capstone

Credits: 3. Offered spring. Prereq., ETEC 275. Completion of project prototypes. Includes comprehensive final project from conception to market.

Health Information Technology

HIT 101 - Intro to Healthcare Informatic

Credits: 3. Introduces the discipline of healthcare information technology. An overview of the subject including history, basic knowledge of healthcare informatics and tools as applied in support of healthcare delivery. Students will gain an introductory level about the complexities of health care and how informatics fits within the US Healthcare System.

HIT 265 - Electronic Health Records

Credits: 3. Prereq., HIT 101. An introduction to the electronic health record (EHR). Students will study the use of the EHR in improving healthcare quality, accessibility, and cost-effectiveness. EHR implementation and its use within the internal clinical office will be examined. The EHR will be studied in the context of a comprehensive Health Information System (HIS) supporting our society's interdisciplinary clinical healthcare system.

Information Technology Systems

ITS 150 - CCNA 1: Exploration

Credits: 3. Offered autumn and spring. M 090 or ALEKS score >2 recommended prior to taking course. Introduction to networking field including terminology; protocols; local-area and wide-area networks; the OSI model; topologies; IP addressing; cabling and cabling tools; routers and router programming. Ethernet and network standards; and wireless technologies.

ITS 152 - CCNA 2: Exploration

Credits: 3. Offered fall. Prereq., ITS 150. Covers router theory and technologies including configurations, IOS software management, routine protocol configuration, TCP/IP, access-lists and introduction to LAN switching.

Course Attributes: Technical Course

ITS 165 - OS Commands and Scripts

Credits: 3. Offered spring. Introduction to operating system concepts through the use of contemporary software. Emphasizes file system management, networking, installation, maintenance, management, and disaster recovery practices using both the command interpreter and graphical user interface.

ITS 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ITS 210 - Network OS - Desktop

Credits: 3. Offered autumn. Prereq., ITS 150. In-depth study of a secure, multi-user, client-based network operating system. Topics include installation, administration of resources, performance, network services, and security.

Course Attributes: Technical Course

ITS 212 - Network OS - Server Admin

Credits: 3. Offered autumn. Prereq./Co-req, ITS 210. Server technologies commonly used in local area networking. Topics include installation, administration, storage, application services, network services, security, reliability, and availability. Course Attributes: Technical Course

ITS 214 - Network OS - Infrastructure

Credits: 3. Offered fall. Prereq., ITS 212. Principles and implementation of enterprise networking services. Topics include Protocol Binding, DNS, DHCP, WINS, Remote Access, IP Routing, IP Security, Network Address Translation, and Certificate Services. Course Attributes: Technical Course

ITS 221 - Project Management

Credits: 3. Offered autumn. Prereq., CSCI 172. Investigation of topics in project management including scope, definition, risk, procurement and the RFP. Management of time, cost, quality, and human resources. Concepts are reinforced with PM software.

ITS 222 - Enterprise Security

Credits: 3. Offered spring. Prereq./Co-req, ITS 214. Examination of general information technology security concepts. Topics include access control, authentication, attack methods, remote access, web security, wireless networks, cryptography, internal infrastructure security, and external attacks. Security procedures, organizational policies, risk management and disaster recovery addressed. Course Attributes: Technical Course

ITS 250 - CCNA 3: Exploration

Credits: 3. Offered spring (first half). Prereq., ITS 152. Covers router configurations including advanced IP addressing techniques, variable length subnet masking, intermediate routing protocols, Ethernet switching, virtual LANs, spanning-tree protocol, and VLAN trunking protocol. Course Attributes: Technical Course

ITS 252 - CCNA 4: Exploration

Credits: 3. Offered (second half). Prereq., ITS 152. Project-based course in wide-area networking including advanced IP addressing techniques, network address translation, port address translation, DHCP, WAN technology and terminology, PPP, ISDN, DDR, Frame Relay, network management, and introduction to optical networking.

ITS 255 - IP Telephony

Credits: 3. Offered autumn. Prereq./Co-req. ITS 150. Provides an introduction to converged voice and data networks as well as challenges faced by the various technologies. Presents solutions and implementation considerations for signaling, quality of service, security, call control, dial plans, gateway protocols, messaging, congestion, and connecting to a PSTN network. Course Attributes: Technical Course

ITS 271 - Securing Desktop/Mobile Dev.

Credits: 4. Course provides advanced technical information and relevant skills to successfully secure end-user devices, including desktop and laptop systems, tablets, cellular phones, and other portable computing equipment. Building on existing knowledge and skills in the areas of server management, network management, and security, students will gain mastery-level knowledge of security issues and best practices. Course content covers client/server exposures and protections (authentication options, packet signing and encryption of network traffic, appropriate implementation of permissions and rights); malware threats and treatments; transmission choices and precautions (wired, wireless, remote desktop access, virtual private networking (VPN)); cloud computing considerations; and corporate mobile device best practices. Hardening of the operating system and application software is also covered. Course content will focus on business-focused security practices to prepare students for

Security+, CISSP, and Security Pro industry certifications. Prerequisite Skills: Course builds upon established skills in security, server management, and network management. Students should be working as a network manager or have completed appropriate skills-based coursework using MS Server 2008/2012 & Mware.

ITS 273 - Securing Networks

Credits: 4. Course provides advanced technical information and relevant skills to secure servers and business information. Building on existing knowledge and skills in the areas of server management, network management, and security, students will gain mastery-level knowledge of security issues and best practices. Students will examine and apply hardening techniques to operating systems and infrastructure-based applications. Strategies to ensure business continuity and data security are emphasized, including policy, data preservation, disaster preparedness, and disaster recovery. Legal guidelines and requirements, both domestic and international, are examined in the context of responsible and ethical computer use. Course content will focus on business-focused security practices to prepare students for the Security+, CISSP, and Security Pro industry certifications. Prerequisite Skills: Course builds upon established skills in security, server management, and network management. Students should be working as a network manager or have completed appropriate skills-based coursework using MS Server 2008/2012 & Mware.

ITS 275 - Border/Perimeter Network Sec

Credits: 4. Course provides advanced technical information and relevant skills to successfully secure computer networks at the public/private interface. Material focuses on hardware- and software-based techniques to prevent and monitor unauthorized or malicious access to corporate networks and servers. Building on existing knowledge of border and perimeter security, students will develop and implement best practices guidelines for boundary-related devices and software. Students will establish baseline assessments of network security from public access points and identify known and/or potential security vulnerabilities. Course content will focus on business-focused security practices to prepare students for the Security+, CISSP, and Security Pro industry certifications. Prerequisite Skills: Course builds upon established skills in security, server management, and network management. Students should be working as a network manager or have completed appropriate skills-based coursework using MS Server 2008/2012 & Mware.

ITS 277 - Software Assurance and File Sy

Credits: 4. Course provides advanced technical information and relevant skills to methodically secure software, including operating systems, custom application software, and commercially-available packages. Students will classify application software (including, but not limited to customer-facing, employee/partner, mobile/endpoint, database, and cloud-based), and perform risk analyses and common weakness assessments against these programs. Students will research various commercial, professional, and governmental security organizations and create a personalized repository of security-related checklists, toolkits, reference material, and resources. Students will investigate low-level file system structures such as master file tables, allocation tables, free space tables, file table entries, and metadata fields. Using common file signatures and checksums, students will verify internal content against external and metadata indicators. Students will examine 'hidden' disk space areas, including file, volume, and/or partition slack. Course content will focus on business-focused security practices to prepare students for Security+, CISSP, and Security Pro industry certifications. Prerequisite Skills: Course builds upon established skills in security, server management, and network management. Students should be working as a network manager or have completed appropriate skills-based coursework using MS Server 2008/2012 & Mware.

ITS 280 - Computer Repair & Maint.

Credits: 3. Offered autumn. Prereq./Co-req, ITS 150. In-depth study of personal computer hardware. Focus on field replaceable components. Topics include: storage devices, processors, system boards, memory, ports, cabling, power supplies, multimedia devices, printers, and troubleshooting. Course Attributes: Technical Course

ITS 289 - Professional Certification

Credits: 1. (R-4) Offered autumn and spring. Prereq., consent of instr. Review objectives of an information technology industry-based professional certification. Certification objectives, preparation strategies, and exam strategies included. Course can be repeated for different industry-based professional certifications. Course

Attributes: Technical Course

ITS 290 - Undergraduate Research

Credits: 1 TO 6. (R-6) Consent of instr. Independent research under the direction of a faculty member. Graded credit/no credit.

ITS 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics. Course Attributes: Technical Course

ITS 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr.

ITS 297 - Undergraduate Research

Credits: 1 TO 10. Offered every term. Preq. consent of instr. Independent research under the direction of a faculty member. Graded credit/no credit.

ITS 298 - Internship/Cooperative Educati

Credits: 2. Offered autumn and spring. Not open to non-majors. On-the-job training in positions requiring information technology competencies. This experience increases students' skills, prepares them for initial employment, and increases occupational awareness and professionalism. Students work a minimum of six hours each week at an approved site and attend a weekly one-hour seminar. Course Attributes: Internships/Practicums

Sustainable Energy

NRGY 101 - Intro to Sustainable Energy

Credits: 3. Offered autumn and spring. M 090 or ALEKS score >2 recommended prior to taking course. A survey of traditional energy systems and technologies. Introduces conventional primary energy sources--coal, oil, gas, nuclear--and examines the technologies used to capture, convert, distribute, store, and utilize these energy sources. Consideration is given to physical and engineering aspects, as well as economic, social environmental, and political factors that determine the sustainability of these sources.

NRGY 102 - Intro to Sustainable Energy II

Credits: 3. Offered autumn and spring. Prereq., NRGY 101 or consent of instructor. Same as CCS 102. A survey of renewable energy systems and technologies. Addresses physical and technical aspects of wind, solar, geothermal, hydro, tidal, biological, and wave energy systems. Consideration is given to engineering, economic, social, environmental, and political factors that determine implementation and sustainability. Credit not allowed for both NRG 102 and CCS 102.

NRGY 120 - Industrial Safety and Rigging

Credits: 3. This course provides an overview of safe industrial practices and provides students with hands-on experiences in rigging for a variety of industries. Students will complete the requirements for an OSHA 10 certification, construct a scaffold system, identify equipment for shifting heavy loads such as may be used in the wind and solar industries. Load security, fall gear, arrest equipment, confined spaces, safety data sheets will be covered. Students will also learn elements of first aid, cardio-pulmonary resuscitation (CPR), and proper use of Automated External Defibrillators (AED's).

NRGY 191 - Special Topics

Credits: 1 TO 3. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

NRGY 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

NRGY 195 - Practicum

Credits: 2. Offered summer only. Prereq., NRGY 101, M 121 or consent of instructor. Same as CCS 191. The practicum provides students with a supervised field experience. Students will gain hands-on experience with energy specific technologies in a fast-paced creative environment. This course increases students' occupational awareness and professionalism. Course Attributes: Internships/Practicums

NRGY 196 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Service Learning/Volunteer

NRGY 235 - Building Energy Efficiency

Credits: 4. Offered Spring. Prereq., NRGY 101. Provides an overview of energy efficiency opportunities in residential buildings with an emphasis on the Passivhaus standard. Prepares the student to take the National RESNET Home Energy Rater Exam, which is a required final exam. Local home and industry tours, and hands-on exposure to HVAC controls and maintenance are also offered. Study of the analysis techniques used for reduction of energy consumption and energy management, including energy accounting and energy auditing. Residential and commercial building energy efficiency opportunities will be covered. Other topics addressed include motors, pumps, green building, and purchasing energy supplies. Career opportunities in energy efficiency will be discussed. Several local tours of energy-efficient homes will occur throughout the semester.

NRGY 241 - Alternative Fuels

Credits: 3. Offered autumn. Prereq., NRGY 101, M 121. Identifies alternative fuel sources; explores fuel characteristics; identifies and evaluates the infrastructure required to produce, store, distribute, and use them; discusses emission and conversion efficiencies; assesses social, environmental, and economic impacts.

NRGY 242 - Solar Thermal & Wind Systems

Credits: 3. Offered autumn. Prereq., NRGY 101, M 121, Prereq., or Co-req., M 122. Same as CCS 242. Introduction to the fundamentals of solar and wind energy for the design and installation of solar thermal and wind systems. Includes an overview of the physics and chemistry of the resource and the technology, and will prepare students for a career in renewable energy or for installing a renewable energy system on their own home. Credit given for NRG 242 or CCS 242, not both.

NRGY 243 - Fundmtl PV Design & Install

Credits: 3. Offered spring. Prereq., M 121, Prereq./Co-req., ETEC 105. An introduction to the fundamental principles and technologies of solar photovoltaic energy systems. Emphasis on system design and installation, including site and resource assessment, load analysis, troubleshooting, and cost analysis. The material covered prepares students for a career in renewable energy or for installing a renewable energy system on their own home.

NRGY 244 - Bioenergy

Credits: 3. Offered spring. Prereqs., SCN 175N, M 121 and NRGY 102, or consent of instructor. Investigates the physical nature of various biorenewable resources and the technologies currently employed to produce, harvest, refine and convert these into useable energy, feedstocks and products.

NRGY 245 - Fuel Cells

Credits: 3. Offered spring. Prereq., NRGY 101, M 121. An introduction to the different types of fuel cells (hydrogen, biological, metal/air, proton exchange membrane, etc.) accompanied by a critical examination of their applications, operation, efficiencies, advantages and disadvantages. Students must purchase a fuel cell kit for a laboratory component.

NRGY 246 - Geothermal Energy Technology

Credits: 3. Offered Autumn. Prereqs., NRGY 101, M 121, and NRGY 102. An introduction to the physical and technical aspects of geothermal energy systems. Topics covered include the fundamental principles of geology and hydrology, heat flow mechanisms, and a consideration of heat exchange systems including: dry steam, flash, binary systems, heat pumps, passive systems. The course also surveys political, economic, ecological, and social aspects of geothermal energy development.

NRGY 250 - Energy Finance

Credits: 3. Offered summer. An introduction to the terminology, policies, and mathematical models for financing energy technology projects. Concepts covered include time value of money, tax code, triple bottom line, and cost-benefit analysis. Microsoft Excel will be used.

NRGY 260 - Smart Grid Technology

Credits: 3. Prereq., ETEC 105 or equivalent. Provides an overview of smart grid technician opportunities at both the residential and industrial scale. Prepares the student to work in a variety of settings including programming a thermostat, monitoring a grid simulation system, building a simple timer to schedule when major appliances run, familiarity with Energy STAR appliances, and integration with both renewable and non-renewable primary energy sources. Local home and industry tours, and hands-on exposure to programmable logic circuits will be part of the course. Study of efficiency techniques used for reduction of energy consumption at the residential and industrial scale will be included. Career opportunities in a variety of industries related to grid-scale power management will be discussed. Possible projects include the building of a small circuit to coordinate the operation of a suite of appliances.

NRGY 270 - Recycling Technology

Credits: 4. Prereq., Familiarity with general materials and their properties is assumed. Students must possess basic word processing skills, be able to download and open relatively large PDF files, and perform functions such as loading software and navigating between folders and files. Familiarity with basic computing skills is a must for online courses and will significantly influence your course experience. Provides an overview of recycling opportunities at both the residential and industrial scale. Prepares the student to work with a variety of materials including cellulosic, plastic, metal, glass and electronics waste. Students will be exposed to ANSI-IREC standards as well as LEED standards for repurposing and "upcycling" materials. Local home and industry tours, and hands-on exposure to materials processors such as glass pulverizer, cardboard grinders and plastics extruders will be part of the course. Study of efficiency techniques used for reduction of virgin material consumption and waste management, including materials auditing and accessing international materials reclamation will be included. Career opportunities in a variety of industries related to materials reclamation will be discussed. Possible projects include the building of a solar thermal forge.

NRGY 290 - Undergraduate Research

Credits: 1 TO 10. Offered every term. Preq., consent of instr. Independent research under the direction of a faculty member. Course Attributes: Research & Creative Schlrshp

NRGY 291 - Special Topics

Credits: 1 TO 4. (R-6) Offered intermittently. Experimental offerings of Energy Technology faculty and visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

NRGY 292 - Independent Study

Credits: 1 TO 9. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

NRGY 295 - Practicum

Credits: 2. The practicum provides students with a supervised field experience. Students will gain hands-on experience with energy specific technologies in a fast-paced creative environment. This course increases students' occupational awareness and professionalism.

NRGY 298 - Internship

Credits: 2. Offered every term. Prereq., M 121 and consent of instructor. Same as CCS 298. Extended classroom experience providing practical application of classroom learning through on the job training in a student's field of study. This experience increases student skills, prepares them for initial employment, and increases occupational awareness and professionalism. Course Attributes: Internships/Practicums

NRGY 299 - Energy Technology Capstone

Credits: 3. (R-9) Offered spring and autumn. Students participate in an energy technology design, building, testing, and competition. Previous examples include participation in the Shell EcoMarathon and the American Society of Mechanical Engineering Human Powered Vehicle Challenge. This course is very time intensive and will require meetings outside of regularly scheduled class times. Travel to competition is strongly encouraged, but not required.

Surveying

SRVY 230 - Intro to Srvyng for Engineers

Credits: 3. Offered spring. M 090 or ALEKS score >2 recommended prior to taking course. Basic principles of civil surveying and the use of surveying equipment. Surveying introduces students to the link between field (construction) and office (design) practices. Students will become familiar with Global Positioning Systems (GPS), levels, level rods, total stations, basic survey computations, and their relationship to Computer Design Systems.

Business Technology Department

Cheryl Galipeau, Chair

The Business Technology Department of Missoula College collaborates with business and industry to prepare graduates to compete in and contribute to a dynamic global society. The department attracts and retains skilled faculty with the professional experience and theoretical background to utilize diverse instruction which reflects current and emerging business practices. Faculty actively engage student in the learning process by integrating experiential technical education and empowering students to adapt to an ever-changing world.

Students may choose from six Associate of Applied Science degree programs and four Certificate of Applied Science programs. Degree programs include Accounting Technology with an option in Computer Support; Administrative Management with an option in Social Media Management; Food Service Management; Medical Information Technology with options in Health Information Coding Specialty, and Medical Administrative Assisting; Paralegal Studies; and Management with options in Entrepreneurship and Sales and Marketing. Certificate of Applied Science programs include Culinary Arts, Customer Relations, Medical Reception, and Sales and Marketing.

Students may attend classes on Missoula College's East Campus and UM's Mountain campus. Programs may contain day, evening and weekend classes.

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Applied Science Level: Major Subject: **Accounting Technology**

Total Credits: 63 Cumulative GPA Required: 2.0

Almost all organizations need either in-house financial staff or outside bookkeeping/accounting services to aid with financial data compilation and reporting. Bookkeepers and accountants maintain financial records and often participate in strategic planning and other fiscal decisions. Graduates work in small businesses as full charge bookkeepers or large businesses as members of an accounting staff. They are required to communicate extensively with vendors, clients, and employees and are often key players in business projections, cash forecasting, and budgeting. This program provides students the marketable skills for employability in a variety of organizations including service, retail, non-profit, governmental, and accounting firms. Program graduates use technology to gather, compile and analyze data. They communicate budgetary and accounting information to non-financial colleagues and managers. Students considering this program should be analytical, detail-oriented, and enjoy using current technology.

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Applied Science Level: Major Subject: **Administrative Management**

Total Credits: 64 Cumulative GPA Required: 2.0

The Administrative Management Program allows students to advance the career proficiencies acquired in the Customer Relations certificate program by earning an Associate of Applied Science Degree. The Administrative Management program prepares graduates to meet the administrative and information needs of business and industry. Students gain proficiency in computer, management, and information technologies. They complete an academic component to gain an understanding of professional responsibilities in our global society. Graduates of this program become vital members of executive teams with the ability to assume supervisory, organizational, and communication roles in the coordination of administrative services. Students are encouraged to earn Microsoft Office Specialist (MOS) certification on Microsoft Office programs. Earning a Microsoft Office Specialist certification increases job opportunities by demonstrating technical proficiency in advanced skills to potential and current employers. Interested students should discuss this opportunity with the

Administrative Management Program Director. An Associate of Applied Science Degree in Administrative Management opens opportunities for graduates in a variety of business settings.

Missoula College Catalog Year: 2015-2016

Degree Type: Certificate of Applied Science Level: Certificate Subject: **Culinary Arts**

Total Credits: 45 Cumulative GPA Required: 2.0

The Bureau of Labor Statistics indicates that the hospitality field is America's number one retail employer and predicts its growth will increase 30 percent over the next two years. Students entering the Culinary Arts Certificate program or Food Service Management degree program prepare for careers in the hospitality industry. Students develop the skills needed to then seek employment in hotels, restaurants, resorts, casinos, clubs, catering, and corporate dining. Culinary careers encompass hospitality management, sales, product development, and entrepreneurship.

To meet the growing demand of the hospitality industry, two program options are available. Students may earn a Culinary Arts Certificate of Applied Science or a Food Service Management Associate of Applied Science degree.

The Culinary Arts certificate program is three semesters and provides an introduction to the field of culinary arts. Students prepare for an entry-level position in the expanding and challenging food service industry. This program incorporates comprehensive hands-on learning experiences complemented by supportive courses designed to prepare students for a wide range of career opportunities. This program also allows for a seamless transition into the Food Service Management degree.

Degree Type: Associate of Applied Science Level: Major Subject: **Food Service Management**

Total Credits: 66 Cumulative GPA Required: 2.0

The Food Service Management program culminates in an Associate of Applied Science Degree. This program combines theory, practical training, and industry experience to prepare students for entry-level and management positions in the diverse and dynamic hospitality industry. The degree program is designed to continue principles taught in the Culinary Arts certificate program. The spectrum of learning is expanded to include more in-depth professional studies thereby enhancing employment options. Accreditation by the American Culinary Federation ensures graduates' eligibility for certification as an ACF "Certified Culinarian". Technical subject areas include introduction to the industry, basic baking, patisserie, cost control, dining room service, Garde manger, nutritional cooking, fundamental cooking principles, short order cookery, a la carte

stations, menu planning, supervised internship, and the recognized sanitation certificate awarded by the National Restaurant Association Educational Foundation.

Degree Type: Certificate of Applied Science Level: Certificate Subject: **Medical Reception**

Total Credits: 33 Cumulative GPA Required: 2.0

The Medical Reception curriculum provides students with the skills needed to provide exceptional service to patients in a medical setting. In this role, essential duties include scheduling appointments, screening telephone calls, obtaining and entering patient registration information, releasing appropriate medical information, maintaining medical records and managing patient flow. Medical Reception students are instructed in the financial transactions of a practice and will have a clear understanding of all the activities in the billing and collection cycle. Students are provided a broad overview of medical law and the principles of medical ethics as well as the guidelines established by HIPAA. This training also prepares students for the position of a hospital ward secretary.

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Applied Science Level: Major Subject: **Paralegal Studies**

Total Credits: 70 Cumulative GPA Required: 2.0

This program is approved by the American Bar Association. The Paralegal Studies program prepares students for challenging and diverse careers in private law practices and in the law-related areas of business, industry, and government. The goals of the Paralegal Studies program are to enable students, through theoretical and practical legal education, to understand the function of law, to work as paralegals in the effective delivery of legal services, and to enhance the legal profession. This program is designed to equip students with skills to analyze legal issues and to perform a variety of activities including drafting legal documents, interviewing clients, conducting legal research, and preparing cases for trial. Students utilize current technology through

Internet research and legal and general office software applications. Paralegal studies students receive the necessary legal training to take advantage of new career opportunities in all sectors of the economy. Students are exposed to the principles of legal ethics and are cautioned regarding restrictions against the unauthorized practice of law by laypersons. Paralegals may not provide legal services directly to the public, except as permitted by law.

Health Professions Department

Nick Arthur, Chair

The Health Professions Department of Missoula College-University of Montana seeks to prepare students to be health practitioners who are technically competent and who are safe and in a variety of clinical, agency and community settings. The Health Professions Department offers four Associate of Applied Science (A.A.S.) Degrees, one Associate of Science (A.S.) Degree, and one Certificate of Applied Science (CAS) program with courses and learning experiences that contribute to understanding the health needs of individuals and society. Clinical affiliations and on-site experiences are essential elements of all programs; local and regional communities, their agencies, and organizations are a valuable resource and provide cooperative learning experiences in health delivery systems.

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Applied Science Level: Major Subject: **Medical Assisting**

Total Credits: 60 Cumulative GPA Required: 2.75

Students in Medical Assisting are cross-trained with skills and knowledge in front office administrative, clinical, and limited laboratory procedures that are designed to assist healthcare practitioners in administering to the needs of patients. Selected administrative skills include scheduling, medical office accounting systems, medical coding and billing, and electronic medical records. Some of the clinical skills the student will learn include assisting with medical examinations, vital signs, administering medications and injections (under supervision), sterilizing instruments and electrocardiography. Laboratory skills will include venipuncture (under supervision), and performing selected CLIA-waived laboratory tests. Additionally, Medical Assisting students will become acquainted with the laws and regulations governing medicine in the ambulatory setting, as well as ethical issues being confronted in the health care arena. The program is designed to prepare the student for an entry-level position in Medical Assisting.

Students may apply for admission by meeting with the program director. Prior to entry, the student must be able to show competency in computers. Each Spring students will have to provide documentation of vaccines, background

check, etc. as posted on the program's web page. Because some classes are only offered in a specific semester, plus some courses have pre-requisites or co-requisites, meeting with the program director before each semester is necessary to avoid problems.

Students must earn a "C" or better in all courses in order to progress and complete the program. This includes being able to pass 100% of psychomotor and affective competencies required in AHMA 260 & 262 Laboratory courses. A course may be attempted a maximum of two times. At the end of the program the student will perform a 200-hour, unpaid externship/practicum in an ambulatory facility, such as a clinic or doctor's office. The site must be approved by the Program Director. This provides the student with the opportunity to apply the knowledge and skills learned in a real world setting. Students successfully completing the program will be awarded an Associate of Applied Science degree.

Graduates who desire to obtain certification as a Medical Assistant will need to meet with the program director to discuss available options.

A minimum of a C in each Medical Assisting core course is required for graduation. Medical Assisting core courses must be completed with no more than 2 attempts. Total credits for the AAS Medical Assisting degree are 60. The student must show competence in computers to enter the Medical Assisting program.

Missoula College Catalog Year: 2015-2016

Degree Type: Certificate of Applied Science Level: Certificate Subject: **Pharmacy Technology**

Total Credits: 30 Cumulative GPA Required: 3.0

The American Society of Health System Pharmacists/Accreditation Council of Pharmacy Education (ASHP/ACPE) - accredited Pharmacy Technology Program at the University of Montana-Missoula College prepares students to function in hospital-based pharmacies, community pharmacies, and a number of other types of pharmacies. The two-semester program includes classroom, lab, and experiential learning opportunities. Lab and experiential hours allow students to integrate their classroom knowledge into the practical setting. Students are required to rotate to

experiential sites and some may be outside the Missoula area. Transportation and housing are the student's responsibility.

The Pharmacy Technology Program is an autumn entry program. Applicants to the Pharmacy Technology program must complete the program specific application packet which can be obtained on the UM Missoula College Pharmacy Technology webpage. Please note that application deadlines are also found on the program webpage. Generally, applications to the program are due April 1 during the spring semester prior to the autumn semester program start. Documentation of required math and writing assessments must be included in the application packet. Transcripts are not accepted in place of the assessments. Students should place in Level 3 or higher in the ALEKS Math Assessment, and should attain a 7 or better on the E-Write Assessment, or provide alternate assessment scores as instructed in the application packet. Students who do not score high enough on assessments should consult with an advisor to arrange enrollment in the necessary courses to build their skills. Students must either complete Intro to Computers (CAPP 120) or pass the challenge for CAPP 120 prior to enrollment in the Pharmacy Technology Program. The challenge is offered several times each year. Instructions for scheduling the challenge and assessments are found in the application on the program website.

Once accepted into the program, all students are expected to register with the State of Montana as Pharmacy Technicians in Training. Please note the requirements of registration as a Pharmacy Technician in Training found on the application form on the Montana State Board of Pharmacy website:http://bsd.dli.mt.gov/license/bsd_boards/pha_board/pdf/pha_tech.pdf

Students must complete the required autumn PHAR classes with a B or higher to proceed to the spring semester. If a student does not pass the required courses with a B or better, he/she will not be able to continue in the program and will need to apply for readmission. A student may take any required course a maximum of two (2) times.

After successfully completing the program, students are awarded a Certificate of Applied Science and are well prepared for and encouraged to sit for the national technician certification examination such as offered through the Pharmacy Technician Certification Board (PTCB). Some students may be prepared to take the PTCE as early as December of the first semester of the program, so that they may complete their experiential training as certified Pharmacy Technicians rather than Certified Technicians in Training.

Conviction of a crime (misdemeanor or felony) could leave an individual ineligible for participation in the certifying test and/or becoming registered in Montana as a certified pharmacy technician. Background checks are required prior to internships. Additionally, the Montana State Board of Pharmacy Application for Pharmacy Technician Registration includes a number of questions regarding personal history, including but not limited to criminal charges. Please contact the PTCB (Pharmacy Technician Certification Board), www.ptcb.org, and the Montana State Board of Pharmacy (http://bsd.dli.mt.gov/license/bsd_boards/pha_board/board_page.asp) if this is a potential problem. Current salary range in Montana is from \$7 per hour to \$20 per hour, depending on employer, job duties, and experience.

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Applied Science Level: Major Subject: **Practical Nursing**

Total Credits: 52 Cumulative GPA Required: 3.0

The Missoula College offers an Associate of Applied Science degree (A.A.S.) in Practical Nursing (PN). Applicants for the PN program must have a high school diploma or equivalency, have completed the AA prerequisite courses with a minimum grade of C, except in BIOH 201N/BIOH 211N & BIOH 211N/BIOH 212N (SCN 201N and 202N) which requires a B or higher grade, and possess a cumulative GPA of at least 2.75.

Admission to the program also requires completion of the application which can be obtained on the Missoula College UM Nursing webpage. The number of students accepted into the A.A.S. Program is limited to 20 each autumn and spring. A student may apply while enrolled in the final semester of the A.A.S. pre-nursing courses with acceptance to the program to be determined after the currently completed semester grades are finalized. All candidates who meet the admission requirements will be considered.

Students learn practical nursing skills through independent study, lectures, simulations, demonstrations, and practice in a nursing skills lab. Under instructor supervision, students also provide patient care in a variety of health care settings. The program is approved by the Montana State Board of Nursing (301 South Park, Helena, MT 59601).

Students must provide proof of having met the following requirements to the Nursing Program Administrative Associate on or before the first day of class:

1. Two step Tuberculosis testing using the PPD (Purified Protein Derivative) or chest x-ray (positive results will require a physician's letter before a student can continue in clinical settings);
2. Hepatitis B vaccine, (HBV, a three injection series that may be obtained at Curry Health Center and other health care providers). The Hepatitis B vaccine must be started on or before acceptance into the program so the three injections series is completed by the time clinical begins;
3. Measles, mumps and rubella (MMR) immunization (for those born before 1956, it is not required to have an MMR, but a titer must be completed);
4. Influenza Vaccination;
5. Varicella (Chicken Pox) Vaccination;
6. BLS training for health care providers;
7. Proof of insurance;
8. Criminal Background Check

Many licensing bodies and employing institutions in health care have increasingly stringent requirements and background checks as conditions for licensing or employment. If a student has concerns about this, she/he should contact the licensing board for nursing at dlibsdnur@mt.gov.

Practical Nursing program graduates are eligible to write the National Council Licensing Examination (NCLEX) for Practical Nurses. Completion of the A.A.S. Practical Nursing Program does not guarantee a student licensure. This is a decision of the Montana State Board of Nursing.

After licensure, graduates typically find employment in hospitals, long term care facilities, physician offices and other health care agencies. They work under the supervision of a registered nurse, physician, dentist, osteopath or other health care provider as specified in the State of Montana Nurse Practice Act.

Degree Commentary: A minimum cumulative GPA of 2.75, successful completion of prenursing courses within 2 attempts, and acceptance through an application process is needed for entrance into the Practical Nursing Program.

Total credits for the AAS Practical Nursing degree are 52. This includes prenursing credits (26 credits) and AAS Practical Nursing credits (26 credits).

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Applied Science Level: Major Subject: **Radiologic Technology**

Total Credits: 83 Cumulative GPA Required: 2.75

A Radiologic Technologist (Radiographer) uses critical thinking and independent judgment to obtain a diagnostic imaging study while maintaining quality patient care and minimizing radiation exposure. Technologists are employed in acute care settings, ambulatory care settings, physicians' offices, in education and in management or sales positions. With additional education and training, radiographers may be employed in radiation therapy, computed tomography, mammography, magnetic resonance imaging, diagnostic medical ultrasound, nuclear medicine, special vascular imaging and cardiac catheterization.

The Associate of Applied Science degree in Radiologic Technology requires students to successfully complete the Pre-Radiology prerequisite courses prior to applying to the program. Students admitted to the University of Montana may enroll in the Pre-Radiology prerequisite courses. Students must pass BIOH 201N-202N (SCN 201N-202N) with a minimum grade of 'B', and have a minimum cumulative GPA of 2.75 in all course work including prerequisite courses to apply to the Radiologic Technology program. Students must prove competence with computer technology in one of the following three ways: Acceptable transfer credit for CAPP 120; Pass the challenge exam for CAPP 120; take and pass CAPP 120. A course may be attempted a maximum of two times. As some courses are offered autumn or spring semester only, it is important to obtain advising with the Program Director or other Radiology Faculty each semester prior to registration. Application to the program is required spring semester the

year prior to the autumn semester program start. Students may apply while enrolled in the Pre-Radiology prerequisite courses with acceptance to the program to be determined after spring grades are finalized. Students who apply twice to the program and are not accepted are strongly encouraged to contact Career Services for counseling toward another degree. The program classes begin autumn semester each year with four semesters consisting of classroom and clinical education. A ten-week summer clinical rotation is required between the first and second years and consists of 40 hours per week of clinical and classroom instruction.

Once accepted into the program, all students are expected to complete BIOH 211N-212N (SCN 202N) and all courses with an AHXR rubric with a minimum grade of "B" to continue in the program.

The Radiologic Technology program is approved by the American Registry of Radiologic Technologists (ARRT) and accredited by the Northwest Association of Schools and Colleges. When all requirements for the associate degree are completed, the student will be eligible to take the national certification examination administered by the American Registry of Radiologic Technologists. Upon successful completion of this examination, the student becomes a Registered Radiologic Technologist, R.T. (R) ARRT.

Students entering the program are required to rotate to clinical sites outside the Missoula area on a periodic basis. These rotations will take place during any term or session beginning the second semester of the program. These sites may include, but are not limited to, Ronan, Hamilton, and Polson, Montana. Transportation and housing are the student's responsibility.

Commentary: These courses cannot be taken unless accepted into the program through the application process. AHXR 195 represents spring at 8 credits and summer at 12 credits. AHXR 295 is taken Fall at 8 credits and second year spring at 9 credits. For AHXR courses the minimum grade is a B. For all other courses it is a C.

Degree Commentary: It is preferred that students have the prerequisite core completed by the end of the semester in which they intend to apply to the program (i.e. applying to the program in the spring and completing the core by the end of that spring semester.) Students must also prove competence with computer technology prior to application to the Radiology Technology Program in one of the following three ways: a) Acceptable transfer credit for CAPP 120, b) Passing challenge exam for CAPP 120, or c) Take and pass CAPP 120

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Science Level: Major Subject: **Registered Nursing**

Total Credits: 26 Cumulative GPA Required: 3.0

The Associate of Science degree (A.S.N.) program articulates with the PN program and requires at least two additional semesters of full-time study. Applicants must have completed a PN program with the A.A. pre-nursing courses listed in the practical nursing course of study, and have a cumulative GPA of at least 2.75. A.A.S. PN students are eligible to apply to the A.S.N. program during the final semester of the A.A.S. PN program. Admission to the program also requires completion of the application which can be obtained on the Missoula College Health Professions webpage. The number of students accepted into the A.S.N. program is limited to 18 each autumn and spring. Of the 18 students accepted, 10 are in the on campus, face-to-face program and 8 are part of the hybrid program. All candidates who meet the admission requirements will be considered. Students learn Registered Nursing skills through independent study, lectures, simulations, demonstrations and advanced skills practice in the nursing lab. Under instructor supervision and preceptorship, students also provide patient care in a variety of acute care settings.

The A.S.N. degree program is approved by the State Board of Nursing (301 South Park, Helena, MT 59601). The program is accredited by the National League of Nursing Accrediting Commission (NLNAC) (3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326).

Commentary: Students must pass all NRSG courses with a minimum grade of a B.

It is highly recommended that students have BIOM 250N, BIOM 251N and SOCI 101S completed prior to admission to the ASN program. BIOM 250N, BIOM 251N and SOCI 101S are required for graduation from the program. Total credits for the ASN Registered Nursing Degree is 78. This includes pre-nursing credits (26 credits), AAS Practical Nursing credits (26 credits), and ASN Registered Nursing credits (26 credits).

Degree Commentary: Successful completion of pre-nursing courses and Practical Nursing courses within 2 attempts and acceptance through an application process is needed for entrance into the Associate of Science Nursing Program. Students may apply to the Associate of Science Nursing Program transferring directly from successful completion of a Practical Nursing Program or as a Licensed Practical Nurse.

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Applied Science Level: Major Subject: **Respiratory Care**

Respiratory Care is an allied health specialty. It is an important part of modern medicine and health care. Respiratory Care encompasses the care of patients with respiratory problems in the hospital, clinic, and home. Respiratory therapists, as members of a team of health care professionals, work to evaluate, treat, and manage patients of all ages with respiratory illnesses and other cardiopulmonary disorders in a wide variety of clinical settings. Respiratory therapists must behave in a manner consistent with the standards and ethics of all health care professionals. In addition to performing respiratory care procedures, respiratory therapists are involved in clinical decision-making (such as patient evaluation, treatment selection, and assessment of treatment efficacy) and patient education. The scope of practice for respiratory therapist includes, but is not limited to:

acquiring and evaluating clinical data;

assessing the cardiopulmonary status of patients;

performing and assisting in the performance of prescribed diagnostic studies, such as drawing blood samples, performing blood gas analysis, pulmonary function testing, and applying adequate recording electrodes using polysomnographic techniques;

utilizing data to assess the appropriateness of prescribed respiratory care;

establishing therapeutic goals for patients with cardiopulmonary disease;

participating in the development and modification of respiratory care plans;

case management of patients with cardiopulmonary and related diseases;

initiating ordered respiratory care, evaluating and monitoring patients' responses to such care, modifying the prescribed respiratory therapy and cardiopulmonary procedures, and life support endeavors to achieve desired therapeutic objectives;

initiating and conducting prescribed pulmonary rehabilitation;

providing patient, family, and community education;

promoting cardiopulmonary wellness, disease prevention, and disease management;

participating in life support activities as required; and

promoting evidence-based medicine, research, and clinical practice guidelines.

Starting salaries are excellent with premiums paid for evening, night, and weekend shifts. Jobs are plentiful throughout the United States. Graduates are eligible to take the credentialing examinations administered by the National Board for Respiratory Care (NBRC) which lead to the Registered Respiratory Therapist (RRT) credential. Licensure requirements in the state of Montana also are met by successful completion of the NBRC Entry Level (CRT) examination.

The goal of the program is, "To prepare graduates with demonstrated competence in the cognitive (knowledge), psychomotor (skills), and affective (behavior) domains of respiratory care practice as performed by registered respiratory therapists (RRTs)" CoARC standard 3.01.

The program is 4 ½ semesters in length which includes the AA prerequisite courses and a summer session. The Respiratory Care Program at The University of Montana Missoula College, is accredited by the Commission on Accreditation for Respiratory Care (www.coarc.com), 1248 Harwood Road, Bedford, Texas 76021-4244. Graduates receive the degree of Associate of Applied Science in Respiratory Care.

Students accepted to the program are required to rotate to clinical sites outside the Missoula area on a periodic basis. These rotations take place during the spring semester, summer session and autumn semester of the second year. These sites may include, but are not limited to: Kalispell, Ronan, Polson, Butte, Billings, Bozeman, Hamilton, Helena, Coeur d'Alene and Lewiston, Idaho and Spokane, Washington. Transportation and housing are the student's responsibility.

AHRC 255	Clinical Experience I	5	S	
AHRC 260	Resp Care Lab III	1	SU	
AHRC 265	Clinical Experience II	5	SU	
AHRC 270	Resp Care Lab IV	1	F	
AHRC 275	Clinical Exp III	6	F	

Degree Commentary: It is preferred that students have the prerequisite core completed by the end of the semester in which they intend to apply to the program (i.e. applying to the program in the spring and completing the core by the end of that spring semester.) However, those students who anticipate completing the core by the end of the summer semester are still encouraged to apply in the spring and may be granted provisional acceptance. Computer competency must be demonstrated by taking CAPP 120 or may be challenged by testing out.

