

# BIOLOGY B.A. - BIOLOGICAL EDUCATION

Individuals interested in teaching in K-12 schools must complete a degree in the content area they want to teach plus the Teacher Education Program through the Department of Teaching and Learning. Individuals must complete the teaching track within that degree program, which may contain different course requirements than the non-teaching track since the sequence of courses is designed to meet state standards. Upon completion of the degree program with the teaching track and the secondary licensure program, one will be eligible for a standard Montana teaching license in this content area.

## Bachelor of Arts - Biology; Biological Education Concentration

### College of Humanities & Sciences

Degree Specific Credits: 71

Required Cumulative GPA: 2.75

### Catalog Year: 2018-2019

**Note:** This concentration provides students with coursework in Biology and related sciences and mathematics needed to be certified by the State of Montana to teach secondary Biology (in middle and high school). This concentration is appropriate for students interested in teaching Biology in a larger, more urban school. In order to be licensed to teach secondary Biology, students must be admitted to the Teacher Education Program through the Phyllis J. Washington College of Education and Human Sciences.