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Applied Science Level: Major Subject: **Surgical Technology**

Total Credits: 68 Cumulative GPA Required: 2.75

Students in the program are educated to be Surgical Technologists who work as part of the surgical team to ensure the operative procedure is conducted under optimal conditions. The ST is responsible for three phases (preoperative, intraoperative, and postoperative) of patient care with minimal direction. All surgical team members must adhere to the principles of asepsis and the practice of sterile technique. The ST normally functions in a sterile capacity by passing instruments, equipment and supplies to the surgeon during the surgical procedure but may also perform many non-sterile duties throughout the workday.

Students admitted to the University of Montana enter as Associate of Arts (AA) General Studies majors with an emphasis in the program of their choice. Students must select the specific prerequisite courses required for their chosen area of study after meeting with the program advisor. Students must apply to the program by October 1. Students may apply while enrolled in the A.A. prerequisite courses with acceptance to the program to be determined after the Autumn semester grades are finalized. BIOH 201N/202N, Anatomy and Physiology I, and lab, must be passed with a grade of B (3.0) and be a face-to-face course. The program-specific courses begin spring semester. Once accepted to the program, a student must complete each Surgical Technology-specific course (those courses with an AHST with a minimum grade of 'C' (80%) in order to continue in the ST program. Course grading scales may vary. If a student does not pass the required courses, he/she will not be able to continue in the program and will need to apply for readmission. If a student is re-admitted, he/she will be required to complete skills labs, AHST 115 and AHST 215, to ensure sterile technique skills are acceptable for patient care. A student may take any required course a maximum of two (2) times. A student may apply to the program a maximum of two (2) times.

A student will become a member of the Association of Surgical Technologists (www.ast.org) during the first year in the program. A student anticipating program completion will write the National Certification Exam prior to graduation. A student who successfully completes the ST program is awarded an A.A.S. degree in Surgical Technology. The credential of Certified Surgical Technologist (CST) will be awarded to a student upon passing the National Certification Exam and graduation from the ST program. The credential of Certified is awarded by the National Board of Surgical Technology and Surgical Assisting (NBSTSA).

Students are required to rotate sites during the clinical portion of their education. During the last semester of the program, internships may be outside the Missoula area. Transportation and housing are the student's responsibility. Prior to entering a healthcare facility for clinical experiences, a student will be required to submit a background check. Many healthcare facilities have increasingly stringent requirements. A student could be refused entry into a clinical facility based on information disclosed in a background check. If this is a concern for you, please consult the Program Director. If a student is denied agency access based on the Background Check, there will be no placement at an alternate site, and the subsequent inability of the student to complete the clinical education will result in inability to continue in the Surgical Technology program.

The University of Montana Missoula College Surgical Technology Program also has Outreach campuses in Butte and Billings. The Butte site is the Montana Tech of The University of Montana Highlands College campus in collaboration with St James Healthcare. The Billings site is the Montana State University-Billings City College campus in collaboration with St Vincent Healthcare and Billings Clinic. Students at those sites take the equivalent prerequisite courses on their respective campuses. The Surgical Technology-specific courses begin spring semester. Students must apply to the ST program by October 1. Students may apply while enrolled in the prerequisite courses with acceptance to the program to be determined after fall grades are finalized. The classroom portion of the ST program curriculum is delivered in web-based format using the Moodle course delivery system from the Missoula campus. Lab and clinical courses are conducted on each Outreach campus. Outreach students are required to travel to Missoula to write the National Certification Exam and to participate in Commencement

exercises. Prospective students may contact the Health Professions' Office at 406-243-7868 for more information regarding the ST Program on the Butte and Billings campuses. Please refer to the specific course catalogs on the Butte and Billings campuses for prerequisite requirements.

The ST program is accredited by the Committee on Accreditation of Allied Health Education Programs (CAAHEP), 1361 Park St., Clearwater, FL 33756; phone 727-210-2350, www.caahep.org.

Lower Division Core

Category Name: Surgical Technology Prerequisite Courses

Rule: All courses required

Criterion: C-

Course Listing		Number of Credits	20	
AHMS 144	Medical Terminology	3		F,S,SU
BIOH 201N	Human Anat Phys I (equiv 301)	4		F,S
BIOH 202N	Human Anat and Phys I Lab	4		F,S
CAPP 120	Introduction to Computers	3		F,S,SU
M 105	Contemporary Mathematics	3		F,S,SU
PSYX 100S	Intro to Psychology	4		F,S,SU
WRIT 121	Intro to Technical Writing	3		F,S,SU

Commentary: WRIT 101 College Writing can be taken instead of WRIT 121 Intro to Technical Writing; BIOH 201N/202N must be passed with a minimum of a B

Lower Division Core

Degree Commentary: It is preferred that students have the prerequisite core completed by the end of the semester in which they intend to apply to the program (i.e. applying to the program in the fall semester and completing the core by the end of that fall semester.) CAPP 120 may be challenged by testing out. WRIT 101 or WRIT 121 only one is required. BIOM 250 and AHMS 270E may be taken prior to applying.

Course Descriptions

AHMS 108 - Health Data Content & Struct

Credits: 2. Offered spring. In-depth study of origin, use, content and structure of health records; storage and retrieval systems; numbering and filing systems; documentation requirements; use and structure of health care data sets; and how these components relate to primary and secondary record systems. Additional topics include gathering, compilation and computing of healthcare related statistics, use of research and statistical methods for developing healthcare data into information for various requesters. Course Attributes: Technical Course

AHMS 144 - Medical Terminology

Credits: 3. Offered every term. Introduction to a medical word building system using Greek and Latin word roots, combining forms, suffixes, and prefixes. Course Attributes: Technical Course

AHMS 156 - Medical Billing Fundamentals

Credits: 3. Offered every term. Prereq. or coreq., AHMS 220 or consent of instr. An introduction to insurance claim processing for the major medical insurance programs. Students will be provided with a basic knowledge of CPT and ICD-9 procedural and diagnostic coding. Emphasis on completing universal insurance forms to maximize reimbursement as well as trouble shoot denied or underpaid claims. Course Attributes: Technical Course

AHMS 160 - Beginning Procedural Coding

Credits: 3. Offered autumn. Prereq., AHMS 156, AHMS 108 or consent of instr. Foundation for utilizing the CPT coding system to increase compatibility and comparability of medical data among users and providers.

AHMS 162 - Beginning Diagnosis Coding

Credits: 3. Offered autumn. Prereq., AHMS 156, AHMS 108 or consent of instr. Introductory foundation for utilizing the International Classification of Diseases coding for classification of morbidity and mortality information for statistical purposes and for indexing medical records by disease and operation.

AHMS 164 - AHMS 164 Beginning Diagnosis Coding: ICD-10

Credits: 3. This course covers basic and intermediate levels of theory and application of ICD-CM principles and guidelines for coding and sequencing diagnoses and procedures. Students perform basic and intermediate coding using real health records, case studies, and scenarios. Application will focus on the use of the electronic ICD-10-CM with an overview of encoder software. This coding class involves hands-on coding, and knowledge of basic use of applicable coding books or the electronic ICD-10-CM. Currently the students take this course through Great Falls

AHMS 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

AHMS 192 - Independent Study

Credits: 1 TO 9. Course material appropriate to the needs and objectives of the individual student.

AHMS 212 - CPT Coding

Credits: 3. Offered spring. Prereq., AHMS 210 or consent of instr. Comprehensive application of the CPT coding system to assign codes for services, supplies and equipment for comparative analysis, research and reimbursement.

AHMS 213 - ICD-10 CODING

Credits: 3. Prereq., AHMS 164. Basic understanding of diagnostic and procedural coding principles should already be established. The course requires interpreting ICD-10-CM coding and reporting guidelines to sequence and assign appropriate diagnostic codes for both inpatient and various outpatient settings. Compliance issues associated with various IPPS reimbursement systems such as MS-DRGs, as well as APCs are covered. Encoder

software will complement the ICD-10-CM manual in the application of coding processes. Clinical information will be interpreted from brief case studies and progress to the coding of health record excerpts.

AHMS 216 - Pharmaceutical Products

Credits: 3. Offered autumn. Fundamental principles of pharmacology and the implications of medication use. Includes the law as it pertains to drug use, dosage forms, routes of administration as well as the pharmacologic actions and uses of drugs.

AHMS 220 - Medical Office Procedures

Credits: 4. Offered autumn. An introduction to the necessary skills and qualities required to function successfully in the medical arena. Emphasis on medico-legal and ethical responsibilities, records management and financial management of the medical practice, and interpersonal communications to include patient reception, telephone techniques and appointment scheduling. Course Attributes: Technical Course

AHMS 245 - Simulated Lab

Credits: 3. Prereq., consent of instr. This course will use computer applications and software in maintaining health information in medical records through practice utilizing HIT applications through the AHIMA Virtual Lab, to include the following applications: Master Patient Index, Electronic Health Record, Encoder, Abstracting, Chart Tracking, Release of Information.

AHMS 252 - Computerized Medical Billing

Credits: 2. Offered spring, Prereq., AHMS 156; prereq. or coreq. AHMS 220; or consent of instr. A medical package is used to enter and update patient data, enter charges, payments and adjustments, and generate management reports, insurance forms, and patient statements.

AHMS 255 - Medical Transcription I

Credits: 3. Offered every term. Prereq., CAPP 154; prereq. Or coreq., AHMS 144. An introduction to the transcription of authentic physician-dictated medical reports in a variety of medical specialties. Emphasis on the development of accuracy and speed in interpreting, transcribing and editing medical dictation for content and clarity.

AHMS 256 - Medical Transcription II

Credits: 3. Offered every term. Prereq., CAPP 154 and AHMS 255. Advanced medical transcription of realistic physician-dictated medical reports in a variety of medical specialties. Emphasis on production and increased speed in interpreting, transcribing and editing medical dictation for content and clarity. Course Attributes: Technical Course

AHMS 270E - Medical Ethics

Credits: 3. Offered every term. Ethical decision-making tools for addressing common ethical issues in the health professions. Course Attributes: Ethical & Human Values Course

AHMS 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

AHMS 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

AHMS 298 - Medical Info Internship

Credits: 3. Offered every term. Prereq., last semester in program, minimum of "C" in AHMS/AHMA (MED) courses, and approval of program director. On-the-job training in positions related to each student's career goal in the medical information field. This experience increases students' skills, prepares them for initial employment and advancement on the job, and increases occupational awareness and professionalism. Students work a minimum of 180 hours at an approved site and attend a scheduled one-hour seminar. Course Attributes: Internships/Practicums

Allied Health Respiratory Care

AHRC 101 - Communication Management

Credits: 1. Offered autumn. Prereq., Acceptance into Respiratory Care Program. Study of respiratory care departmental organization and administration procedures, effective communication strategies, and legal and ethical issues for the Respiratory care professional.

AHRC 115 - Blood Gas Analysis

Credits: 2. Offered autumn. Prereq., acceptance into the Respiratory Care program. Study of the indications, rational, methods, instrumentation, and analysis of Blood Gases. Emphasis will be placed on the physiology and clinical implications of acid-base abnormalities.

AHRC 129 - Patient Care & Assessment

Credits: 4. Offered autumn. Prereq., BIOH 201N-202N. Introduction to nursing- related knowledge and skills with emphasis on application of microbiology to aseptic technique. Assessment of the respiratory system with cardiopulmonary diagnostic and laboratory tests interpretation. Observation and interpretation of overall patient condition is integrated throughout the course. Course Attributes: Technical Course

AHRC 130 - Respiratory Care Lab IB

Credits: 1. Offered autumn. Prereq., acceptance into the Respiratory Care program. Basic clinical competencies taught in RES 129 are studied in a laboratory setting. Peer and instructor review of competencies included. Students focus on patient assessment skills and techniques/equipment.

AHRC 131 - Resp Care Fundamentals

Credits: 5. Offered autumn. Prereq., acceptance into the Respiratory Care program. Orientation to basic respiratory care science including the application of principles of physics and chemistry. Emphasis on theory, operation and troubleshooting of equipment used at the entry level of practice. Microbiology in relation to equipment processing, pulmonary rehabilitation and home care included. Course Attributes: Technical Course

AHRC 133 - Resp Care Pharmacology

Credits: 3. Offered winter. Prereq., acceptance into the Respiratory Care Program or consent of instr. Principles of basic chemistry introduced with an application to pharmacology as related to the pulmonary system. Cardiovascular and related pharmacology studied in preparation for ACLS and ventilator management. Course Attributes: Technical Course

AHRC 150 - Respiratory Care Lab I

Credits: 1. Offered autumn. Prereq., acceptance into the Respiratory Care program. Basic clinical competencies taught in RES 131 are studied in a laboratory setting. Peer and instructor review of competencies included. Students earn their BLS certification. Course Attributes: Technical Course

AHRC 231 - Resp Crit Care

Credits: 4. Offered spring. Prereq., RES 120, 129, 131, 133, 150. Continuation of RES 131. Physiology, indication, contraindications, and application of mechanical ventilation. Emphasis on patient assessment, monitoring, stabilization and weaning during assisted pressure breathing. Analysis of the various modes of ventilation, including optimizing the patient-ventilator interface in the adult through various advanced airway techniques. Course Attributes: Technical Course

AHRC 232 - Resp Path & Disease

Credits: 3. Offered spring. Prereq., RES 120, 129, 131, 133, 150. Special lectures in medicine and disease as related to the cardiopulmonary system. Emphasis on recognition of signs and symptoms of disease and implications for treatment through the study of selected case studies. Course Attributes: Technical Course

AHRC 235 - Cardiopulm Anat & Phys

Credits: 3. Offered spring. Prereq., RES 120, 129, 131, 133, 150 or consent of instr. Principles of physiologic chemistry are introduced and applied to the macro and micro anatomy of the cardiopulmonary system with a focus on structure and function. Application made to pathology and assessment of patients receiving mechanical ventilation. Course Attributes: Technical Course

AHRC 242 - Respiratory Management

Credits: 1. Offered autumn. Prereq., RES 260T, 265T. Study of respiratory care departmental organization and administration procedures. Course Attributes: Technical Course

AHRC 243 - Perinat & Pediat Res Care

Credits: 3. Offered autumn. Prereq., RES 260, 265. Study of perinatal and pediatric respiratory care with emphasis on assessment, resuscitation and mechanical ventilation of the neonate and pediatric patient. The theory of Neonatal Resuscitations (NRP) will be presented. Neonatal and pediatric diseases will be studied. Course Attributes: Technical Course

AHRC 250 - Respiratory Care Lab II

Credits: 2. Offered spring. Prereq., RES 120, 129, 131, 133, 150. A continuation of RES 150 with emphasis on adult critical care. Clinical competencies taught in RES 231 and RES 235 are studied in a laboratory setting. Peer and instructor review of competencies included. Course Attributes: Technical Course

AHRC 252 - Respiratory Care Review

Credits: 2. Offered autumn. Prereq., RES 260, 265. A review of respiratory care in preparation for credentialing exams. Students must take an Entry Level Self-Assessment Exam, a Written Registry Self-Assessment Exam, and a Clinical Simulation Self-Assessment Exam. Course Attributes: Technical Course

AHRC 255 - Clinical Experience I

Credits: 5. Offered spring. Prereq., RES 120, 129, 131, 133, 150. Emphasis on the student directly performing basic clinical skills in a patient care setting to include hospitals, home care, and pulmonary function laboratories. Students also participate in physician rounds. Course Attributes: Technical Course

AHRC 260 - Resp Care Lab III

Credits: 1. Offered summer. Prereq., RES 231, 232, 235, 250, 255. Students study principles and theory of advanced life support. Peer and instructor review are included. Students will be Advanced Cardiac Life Support (ACLS) and Pediatric Advance Life Support (PALS) certified at the end of this class. Course Attributes: Technical Course

AHRC 265 - Clinical Experience II

Credits: 5. Offered summer. Prereq., RES 231, 232, 235, 250, 255. Continuation of clinical skills learned in RES 255. Introduction to adult critical care along with sleep and cardiac diagnostics. Students also participate in physician rounds. Course Attributes: Technical Course

AHRC 270 - Resp Care Lab IV

Credits: 1. Offered autumn. Prereq., RES 260, 265. Emphasis on neonatal and pediatric critical care. Clinical competencies introduced in RES 241 are studied. Peer and instructor review of competencies are included. Course Attributes: Technical Course

AHRC 275 - Clinical Exp III

Credits: 6. Offered autumn. Prereq., RES 260, 265, 270. Continuation of RES 265 with critical care of the adult. Neonatal and pediatric critical care experiences are emphasized. Students also participate in physician rounds.
Course Attributes: Technical Course

AHRC 291 - Special Topics

Credits: 1 TO 8. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Technical Course

AHRC 292 - Independent Study

Credits: 1 TO 6. Course material appropriate to the needs and objectives of the individual student.

Surgical Technology

AHST 101 - Introduction to Surgical Techn

Credits: 3. Offered spring. Prereq., admission to the program. Provides an orientation to the scrub and circulatory roles of the surgical technologist in the preoperative, intraoperative and postoperative periods. Entry level skills and theories are emphasized. Course Attributes: Technical Course

AHST 115 - Surgical Lab I

Credits: 2. Offered spring. Prereq., admission to the program. Demonstration of sterile technique in the campus lab, various skills and their application in the operating room. Course Attributes: Technical Course

AHST 154 - Surgical Pharmacology

Credits: 3. Offered spring. Prereq., admission to the program, M 090. Basic overview of the medications that are commonly used before, during and after a surgical procedure.

AHST 191 - Special Topics

Credits: 1 TO 9. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Ethical & Human Values Course Technical Course

AHST 200 - Operating Room Techniques

Credits: 5. Offered autumn. Prereq., completion of all second semester courses. Focus on the scrub and circulator roles of the surgical technologist in the preoperative, intraoperative, and postoperative periods. More complex skills and theories; impact of new technologies in the 21 century st operating room. Course Attributes: Technical Course

AHST 201 - Surgical Procedures I

Credits: 4. Offered autumn. Prereq., completion of all second semester courses. A study of surgical procedures following the patient through the preoperative, intraoperative, and post-operative stages of specific surgical specialties. Course Attributes: Technical Course

AHST 202 - Surgical Procedures II

Credits: 5. A study of surgical procedures following the patient through the preoperative, intraoperative, and postoperative stage of CV/thoracic, orthopedic, neurological, and ophthalmic specialties. Course Attributes: Technical Course

AHST 215 - Surgical Lab II

Credits: 2. Offered spring. Demonstration of more complex skills in the campus lab, including assistant circulating, and their application in the operating room. Course Attributes: Technical Course

AHST 250 - Surgical Clinical I

Credits: 4. Offered autumn. Prereq., completion of all second semester courses and successful completion of AHST 215. Perioperative experience in the minor surgical procedure role through a supervised clinical hospital rotation.

AHST 251 - Surgical Clinical II

Credits: 5. Offered spring. Prereq., completion of all third semester courses. Perioperative experience in the major surgical procedure role through a supervised clinical hospital rotation. Course Attributes: Technical Course

AHST 298 - Surgical Internship

Credits: 5. Offered spring. Prereq., successful completion of AHST 202, 251T. Capstone experience in the perioperative role in preparation for initial employment, increasing occupational awareness and professionalism.

Students take call for emergency surgeries alongside experienced hospital staff. Course Attributes:

Internships/Practicums

Radiologic Technology

AHXR 100 - Intro to Diagnostic Imaging

Credits: 3. Offered fall. Introduction to the field of radiology and its mix of technical equipment, lab work, hospital environment, patient care and team work. Course Attributes: Technical Course

AHXR 121 - Radiographic Imaging I

Credits: 4. Offered spring. Introduction to fundamental physics principles underlying radiology and diagnostic x-ray production. Topics include electromagnetic waves, electricity and magnetism, electrical energy, and power and circuits as they relate to radiography. Factors of image quality and exposure methods: density, contrast, recorded detail, distortion, technique charts, manual and automatic exposure control, and tube rating charts. Course

Attributes: Technical Course

AHXR 140 - Radiographic Methods

Credits: 2. Offered fall. Preparation in the procedures associated with radiology in standard radiographic environments. Course Attributes: Technical Course

AHXR 141 - Radiology Lab

Credits: 1. Co-Requisite AHXR 140 Radiological Methods. Students will practice all patient positioning skills necessary for competency as Radiologic Technologists.

AHXR 192 - Independent Study

Credits: 1 TO 6. Course material appropriate to the needs and objectives of the individual student. Course

Attributes: Technical Course

AHXR 195 - Radiographic Clinical: I

Credits: 1 TO 12. (R-20) Offered over two semesters throughout the Radiology Technology program, beginning Spring semester. Students will begin with an introduction to patient management and basic radiographic procedures. The final semester offers opportunities in advanced patient management skills and experience with highly skilled radiographic procedures. Each semester builds on the previous semester, always emphasizing the principles of ALARA. Course Attributes: Internships/Practicums

AHXR 221 - Radiographic Imaging II

Credits: 3. Offered autumn. Offers students more technical and detailed information on the use of image receptor systems, processing principles, advanced digital imaging systems and imaging modalities used in radiology.

AHXR 225 - Radiobiology/Radiation Protctn

Credits: 2. Offered autumn. Principles of radiation protection and radio biology. Topics include the effects of ionizing radiation on body tissues, protective measures for limiting exposure to the patient and personnel, and radiation monitoring devices. Course Attributes: Technical Course

AHXR 240 - Radiological Methods II

Credits: 3. Offered spring. Knowledge and skills necessary to perform standard and specialty radiographic procedures. Emphasis on radiographic specialty procedures, pathology, and advanced imaging.

AHXR 270 - Radiographic Registry Review

Credits: 2. Offered spring. An overview of imaging concepts as a review for the national certification test. Topics include a systematic approach for image evaluation, patient care, radiation protection and the physics of radiographic imaging. Course Attributes: Technical Course

AHXR 291 - Special Topics

Credits: 1 TO 6. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

AHXR 295 - Radiographic Clinical: I

Credits: 1 TO 9. (R-20) Offered over two semesters throughout the Radiology Technology program, beginning Spring semester. Students will begin with an introduction to patient management and basic radiographic procedures. The final semester offers opportunities in advanced patient management skills and experience with highly skilled radiographic procedures. Each semester builds on the previous semester, always emphasizing the principles of ALARA. Course Attributes: Internships/Practicums

AHXR 298 - Internship

Credits: 1. Extended classroom experience which provides practical application of classroom learning during placements off campus. Course Attributes: Internships/Practicums

Nursing

NRSG 100 - Introduction to Nursing

Credits: 1. Offered each semester. This online course is a prerequisite to the Practical Nursing program. Student will be presented with an introductory level of the core concepts of nursing practice and other issues such as the legal concerns and ethical/cultural issues that face professional nurses on a consistent basis. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt

NRSG 106 - Nursing Assistant

Credits: 4. The Nursing Assistant course will prepare students for careers in health care under the supervision of the licensed nurse. Students will learn the basic entry-level nursing skills to work in health care setting as a Certified Nursing Assistant. Course includes providing or assisting in client care, bathing, dressing, grooming, toileting, ambulation, transferring, feeding, using equipment, documenting and reporting the general well-being of the client.

NRSG 110 - Dosage Calculation Hlth Prof

Credits: 2. This course is intended to provide the student the theory and psychomotor skills to correctly and safely calculate medications for clients in diverse health care settings. It will prepare students for the calculations used in health care professions. Students will review various systems of weights and measures (metric, apothecary, and household), conversions between these systems, ratio/proportions, dosage calculations, percentage preparations, reducing and enlarging formulas, dilution, concentrations, and intravenous flow rates.

NRSG 130 - Fundamentals of Nursing

Credits: 7. Offered autumn and spring. Prereq: acceptance into the Practical Nursing Program. Introduces learners to the clinical skills essential for the nursing role. Also includes complex concepts and behaviors of nursing roles within the context of the nursing process, holistic care and health care. Emphasizes the theoretical and practical concepts of nursing skills required to meet the needs of clients in a variety of settings. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt

NRSG 131 - Fundamentals of Nursing Lab

Credits: 3. Offered autumn and spring. Prereq., SCN 201N-202N, M 115, WRT 101, SCN 150N, PSYX 100S, CHMY 121N with lab, and acceptance into the practical nursing program. Introduces the student to basic principles and psychomotor skills to provide a framework for developing initial competencies in patient care. Campus lab experience is used initially. Off campus clinical experience in a long term care setting completes the hands on portion. Successful students are qualified to apply for certification as certified nurse assistants.

NRSG 135 - Nursing Pharmacology

Credits: 3. Offered autumn and spring. Prereq: acceptance into the Practical Nursing Program. Students learn a structured systematic approach to the study of drug therapy through caring, communication, professionalism, critical thinking, and clinical judgment. Medications are studied according to drug classes, and therapeutic families. Students will learn to apply the nursing process to drug therapy with an emphasis on accessing relevant information to ensure client safety. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt

NRSG 138 - Gerontology for Nursing

Credits: 2. Offered autumn and spring. Prereq: acceptance into the Practical Nursing Program. Introduces the student to the skills and knowledge needed to provide nursing care to aging clients. Topics explored include current trends (including legal and ethical issues) in gerontological nursing, developmental stages and transitions associated with aging, expected age-related physiological changes, and assessment findings, recognition and management of acute and chronic illness that commonly occur in the older adult population, promotion of health for the older adult client, end-of-life issues and care. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt

NRSG 140 - Core Concepts of Adult Nursing

Credits: 7. Offered spring and autumn. Prereq: successful completion of semester 1 of the PN nursing program. Prepares the student to care for clients experiencing common, well-defined health alterations in settings where stable clients are anticipated. Students are introduced to standardized nursing procedures and customary nursing and collaborative therapeutic modalities. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt

NRSG 142 - Cre Cncpts of Mtrnl Chld Nrsng

Credits: 3. Offered autumn and spring. Prereq: successful completion of semester 1 of the PN nursing program. Information about fetal development and prenatal and postnatal care of the mother and newborn emphasizing caring, communication, professionalism, and critical thinking. Role of the nurse in meeting the needs of the family is emphasized. Clinical application of caring for the mother and newborn will allow the student to demonstrate acquired knowledge. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt

NRSG 143 - Cre Cncpts Mtrnl Chd Nrsng Cln

Credits: 3. Offered intermittently. Prereq: all first semester practical nursing courses and consent of instr. Capstone course that allows the student to work collaboratively with an identified LPN preceptor, performing the role expectations for care in that workplace setting.

NRSG 144 - Cre Cncpts of Mentl Hlth Nrsng

Credits: 2. Offered autumn and spring. Prereq: successful completion of semester 1 of the PN nursing program. Exploration of physiological, psychological, sociocultural, spiritual, and environmental factors associated with mental health/illness affecting individuals and families. Focus will be placed on basic concepts of psychiatric nursing, therapeutic modalities, as well as psychiatric disorders including psychopharmacological management. Course Attributes: Practical Nursing Prog Rqrmnt Registered Nursing Prog Rqrmnt

NRSG 147 - Practical Nursing NCLEX Review

Credits: 2. Offered autumn and spring. Prereq: Successful completion of all courses in the first semester of the practical nursing program. Preparation for the national test for LPN licensure.

NRSG 148 - Leadership Issues

Credits: 2. Offered autumn and spring. Prereq: successful completion of semester 1 of the PN nursing program. Capstone course that provides the Practical Nursing student information regarding the current status of vocational nursing. There is a forty-five hour clinical/precepted component to provide the student opportunity to apply theoretical knowledge in the long-term care setting. Course Attributes: Practical Nursing Prog Rqrmnt Registered

Nursing Prog Rqrmnt

NRSG 191 - Special Topics

Credits: 1 TO 6. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Technical Course

NRSG 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Technical Course

NRSG 250 - LPN to RN Transition

Credits: 3. Offered autumn and spring. Prereq., admission to the registered nursing program and current unencumbered LPN license. Focus on the role transition from LPN to RN in relation to the concepts and principles of holistic nursing care. Focus is on the continuing development of roles and responsibilities of the RN as defined by the scope of practice standards, nursing theory and conceptual models.

NRSG 252 - Cmplx Care Maternal/Child Clnt

Credits: 3. Offered spring and autumn semester. Prepares the student to provide care to maternal/child clients experiencing acutely changing conditions in settings where outcomes are less predictable. Topics include care of the client during childbirth, high-risk pregnancies, obstetrical emergencies, neonatal emergencies, and infants and children requiring complex collaborative care.

NRSG 254 - Complex Care/Mntl Hlth Client

Credits: 2. Offered spring and autumn. Explores physiological, psychological, sociocultural, spiritual and environmental factors associated with mental health/illness. Focus is placed on psychotherapeutic management in the continuum of care, milieu management and special populations with emphasis on individuals, families and communities.

NRSG 256 - Pathophysiology

Credits: 3. Offered spring and autumn. Prereq: successful acceptance into the ASRN Nursing Program. An introduction to the basic principles and processes of pathophysiology including cellular communication, genes and genetic disease, forms of cellular injury, fluid and electrolyte/acid base balance, immunity, stress coping and illness, and tumor biology. Pathophysiology of the most common alterations according to body system will also be discussed as well as the latest developments in research related to each area.

NRSG 262 - Complex Care Needs - Adult Cli

Credits: 4. Offered spring and autumn. Prepares the student to provide nursing care to adult client's experience acutely changing conditions in setting where outcome is less predictable. Emphasis is placed on the nurse's response to emergent/life-threatening/rapidly changing conditions. Topics covered include collaborative therapeutic modalities related to acute/complex neurological, cardiac, respiratory, hematological, endocrinologic events, shock, sepsis/SARS, complex burns, etc.

NRSG 265 - Advanced Clinical Skills

Credits: 1. Offered spring and autumn. Prepares students to carry out complex nursing interventions. Topics covered include central venous therapy, parenteral nutrition hemodynamic monitoring, advanced airway/ventilator support, intracranial pressure monitoring, IV medication administration, high risk IV infusions, blood/blood product administration, conscious sedation, advanced wound care, etc.

NRSG 266 - Managed Client Care

Credits: 4. Offered spring and autumn. Covers topics related to integrated nursing care of individual clients and groups as well as basic principles related to supervision of nursing practice and management of resources.

NRSG 291 - Special Topics

Credits: 1 TO 6. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

NRSG 292 - Independent Study

Credits: 1 TO 6. (R-6) Course material appropriate to the needs and objectives of the individual student. Course Attributes: Technical Course

Pharmacy Technology

PHA 196 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently.

Pharmacy

PHAR 100 - Intro Pharm Practice for Techs

Credits: 3. Offered autumn. Prereq., admission into Pharmacy Technology program. This course offers information regarding careers in pharmacy. It includes the history of pharmacy practice and defines roles of personnel relating to pharmaceutical services. Ethical standards of the occupation and federal and state laws regulating pharmacy practice with emphasis on Montana State Pharmacy Law regulating pharmacy technicians are studied. Day-to-day operations including preparation, maintenance, and storage of pharmaceuticals and records, and basic concepts of computer operations and latest technologies are reviewed. Skills will be developed with are necessary for the pharmacy technician to communicate effectively in the following ways: 1) as a representative of the profession of pharmacy, 2) as an intermediary between the pharmacist and patient, and 3) as an intermediary between the pharmacist and other health care professionals.

PHAR 101 - Pharmacy Calculations

Credits: 3. Offered autumn. Calculations used in pharmacy practice; includes various systems of weights and measures, dosage determinations, percentage preparations, reducing and enlarging formulas, dilution, and concentration.

PHAR 102 - Pharmacology for Technicians

Credits: 6. Offered autumn. Prereq., admission into Pharmacy Technology program. Study of the properties, reactions, and therapeutic value of the primary agents in the major drug classes.

PHAR 104 - Pharmacy Dispensing Lab

Credits: 4. Offered autumn. Prereq., admission into Pharmacy Technology Program. Develop dispensing and distributive skills with hands-on lab, and lecture format.

PHAR 120 - Medication Safety

Credits: 3. Offered spring online only. Prereq., PHAR 100, 101, 102, 104 and second semester standing in Pharmacy Technology Program. This course will introduce students to national safety initiatives developed by the Institute of Medicine, The Joint Commission, The Institute of Safe Medicine Practices and others. This awareness will help students become part of the solution in promoting safe medication practices.

PHAR 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student.

PHAR 198 - Internship: Pharmacy

Credits: 4. Offered spring. Prereq., PHAR 100, 101, 102, 104 and second semester standing in Pharmacy Technology Program. Training and experience in either hospital, compounding, home infusion, nursing home or other alternative pharmacy settings under supervision of a pharmacist. Emphasizes special skills unique to that pharmacy setting. Course Attributes: Internships/Practicums

Industrial Technology Department

Rodney Front, Interim Chair

The mission of the Department of Industrial Technology is to provide the regional workforce with credentialed, skilled, and competent entry-level technicians and to be responsive to emerging workforce needs. The Department encourages the development of teamwork and interpersonal communication skills required in the workplace. It also stresses the importance of a strong work ethic and the value of continuing education and lifelong learning. The instruction for the Department of Industrial Technology Certificate of Applied Science and Associate of Applied Science (A.A.S.) degree programs are primarily delivered at the West Campus at 3639 South Avenue West. Some instruction is delivered at the East Campus or Mountain Campus.

All students admitted to Industrial Technology programs are required to submit writing and math placement scores immediately upon admission to the Missoula College or make arrangements to take these assessments as soon as possible. Thereafter, students needing to take a math and/or writing assessment should contact the Academic Support Center at 406-243-7826 to schedule an appointment to take the placement assessments as soon as possible. Students who live outside of the Western Montana area may take a math and writing assessment at their local community college. Contact the Academic Support Center at 406-243-7826.

Missoula College Catalog Year: 2015-2016

Degree Type: Certificate of Applied Science Level: Certificate Subject: **Building Maintenance**

Total Credits: 36 Cumulative GPA Required: 2.0

The mission of the Building Maintenance Program is to provide the regional workforce with credentialed, skilled and competent building maintenance professionals, and to be responsive to emerging workforce needs.

Students in the Building Maintenance program are trained as building maintenance professionals capable of maintaining commercial buildings. Subject matter in the program includes plumbing, electricity, carpentry, and heating/air conditioning. Students learn physical and electrical theories that enable them to understand building systems. In addition, they study building cleaning, landscape maintenance, pool care, computers, and boiler operation. Water treatment is discussed in both the pool and boiler courses. The program introduces current

environmental and energy problems that can be reduced through efficient building operation. It also encourages resource development, teamwork and interpersonal skills required on the job.

Students are awarded a Certificate of Applied Science upon successfully completing the program. Contact John Walker, Program Director, at 406-243-7645 or john.walker@umontana.edu for more information.

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Applied Science Level: Major Subject: **Carpentry**

Total Credits: 69 Cumulative GPA Required: 2.0

The mission of the Carpentry Program is to provide the regional workforce with credentialed, skilled and competent carpenters and to be responsive to emerging workforce needs.

The Carpentry program provides students the opportunity to learn carpentry skills in a competency-based learning environment. Students work hand-in-hand with professional carpenters both on campus and at construction sites. Students use hand and power tools with blueprints to build foundation forms, frame buildings, side and roof buildings, and apply roofing materials. They install windows, doors, stairs, attic vents, insulation, vapor barriers, and drywall. Students learn methods for installing trim, locksets, suspended ceilings, countertops, cabinets, and flooring. They also learn to operate construction equipment.

In addition to general education courses, students in the program learn the various steps of becoming a carpenter, including safe practices. Students construct real-world projects and can earn a Certificate of Applied Science or an Associate of Applied Science degree from the University of Montana. The program often has a waiting list.

Prospective students are encouraged to apply one year prior to anticipated school attendance. Contact Dennis Daneke, Program Director, at 406-243-7692 or Dennis.Daneke@umontana.edu for more information.

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Applied Science Level: Major Subject: **Diesel Technology**

Total Credits: 66 Cumulative GPA Required: 2.0

The mission of the Diesel Technology Program is to provide the regional workforce with credentialed, skilled and competent diesel technicians and to be responsive to emerging workforce needs.

Students in the Diesel Technology program train to be diesel mechanics that repair diesel-powered trucks and heavy equipment. Students study hydraulics, electrical systems, fuel systems, power trains, air conditioning, brakes and suspension, engine theory, and engine diagnosis, beginning with basic principles and proceeding to an advanced level of system technology. Along with these core courses, students take classes in welding, machining, computers, communications, and math. Credit for independent study is available to those desiring additional instruction in diesel mechanics. Students who complete the program successfully are awarded the Associate of Applied Science degree.

The program often has a waiting list. Prospective students are encouraged to apply one year prior to anticipated school attendance. Contact the Jim Headlee, Program Director, at 406-243-7648 or Jim.Headlee@umontana.edu for more information.

Missoula College Catalog Year: 2015-2016

Degree Type: Certificate of Applied Science Level: Certificate Subject: **Recreational Power Equipment**

Total Credits: 39 Cumulative GPA Required: 2.0

The mission of the Recreational Power Equipment Program is to provide the regional workforce with credentialed, skilled, and competent power equipment technicians and to be responsive to emerging workforce needs.

The Recreational Power Equipment Program prepares students to repair and maintain a wide variety of two-cycle and four-cycle engines and related equipment. Students work on motorcycles, ATVs, snowmobiles, outboard motors, and personal watercraft. Units of instruction include mechanical, fuel, and electrical systems. The program also encourages the development of teamwork and interpersonal skills required on the job.

Missoula College Catalog Year: 2015-2016

Degree Type: Associate of Applied Science Level: Major Subject: **Welding Technology**

Total Credits: 67 Cumulative GPA Required: 2.0

The mission of the Welding Technology Program is to provide the regional workforce with credentialed, skilled, and competent welders and to be responsive to emerging workforce needs. The Welding Technology Program prepares students to operate and troubleshoot a variety of welding power sources and related equipment. The program prepares students to solve problems using computational skills and other problem-solving techniques essential to welding and steel fabrication. It also encourages the development of the teamwork and interpersonal skills required on the job.

Welding students develop skills in six different welding processes: oxyacetylene (OAW), shielded metal arc (SMAW), gas metal arc (GMAW), flux core arc, (FCAW), submerged arc (SAW), and gas tungsten arc welding (GTAW). Students also develop additional skills, such as blueprint reading and layout, metallurgy, and gain an understanding of how heating and cooling cycles affect the properties of metals. Students also study the design of jigs and fixtures and how to incorporate these into an automated welding system.

Courses such as Computer Aided Design and Drafting (CADD), OSHA Rules and Compliance, and Related Metals Processes provide for a solid background in the metals industry. Fabrication basics and Metal Design and Construction utilize all of the gained knowledge in an instructor-approved/student-designed project.

Welding technology students have the opportunity to become certified to American Welding Society Standards and receive documentation stating qualifications.

Students are awarded the Certificate of Applied Science upon successful completion of the first year of the Welding Technology program. Students are awarded the Associate of Applied Science degree upon successfully completing the two-year program.

The program often has a waiting list. Prospective students are encouraged to apply one year prior to their anticipated school attendance. Course Descriptions

Buildg Maintenance Engineering

BME 122 - Electricity

Credits: 5. Offered spring. The electrical laws and principles pertaining to DC and AC circuits. Includes current, voltage, resistance, power, load, panels, feeders, lamps, motors, and fuses. Introduction to wiring methods and materials in conformance with the National Electric Code (NEC). Includes installation and replacement of light fixtures, heaters, GFCI's, switches, receptacles, and electrical thermostats.

BME 123 - Carpentry

Credits: 6. Offered autumn. Application of carpentry principles and techniques. Construction and maintenance of foundation, floor, wall, ceiling, and roof systems. Includes safe use of tools and materials common to the industry. Additional topics are painting, masonry, insulation, and ventilation of commercial buildings.

BME 127 - Low Pressure Boilers

Credits: 3. Offered spring. The fundamentals of low pressure boiler operation and maintenance. Covers steam, feed-water, fuel, and draft systems. Includes boiler water treatment and hot water heating systems. Introduces safe mechanical operating procedures used in the industry.

BME 128 - Maintenance

Credits: 6. Offered autumn. Maintenance principles pertaining to lawns, groundcovers, trees, swimming pools, plumbing, and building cleaning. Emphasis is placed on safe application of chemicals; maintenance frequency; and the identification and safe uses of associated tools and materials.

BME 130 - Heating & Air Conditioning

Credits: 6. Offered spring. The fundamentals of heating, ventilating, and air conditioning. Covers heating and refrigeration cycles, gas furnaces, refrigerants, system evacuation and charging, and components used in associated systems. Introduces the basic mechanical service procedures used in the industry.

BME 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

BME 192 - Independent Study

Credits: 1 TO 6. Course material appropriate to the needs and objectives of the individual student.

Construction Trades

CSTN 120 - Carpentry Bscs & Rough-In Frmng

Credits: 5. Introduction to the carpentry trade, including history, career opportunities, and requirements. The course covers building materials, fasteners, adhesives, hand tools, and power tools. OSHA rules and regulations for a safe

working place and procedures for compliance are covered. This course includes a two-credit imbedded lab.

Students will also learn how to install windows and an exterior door. Course Attributes: Technical Course

CSTN 122 - Beginning Carpentry Lab

Credits: 5. Lab to support CSTN 102 and 120.

CSTN 142 - Int & Ext Finish Carpentry

Credits: 4. Prereq: CSTN 120 and 122. Study of various types of siding, gutter systems, roof venting requirements, and framing with metal studs. Installation of sheathing, exterior siding, roofing felt, shingles, insulation vapor barriers, and stairs on small building constructed in CSTN 120. Installation of wood and metal doors. Demonstration of materials, layout and installation of suspended ceilings. Selection and installation of countertops, base cabinets and wall cabinets. Window, door, floor, ceiling trim and drywall are installed in a small building. This course includes a one-credit imbedded lab.

CSTN 143 - Intermediate Carpentry Lab

Credits: 4. Lab to accompany CSTN 142. Prereq: CSTN 102, CSTN 120 and CSTN 122.

CSTN 171 - Site Prep, Found, Concrete Ins

Credits: 3. Offered Autumn. Prereq., CSTN 100 or consent of instr. Introduces the process of distance measurement as well as differential and trigonometric leveling for site layout. It covers the principles, equipment, and methods used to perform the site layout tasks that require making angular measurements. This course is designed to let students apply the blueprint reading skills learned so far to a practical exercise.

CSTN 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CSTN 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Technical Course

CSTN 201 - Advanced Concrete Working

Credits: 3. Offered spring. Prereq., CSTN 171. Provides basic knowledge of concrete materials and tools and provides hands-on experience in which the student applies with supervision those basic skills and knowledge presented in the area of concrete. The course is designed as a practical task-oriented application utilizing the basic skills learned in CSTN 171. The course will emphasize the advanced application in the area of concrete foundations, flatwork, forms, reinforcing, handling, and placing concrete.

CSTN 205 - Advanced Carpentry Lecture

Credits: 6. Prereq: CSTN 102, 120, 122, 142, and 143. Study of the process for angular measurement, using transits, theodolites, electronic distance measuring devices, lasers, and trigonometric calculating to lay out foundations and determine elevations. Installation of standing seam, lap seam, and built-up roofing systems; concrete, vinyl, wooden, tile, and carpeted floors as well as radiant heating; paneling, wainscoting, movable partitions, curtain walls and fire-rated commercial wall construction. Advanced stair systems, including shop built and prefabricated stairs, balustrades, mitered risers and treads, and layout of elliptical fastening methods, and assembly techniques. Project planning, scheduling, estimating, and management skills included. This course includes a two-credit lab. Course Attributes: Technical Course

CSTN 206 - Advanced Carpentry Lab

Credits: 2. Laboratory to accompany CSTN 205. Prereq: CSTN 102, 120, 122, 142, and 143. Course Attributes: Technical Course

CSTN 261 - Building Management

Credits: 4. Prereq: CSTN 120, 122, 142, 143, 171. Introduction to building business and project management including overhead costs, payroll costs, estimating and scheduling. Covers elements of payroll computation and preparation, payroll tax returns, information returns, and identification and compensation of independent contractors. Students are introduced to building cost estimating, and scheduling of subcontractors and building inspections. This course includes a one-credit imbedded lab.

CSTN 278 - Applied Building Practices Lab

Credits: 6. Offered spring. Prereq., CSTN 102, 103, 120, 122, 142, 143. Students work on a variety of projects either at the college or in the community to practice and develop their skills as well as learn new skills. Knowing and following OSHA rules and regulations is emphasized. Students are expected to produce a professional quality product.

CSTN 279 - Commercial Construction

Credits: 4. Prereq. CSTN 171, 120, 122, 142, and 143. Study and develop skills in metal stud framing, commercial roofing systems, metal and masonry buildings, metal doors and door hardware, suspended ceilings, and fire rated commercial walls.

CSTN 282 - Green Bldg Concept & Design I

Credits: 4. Offered fall semester of the 2nd year. This course takes a holistic approach to natural resource conservation and energy efficiency in the construction industry. From integrated design, building site selection and evaluation, through building design, material selection and efficiencies, passive heating and cooling, and construction techniques. Students design an energy efficient residence to be built by next years class.

CSTN 283 - Green Bldg Concept & Design II

Credits: 3. Prereq., CSTN 282. Spring semester. A course fee of \$50.00 is required. This course builds on concepts learned in CSTN 282 Green Building Concepts and Design I. Students learn how to weatherize existing buildings and green remodeling and preservation techniques, design and build outdoor living spaces, and green landscaping practices. They learn how to document building for green rating for both NAHB Standards and LEED. They will conduct blower door tests and learn to test for and mitigate radon gas. Students will also refine the energy efficient residential plan they produced in Green Building Concepts and Design I.

CSTN 291 - Special Topics

Credits: 3 TO 6. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

CSTN 299 - Capstone: Carpentry

Credits: 2. Capstone laboratory to accompany CSTN 102, 120, 122, 142, 143, 205, 206, and 261. This course provides hands-on experience in which the student applies the skills and knowledge presented in the Carpentry Program. The course will emphasize advanced application in the areas of exterior finishing and interior finishing, and other constructed topics.

Diesel Service Tech

DST 120 - Electrical Systems

Credits: 8. Offered spring. The theory of AC/DC electricity including Ohm's Law, magnetism, wiring diagrams, and circuit analysis. Starting, charging, and related systems are covered in-depth using test equipment commonly found in heavy equipment repair facilities. Electronic systems are reviewed and tested using common electronic test equipment. Course Attributes: Technical Course

DST 128 - Engine Service I

Credits: 4. Offered autumn. Introduction to the construction and operation of internal combustion engines with the diesel engine being examined in detail. The use of measuring tools and related special tools is covered extensively along with common manufacture rebuild procedures. Start-up and running practices are demonstrated on various running diesel engines. Students must complete this course with a letter grade of "C" or better to enroll in U 135T Power Trains the second-half of the semester. Course Attributes: Technical Course

DST 135 - Power Trains (UMCOT)

Credits: 7. Offered autumn. Chassis and drive train components used in light and heavy-duty trucks and other equipment. Clutches, manual transmissions, differentials, and final drives are covered. Course Attributes: Technical Course

DST 191 - Special Topics

Credits: 1 TO 6. (R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

DST 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered every term. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Technical Course

DST 221 - Brakes Suspn and Undercarr

Credits: 6. Offered autumn. Air brake design, construction, and operating principles including an in-depth study of diagnostic procedures for troubleshooting and repairing brake systems. Suspension systems and undercarriage design and repair are covered along with common axle alignment procedures found in industry. Students must complete this course with a letter grade of "C" or better to enroll in U225T Hydraulics in the second-half of the semester. Course Attributes: Technical Course

DST 225 - Hydraulics (UMCOT)

Credits: 6. Offered autumn. Theory and application of hydraulics relative to mobile construction equipment and industrial hydraulic systems. Includes valves, pumps, motors, actuators, and related hydraulic components, system maintenance, troubleshooting, and repair. Course Attributes: Technical Course

DST 229 - Engine Service II

Credits: 7. Offered spring. Prereq., DET 128T. A continuation of Engine Service I with a major emphasis placed on the rebuilding of a diesel engine. Engine components repair and failure analysis are reviewed along with tune-up and running of diesel engines commonly found in the heavy equipment trade. Shop flat-rate procedures, work order procedures, and warranty requirements are covered. Students must complete this course with a letter grade of "C" or better to enroll in U230T Air Conditioning in the second-half of the semester. Course Attributes: Technical Course

DST 230 - Air Conditioning

Credits: 3. Offered spring. Prereq., DET 120T, DET 225T. Principles, theories, and the hazards of working with R-12 and R-34, including laws governing these refrigerants. An in-depth study of the components of an air conditioning system including hands-on practice. Discharging and charging principles are discussed, including leakage testing and other general diagnostic principles found in the field.

DST 231 - Fuel Systems

Credits: 5. Offered spring. A comprehensive study of diesel fuel injection systems to include: Cummins, Roosa Master, Caterpillar, Detroit Diesel, and Bosch. Disassembly and repair of these systems are covered in-depth along with calibration practices. Installation, timing, and on-engine adjustments are made on diesel engines. On-engine diagnosis of the fuel systems using special diesel engine diagnostic tools is reviewed. Course Attributes: Technical Course

DST 235 - Advanced Power Trains

Credits: 2. Offered spring. Prereq., DET 135T. A continuation of DET 135T with an emphasis on heavy automatic transmission, torque converters, and powershift transmission. In-depth coverage of component review troubleshooting and repair. Course Attributes: Technical Course

DST 270 - Diesel and Gaseous Fueled Engi

Credits: 3. Offered summer. Prereq., completion of an accredited diesel program or consent of instr. Overview of the diesel engine and its operating principles including the fuel systems found in the power generation field. Both mechanical and electronic type systems studied in depth. Gaseous/spark ignited internal combustion with in-depth look at both the ignition system and fuel system. Emission systems, preventive maintenance and general tune-up included. Course Attributes: Technical Course

DST 271 - Power Generators

Credits: 5. Offered summer. Prereq., completion of accredited diesel program and DET 270T. Introduction to generators as found in the power generation field including the review of electrical laws that pertain to A/C and D/C current. The operation of a typical internal combustion powered generator will be covered in depth including troubleshooting and rebuilding practices found in the power generation field. Generator mounting/alignment practices and generator installations, including flow requirements for combustion and cooling. Course Attributes: Technical Course

DST 272 - Power Generation Controls

Credits: 4. Offered summer. Prereq., completion of accredited diesel program and DET 271T. Operation of the generator and controls including governing devices and other specialized devices such as reverse power relays and volt/amp reactive power factor (VAR) controllers. Intensive troubleshooting including in depth coverage of service and repair of control systems. Course Attributes: Technical Course

Heavy Equipment Operation

HEO 146 - Safety & Basic Controls

Credits: 5. Offered autumn. Co-reqs., M 111 and CAPP 120. Orientation to the safe operation and basic control of crawler-tractors, scrapers, front-end loaders, motor graders, backhoes, trucks, and other heavy equipment units. Sufficient time is allowed for the development of basic machine operational skills.

HEO 148 - Operational Skill Bldg

Credits: 5. Offered autumn. Prereq., HEO 146T. Advancement of basic skills. Proper understanding and operation of heavy equipment is pursued. Time is allowed for development of proper operational techniques.

HEO 150 - Job Simulation

Credits: 6. Offered spring. Prereq., HEO 146, HEO 148T Incorporates learned skills into entry-level, industrial situations. Emphasis is on advanced equipment usage, problem definition and resolution, project-type earth moving assignments, proper equipment, and safety regulations. Course may allow participation in cooperative project efforts within the community.

HEO 151 - Service & Maintenance

Credits: 2. Offered autumn. Different types of lubricants and their applications, scheduled and preventive maintenance procedures, and importance of periodic services and maintenance. Also included are safety procedures and regulations.

HEO 153 - Const. Theory & Spec. Equip.

Credits: 5. Offered spring. Prereq., M 111, HEO 148. Study of construction principles, specialized equipment, production estimates, and various related subjects.

HEO 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered autumn and spring. Prereq., consent of instr. Experimental offerings of visiting professors, experimental offerings of new courses, or one time offerings of current topics.

HEO 192 - Independent Study

Credits: 1 TO 6. Course material appropriate to the needs and objectives of the individual student.

Metals & Machining Technology

MCH 112 - Related Metals Processes I

Credits: 1. Offered spring. Use of hand tools and machines which relate to the repair of heavy equipment. Instruction covers fasteners, layout, bench metal, threads and threading, drills and drilling, and tool sharpening. Course

Attributes: Technical Course

MCH 114 - Related Metals Processes II

Credits: 3. Offered autumn. Instruction and use of drills, files, threads and threading processes, basic lathe, drill press, and band saw operation, including precision measuring instruments. Fasteners, layout procedures, and basic hand tools are covered. Course Attributes: Technical Course

MCH 115 - Related Metals Processes III

Credits: 3. Offered autumn and spring. A basic metalworking course covering fasteners, layout, bench metal, heat treating, threads and threading, drills and drilling, basic machining, and tool sharpening. Course Attributes:

Technical Course

MCH 191 - Special Topics

Credits: 1 TO 6. (R-6). Offered intermittently. Prereq. Consent of instr.

MCH 196 - Independent Study Variable

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Service Learning/Volunteer Technical Course

MCH 198 - Internship

Credits: 1 TO 6. Prereq., consent of department. Extended classroom experience that provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation.

MCH 214 - Advanced Related Metals Proc

Credits: 3. Offered autumn. Prereq., MPR 114T or 115T. Advanced skill development using machine tools such as milling machines, lathes, surface grinders, and drill presses, emphasizing safety and providing greater complexity than provided in MPR 114T. Welding and machining are used together demonstrating how sequencing work improves quality and productivity. Course Attributes: Technical Course

MCH 292 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently

Small Engine Technology

SET 160 - Basic Electricity for RPE

Credits: 3. Offered autumn. The theory of AC/DC electricity including Ohm's Law, magnetism, series circuits, parallel circuits, the use of meters, and electrical test equipment. Includes electrical symbols, soldering, storage batteries, cranking motors, and electrical safety. Course Attributes: Technical Course

SET 176 - Motorcy/ATV Eng, Sus, Chas

Credits: 3. Offered autumn. Study of the design and function of several types of engines, transmissions, suspension, and brake systems. Course Attributes: Technical Course

SET 177 - Motorcy/ATV Elect & Fuel

Credits: 4. Offered autumn. Prereq., SET 160T. Principles of ignition, charging, and cranking systems. Design and function of carburetor, fuel injection, and lubrication systems. Hands-on diagnosis of problems and testing of systems. Course Attributes: Technical Course

SET 178 - Marine Elec & Fuel Syst

Credits: 5. Offered spring. Prereq., SET 160T. Theory of and testing and troubleshooting of problems with ignition, charging, and cranking systems. Includes the design, testing, and troubleshooting of marine carburetion and fuel injection systems. Course Attributes: Technical Course

SET 179 - Marine Powerhds/Low Units

Credits: 6. Offered spring. Prereq., SET 178T. Theory of design, function and components of outboard motor powerheads and lower units. Includes basic rigging, power trim and tilt, propping, and personal watercraft design, function, and maintenance. Course Attributes: Technical Course

SET 180 - Snowmobile Main & Rep I

Credits: 2. Offered autumn. Prereq., SET 177T. The repair and maintenance of air cooled and liquid cooled engines. Includes clutch, track, and rear suspension service and maintenance. Course Attributes: Technical Course

SET 181 - Snowmobile Main & Rep II

Credits: 2. Offered spring. Prereq., SET 180T. Principles and theory of snowmobile electrical, fuel, front suspension, and brake systems. Course Attributes: Technical Course

SET 182 - Comp Apps Motorsports

Credits: 1. Offered spring. Prereq., CRT 100. Use of recreational power equipment software for parts retrieval, invoicing and payment methods. Students build, query, and create reports using database software, and create a business plan for a hypothetical dealership. Course Attributes: Technical Course

SET 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Technical Course

SET 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Technical Course

Surveying

SRVY 108 - Construction Surveying

Credits: 2. Offered autumn. Basic principles of surveying and the use of surveying equipment. Calculation of angles and distances to determine grade elevations. Introduction to Global Positioning Systems, lasers and their relationship to the heavy equipment operator. Course Attributes: Technical Course

Welding

WLDG 101 - Welding Fund Auto Tech/Diesel

Credits: 2. Offered autumn. Basic and intermediate processes of shielded metal arc welding (SMAW) and oxyacetylene welding are covered in flat, horizontal, and vertical positions in a variety of joint configurations. Instruction in the oxyacetylene cutting process. This course is designed for Diesel students only. Course Attributes: Technical Course

WLDG 103 - Welding Fund Constructn Trades

Credits: 2. Offered spring. Basic welding processes of shielded metal arc welding (SMAW), flux core arc welding (FCAW) are covered in the flat, horizontal, and vertical positions in a variety of joint configurations. The instruction in flux core arc welding is focused on the carpentry building trades. Instruction in the oxyacetylene cutting process is also provided. Safe operation of equipment is covered and work is evaluated to industrial standards. This course is designed for carpentry students.

WLDG 117 - Blueprint Rdng & Weldng Symls

Credits: 3. Offered spring. Prereq., WLDG 150 (Practical experience in reading and drawing orthographic projections, interpreting dimensions, notes, scales, and welding symbols. Isometric projection (pictorial), sections, and auxiliary views with practical experience using conventional drafting tools and computer aided drafting (CAD). Course Attributes: Technical Course

WLDG 139 - Welding Maint & Repair -Diesel

Credits: 1. Offered autumn. Prereq., MPR 115T, WLDG 101. Combines the skills gained in welding and machine shop for practical applications such as repairing a broken cylinder block. Major emphasis is placed on repair techniques. Common repair procedures using machine shop and welding equipment is demonstrated. This course is designed for Diesel students only. Course Attributes: Technical Course

WLDG 145 - Fabrication Basics

Credits: 4. Offered spring. Prereq., MPR 114T; WLDG 180; coreq., WLDG 117, 187. Conception, design, and construction of a metal structure to industry standards using shears, presses, and other machine tools common to the welding industry. Skills are developed in the areas of shielded metal arc welding and flux core arc welding, oxyacetylene cutting, plasma arc cutting, and air carbon arc cutting. Course Attributes: Technical Course

WLDG 150 - Welding Layout Techniques

Credits: 2. Using practical layout techniques students develop basics for blueprint construction, layout on pipe and structural steel, and use of tools common to material layout. Course Attributes: Technical Course

WLDG 180 - Shielded Metal Arc Welding

Credits: 4. Offered autumn. Theory and safe operation of shielded metal arc welding (SMAW) of carbon steel on plate and structural components in all positions to industry standards. Visual inspection and destructive testing used to determine acceptability based upon industry standards (American Welding Society Structural Welding Code-Steel). Power sources and electrodes are covered in depth. Materials are prepared using mechanical plate shears and thermal cutting techniques. Thermal cutting techniques are examined relative to theory of operation and safe practices. Processes used are oxy-fuel cutting, plasma arc cutting, and air carbon arc cutting. Theory and operation of oxyacetylene welding examined. Course Attributes: Technical Course

WLDG 184 - OSHA Rules & Regulations Wldng

Credits: 1. Offered spring. Study of the Occupational Safety and Health Administration rules and regulations that affect the welding and construction industries. Course Attributes: Technical Course

WLDG 187 - Flux Core Arc Welding

Credits: 4. Offered spring. Prereq., WLDG 180 (Theory, practice, and safe operation of flux core arc welding equipment. Coupons are welded in the flat, horizontal, and vertical positions to industry standards using a variety of welding electrodes, diameters, and power sources, which prepare students for welding qualification to the American Welding Society Structural Welding Code specifications. Course Attributes: Technical Course

WLDG 191 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Technical Course

WLDG 192 - Independent Study

Credits: 1 TO 6. (R-6) Offered intermittently. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student. Course Attributes: Technical Course

WLDG 205 - Applied Metallurgy

Credits: 4. Offered autumn. Covers the manufacturing of iron and steel. Examination of physical and mechanical properties. Phase changes with the application of heating and cooling cycles. Ferrous crystal types and properties. Suggested welding procedures for low, medium, and high carbon steels, alloy steels, and cast iron. Course Attributes: Technical Course

WLDG 210 - Pipe Welding - Integrated Lab

Credits: 4. Offered autumn. Prereq., WLDG 180; coreq., WLDG 215. Emphasis on skill development in the welding of pipe sections to extremely high quality levels as required by national codes and standards. Pipe welding using GTAW for the root pass and SMAW for the remaining passes in all positions. Visual inspection and destructive testing used to evaluate work according to industry standards. Course Attributes: Technical Course

WLDG 215 - GTAW (integrated lab)

Credits: 4. Offered autumn. Prereq., WLDG 180, 187, 210 The theory and safe operation of Gas Tungsten Arc Welding (GTAW). Examination of power source controls and operation along with associated consumables such as gasses, electrode filler materials for carbon steel, stainless steel, and aluminum. Welding skill development according to industry standards using these materials in the flat, horizontal, and vertical positions. Course Attributes: Technical Course

WLDG 245 - Metal Fab Design/Construction

Credits: 4. Offered spring. Prereq., MPR 114T, MPR 214T; WLDG 117, 180, 187, 215, 275. Students combine all knowledge and skills developed in the welding program to design and draw a full set of plans (blueprints) for an instructor-approved project using extensive welding, metal fabrication equipment, machining processes and automation. High quality performance, consistent with business and industry required. Course Attributes: Technical Course

WLDG 275 - Gas Metal Arc Welding

Credits: 4. Offered spring. Prereq., WLDG 187. Theory and safe operation of Gas Metal Arc Welding (GMAW). Theory of flux core arc welding applied to GMAW. Primary focus on application, practical skill development, and producing welds that meet industry standards. Metals welded are low carbon steel, stainless steel, and aluminum. Short circuit arc and spray arc transfer used. Examination of gas and electrode selection. Course Attributes: Technical Course

WLDG 280 - Weld Testing Certification

Credits: 2. Offered spring. Prereq., WLDG 180, 187, 215, 275. Fundamental concepts and requirements of the American Society of Mechanical Engineers (ASME) and American Welding Society (AWS) are examined. Through laboratory experience students are provided the opportunity to qualify (certify) under the two codes mentioned above. Course Attributes: Technical Course

WLDG 285 - Automation in Welding

Credits: 3. Offered spring. Prereq., WLDG 117, 150, 187, 215, CADX 110 Application of the welding process to automation. Examination of simple automation techniques such as tools, clamping, and fixturing to aid in the rapid joining of production runs. Increasing complexity is examined leading into equipment that carries the welding gun, tractors, and carriages by fully automated systems with the student performing set-up and troubleshooting (Submerged Arc Welding) and automated parts processing (optical tracer torch). Programmable controllers are investigated and used. Programming and use of a PUMA 650 Industrial Robot. Course Attributes: Technical Course

WLDG 291 - Special Topics

Credits: 1 TO 6. (R-6) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Technical Course

College of Visual and Performing Arts

Stephen Kalm, Dean

The College of Visual and Performing Arts (CVPA) is comprised of four professionally accredited schools; Art, Media Arts, Music and Theatre & Dance. CVPA is committed to leadership in pedagogy, creative scholarship and professional performances and exhibitions. The College prides itself on its high achieving faculty, successful alumni and talented students. CVPA:

- serves UM students by teaching performing and visual arts with rigor and devotion, and by offering preparation and experience that enable students to succeed in the world of art, to perform and create with grace and maturity, and to teach with expertise and perspective
- serves the University, the community, state, region and nation, by presenting concerts, productions, and exhibitions of high quality, and by offering educational and research opportunities in the arts for all disciplines
- serves as the cultural center of the state and region
- provides national leadership in the arts by enhancing the excellence of traditional arts curricula, instruction and research with innovative and imaginative programs that utilize new technologies, incorporate various media, and enhance cultural and intellectual environments
- inspires the pursuit of excellence by encouraging creativity and expression through the arts

In addition, the College of Visual and Performing Arts offers *Creative Pulse: Master's Degree in Integrated Arts and Education* program for educators and education administrators during summer sessions. Creative Pulse students embrace and explore critical thinking processes and habits of the mind, enabling participants to develop, refine and integrate these processes into their own thinking and learning abilities, as well as those of their students.

Art

Julia Galloway, Director

The School of Art provides a comprehensive education in studio art, including intensive hands-on studio practice, art history, criticism, and theory. Programs provide thorough professional training for students interested in careers in the field of art.

Degree offerings include the B.A., B.F.A., M.A., and M.F.A. in Art. Areas of specialization are Ceramics, Drawing, Painting, Photography, Printmaking and Sculpture. An M.A. degree in Art with concentrations in Studio Art and/or Art History is also offered, as well as courses that prepare students for licensure for teaching art.

Advanced Placement Policy

All students, including those who have taken AP examinations, must submit a portfolio to challenge art classes. Undergraduate students may challenge foundations courses only (ARTZ 105A (Art 101A), Visual Language-Drawing; ARTZ 106A (ART 102A), Visual Language-2-D Fndtns; and ARTZ 108A (ART 103A), Visual Language-3-D Fndtns).

Portfolios are reviewed at the beginning of each semester. The challenge process waives the requirement to take a specific class, but does not provide any credits. The process of portfolio reviews is as follows: students submit a portfolio of ten .jpeg files or pieces of actual work to the school office two weeks prior to the beginning of the semester. If challenging more than one course, students submit examples of work for each course, for example: ten drawing samples for ARTZ 105A (ART 101A), ten color works for ARTZ 106A (ART 102A), and/or ten 3-D pieces for ARTZ 108A (ART 103A).

Transfer Students

Students with transfer credits from another institution must contact the school director for review of transfer transcripts to assess course equivalents.

College of Visual & Perf Arts Catalog Year: 2015-2016

Degree Type: **Bachelor of Arts** Level: Major Subject: **Art**

Total Credits: 57 Cumulative GPA Required: 3.0

Lower Division Core

Category Name: Lower Division Requirements

Rule: All Courses Are Required Unless Waived Via Departmental Advanced Placement Policy

Criterion: C Number of Credits 36

Course Listing

Commentary: Students seeking the Bachelor of Arts degree with a major in Art must complete 36 credits of lower division art courses: Studio Art Fundamentals, 9; Beginning Art History, 6; Introductory Art Criticism, 3; Photography, 3; Ceramics, 3; Printmaking 3; Sculpture, 3; Painting, 3; Drawing, 3;

Subcategory Name: Studio Art Fundamentals

Rule: All Courses Required Unless Waived Via Departmental Advanced Placement Policy

ARTH 435 - Art of the United States

Credits: 3. Offered intermittently. Prereq., ARTH 200H or 201H (ART 150H or 151H) or consent of instructor. American painting, sculpture and architecture from the Civil War to the present. Course Attributes: American and European

ARTH 436 - The History of Women in Art

Credits: 3. Offered intermittently. Prereq., ARTH 200H or 201H or consent of instructor. A survey of major women artists in context of social history and aesthetics from ancient to modern times. Analysis of feminism and works by contemporary women artists in film and video.

ARTH 440 - 20th Century Art

Credits: 3. Offered spring. Prereq., ARTH 200H or 201H or consent of instructor. Exploration of major themes in the development of art of the 20th century. Focus on major cultural and intellectual trends of the Modern and Post-Modern ages.

ARTH 450 - Renaissance Theory & Criticism

Credits: 3. Offered intermittently. Prereq., ARTH 200H or 201H or consent of instructor. An exploration of the writings of major thinkers of the 14th-16th centuries, including theoretical treatises, works of literature, contracts, and personal diaries. Course Attributes: Literary & Artistic Stds Crse

ARTH 458 - Adv Research in Art History

Credits: 2 TO 6. (R-9) Offered autumn and spring. Prereq., ARTH 200H or 201H, a 300-level art history course and consent of instructor. Advanced research in art history topics agreed upon by student and instructor.

ARTH 459 - Advanced Research Art Crit

Credits: 3 TO 6. (R-9) Offered intermittently. Prereq., ARTH 200H or 201H or consent of instructor. Advanced Research in Art Criticism.

ARTH 464 - African Art

Credits: 3. Offered intermittently. Prereq., ARTH 200H or 201H or consent of instructor. Broad investigation of the visual arts of Africa; historical civilizations, including Egypt, and colonial and post-colonial societies; methodologies for study of non-western societies; "Primitivism;" and the importance of African Art for the development of western art.

ARTH 465 - Spanish Art

Credits: 3. Offered intermittently. Prereq., ARTH 200H or 201H or consent of instructor. Exploration of the history of Spanish art from the cave paintings to the 21th century. Focus on Spanish art and aesthetics and Spain's cultural identity through the visual arts. Course Attributes: Historical & Cultural Course

ARTH 491 - Special Topics

Credits: 1 TO 6. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ARTH 494 - Sem Art Hist & Crit

Credits: 3. (R-9) Offered intermittently. Prereq., ARTH 200H or 201H, a 300-level art history course and consent of instructor. Upper-division seminar in varying topics of art history and criticism.

ARTH 498 - Internship

Credits: 1 TO 6. (R-12) Offered intermittently. Prereq., consent of instructor. Special internships under direction of department faculty allowing students practical experience in a chosen area. Course Attributes:

Internships/Practicums

ARTH 503 - Crit Theories Visual Arts

Credits: 3. Prereq., consent of instructor. Seminar on the history of art criticism as a particular type of discourse about art. Contemporary theories of Modernism including Formalism, Abstraction, Marxism, and Social Realism; and Postmodernism including Deconstruction, Revisionism, and Feminism. Required of all M.A. and M.F.A. students in art. Level: Graduate

ARTH 509 - Crit Theories Visual Arts II

Credits: 3. Prereq., ARTH 503 or consent of instructor. This course is a continuation of ARTH 503 Critical Theories in Visual Arts I, with an emphasis on contemporary theories, topics and ideas related to visual arts. Students will engage with course material through research and reading of primary documents, writing and presentations. Students will have the opportunity to investigate specific topics that relate to and expand their creative studio practice. Level: Graduate

ARTH 550 - Graduate Studies/Art History

Credits: 2 TO 6. (R-24) Offered autumn and spring. Prereq., consent of instructor. Research in art history and art theories. Level: Graduate

ARTH 597 - Research in Art History

Credits: 3 TO 9. (R-24) Offered intermittently. Prereq., consent of instructor. Level: Graduate

ARTH 698 - Methodologies in Art History

Credits: 3 TO 9. (R-9) Offered intermittently. Prereq., consent of instr. Investigation of the discipline of art history, its elements, boundaries, historiography, and practitioners. Level: Graduate

Art

ARTZ 103A - Art for Non-Majors

Credits: 3. This course introduces students to visual art and culture from both contemporary and historical perspectives through lectures, readings, writing, and studio projects. It explores visual literacy including terminology, techniques, aesthetics, studio practice, and cultural context. Course Attributes: Expressive Arts Course
ARTZ 105A - Visual Language - Drawing

Credits: 3. Offered autumn and spring. Introduction to visual language, concept development, and studio practicum. Focus on basic skills development based on observation, imagination, and memory. Some research in historical and contemporary approaches to drawing required. Course Attributes: Expressive Arts Course
ARTZ 106A - Visual Language - 2-D Fndtns

Credits: 3. Offered autumn and spring. Prereq. or coreq., ARTZ 105A. An introduction to the formal elements and principles of design, color theory, and predominant western and non-western historical styles. Emphasis on solving specific design problems. Course Attributes: Expressive Arts Course
ARTZ 108A - Visual Language - 3-D Fndtns

Credits: 3. Offered autumn and spring. Basic three-dimensional course for both general education and beginning art students. Prerequisite to beginning sculpture and beginning ceramics. Emphasis placed on conceptualization and formal development of the 3-D object in the areas of form, mass, scale, texture, space and color. Course Attributes: Expressive Arts Course
ARTZ 131A - Ceramics for Non-majors

Credits: 3. Offered intermittently. A general introduction to art using ceramics. Less specialized than Ceramics I for art majors. Credit not allowed toward a B.A., B.F.A., or minor in art. Course Attributes: Expressive Arts Course
ARTZ 191 - Special Topics

Credits: 1 TO 6. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.
ARTZ 211A - Drawing I

Credits: 3. Offered autumn and spring. Prereq., ARTZ 105A, and ARTH 200H or 201H. Study of human anatomy with an emphasis on rendering and interpreting the figure. Students complete a variety of homework assignments. Some research in historical and contemporary figuration required. Course Attributes: Expressive Arts Course
ARTZ 221A - Painting I

Credits: 3. Offered autumn and spring. Prereq., ARTZ 105A, 106A, ARTH 200H and 201H. Acrylic and oil painting emphasizing composition and application of color theory. Research in historical and contemporary strategies. Course Attributes: Expressive Arts Course
ARTZ 231A - Ceramics I

Credits: 3. Offered autumn and spring. Prereq., ARTZ 108A. Introduction to clay as a historical and contemporary art-making medium. Basic methods of building with clay, with emphasis on handbuilding; elementary solutions to problems of glazing and surface treatment. Course Attributes: Expressive Arts Course
ARTZ 251A - Sculpture I

Credits: 3. Offered autumn and spring. Prereq., ARTZ 108A. Introduction to fundamental technical skills and new processes in various materials. Further development of the formal concerns within three-dimensional design. Issues of content and formal criticism as it relates to personal expression. Course Attributes: Expressive Arts Course
ARTZ 271A - Printmaking I

Credits: 3. (R-9) Offered autumn and spring. Prereq., ARTZ 105A. Introduction to various printmaking media. Course Attributes: Expressive Arts Course
ARTZ 284A - Photo I-Techs and Processes

Credits: 3. Offered autumn and spring. Prereq., ARTZ 105A. Introduction to photography as an art form. Exposure, digital camera basics, composition, digital image processing, printing, print finishing techniques. Discussion of historical and contemporary uses of photography. Focus on technical expertise and issues of content and personal expression. Course Attributes: Expressive Arts Course
ARTZ 291 - Special Topics

Credits: 1 TO 9. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.
ARTZ 302A - Elementary School Art

Credits: 2. Offered autumn and spring. Visual art teaching methods for future elementary school teachers in a variety of media, methods of critique, and curricular components.

ARTZ 311 - Drawing II

Credits: 3. (R-9) Offered autumn and spring. Prereq., ARTZ 211, ARTH 200H, ARTH 201H, ARTH 250L. Focused time for individual exploration and production of drawings for portfolio development through studio practicum, lectures, critiques, reading and writing.

ARTZ 321 - Painting II

Credits: 3. (R-12) Offered autumn and spring. Prereq., ARTH 200H, 201H, 250L, and ARTZ 221A. Continued development of painting skills and concepts with an emphasis on contemporary ideas, process and materials. Studio practicum, lectures, critiques, reading and writing.

ARTZ 331 - Ceramics II

Credits: 3. (R-12) Offered autumn and spring. Prereq., ARTZ 108A and 231A. Further exploration of the ceramic process introducing more complex ways of handbuilding and developing the art of throwing. Examination of the technology and chemistry of clay, glazes and high temperature oxidation and reduction firing.

ARTZ 335 - Clay and Glaze

Credits: 3. Offered autumn. Prereq., ARTZ 108A, 231A. In-depth study of the physical and chemical properties of clays and glazes. Hands-on testing of various clay and glaze formulas and an introduction to kiln firing.

ARTZ 351 - Sculpture II

Credits: 3. (R-12) Offered autumn and spring. Prereq., 251A. Focus on contemporary issues and a deeper engagement with materials. Development and execution of clear sculptural responses to material-based and topic-based assignments.

ARTZ 371 - Printmaking II

Credits: 3. (R-12) Offered autumn and spring. Prereq., ARTZ 271A. Continued work in various printmaking media.

ARTZ 384 - Photo II-Theory, Crit, Practice

Credits: 3. (R-12) Offered autumn and spring. Prereq., ARTZ 105A, 284A. Further exploration of photography as an art form. Survey of different approaches to cameras, films, chemical and digital processes, presentation techniques. Emphasis on issues of content and personal expression.

ARTZ 385 - The Art of Digital Photography

Credits: 3. Offered autumn or spring. Prereq., ARTZ 105A, 284A. Introduction to digital photographic manipulation. Survey of techniques, theory and potential for creative expression as an art form.

ARTZ 388 - Alternative Process Photog

Credits: 3. Offered intermittently. Prereq., ARTZ 105A, 284A. Introduction to historic, experimental and alternative process photography. Survey of techniques, theory and potential for creative expression as an art form.

ARTZ 391 - Special Topics

Credits: 1 TO 9. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ARTZ 394A - Seminar- Environmental Drawing

Credits: 3. Offered Spring. A drawing seminar specifically designed for the Wilderness and Civilization program. Students will explore and develop individual ideas with various media based on the curriculum of the Wilderness Program. Course Attributes: Expressive Arts Course

ARTZ 398 - Internship

Credits: 1 TO 12. (R-12) Offered autumn and spring. Special internships under direction of department faculty allowing students practical experience in a chosen area. Course Attributes: Internships/Practicums

ARTZ 400 - Art & Architecture of Egypt

Credits: 3. Offered autumn. Prereq., ARTH 200H or consent of instr. Exploration of the development of Egyptian art from its earliest roots to the present, including Orientalism and Egyptomania.

ARTZ 402 - Teaching Art I-- K-12

Credits: 3. Offered autumn. Prereq., ARTZ 105A, 106A, 108A; ARTH 200H, 201H; and junior standing. Preparation for art specialists to include history and current trends in curriculum development, teaching procedures, child growth and development in art, resources, evaluation, advocacy and directed teaching experiences in school setting.

Course Attributes: Service Learning

ARTZ 403 - Teaching Art II-- K-12

Credits: 3. Offered spring. Prereq., ARTZ 105A, 106A, 108A, and 402. Continuation and practical application of ARTZ 402.

ARTZ 410 - Advanced Research- Drawing

Credits: 3. (R-9) Offered intermittently. Prereq. ARTZ 211, ARTH 200H, ARTH 201H, and ARTH 250L or consent of instructor. Focused time for individual exploration and production of drawings for portfolio development through studio practicum, lectures, critiques, reading and writing. Sections providing a forum for performance art are taught intermittently.

ARTZ 420 - Advanced Research- Painting

Credits: 3. (R-9) Offered intermittently. Prereqs., ARTZ 105A, 106A, ARTH 200H, 201H, 250L, ARTZ 211A, 221A, 311, 321, and 422, and/or consent of instructor. Investigation of painting with emphasis on student proposals, including specific technical and conceptual aspects.

ARTZ 422 - Painting III

Credits: 3. (R-9) Offered autumn and spring. Prereq., ARTH 200H, 201H, 250L, and ARTZ 321. Includes ARTZ 422: Process and Abstraction and ARTZ 422: Portfolio Development. Studio and ARTZ 422: Finding Language. Exploration and production of paintings with emphasis on individual expression. Studio practicum, lectures, critiques, reading and writing.

ARTZ 430 - Advanced Research- Ceramics

Credits: 3. (R-9) Offered intermittently. Investigation of ceramics with emphasis on student proposals, including specific technical and conceptual aspects.

ARTZ 451 - Advanced Research- Sculpture

Credits: 3. (R-9) Offered intermittently. Prereq., ARTZ 351 or consent of instructor. Thorough investigation and articulation of the communicative elements of art. Emphasis on the craftsmanship of ideas and the refinement of personal aesthetics as they pertain to sculptural production.

ARTZ 470 - Advanced Research- Printmaking

Credits: 3. (R-9) Offered intermittently. Investigation of printmaking with emphasis on student proposals, including specific technical and conceptual aspects.

ARTZ 484 - Photo III- Studio Projects

Credits: 3. (R-9) Offered autumn or spring. Prereq., ARTZ 105A, 284A, 384. Further exploration of photographic theory, criticism, technique and expression as an art form.

ARTZ 486 - Advanced Research- Photography

Credits: 3. (R-9) Offered intermittently. Pre-req., consent of instructor. Investigation of photography with emphasis on student proposals, including specific technical and conceptual aspects.

ARTZ 491 - Special Topics

Credits: 1 TO 6. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

ARTZ 492 - Independent Study

Credits: 2 TO 6. (R-24) Offered intermittently. Prereq. Consent of instructor. Advanced studio techniques with emphasis on student initiated projects.

ARTZ 494 - Seminar- Professional Practices

Credits: 3. Offered autumn. Prereq., senior status. Required of all graduating B.F.A. students. Introduction to professional practices and standards in the visual arts, including presentation, portfolio development, career and exhibition opportunities, arts advocacy and graduate school.

ARTZ 498 - Internship

Credits: 1 TO 12. (R-12) Offered intermittently. Prereq., consent of instructor. Special internships under direction of department faculty allowing students practical experience in a chosen area. Course Attributes:

Internships/Practicums

ARTZ 499 - Senior Thesis/Capstone

Credits: 3. Offered spring. Prereq., senior status, ARTZ 494, and successful passage of B.F.A. review. Required of B.F.A. students. Focus on completion of artwork and preparation for the required spring B.F.A. exhibition. Further exploration of professional practices topics and career opportunities.

ARTZ 501 - Graduate Critique Seminar

Credits: 2. (R-4) Offered autumn and spring. Prereq., consent of instr. Weekly meetings to critique graduate student work. Level: Graduate

ARTZ 502 - Grad Assist Sem/ Prof Develop

Credits: 3. Offered autumn. Prereq., Graduate student status. A seminar-based course emphasizing various approaches to teaching, along with professional practices in art. Level: Graduate

ARTZ 504 - Pre-Candidacy

Credits: 1. Offered autumn and spring. Prereq., consent of instructor. Graduate Standing concurrent with Art 500-level Graduate Research and Studio Processes. Course emphasizes one-on-one instruction with faculty from the student's area of concentration in preparation for the student's all-faculty review prior to thesis work. Level: Graduate

ARTZ 505 - Grad Studio Res: Art

Credits: 1 TO 3. (R-24) Offered autumn and spring. Graduate program. Students meet during regularly scheduled times with faculty or in small groups throughout the semester to discuss the development of their individual work. Level: Graduate

ARTZ 506 - Graduate Pedagogy

Credits: 3. Offered Fall. Lecture-style course discussing current pedagogical practices in college-level art education. Includes development of a syllabus, teaching philosophy, assignments, and public speaking skills as well as information on the day-to-day challenges of teaching. Prepares graduate students for TA application and must be taken during first semester of graduate study. This course also includes a semester of course shadowing, working closely with an instructor from the beginning of the assigned course until finals. Assist the assigned faculty member with activities pertaining to teaching. Level: Graduate

ARTZ 507 - Beyond Art School

Credits: 2. Introduction to professional practices and standards in the visual arts, including portfolio development, presentation, exhibition opportunities and resources, approaching galleries, developing a web presence, grant writing and artist residencies. Additional topics will cover transition and progression from graduate study into the workforce. Topics will include; career opportunities, resume development, CAA, preparation of job applications, interviewing and public speaking. Level: Graduate

ARTZ 508 - Expanded Studio Practice

Credits: 3 TO 6. Offered autumn and spring. Studio-based course that offers graduate students the opportunity to work together in a studio art environment with the possibility of engaging diverse media and themes. May take the form of topic-based studio assignments, thematic inquiry, studio response to readings, and/or specific studio processes depending on faculty. Rotates amongst the faculty. Level: Graduate

ARTZ 511 - Grad Res/Studio Pr: Drawing

Credits: 2 TO 6. (R-24) Offered autumn and spring. Prereq., consent of instructor. Graduate research in drawing, based on student's direction. Level: Graduate

ARTZ 521 - Grad Res/Studio Pr: Painting

Credits: 3 TO 6. (R-24) Offered autumn and spring. Prereq., consent of instructor. Advanced research in painting. Level: Graduate

ARTZ 531 - Grad Res/Studio Pr: Ceramics

Credits: 3 TO 6. (R-24) Offered autumn and spring. Prereq. consent of instructor. Advanced research in ceramics. Level: Graduate

ARTZ 551 - Grad Res/Studio Pr: Sculpt

Credits: 2 TO 6. (R-24) Offered autumn and spring. Prereq., consent of instructor. Advanced research in sculpture. Level: Graduate

ARTZ 571 - Grad Res/Studio Pr: Print

Credits: 2 TO 12. (R-24) Offered autumn and spring. Prereq., consent of instr. Advanced research in printmaking. Level: Graduate

ARTZ 594 - Seminar

Credits: 1 TO 6. (R-6) Offered intermittently. Level: Graduate

ARTZ 595 - Special Topics

Credits: 1 TO 9. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate Course Attributes: Internships/Practicums
ARTZ 596 - Independent Study
Credits: 2 TO 6. (R-18) Prereq., consent of instructor. Offered intermittently. Level: Graduate Course Attributes: Service Learning/Volunteer
ARTZ 597 - Research in Art History
Credits: 2 TO 6. (R-18) Offered intermittently. Prereq., consent of instr. Level: Graduate
ARTZ 598 - Internship
Credits: 2 TO 6. (R-12) Offered intermittently. Prereq., consent of instructor. Level: Graduate Course Attributes: Internships/Practicums
ARTZ 697 - Thesis Paper
Credits: 1 TO 3. (R-3) Prereq., ARTZ 699. Guided one-on-one instruction with the chair of the thesis committee working toward researching and writing the thesis paper. Level: Graduate
ARTZ 699 - Thesis Exhibition
Credits: 1 TO 12. Offered intermittently. Prereq., consent of instructor. Investigation of the discipline of art history, its elements, boundaries, historiography, and practitioners. Level: Graduate

Media Arts

Mark Shogren, Director

The School of Media Arts has degree programs at both undergraduate and graduate levels. The undergraduate program offers a B.A. degree that consists of a uniquely integrated curriculum centered in digital technology as a storytelling and artistic medium. The course of instruction is comprehensive and combines the areas of digital filmmaking and integrated digital media. The undergraduate program also offers a B.F.A. degree with specializations in Digital Filmmaking, Integrated Digital Media, Animation, and Sonic Arts. The graduate program offers an M.F.A., which provides an intensive, dedicated program in either Digital Filmmaking or Integrated Digital Media. The Digital Filmmaking track offers the student comprehensive training in the areas of writing, directing and editing. The Integrated Digital Media track focuses on the areas of digital compositing, digital image design, animation, and interactive digital media. In addition, the School has a comprehensive Media Arts Minor program and a substantial number of on-line courses and elective summer classes that provide students the opportunity to enhance the artistic part of their educational experience. For more information on the academic programs and to experience the creative work of Media Arts undergraduate and graduate students please visit our website at: <http://www.umd.edu/mediaarts>.

College of Visual & Perf Arts Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Media Arts**

Total Credits: 45 Cumulative GPA Required: 2.0

The B.A. program provides a uniquely integrated curriculum that combines the areas of Digital Filmmaking and Integrated Digital Media. The courses in Digital Filmmaking focus on the three primary components of pre-production, production and post-production and include directing, writing, sound design, and editing. The courses in Integrated Digital Media focus on the relationship between digital technology and aesthetics and include still image/motion graphics, compositing, 2D animation, sound design and interactive media. History and theory courses in both areas provide students with a deeper understanding of artistic principles and practices. The undergraduate program has a large production space including a green screen area, three computer labs with 60 total stations and an audio recording room. After completion of the prerequisite courses, there is a G.P.A. gate in effect for admission

into the Major. For more information on requirements, please see the B.A. program heading under academics or the Media Arts website at <http://www.umt.edu/mediaarts>.

Lower Division Core

Category Name: Lower Division Core Rule: Complete all courses.

Criterion: C Number of Credits 21

MART 450	Topics in Film/Media Studies	3	S

Degree Commentary: Prerequisite courses (MAR 101L, MAR 112A, MART 102, MART 111A) must be completed or be in the process of completion before applying to the B.A. program.

College of Visual & Perf Arts Catalog Year: 2015-2016

Degree Type: Minor Level: Minor Subject: **Media Arts (Minor)**

Total Credits: 21 Cumulative GPA Required: 2.0

The Media Arts minor program offers an integrated curriculum, centered in digital technology as a storytelling medium. The minor is meant to supplement the work of those undergraduate students whose major area of study can be enhanced through the application of Media Arts principles and technologies and fulfills the prerequisites for those interested in pursuing the B.A. The Media Arts minor is offered both in-class and online. For more information please visit our website at <http://www.umt.edu/mediaarts>.

- Richard Hughes
- Michael Murphy
- Mark Shogren, Director, School of Media Arts

Associate Professors

- Andrew Smith

Assistant Professors

- Heejoo Gwen Kim
- Gregory Twigg

Adjunct Faculty

- Jason Gutzmer
- Nicholas Jenkins
- Dale Sherrard

Course Descriptions

Media Arts-Filmmaking

MAR 252 - Screenwriting

Credits: 3. Level: Undergraduate. Offered autumn. Prereq., Media Arts Major. Intermediate level writing class devoted to short films, with an emphasis on writing camera-ready scripts for spring production. Feature film structure and techniques also discussed.

MAR 335 - Experimental Animation

Credits: 3. Level: Undergraduate. Offered Spring. This course focuses on the development and creation of experimental animation projects using traditional stop motion animation techniques such as hand drawn, silhouette, object and clay. Projects created in this class may have elements created using iStopmotion, Dragonframe and other digital capture platforms. Open to Media Arts majors only.

MAR 415 - Short Form Screenwriting

Credits: 3. Level: Undergraduate, Graduate. Offered Autumn. Media Arts majors only. Intermediate level writing class devoted to short films, with an emphasis on writing camera-ready scripts for spring production. Feature film structure and techniques are also discussed.

MAR 442 - Experimental Film

Credits: 3. Level: Undergraduate. Offered autumn. Media Arts majors only. Surveying a wide range of experimental cinema (film/video) from the 1920's to the present with the central focus being artistic practice in the context of historic and cultural concerns. Students will also create projects focusing on exploring film/video both as a form of personal expression and as a medium, rather than as mass entertainment.

MAR 443 - Documentary

Credits: 3. Level: Undergraduate, Graduate. Offered autumn. Designed to bring together Film Studies students (theorists) and Media Arts students (filmmakers) so they may draw from their respective fields to collaborate on the production of documentaries. After exposure to both documentary history and criticism, students will be required to work with a team of producers in learning the basic skills involved in documentary production.

MAR 456 - Directing

Credits: 3. Level: Undergraduate, Graduate. Offered autumn. Media Arts majors only. Developing, directing and editing a five to seven minute fiction movie. In depth work on creation of shooting script, casting, work with actors and location work. Emphasis on collaborative process and diligence and preparation in all levels of production.

MAR 470 - Adv. Acting for Film I

Credits: 3. Level: Undergraduate, Graduate. Offered autumn. The class introduces the student to acting techniques needed to work competently in realistic film work. It consists of acting in several exercises and scenes shot in the studio, as well as research into different film acting styles.

MAR 471 - Adv. Acting for Film II

Credits: 3. Level: Undergraduate, Graduate. Offered spring. A project-based course that combines actors and directors in the collaborative creation of a short fiction film.

Media Arts

MART 101L - Intro to Media Arts

Credits: 3. Level: Undergraduate. Offered every term. Overview of the media arts and their interaction, integration and development in the creation of story beginning with the early years of photography and movie-making through the introduction of radio and television up to the digital revolution. Course Attributes: Literary & Artistic Stds Crse

MART 102 - Digital Technology in the Arts

Credits: 3. Level: Undergraduate. Offered every term. An introduction to the relationship between aesthetics and the emerging capacities of digital technology. The course will explore the basic evolution of hardware, system software, and the Internet and will present a brief history of the pioneers of both traditional and digital art. It will also look at contemporary and emerging trends in the artistic application of digital technology.

MART 111A - Integrated Digital Art

Credits: 3. Level: Undergraduate. Offered every term. A project-oriented editing and design course that focuses on artistic expression and its relationship to digital technology. Using Adobe Photoshop and Adobe After Effects, students will create audio/visual work in both the still image and time based mediums. Course Attributes: Expressive Arts Course

MART 112A - Intro to Non-Lin Editing

Credits: 3. Level: Undergraduate. Offered every term. Study of the history, process and philosophy of narrative film/video editing and an introduction to Final Cut nonlinear editing software. Course Attributes: Expressive Arts Course

MART 230 - Introduction to Still Image

Credits: 3. Level: Undergraduate. Offered every term. This course provides a thorough introduction to the practices of capturing digital still imagery through scanning, photography, internet acquisition and mobile devices. Emphasis on content, composition, and digital manipulation of images is applied through the creation of various still-image projects. Digital capture techniques, project planning, narrative, and the integration of various forms of digital design are fundamental components of this course.

MART 235 - Fundamentals of Type

Credits: 3. Level: Undergraduate. Offered every semester. This course is a study of the design and use of basic letterforms, anatomical features, hierarchy of information, major type families and characteristics, and the understanding of typographic grids. Students will learn the historical significance of letterforms and their origins to help fully understand how to use typography correctly within their works and designs. Students will gain experience in the art of typesetting and typographic layout, and learn the necessary skills for expressive typography, conceptual thinking and effective communication.

MART 255 - Intro Photshp Media Arts

Credits: 3. Level: Undergraduate. Offered every term. Online Course. An introduction to the basic principles and techniques of still image design and manipulation using Adobe Photoshop. This project-based course demystifies the powerful Photoshop toolsets and workspace and enables students to actualize their ideas by helping them to develop an efficient production process.

MART 256 - Intro Illustr for Media Arts

Credits: 3. Level: Undergraduate. Offered every term. An introduction to the basic principles and techniques of still image design and manipulation using Adobe Illustrator, the industry leading application for creating vector-based content. This project-based course demystifies the powerful Illustrator toolsets and workspace and enables students to actualize their ideas by helping them to develop an efficient production process. No prerequisites required.

MART 300 - Visions of Film

Credits: 3. Level: Undergraduate. Offered spring. Media Arts majors only. Study of major film theories that led to the constitution of visual film language and their application in contemporary film narrative and direction.

MART 301 - Media Arts Practices

Credits: 1 TO 6. Level: Undergraduate. (R-6) Offered autumn. Prereq., Media Arts majors only. Practical application of the principles of production through work on graduate and upper level undergraduate projects, either as a crew member, production manager, designer, editor, director of photography or actor.

MART 302 - Intro to Motion Design

Credits: 3. Level: Undergraduate. Offered spring. Media Arts majors only. This project-oriented course will introduce students to the basic technical and aesthetic components of digital motion design using the industry standard software programs Photoshop and After Effects.

MART 304 - Modern Horror Film

Credits: 3. Level: Undergraduate. Offered every term. Online Course. This class explores the changing landscape of the horror film since 1960, studying the movies in filmic terms (Acting, Directing, Cinematography, Music, etc.) and sociological importance. Through online discussions, selected readings, multimedia projects, and video lectures, we will seek to understand the often-controversial genre of horror.

MART 305 - 3D Animation I

Credits: 3. Level: Undergraduate. Offered Autumn. This course is an introduction to fundamental concepts, principles, and practices of 3D digital modeling with Maya. Students will develop 3D modeling techniques, including production of geometric and organic objects. Through lectures, tutorials, in-class exercises and projects, students will be exposed to various techniques that may be used for innovative and artistic content such as filmic animation and compositing. Open to Media Arts majors only.

MART 320 - Art of Photoshop

Credits: 3. Level: Undergraduate. Offered every term. Online Course. Pre-requisite MAR 230 or consent of instructor. This course provides an understanding of the use of Photoshop as an artistic tool. Exercises and projects will explore areas of customizing & combining tools, depth & perspective, and graphic elements (including text & paths), and will be based on effective production techniques, project planning, and the artistic principles of color theory, content, and layering.

MART 324 - Stop Motion Animation

Credits: 3. Level: Undergraduate. Offered winter and summer sessions. Guides students through the active creation of several individual stop motion animation projects while developing their knowledge and expertise in traditional stop motion animation techniques using modern computing technology.

MART 327 - Intro to Cinematography

Credits: 3. Level: Undergraduate. Offered spring. Media Arts majors only. Preliminary study of digital cinematography including color theory, composition, lens choice, continuity, camera movement/support, lighting for film and video, and grip in both studio and location situations.

MART 332 - Introduction to Film Scoring

Credits: 3. Level: Undergraduate. Media Arts / Music Majors only. Intro to Film Scoring focuses on the role of music in movies. It covers composition, orchestration, and dramatic techniques and how they integrate with the elements of dramatic action. Students will analyze iconic movies and scores and working with media arts film students, create two original film scores. Media Arts / Music Majors only.

MART 333 - 3D Animation II

Credits: 3. Level: Undergraduate. Offered Spring. Building on the modeling skills learned in 3D Animation I, this course teaches students how to animate, texture map, add visual effects and render. The course will also cover advanced rigging techniques. As a continuation of this series, students will be introduced to animation, dynamics (including particle and fluid systems), and MEL scripting. Open to Media Arts majors only.

MART 335 - Experimental Animation

Credits: 3. Level: Undergraduate. Offered spring. This course focuses on the development and creation of experimental animation projects using traditional stop motion animation techniques such as hand drawn, silhouette, object and clay. Projects created in this class may have elements created using iStopmotion, Dragonframe and other digital capture platforms. Open to Media Arts majors only.

MART 336 - Directing the Fic Film

Credits: 3. Level: Undergraduate. Offered autumn. Media Arts majors only. Developing, directing and editing a five to seven minute fiction movie. In depth work on creation of shooting script, casting, work with actors and location work. Emphasis on collaborative process and diligence and preparation in all levels of production.

MART 340 - Princ of Interactive Media

Credits: 3. Level: Undergraduate. Offered spring. Media Arts majors only. This course is designed to help students gain the skill sets necessary to successfully create work in the constantly evolving internet environment. It covers the fundamentals of website structure, content design and navigation and focuses on directory structure, visual design, user navigation, audio/video integration and domain management.

MART 341 - Intro to Web Design

Credits: 3. Level: Undergraduate. Offered every term. Online Course. Students will gain necessary skills in this introduction to the fundamentals of website structure, content design and navigation. Areas of focus will be directory structure, visual design, user navigation, audio/video integration and domain management. This course is open to all university students and geared to non-majors.

MART 342 - Art & Sci of Interactive Games

Credits: 3. Level: Undergraduate. Offer every term. Online course. This class is an introduction to the technological achievements and artistic and social impacts involved with the development of interactive games. It will cover the evolution of the gaming profile and the advanced visual, sonic and narrative properties that make interactive games the explosive growth industry that is today.

MART 391 - Special Topics

Credits: 1 TO 12. Level: Undergraduate. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

MART 395 - Practicum I

Credits: 3. Level: Undergraduate. Offered every term. This course offers the student the opportunity to apply their media arts skill sets and techniques to a variety of professional level projects that include movies, web site design, and still image design. Course Attributes: Internships/Practicums

MART 416 - Preproduction for Animation

Credits: 3. Level: Undergraduate, Graduate. Offered Autumn. This course offers a thorough look at storyboarding/previsuals, idea sketches and writing synopsis, as well as identity and promotion of finished animated works. Promotional imaging, treatments and festival entry work will also be a focus in this class. Open to Media Arts majors only.

MART 422 - Digital Compositing II

Credits: 3. Level: Undergraduate, Graduate. Offered spring. Media Arts majors only. Combines the common aesthetic and technical language with solid design principles. Students immerse themselves in the making of a body of integrated-digital 3D work that explores the technical and aesthetic possibilities of multi-layered x y z plane actualizations.

MART 425 - Tech of Digital Animation

Credits: 3. Level: Undergraduate. Offered autumn. Media Arts majors only. Advanced techniques of 2D animation using Macromedia Flash as well as integrating those techniques with the basic 3D digital animation capabilities of Adobe After Effects, including virtual lighting and the virtual camera.

MART 432 - Techniques of Film Scoring

Credits: 3. Level: Undergraduate. Prereq., MART 332. Focuses on the role of music in movies and expands upon the work accomplished in MART 332. It covers composition, orchestration, and harmonic techniques and integrates these with the elements of dramatic action. Students will work with media arts film students to actualize these techniques by creating original film scores of short scenes. The course will include a student project gallery, a peer review area, downloadable videos specific to the curriculum and a wide variety of online resources applicable to the subject matter.

MART 440 - Tech Interactive Media Design

Credits: 3. Level: Undergraduate. Offered spring. Media Arts majors only. Pre-requisite MAR 340. Advanced interactive media design class that builds on the foundation of principles taught in MAR 340.

MART 445 - Sound for Digital Media

Credits: 3. Level: Undergraduate, Graduate. Offered spring. Media Arts majors only. This course is targeted at the Integrated Digital Media student and introduces fundamental concepts, principles and practices of digital sound recording and editing. This will enable students to expand their aesthetic by integrating their sonic and visual creative work.

MART 446 - Sound for Film

Credits: 3. Level: Undergraduate, Graduate. Offered spring. Media Arts majors only. This course is targeted at the Digital Filmmaking student and introduces fundamental concepts, principles and practices of digital location sound recording and post-production editing to picture in order to establish a common aesthetic and technical language.

MART 450 - Topics in Film/Media Studies

Credits: 3. Level: Undergraduate. Offered spring. Media Arts majors only. Research and exploration of contemporary film, video, digital art and design. Focus on areas of student research both in commercial and non-commercial venues and styles. Course Attributes: Writing Course-Upper-Division

MART 455 - Visions of Documentary Film

Credits: 3. Level: Undergraduate. Offered spring. Media Arts majors only. Production of short experimental works of non-fiction. Emphasis on pre-production articulation of ideas and goals that lead to competent dramatic footage of actual events and people. Applied concepts: personal point-of-view, metaphor as organizing principle, articulation of subject/thesis, complexity of story, embedded meanings, use of visual motif.

MART 457 - Postproduction for Animation

Credits: 3. Level: Undergraduate, Graduate. Offered Spring. This course covers the principles and techniques of finishing projects/animations. Students will focus on advanced rendering tools and applications, refined editing and titles/credits, enabling students to leave with a well polished finished animation project. Open to Media Arts majors only.

MART 491 - Special Topics

Credits: 1 TO 12. Level: Undergraduate, Graduate. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

MART 495 - Practicum II

Credits: 3. Level: Undergraduate, Graduate. Offered every term. This course offers the student the opportunity to apply their media arts skill sets and techniques to a variety of professional level projects that include movies, web site design, and still image design. Course Attributes: Internships/Practicums

MART 499 - Senior Project

Credits: 3. Level: Undergraduate. Offered spring. Media Arts majors only. This capstone course gives the student an opportunity to create an integrated senior project which brings together all of the elements of their course of study.

MART 500 - Digital Tech in the Arts I

Credits: 4. Level: Undergraduate, Graduate. Offered autumn. This course explores the relationship between aesthetics and the emerging capabilities of digital technology. It will cover the historical relationship between science and art up to the end of the 20th century and examine the methodology of critical artistic applications.

MART 509 - Media Production II

Credits: 4. Level: Undergraduate, Graduate. Offered spring. Continuation of production and post-production practices and techniques introduced in MAR 508.

MART 510 - Digi Tech in the Arts II

Credits: 4. Level: Undergraduate, Graduate. Offered spring. This course expands upon the research begun in MAR 500 by exploring the development of emerging 21st century digital technologies and their impact on aesthetics in artistic production.

MART 514 - Advanced Composit Tech

Credits: 4. Level: Undergraduate, Graduate. Offered spring. This course continues the work begun in MAR 422 by furthering the development of artistic principles and practices and culminates in an in-house presentation of graduate level motion design techniques.

MART 520 - Graduate Teaching Seminar

Credits: 2. Level: Graduate. Offered autumn. This graduate seminar is designed for prospective graduate teaching assistants and will cover techniques and best practices for both in-class and online delivery.

MART 522 - Intro to Inter Digi Media

Credits: 4. Level: Undergraduate, Graduate. Offered autumn. Based upon the research developed in MAR 500 and MAR 510, graduate students will explore and begin to develop artistic applications of interactive digital media, which will culminate in a semester end in-house presentation.

MART 523 - Tech in Inter Digi Media

Credits: 4. Level: Undergraduate, Graduate. Offered spring. This course expands upon the work begun in MAR 522 and will culminate in a semester end public presentation.

MART 524 - Compositing Applications I

Credits: 4. Level: Undergraduate, Graduate. Offered autumn. Based upon the concepts and principles developed in MAR 422 and MAR 514, graduate students will create a compositing project from pre-production through post-production, which will culminate in a semester end in-house presentation.

MART 525 - Compositing Applic. II

Credits: 4. Level: Undergraduate, Graduate. Offered spring. This course expands upon the work begun in MAR 524 and culminates in a semester end public presentation.

MART 557 - Advanced Post-Production

Credits: 4. Level: Undergraduate, Graduate. Offered Fall. Advanced Post Production is a graduate level course designed to provide students with advanced technical and conceptual instruction in non-linear editing for narrative films. The class provides a platform for engaging in conceptual critiques with their films as they are edited as well as a base for professional certification in the Final Cut Pro Application.

MART 580 - Principals of Cinematography

Credits: 4. Level: Undergraduate, Graduate. Offered autumn. Intermediate study of digital cinematography including color theory, composition, lens choice, continuity, camera movement/support, lighting for film and video, and grip in both studio and location situations.

MART 591 - Graduate Practicum

Credits: 3. Level: Undergraduate, Graduate. Offered every term. This course offers the graduate student the opportunity to expand their media arts skill sets and techniques by working on a variety of professional level projects that include movies, web site design, and still image design.

MART 595 - Special Topics

Credits: 1 TO 6. Level: Undergraduate, Graduate. (R-12) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, and one-time offerings of current topics. Course Attributes: Internships/Practicums

Music

Maxine Ramey, Director

The School of Music offers students who have demonstrated talent in music the opportunity to continue further study either for a profession or an avocation and at the same time acquire a broad general education. Complete sequences of courses are given to prepare a student for a career as a teacher or supervisor of music in the elementary/secondary schools; for a career directed toward composition, the music technology industry, private teaching, or concert work; or, for a thorough training in music within the structure of a broad liberal arts curriculum. Four year degree programs at the undergraduate level include the Bachelor of Music Education; Bachelor of Music with areas of specialization in performance, piano performance and pedagogy or composition/music technology; and Bachelor of Arts in music. Two year graduate degree programs include the Master of Music with areas of specialization in music education, performance, composition/technology; and musical theater.

The University of Montana-Missoula is an accredited institutional member of the National Association of Schools of Music.

In general, admission as a major in the School of Music is by certificate from the high school from which the student graduates. The faculty of the School of Music is more concerned with evidence of talent, conspicuous achievement in music, promise of development, and scholarship in general than it is in the precise content of the program which the prospective music student has followed prior to admission to the University.

The School of Music welcomes the opportunity for prospective students and parents to consult with faculty and administration by paper and electronic correspondence and/or by appointment interviews on the campus. Every student wishing to become a music major or minor must take the Music Theory Assessment Examination and a Piano Proficiency Evaluation during orientation and also must audition and be accepted officially into the applied studio of a music faculty member prior to confirmation as a fully-admitted major or minor in music. Students may be admitted provisionally for one semester, and at the end of that semester students must re-audition to gain full admittance into a music major degree program.

College of Visual & Perf Arts Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Music**

To earn a Bachelor of Arts in Music choose among the following:

Subject: **Music: Music History**

Total Credits: 51 Cumulative GPA Required: 2.75

Electives are to allow for emphasis in a particular area of Music study and must include course work at the upper-division level.

Upper-division course work normally requires a pre-requisite. Please see the University general catalog for details.

Consent of instructor will be required if all prerequisites have not been met.

To receive an academic minor in Music the student Must earn at least 27 credits to include the following:

- MUSI 202L (Introduction to Music Literature) 3 credits
- MUSI 195 (Major Performance I) 2 credits
- 2 credits chosen from MUSI 112A (Choral Ensembles), 108A (Orchestras), 155A (Marching Band), 112A (Concert Bands), 110A (Opera Theater), 131A (UM Jazz Bands), 162A (Chamber Ensembles), taken concurrently with 195.
- MUSI 105-106 (Music Theory I, II) 4 credits
- MUSI 140-141 (Aural Perception I, II) 4 credits
- 12 credits of Music electives which Must be approved in advance by the School of Music, Director.

Faculty

Professors

- Margaret Nichols Baldrige, Professor Violin and Viola
- Anne Basinski, Professor, School of Music - Director, UM Opera Theater - Director, Undergraduate Voice Area
- Fern Glass Boyd, Cello, Music Literature
- Steven Hesla, Keyboard Area Chair
- Stephen Kalm, Dean
- Dr. Robert LedBetter, Director of Percussion Studies
- Luis Millán, Director of Orchestra, Guitar
- Maxine Ramey, Director, School of Music
- Margaret Lund Schuberg, Professor of Flute
- Patrick Williams, Theory/Composition

Associate Professors

- David Cody, Voice, Opera, Musical Theatre
- Jennifer Gookin Cavanaugh, Associate Professor of Oboe & Bassoon
- Lori Gray, Associate Professor, Music Education Specialist
- Kevin Griggs, Director of Marching Band, Trumpet
- Christopher Hahn, Piano
- Kimberly Gratland James, Associate Professor, Voice; Coordinator, MM Vocal Performance Program
- James Randall, Associate Professor of Music History
- James Smart, Director of Bands, Trumpet

Assistant Professors

- David Edmonds, Director of Choral Studies
- Johan Eriksson, Assistant Professor of Saxophone and Jazz Studies
- Christopher Kirkpatrick, Assistant Professor of Clarinet
- Rob Tapper, Professor of Trombone & Director of Jazz Studies

Adjunct Faculty

- Jeff Brandt, The Unprofessor
- Nancy Cooper, Adjunct Assistant Professor of Music
- Simon Hutchinson, Visiting Assistant Professor of Composition
- Creighton James
- Benedict Kirby, Adjunct Prof. of Tuba & Euphonium
- Roger Logan
- Thomas Pertis
- Amy Smart, Country Music On-line

Course Descriptions

Music-Education

MUSE 120 - Techs: String Inst in Class I

Credits: 1. Level: Undergraduate. (R-2) Offered autumn. Group instruction for beginning students on violin, viola, cello and bass, with emphasis on teaching procedures.

MUSE 121 - Techs: String Inst in Class II

Credits: 1. Level: Undergraduate. (R-2) Offered spring. Prereq., MUSE 120. Continuation of MUSE 120.

MUSE 123 - Techniques: Voice

Credits: 1. Level: Undergraduate. Offered autumn. This course examines vocal function and issues associated with the physical processes of singing such as alignment, breathing, creating sound, amplifying (resonating) sound.

Additionally, students will learn basic information about becoming a voice teacher (or choral director). Students will also learn about singers' diction, voice classification, and the appropriate assigning of solo classical repertoire.

Course Attributes: Expressive Arts Course Performance Music Course

MUSE 126 - Techs: Percussn Instruments I

Credits: 1. Level: Undergraduate. (R-2) Offered autumn. Basic instruction in percussion instruments, with emphasis on teaching procedures.

MUSE 127 - Techs: Percussn Instruments II

Credits: 1. Level: Undergraduate. (R-2) Offered spring. Prereq., MUSI 126. Continuation of MUSI 126. Basic instruction in percussion instruments, with emphasis on teaching procedures.

MUSE 272 - Techniques: Flute & Single Reed

Credits: 1. Level: Undergraduate. Composers are expected to bring new musical ideas, sketches, and eventually finished pieces to the workshop, while performers are expected to read, critique, practice, and finally perform the new works.

MUSE 273 - Techniques: Double Reed

Credits: 1. Level: Undergraduate. (R-2) Offered autumn. Basic instruction in oboe and bassoon, with emphasis on teaching procedures.

MUSE 274 - Techniques: Upper Brass

Credits: 1. Level: Undergraduate. (R-2) Offered autumn. Basic instruction in trumpet and horn, with emphasis on teaching procedures.

MUSE 275 - Techniques: Lower Brass

Credits: 1. Level: Undergraduate. Offered spring. Basic instruction in trombone, baritone, and tuba, with emphasis on teaching procedures.

MUSE 333 - Gen Music Methods & Materls I

Credits: 2. Level: Undergraduate. Offered autumn. Prereq., upper-division standing in music and C&I 200.

Development of practical knowledge to effectively instruct and administer general music classes in the public schools, grades K-12.

MUSE 334 - Gen Music Methods & Materls II

Credits: 2. Level: Undergraduate. Offered spring. Prereq., upper-division standing in music and C&I 200.

Continuation of MUSE 333.

MUSE 397 - Methods: K-8 Music

Credits: 2. Level: Undergraduate. Offered autumn and spring. Prereq., C&I 200. Integration of fundamental skills and basic rudiments of music into the various aspects of teaching music creatively in the elementary school. For non-music majors only.

MUSE 425 - Technology and Materials

Credits: 2. Level: Undergraduate. Offered autumn semesters, as an elective. The course will provide in-depth examination of technology and print resources appropriate for use in music classrooms K-12, all areas and

ensembles. Students will work independently and collaboratively to reflect upon, discuss, and practice utilizing technology and print resources for the music classroom (K-12).

MUSE 497 - Methods: Choral & Literature

Credits: 2. Level: Undergraduate. Offered Spring. Prereq., upper-division standing in music and MUSE 123. Development of strategies for directing the secondary choral ensemble. Focus on rehearsal techniques and literature selection for the developing choir.

MUSE 512 - Repertoire Pub Sch Mus

Credits: 2. Level: Undergraduate, Graduate. (R-4) Offered intermittently. Prereq., graduate standing in music. Concentrated study of repertoire for instrumental or vocal soloists, chamber ensembles or large ensembles.

MUSE 521 - Psychology of Music

Credits: 2. Level: Undergraduate, Graduate. Offered intermittently. Prereq., graduate standing in music. Investigation of the perception, processing and cognition of music. Psychological foundations of musical behavior: psychoacoustics, measurement and prediction of musical ability, functional music, music and society, music learning, and effective response to music.

MUSE 522 - Philosophy of Music

Credits: 2. Level: Undergraduate, Graduate. Offered intermittently. Prereq., graduate standing in music. An investigation of the meaning of music, the relationship to various societies and social structures and the leading philosophical ideas which relate to music and music instruction.

MUSE 581 - Arts Educ Institute

Credits: 2. Level: Undergraduate, Graduate. (R-4) Offered summer. Same as ART 581, THTR 581. Open forum with national and regional speakers, panels, and symposia to promote discussion, understanding, and direction on significant national issues in the arts and arts education.

MUSE 582 - Arts Educ Seminar I

Credits: 1 TO 2. Level: Undergraduate, Graduate. (R-4) Same as CP 582. Offered summers. Topics vary.

MUSE 583 - Arts Educ Seminar II

Credits: 1 TO 2. Level: Undergraduate, Graduate. (R-4) Prereq., MUSE 582. Same as CP 583. Offered summers. Topics vary.

MUSE 584 - Arts Educ Seminar III

Credits: 1 TO 2. Level: Undergraduate, Graduate. (R-18) Prereq., MUSE 583. Same as CP 584. Continuation MUSE 583.

MUSE 585 - Arts Educ Seminar IV

Credits: 1 TO 2. Level: Undergraduate, Graduate. (R-4) Prereq., MUSE 584. Same as CP 585. Continuation of MUSE 584.

MUSE 586 - Arts Educ Seminar V

Credits: 1 TO 2. Level: Undergraduate, Graduate. (R-8) Offered summer. Prereq., MUSE 585. Same as CP 586. Continuation and synthesis of preceding seminars.

MUSE 588 - Arts Ed Apprenticeship

Credits: 1 TO 3. Level: Undergraduate, Graduate. (R-24) Offered summer. Same as CP 588. Exploration of art forms to develop new artistic and communicative perceptions and awareness.

Music

MUSI 101L - Enjoyment of Music

Credits: 3. Level: Undergraduate. Offered autumn and spring. The development of music listening skills. Exploration of the relationship between musical materials and the expressive qualities of a musical composition or performance. Concert attendance required. No musical background is expected. For non majors only. Credit not allowed for both MUSI 101L and 202L (MUS 134L and 135L). Course Attributes: Literary & Artistic Stds Crse

MUSI 102A - Performance Study

Credits: 1 TO 2. Level: Undergraduate. Offered autumn and spring. Prereq., consent of instr. Individual instruction in voice, piano, organ, harpsichord, carillon, string, wind and percussion instruments. A total of 6 credits is allowed in any one performance area. All private instruction requires concurrent ensemble participation. Course Attributes: Expressive Arts Course Performance Music Course

MUSI 104 - Music Fundamentals

Credits: 2. Level: Undergraduate. Offered autumn. Basic principles of notation, including clefs, scales, intervals, chords and rhythm.

MUSI 105 - Music Theory I

Credits: 2. Level: Undergraduate. Offered autumn. Coreq., MUSI 140. Material and structure of music. Application of principles in two-, three-, and four-part writing and the keyboard.

MUSI 106 - Music Theory II

Credits: 2. Level: Undergraduate. Offered spring. Prereq., MUSI 105. Coreq., MUSI 141. Continuation of MUSI 105.

MUSI 108A - Orchestra: UMSO

Credits: 1. Level: Undergraduate. Offered autumn and spring. See MUSI 112A for repeatability limitations. Open to all University students by audition. Rehearsal and performing experience in a broad range of symphonic, choral, operatic and concerto repertoire in the University Orchestra and the Missoula Symphony. Course Attributes:

Ensemble Music Course Expressive Arts Course

MUSI 110A - Opera Theatre I

Credits: 1. Level: Undergraduate. (R-8) Offered autumn and spring. Prereq., consent of instr. Study and performance of the standard opera repertoire. Course Attributes: Ensemble Music Course Expressive Arts Course

MUSI 111A - Singing for Non-Majors

Credits: 2. Level: Undergraduate. Offered autumn and spring. An introduction to the skills which enable and enhance artistic singing. As a group, students work to understand and exercise good tone production, musicality, and performance skills. Course Attributes: Expressive Arts Course

MUSI 112A - Choir: Chamber Chorale

Credits: 1. Level: Undergraduate. Offered autumn and spring. Open to all University students. Audition places students according to appropriate ensemble and proper seating/section. Music majors refer to curricula for specific requirements. Non-music majors may apply 8 credits of MUSI 112A-114A, 110A/310, 131A/331, and 122A/322 toward graduation. Course Attributes: Ensemble Music Course Expressive Arts Course

MUSI 114A - Band: UM Concert Band

Credits: 1. Level: Undergraduate. Offered autumn and spring. See MUSI 112A for repeatability limitations. Major musical organizations open to all University students. Audition required for Symphonic Wind Ensemble. Course Attributes: Ensemble Music Course Expressive Arts Course

MUSI 122A - Percussion Ensemble: UM

Credits: 1. Level: Undergraduate. Offered autumn and spring. See MUSI 112A for repeatability limitations. Prereq., consent of instr. String, woodwind, brass, percussion, piano and vocal ensembles as appropriate to meet student needs. Course Attributes: Ensemble Music Course Expressive Arts Course

MUSI 123A - World Percussion Ensemble

Credits: 1. Level: Undergraduate. Offered autumn and spring. See MUS 107A for repeatability limitations. Prereq., consent of instr. String, woodwind, brass, percussion, piano and vocal ensembles as appropriate to meet student needs. Course Attributes: Expressive Arts Course

MUSI 130L - History of Jazz

Credits: 3. Level: Undergraduate. Offered autumn. The development of jazz in the 20th century with emphasis on critical listening and the recognition of important trends and people in its history. Course Attributes: Literary & Artistic Stds Crse

MUSI 131A - Jazz Ensemble I: UM Jazz Bands

Credits: 1. Level: Undergraduate. (R-8) Offered autumn and spring. Prereq., consent of instr. Study and performance of the jazz repertoire. Course Attributes: Ensemble Music Course Expressive Arts Course

MUSI 132L - History of Rock & Roll

Credits: 3. Level: Undergraduate. Offered autumn and spring. A study of the roots, components, and development of the musical art form "Rock and Roll". Significant performing artists and movements with the style identified and presented. Includes traditional lecture with substantial use of audio and visual aids. Course Attributes: Literary & Artistic Stds Crse

MUSI 133L - Cntry Msc:Cowbys,Opry,Nshville

Credits: 3. Level: Undergraduate. This course will explore the country music genre, including its major performers, songwriters, songs and impact on culture from the early times on the radio to the beginning of the twenty-first century. Course Attributes: Literary & Artistic Stds Crse

MUSI 135A - Keyboard Skills I

Credits: 1. Level: Undergraduate. Offered autumn. Music reading, techniques, and harmonization skills acquired through study of solo and ensemble repertoire in a contemporary electronic piano laboratory. Course Attributes: Expressive Arts Course Performance Music Course

MUSI 136A - Keyboard Skills II

Credits: 1. Level: Undergraduate. Offered spring. Prereq., MUSI 135A. Continuation of MUSI 135A. Course Attributes: Expressive Arts Course Performance Music Course

MUSI 138 - Language of Music I

Credits: 3. Level: Undergraduate. Offered autumn. Music fundamentals including scales, intervals, triads, and rhythm as they are written and heard. Practical application to the voice and/ or keyboard.

MUSI 139 - Language of Music II

Credits: 3. Level: Undergraduate. Offered spring. Prereq., MUSI 138. Continuation of MUSI 138 with emphasis on analysis of musical examples and aural recognition of basic harmonic patterns.

MUSI 140 - Aural Perception I

Credits: 2. Level: Undergraduate. Offered autumn. Coreq., MUSI 105. A laboratory course in singing and dictation to supplement Theory I.

MUSI 141 - Aural Perception II

Credits: 2. Level: Undergraduate. Offered spring. Prereq., MUSI 140; coreq., MUSI 106. Continuation of MUSI 140.

MUSI 155A - Marching: Grizzly Marchng Band

Credits: 1. Level: Undergraduate. Offered autumn. See MUSI 112A for repeatability limitations. A musical organization of brass, woodwinds, percussion, and auxiliary units open to all University students with no audition required. Course Attributes: Expressive Arts Course

MUSI 160A - Beginning Guitar

Credits: 2. Level: Undergraduate. Offered autumn. A beginning course in the fundamentals of playing folk guitar.

Includes introduction to the rudiments of music. Course Attributes: Expressive Arts Course

MUSI 162A - Chamber Ensembles I

Credits: 1. Level: Undergraduate. (R-20) Offered autumn and spring. See MUS 107A for repeatability limitations.

Prereq., consent of instr. String, woodwind, brass, percussion, piano and vocal ensembles as appropriate to meet student needs. Course Attributes: Expressive Arts Course

MUSI 180 - Composition I

Credits: 1 TO 2. Level: Undergraduate. (R-4) Offered autumn and spring. Prereq., consent of instr. An introduction to the basic art of music composition. May be substituted for upper division electives for students not majoring in theory or composition.

MUSI 191 - Special / Experimental Courses

Credits: 1 TO 9. Level: Undergraduate. (R-9) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

MUSI 191L - Special Topics

Credits: 1 TO 9. Level: Undergraduate. (R-9) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Internships/Practicums Literary & Artistic Stds Crse

MUSI 192 - Independent Study

Credits: 1 TO 3. Level: Undergraduate. (R-9) Offered autumn and spring. Course material appropriate to the needs and objectives of the individual student.

MUSI 195 - Applied Study I

Credits: 1 TO 4. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., audition and consent of instr. Instruction in voice, piano, organ, string, wind and percussion instruments. Students entering MUSI 195 must show talent for solo performance and evidence of the equivalent of a minimum of four years prior study. All private instruction requires concurrent ensemble participation. Course Attributes: Internships/Practicums Performance Music Course

MUSI 202L - Intro to Music Literature

Credits: 3. Level: Undergraduate. Offered spring. Prereq., for non-majors consent of instr. A survey of representative examples of the standard music literature of the Western European tradition. Particular attention to musical styles and forms and their relationship to musical understanding and effective listening. A basic knowledge of music fundamentals is expected. Credit not allowed for both MUSI 101L and 202L. Course Attributes: Literary & Artistic Stds Crse

MUSI 205 - Music Theory III

Credits: 2. Level: Undergraduate. Offered autumn. Prereq., MUSI 106 and 141; coreq., MUSI 240. Continuation of MUSI 106.

MUSI 206 - Music Theory IV

Credits: 2. Level: Undergraduate. Offered spring. Prereq., MUSI 205; coreq., MUSI 241. This course is a continuation of MUSI 205, concentrating on, but not limited to, music as defined by and expressed in the Western European historical traditions from the Renaissance through the common practice period to the contemporary musical world in which we live.

MUSI 207H - World Music (equiv to 307)

Credits: 3. Level: Undergraduate. Offered autumn and spring. Introduction to the diversity of music among the world's peoples. Selected music systems throughout the world examined in their broad cultural contexts: religious,

historical, and social. Introduction to ethnomusicology—a combination of musicology, anthropology and other related disciplines. Course Attributes: Historical & Cultural Course Non-Western Course Indigenous and Global

MUSI 218 - Int Piano Cls (Honors)

Credits: 1. Level: Undergraduate. Offered intermittently. Prereq., placement examination. Accelerated offering of the material covered in MUSI 235 and 236. Course Attributes: Performance Music Course

MUSI 225 - Jazz Theory & Improvisation I

Credits: 2. Level: Undergraduate. Offered autumn. A performance oriented course to provide a basic understanding of jazz harmony. Application of scales and melodic patterns in improvising over various harmonic progressions.

MUSI 226 - Jazz Theory & Improvisation II

Credits: 2. Level: Undergraduate. Offered spring. Prereq., MUSI 225. Continuation of MUSI 225.

MUSI 235 - Keyboard Skills III

Credits: 1. Level: Undergraduate. Offered autumn. Prereq., MUSI 136A or equiv. Continuation of MUSI 136A.

Course Attributes: Performance Music Course

MUSI 236 - Keyboard Skills IV

Credits: 1. Level: Undergraduate. Offered spring. Prereq., MUSI 235. Continuation of MUSI 235, culminates in piano functional examination. Course Attributes: Performance Music Course

MUSI 240 - Aural Perception III

Credits: 2. Level: Undergraduate. Offered autumn. Prereq., MUSI 106 and 141; coreq., MUSI 205. A lab course in singing and dictation to supplement Theory III.

MUSI 241 - Aural Perception IV

Credits: 2. Level: Undergraduate. Offered spring. Prereq., MUSI 240; coreq., MUSI 206. See MUSI 240.

MUSI 267A - Composer's Workshop

Credits: 1. Level: Undergraduate. This is a composition workshop and new music ensemble, in which student composers and performers collaborate, guided by a faculty composer, to develop new pieces. Course Attributes: Expressive Arts Course

MUSI 280 - Composition II

Credits: 1 TO 2. Level: Undergraduate. (R-4) Offered autumn and spring. Prereq., 4 credits of MUSI 180. Original work in composition may be substituted for upper-division electives for students not majoring in theory or composition.

MUSI 281 - Diction: English, Italian

Credits: 2. Level: Undergraduate. Offered autumn even-numbered years. Introduced course participants to the International Phonetic Alphabet (IPA) with application to American English Diction and Italian Diction.

MUSI 282 - Dict: Gmn & French (equiv 382)

Credits: 2. Level: Undergraduate. Offered spring odd-numbered years. Applies IPA to French and German Diction and addresses other guidelines that apply to the lyric pronunciation of these languages. Students will transcribe, translate, recite, and sing German and French texts. This is a required course for BM vocal performance majors; MUS 281 is the prerequisite course. Students who would like to be considered for mid-year registration in this diction series may do so only with the consent of the instructor.

MUSI 291 - Special / Experimental Courses

Credits: 1 TO 9. Level: Undergraduate. (R-9) Offered intermittently. Experimental offerings by visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

MUSI 295 - Applied Study II

Credits: 1 TO 4. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., audition and consent of instr. Continuation of 151. All private instruction requires concurrent ensemble participation. Course Attributes: Internships/Practicums Performance Music Course

MUSI 296 - Piano Prof Assessment

Credits: 0. Level: Undergraduate. Repeat 8 times. All majors pursuing a B.M. or B.M.E. degree must successfully complete all sections of the Piano Proficiency Assessment in order to attain upper-division standing in music. The eight-part exam is administered at the end of each semester. Successfully completed assessments will receive a grade of CR. Course Attributes: Service Learning/Volunteer

MUSI 301H - Music History I

Credits: 3. Level: Undergraduate. Offered autumn. Prereq., MUSI 202L. The history of music in Western civilization from its origins to 1750 and its relationship to general cultural development. Introduction to basic research skills in music. Emphasis on listening for style characteristics through representative recorded repertoire. Course Attributes: Historical & Cultural Course American and European

MUSI 302H - Music History II

Credits: 3. Level: Undergraduate. Offered spring. Prereq., MUSI 202L. The history of music in Western civilization from 1750 to modern times. See MUSI 301H. Course Attributes: Historical & Cultural Course Writing Course-Upper-Division American and European

MUSI 304A - Sound in the Natural World

Credits: 3. Level: Undergraduate. Offered even-numbered years. This is a music composition and performance course that explores sound/music in relation to wilderness. Students will learn from cultures that have stayed in contact with their natural environment and will create compositions from materials collected in the field and will perform and critique them. As a result, students will become familiar with their own creative process. Course Attributes: Expressive Arts Course

MUSI 308 - Orchestras II: UM

Credits: 1. Level: Undergraduate. Offered autumn and spring. Prereq., upper-division standing in instrument of participation. See MUSI 108A for description.

MUSI 310 - Opera Theatre II

Credits: 1. Level: Undergraduate. (R-8) Offered autumn and spring. Prereq., consent of instr. See MUSI 131A for description. Course Attributes: Expressive Arts Course

MUSI 312 - Choir III: Chamber Chorale

Credits: 1 TO 8. Level: Undergraduate. Offered autumn and spring. Prereq., upper-division standing in voice. See MUSI 112A for description.

MUSI 314 - Band III: UM Concert Band

Credits: 1. Level: Undergraduate. Offered autumn and spring. Prereq., upper-division standing in instrument of participation. See MUSI 114A for description.

MUSI 322 - UM Percussion Ensemble

Credits: 1. Level: Undergraduate. Offered autumn and spring. Prereq., consent of instructor. See MUSI 122A.

MUSI 323 - World Percussion Ensemble

Credits: 1. Level: Undergraduate. Offered autumn and spring. Prereq., consent of instructor. See MUSI 122A.

MUSI 331 - Jzz Ens II: UM

Credits: 1. Level: Undergraduate. (R-8) Offered autumn and spring. Prereq., consent of instr. See MUSI 131A for description.

MUSI 332 - Advanced Functional Piano

Credits: 1. Level: Undergraduate. Offered intermittently. Prereq., upper-division standing in music. Offered alternate years. Techniques of harmonization, transposition, sight-reading, modulation, and improvisation.

MUSI 333 - Practicum in Piano Pedagogy

Credits: 1 TO 2. Level: Undergraduate. (R-4) Offered intermittently. Prereq. or coreq., MUSI 435, 436. Student teaching of young pianists.

MUSI 335 - Instrumental Conducting

Credits: 2. Level: Undergraduate. (R-4) Offered spring. Prereq., upper-division standing in music. Conducting methods and practice. Teaching methods and materials.

MUSI 336 - Choral Conducting

Credits: 2. Level: Undergraduate. (R-4) Offered autumn. Prereq., upper-division standing in music. A study of the techniques of choral conducting. Emphasis on issues encountered in various ensemble settings.

MUSI 342 - Vocal Repertoire I

Credits: 2. Level: Undergraduate. Offered autumn odd-numbered years. Prereq., upper-division standing in music. Comprehensive acquaintance with styles and interpretation in British, German, and possible additional repertoire genres.

MUSI 343 - Vocal Repertoire II

Credits: 2. Level: Undergraduate. Offered spring even-numbered years. Prereq., upper-division standing in music. Comprehensive acquaintance with styles and interpretation in American, French and possible additional genres.

MUSI 355 - Marching Band II: Grizzly

Credits: 1. Level: Undergraduate. (R-4) Offered autumn. Prereq., MUSI 155A or consent of instr. A musical organization of brass, woodwinds, percussion, and auxiliary units open to all University students.

MUSI 356 - Form & Analysis I

Credits: 2. Level: Undergraduate. Offered autumn. Prereq., upper-division standing in music. Detailed harmonic and formal analysis of representative works from the Baroque period to the present.

MUSI 357 - Form & Analysis II

Credits: 2. Level: Undergraduate. Offered spring. Prereq., upper-division standing in music and MUSI 356. Continuation of MUSI 356.

MUSI 362 - Chmbr Ens III: UM

Credits: 1. Level: Undergraduate. Offered autumn and spring. Prereq., consent of instructor. See MUSI 122A.

MUSI 380 - Composition III

Credits: 1 TO 3. Level: Undergraduate. (R-6) Offered autumn and spring. Prereq., upper-division standing in music and 4 credits in MUSI 280. Creative writing of music.

MUSI 388 - Concert Attendance UM

Credits: 0. Level: Undergraduate. All music majors pursuing a B.M., B.M.E., or B.A. degree must attend in a minimum of 100 approved recitals/concerts prior to graduation. Students will receive recital credits each semester they are enrolled and should register for 388 the semester they apply for graduation. Successful completion of attendance requirements will be graded CR.

MUSI 391 - Special / Experimental Courses

Credits: 1 TO 9. Level: Undergraduate. (R-9) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

MUSI 392 - Independent Study

Credits: 1 TO 3. Level: Undergraduate. (R-9) Offered autumn and spring. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

MUSI 395 - Applied Study III

Credits: 1 TO 4. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., upper-division standing in music and consent of instr. Continuation of MUSI 295. All private instruction requires concurrent ensemble participation.

Course Attributes: Internships/Practicums Performance Music Course

MUSI 399 - Junior Recital

Credits: 1 TO 2. Level: Undergraduate. Coreq., MUSI 395. Offered autumn and spring. Public performance guided by applied music faculty during the junior year of applied study. This recital, consisting of a minimum of 20 minutes of music, may be scheduled in conjunction with another student's junior recital. Co-Requisite: MUSI 395.

MUSI 407 - Counterpoint I

Credits: 3. Level: Undergraduate. Offered intermittently. Prereq., upper-division standing in music. Writing and analysis of contrapuntal styles through the 18th century.

MUSI 408 - Counterpoint II

Credits: 3. Level: Undergraduate. Offered intermittently. Prereq., MUSI 407. Continuation of MUSI 407.

MUSI 409 - String Pedagogy & Literature

Credits: 1 TO 2. Level: Undergraduate, Graduate. (R-4) Offered intermittently. Prereq., upper-division standing in music and consent of instr. Procedures and materials in class string instruction.

MUSI 411 - Woodwind Pedagogy

Credits: 2. Level: Undergraduate, Graduate. Offered intermittently. Prereq., upper-division standing in music and consent of instr. Procedures and materials in individual and class instruction are discussed. Philosophies, repertoire, individual and group techniques used in teaching woodwinds.

MUSI 412 - Brass Pedagogy

Credits: 2. Level: Undergraduate, Graduate. Offered intermittently. Prereq., upper-division standing in music and consent of instr. Procedures and materials in individual and class instruction are discussed. Philosophies, repertoire, individual and group techniques used in teaching brass instruments.

MUSI 413 - Percussion Pedagogy

Credits: 2. Level: Undergraduate, Graduate. Offered intermittently. Prereq., upper-division standing in music and consent of instr. Procedures and materials in individual and class instruction are discussed. Philosophies, repertoire, individual and group techniques used in teaching percussion instruments.

MUSI 415 - Music 20th Century to Present

Credits: 3. Level: Undergraduate, Graduate. Offered intermittently. Prereq., MUSI 302H and upper-division standing in music. Detailed analysis and comparison of selected instrumental, vocal and keyboard compositions of the 20th Century. Course Attributes: Writing Course-Upper-Division

MUSI 416 - Topics in Music History

Credits: 3. Level: Undergraduate, Graduate. (R-3) Offered intermittently. Prereq. MUSI 302H and upper division standing in music or consent of instructor. Course materials will examine the development of musical styles, genres, forms and aesthetics important to Western music, introducing students to research methods in musicology. Course Attributes: Writing Course-Upper-Division

MUSI 417 - Cultural Studies in Music

Credits: 3. Level: Undergraduate, Graduate. (R-3) Offered intermittently. Prereq. MUSI 302H and upper division standing in music, or consent of instructor. Course materials will examine music's contemporary role within cultures and societies around the world, introducing students to research methods in cultural studies and ethnomusicology.

Course Attributes: Writing Course-Upper-Division

MUSI 420 - Jazz Pedagogy

Credits: 3. Level: Undergraduate, Graduate. Offered spring even-numbered years. Prereq., upper division or graduate standing in music or consent of instructor. Development of skills needed to rehearse and direct jazz ensembles at the middle school through high school level.

MUSI 432 - Keyboard Literature

Credits: 3. Level: Undergraduate, Graduate. Offered autumn even-numbered years. Prereq., upper-division standing in music. Keyboard literature from the developments of the Baroque era to the contemporary period including the suite, sonata, character pieces, etc.

MUSI 433 - Keyboard Literature II

Credits: 3. Level: Undergraduate, Graduate. Offered spring odd-numbered years. Continuation of MUSI 432.

MUSI 435 - Piano Methods & Materials I

Credits: 3. Level: Undergraduate, Graduate. Offered autumn odd-numbered years. Prereq., upper-division standing in music or consent of instr. Methods and materials for teaching piano classes in public schools and private studios. Procedures in teaching beginning, intermediate and advanced students in private studios. Practical demonstrations and supervised laboratory experience with children's classes.

MUSI 436 - Piano Methods & Materials II

Credits: 3. Level: Undergraduate, Graduate. Offered spring even-numbered years. Prereq., MUSI 435. Continuation of MUSI 435.

MUSI 440 - Orchestration

Credits: 2. Level: Undergraduate, Graduate. Offered autumn. Prereq., upper-division standing in music. Orchestrating and transcribing for orchestra and band instruments.

MUSI 442 - Vocal Studio Pedagogy and Lit

Credits: 2. Level: Undergraduate, Graduate. Offered autumn odd-numbered years or spring even-numbered years. Prereq., upper-division standing in music. Procedures, philosophies and terminology used in the teaching of singing. Individual and group techniques.

MUSI 444 - Advanced Vocal Pedagogy

Credits: 3. Level: Undergraduate, Graduate. Offered spring even-numbered years or as needed. Prereq., MUSI 442 or consent of instructor. A detailed examination of foundational vocal technique and science topics including respiration, phonation, resonance, and articulation. Offers students the opportunity to explore current topics in the field and how to approach them as a singer or voice teacher.

MUSI 467 - Composers' Workshop II

Credits: 1. Level: Undergraduate, Graduate. Offered autumn and spring. Prereq., consent of instructor. See MUSI 122A.

MUSI 470 - Jazz Arranging & Composition

Credits: 3. Level: Undergraduate, Graduate. Offered spring odd-numbered years. Prereq., upper division or graduate standing in music or consent of instructor. Composing and arranging for small to medium sized jazz ensembles. Rhythmic rewriting of melodies, re-harmonization techniques, arranging of pre-existing jazz compositions, and original compositions.

MUSI 480 - Composition IV

Credits: 1 TO 3. Level: Undergraduate. (R-6) Offered autumn and spring. Prereq., 3 credits in MUSI 380. A continuation of composition with writing in the larger forms.

MUSI 491 - Special / Experimental Courses

Credits: 1 TO 9. Level: Undergraduate, Graduate. (R-9) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

MUSI 492 - Independent Study

Credits: 1 TO 3. Level: Undergraduate, Graduate. (R-9) Offered autumn and spring. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

MUSI 495 - Applied Study IV

Credits: 1 TO 4. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., upper-division standing in music and consent of instr. Continuation of MUSI 395. All private instruction requires concurrent ensemble participation. Course Attributes: Internships/Practicums Performance Music Course

MUSI 499 - Senior Recital/Capstone Pjt

Credits: 1 TO 4. Level: Undergraduate. (R-4) Offered autumn and spring.

MUSI 500 - Secondary Perform Area

Credits: 1 TO 2. Level: Undergraduate, Graduate. (R-6) Offered every term. Prereq., audition and consent of instr. Continuation of MUSI 102A.

MUSI 511 - Advanced Conducting

Credits: 2. Level: Undergraduate, Graduate. (R-6) Offered intermittently. Prereq., MUSI 335/336 and consent of instr. Class and/or individual study of the art of conducting with emphasis on performance with university performing groups.

MUSI 520 - Research in Music

Credits: 1 TO 2. Level: Undergraduate, Graduate. Offered autumn and summer. Prereq., graduate standing in music. Research problems: their statement, organization, techniques, tabulation of materials, and concepts necessary for interpretation of data. Development of a research proposal.

MUSI 525 - Sem Vocal Literature

Credits: 2. Level: Undergraduate, Graduate. (R-6) Offered intermittently. Prereq., graduate standing in music. Concentrated study of opera literature, song literature or choral literature.

MUSI 526 - Sem Instrumental Lit

Credits: 2. Level: Undergraduate, Graduate. (R-4) Offered intermittently. Prereq., graduate standing in music. Concentrated study of symphonic literature or instrumental chamber music literature.

MUSI 551 - Major Performance Area

Credits: 1 TO 4. Level: Undergraduate, Graduate. (R-12) Offered every term. Prereq., audition and consent of instr. Continuation of MUSI 495.

MUSI 554 - Analytical Techniques I

Credits: 3. Level: Undergraduate, Graduate. Offered autumn odd-numbered years. Prereq., graduate standing in music. A survey of the theoretical approach of leading composers from the polyphonic period to the present.

MUSI 555 - Analytical Techniques II

Credits: 3. Level: Undergraduate, Graduate. Offered spring even-numbered years. Prereq., MUSI 554. Continuation of MUSI 554.

MUSI 559 - Composition

Credits: 1 TO 6. Level: Undergraduate, Graduate. (R-6) Offered intermittently. Prereq., consent of instr. Continuation of MUSI 480.

MUSI 593 - Professional Projects

Credits: 1 TO 4. Level: Undergraduate, Graduate. (R-4) Offered intermittently. Prereq., graduate standing in music. Course Attributes: Faculty-Led Study Abroad

MUSI 595 - Special Topics

Credits: 1 TO 8. Level: Undergraduate, Graduate. (R-8) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Internships/Practicums

MUSI 596 - Independent Study

Credits: 1 TO 6. Level: Undergraduate, Graduate. (R-6) Offered intermittently. Prereq., consent of instr. Students must have projects approved by a music faculty member before enrolling. Course Attributes: Service Learning/Volunteer

MUSI 599 - Thesis

Credits: 1 TO 10. Level: Undergraduate, Graduate. (R-10) Offered intermittently. Prereq., graduate standing in music.

MUSI 699 - Dissertation

Credits: 1 TO 12. Level: Undergraduate, Graduate. Offered intermittently. Prereq., graduate standing in music.

Music-Technology

MUST 110 - Digital Audio & Multitracking

Credits: 2. Level: Undergraduate. Offered autumn and spring. Composition of computer music through recording, editing, and processing sound with digital audio software. Study of the theory and application of digital audio recording, multitracking, and digital signal processing, and electroacoustic music history. Survey of historical and current electronic and computer music composers, pieces, and practices.

MUST 210 - Sequencng, Synthesis, Sampling

Credits: 2. Level: Undergraduate. Offered autumn. Prereq., MUST 110. Composition of computer music using MIDI sequencing, sampling, and synthesis software, and score preparation using music notation software. Study of the theory and application of MIDI, synthesis algorithms, and effects processing, and the practice of music engraving.

MUST 227A - Mtn Electroacoustc Lptp Ens I

Credits: 1. Level: Undergraduate. This is a new music workshop, in which student composers, guided by a faculty composer, collaborate on new pieces for electroacoustic ensemble. Each student will compose structured improvisations, scored with a combination of traditional and graphic notation, that the Mountain Electroacoustic Laptop Ensemble (MELEe) will perform, with their electric or amplified instruments, MIDI controllers, and laptop computers. Successful completion of MUST 310 is a prerequisite for taking this class, unless otherwise exempted by the instructor. Course Attributes: Expressive Arts Course

MUST 310 - Interactivity Digitl Sgnl Proc

Credits: 2. Level: Undergraduate. Offered spring. Prereq., MUST 210 and upper-division standing in music. Composition of interactive computer music using a graphical programming environment for MIDI, synthesis, and digital signal processing. Study of graphical programming, interactive composition and performance, generating and processing MIDI data, synthesizing computer-generated sound, and processing digital audio in real-time.

MUST 410 - Computer Music Programming

Credits: 2. Level: Undergraduate, Graduate. Offered autumn. Upper-division standing in music. Composition of computer music through programming. Study of object oriented programming, synthesis and digital signal processing techniques, music-generating algorithms, sound spatialization, graphical user interface design, and external control.

MUST 427 - Mtn Electroacoustc Lptp Ens II

Credits: 1. Level: Undergraduate, Graduate. Offered autumn and spring. Prereq., consent of instructor. See MUSI 122A.

MUST 466 - Computer Music Programming

Credits: 2. Level: Undergraduate, Graduate. Offered autumn. Upper-division standing in music. Composition of computer music through programming. Study of object-oriented programming, synthesis and digital signal processing techniques, music-generating algorithms, sound spatialization, graphical user interface design, and external control.

MUST 492 - Independent Study

Credits: 1 TO 3. Level: Undergraduate, Graduate. (R-9) Offered autumn and spring. Prereq., consent of instr.

MUST 595 - Special Topics

Credits: 1 TO 8. Level: Undergraduate, Graduate. (R-8) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

MUST 596 - Independent Study

Credits: 1 TO 6. Level: Undergraduate, Graduate. (R-6) Offered intermittently. Prereq., consent of instr. Students must have projects approved by a music faculty member before enrolling.

Theatre & Dance

Michael Monsos, Director

The School of Theatre & Dance is accredited by the National Association of Schools of Theatre (NAST) and is a member of the Association for Theatre in Higher Education (ATHE) and the United States Institute for Theatre Technology (USITT). The school is housed in the Performing Arts and Radio/Television Center, which includes three theatre/dance performance spaces and television/radio studios. The program is production-oriented with approximately ten major productions presented each year including contemporary, historical, period, musical, and experimental plays, as well as dance showcases and concerts. Montana Repertory Theatre, a professional touring company based at UM, often involves students both on and off stage. The faculty is strong, possessing a diversity of educational and professional theatre and dance backgrounds.

The Bachelor of Arts with a major in Dance allows the student who plans to enter a dance career to select another major to complement that objective. The Bachelor of Arts with a major in Theatre provides the student with a broad liberal arts education and a general focus in theatre. The degree allows the student to complete an additional major and may form the basis for further training on the graduate level. The Bachelor of Arts with a major in Theatre and an area of specialization in Education Endorsement Preparation is designed for the student seeking teaching endorsement in the field of theatre. The Bachelor of Fine Arts with a major in Dance or Theatre is a professionally oriented degree designed for the student who plans to pursue a career in theatre, dance, or a related field. Areas of specialization are: Acting, Design/Technology, Choreography and Performance, and Teaching. Graduate programs lead to the Master of Arts in Theatre or Integrated Arts and Education and the Master of Fine Arts in Theatre with areas of specialization in Acting, Design/Technology, or Directing.

For more information on the academic programs and to learn about Theatre & Dance productions, please visit <http://www.umt.edu/theatredance>.

Advisement

Each Theatre & Dance major must have a faculty advisor who is assigned by the School and who is usually from the student's area. The School, through its advisement program, often recommends non-theatre and non-

dance electives and specific General Education courses to the student depending on the student's area. Majors may not take core or area-required courses on a credit/no credit basis.

Auditions and Portfolio Reviews

Actors, dancers, designers and technicians undergo periodic review in the form of auditions or portfolio presentations. These ongoing evaluations provide each student with the opportunity and challenge of individualized critiques from faculty and professional staff.

Senior Project

A senior project is required of all students. The senior project is usually production-related and has both practical and written components. Requirements for the project vary and are outlined in the School of Theatre & Dance Handbook.

College of Visual & Perf Arts Catalog Year: 2015-2016

Degree Type: Bachelor of Arts Level: Major Subject: **Dance**

Total Credits: 66 Cumulative GPA Required: 2.0

Lower Division Core

Commentary: Dance, Media Arts, or Music courses may count toward these required electives with approval from advisor.

Degree Commentary: Students who intend to pursue the acting specialization will normally enter the University as Bachelor of Arts students in Theatre. They should then declare intent to pursue the B.F.A. degree no later than the beginning of the second year of a four-year program. A student may elect a special concentration in directing, music

theatre, or another discipline in addition to the B.F.A. core and area-specialization requirements. The program is designed in consultation with the student's advisor and must be approved by the faculty. The special concentration may require five years to complete.

Course Descriptions

Dance

DANC 100A - Modern Dance I

Credits: 2. Level: Undergraduate. (R-4) Offered autumn and spring. Introduction to basic modern dance vocabulary through exercises for alignment, strength and flexibility and combinations across the floor. Course Attributes:

Expressive Arts Course

DANC 110A - Ballet I

Credits: 2. Level: Undergraduate. (R-4) Offered autumn and spring. Introduction to basic ballet positions and steps.

Course Attributes: Expressive Arts Course

DANC 115A - Jazz Dance I

Credits: 2. Level: Undergraduate. (R-4) Offered autumn and spring. Introduction to basic strengthening and stretching exercises and stylistic characteristics of jazz. Course Attributes: Expressive Arts Course

DANC 118A - Dance Forms: Tap

Credits: 2. Level: Undergraduate. (R-8) Offered autumn and spring. Introduction to basic tap dance vocabulary and technique. Course Attributes: Expressive Arts Course

DANC 129A - Dance Performance Lab I

Credits: 1. Level: Undergraduate. Offered autumn and spring. Credit for rehearsing and performing in approved Theatre & Dance productions. Course Attributes: Expressive Arts Course

DANC 160A - Dance Forms: Irish

Credits: 2. Level: Undergraduate. (R-8) Offered autumn and spring. Introduction to basic Irish dance vocabulary and technique. Course Attributes: Expressive Arts Course

DANC 165A - Dance Forms: African

Credits: 2. Level: Undergraduate. (R-8) Offered autumn and spring. Coreq., DANC 129A. Introduction to basic African dance vocabulary and technique. Course Attributes: Expressive Arts Course

DANC 170A - Dance Forms: Tribal Belly

Credits: 2. Level: Undergraduate. (R-8) Offered spring. Introduction to basic tribal-style belly dance vocabulary and technique. Course Attributes: Expressive Arts Course

DANC 191 - Special Topics

Credits: 1 TO 6. Level: Undergraduate. (R-6) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

DANC 194 - Seminar/Workshop

Credits: 1. Level: Undergraduate. Offered autumn and spring. Introduces incoming freshmen to the world of university dance and contemporary dance as a profession.

DANC 200A - Modern II

Credits: 2. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., DANC 100A. Continuation of the modern dance vocabulary at an advanced-beginner level. Course Attributes: Expressive Arts Course

DANC 205 - Improvisation

Credits: 2. Level: Undergraduate. (R-6) Offered spring. Exploration of stimulus, structure and performance of improvised movement. Elements such as space, shape, motion, time, quality, form and awareness emphasized. Instructor-designed structures, transitioning to student-designed scores, culminating in improvised performance.

DANC 210A - Ballet II

Credits: 2. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., DANC 110A. Continuation of the ballet vocabulary at an advanced-beginner level. Course Attributes: Expressive Arts Course

DANC 215A - Jazz Dance II

Credits: 2. Level: Undergraduate. (R-12) Offered autumn. Prereq., DANC 115A. Continuation of the jazz vocabulary at an advanced-beginner level. Course Attributes: Expressive Arts Course

DANC 220A - Beginning Composition

Credits: 2. Level: Undergraduate. (R-4) Offered spring. Prereq., DANC 200A. Basic use of space, time and energy in dance. Movement composition studies assigned each week. Course Attributes: Expressive Arts Course

DANC 225 - Rehearsal & Performance

Credits: 1 TO 4. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Open to students who are choreographing a dance for a concert or to those who have been selected through audition to perform. Course Attributes: Expressive Arts Course

DANC 229A - Dance Performance Lab II

Credits: 1. Level: Undergraduate. (R-7) Offered autumn and spring. Credit for rehearsing and performing in approved Theatre & Dance productions. Course Attributes: Expressive Arts Course

DANC 234L - Dance in Popular Movies

Credits: 3. Level: Undergraduate. Offered spring odd-numbered years. Survey of the history of dance and movement on film, with specific focus on the use of and reasons for choreography in popular movies of specific decades. Course Attributes: Literary & Artistic Stds Crse

DANC 280 - Dance Conditioning: Pilates

Credits: 1. Level: Undergraduate. (R-8) Offered autumn and spring. Pilates mat (floor) exercises to build core control, strength and flexibility.

DANC 294 - Seminar/Workshop

Credits: 1. Level: Undergraduate. Offered autumn and spring. One-time offerings of current topics.

DANC 298 - Internship: Children's Dance

Credits: 1. Level: Undergraduate. (R-4) Offered autumn and spring. Students participate and gain beginning-level teaching experience in two of four dance classes for children ranging in ages from 3 ½ to 12 years old. Course

Attributes: Internships/Practicums

DANC 300 - Modern III

Credits: 3. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., DANC 200A. Extension of the modern dance vocabulary through lengthier combinations of movement.

DANC 305 - Contact Improvisation

Credits: 2. Level: Undergraduate. (R-6) Offered autumn odd-numbered years. The art of moving with one or more partners while using a shifting point of contact and supporting each other's weight. Skills such as rolling, suspending, falling and recovering together explored through physical sensations that use weight, counter-balance and yielding.

DANC 310 - Ballet III

Credits: 2. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Development of ability to combine steps; carriage of head and arms.

DANC 315 - Jazz III

Credits: 2. Level: Undergraduate. (R-12) Offered autumn. Prereq., DANC 215A or consent of instr. Continuation of DANC 215A.

DANC 320 - Intermediate Composition

Credits: 2. Level: Undergraduate. (R-6) Offered autumn even-numbered years. Prereq., DANC 220A and 6 credits of dance technique. Explores ways to manipulate several dancers in space, through repetition of shapes, through related rhythms. May include choreography for videotape.

DANC 322 - Dance Touring

Credits: 1 TO 4. Level: Undergraduate. (R-24) Offered autumn and spring. Prereq., audition. Rehearsal and touring to the community.

DANC 325 - Spirit Squad

Credits: 2. Level: Undergraduate. (R-4) Offered autumn and spring. UM cheer and dance team selected during audition process each spring; students perform routines at the intermediate jazz level. Development of current dance performance, leadership, communication and organizational skills. (Only four credits of DANC 325, HHP 100-179, MS 203 and MS 315 may count toward a degree.) Course Attributes: PE Activity Skills Course

DANC 334 - Dance History

Credits: 3. Level: Undergraduate. Offered autumn odd-numbered years. Discussion of primary movements and major figures in American modern dance, including global influences and its relationship to cultural trends of the twentieth and twenty-first centuries. Course Attributes: Writing Course-Upper-Division

DANC 345 - Teaching for the Disabled

Credits: 1. Level: Undergraduate. (R-4) Offered autumn and spring. Students interact with adults with developmental disabilities in an adaptive dance class where movement is used as a therapeutic modality for people with cognitive and physical impairments. Students interact with the participants, engage as role models and gain beginning teaching experience.

DANC 346 - Methods: Dance in K-8

Credits: 2. Level: Undergraduate. (R-4) Offered autumn and spring. Open to majors in elementary education. Techniques and applications for using movement in the public school setting. Focus on movement elements, lesson design and planning, standards for dance, multiple intelligence theory, assessment, classroom management techniques and multiculturalism. Course Attributes: Expressive Arts Course

DANC 360L - World Dance

Credits: 3. Level: Undergraduate. (R-6) Offered autumn odd-numbered years. Investigation of dances of diverse cultures. Study of dance as: an emblem of cultural identity, social order, power and gender-specific behavior; an expression of religion and/or ritual; a classical art form; and as a medium for personal expression in Western and non-Western world cultures. Course Attributes: Literary & Artistic Stds Crse Indigenous and Global

DANC 380 - Science of Dance Movement

Credits: 3. Level: Undergraduate. Offered spring even-numbered years. Study of the skeletal system and how it relates to dance movement. Basic kinesthetic principles, conditioning for dancers, and injury recognition and prevention.

DANC 391 - Special Topics

Credits: 1 TO 24. Level: Undergraduate. (R-24) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

DANC 392 - Independent Study

Credits: 1 TO 3. Level: Undergraduate. (R-24) Offered autumn and spring. Prereq., consent of instr.

DANC 394 - Seminar/Workshop

Credits: 1. Level: Undergraduate. (R-2) Offered autumn and spring. One-time offerings of current topics.

DANC 395 - Studio/Practicum

Credits: 1 TO 6. Level: Undergraduate. (R-6): Studio-based course, emphasizing one-on-one faculty instruction. Students meet during regularly scheduled times with faculty or in small groups throughout the semester to discuss the development of their individual work.

DANC 399 - Jr Creat/Research Proj

Credits: 1 TO 6. Level: Undergraduate. (R-6) Offered autumn and spring. Prereq., B.F.A. dance major. Independent study in choreography or a research paper which could be on such subjects as teaching styles, multiple intelligence theory, dance historical topics, dance injuries, etc. An initial proposal, a journal, and a paper are required.

DANC 400 - Modern IV

Credits: 3. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., DANC 300. Performance of exercises and combinations that are technically demanding in strength, balance, weight, agility and line.

DANC 404 - Adv Tech Modern Dance

Credits: 3. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., DANC 400, 6 cr., or equiv. skill, and consent of instr. Continuation of DANC 400.

DANC 405 - Advanced Improvisation

Credits: 2. Level: Undergraduate, Graduate. (R-6) Prereq., DANC 205, 305. Exploration of improvisation and contact improvisation as performance art forms. Instructor and students collaboratively design, rehearse, and publicly perform improvisational scores.

DANC 406 - Dance as a Healing Art

Credits: 2. Level: Undergraduate, Graduate. (R-6) Offered spring. Study of body movement as a reflection of inner emotional states. How changes in movement lead to changes in the psyche, promoting health and growth. Exploration of techniques for experiencing the inter-connection between movement and emotional expression.

DANC 410 - Ballet IV

Credits: 2. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., 4 cr. of DANC 310 or equiv. skill, consent of instr. Continues to build on skills developed in Ballet III; emphasis on developing advanced petite allegro, grand allegro, turns, and artistry.

DANC 440 - Dance Pedagogy

Credits: 3. Level: Undergraduate, Graduate. (R-9) Offered autumn even-numbered years. Prereq., DANC 298. Methods and experiences in teaching modern dance, ballet and jazz.

DANC 446 - Teaching Projects

Credits: 1 TO 6. Level: Undergraduate, Graduate. (R-24) Offered autumn and spring. Prereq., consent of instr. Independent study that may involve either assisting in the teaching of a dance technique class or actually planning and teaching it.

DANC 491 - Special Topics

Credits: 1 TO 24. Level: Undergraduate, Graduate. (R-24) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

DANC 492 - Independent Study

Credits: 1 TO 6. Level: Undergraduate, Graduate. (R-9) Offered autumn and spring. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

DANC 494 - Seminar/Workshop

Credits: 3. Level: Undergraduate. (R-6) Offered autumn even-numbered years. Seminar to discuss both practical and philosophical issues confronting dance students about to enter the "real" world. Course Attributes: Writing Course-Upper-Division

DANC 497 - Methods: Tchng Movmnt in Schls

Credits: 3. Level: Undergraduate, Graduate. Offered autumn odd-numbered years. Prereq., consent of instr. Experience in planning, observing and directing creative movement as a teaching tool in K-5.

DANC 498 - Senior Thesis/Creative Project

Credits: 1 TO 6. Level: Undergraduate. (R-6) Offered autumn and spring. Prereq., Dance major. Independent study in choreography or teaching. If the student is a B.F.A. candidate the project must take place off-campus in the Missoula community. The student is responsible for setting up the project. An initial proposal, a journal, and a paper are required. Course Attributes: Internships/Practicums

Theatre

THTR 101L - Introduction to Theatre

Credits: 3. Level: Undergraduate. Offered autumn and spring. The various elements of play production and dance. The basic artistic principles underlying dance, theatre and all of the arts. Course Attributes: Literary & Artistic Stds Crse

THTR 102A - Introduction to Theatre Design

Credits: 3. Level: Undergraduate. Offered autumn. Basic understanding of the principles of design for the theatre and television, including the production elements of scenery, costumes and lighting. Course Attributes: Expressive Arts Course

THTR 103 - Introd to House Management

Credits: 1. Level: Undergraduate. (R-3) Offered autumn and spring. Introduction to the skills and experience of the front-of-house staff for a theatrical production.

THTR 106A - Theat Prod I: Run Crew

Credits: 1. Level: Undergraduate. (R-6) Offered autumn and spring. Operation and running a show backstage on a scenery, costume, or prop crew for a major school production. Course Attributes: Expressive Arts Course

THTR 107A - Theat Prod I: Constr Crew

Credits: 3. Level: Undergraduate. (R-9) Offered autumn and spring. The construction and completion of scenery, costumes and props under supervision. Most assignments involve very basic construction techniques. Involves two 4-hour labs a week. Course Attributes: Expressive Arts Course

THTR 113A - Intro to Vocal Acting

Credits: 3. Level: Undergraduate. An introduction to the skills and techniques required of the actor's voice to be effective in communication with others online, onstage, and in the world. Course Attributes: Expressive Arts Course

THTR 120A - Introduction to Acting I

Credits: 3. Level: Undergraduate. Offered every term. An introduction to the skills and techniques required of the actor to be effective in communication with others on stage and off stage. Course Attributes: Expressive Arts Course

THTR 121A - Introduction to Acting II

Credits: 3. Level: Undergraduate. Offered autumn and spring. Prereq., THTR 120A. Continuation of 120A. Course Attributes: Expressive Arts Course

THTR 155 - Drawing Fundamntls for Theatre

Credits: 3. Level: Undergraduate. Offered spring. Students will begin to develop skills in drawing the human form, perspective, and architecture.

THTR 191 - Special Topics/Exprmtl Courses

Credits: 1 TO 6. Level: Undergraduate. (R-6) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

THTR 202 - Stagecraft I: Lightng/Costumes

Credits: 3. Level: Undergraduate. Offered autumn. Fundamental theories and hands-on application in the areas of costuming, lighting, and sound.

THTR 203 - Stagecraft II: Scenery & Props

Credits: 3. Level: Undergraduate. Offered spring. Fundamental theories and hands-on application in the areas of scenery, properties, and rigging.

THTR 206 - Theat Prod II: Run Crew

Credits: 1. Level: Undergraduate. (R-6) Offered autumn and spring. Prereq., THTR 106A. Operation and running a show backstage, as in scenery, costumes, or props for a major school production.

THTR 207 - Theat Prod II: Constr Crew

Credits: 3. Level: Undergraduate. (R-6) Offered autumn and spring. Prereq., THTR 107A. The construction and completion of scenery, costumes and props. Advanced construction assignments; supervision of a small construction crew.

THTR 210 - Voice & Speech I

Credits: 2. Level: Undergraduate. Offered autumn. Prereq., THTR 221 or consent of instr. Voice production, phonetics and speech for the stage.

THTR 211 - Voice & Speech II

Credits: 2. Level: Undergraduate. Offered spring. Prereq., THTR 210. Continuation of 210.

THTR 220 - Acting I

Credits: 3. Level: Undergraduate. Offered autumn. Intensive development of basic acting skills through psycho-physical technique: dramatic action, image-making and improvisation.

THTR 221 - Acting II

Credits: 3. Level: Undergraduate. Offered spring. Prereq., THTR 220. Continuation of 220. Scene study and characterization. Works selected from realism and poetic realism, utilizing modern and contemporary scripts of the American masters.

THTR 229A - Production Acting I

Credits: 1. Level: Undergraduate. (R-6) Offered autumn and spring. Credit for acting in approved Theatre & Dance productions. Course Attributes: Expressive Arts Course

THTR 235L - Dramatic Literature

Credits: 3. Level: Undergraduate. Offered spring. The study of representative texts in dramatic literature as a foundation for play analysis. Course Attributes: Literary & Artistic Stds Crse

THTR 239A - Creative Drama/Dance: K-8

Credits: 2. Level: Undergraduate. Offered autumn and spring. Major restriction: CER1, EDUC or PRED. Focus on the use of creative drama and dance as types of educational tools. Students will explore, experience, and implement creative teaching methods in order to promote scholarship through kinesthetic teaching in elementary education.

Course Attributes: Expressive Arts Course

THTR 245 - Int Costume Construction

Credits: 3. Level: Undergraduate. Offered spring. Intermediate costume construction focusing on the development of skills needed to function as a stitcher.

THTR 249 - Stage Makeup

Credits: 2. Level: Undergraduate. Offered spring. Principles of and practice in theatrical makeup. Students will work on makeup for major productions.

THTR 255 - Drafting for Theatre I

Credits: 3. Level: Undergraduate. Offered spring. Drawing techniques for the theatre with an emphasis on drafting as utilized by technicians, designers, stage managers and directors.

THTR 264 - Master Electrician

Credits: 2. Level: Undergraduate. Offered intermittently. Prereq., THTR 107A, THTR 202, or consent of instr. Training for the position of master electrician and assistant lighting designer. Practical application of production planning, lighting paperwork, overseeing lighting crews, advanced electrical theory, power distribution, and creative problem solving. Students will work on major school productions.

THTR 292 - Independent Study

Credits: 1 TO 12. Level: Undergraduate. (R-12) Offered autumn and spring. Independent study in all the arts of the theatre.

THTR 305 - Theatre Workshop III

Credits: 1 TO 20. Level: Undergraduate. (R-20) Offered autumn and spring. Prereq., consent of instructor. Advanced laboratory production in all the arts of the theatre.

THTR 306 - Summer Theatre

Credits: 1 TO 12. Level: Undergraduate. (R-12) Offered summer. Prereq., consent of instr. Practicum in school-approved summer theatre companies in the capacity of actor, designer, director, stage manager and/or technician.

THTR 307 - Production Construction I

Credits: 1 TO 12. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., THTR 107A and consent of instr. Students serve as the construction crew in either the sound, light, costume, or scene shop for school productions.

THTR 308 - Production Team I

Credits: 1 TO 12. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Students function as part of the production team in a role of responsibility (i.e., master electrician, cutter, first hand, master carpenter, etc.) for a school production. These assignments and duties may serve also as part of the required junior project.

THTR 309 - Production Design I

Credits: 1 TO 12. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Students function as a member of the production team in a role of responsibility (i.e., scenic designer, costume designer, light designer, etc.) for a school production. These assignments and duties may serve also as part of the required junior project.

THTR 310 - Voice and Speech III

Credits: 3. Level: Undergraduate. Offered autumn. Prereq., THTR 211 and audition, or consent of instr. Dialects, accents, and continued development of good voice and speech skills.

THTR 311 - Voice and Speech IV

Credits: 3. Level: Undergraduate. Offered spring. Prereq., THTR 310. Integration of voice and speech skills, vocal character.

THTR 315 - Physical Performance Skills I

Credits: 2. Level: Undergraduate. Offered spring. Prereq., THTR 221 or consent of instr. Basics of physical performance: collaboration, concentration, centering, balance, agility, and body awareness through a variety of stage movement techniques.

THTR 316 - Physical Performance Skills II

Credits: 2. Level: Undergraduate. Offered autumn. Prereq., THTR 315. Physical characterization: exploring weight, rhythm, tempo, and kinesthetic relationships through Laban, animal studies, and Michael Chekhov.

THTR 320 - Acting III

Credits: 3. Level: Undergraduate. Offered autumn. Prereq., THTR 221. Selected scenes and projects from European and American realistic texts such as Chekhov, Ibsen, Strindberg, and Shaw.

THTR 321 - Acting IV

Credits: 3. Level: Undergraduate. Offered spring. Prereq., THTR 320. Study and practice of working with a camera and film/television scripts.

THTR 329 - Production Acting II

Credits: 1. Level: Undergraduate. (R-4) Offered autumn and spring. Prereq., THTR 229A. Credit for acting in approved Theatre & Dance productions. Course Attributes: Expressive Arts Course

THTR 330H - Theatre History I

Credits: 3. Level: Undergraduate. Offered autumn. Prereq., WRIT 101 (or higher) or equivalent, or consent of instr. A survey of the major developments of the theatre from primitive beginnings to the 19th century, including various cultures and their representative plays and performances throughout the world. Course Attributes: Historical & Cultural Course Writing Course-Approved

THTR 331Y - Theatre History II

Credits: 3. Level: Undergraduate. Offered spring. Prereq., THTR 330H. Continuation of 330H. The many and varied periods since the 19th century as reflected in the theatre of the times in America and Europe. Course Attributes: Writing Course-Upper-Division American and European

THTR 332 - Dramaturgy

Credits: 3. Level: Undergraduate. Prereq., THTR 330H or consent of instr. An introduction to literary, historical, and contextual analysis of play scripts and performance pieces intended for production.

THTR 335H - Architectural History

Credits: 3. Level: Undergraduate. Offered autumn. Knowledge and understanding of architectural styles, designs and choices of the built environment from prehistoric megalithic architecture to the start of the modern age. Course Attributes: Historical & Cultural Course

THTR 336 - Costume History

Credits: 3. Level: Undergraduate. Offered intermittently. History of Western costume from ancient Egypt to the present day.

THTR 339 - Theatre in Elem Education

Credits: 2. Level: Undergraduate. (R-4) Offered autumn and spring. Exploration, implementation and experience in teaching strategies for using theatre in elementary education. Focus on techniques and applications for teaching theatre and for utilizing theatre as a tool for teaching other subject matter. Course Attributes: Expressive Arts Course

THTR 340 - Costume Design I

Credits: 3. Level: Undergraduate. Offered autumn. Prereq., THTR 102A, 202, 203. Introduction to principles and practices of stage costume design.

THTR 345 - Flat Pattern Des & Drafting

Credits: 3. Level: Undergraduate. Offered autumn. Prereq., THTR 202. Pattern design using the flat pattern method, pattern drafting of various garment parts, advanced principles of fitting.

THTR 346 - Textile Selection & Manipulatn

Credits: 3. Level: Undergraduate. Offered spring alternate years. Analysis of fibers, yarns, structures and finishes, as related to selection and use for the theatre. Basic dyeing, distressing and painting.

THTR 350 - Scenic Design I

Credits: 3. Level: Undergraduate. Offered autumn. Prereq., THTR 102A, 202, 203. Introduction to the problems encountered in designing scenery, analyzing of script, research and practical demands of theatre conventions. Projects include those for theatre, musicals, opera, dance and television.

THTR 353 - Technical Direction

Credits: 1 TO 3. Level: Undergraduate. Offered intermittently. Prereq., THTR 255 or consent of instr. Training for position of technical director. The role and scope of technical direction, production scheduling, design analysis, budgets and bookkeeping, and methods of construction.

THTR 355 - Computer Aid Draft & Appl

Credits: 3. Level: Undergraduate. (R-6) Offered autumn. Prereq., THTR 255. Computer drafting for scenery, costumes, lighting, and sound design drawings, including 2-D and 3-D plans, layouts and renderings. Work with CAD, photo manipulation, spreadsheet, database, and word processing programs.

THTR 356 - Scenic Painting

Credits: 1 TO 3. Level: Undergraduate. (R-6) Offered spring. Introduction to the basic skills needed as a scenic artist. Emphasis on the varied materials and techniques used in the scenic studio, color mixing, and interpretation of the designer's work.

THTR 360 - Theatre Lighting I

Credits: 3. Level: Undergraduate. Offered autumn. Prereq., THTR 102A, 202, 203. Introduction to principles and practices of theatre lighting design. Training for position of lighting designer for theatre. Design requirements and decisions, color, development of stage picture; concentration on proscenium theatre design concepts.

THTR 365 - Theatre Sound I

Credits: 3. Level: Undergraduate. Offered autumn. Prereq., THTR 102A, 202, 203 or consent of instr. Introduction to principles and practices of theatre sound design. Training for position of sound designer for theatre. Principles, practices, and equipment used to create finished sound designs for theatre, dance and related areas.

THTR 370 - Stage Management I

Credits: 2. Level: Undergraduate. Offered autumn. Prereq., THTR 102A, 202, 203. Beginning study of the duties of the stage manager concentrating on the rehearsal process in the non-professional theatre situation.

THTR 371 - Stage Mgmt Pract I

Credits: 1 TO 3. Level: Undergraduate. (R-6) Offered autumn and spring. Prereq., THTR 370 or consent of instr. Stage management practicum involving stage managing a showcase production or assistant stage managing a major show. Involves evening work.

THTR 375 - Directing I

Credits: 3. Level: Undergraduate. Offered spring. Prereq., THTR 120A or THTR 220; and THTR 235L. Open to juniors and seniors. Introduction to the analytical skills, staging and conceptual techniques of the director; includes some practical application in scene work.

THTR 380 - Playwriting

Credits: 3. Level: Undergraduate. (R-6) Offered intermittently. Prereq., consent of instr. Techniques and practice in writing short and full-length plays.

THTR 391 - Special Topics/Exprmtl Courses

Credits: 1 TO 9. Level: Undergraduate. (R-9) Offered intermittently. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

THTR 392 - Independent Study

Credits: 1 TO 12. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Course material appropriate to the needs and objectives of the individual student.

THTR 395 - Practicum

Credits: 1 TO 2. Level: Undergraduate. (R-3) Offered intermittently. Service learning experience in theatre in a setting compatible with the student's major and interests.

THTR 398 - Cooperative Educatn/Internship

Credits: 1 TO 6. Level: Undergraduate. Offered intermittently. Prereq., consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (398, 498) may count toward graduation. Course Attributes: Internships/Practicums Internship graduation limit 6

THTR 405 - Professional Theatre

Credits: 9. Level: Undergraduate, Graduate. (R-18) Offered spring. Prereq., consent of instr. Laboratory experience in total play production through participation in state, regional, national and international touring production programs.

THTR 406 - Professional Tech Prod

Credits: 1 TO 9. Level: Undergraduate, Graduate. (R-18) Offered spring. Prereq., consent of instr. Students experience the rigors and develop the skills required of technicians in touring theatre, maintaining integrity of all production elements through three months of intensive travel and varying venues.

THTR 407 - Prod Construct II

Credits: 1 TO 12. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Students serve as construction crew in one of the shops for productions.

THTR 408 - Production Team II

Credits: 1 TO 12. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Students serve as a member of the production team in a role of responsibility (i.e., master electrician, sound board operator, cutter, first hand, etc.) for major productions. These assignments and duties may serve also as part of the required senior project.

THTR 409 - Production Design II

Credits: 1 TO 12. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Students serve as a member of the production team in a role of designer (i.e., set designer, costume designer, light designer, etc.) for major productions. These assignments and duties may serve also as part of the required senior project.

THTR 410 - Singing For Actors

Credits: 2. Level: Undergraduate. (R-4) Offered spring. Prereq., audition, acting specialization, or consent of instr. Development and presentation of musical numbers in a dramatic context. A broad-based acquaintance with music theatre literature is acquired, and techniques for approaching songs are explored with an eye toward developing competency in music theatre forms. Course Attributes: Co-Convended Course

THTR 415 - Physical Performance Skills III

Credits: 3. Level: Undergraduate, Graduate. Offered spring. Prereq., THTR 316 or consent of instructor, which includes audition for acting specialization. Extremes of performance: stage combat, martial arts, and biomechanics/theatre of the grotesque.

THTR 416 - Physical Performance Skills IV

Credits: 3. Level: Undergraduate, Graduate. Offered spring. Prereq., THTR 415. Advanced specialized physical skills such as period styles, advanced combat/choreography, and commedia.

THTR 420 - Acting V

Credits: 3. Level: Undergraduate. Offered autumn. Prereq., THTR 321 and BFA acting specialization, or consent of instr. Selected scenes and projects from specific historical and stylistic periods, from Molière to Restoration comedy. Course Attributes: Co-Convended Course

THTR 421 - Acting VI

Credits: 3. Level: Undergraduate. Offered spring. Prereq., THTR 420. Selected speeches, scenes and projects from verse drama, especially Shakespeare. Course Attributes: Co-Convended Course

THTR 423 - Professional Performance

Credits: 1 TO 9. Level: Undergraduate, Graduate. (R-18) Offered spring. Prereq., consent of instr. Students experience the rigors and develop the skills required for actors in touring theatre; creating characters and maintaining consistent performances through three months of intensive travel and varying venues.

THTR 425 - Acting VII

Credits: 3. Level: Undergraduate. Offered autumn. Prereq., THTR 421. Performance and scene work in contemporary practice and theory. Course Attributes: Co-Convended Course

THTR 426 - Acting VIII

Credits: 3. Level: Undergraduate. Offered spring. Prereq., THTR 425. Developing professional skills, material for the actor, professional portfolio, resume audition material, commercial acting, performance market research. Course Attributes: Co-Convended Course

THTR 429 - Production Acting III

Credits: 1. Level: Undergraduate. (R-9) Offered autumn and spring. Prereq., THTR 329. Credit for acting in approved Theatre & Dance productions.

THTR 439 - Methods of Teaching Theatre

Credits: 2. Level: Undergraduate. (R-6) Offered autumn. Prereq., consent of instr. Building and addressing specific curriculum in theatre arts. Course Attributes: Co-Convened Course

THTR 440 - Costume Design II

Credits: 3. Level: Undergraduate. (R-9) Offered spring. Prereq., THTR 340. Advanced techniques in costume design; possible topics include design for dance, opera, large scale drama and musicals. Course Attributes: Co-Convened Course

THTR 445 - Draping

Credits: 3. Level: Undergraduate, Graduate. Offered spring. Prereq., THTR 345. Garment design based on manipulation of fabric on a body form; emphasis on creative solutions to design problems and the interrelationships between fabric, design, and form.

THTR 447 - Tailoring

Credits: 3. Level: Undergraduate, Graduate. Offered spring alternate years. Prereq., consent of instr. Principles used in the construction of tailored garments.

THTR 450 - Scene Design II

Credits: 3. Level: Undergraduate. Offered spring. Prereq., THTR 350. A continuation of the techniques and projects in 350. Course Attributes: Co-Convened Course

THTR 456 - Advanced Scene Painting

Credits: 3. Level: Undergraduate, Graduate. (R-9) Offered spring. Prereq., THTR 356 and/or consent of instr. Students will explore advanced scene painting techniques.

THTR 460 - Theatre Lighting II

Credits: 3. Level: Undergraduate. Offered spring. Prereq., THTR 360 or consent of instr. Advanced study of principles and practices of theatre lighting design. Training for position of light designer for theatre. Design requirements and decisions, color, development of stage picture; thrust and arena theatre. Course Attributes: Co-Convened Course

THTR 465 - Theatre Sound II

Credits: 3. Level: Undergraduate. Offered spring. Prereq., THTR 365 or consent of instr. Advanced study of principles and practices of theatre sound design. Training for position of theatre sound designer. Principles, practices and equipment used to create sound and music designs for the theatre, dance and related areas. Course Attributes: Co-Convened Course

THTR 470 - Stage Management II

Credits: 2. Level: Undergraduate, Graduate. Offered intermittently. Prereq., THTR 370 or consent of instr. Additional study of stage management concentrating on pre-rehearsal duties, aspects of maintaining a show's integrity as established by the director, inter-production relationships, supervision of crews and union contracts. Understanding a stage manager's need for paperwork and writing skills. Students encouraged to enroll in THTR 472 to use skills in a living situation.

THTR 472 - Stage Mgmt Pract II

Credits: 3. Level: Undergraduate, Graduate. (R-9) Offered autumn and spring. Prereq., THTR 470 or consent of instr. Stage managing a major show in the drama season in the Montana or Masquer Theatres or assistant stage managing for an Equity stage manager on a Montana Repertory Theatre production.

THTR 475 - Directing II

Credits: 3. Level: Undergraduate, Graduate. Offered autumn. Prereq., THTR 375 or consent of instr. Directing skills for the advanced student; extensive scene work.

THTR 476 - Directing III

Credits: 3. Level: Undergraduate, Graduate. Offered spring. Prereq., THTR 475. Continuation of 475. Course material coordinated with laboratory projects

THTR 481 - Adv Acting: Persnl Performance

Credits: 3. Level: Undergraduate, Graduate. Offered autumn. Prereq., THTR 321 or consent of instr. Developing personal performance skills.

THTR 482 - Adv Acting: Solo Performance

Credits: 3. Level: Undergraduate, Graduate. Offered spring, Prereq., THTR 481 or consent of instr. Creating solo performance material from original material or existing texts.

THTR 484 - Adv Acting: Professionl Skills

Credits: 3. Level: Undergraduate, Graduate. Offered spring. Prereq., THTR 420 or consent of instr. Developing professional skills, material for the actor, professional portfolio, resume audition material, commercial acting, performance market research.

THTR 490 - Undergraduate Research

Credits: 1 TO 12. Level: Undergraduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Directed individual research and study appropriate to the back ground and objectives of the student. Course Attributes: Research & Creative Schlrshp

THTR 491 - Special Topics/Exprmtl Courses

Credits: 1 TO 9. Level: Undergraduate, Graduate. (R-9) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics.

THTR 492 - Independent Study

Credits: 1 TO 12. Level: Undergraduate. (R-24) Offered intermittently. Prereq., consent of school director. Independent work under the University omnibus option. See index.

THTR 494 - Seminar/Workshop

Credits: 2. Level: Undergraduate, Graduate. (R-6) Offered intermittently. Prereq., 10 credits in Theatre or in English dramatic literature and consent of instr. Intensive study of dramatic theory relating to acting, directing, design and dramaturgy.

THTR 495 - Practicum

Credits: 1 TO 2. Level: Undergraduate. (R-3) Offered intermittently. Service learning experience in theatre in a setting compatible with the student's major and interests.

THTR 498 - Cooperative Eductn/Internship

Credits: 1 TO 6. Level: Undergraduate, Graduate. Offered intermittently. Prereq., consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (398, 498) may count toward graduation. Course Attributes: Internships/Practicums Internship graduation limit 6

THTR 499 - Senior Project

Credits: 1. Level: Undergraduate. Offered autumn and spring. Prereq., senior-level theatre major. The student, with approval from his/her advisor, will begin a project during the semester prior to the semester of his/her graduation. An in-depth paper and brief defense of the project are required.

THTR 501 - Intro to Grad Studies

Credits: 1. Level: Undergraduate, Graduate. Offered autumn. Introduction to basic research and writing skills.

THTR 502 - Intro to Grad Design

Credits: 2. Level: Undergraduate, Graduate. Offered autumn. Introduction to the design/technology program, research, history and expectations of program.

THTR 505 - Professional Theatre

Credits: 9. Level: Undergraduate, Graduate. (R-18) Offered spring. Prereq., consent of instr. Laboratory experience in total play production through participation in state, regional, national, and international touring production programs.

THTR 506 - Graduate Summer Theatre

Credits: 1 TO 3. Level: Undergraduate, Graduate. (R-6) Offered summer. Prereq., consent of instr. Practicum in school-approved summer theatre companies in the capacity of actor, designer, director, stage manager and/or technician. The student and instructor will meet prior to the student's registration for the course in order to determine the proper credit load and work expectations for the course. Student will earn credit for said work in consultation with Director of the School and outside producing company, with credit correlating to significance of above-listed duties.

THTR 507 - Tech Prod Assignment

Credits: 2 TO 4. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Production assignment made by the faculty. Student assigned a responsible technical position such as technical director, master electrician, sound engineer, cutter/drapeer or scenic artist. Credit variable and will be assigned by faculty.

THTR 508 - Desgn Prod Assignment

Credits: 2 TO 4. Level: Undergraduate, Graduate. (R-24) Offered autumn and spring. Prereq., consent of instr. Production design assignment made by the faculty. Student designs an element of a Theatre & Dance production with the supervision of a faculty designer.

THTR 509 - Tech Direct Pract

Credits: 3. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Technical direction of a major show in the drama season in the Montana or Masquer Theatres.

THTR 510 - Graduate Singing for Actors

Credits: 2. Level: Undergraduate, Graduate. (R-4) Offered spring. Prereq., audition, acting specialization, or consent of instr. Development and presentation of musical numbers in a dramatic context. A broad-based acquaintance with music theatre literature is acquired, and techniques for approaching songs are explored with an eye toward developing competency in music theatre forms. Co-convenes with THTR 410. Course Attributes: Co-Convened Course

THTR 512 - Prob in Voice/Speech

Credits: 1 TO 3. Level: Undergraduate, Graduate. (R-12) Offered intermittently. Prereq., consent of instr. Development of specific advanced skills in vocal work.

THTR 513 - Grad Voice & Speech I

Credits: 3. Level: Undergraduate, Graduate. Offered autumn. Prereq., consent of instr. Studio training with extensive focus on exercises designed to foster awareness of how the body, breath, voice, resonance, and enunciation are the artist's tactics when acting.

THTR 514 - Graduate Voice & Speech II

Credits: 3. Level: Undergraduate, Graduate. Offered spring. Prereq., THTR 513. Continuation of 513; advanced studio encompassing standard speech, character voice, accent and dialect-acquisition studies.

THTR 515 - Grad Phys Performance Skills

Credits: 3. Level: Graduate. Offered autumn. Prereq., consent of instructor. Investigation of the history and methodology of major physical-performance models. Studio work resulting in exercises and scene work to accompany each discipline explored.

THTR 517 - Prob in Movement/Dance

Credits: 1 TO 3. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Development of specific advanced skills in physical performance.

THTR 520 - Graduate Acting I

Credits: 3. Level: Undergraduate, Graduate. (R-12) Offered autumn. Prereq., consent of instr. Intensive rehearsal and project work with emphasis on integration of advanced skills.

THTR 521 - Grad Acting II

Credits: 3. Level: Graduate. Offered spring. Prereq., THTR 520 or consent of instr. Continuation of 521; intimate exploration of monologues, scene work, and contemporary techniques.

THTR 525 - Problems in Acting

Credits: 1 TO 3. Level: Undergraduate, Graduate. (R-18) Offered autumn and spring. Prereq., consent of instr. Development of specific advanced skills in acting.

THTR 526 - Studio Training I

Credits: 3. Level: Graduate. Offered autumn. Prereq., consent of instr. Scenes and projects from specific historical and stylistic periods, from Molière to Restoration comedy to drawing-room comedy. Co-convenes with THTR 421.

Course Attributes: Co-Convened Course

THTR 527 - Studio Training II

Credits: 3. Level: Graduate. Offered spring. Prereq., THTR 526. Work in speeches, scenes, and projects from Shakespeare and other classical verse drama. Co-convenes with THTR 421. Course Attributes: Co-Convened Course

THTR 528 - Studio Training III

Credits: 3. Level: Graduate. Offered autumn. Prereq., THTR 527. Performance and scene work in contemporary practice and theory. Course will additionally familiarize students with contemporary performance theory and criticism. Co-convenes with THTR 425. Course Attributes: Co-Convened Course

THTR 529 - Studio Training IV

Credits: 3. Level: Graduate. Offered spring. Prereq., THTR 528. Developing professional skills, material for the actor, professional portfolio, resume audition material, commercial acting, performance market research, and knowledge about unions. Co-convenes with THTR 426. Course Attributes: Co-Convened Course

THTR 530 - Grad Sem Dramatic Lit

Credits: 3. Level: Undergraduate, Graduate. (R-9) Offered intermittently. Prereq., consent of instr. Selected topics with individual research projects presented in seminar concerning various genres, periods, and themes in dramatic literature.

THTR 531 - Grad Sem Theatre Hist

Credits: 3. Level: Undergraduate, Graduate. (R-9) Offered intermittently. Prereq., consent of instr. Selected topics and issues with individual research projects presented in seminar concerning various genres, periods, themes, and cultural contexts in theatre history.

THTR 532 - Grad Sem Dramaturgy

Credits: 3. Level: Undergraduate, Graduate. A graduate-level introduction to literary, historical, and contextual analysis of play scripts and performance pieces intended for production.

THTR 533 - Grad CADD

Credits: 3. Level: Graduate. (R-6) Offered autumn. Students will further their understanding for how CADD software is used to create complete, accurate draftings for design and technology in theatre and theatre-related activities.

THTR 535 - Perform Theory & Criticism

Credits: 3. Level: Undergraduate, Graduate. Offered spring. Survey of the theories, elements and ingredients of multi-cultural live performance forms, including theatre, popular entertainment, ceremonies, and other public events. Includes instruction in and application of various approaches to the criticism of live performance.

THTR 539 - Grad Methods Tchg Theatre

Credits: 2. Level: Undergraduate, Graduate. In-depth study of teaching methods for presenting the craft of acting and theatre production to introductory-level students. Co-convenes with THTR 439. Course Attributes: Co-Convened Course

THTR 540 - Graduate Costume Design

Credits: 3. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Further advancement of techniques in costume design using script/character analysis, color/texture/form usage, and presentation. Possible designs for dance, opera, large-scale drama and musicals. Co-convenes with THTR 440. Course Attributes: Co-Convened Course

THTR 542 - Prob in Costume Design

Credits: 3. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Development of specific technical skills in costume design.

THTR 545 - Grad Design Seminar I

Credits: 2. Level: Undergraduate, Graduate. Offered autumn. This course is designed to teach graduate students effective research, collaboration, and script-analysis methodologies and exploration practices.

THTR 546 - Grad Design Seminar II

Credits: 2. Level: Undergraduate, Graduate. Offered spring. This course is designed to continue the design process skills developed in Seminar I of effective research, collaboration and script-analysis methodologies and exploration practices.

THTR 550 - Graduate Scene Design

Credits: 3. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Development of specific design skills in scenery through unrealized design opportunities as well as design concept and process development. Co-convenes with THTR 450. Course Attributes: Co-Convened Course

THTR 552 - Prob in Scene Design

Credits: 3. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Development of specific technical skills in scene design.

THTR 553 - Technical Direction

Credits: 3. Level: Undergraduate, Graduate. Offered autumn and spring. Prereq., consent of instr. Role and scope of technical direction, production scheduling, design analysis, budgets and bookkeeping and methods of construction.

THTR 555 - Grad CADD

Credits: 3. Level: Undergraduate, Graduate. (R-6) Offered autumn. Students will further their understanding for how CADD software is used to create complete, accurate draftings for design and technology in theatre and theatre-related activities.

THTR 556 - Grad Rendering Techniques

Credits: 2. Level: Undergraduate, Graduate. Offered spring. Students will begin to develop personal design styles using both traditional and digital drawing and rendering techniques.

THTR 560 - Graduate Light Design

Credits: 3. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Advanced study of principles and practices of theatre lighting design, especially collaboration and communication. Training for position of light designer for theatre or lighting instructor. Design requirements and decisions, color, development of stage picture; thrust and arena theatre. Co-convenes with THTR 460. Course Attributes: Co-Convened Course
THTR 562 - Prob in Light Design

Credits: 3. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Development of specific technical skills in light design.

THTR 565 - Graduate Sound Design

Credits: 3. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Further advanced study of principles and practices of theatre sound design, especially script analysis and collaboration. Training for position of theatre sound designer or instructor. Principles, practices and equipment used to create sound and music designs for the theatre, dance and related areas. Co-convenes with THTR 465. Course Attributes: Co-Convened Course

THTR 567 - Problems in Sound Design

Credits: 3. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Prereq., consent of instr. Development of specific technical skills in sound design.

THTR 570 - Grad Stage Mgmt

Credits: 2. Level: Undergraduate, Graduate. Offered autumn. Prereq., consent of instr. Study of duties of stage manager in rehearsal and performance process. Includes stage managing a production for a faculty or guest-artist director.

THTR 572 - Stage Mgmt Pract

Credits: 1 TO 6. Level: Undergraduate, Graduate. (R-18) Offered autumn and spring. Prereq., consent of instr. Practical work in stage management projects.

THTR 574 - Prob Theatre Mgmt

Credits: 1 TO 6. Level: Undergraduate, Graduate. (R-18) Offered intermittently. Prereq., consent of instr.

THTR 577 - Directing IV

Credits: 3. Level: Undergraduate, Graduate. Offered autumn. Prereq., THTR 476 or consent of instr. Formalist styles of dramatic material. Through a variety of tools, textual and linguistic analysis, metrical and rhetorical analysis, archetypes, and musical structures, students analyze, interpret and stage projects drawn from opera and pre-modern drama, especially Shakespeare.

THTR 578 - Directing V

Credits: 3. Level: Undergraduate, Graduate. Offered spring. Prereq., THTR 577. Exploration of image, time manipulation, and nonlinear storytelling.

THTR 580 - Problems in Playwriting

Credits: 1 TO 3. Level: Undergraduate, Graduate. (R-12) Offered intermittently. Development of specific advanced writing projects based on dramatic structure, conflict, tension, and character complexities/psychology.

THTR 594 - Seminar

Credits: 1 TO 3. Level: Undergraduate, Graduate. (R-12) Offered intermittently. Prereq., consent of instr. A review and discussion of current research. Topics vary.

THTR 595 - Special Topics

Credits: 1 TO 18. Level: Undergraduate, Graduate. (R-18) Offered autumn and spring. Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Course Attributes: Internships/Practicums

THTR 596 - Independent Study

Credits: 1 TO 6. Level: Undergraduate, Graduate. (R-24) Offered autumn and spring. Prereq., consent of instr.

Course Attributes: Service Learning/Volunteer

THTR 597 - Research

Credits: 1 TO 6. Level: Undergraduate, Graduate. (R-24) Offered autumn and spring. Prereq., consent of instr.

THTR 598 - Internship

Credits: 2 TO 6. Level: Undergraduate, Graduate. (R-24) Offered intermittently. Prereq., consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off campus.

Prior approval must be obtained from the faculty supervisor and the Internship Services office. Course Attributes: Internships/Practicums

THTR 599 - Professional Paper

Credits: 1 TO 4. Level: Undergraduate, Graduate. (R-4) Offered autumn and spring. Preparation of a professional paper appropriate to the needs and objectives of the individual student.

THTR 609 - Grad Design Project

Credits: 2. Level: Undergraduate, Graduate. Students serve in one or more design roles of the production team for major theatre and dance events, working from conceptual stage to realized production.

THTR 645 - Grad Design Seminar III

Credits: 2. Level: Undergraduate, Graduate. Offered autumn. This course is designed to continue the design process skills developed in Seminar II of effective research, collaboration and script analysis methodologies and exploration practices.

THTR 646 - Grad Design Seminar IV

Credits: 2. Level: Graduate. Offered spring. This course is the capstone to the seminar sequence which completes the design process skills developed in Seminar I, II, and III of effective research, collaboration and script analysis methodologies and exploration practices.

THTR 675 - Directing VI

Credits: 3. Level: Undergraduate, Graduate. Offered autumn. Prereq., THTR 578. The history and literature of directing.

THTR 677 - Problems in Directing

Credits: 1 TO 3. Level: Undergraduate, Graduate. (R-18) Offered autumn and spring. Prereq., consent of instr.

THTR 690 - Grad Final Creative Project

Credits: 1 TO 6. Level: Undergraduate, Graduate. Offered autumn and spring. Prereq., consent of instr. An in-house project that takes the form of a capstone directing assignment or acting role in a School production. A paper detailing and reflecting upon the process accompanies the creative work.

THTR 699 - Thesis

Credits: 1 TO 12. Level: Undergraduate, Graduate. (R-12) Offered autumn and spring. Preparation of a thesis or manuscript based on research for presentation and/or publication.

Affiliated Campuses

Helena College University of Montana

*As part of a Montana Board of Regents renaming and re-branding effort for Montana's two-year institutions, effective beginning with the 2013-2014 Academic Year, The University of Montana - Helena College of Technology name became *Helena College University of Montana*.

Helena College offers two-year programs in business, trades, technical and health occupations designed to meet the state's business and industry needs for technologically- skilled workers. All of the curricula are industry-approved and emphasize learning in a hands-on environment. In addition, the college offers an Associate of Science degree and Associate of Arts degree designed to transfer to four-year institutions. The college, founded in 1939, is fully accredited by the Northwest Commission on Colleges and Universities (NWCCU), approved by the Montana State Board of Nursing, certified and licensed by the Federal Aviation Administration, and certified by the National Institute for Automotive Service Excellence.

Helena College students take a full complement of courses in mathematics, communications, computer literacy, and career development. Located in Helena, Montana's beautiful capitol city, the College offers its programs in modern classrooms, shops, and labs, both near the Capitol building and at the Helena airport. For more information, call 1-800-241-4882.

Montana Tech of The University of Montana

Founded in Butte in 1889 as the Montana School of Mines, Montana Tech has a century-old reputation as one of the finest science and engineering colleges in America. Montana Tech is repeatedly recognized year after year among the top 10% of all colleges in America. While still focusing on its original programs in minerals and energy engineering, Montana Tech has expanded its offerings to include new science, engineering, computer science, technical communication, business, and innovative health care programs all designed to meet the needs of today's rapidly changing world.

Montana Tech provides outstanding educational programs to its 2,600 students in a truly personalized setting. Students are treated as individuals and enjoy their close relationships with faculty. Current Montana Tech students come from every Montana county, 38 states and 17 foreign countries. Montana Tech is a friendly campus where students get involved in a wide array of campus events and activities as well as abundant outdoor recreational opportunities. Student satisfaction surveys consistently give the College high marks for its quality of student life. Upon graduation, Montana Tech graduates enjoy over a 94% overall placement rate with an overall salary of \$52,172. Many of the College's alumni have attained senior leadership positions in the minerals, energy, and natural resource industry and business. Over 19% of Montana Tech alumni give back to the campus each and every year. Located in the heart of the mountains of Southwest Montana, the 98-acre main campus can be seen for miles. With over \$20 million in recently completed building and renovation projects, the campus blends its historical buildings with new, state-of-the-art laboratory and instructional facilities. The College's two-year campus, Montana Tech College of Technology, is located seven miles south of the main campus and provides occupational and technical program opportunities at the associate degree level. (As part of a Montana Board of Regents renaming and re-branding effort for Montana's two-year institutions, effective the 2013-2014 Academic Year, Montana Tech College of Technology will be known as *Highlands College of Montana Tech*)

Montana's geologic and hydrogeologic research arm, the Bureau of Mines and Geology, is a department of the College. Montana Tech's commitment to research has been rewarded with a 500 percent increase in funding over the past ten years. Inquiries to Montana Tech should be directed to 1-800-445-Tech or the [Montana Tech webpage](#).

The University of Montana Western

The unique mission of the University of Montana Western emphasizes experiential learning combining theory and practice through projects and field experiences. Montana Western students learn by doing, collaborating directly with their professors and fellow students in a mentorship environment.

In order to better facilitate this type of learning, UMW adopted a course scheduling system, named Experience One (X1). Under X1, students take a single course at a time for 18 days for three hours per day. Montana Western is the first and only public four-year university in the country to fully adopt this system.

Montana Western embraces the privilege and obligations associated with its mission as a higher education institution within the beautiful landscape of southwest Montana. This mission infuses the University's curriculum: in its century-long tradition for excellence in professional programs in teacher education, business and technology; in its strong interdisciplinary arts and science programs; and in its two-year associate degree programs responding to regional needs.

Montana Western offers the Bachelor of Science degree in: Elementary Education, Secondary Education with options in traditional subject areas, Biology, Business Administration, Early Childhood Education, Environmental Interpretation, Environmental Science, Health & Human Performance, Mathematics, and Natural Horsemanship. In addition, Montana Western offers Bachelor of Arts (BA) and Bachelor of Applied Science (BAS) degrees. Bachelor of Arts options include English, Interdisciplinary Social Science, and Visual Arts. Bachelor of Applied Science students may use an Associate of Applied Science (AAS) degree as a base for the BAS degree with most of the credits from the two-year degree transferring into the BAS at Montana Western. Montana Western also offers Associate of Arts and Associate of Science degrees for those who want to obtain their general education before transferring to another campus; Associate of Applied Science degrees for those needing entry-level job skills in Business, Early Childhood Education, Education Studies, Equine Studies, Natural Horsemanship, and Tourism & Recreation; and certificate programs in Early Childhood Technology, and Information Technology & Network Administration.

Individualized education has been a campus hallmark for over 100 years. Approximately 1,400 students enroll at Montana Western each fall. Class sizes are kept small (average class size is 18 students). The faculty is nationally recognized for its excellence, creativity, and genuine concern for maintaining the Montana Western tradition of high quality academic and personal experience.

In addition to fulfilling academic life, Montana Western offers National Association of Intercollegiate Athletics Frontier Conference sports in football, volleyball, men's and women's basketball, men's and women's National Intercollegiate Rodeo Association teams, and Equestrian team competition. A varied sports program is also available for students seeking intramural activities.

With close proximity to Yellowstone, Grand Teton, and Glacier national parks, Montana Western's geographic location makes an ideal setting for individuals who enjoy the rugged outdoors. With a friendly, small town atmosphere, Dillon offers many of the amenities of a much larger community. Ranching, mining and tourism are the chief industries of the area. Montana Western's picturesque 34-acre campus and friendly atmosphere enhance the community and area. For more information about the University of Montana Western, call (877) 683-7331.

Expenses, Services, Organizations Fees

[Paying Your Registration Bill](#)

[Refund Policy](#)

[Withdrawal Policy](#)

General

The student expense information provided in this catalog is based upon the rates for the 2014-15 academic year as submitted to and approved by The Montana Board of Regents of the Montana University System. The Board of Regents reserves the right to adjust fees at any time. Current information may be obtained by contacting Business Services, Lommasson Center, University of Montana-Missoula, Missoula, Montana 59812. The phone number is 406-243-2223, email address um.statements@mso.umt.edu or visit the [Business Services website](#).

Paying Your Registration Bill

A student's registration is not complete until it is "paid". Paying the registration bill confirms registration of the courses listed on the registration bill and the student's acceptance of the associated tuition and fee charges. **Even if financial aid and/or scholarships cover the full cost of the registration bill, you must still complete your registration by clicking the "Pay Registration Bill" button in CyberBear. FAILURE TO PAY YOUR REGISTRATION BILL WILL RESULT IN THE CANCELLATION OF CLASSES FOR THE SEMESTER.** Foreign and Canadian checks are not accepted. Credit card payment is accepted using VISA and MasterCard. Payment may be completed electronically in the student's [CyberBear](#) account. Please see the published payment deadlines on the [Business Services website](#) or the [Registrar's Calendar web page](#).

Fee Schedule

The tuition and mandatory fee schedules are posted on the [Business Services tuition and fees web page](#). Different fee schedules apply to each type of student – undergraduate lower/upper, Missoula College, graduate first/advanced, graduate TA/RA first/advanced, law fall/spring, WUE undergraduate lower/upper, WUE Missoula College, post-baccalaureate, distance undergraduate lower/upper, distance Missoula College, distance graduate first/advanced, distance post-baccalaureate. The full schedule of fees and fee definitions are available at [Business Services tuition and fees web page](#) or by calling Business Services at 406-243-2223. Students enrolled at 12 or more credits are assessed at the same rate. Student enrolled less than 12 credits are assessed per credit. Students enrolled for 6 credits or fewer have the option of paying an additional amount to cover the ASUM activity fee, campus recreation fee, health service fee and athletic fee.

Audited courses are assessed the same fees as courses taken for credit.

Delivery of Student Credit Balance Refunds

The University of Montana processes all student credit balance refunds electronically to deposit to a bank account (checking or savings) selected by the student. The bank account may be an existing account or the student is eligible to open an online bank account through Higher One. Each student will receive a UM Refund Choice Card (mailed in a bright green envelope) that they will use to access the UM contracted third-party system to make their choice on the [Business Services refund web page](#). The student will need to make their choice only once unless they change or close their bank account. The card should be kept in a secure place in case the student needs to make changes to their current choice. Even if a student does not expect to receive refunds due to financial aid, it is still important to select a preference. For instance a student may have a credit balance if classes are dropped or they withdraw that would require refunding to them.

A student's refund may be delayed if the student has not completed the setup of their electronic delivery choice.

Fee Schedule

The tuition and mandatory fee schedules are posted on the [Business Services tuition and fees web page](#) or call Business Services at 406-243-2223. Different tuition/fee schedules apply to each type of student (i.e. undergraduate lower/upper, WUE main campus/MC, MC, post baccalaureate, graduate first/advanced, distance only and law. The Board of Regents reserves the right to adjust fees at any time.

Students enrolled for 6 credits or fewer have the option of paying an additional amount to cover the Activity Fee, Campus Recreation Fee, Health Service Fee and Athletic Fee. Please see the Fee Definitions on the [Business Services Fee definition web page](#) for details about these fees. Audited courses are assessed the same fees as courses taken for credit.

A Distance Learning fee is assessed on all online courses to partially defray costs associated with courses delivered online over the World Wide Web. On line courses are assessed an additional fee of \$48.00 per credit. If a student is registered for all distance classes, they have the option to request a change to a distance only student. Distance Only students are not assessed some of the mandatory fees that apply to students enrolled in face-to-face courses. The student needs to complete the request which can be found on the [UM Online website](#).

The Board of Regents may approve additional fees at any time. Fees frequently are assessed for selected courses in subjects such as: Accounting Technology, Art, Biology, Biochemistry, Building Maintenance Engineering, Business, Chemistry, Computer Technology, Culinary Arts, Curriculum and Instruction, Dance, Diesel Equipment Technology, Drama, Educational Leadership, Electronics Technology, Forestry, Geology, Health and Human Performance, Heavy Equipment Operation, Journalism, Legal Studies, Mathematics, Metals Processes, Microbiology, Military Science, Music, Nursing, Pharmacy, Physical Therapy, Resource Conservation, Respiratory Therapy, Science, Secretarial Technology, Small Engines, Surgical Technology, Truck, Welding, and Wildlife Biology. This listing may not be all-inclusive and does not preclude a specific fee from being assessed.

Special fees are assessed for extended field trips in various departments.

An Educational Service Fee is charged for the off-campus M.B.A. and M.P.A. programs.

A fee is charged for cooperative education internships.

Purchase of supplies, equipment, or tools may be required by certain programs.

Law School Fees

The proposed 2014-15 School of Law fees for 15 credits are approximately \$3,237 for autumn and \$3,212 for spring for an in-state student and \$11,175 for autumn and \$11,150 for spring for an out-of-state student. The Health Service fee is included. Health Insurance coverage is available to students for an additional charge.

Law Special Fees

All persons who apply for admission to the School of Law must pay an acceptance fee of \$300.00 (\$150.00 is refundable if written notice is received by the due date if student does not want to attend) which is applied toward payment of fees upon entering and attending the School of Law in the semester for which application was made. In addition to the above fees, Law School students must pay an additional \$145.00 per credit per semester. The amount is applied to instructional costs.

All law students are assessed a \$25.00 law activity fee during autumn. An additional academic facilities fee of \$50 per semester plus \$1.25 per credit hour is also assessed.

Continuing Education and Summer Programs

Fees, room and board costs for Summer Programs and fees for registration in Continuing Education are contained in separate publications. These publications can be obtained by contacting the School of Extended and Lifelong Learning and Summer Programs 406-243-2900, University of Montana-Missoula, Missoula, MT 59812 or by visiting the [School for Extended and Lifelong Learning website](#).

Refund Policy

Refund for Dropped Classes

Students who have paid their registration bill may drop classes through the first fifteen days of the Autumn and Spring semesters. Adjustments of the associated tuition & fees and financial aid will be made to their student account during that time. **Beginning with the sixteenth class day, there is no refund for classes dropped and there is a \$10 fee for each class dropped.** Students who finalized with financial aid should always check with the Financial Aid office before dropping classes to make sure they fully understand the financial impacts as dropping classes may result in the student having to immediately repay grant aid they received or make them ineligible to receive aid that has not been disbursed yet.

Refund for Withdrawal from the University

If a student decides to withdraw from classes after finalizing the registration bill, the student should contact the University of Montana Registrar's Office in Griz Central, located in the Lommasson Center, and complete a withdrawal form to begin the official withdrawal process**. This procedure will enable the University to prorate the fees assessed based upon the official date of withdrawal.

Students who desire to continue the Blue Cross Health Insurance must contact the Curry Health Center prior to withdrawal. Otherwise, the insurance premiums will automatically be refunded and coverage will be lost.

For students receiving Federal financial aid, they must be attending classes to remain eligible for Federal Financial Aid. If a student drops courses, stops attending classes, never starts attending a class or withdraws from the University of Montana, the University and/or the student may be required to return federal funds awarded to the student. **It is very important for students receiving Federal financial aid to contact Business Services at 406-243-2223 prior to withdrawing.** If a student officially withdraws during the first fifteen days of class, the tuition and fees will be re-assessed for the semester based upon the official date of withdrawal. A student's official withdrawal date is determined by:

- the date the student began the institution's withdrawal process or officially notified the institution of intent to withdraw; or
- the midpoint of the period for a student who leaves without notifying the institution; or
- the last date of attendance by the student at a documented academically related activity.

Students who withdraw from the University for the Spring or Autumn semesters after finalizing the registration bill will receive pro-rated assessment of tuition and fees according to the following schedule.

	Before classes begin	1st Week	2nd Week	3rd Week	4th week or Later
Registration	none	none	none	none	none
Tuition/Fees	100%	90%	75%	50%	none

Blue Cross Ins. **	100%	100%	100%	100%	none
Other Fees	varies	varies	varies	varies	varies

Charges for room and board will be re-assessed on a pro-rated basis. During the final two weeks of the semester, room charges will not be re-assessed. Student who do not formally and completely withdraw are not eligible for a refund. The University of Montana will reassess the tuition and fees for students using the Deferred Payment Plan if the student officially withdraws during the first fifteen days of a semester. However, the student may still owe a balance to the University.

Return of Title IV Funds (Federal Financial Aid)

The University of Montana Refund Policy exists for calculating the refund of institutional charges when a student withdraws. The federal “Return of Title IV Funds” formula dictates the amount of Federal Title IV aid that must be returned to the federal government by the University and the student. The federal formula is applicable to a student receiving Title IV Funds if that student withdraws on or before the 60% point of time in the semester. The student may also receive a refund of some institutional charges through the University of Montana’s refund policy.

The federal formula requires a return of Title IV aid if the student received federal financial assistance in the form of a Federal Pell Grant, TEACH Grant, Federal Supplemental Educational Opportunity Grant (SEOG), Federal Perkins Loan, Federal Direct Loan (subsidized or unsubsidized), or Federal PLUS loans and the student withdraws on or before completing 60% of the semester. The percentage of Title IV aid to be returned is equal to the number of calendar days remaining in the semester (effective on the official withdrawal date) divided by the number of calendar days in the semester (scheduled academic breaks of five consecutive days or more are excluded). After all Title IV aid return requirements have been satisfied, remaining credit balances will first be applied to satisfy outstanding University tuition, fees, and institutional charges. Any remaining credit balances will then be refunded to the student. Once you have completed more than 60% of the semester, you have earned all (100%) of your assistance.

If you withdraw from the University of Montana before completing 60% of the semester, you may have to repay any unearned financial aid funds that were already disbursed to you. Please contact staff in The University’s Business Services, located in Griz Central or call 406-243-2223, if you have any questions about refund of tuition and fees or the calculation of the return of federal financial aid PRIOR TO WITHDRAWING.

Distribution Priority for Return of Title IV Funds

1. Unsubsidized Federal Stafford Loan
2. Subsidized Federal Stafford Loan
3. Federal Perkins Loan
4. Federal Graduate PLUS Loan
5. Federal Parent PLUS Loan
6. Federal Pell Grant Program
7. Federal SEOG Program
8. TEACH Grant
9. State, Private, or Institutional Aid
10. The Student

Hardship Withdrawal Policy

A hardship withdrawal may be granted to a student who experienced a catastrophic unanticipated condition or event after the fifteenth class day of a semester, if the condition prevents the student from completing academic course work. If medical, this must be documented by a health care provider. A medical hardship withdrawal will only be granted in cases of extreme hardship resulting from a serious or life threatening medical condition. In order for a student to petition to receive a hardship withdrawal from The University of Montana, the student must contact the Registrar's Office or Business Services Office to start the hardship withdrawal process. Upon approval of a hardship withdrawal, the Registrar's Office will enter the appropriate withdrawal information on the student's academic record. Each student's circumstances are different, and the Hardship Withdrawal Committee will determine the criteria for awarding a hardship withdrawal. At minimum, the student must meet the following criteria:

1. Is a degree seeking student, and
2. Is either a resident or non-resident student, and
3. Is a continuing student, and
4. Is maintaining satisfactory progress based upon The University of Montana's academic regulations.

Business Services will calculate the tuition credit amount for all approved hardship withdrawals and will notify the Financial Aid Office.

Students withdrawing during the first fifteen class days of a semester for medical reasons should contact the Curry Health Center in order to maintain the health insurance coverage. Otherwise, the medical insurance premiums will be automatically refunded and coverage will be lost.

The hardship withdrawal process is not the appropriate venue to resolve or petition academic matters. Such concerns must be addressed in the student's respective department, school, or college. In addition, the hardship withdrawal process is not an alternative means to drop classes after the normal drop date, to remove unwanted grades, or preclude resulting academic/financial aid actions (warning, probation, suspension, etc.)

Other Costs and Policies

Late Registration

A student who does not complete registration, including payment of tuition & fees in [CyberBear](#), by the fifth class day is assessed a late registration fee of \$80.00. After the fifteenth class day, a petition is required to register and, if approved, an additional \$80.00 will be assessed for a total late fee of \$160.00.

Returned Checks

A charge of \$25.00 will be assessed on checks (paper or electronic) returned from the bank. Any paper or electronic check tendered in payment of registration fees and not honored by the bank upon which it is drawn may result in cancellation of a student's registration. The student will be assessed the late registration fee of \$80.00 maximum in addition to the \$25.00 service charge.

Fee Policy on Drop/Adds

Students must pay for all courses for which they are enrolled at registration. However, within the first fifteen class days, they may drop or add courses. The courses for which students are enrolled on the fifteenth class day will determine any fee adjustments (see fee schedule) or financial aid adjustments. Beginning the sixteenth class day, courses dropped will not result in a reduction of fees but courses added will increase credit hour enrollment and may result in an additional charge. Payment is due within 10 days of the day courses are added.

CyberBear will not allow a student to drop all courses. Dropping all courses is considered a withdrawal from the University. Please refer to the Withdrawal Policy section in the catalog for information on how to withdraw and the associated Refund Policy.

Drop/Add Processing Fee

A \$10.00 processing fee will be charged for each course that is added or dropped after the fifteenth instructional day. See the summer class schedule for summer session deadlines.

Deferred Payment Plan

The University of Montana offers a payment plan to help students and their families pay their tuition, mandatory fees, room and board.

Eligibility is based on the following criteria:

1. Making payments as scheduled
2. Maintaining Satisfactory Academic Progress
3. Adequate financial resources to repay the loan
4. Use all UM Financial Aid offered
5. Fully complete and sign all required documents

The plan provides for the payment of at least one fourth of the total fees along with a \$30.00 administrative charge at the time of registration, payment of one fourth approximately 30 days after registration and payment of the full balance approximately 90 days after registration.

Registration, tuition and mandatory fees less any Financial Aid may be deferred. Student insurance and non-mandatory/course fees may not be deferred.

Deferred Payment Plan (DPP) applications must be submitted via CyberBear. The instructions (at right) will lead you to the DPP application. Be prepared to fill out the necessary application forms including parent and spouse information and two references. Your application will be reviewed by Business Services within 3 business days and you will be notified by UMConnect on the status of your application.

The signing and adherence to the terms and conditions of a promissory note will be required and no fees may be deferred by any person who owes the University any fees, fines, loans or other charges or who has previously deferred fees and failed to make timely payments. A \$15.00 fee will be assessed each time a payment is late.

This plan is not available for the summer session.

Monthly Bill Statements

Monthly bill statements will be mailed to the student's current mailing address displayed in CyberBear. In addition, an electronic notification will be e-mailed to their official University of Montana e-mail account . It is the student's responsibility to check their mail and official University of Montana e-mail account for these statements and notices. Payments for billed amounts are due by the due date indicated on the statements and electronic message. Failure to make timely payments will result in an interest charge assessed on balances not paid in full by the following monthly billing. Payments can be made (1) online in CyberBear; (2) at the cashiers station located in Griz Central (2nd floor Lommasson Center); or by mailing payments to Student Accounts, Business Services, The University of Montana, 32 Campus Drive #2304, Missoula, MT 59812-2304.

Non Payment

A student who owes regular fees and charges including room and board or has an overdue debt owed to the University for any fees, fines, or other charges will not be able to register, secure any transcript or record, or access any University facilities or services until the full amount due has been paid or satisfactorily resolved with Business Services. Interest may be charged at the rate of 10% on the balance due from the day after the due date until the full amount has been paid and any attorney's fees or other costs or charges necessary for the collection of the amount owed may be added to the balance due.

Determination of In-State Fee Status

The Montana University System classifies all students as either in-state or out-of-state. This classification affects admission decisions and fee determinations. The basic rules for making the classification are found in Board of Regents' Policy. It is each student's responsibility to secure and review a copy of the policy. Failure to be aware of the rules will not be cause for granting any exceptions to them. A copy of the policy is available from the Admissions Office or the Registrar's Office. It is important to bear in mind that each residency determination is based on the unique set of facts found in each individual's case. Students participating in the Western Undergraduate Exchange or the National Student Exchange programs are not eligible to gain residency. If you have questions concerning your particular case, be sure to contact the unit to which you are applying for admission or at which you are already enrolled. Generally, the Admissions Office or the Registrar's Office will be able to assist you.

With certain exceptions, in order to be eligible for in-state status, a person must meet a 12-month durational residency test. You will have to demonstrate a bona fide intent to become a Montana resident. The 12-month period does not start until some act indicative of intent to establish residency is taken. Mere presence in Montana, enrollment at a unit or rental agreements will not serve to start this period. Sufficient acts to start the period are registration to vote, obtaining a Montana driver's license, registration of a motor vehicle in Montana, purchase of a home in Montana or filing of a resident Montana tax return. The 12-months must be completed by the 15th instructional day to qualify for that term.

Your actions during the 12 month waiting period will be used to determine whether you are in the state as a bona fide resident or merely for educational purposes. The decision on your residency will not generally depend on just one factor. The following are the things you need to do that will support a claim of bona fide residency.

1. Register to vote if you are a voter
2. License a vehicle if you operate one in Montana
3. Obtain a driver's license if you drive
4. Be physically present in Montana, not out of the state of Montana, for more than a total of 30 days
5. Can Not be claimed as a tax exemption by residents of another state or file taxes as a resident of another state
6. Provide at least 51% of your own financial support (this means you will need to document to us that you have contributed approximately \$6000 towards your support during the twelve month waiting period)
7. File a Montana resident income tax return (this is important for all who claim residency in Montana, regardless of the amount of earnings)
8. Only register for six (6) credits or less per semester (including summer school) during the twelve month waiting period. Registering for more than 6 credits creates a strong presumption that you are here for educational purposes, and may disqualify you from achieving in-state status.

Be certain to secure the Board of Regents residency Policy and questionnaire from the Registrar's Office in the Lommasson Center 201 or at the Registration Counter in Griz Central . At the end of your twelve month waiting

period you must complete the residency questionnaire and attach copies of your driver's license, vehicle registration, voter's registration and proof of your earnings for the twelve months and return it to the Registrar's Office for review. This documentation can be submitted to the Registrar's Office up to 30 days in advance of the petitioners start date and not later than the 15th instructional day of the semester for which the status is sought. When a student petitions or meets the requirements after the 15th instructional day, a change in classification, if granted, will not be retroactive and will become effective for the next term. Reclassification is not automatic and will not occur unless the individual so petitions. It is the student's responsibility to meet any filing deadlines that are imposed by the appropriate unit of the System. All students should check with the appropriate office to determine the time limits for filing. The appeal process is given in the Regents' policy.

Costs of On-Campus Services

Housing and Dining Services

Students living in University residence halls are required to contract for a meal plan with Dining Services. Room and board rates are the same for in-state and out-of-state students. Occupants may select any meal plan to obtain the number of meals preferred and choose from a variety of room options.

Students who are approved to move out of the residence halls and terminate their meal plan contract will receive a prorated refund based upon the days remaining in the semester less the cancellation fee.

Residence Halls

Rates subject to change

2014-2015 Autumn/Spring Semester room rates in University residence halls are:

Residence Hall	Room Type				
	Double Room	Triple Room	Single Room	3-Person Pod	4-Person Suite
Aber Hall	\$1,747	NA	NA	NA	NA
Craig Hall	\$1,872	\$1,747	NA	NA	NA
Duniway Hall	\$1,747	NA	\$2,156	NA	NA
Elrod Hall	\$1,747	\$1,747	Standard - \$1,991 Large - \$2,156	NA	NA
Jesse Hall	\$1,747	NA	NA	NA	NA
Knowles Hall	\$1,747	\$1,747	NA	NA	NA

Miller Hall	\$1,747	NA	\$2,277	\$2,277	NA
Pantzer Hall	NA	NA	\$2,461	NA	\$2,461
Turner Hall	\$1,872	NA	\$1,991	NA	NA

Rates include \$6.00 per semester social fee.

Early arrival prior to opening day costs an additional \$20.00 per day.

Dining Services

Dining Services meal plan prices 2012-2013 academic year.

*The prices below are subject to approval by the Board of Regents and may change.

Meal Plan	Autumn/Spring Semester
All Campus	\$2,148.00
Food Zoo Plus	\$1,938.00
Food Zoo	\$1,833.00

Students living in residence halls are required to contract for one of the two meal plans. All meal plans are available to off-campus students, faculty and staff.

Lewis and Clark Village

Rent is \$452.00 per month per person regardless of which size apartment you are assigned to. Each resident will be responsible for their own rent payment. Residents may choose to pay either by the semester or by the month. Rent includes a furnished apartment with all utilities paid including cable TV. You must make your own arrangements for telephone service.

University Villages

Rates subject to change

University Villages housing is available. An application together with \$25 processing fee should be submitted to Residence Life Office, 101 Turner Hall, Missoula, MT 59812. A \$300 deposit will be required when apartment is assigned.

Housing Apartment Rates (monthly)

Apartment Type	University Village Building		
	Craighead and Sisson	Elliot	Toole
	(All Utilities paid)	(Tenant pays Heat & Elec.)	(Tenant pays Heat & Elec.)

Studio	\$567.00	\$361.00	\$454.00
1-Bedroom	\$630.00	\$430.00	\$599.00
2-Bedroom	\$759.00	\$533.00	\$724.00
3-Bedroom	\$852.00	\$593.00	\$819.00
4-Bedroom	\$897.00	None	None

NOTE: These rates are monthly and effective July 1, 2014 through June 30, 2015. All rates include cable TV, water, garbage, and sewer. Tenants are responsible for telephone service and utilities.

Vehicle Registration Fee

All vehicles parking on campus must display current campus vehicle registration between the hours of 7:00 a.m. and 5:00 p.m. Monday through Friday year round. Students, staff or faculty may purchase window or hanger decals for \$185.00 per year. Students have the option of purchasing semester decals for \$92.50. Reserved parking is available on a first come, first serve basis for \$555.00 a year. Car pools of three or more commuting drivers may register for \$10.00 per person for the year.

Motorcycles are issued decals at \$35.00 per year. Day passes (all day parking) for \$3.00 per day may be purchased from the Office of Public Safety or the University Center and are valid in all "A" decal required lots only. Hourly pay parking is available for \$1.00 per hour. The above prices are subject to change pending approval by the Board of Regents.

Partial refunds on decal are available only through the 15th class day. No refunds will be given on motorcycle, car pool or half semester vehicle registrations.

If a vehicle is sold, transferred or destroyed, the parking decal must be removed and returned to the Office of Public Safety for replacement. There is a \$10 replacement fee for all decals lost, stolen or not returned.

More information can be found at the [UM Police parking web page](#).

Other Campus Services

On campus there are other services provided such as the swimming pool, laundry facilities, locker rental, a full service bookstore, prescription pharmacy, testing programs, etc. The rates charged for these services are too varied to present in this publication. If more information is required concerning these services, contact the department providing the service.

Veterans' Benefits for Education Assistance Under Public Law 95-202 and Public Law 815

For Veteran information visit the [UM Veterans website](#).

Financial Aid

Financial aid services are available from two campus locations: the South Avenue location of the Missoula College (MC), and Financial Aid Station located on the second floor of the Lommasson Center Building in Griz Central. Students specific information including the status of the student's aid application is available in [CyberBear](#). General financial aid information including forms, policies and scholarship information is available at the [Financial Aid Office website](#).

Missoula College students:

[Enrollment Services-Financial Aid Office](#)

[Enrollment Services-Financial Aid](#)

Lommasson Center - Griz Central

Missoula, MT 59812-1254

(406)243-5373

Fax (406) 243-4930

Both offices are fully accessible.

Notice: Any policy is subject to change without advance notice if required by federal or state law, Board of Regents, or Enrollment Services-Financial Aid Office.

Acceptance to UM

Students must be accepted for admission (or readmission) to the University in a degree seeking program before financial aid requests are considered. Students accepted into non-degree categories are not eligible for any financial aid.

Presidential Leadership Scholarships

This award is open to incoming freshmen who have demonstrated high academic achievements, leadership and promise for success through their high school experiences. The award is renewable for four years based on meeting eligibility requirements. The application is available from Enrollment Services-Admissions, the Davidson Honors College, and high school counselors in Montana. The application is also available on-line on the [Davidson Honors College website](#). The application deadline is December 31.

Campus-Wide Scholarships

The University offers a campus-wide scholarship program. Students should apply each year as most scholarships are awarded on an annual basis. Students holding a UM General renewable scholarship will have their awards automatically renewed if they continue to meet the eligibility criteria so need not submit an application again in subsequent years..

Requests for applications for continuing UM students, beginning November 1st, may be directed to the Enrollment Services-Financial Aid Office. The application is also located on line on the [Financial Aid Office website](#). The filing deadline is February 1. Students are notified in March.

New, incoming students who have applied for admission to UM by December 31 will be considered for any scholarships that may be applicable. Notification will be done in March.

The Western Undergraduate Exchange (WUE) scholarship may be available for applicants from participating states. Application for a WUE scholarship is accomplished by applying for admissions to UM. Contact Enrollment Services-Admissions for further information.

Departmental Scholarships

Many departments, including the Missoula College, offer scholarships based on skill or academic potential. Students should contact their major departments for deadlines and more information.

Financial Aid Application

All students who wish to receive any federal funds, including federal parent loans, need based or most non-need based assistance, must file the Free Application for Federal Student Aid (FAFSA). The application is available on the [Federal Student Aid \(FAFSA\) website](#). Students whose FAFSAs are received and processed by the Department of Education by February 15, and who complete all other documentation requirements are given priority for limited funds. Those who complete requirements later are considered only for federal loan programs and federal Pell Grants.

Determination of Eligibility

Eligibility for need-based financial aid is determined by subtracting the Expected Family Contribution (as determined from filing the FAFSA), scholarships, and other educational assistance from private or public agencies from the Cost of Attendance.

Financial Aid Package

Packages of need-based aid can include a combination of grants, loans and work-study. Students using the FAFSA automatically apply for all possibilities with one application. The types of aid offered will include federal subsidized and unsubsidized student loans for graduate or undergraduate students and federal Pell Grants for undergraduates if qualified. For those who file the FAFSA early and complete all requirements for additional documentation promptly, additional campus aid will be considered. This aid includes federal and state grants for undergraduate students. Federal Perkins loans and either federal or state work study will be considered for all early filers for both degree-seeking undergraduates and graduate students.

Non-need based aid, in the form of unsubsidized federal loans, for students and parents of dependent students will be considered for those families who file the FAFSA and accept these loans.

Distribution of Aid

All financial aid is awarded by the Enrollment Services-Financial Aid Office and distributed through Business Services, usually by crediting aid to the student's account. Aid is disbursed beginning the week before classes to students who have accepted their aid, submitted all required documents weeks in advance of the date and have finalized their registration in Cyberbear. Loans may be canceled under certain conditions if the student no longer desires the debt. Students who are offered work study must obtain employment and complete additional paperwork at the Enrollment Services-Financial Aid Office. Students who work are paid bi-weekly based on the timecard submitted by students and the supervisors.

Additional Requirements for Loans

In order to meet federal requirements, students who receive a federal student loan at the University of Montana must complete an entrance interview requirement and sign a promissory note before a loan will be disbursed. Instructions for entrance and exit counseling and the promissory notes are available on the Enrollment Services-[Financial Aid Office website](#) for the University of Montana-Missoula. Select the "Loans" link.

Study Abroad and Financial Aid

Students who desire to study abroad and who enroll in courses that are approved by The University of Montana should contact the Enrollment Services-Financial Aid Office. Instructions will be provided for using financial aid with this type of study.

Other Requirements and Guidelines for Retaining Financial Aid

Financial aid for full-time is based on maintaining a minimum of twelve (12) credits each term.

Students enrolled for less than full-time may receive financial aid. Most grants will be pro-rated based on credit load. Loans are not pro-rated but require a minimum of six credits.

Students enrolling for fewer than six credits are not considered for financial aid with two exceptions; (1) undergraduates who are seeking their first degree may be eligible for a reduced federal Pell Grant, and (2) tuition waivers may be available for those who qualify.

Students can only receive aid for credits that are required for their degree programs. If a student chooses to repeat a course for which they previously received a passing grade that course can only be counted toward their aid enrollment status one more time.

Employment

The Enrollment Services-Financial Aid Office coordinates federal and state work study programs. Open positions are posted on the electronic job board located on the [Career Services Student Employment web page](#).

Non-work study student employment positions are also posted electronically at [Career Services Student Employment web page](#).

Satisfactory Progress

Any student receiving financial aid is required to make satisfactory academic progress in a program leading to a degree. Students must maintain a minimum cumulative grade point average (GPA) and complete a minimum of 70% of all credits attempted. The minimum GPA for undergraduate, Law and Pharmacy students is a 2.0. Physical Therapy doctoral students need to maintain at least a 2.5 GPS. Graduate students need to maintain at least a 3.0 GPA.

A student must also be able to complete their degree within 150% of the length of their program measured in credits attempted. For instance, a student pursuing a 120 credit bachelor's degree would need to complete their degree prior to attempting 180 credits.

Complete information is available in the Enrollment Services-Financial Aid Office or at the [Financial Aid Office website](#). Select the "Maintaining eligibility" link.

Short Term Loans

Limited short term loan money may be available to registered students who are eligible and submit complete applications. Among other conditions the student must have pending financial aid that will result in a refund to the student to qualify for the loan.

Tuition Waivers

The Montana Board of Regents has authorized the waiver of tuition for certain categories of students. Applications for any of the tuition waivers listed must be made in writing to the Enrollment Services-Financial Aid Office. The request must be made prior to the start of the semester in which students expect the waiver.

Minimum academic standards are necessary to receive tuition waivers. Other requirements and limitations may apply. Contact the Enrollment Services-Financial Aid Office for application forms or more information.

Montana Veterans Tuition Waiver

- bonafide resident of the State of Montana for fee purposes
- Honorable Discharge
- at one time qualified for veterans benefits under Title 38 of the U.S. Code, but are no longer eligible

- served during a time of war as determined by the Attorney General (World War II, 12-7-41 to 9-2-45; Korean War, 6-22-50 to 1-31-55; Vietnam War, 1-1-64 to 5-7-75; or post-Vietnam world conflicts under certain conditions. Contact the Enrollment Services-Financial Aid Office for further information.)

American Indian Student Tuition Waivers

- resident of the State of Montana for one year immediately prior to enrollment at The University of Montana-Missoula
- documentation proving at least one-quarter degree blood
- meet admissions guidelines of the University
- must have financial need as determined by the Enrollment Services-Financial Aid Office
- meet satisfactory academic progress according to the standards of the Enrollment Services-Financial Aid Office

Senior Citizens Tuition Waiver

- permanent resident of the State of Montana
- 65 years of age or older

University of Montana Employees

- instate resident
- employed at least three-quarter time on the date of registration and for the entire semester
- must be after probationary employment period
- approval from department head & Human Resources every semester

Montana University System Honors Scholarship

- awarded by Board of Regents to top graduating high school seniors in Montana
- student must submit form received from the Regents to The University of Montana Enrollment Services-Financial Aid Office for activation of this waiver

Other

There are several other tuition waivers including war orphans, MUS employees' families, surviving dependents of a Montana National Guard Member, and surviving spouse or children of any Montana firefighter or peace officer killed in the line of duty. Contact the Enrollment Services-Financial Aid Office for details.

Department of Military Science

All students are afforded the opportunity to apply for two, three and four year scholarships provided by Army ROTC. The scholarships pay for all mandatory tuition and fees, a monthly stipend and \$450.00 per semester for books. The monthly stipend for scholarship students is \$300.00 in the freshman year; \$350.00 in the sophomore year; \$450.00 in the junior year and \$500.00 in the senior year.

Additional financial assistance opportunities are provided to students that are interested in joining the U.S. Army Reserve or the Montana State National Guard. These programs are referred to as the Simultaneous Membership Program, since the student is involved in the National Guard or Reserves at the same time they are involved in ROTC. These programs have financial benefits that range from \$15,000 for a two year program to \$50,000 for a four year program. These benefits are very complex and are best understood by stopping in to visit with the Military Science Enrollment Officer.

Students have the opportunity to enroll in both the basic and advance courses offered by the Department of Military Science in the College of Arts and Sciences. The Basic Course is simply the Freshman and sophomore level courses offered by Army ROTC Instructors and no financial benefits are received for enrolling unless the student is on a scholarship. The Advanced Course refers to our junior and senior level courses. All advanced course students

are contracted and receive financial benefits. We welcome student involvement in Land Navigation and Drill and Conditioning courses but no benefits are provided for enrollment in these classes.

Organizations

Alumni Association

The University of Montana Alumni Association, established in 1901 by Eloise Knowles, represents over 85,000 graduates, former students and friends across the world. The mission of the Association, with offices in Brantly Hall, is to "identify and serve the needs of this University, its alumni, students and friends." The Alumni Association sponsors and helps coordinate Homecoming, Charter Day, Distinguished Alumni Awards, Senior Recognition Day, Scholarships, Internships and Commencement Reunions. The Association also co-sponsors with Career Services the Ask-An-Alum program, which connects alumni with currently enrolled students who are exploring career options. Visit the [Alumni website](#) for more information.

Associated Students of the University of Montana (ASUM)

Associated Students of University of Montana (ASUM) Student Government

The Associated Students of University of Montana is the representative body for students to voice their comments and concerns, create new programs, volunteer on committees and fund student groups on campus. As the voice for UM students, the ASUM Senate meets weekly to discuss important topics affecting students. ASUM offers a great many services to students that have paid the student activity fee. For more information, please contact ASUM at 243-2451, the [ASUM website](#), or stop by the ASUM office at UC 105.

ASUM Child Care Preschool and Family Resources

The ASUM Childcare Preschool and Family Resources operates five Child Care and early education centers. Child Care is available to students, faculty and staff. The centers are open for children 18 months --6 years. The program provides referrals to private residences providing child care for children ages new born to 12 year as well as a variety of family resources. For more information, please contact us at 243-2542, the [ASUM Child Care Preschool and Family Resources](#) website, or stop by the Child Care office at UC 119.

ASUM Legal Services

ASUM Legal Services provide limited, low-cost legal services to activity fee paying students at The University of Montana/COT. For more information, please contact us at 243-6213, the [ASUM Legal Services](#) website, or stop by ASUM Legal at UC 112.

ASUM Off-Campus Renter Center

The Renter Center provides counseling for student renters experiencing issues with their landlord, encourages positive neighborhood relationships, assists students with finding housing, and advocates for renters. Additionally, the agency maintains the Off-Campus Housing Finder located on the agency website. For more information, please contact us at 243-2017, the [ASUM Off-Campus Renter Center](#) website, or stop by the Off-Campus Renter Center at UC 105.

ASUM Transportation

Getting to campus and finding a parking place can be challenging, so why not explore other ways of commuting. The ASUM Office of Transportation has 3 different park n ride shuttles and one late night bus. Service from south/Higgins area is every 5-10 minutes; service from E. Broadway is every 10 minutes and from the Missoula College is every 15-20 minutes. You can park free and take the shuttle free. It gets you close to your destination on campus – closer than if you drive and park. Service starts at 7:25 each day and ends between 6:20 and 7:05 depending on which shuttle you take. Schedules are on line on the [ASUM Transportation](#) website or are available at many places on campus or on the bus. The late night bus runs from 7:05 p.m. until 2:30 a.m. on Thursday, Friday and Saturday and until midnight on Monday, Tuesday and Wednesday.

More options for hassle-free commuting are Mountain Line (free with your Griz card), 2 bike check out programs, or interest free bike loans.

Stop by UC 114 for more information.

KBGA Radio

KBGA College Radio, 89.9 FM, is the student-run, college radio station for The University of Montana. Also available streaming online on the [KBGA Radio](#) website, we provide a diverse format of music and talk programming 24 hours a day. We are a non-commercial, educational station, so everyone is welcome to become a DJ. For more information, please contact us at 243-6759, the [KBGA Radio](#) website, or stop by the KBGA office at UC 208.

Montana Kaimin

The Montana Kaimin is the University's student-run newspaper. Published since 1899, it has worked hard to serve, entertain and inform students with issues that are important to them. Publication begins the first week of school and is printed Tuesday – Friday during fall and spring semesters. Check us out on our website for more information and past editions. For more information, please contact us at 243-6646, at the [Montana Kaimin](#) website, or stop by the Kaimin's office at the Don Anderson Hall 207.

UM Productions

UM Productions is a student-run/student-funded organization whose goal is to bring quality events to The University of Montana and the Missoula community. UM Productions strives to provide students with hands-on experiences and employment opportunities and bring concerts and events that are focused on diversity with a strong dedication to the arts. Check out our website for upcoming events and job opportunities. For more information please contact us at 243-4981, on the [UM Productions](#) website, or stop by the office at UC 104.

Student Political Action Office

The Student Political Action office is a resource for students who have a desire to participate in the political process at the local, state and federal levels. Through a student committee, the SPA office works with students through a committee to represent student interests by working with City Council, the State Legislature and the Montana Delegation. For more information, please contact us at 243-2451, the [Student Political Action Committee website](#), or stop by the ASUM office UC 105.

ASUM Student Resolution Officer

The Student Resolution Officer is your representative for handling student complaints against a faculty member or university administrator that cannot be resolved informally. The Student Resolution Office advocates for students in a three-step dispute resolution process. For more information, please contact the Resolution Officer at 243-5431, the [ASUM Student Resolution Officer](#) website, or stop by the ASUM office at UC 105.

ASUM Student Clubs and Organizations

ASUM recognizes and offers funding for over 200 student organizations and special interest clubs. Find out about a student group that interests you and the many benefits student groups receive by checking out the [ASUM website](#) or stopping by the ASUM office at UC 105.

Fraternities and Sororities

The Greek Community of The University of Montana provides a comprehensive educational, social, and living experience for members through the promotion of friendship, leadership, personal development, academics, and services to the University and the Missoula community. The Greek members donate their time and support to over 50 recognized philanthropies. Additionally, they involve themselves in a wide variety of campus leadership organizations, such as Residence Life Staff, PRO's, ASUM Senate, Advocates, Peer Advising, and Mortar Board.

The Greek system has six (6) national fraternities (Sigma Alpha Epsilon, Sigma Chi, Sigma Nu, Kappa Sigma and Sigma Phi Epsilon) and four national sororities (Alpha Phi, Delta Gamma, Kappa Alpha Theta and Kappa Kappa Gamma). Information about Greeks can be obtained in the Office of Greek Life (UC 209B), or by visiting the [greek life website](#), or calling 243-2005.

Peace Corps

Peace Corps service is a life-defining leadership experience. The Peace Corps is a 27-month commitment during which volunteers provide technical assistance in six program areas: education, agriculture, environment, health, youth and community development, business and information and communications technology. Peace Corps volunteers live, learn, and work with a community in one of more than 70 countries overseas.

The Peace Corps Office provides support to students and community members interested in pursuing service with the United States Peace Corps. During walk-in hours and scheduled appointments, Returned Peace Corps

Volunteers provide guidance about the application process, as well answer questions about their first-hand experiences living, learning and working with a community overseas. In addition, Peace Corps staff table on-campus and in the community, visit classrooms, and host information sessions, application workshops, and Returned Peace Corps Volunteer panels. For additional information, please visit the Peace Corps Campus Representative at 154 Lommasson Center, call (406) 243-2839, e-mail: peacecorps@umontana.edu or visit the [Peace Corps website](#).

Services

Community Services

Bureau of Business and Economic Research

The Bureau of Business and Economic Research has been providing information about Montana's state and local economies for over 60 years and is proud to be the most comprehensive economic analysis center in the state. House on the campus of The University of Montana-Missoula, the Bureau is the research and public service branch of the School of Business Administration. On an ongoing basis, the Bureau:

- analyzes local, state, and national economies
- provides annual income, employment and population forecasts
- conducts extensive research on forest products, manufacturing, health care and Montana Kids Count
- designs and conducts comprehensive survey research at its on-site call center
- presents annual economic outlook seminars in cities throughout Montana
- publishes the award-winning Montana Business Quarterly

Montana Cooperative Wildlife Research Unit

The Unit investigates basic and applied problems in wildlife ecology and management. Graduate students majoring in Wildlife Biology or Biological Sciences, conduct much of the research supported through the Unit by USGS-Biological Resources Division, Montana Fish, Wildlife and Parks, and numerous other agencies and groups.

Montana Campus Compact

The University of Montana is a member in good standing of The Montana Campus Compact. MTCC is a statewide coalition of college presidents and chancellors committed to renewing the public purposes of higher education by promoting campus-community collaborations and civic engagement activities. Since 1993, these campus leaders have represented two-and four-year, public, private, religiously affiliated, community, and tribal colleges across Montana. MTCC supports and encourages activities such as volunteering, community service, and service-learning through its programs, which include:

- MTCC Campus Corps
- Service-Learning Workshops and Faculty Development
- MTCC VISTA Project
- Compact Service Corps
- Montana Athletes in Service Award
- Careers in the Common Good Scholarships

For more information regarding MTCC member benefits and services, please contact the MTCC headquarters office at (406) 243-5177 or online at the [Montana Campus Compact website](#). For MTCC services at UM, please contact the Office for Civic Engagement at (406) 243-5531 or see their listing under The Office For Civic Engagement.

The Office for Civic Engagement

The Office for Civic Engagement (OCE) is honored to serve as The University of Montana's primary agent of community activism and civic responsibility. It is our mission to challenge and improve lives with an ethic of service and community investment. We accomplish this by building partnerships that strengthen both the university community and a variety of nonprofit interests; empowering individuals and organizations to enhance capacity for strategic growth, program exposure, skill development and collaborations; and, enhancing professional, academic, and personal experiences through volunteerism and service learning. The OCE is a unit of the Davidson Honors College and operates as an affiliate of the statewide Montana Campus Compact (MTCC) organization (see separate listing). The OCE is located in the Davidson Honors College, room 015, (406) 243-5531 or the [Office for Civic Engagement website](#).

OCE Programs:

- Student Volunteer Programs - Throughout the school year, OCE coordinates several community service programs for students to get actively involved in the community including Service Saturdays, K-12 Tutor Programs, Alternative Breaks, Adopt-A-Family and more.
- AmeriCorps & AmeriCorps* VISTA - The OCE provides students with the opportunity to engage in national service while attending the University.
- Nonprofit Administration Programs - The OCE facilitates the Minor in Nonprofit Administration and the Nonprofit Leadership Alliance national certificate program in nonprofit administration. Both are degree enhancement programs designed to assist students to achieve skills and abilities in preparation for careers in the nonprofit sector. The OCE also coordinates the Online Professional Certificate Program in Nonprofit Administration, a series of short courses designed for busy professionals who want to hone their skills in specific areas such as grant writing, financial management and fund raising.
- Service Learning - Service learning is an innovative method of teaching and learning in which students, faculty and community partners work together to enhance student learning by applying academic knowledge in a community-based setting. The OCE works with faculty and departments to create meaningful service learning partnerships with community organizations and attain service learning designation status for their courses. Students can search for these courses using the service learning attribute in CyberBear

Nonprofit Leadership Alliance

The University of Montana is an affiliate of the national Nonprofit Leadership Alliance (NLA). The NLA program at UM is designed to be a degree enhancement certification program that complements a student's major. The program provides students with academic and extra-curricular opportunities to gain skills and abilities in preparation for professional careers in the nonprofit sector. All Nonprofit Leadership Alliance students acquire knowledge and skills in general nonprofit management, fund-raising principles and practices, board committee development, program planning, and grant writing. Upon completion of the NLA requirements, students receive the Certified Nonprofit Professional credential. The Office for Civic Engagement operates the Nonprofit Leadership Alliance

program in addition to the minor in non-profit administration. For more information contact (406) 243-5159 or browse the [Nonprofit Leadership Alliance website](#).

Facilities

Information Technology

Information Technology (IT) is a campus service organization that provides computing and communication resources in support of the instructional, research, administrative, and public service activities of The University of Montana. IT maintains and operates complex information systems to support the University's administrative activities and offers a variety of technology support services to assist the University in using the resources and services that IT is responsible for providing. The IT organization consists of the following areas: Campus Computing, Network, Directory and Telecommunication Services, Enterprise Information Systems, and Technology Support Services.

IT Technology Support Services serves as the user interface for the IT organization and includes: IT Central, the designated initial point of contact for all user issues; three general access student computer labs; numerous free, non-credit short courses for faculty, staff, and students; multimedia classroom support and audio visual equipment rentals; and support of The University of Montana's public web presence.

Additional information about IT services and facilities may be obtained at the [IT website](#) or by contacting IT Central at 243-HELP (x4357).

Montana Forest and Conservation Experiment Station

The Montana Forest and Conservation Experiment Station was established by the Montana Legislature in 1937 and is devoted to scientific investigation of natural resource problems. The station serves as a research unit of The Montana University System with the Dean of the College of Forestry and Conservation functioning as station director. The station seeks, through its research; demonstration; and outreach, to enhance public understanding of forestry and conservation and to contribute to responsible management of Montana's natural resources.

The Shafizadeh Rocky Mountain Center for Wood and Carbohydrate Chemistry

The Center is a research facility in the Department of Chemistry and Biochemistry specializing in development of new chemical products from carbohydrates (monosaccharides to polysaccharide) found in grains and wood.

Targeted applications include consumer products and environmentally-safe industrial products such as biodegradable synthetic polymers, pharmaceutical components, and materials for industrial processing.

Stella Duncan Memorial Research Institute

The Institute was created initially by a bequest from an alumna of the University; her original interest was in the causes and treatment of bronchial asthma. Asthma is intimately associated with immune response, which involves Somatic Hypermutation. Our work focuses on the *in vivo* mechanism of mutagenesis associated with Somatic Hypermutation, in the tumor suppressor gene *p53*, responsible for about half of human cancers, and in other mutable systems. We have recently published a manuscript on this mechanism in the journal, *Carcinogenesis*. Our basic research in this area has led to a deeper understanding of the immune response, which could open the way for new treatments that counteract or modify hypersensitive responses occurring in allergic asthma.

Institute for Tourism and Recreation Research

The Institute was created by the Montana University System Board of Regents in June 1987 to conduct the travel research authorized by the 1987 Legislature. The Institute is the research arm for Montana's travel and recreation industry; its mission is to conduct research that will strengthen the travel component of the state's economy.

Wilderness Institute

The Institute seeks to encourage and support teaching, research and outreach programs focusing on wilderness. The Institute administers the Wilderness and Civilization program of interdisciplinary undergraduate education, a program leading to the Wilderness Studies minor (see the School of Forestry).

Privacy and Release of Student Education Records (FERPA)

University of Montana Privacy and Release of Student Education Records

The Family Educational Rights and Privacy Act of 1974 (FERPA), as amended, and Montana law, set forth requirements designed to protect the privacy of student educational records. These laws govern access to records maintained by the Montana University System (MUS) and the release of information from those records. A notice to students that explains the rights of students with respect to records maintained by the University of Montana (UM) is provided yearly via the UM Catalog, as well at the beginning of each semester via students' official campus email addresses. It also outlines UM's procedures adopted to comply with these legal requirements. Copies of these laws, including the implementing Federal Regulations pursuant to FERPA, and this notice are available for persons to examine in the Registrar's Office, Emma Lommasson Center, Room 201, 32 Campus Drive, Missoula, MT 59812.

****See 3 January 2012 special notice from the U.S. Department of Education at the bottom of this page.***

Definitions

I. Education Record

A. The meaning of "education record" is, with certain exemptions as listed below, those records, files, documents, and other materials which contain information directly related to a student, and are maintained by any UM employee or agent. The following categories of information are exempted and are not considered to be "education records:"

- a. Records made by UM personnel which are in the sole possession of the maker and are not accessible or revealed to any other person.
- b. Records maintained by the Office of Public Safety for law enforcement purposes.
- c. Medical and counseling records used solely for treatment.
- d. Records only related to a former student (alumni records). Records of that individual while a student continue to be considered education records.

B. All records pertaining to students which are maintained by UM offices are official UM records, and as such, remain UM property.

C. The UM Registrar's Office maintains a record of requests and disclosures of student record information except when the request is from the student whose records are requested, a UM official with a legitimate educational interest, someone requesting directory information, or related to a request from a third party with prior student consent to release the requested information. Students have the right to review this record of requests and disclosures of student record information.

II. Policy Details

Right to Inspect and Review

Students have the right to inspect and review all of their education records, except the following:

1. Financial records of parents.
2. Confidential letters and statements of recommendation placed in education records prior to January 1, 1975.
3. Confidential letters and statements of recommendations for admission, employment, or honorary recognition placed in education records after January 1, 1975, for which students have waived their right of access.

Waiver of Rights of Access

Students may waive their right of access to confidential letters and statements of recommendation. Even if a student signs a waiver, upon request, the names of all persons making confidential recommendations will be made available to the student. UM employees or agents may not require a student to waive right of access for receipt of UM benefits or services.

Procedures for Inspection and Review

- A. Requests to review records must be made separately, in writing, to each office maintaining records. That office has 45 days to respond to requests to review and inspect. However, arrangements to grant such requests will be made as expeditiously as possible.
- B. Information contained in education records will be fully explained and interpreted to students by university personnel assigned to, and designated by, the appropriate office.
- C. Students have the right to review only their own records. When a record contains information about more than one student, disclosure cannot include information regarding any other student.

Right to Challenge Information in Records

- A. Students have a right to challenge the content of their education records if they consider the information contained therein to be inaccurate, misleading, or inappropriate.
- B. This process includes an opportunity for amendment of the records or insertion of written explanations by the student into such records.
- C. The right to challenge does not apply to grades unless the grade assigned was inaccurately recorded, under which condition the record will be corrected.

Procedures for Hearing to Challenge Records

- A. Students challenging information in their records must submit, in writing, a request for a hearing to the appropriate office maintaining the record, listing the specific information in question and the reasons for the challenge.
- B. Hearings will be conducted by a university official with no interest in the outcome of the hearing.

- C. Students shall be afforded a full and fair opportunity to present evidence relevant to the reasons for the challenge, as referenced in Section IV above.
- D. The hearing officer will render a decision, in writing, noting the reason and summarizing all evidence presented within a reasonable period of time after the challenge is filed.
- E. Should the hearing decision favor the student, the record will be amended accordingly. Should the request be denied, an appeal may be made, in writing, and submitted to the UM Registrar within 10 days of the student's notification of the decision of the hearing officer. The appeal shall be heard by an Appeals Board of three disinterested senior university officials and a decision rendered, in writing, within a reasonable period of time.
- F. Should the appeal decision favor the student, the record shall be amended accordingly. Should the request be denied, the student may choose to place a statement with the record commenting on the accuracy of the information in the record and/or setting forth any basis for inaccuracy. When disclosed to an authorized party, the record will always include the student's statement and notice of the Board's decision, as long as the student's record is maintained by UM.

Consent for Release Required

Consent must be obtained from a student for the release of information from education records, specifying what is to be released, the reasons for release, and to whom, with a copy of the record sent to the student if he or she desires.

Release Without Consent

A. The requirement for consent does not apply to the following:

1. Requests from UM faculty, staff and agents who have a legitimate education interest on a "need to know" basis, including UM student employees, if necessary to conduct official business as authorized by the Registrar. Legitimate educational interest includes performing a task related to the regular duties of the employee or agent, the student's education, the discipline of a student, a service or benefit for the student, or maintaining safety and security of the campus.
2. Requests in compliance with a lawful subpoena or judicial order.
3. Requests in connection with a student's application for or receipt of financial aid.
4. Requests by state authorities and agencies specifically exempted from the prior consent requirements to the extent permitted by law --organizations conducting studies on behalf of UM, if such studies do not permit the personal identification of students to any persons other than to representatives of such organizations and if the personal identification data is destroyed when no longer needed. **See additional information at the bottom of this page.*
5. Information submitted to accrediting organizations.
6. In the case of emergencies, UM may release information from education records to appropriate persons in connection with an emergency, if the knowledge of such information is necessary to protect the health or safety of a student or other persons.
7. To authorized federal officials who have need to audit and evaluate federally-supported programs. **See additional information at the bottom of this page.*
8. To the extent otherwise permitted by law, the results of any disciplinary proceeding conducted by UM against an alleged perpetrator of a crime of violence to the alleged victim of that crime.
9. Requests for directory information (see item VIII).

B. UM reserves the right to verify the accuracy of any information contained in what purports to be an official university document (e.g. a transcript or diploma) or is provided to a third party. In addition, degrees (any honors,

majors, minors and specializations) are treated as directory information as noted in VIII below, since they are conferred in a public ceremony.

Directory Information

A. UM has designated the following information about students as public (directory) information, which may be released to the public subject to B below:

1. Student name
2. Addresses (including campus e-mail address)
3. Telephone number
4. Major field of study
5. Dates of attendance
6. Full-Time/Part-Time Status
7. Date of graduation and degree(s) received
8. School or College
9. Major(s)
10. Class
11. Academic awards or honors
12. Student photograph and video images
13. Electronic Personal Identifier (e.g. NETID)
14. Any other UM student records information students have publicly disclosed about themselves regarding their University of Montana educational activities.

B. Students have the right to have the above directory information withheld from the public if they so desire. Each student who wants all directory information to be withheld (including items to be published in the Student Directory) shall so indicate by completing a *UM Confidentiality Request Form* which can be obtained from the **Registrar's Office website**. At least three days should be allowed for processing.

C. UM receives many inquiries for directory information from a variety of sources, including friends, parents, relatives, prospective employers, other institutions of higher education, honor societies, licensing agencies, government agencies, and the news media. Each student is advised to carefully consider the consequences of a decision to withhold directory information. UM, in all good faith, will not release directory information requested to be withheld, and any requests from persons or organizations outside UM will be refused unless the student provides written consent for the release.

D. UM publishes certain student directory information on the web via the UM Online Directory. This public information contains name, email address, and phone number., A student must notify the Registrar's Office pursuant to VIII B above to keep directory information from being made public.

Complaints, Concerns or Suggestions

Students who believe that the institution has not fully honored their privacy rights under FERPA may file a written complaint with the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave. SW, Washington, DC 20202-4605. The Family Policy Compliance Office investigates each timely complaint to determine whether the educational agency or institution has failed to comply with the provisions of FERPA. A timely complaint is defined as an allegation that is submitted within 180 days of the date of the alleged violation or of the date that the complainant knew or reasonably should have known of the alleged violation.

III. Procedure

Type, Location, and Custodian of Student Records

UM does not maintain education records in one central office. Education records are maintained in the respective colleges and schools (including placement offices as applicable), the Graduate School, and the Registrar's Office. Other education records are maintained in the Enrollment Services Office (Admissions) (for newly enrolled students until the sixth week of attendance -- applicants are excluded), Office of The Vice-President for Student Affairs (disciplinary records), Financial Aid Office (financial and related information, student employment), Athletic Department (intercollegiate sports), International Students Office, Office of the Provost/Vice-President for Academic Affairs (academic misconduct) and other offices. Questions regarding individual student records may be addressed to either the UM Registrar or the appropriate office.

Resources

U.S. Department of Education, 1-800-872-5327

[U.S. Department of Education website](#)

Montana Code Annotated (MCA) Title 20, Chapter 25, Part 5.

*FERPA Annual Notice to Reflect Possible Federal and State Data Collection and Use

As of January 3, 2012, the U.S. Department of Education's FERPA regulations expand the circumstances under which your education records and personally identifiable information (PII) contained in such records — including your Social Security Number, grades, or other private information — may be accessed without your consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities ("Federal and State Authorities") may allow access to your records and PII without your consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is "principally engaged in the provision of education," such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records and PII without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

Student Rights

Public Safety Report and Alcohol and Drug Guidelines

The health and safety of students, faculty, staff, and visitors are of paramount concern to The University of Montana. Each year the University publishes an annual report outlining on-campus security and safety information and crime

statistics. The report provides important information for security awareness and crime prevention programs, emergency procedures and reporting crimes, plus law enforcement and safety services on campus. Additionally, the booklet contains the University's policy on sexual assault and information about support services for victims of sexual assault. The booklet also includes information about the University's drug and alcohol policy, programs and support services for substance abuse, and risk management guidelines for University-related events. The booklet is available by writing or calling the Office of Public Safety (406) 342-6131 or the Office of the Vice President for Student Affairs (406) 243-5225, The University of Montana, Missoula, MT 59812. The information can also be accessed on the University of Montana [Student Affairs website](#) and the [University of Montana Public Safety website](#).

Student Complaint Procedures

Under the terms of the Collective Bargaining Agreement between The University of Montana University Faculty Association and The Montana University System, there is a formal procedure for students who have a complaint against a faculty member or an administrator. Information about this procedure is available at [Vice President for Student Affairs student grievance procedure section, PDF](#), on page 113 under 21.000. The ASUM Student Resolution Officer is available to answer questions about procedures and to assist with the process. Time restrictions are important, so students should review procedures immediately if they feel they may have complaints. The Resolution Officer receives voice mail at 243-5431 or email at asum.resolutionoff@mso.umt.edu.

Student Services

Housing and Dining Services

Residence Halls Community

The University of Montana-Missoula residence halls' community is a part of the University and Missoula communities. The campus is a center for educational, cultural, and social activities. Residing in residence halls places the student at the center of these activities. Our mission is to provide safe, clean, healthy and affordable living and learning facilities that fosters an inclusive community living environment for students, staff, faculty, and guests. Services provided in these facilities support and nurture educational experiences and personal development at The University of Montana. The University houses nearly 2300 students in nine residence halls on campus. The residence halls staff are resource people. Sharing ideas, observations or questions with them will benefit residents. Resident Assistants offer help and resources when students experience problems with University life. The residence hall room rate includes a furnished room with all utilities, use of laundry facilities, Internet access and cable TV.

The University of Montana-Missoula requires all freshmen and students who have earned fewer than 30 semester credits to reside in the University's residence halls. Students are required to continue residence hall living until the student earns 30 semester credits. Any student who moves into the residence halls at the beginning of the semester is required to reside in the residence hall for the entire semester. (However, students must be enrolled for at least seven credits to be eligible to live in a residence hall.) Exceptions to residence hall living are made for students who reside with their parents and for students who are married or are single parents. Other exceptions are made under special circumstances on an individual basis. Any student requesting an exception to the residency requirements must submit a request in writing, accompanied by supporting documentation, to the Director of Residence Life.

Students are not released from the residency requirements until the student receives an official notification from the Director of Residence Life. Students who have earned 30 semester credits or more are not subject to the residency requirements but are encouraged to live on campus. All students living in the residence halls are required to contract for one of the on-campus meal plans.

Rooms in residence halls are provided in order of application. Freshman students required to live in Residence Halls who submit their residence hall application and \$220.00, which is a \$25 non-refundable processing fee and a \$200 prepayment, by the priority Admission deadline of March 1, will be guaranteed permanent housing assignments.

Application forms and information may be obtained on the [Residence Life Office website](#).

A number of rooms have been designed to accommodate students with disabilities. Application for these rooms is made to the Residence Life Office. The Director of Residence Life or the Office of Disability Services for Students, (406) 243-2243, should be contacted to ensure the necessary accommodations are provided or visit the [Residence Life Office website](#).

Lewis and Clark Village

(Upperclass and Graduate Housing)

Lewis and Clark is a No-Smoking apartment facility designated for single students at the University of Montana without dependents who will have accumulated at least 60 credit hours by the time they move into the apartments. The apartments are located off campus just south of Dornblaser Stadium on South Higgins Avenue. They are within easy walking or biking distance from the University and are adjacent to Park n' Ride which provides free and easy transportation to the UM campus. The apartments are furnished with all utilities paid including cable TV and Internet access.

Prospective tenants may submit applications together with a requested roommate(s). If a tenant does not have a roommate preference, the Residence Life Office will assign roommates based on like gender. As space allows we will attempt to take into consideration other preference such as age, smoking, alcohol consumption, and length of agreement.

How To Apply for Lewis and Clark Village

Applications are available on the [Residence Life Office website](#), or by calling in a request to the Residence Life Office at 406-243-2611, or sending an email message to housing@mso.umt.edu. Your application must be accompanied by \$320.00, (\$25 which is a non-refundable processing fee and a damage deposit of \$300.00).

A complete set of policies, photos and site map are available on the [Residence Life Office website](#).

Dining Services

Winner of 22 international dining awards and home to nationally renowned chefs, University Dining Services (UDS) is dedicated to bringing you a variety of delicious, well-balanced meals at reasonable prices. Our extensive selection of dining options include: the Food Zoo, the Cascade Country Store, La Peak, Biz Buzz, Think Tank, Recess, Doc's Sandwiches, Garden City Greens, Soups N Such, Pizza Hut, Wing Street, Famous Dave's BBQ, Ui-Cha!

(Vietnamese), Byte Me Burgers, Eson Gib Sushi, Casa Nina and two Jus Chilln' restaurants. All University Dining Services and Jus Chilln' locations accept cash, checks, Visa/Mastercard, UMoney and appropriate meal plans.

The Food Zoo, located in the Lommasson Center, is our buffet style restaurant which features an ever-changing choice of entrees, homemade soups, an extensive salad bar, daily pastas and gourmet pizzas, fresh fruits, Bear Claw Bakery desserts, cooked-to-order specials, and vegetarian and vegan options.

The Cascade Country Store, located at the west end of the Lommasson Center, boasts a bright, food-court style atmosphere with pizzas, Mexican specialties, grilled favorites and a fresh deli. Soups, salads, Bear Claw Bakery pastries, a wide variety of grocery items, organic products, and health and beauty aids are just some of the options available. The expansive outside deck is a popular stop for many students.

La Peak, located in the Cascade Country Store, features Craven's gourmet coffee and espresso drinks, fresh crepes, breakfast sandwiches and Bear Claw Bakery goodies. The lodge-like atmosphere makes La Peak a great place to socialize with friends.

The University Center Food Court, located on the second floor of the University Center, features a contemporary, open atmosphere, and exceptional cuisine. Food choices include Pizza Hut, Garden City Greens, Soups N Such, Ui-Cha! (Vietnamese), Wing Street, Famous Dave's BBQ, Doc's Sandwiches, Eson Gib Sushi and the award winning Casa Nina.

Biz Buzz, located on the lower level of the Gallagher Business Building can help you jump start your day with a fresh cup of Craven's coffee, espresso, or Chai tea. They also serve delicious hot paninis, fresh baked pastries from Bear Claw Bakery, bagels, sandwiches, soups and salads.

The Think Tank, located above the Urey Lecture Hall, offers Liquid Planet gourmet coffee, espresso, Chai tea, Italian soda, ice-cold beverages, and grab and go items like sandwiches, soups, salads, and snacks. Whether you need that morning boost or a lunch on the go, the Think Tank has you covered.

Recess is our newest coffee shop. Located in the Phyllis J. Washington Education Building, Recess offers Liquid Planet gourmet coffee and espresso, Chai teas, bagels, Bear Claw Bakery pastries, sandwiches and Italian sodas. For a satisfying break between classes, stop by Recess.

There are two Jus Chilln' locations on the main campus. One is located on the first floor of the University Center. The other can be found at the Fitness & Recreation. Both restaurants feature Liquid Planet gourmet coffees, smoothies, baked goods and grab and go items. Enjoy delicious soups and sandwiches at the UC location.

Meal Plans

To ensure you have healthy and nutritious food options, The University of Montana requires students living in a residence hall to purchase a meal plan. A meal plan is a pre-paid purchase of meals for the entire semester. UM Dining Services offers two meal plans designed for students living on campus: the ALL CAMPUS and the LOMMASSON PLUS. Each plan provides a Weekly Meal Plan Fund designed to ensure that meals can be purchased for the entire semester. Food purchases are deducted from your Weekly Meal Plan Fund and may be used as quickly or as modestly as you choose. Weekly Meal Plan Funds reset every Sunday morning; unused Weekly Meal Plan Funds are NOT carried forward from one week to the next. For full details, visit the [UM Dining Services website](#) and click on "Meal Plans" or call 406-243-6325. The ALL CAMPUS Meal Plan provides campus-wide dining flexibility and is accepted at all Dining Services locations. The LOMMASSON PLUS Meal Plan is accepted at the Lommasson Center restaurants (*The Food Zoo, Cascade Country Store*), La Peak, and Jus' Chill'n located in the Campus Fitness and Recreation Center.

A student may convert their meal plan from ALL CAMPUS to the LOMMASSON PLUS Meal Plan only once during the first two weeks of the semester. Upgrades, from the LOMMASSON PLUS Meal Plan to the ALL CAMPUS Meal Plan, are accepted throughout the semester.

The COMMUTER MEAL PLAN is designed for students living off the main campus who want the convenience of pre-purchased campus dining. Open your COMMUTER MEAL PLAN account with as little as \$20.00. For deposits of \$50.00 or more UDS will add a 10% premium to your account. COMMUTER MEAL PLAN funds may be used at any of UDS' 14 restaurants, both Jus Chill'n locations on the main campus and the College of Technology snack

bars. Make additional deposits anytime (\$20 minimum). Payment methods include cash, check, credit card UMoney and Cyberbear/student account (some restrictions apply, call 406-243-6325 for details).

For more information on meal plans and other special dining services, please contact the University Dining Services main office at (406)243-6325 or visit the [UM Dining Services website](#).

University Village

The University has 566 apartments for married students, single students with dependents, and students with disabilities who have a live-in care attendant. All apartments are within walking distance of the campus. Units range from studio to four-bedroom apartments.

Eligibility for University Village requires at least one adult member of the household be enrolled for a minimum of seven (7) credits two of the three semesters per year. The student must be registered for at least seven (7) credits the first semester of occupancy. Priority is given to students who are married or otherwise have a legal dependent relationship with another adult; single parents with at least one (1) legal dependent living in the apartment; and single students with disabilities who require a live-in care attendant. Single students may be assigned apartments if other priority applicants do not occupy all available units.

Students residing in University Village must demonstrate satisfactory progress toward an educational degree by earning a minimum sixteen (16) credits per calendar year. After the initial year of residency, satisfactory progress is based upon credits earned during the preceding calendar year. In addition, a student or family with one or more members working toward an educational degree will have priority occupancy for a maximum of six (6) calendar years. Any exception from the above residency policies requires a written request for exception submitted to the University Village Office. The request is not approved until written consent is received from the University Village Office.

Housing is assigned according to the date of application and notification is given approximately twenty (20) days before housing becomes available. All applications must be updated every six (6) months in order for applicants to remain on the assignment list. A \$250.00 deposit must be submitted when an apartment is assigned. The deposit is refundable when the rental agreement is terminated provided the apartment rental fees are current and no damage or cleaning fees are assessed. The deposit is forfeited if the student cancels after accepting the assigned apartment.

Due to the demand for University Village housing, the University Village Housing Office should be contacted early to make reservations and obtain detailed information including an application or visit our website at the [Residence Life Office website](#). Applications must be accompanied by a \$25.00 processing fee.

Personal Property

The University of Montana-Missoula is not responsible, by state law, for damage to, or theft of, the personal property of students on campus (for example: damage to clothing or a stereo due to fire, smoke or water). Students are encouraged to adequately insure their personal property and to protect their property by locking their room/apartment and car and taking other simple precautions to prevent theft and damage.

Career Services

The Office of Career Services assists prospective, current and alumni students in developing viable career objectives, choosing academic majors and creating the plans necessary to achieve those goals. Assistance is also provided to students who wish to modify their career and academic goals to improve their employment options. Career Services provides a wide array of services designed to facilitate the transition from education to employment,

including: career counseling and assessments; workshops on resume writing, interviewing and job search strategies; taped mock interviews; on-campus interviews with employers; Griz eRecruiting, UM's on-line recruitment system; and student employment.

Career Services maintains an extensive on-line library of current resources on general and specific career and educational options, resume, interviewing and job search reference materials and employment resources.

A variety of employment and career fairs are hosted each year to bring students and employers together to discuss volunteer, internship, research, part-time and full-time employment opportunities. The Student Employment Fair, Big Sky Career and Academic Enrichment Fair and Health Professions Fair are held each Fall semester. The Educators' Career Fair is open to teaching, administrative, school counseling, speech language pathology, and school psychology professionals and is held each spring semester.

All UM students are eligible to establish a free Griz eRecruiting account which allows students to post their resumes on the web for viewing by and referral to employers, participate in the on-campus recruiting program and view and apply for current job and internship vacancies in the online jobs database.

For additional information, contact the Office of Career Services at 154 Lommasson Center, call (406) 243-2022, e-mail: careers@umontana.edu or visit the [UM Career Services website](#).

Student Employment

Student Employment is an online job posting system for employers and online job search and application process for students. This makes it possible to post jobs for on-and off-campus, work-study, non-work-study, and volunteer employment. Student Employment works closely with Financial Aid and Student Payroll to assure students are being hired and paid within the established guidelines. Student Employment hosts a free Student Employment Fair during the first week of classes every fall. We also coordinate National Student Employment Week and the Student Employee of the Year (SEOTY) Award.

For additional information, contact the office of Student Employment at 154 Lommasson Center, call (406) 243-2239, email studentjobs@umontana.edu or visit the [UM Griz eRecruiting Student Job web page](#).

Testing Services

The Office of Testing Services is a member of the National College Testing Association and Consortium of College Testing Centers. Testing Services subscribes to the NCTA professional standards and guidelines providing the administration of educational, professional licensing and certification exams. Examples of our services include:

- National standardized academic admissions exams (ACT, GRE, GMAT, MCAT, LSAT, PCAT, MAT, TOEFL, etc.)
- Professional certification exams (PRAXIS, NREMT, PTCE, DANB, MPRE, ACSM, ACE, Microsoft Office, etc.)
- Information technology certifications (CompTIA, Adobe, Cisco, Novell, etc.)
- College credit by examination through CLEP and DSST
- Proctoring services for UM students, online, and distance learning programs

For additional information, contact Testing Services at Lommasson Center, Suite 154, call (406) 243-2175, or testingservices@umontana.edu, or the [UM Testing Services website](#).

Internship Services

The University of Montana offers internships in most disciplines. Internships can be part- or full-time, paid or unpaid, and generally run the length of an academic semester. Internships are supervised by key faculty members and allow students to work in positions related to their academic and career goals while utilizing knowledge, theory, and skills learned in the classroom. Learning objectives complemented by faculty-assigned reflective learning projects or reports distinguish and showcase internships as essential educational experiences. Internships are available locally, state-wide, and throughout the nation in various settings, including non-profit agencies, small businesses, multi-national corporations, and city, state, and federal government offices. International internships are also available, many through a partnership with IE3 Global Internships. More detailed information is available at Internship Services, Lommasson Center 154; (406) 243-2815; fax (406)243-5866; or visit the website at: www.umt.edu/internships.

Disability Services for Students

Students with disabilities can expect access at the University of Montana-Missoula. Wherever possible, the University exceeds mere compliance with the civil rights laws of Section 504 of the Rehabilitation Act, the Americans with Disabilities Act, and the Montana Human Rights Act. The University's programs are readily accessible to and usable by people with disabilities. The campus assures Program access is delivered to the maximum extent feasible and in the most integrated manner possible.

Disability Services for Students, a student affairs office, leads the University's program access efforts for students. Disability Services provides and coordinates reasonable accommodations and advocates for an accessible and hospitable learning environment. We encourage self-determination and self-reliance by students with disabilities. Examples of services include priority registration, physical accessibility arrangements, academic adjustments, auxiliary aids (readers, scribes, sign language interpreters, etc.), alternative testing, conversion of print textbooks to e-text, assistive technology assistance, and other reasonable accommodations. To achieve equal access, Disability Services vigorously pursues the removal of informational, physical, and attitudinal barriers to all University programs. "Expect Access", Disability Services handbook for students, and a campus accessibility map are available on the [UM Disability Services for Students website](#).

Students with disabilities should plan ahead and get in touch with Disability Services prior to arriving on campus. For additional information, contact Disability Services for Students in Lommasson Center 154 or (406) 243-2243 (Voice/Text) or dss@umontana.edu. Please visit the [UM Disability Services for Students website](#) to find details on our services.

The UM Veteran's Education and Transition Services (VETS) Office

The University of Montana's Veteran's Office has moved to the new Veteran's Education and Transition Services (VETS) location. The VETS Office is located on the Southeast corner of the Mountain Campus at 1000 E. Beckwith Avenue, where Beckwith Ave. becomes Campus Drive. The office serves all UM veterans and their family members, including those attending the Missoula College. VETS Office hours are M-F 8 a.m. - 5 p.m.

Contact information:

Foreign Student and Scholar Services

The office of Foreign Student and Scholar Services (FSSS) assumes responsibility for the general welfare of foreign students at the University of Montana from admission to graduation and practical training. It provides direct support services, consultation, and liaison. The office assists in the reception and orientation of foreign students and helps with their integration into the University and community. It interprets immigration regulations and laws and assists students in maintaining legal status and obtaining benefits related to their visa status. Staff members provide advising for academic and personal concerns, cultural adjustment, financial problems, and other concerns that arise. The staff works with the International Student Association and other student groups, as well as the Missoula International Friendship Program to sponsor cultural activities, a speaker's bureau, a community hospitality program for students, leadership opportunities for students, and the annual International Culture and Food Festival. FSSS coordinates the UM Global Partner Program, a campus peer-mentoring program. It offers educational fields trips; winter and summer break activities, as well as initial and on-going orientation and educational programs on relevant topics. FSSS manages the campus' International House, an activity center for inter-cultural events.

Foreign Student and Scholar Services works closely with other service and advising offices on campus to optimize those services and their visibility to foreign students.

Foreign Student and Scholar Services prepares certificates or petitions for the Exchange visitor J-1 visa and advises foreign scholars who need to change or extend their visa status, travel temporarily out of the United States or bring dependents to this country. Finally, the office serves as liaison to federal agencies dealing with foreign student and scholar concerns, such as the US Citizenship and Immigration Service, Department of Labor, Department of State, Internal Revenue Service and Social Security Administration. For more information visit the [Foreign Student and Scholar Services website](#) or contact us at fsss@umontana.edu.

Office of International Programs

The Office of International Programs (OIP) promotes and provides international life-changing experiences and related educational opportunities, serving as a resource that contributes to the culture of a globally-minded community through its several different sections. The OIP is responsible for the recruitment of all international students to UM through a variety of programs including Study Abroad, Partner Programs, English Language Institute, Undergraduate Pathway (UP) Program, and Full Admissions. The OIP works with its partners to receive sponsored international students and administer their programs. The English Language Institute (ELI) department of the OIP serves international students who wish to improve their English language and academic skills in order to pursue studies at UM or another higher education institution. The OIP also offers students the exciting opportunity to study abroad in one of over 50 countries through three different UM sponsored programs: Faculty-Directed Programs, Partner Universities, and International Student Exchange Programs (ISEP). Global Gateway, an innovative educational service portal within the OIP, develops partnerships with the UM campus, local schools, and community organizations that promote cultural awareness and sharing foreign cultures, traditions, and customs. For additional information, visit OIP in the International Center, call (406) 243-2288, email oip@umontana.edu, or visit the [International Programs website](#).

English Language Institute

UM offers an intensive English program through the English Language Institute. Students are enrolled in 20 hours of class each week. ELI's curriculum addresses the needs of international students whose scores are below UM language requirement scores of 500 ITP/ 61iBT. ELI courses also address the needs of students who want to raise

their English language proficiency in order to gain admission to a university or college where English is the language of instruction. Through this program, ELI students can begin their university studies at UM in several ways. They can successfully participate in the ELI/ UM Bridge Program, show their academic readiness through ELI coursework or meet the TOEFL requirements. Curry Health Center

406-243-2122

Curry Health Center provides affordable, accessible, high quality, student-centered health services to University of Montana students to enhance student learning, promote personal health and development and teach important life skills.

Curry Health Center is YOUR campus based health care center, with services designed to meet the needs of college students and the campus community.

General Information

The Curry Health Fee is paid at registration by students who enroll for seven credits or more (excluding distance only students). Students taking less than seven credits per semester may elect to pay the Health Fee at any time during the semester. The Curry Health Center provides a wide range of primary health care and health promotion services at discounted rates well below what students would generally find in the Missoula community.

Services in Wellness and Student Advocacy Resource Center (SARC) are available to all students. Services in Medical, Counseling and Dental are available only to students who pay the Curry Health Fee.

We recognize the busy nature of student schedules and seek to provide accessibility for both urgent needs and more routine care via appointments or walk-ins. We are happy to coordinate care with providers "back home" or assist with referral to community resources for problems beyond the scope of the Curry Health Center.

Medical Services

406-243-4330

Curry Health Center provides both primary health care services as well as walk-in care services to the University of Montana student population.

- Appointment & Walk-In Care
- Preventive Care
- Injury & Illness
- Women's & Men's Health
- Allergy Shots
- Saturday Clinic
- Lab & X-ray
- Traveler's Health

Counseling

406-243-4711

Counseling provides rapid access and brief therapy for University of Montana students.

- Individual & Groups
- Psychiatry

- Crisis Services

Behavioral Health Options

- Alcohol Classes
 - Out-Patient Counseling
 - Substance Use Counseling

Dental

406-243-5445

Dental care is available to students who have paid the Curry Health Fee. The Dental Clinic's primary focus is on urgent and preventative care. While urgent care is given priority, routine dental care is also provided as time allows. Charges for dental services are set at a substantially lower rate than the private sector.

Services Provided

1. Urgent dental care.
2. Fillings, root canals, simple extractions, crown and bridge procedures (as time permits).
3. Teeth cleaning, periodontal scaling, and oral hygiene instructions.
4. Routine exams and X-rays ('checkups') on a limited basis-one per year.
5. Night guards for TMJ disorders and protection from grinding.

Referrals to specialists or other dentists are provided for students whose dental needs are beyond the scope/capabilities of the clinic, e.g., oral surgery, complex root canals, orthodontics, dentures, etc. Charges incurred at private offices are the student's responsibility.

The Student Insurance plan does **not** cover dental charges.

Wellness

406-243-2809

Wellness at Curry Health Center provides health education and wellness services to students to help them stay safe and healthy, now and in the future.

- Safer Sex Resources
 - Tobacco Quit Kits
 - Personal Health Coaching
 - Stress Management
 - Peer Educator Training

Student Advocacy Resource Center (SARC)

406-243-5244

24- Hour Crisis 406-243-6559

Our advocates and staff provide support to anyone who has experienced sexual assault, relationship violence, stalking, and discrimination. The goal of our confidential advocacy services is to help ensure client safety and support personal autonomy, worth, dignity and power.

Our services are comprehensive and we actively listen, believe in, assist and support our clients. SARC interns and professional staff provide brief counseling services for students who have experienced sexual assault or relationship violence. Based upon your decisions and choices, we also provide referrals and connections within the justice, medical, and social service systems.

Your communications with SARC are confidential. Law enforcement, University administration, faculty, and/or family members will not be contacted by SARC unless you request us to do so. Additionally, you have the option of being completely anonymous in your interactions with SARC.

Services provided

- Drop-in Support Center and 24-hour Support Line
- Crisis Intervention and Case Management
- Academic, Medical, and Law Enforcement Advocacy
- Individual and Group Counseling

Health Services Pharmacy

406-243-5171

The Health Services Pharmacy, located in the Curry Health Center building, offers students a complete prescription service and accepts many 3rd party insurance plans at very reasonable rates. The pharmacy is operated by the School of Pharmacy in cooperation with Curry Health Center and is used for training pharmacy students under the supervision of registered pharmacists.

Insurance Billing

406-243-2844

Because of your privacy rights and concerns, Curry Health Center will not automatically bill your insurance plan for services received at Curry Health Center. If you would like to file an insurance claim for services received at Curry Health Center, you must request this through the clinic that you received services from. Curry Health Center will provide a "Walkout Statement" to you that you can send to your insurance. Because your insurance company reimburses you directly, you are responsible for paying charges incurred at Curry Health Center, not your insurance company.

Curry Health Center is not a Medicare/Medicaid provider, nor do we accept direct payments from insurance companies.

University Center

The University Center enriches campus life by providing student-focused opportunities, programs, services, and space.

- The University Center is student-focused. We provide students from diverse backgrounds with the guidance and resources to define and participate in their own learning and development. Student learning, discovery, and engagement are at the core of our work.
- The University Center is committed to providing a broad range of opportunities that enrich the university experience. Through activities, governance, employment, and volunteerism students develop life-long leadership and professional skills.
- The University Center designs programs and activities that appeal to a wide variety of student interests. Our core values – learning, leadership, diversity, and fun – reflect our commitment to relevant and intentional programs that enhance students' overall educational experience.

- The University Center offers a myriad of convenient services including an art gallery, hi-tech study lounge, game room, theater, conferencing services, shipping and mail center, bank and ATM's, copy center, full-service hair salon, bookstore, market, food court, and campus OneCard.
- The University Center provides an inclusive, clean, well-maintained, and environmentally-conscious space for the campus and greater community to meet, study, and interact.

Sports and Recreation

Organized sports and recreational activities are an important part of academic and leisure life at the University.

Intercollegiate Athletics

The University of Montana-Missoula is a Division I member of the National Collegiate Athletic Association, and the Big Sky Conference. The athletic program consists of 14 varsity teams. The men's program includes competition in basketball, cross country, football (Football Championship Subdivision), indoor and outdoor track, and tennis. The women's program offers competition in basketball, cross country, tennis, indoor and outdoor track, volleyball, golf, and soccer. The teams go by the nicknames Griz and Lady Griz. Athletic scholarships are offered in all sports.

Campus Recreation

The Campus Recreation Department offers a wide variety of services to the students, faculty and staff of The University of Montana. A comprehensive intramural sports program provides opportunities for men's, women's and co-recreational team competition and individual events. An outstanding Fitness Program offers yoga, pilates, strength training and other sports specific conditioning.

Recreational facilities include gymnasiums, weight rooms, and indoor running track, handball and racquetball courts, multipurpose fitness studios, tennis courts, indoor swimming pool, indoor climbing wall, and a golf course. Sports equipment such as balls, bats, gloves, etc. can be checked out for free and other equipment such as volleyball, nets, badminton sets, and horseshoes require a cash deposit.

The Outdoor Program offers services to students, faculty, staff and the general public, supplying information, training, and education about outdoor pursuits and sports. Classes are offered on a non-credit basis for activity credits through the Health and Human Performance Department. The Outdoor Program also organizes outdoor trips and hosts high adventure and educational films and lectures.

University Golf Course

The University of Montana-Missoula has a picturesque nine/eighteen hole golf course open to students, faculty, and staff, as well as the general public. It is located approximately one-half mile south of the main campus.

The course has a clubhouse restaurant, driving range, putting and chipping green. The pro shop is well-stocked and club and cart rentals are available. Private lessons are offered by appointment with an assortment of rate structures.

Grizzly Pool

The University of Montana Grizzly Pool is a 7-lane, 25-yard indoor pool. Present programs include: fitness swims, recreational swims, classes for all ages (infant to adult), life guarding and WSI classes, pool rentals, Swim Shop, and competitive skills lessons.
